The Hasan School of Business

Business Administration, Master of Business Administration

Business Administration, Master of Business Administration: Cybersecurity Emphasis

Business Administration, Master of Business Administration: Healthcare Administration Emphasis

Business Administration 3+2 Program, Integrated Bachelor of Science in Business Administration/Master of Business Administration

Business Administration 3+2 Program, Integrated Computer Information Systems, Bachelor of Science/Master of Business Administration

Business Administration 3+2 Program, Integrated Construction Management, Bachelor of Science/Master of Business Administration

Business Administration 3+2 Program, Non-Integrated BS, BA/MBA

Accounting, Bachelor of Science in Business Administration

Business Management, Bachelor of Science in Business Administration

Business Management, Bachelor of Science in Business Administration: Agribusiness Emphasis

Business Management, Bachelor of Science in Business Administration: Information Technology Emphasis

Business Management, Bachelor of Science in Business Administration: Marketing Emphasis

Business Management, Bachelor of Science in Business Administration: Organizational Risk and Security Management Emphasis

Business Management, Bachelor of Science in Business Administration: Sports Industry Management Emphasis

Computer Information Systems, Bachelor of Science

Computer Information Systems, Bachelor of Science: Cyber Security Emphasis

Computer Information Systems, Bachelor of Science: Data Analytics Emphasis

Computer Information Systems, Bachelor of Science: Software Development Emphasis

Economics, Bachelor of Science in Business Administration

Economics, Bachelor of Science in Business Administration: Finance Emphasis

Accounting, Minor

Business Administration, Minor

Computer Information Systems, Minor

Data Analytics, Minor

Economics, Minor

Finance, Minor

Marketing, Minor

Supervisory Management, Minor

NSA-CAE Certificate in Cyber Security Defense

Our Mission

Colorado State University-Pueblo is committed to maintaining respectful, safe, and non-threatening educational, working, and living environments. In furtherance of this commitment, CSU-Pueblo does not discriminate on the basis of age, citizenship, creed, color, disability, gender, gender expression, gender identity, genetic information, national origin or ancestry, pregnancy, race, religion, sex, sexual orientation, veteran status, or because an individual has inquired about, discussed, or disclosed their own pay or the pay of another employee or applicant. CSU-Pueblo is an affirmative action/equal opportunity institution. It encourages diversity and provides equal opportunity in education, employment, all of its programs and activities, and the use of its facilities. CSU-Pueblo takes affirmative action to employ qualified women, racial/ethnic minorities, protected veterans, and individuals with disabilities. For any inquiries or concerns regarding discrimination, protected class harassment, or sexual misconduct, please contact the Office of Institutional Equity at (719) 549-2210 or by visiting the Administration Building - Suite 304.

History

Since its incorporation in 1933 as Southern Colorado Junior College to its current designation as a regional, comprehensive university, CSU-Pueblo has served the changing educational, economic development, and cultural needs of the citizens of Colorado.

Vision, Mission, and Values

Colorado State University-Pueblo was established by state law:

There is hereby established a University at Pueblo, to be known as Colorado State University-Pueblo, which shall be a regional, comprehensive university with moderately selective admissions standards. The University shall offer a broad array of baccalaureate programs with a strong professional focus and a firm grounding in the liberal arts and sciences. The University shall also offer a limited number of graduate programs. (Colorado Statutes 23-31.5-101)

In 2018, the University adopted a new vision and mission, one that honors the city it is located in and reclaims a label once used to describe regional comprehensive universities. The University's new vision recommitts it to people and community, which reflects its DNA and provides an opportunity to reimagine what a university and community can accomplish together. This statement further articulates the campus mission and strategic goals.

Our Values

CSU-Pueblo is dedicated to interdisciplinary learning and entrepreneurship that elevate our people and our community, creates educational opportunities, foster unique collaborations, and support inclusion, access, and affordability as a gateway to the world.

