

USER EXPERIENCE, CERTIFICATE

The User Experience certificate is intended for students interested in learning and applying UX research practices and design principles to create useful, usable, and accessible product experiences for users, typically as it concerns documents, smartphone applications, and websites. The certificate is intended to validate the student's attainment of these skills and therefore assist them in initial employment or professional advancement.

The goal of this certificate is to introduce students to the fundamental research practices and design principles of UX, thereby enabling them to create useful, usable, and accessible experiences for users and to provide them a credential that verifies their ability to do so, thereby assisting them with securing employment or professional advancement.
