

SOCIOLOGY, BACHELOR OF SCIENCE

Sociology examines human society with an emphasis on social structure, social interaction, and social change. From the analysis of passing encounters between strangers on the street to the investigation of broad-based global social movements, sociology examines the subtle, yet complex, ways individual lives interact and intersect with the collective experience of others. One of the sociology program's special emphases is understanding social inequalities and their implication for social justice.

Comparative, cross-national, and cross-cultural perspectives are also offered in many courses.

The analytic frameworks sociologists employ encourage students to think about complex situations in a new way by showing how the social environment influences people's life options, advantages and disadvantages. Sociologists are interested not only in understanding social issues and social organization, but also in resolving social problems and improving social conditions for human populations. With sociological knowledge we become more aware of ourselves, of other people, and of the world we all live in.

To study sociology, a student needs to acquire information (what we know), methodology (how we know), and theory (how we explain).

A major in sociology will require students to develop background and strength in each of these domains. The insights gained from a sociological perspective include the ability to perceive the structures and patterns upon which everyday life rests, to understand the interaction between individual agency and social forces, to interpret events from diverse perspectives, and to examine existing social arrangements critically.

The sociology major prepares students to work in education, research, government, business, human services, community organizing, program development, policy analysis, youth services, criminal justice, crime and violence prevention, and victim services. Sociology also prepares students for graduate studies in sociology or related social sciences, for applied research careers, or for professional degree programs in law, social work, public administration and other fields.

The major is organized to provide a firm foundation in theory and research methods while allowing students to tailor their major to their specific subject interests.

A sociology major leads to either a Bachelor of Arts (BA) or a Bachelor of Science (BS) degree.

Student Learning Outcomes

The student learning outcomes apply for both the BS and BA degrees in Sociology.

Upon completion of the Sociology major, students should be able to:

1. Understand the major theoretical perspectives in sociology through comparing, contrasting, and thinking critically about the roles of these theories in the study of society.
2. Apply a variety of quantitative and qualitative research methods in the gathering and analysis of sociological data and recognize common methodologies used in sociological literature.

3. Use sociological theories and methods to analyze substantive social issues and problems such as deviance, race, gender, sexuality, and class.
4. Demonstrate critical thinking by evaluating arguments and evidence related to social issues and by connecting sociological insights to current events and personal experiences of the social world.

Specific Program Requirements

Program Overview ¹

Course	Title	Credits
General Education		35
Core Requirements		12
Major Electives (a minimum of 15 upper division credits)		24
Certificate or Minor + Electives		24
Open Electives		25
Total Credits		120

¹ The 120 credits earned must be inclusive of a minimum of 40 upper division credits.

Program Requirements

Course	Title	Credits
Core Requirements		
SOC 101	Introduction to Sociology (GT-SS3)	3
SOC 205	Research Methods	3
SOC 335	Advanced Research Methods	3
SOC 310	Social & Cultural Theory	3
Electives		
Select 24 credits hours of sociology electives (a minimum of 15 upper division credits)		24
Total Credits		36

Sociology Electives

Course	Title	Credits
SOC 105	Understanding Human Diversity	3
SOC 201	Social Problems (GT-SS1)	3
SOC 203	The Criminal Justice System	3
SOC 231	Marriage & Family Relationships	3