CSU-Pueblo offers a wide array of undergraduate degree programs in the humanities, social sciences, sciences and math, education, engineering, nursing, business, and other professional areas. The University’s educational focus is grounded in the traditional liberal arts and sciences, and addresses students’ immediate and long-term educational needs. Students graduate with the knowledge necessary to enter their professions and with the problem solving, critical thinking, research, and communication skills required to keep current in those professions in the future.

Characteristic of regional comprehensive universities nationwide, CSU-Pueblo also offers selected master’s and doctorate degrees that meet regional and broad societal needs, including business, nursing, engineering, education, history and the sciences (biology, biochemistry, and chemistry).

As institutions of the CSU System, CSU-Pueblo, CSU-Fort Collins and CSU-Global share many important values and commitments, even while they pursue different missions—CSU in Fort Collins as a large research, doctoral degree granting university, CSU-Pueblo as a small comprehensive, master’s degree granting university and CSU-Global as a provider of innovative, higher learning opportunities for nontraditional. All three universities are committed to excellence and strive to set the quality standards for their types of institutions. All three have excellent undergraduate and graduate programs that serve the citizens of Colorado through teaching, research, and service. All three universities promote civic engagement, freedom of expression, innovation, environmental sustainability, inclusiveness and diversity, integrity and mutual respect, and are committed to employing a student-centered focus, providing opportunity and access, and being accountable.

High-quality teaching and learning are Colorado State University-Pueblo’s highest priorities. In recent years, program offerings have been expanded, new teaching and learning methods—especially those involving active, applied learning and technology—have been incorporated into all programs, faculty have strengthened their scholarly activities to stay current in their fields of expertise, and effective student academic support services (e.g., advising, learning centers, career planning) are readily available. As a result, CSU-Pueblo offers comprehensive and effective learning experiences that meet the many needs of our students.

The University is similarly committed to expanding access to higher education, especially for Colorado citizens. It has expanded its recruitment, admissions and financial aid resources, as well as its evening, extended studies and online offerings to provide high-quality educational opportunities for a broader student population. It also works closely with other public institutions in the state to smooth the transfer process for incoming, outgoing, and dual enrollment students.

CSU-Pueblo’s success in fulfilling its mission to be an educational resource for the state's diverse population is documented by the characteristics of its student body. We have a diverse student body including traditional and non-traditional students, first-generation students, campus-based and community-based students, students from Colorado and from foreign countries, first-year and transfer students, students fresh out of high school, students who are working professionals with families to support, and students of many different professions.

Our Mission

CSU-Pueblo’s success will be measured by the resilience, agility, and problem-solving abilities of our diverse student population and the ways in which our graduates are able to navigate work in a rapidly changing world.

THE UNIVERSITY

It also works closely with other public institutions in the state to smooth the transfer process for incoming, outgoing, and dual enrollment students.

CSU-Pueblo’s success in fulfilling its mission to be an educational resource for the state’s diverse population is documented by the characteristics of its student body. We have a diverse student body including traditional and non-traditional students, first-generation students, campus-based and community-based students, students from Colorado and from foreign countries, first-year and transfer students, students fresh out of high school, students who are working professionals with families to support, and students of many different professions.
We offer a wide variety of housing options to serve student needs and interests. We have both traditional residential facilities and town house living accommodations for our upper classmen and have the ability to house up to 950 students. Our housing programs offer vibrant activities, programs with services that enhance the students’ undergraduate experience. Support services such as tutoring, advising, referrals, study services and a multitude of engagement opportunities enable our residents to have a safe and fulfilling collegiate experience and make it easier to achieve success in their educational programs. It is common to see faculty lead programs and interactions with residents, while others take advantage of lounges, exercise facilities, computer labs, basketball courts, a bistro and other amenities that make their residential experience a home away from home.

