

CONSTRUCTION MANAGER, CERTIFICATE

The Construction Management BS Degree is designed to prepare students for entry level positions in the heavy/civil or Commercial/Residential construction management industry.

Non Construction Management Majors who wish to build their construction management knowledge in various discipline specific areas can obtain a certificate in any of the following Construction Management specialization areas:

Advanced Construction Manager Certificate

Construction Manager Certificate

Estimating & Planning Construction Costs Certificate

Recipients of a certificate will gain a deeper understanding of the current major issues effecting the construction industry. The student will be exposed to the important skills and knowledge necessary to be a manager in today's construction industry.

The Advanced Construction Manager Certificate is intended to enhance a current construction industry professional's body of knowledge with advanced construction industry skills. Interested students must consult with a Construction Management Program approved advisor prior to registration to ensure adequate entry level skills.
