

MEDIA COMMUNICATION: DIGITAL MEDIA CONCENTRATION, BACHELOR OF ARTS

Student Learning Outcomes

(Based on Department Goal 1: Offer a marketable and professionally credible program.)

1. Students will display critical thinking skills, conveying complex ideas related to current issues and ethical expectations of mass media and related disciplines.
2. Students will write with clarity and organization utilizing the proper format, writing mechanics and audience focus, in a manner that is professionally competitive for an entry-level position in the discipline.
3. Students will demonstrate technological expertise related to the specific concentration area that is professionally competitive for an entry-level position in their discipline.
4. Students will demonstrate command of subject, organization of thoughts, and skill at interpersonal communication in front of an audience.

Outcomes Assessment Activities

Student success is measured through a variety of methods that include classroom writing samples, portfolios of student work, professional internship evaluations, exit interviews, student employment upon graduation, and alumni feedback.

Each graduating senior creates an academic portfolio of all salient work or projects completed while in the department. Department faculty review and evaluate a selection of portfolios to assess student learning.

The Mass Communications Department and Center for New Media requires that the academic portfolio demonstrate a pattern of sustained academic growth and development of the major and minor, appropriate to the student's concentration area.

The academic portfolio should reflect the quality and level of intellectual and scholarly work undertaken by the student while in the department, relative to the qualitative, quantitative, ethical, legal and aesthetic dimensions of the field. The appropriateness of the content is dictated by the student's concentration area and is prescribed by the individual's advisor.

Specific Program Requirements

- Majors are required to complete a 39 credit curriculum which includes:
 - 18 credit Core
 - 12 credit concentration area
 - 9 credits of Applied coursework
- Successful Media Communication majors will demonstrate sufficient knowledge, comprehension and analytical skills by the ability to evaluate specific communication events in the proper context of their concentration area.
- Students majoring in Media Communication must achieve a C grade or better in all MC courses, both required and elective, to be eligible

for graduation. Students who earn below a C in MC courses will be required to repeat them to achieve the 2.0 requirement for graduation in the major.

- Each faculty member will keep, in the department's central file, a set of course outlines or syllabi that list the objectives and skills achieved during the term. This central pool of materials describes the detailed expectations and accountability elements for the MC major on a course-by-course basis.
- Consistent with general CSU Pueblo policy, no student enrolled in MC courses may accumulate unexcused absences, or arrive late for scheduled classes without faculty consultation.
- The Media Communication department believes that grades are valid quantitative indicators of student performance. Students' GPAs in the major or minor will be used by concentration area advisors for both formative and summary evaluations of majors and minors.
- While it is necessary for Media Communication majors and minors to meet the minimum GPA standards set by the department and the University, it is expected that graduates will exceed these standards.
- MC 101 MEDIA AND SOCIETY (3.0 c.h.), does not fulfill a social science general education requirement for Media Communication majors.

Planning Sheet

Disclaimer: The Planning Sheet is designed as a guide for student's planning their course selections. The information on this page provides only a suggested schedule. Actual course selections should be made with the advice and consent of an academic advisor. While accurately portraying the information contained in the college catalog, this form is not considered a legal substitute for that document. Students should become familiar with the catalog in effect at the time in which they entered the institution.

Note: In addition to requirements for the major and general education, students must complete either:

1. Any minor degree program listed in the catalog other than their major; or
2. 18 credit hours outside of the major.

Students may not use the same credits to satisfy requirements for both major and minor degrees, or use credits taken to satisfy general education requirements.

*Meets the major requirement; therefore cannot be counted towards general education requirements.