The campus landscape has changed dramatically in the last decade with renovations to its athletic and academic facility (Massari Arena) and a $25 million makeover to the University Library as well as construction of a Student Recreation Center, Student Recreation Field, the Neta and Eddie DeRose ThunderBowl football and track stadium, a three-part residence hall complex, an enhanced soccer/lacrosse complex, a $16 million General Classroom Building, and a $30+ million major renovation and expansion to the Occhiato Student Center.

CSU-Pueblo has 22 athletic teams and is part of the Rocky Mountain Athletic Conference. The Neta and Eddie DeRose ThunderBowl houses intercollegiate programs in football, men’s and women’s cross country and track and field. Basketball, volleyball, and wrestling programs compete in Massari Arena, while the baseball and softball programs reside in the Rawlings Sports Complex, and soccer and lacrosse in the Art and Lorraine Gonzales Stadium.

**GOVERNANCE**

CSU-Pueblo is governed by the Board of Governors of the Colorado State University System (http://www.csusystem.edu/board-of-governors/board-members), which also governs Colorado State University in Fort Collins and CSU-Global.

On matters delegated to the University, CSU-Pueblo is committed to a system of shared governance in which faculty, staff and students are engaged in setting the agenda for the University and in making decisions about how best to reach our goals and fulfill our mission. The President is assisted by a University Leadership Team which consists of the Provost, the Vice President for Finance and Administration, Vice President of Enrollment Management, Communication and Student Affairs, Deans, representatives from the Classified Staff, Administrative Professional Council, and Faculty Senate, and others.

**ACCREDITATION**

Colorado State University-Pueblo is accredited by the Higher Learning Commission, 230 N. LaSalle St., Suite 7-500, Chicago, IL, 60604, Phone (800) 621-7440.

Individual programs approved by specialized accreditation agencies include: athletic training, the Commission on Accreditation of Athletic Training Education (CAATE); chemistry, the American Chemical Society; civil engineering technology, the Engineering Technology Accreditation Commission of ABET; industrial engineering, the Engineering Technology Accreditation Commission of ABET; engineering, the Engineering Accreditation Commission of ABET; education, the Colorado State Board of Education; music, the National Association of the Schools of Music; nursing, Accreditation Commission for Education in Nursing (ACEN); and social work, the Council of Social Work Education (CSWE). The
Hasan School of Business is accredited by the Association to Advance Collegiate Schools of Business (AACSB) International.

**CLOSURE**

In the case of extreme weather conditions, energy resource reductions, or situations impacting normal operating conditions, it may be necessary to curtail or shut down university operations. Decisions regarding campus closures will be made as early as possible. Closure decisions impacting on-campus and off-campus evening classes (i.e., CSU-Pueblo at Colorado Springs Tower locations and Ft. Carson) will be made by 5:30 a.m. when possible. Even if conditions improve, a closure decision remains in effect for the time period specified. Announcements of class cancellations beyond an overall campus closure are the responsibility of individual instructors.

The Executive Director of Marketing, Communications and Community Relations is responsible for notifying local and regional radio and television stations of campus closures through the Flashnet Media Service. Students and staff may access closure messages for the University and other area entities by logging on to http://www.flashnews.net/rocky.html and clicking on View Current Info or signing up to receive text message notification.

To update or opt-out of Emergency Text Messages, please visit your PAWS or Employee Portal and follow the instructions. Faculty and staff should update their information with Human Resources as it changes.

The following scenarios are pre-approved by University officials for immediate text notification:

- Campus-wide Delays and Cancellations
- Dangerous Situation
- Hazardous Materials Warning
- Severe Thunderstorm Warning
- Tornado Warning
- Blizzard Warning

If classes are cancelled, a message also will be posted on the University’s home page at: http://www.csupueblo.edu. Class cancellations or delay notification also will include the Pueblo Transportation Company and any appropriate non-law enforcement organizations.

**CAMPUS EMAIL POLICY**

CSU-Pueblo uses its campus email system for official communication. Consequently, all students, staff and faculty are required to utilize their assigned campus email account in accordance with the university electronic communications policy. Students are expected to read and respond to messages in a timely, consistent fashion. If you need assistance accessing your email, contact the CSU-Pueblo Help Desk at 549-2002.

**THE CLERY REPORT**

University public safety is provided by the Pueblo County Sheriff’s Office in conjunction with the Office of Parking and Safety. The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act is the landmark federal law that requires colleges and universities to disclose information on security policies, crime statistics, and provide timely information about crime on and around campus. The CSU-Pueblo Fire Safety and Security Report can be found at http://www.csupueblo.edu/campus-safety/pages/Default.aspx.

The Report is compiled by the Campus Safety Team which is comprised of the following: Parking and Safety Manager (Clery Coordinator), members of the Pueblo County Sheriff’s Office; Dean of Student Affairs, Director of Student Conduct and Case Management, Associate Vice President of Facilities Management; Director of Environmental Health and Safety, Members of the Office of Institutional Equity, Executive Director of External Affairs, Assistant Dean of Student Conduct and Residence Life & Housing.

**EQUAL OPPORTUNITY/AFFIRMATIVE ACTION COMMITMENT & NOTICE OF NONDISCRIMINATION**

Colorado State University–Pueblo is committed to equal educational and employment opportunities and to the elimination of all forms of discrimination, protected class harassment, sexual misconduct, intimate partner violence stalking, and retaliation. Furthermore, CSU-Pueblo is committed to maintaining respectful, safe, and nonthreatening educational, working, and living environments. In furtherance of this commitment, CSU-Pueblo does not discriminate on the basis of age, citizenship, creed, color, disability, gender, gender expression, gender identity, genetic information, national origin or ancestry, pregnancy, race, religion, sex, sexual orientation, veteran status, or because an individual has inquired about, discussed, or disclosed their own pay or the pay of another employee or applicant. CSU-Pueblo is an affirmative action/equal opportunity institution. It encourages diversity and provides equal opportunity in education, employment, all of its programs and activities, and the use of its facilities. The University takes affirmative action to employ qualified women, racial/ethnic minorities, protected veterans, and individuals with disabilities.

The Director of the Office of Institutional Equity has been designated by the President as the person with overall responsibility for the implementation and maintenance of the University's affirmative action programs. The Director of the Office of Institutional Equity has also been designated as the University’s Title IX Coordinator, Americans with Disabilities Act (ADA) Coordinator, and Section 504 of the Rehabilitation Act of 1973 Coordinator. As such, the Director of the Office of Institutional Equity is responsible for addressing compliance with all federal, state, and local laws pertaining to nondiscrimination, civil rights, access, and equity. For any inquiries or concerns regarding discrimination, protected class harassment, or sexual misconduct, please contact Joshua R. Ernst (josh.ernst@csupueblo.edu), Director, Office of Institutional Equity at (719) 549-2210, Administration Building − Room 304.

Student seeking disability resources and accommodation or who have other related concerns, should contact Justin Hiniker (dro@csupueblo.edu), Director of the Disability Resource & Support Center at (719) 549-2648, Library and Academic Resource Center (LARC) − Room 169.

All members of the University community, and their guests, have the right to be free from unwanted sexual contact, coercion, abuse, violence, threat of violence, and harassment and are expected to conduct themselves in a manner that does not infringe upon the rights of others. When an allegation of sexual misconduct is brought forward, the University will investigate the matter and take appropriate action. Anyone found to have committed sexual misconduct will face immediate and appropriate disciplinary action, up to and including expulsion from the University.

We will bring this message to all corners of our University, and nurture the core value that fosters a safe and healthy environment for members of our community. Further, we emphasize that sexual assault survivors deserve our support and assistance.

We strive to build healthy relationships within the university community free from sexual violence. To that end, the Colorado State University System is committed to raising the awareness of sexual misconduct actions; providing preventative training courses and promoting a healthy and safe environment for our students.

**SEXUAL MISCONDUCT REPORTING (Title IX & VAWA Compliance) AND EMPLOYEE MANDATORY REPORTING**

All members of the University community, and their guests, have the right to be free from sexual misconduct, intimate partner violence, and stalking. To that end, the University has enacted a comprehensive Policy on Discrimination, Protected Class Harassment, Sexual Misconduct, Intimate Partner Violence, Stalking, & Retaliation (http://csu-pueblo-policies.colostate.edu/policy.aspx?id=141).

**BOARD OF GOVERNORS NON-DISCRIMINATION POLICY**

The Board of Governors is committed to a policy of non-discrimination for the institutions it governs in accordance with all applicable anti-discrimination and civil rights laws. Accordingly, the Board of Governors does not discriminate on the basis of race, age, color, religion, national origin, gender, disability, veteran status, genetic information, sexual orientation, gender identity or gender expression, or pregnancy.

**COLORADO STATE UNIVERSITY SYSTEM JOINT PROCLAMATION AGAINST SEXUAL MISCONDUCT**

On April 27, 2011, the CSU System along with the University issued its: Joint Proclamation against Sexual Misconduct. This proclamation provides:

The Colorado State University System and its institutions, have zero tolerance for sexual misconduct among members of our University communities.

All members of the University community, and their guests, have the right to be free from unwanted sexual contact, coercion, abuse, violence, threat of violence, and harassment and are expected to conduct themselves in a manner that does not infringe upon the rights of others. When an allegation of sexual misconduct is brought forward, the University will investigate the matter and take appropriate action. Anyone found to have committed sexual misconduct will face immediate and appropriate disciplinary action, up to and including expulsion from the University.

We will bring this message to all corners of our University, and nurture the core value that fosters a safe and healthy environment for members of our community. Further, we emphasize that sexual assault survivors deserve our support and assistance.

We strive to build healthy relationships within the university community free from sexual violence. To that end, the Colorado State University System is committed to raising the awareness of sexual misconduct actions; providing preventative training courses and promoting a healthy and safe environment for our students.

**TERMS OF THIS CATALOG ISSUE**

Students graduate under the catalog requirements noted in the Academic Policies section of this catalog. All statements made in this catalog and similar publications distributed generally to prospective or admitted students or interested parties shall be for informational purposes only and should not be interpreted as being contractual. Colorado State University-Pueblo reserves the right to change, modify, or cancel any course, program, and procedure, policy, financial requirement, or disciplinary arrangement set forth in this catalog whenever, in its sole discretion, it determines such action to be appropriate. Furthermore, Colorado State University-Pueblo will not be responsible for any failure to present or complete any course or program or to perform any other activity, function, or obligation mentioned in this catalog. Modifications to this Catalog pertaining to the academic policies and curricular requirements of the University, its individual colleges and its individual academic programs must be reviewed and approved by the Faculty Senate in accordance with the provisions of Chapter 1 of the Faculty Handbook prior to taking effect.

ADMISSION

Colorado State University-Pueblo welcomes applications from all persons interested in post-secondary education. The Office of Admissions is located in the Administration building. All correspondence concerning admission should be addressed to the Office of Admissions, Colorado State University-Pueblo, 2200 Bonforte Boulevard, Pueblo, CO 81001-4901 or by email to info@csupueblo.edu.

The Visitor Center, located in the Buell Communications Center at the entrance of campus, provides services specifically for new first-year and transfer students, including campus tours and information about the admissions process. Campus tours are available Monday thru Friday, and reservations can be made online at: www.goCSUPueblo.com (http://www.goCSUPueblo.com) or by contacting the Visitor Center at (719) 549-2418 or visitorcenter@csupueblo.edu.

Prospective students may obtain information about all CSU-Pueblo programs, as well as admission procedures, from the Visitor Center or the Office of Admissions.

For information about admission to CSU-Pueblo Online see the CSU-Pueblo Online section within the Special Academic Programs and Services section of this catalog.

Admission standards and requirements included in this section apply only to students entering the University in Fall 2019, Spring 2020, or Summer 2021.

Application Deadlines

For the best scholarship opportunities, registration time, and housing considerations, applicants should apply and be admitted as early as possible. Those still in high school may apply once they have completed six semesters. To be considered for a specific term, all documents required for admission must be received in the Office of Admissions by the deadline for that term. Transfer students should allow sufficient time to have official transcripts sent from all institutions previously attended.

Application forms and credentials must be filed by the following deadlines:

<table>
<thead>
<tr>
<th>Semester</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall Semester</td>
<td>August 1</td>
</tr>
<tr>
<td>Spring Semester</td>
<td>January 2</td>
</tr>
</tbody>
</table>

Enrollment Deposit

Newly admitted freshman, transfer, international, and degree plus students are required to pay an enrollment deposit prior to registering for their first semester of classes at CSU-Pueblo. If a student pays and decides not to attend one semester, but attends another, a previously-paid deposit will be honored for one calendar year.

Students should contact the Office of Admissions for questions regarding the deposit.

ADMISSION STANDARDS

Entering Freshman

Colorado State University-Pueblo's admission process is designed to promote diversity within the student population and to assure equal access to qualified applicants. The final admission decision is based on the applicant's potential for attaining a degree at the University.

First-time applicants are degree-seeking students who, at the time of application, have not yet successfully completed at least 24 credit hours of college-level course work after high school graduation. For these students, CSU-Pueblo will use several indicators to determine a student's admissibility, including test scores, high school GPA, and rigor.

CSU-Pueblo is a moderately selective institution, and is committed to providing access to a 4-year college degree to any student is who academically prepared. CSU-Pueblo looks at several factors to determine preparation, including assessment scores, high school GPA, and academic rigor.

Included below is a more information about each of these indicators, along with the middle 50% GPA and test score ranges for students admitted for Fall 2018. Many students who have test scores or GPAs outside of those ranges will still be admitted. These ranges are meant to help students see what CSU-Pueblo is considering, but are not strict requirements that must be met.

GPA: 2.91-3.76

In general, students must have at least a 2.0 to be considered for admission. While there are some exceptions, they are reserved for students with extenuating circumstances.

Assessment scores:

<table>
<thead>
<tr>
<th>ACT</th>
<th>SAT</th>
</tr>
</thead>
<tbody>
<tr>
<td>18-23</td>
<td>950-1120</td>
</tr>
</tbody>
</table>

It is strongly recommended that students have at least a 14 on all subsections of the ACT or at least a 380 on all subsections of the SAT, though students with lower scores may still qualify for admission.

Rigor:

While CSU-Pueblo will consider other indicators of rigor, it is recommended that students complete the following requirements:

<table>
<thead>
<tr>
<th>Academic Area</th>
<th>Number of Units*</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>
<td>4</td>
</tr>
<tr>
<td>Mathematics</td>
<td>4</td>
</tr>
<tr>
<td>Natural Science</td>
<td>3</td>
</tr>
<tr>
<td>Social Science</td>
<td>3</td>
</tr>
<tr>
<td>World Language</td>
<td>1</td>
</tr>
<tr>
<td>Academic Electives</td>
<td>2</td>
</tr>
<tr>
<td>Total</td>
<td>17</td>
</tr>
</tbody>
</table>

*An academic unit, often referred to as a Carnegie unit, is equivalent to one full school year of credit in a specific subject.

If a transcript includes both weighted and unweighted credentials, only the weighted credentials will be utilized by the University. If applicants do not achieve an index score of at least 86 with a minimum cumulative GPA of 2.0 and completion of the Higher Education Admission Requirements (HEAR), the credentials will be reviewed by an admissions committee which will base a recommendation for admission on:

1. The applicant's academic and personal potential to benefit from or contribute to University programs; and
2. The applicant’s previous academic record. Students with non-traditional backgrounds are encouraged to apply.

A student admitted to Colorado State University-Pueblo with an index score of 86 or below is required to enroll in an academic skill building and success course in the first term of enrollment as a condition of admission to the University. The default course for all majors is US 101 Academic & Career Exploration (1 c.h.). The following courses are also acceptable: MUS 101 Music Performance Symposium I ("0", 0.1 c.h.), EN 101 Introduction to Engineering (2 c.h.), EXHP 101 Intro to EXPER (2 c.h.), AIM 105 AIM and College Life (1 c.h.), CET 101 Intro to Civil Engineering Technology (2 c.h.), BIOL 171 First Year Seminar (1 c.h.), and BUSAD 101 Business-Careers and Opportunities (1 c.h.). Successful completion of the academic skill building course is a requirement of continued enrollment after the first semester. Students who are admitted with an index score of 80 or below are required to take a three credit course (US 151 Introduction to Academic Life (3 c.h.)) in their first semester. Students who are admitted with an index score of 81 to 86 are required in their first semester to take either a one credit course (US 101 Academic & Career Exploration (1 c.h.)) or substitute a course specified by their program and approved by the Curriculum and Academic Policies Board.

NOTE: Acceptance by the University does not necessarily mean acceptance into a particular degree program, some of which have admission requirements beyond those of the University.

Admission Requirements

Students may apply after the completion of their junior year in high school. One official transcript of high school work should be sent directly to the Office of Admissions from the high school at the time of application, and a final transcript with graduation date must be submitted after the applicant graduates from high school. Students who apply on the basis of the high school equivalency exams (including General Education Development (GED) and other state-wide approved exams) in place of high school graduation must have the agency issuing the test forward the official test scores (not the certificate) to the Office of Admissions. College credit earned in high school is eligible to count toward a degree at CSU-Pueblo, but cannot classify a student as a transfer student.

Applicants must submit:

1. A completed CSU-Pueblo application;
2. A $25 application fee (non-refundable);
3. An official transcript of high school records or official high school equivalency exam scores; and
4. Scores from either the ACT or the SAT. (Not required of applicants who are 23 years of age or older or who have been out of high school five or more years.)

*Students with non-U.S. transcripts must provide official translations.

**Note:** Applicants who have completed their secondary education through alternative options such as home schooling should submit documentation of that education (i.e., transcript, portfolio, narrative statements of accomplishment, etc). Consideration for admission will be in a similar manner as that for applicants from traditional high school programs, but additional emphasis will be placed on scores obtained on standardized examinations.

Graduates of Colorado high schools participating in the standards based admissions project will be considered according to the current state guidelines for that project.

Advanced Placement and International Baccalaureate Diploma Program

See Credit by Examination (Academic Policies section).

Basic Skills Assessment

The University complies with statewide policies adopted by the Colorado Department of Higher Education (CDHE). As amended for fall 2014, every public institution of higher education in Colorado is required to assess writing and mathematic skill levels of all first-time, degree-seeking students. CSU-Pueblo also assesses reading skills. **Students whose assessment scores fall below the minimum requirements must enroll and successfully complete the appropriate skill building course within their first 30 credit hours towards graduation.** Basic Skills Levels are determined by ACT or SAT scores. If students do not have an ACT or SAT score they must take the appropriate ACCUPLACER test. CSU-Pueblo also accepts COMPASS scores for placement.

Cut scores are listed below:

**CDHE Placement Guidelines**

**Skill Area: Writing**

**ACT Subscore**

English: 18

**SAT Subscore (before March 2016)**

Evidenced-Based Reading & Writing: 430

**SAT Subscore (March 2016 and later)**

Evidenced-Based Reading & Writing: 470

**Classic ACCUPLACER Score**

Sentence Skills: 95

**COMPASS Score**

Writing Skills: 79

**Skill Area: Mathematics**

**ACT Subscore**

Math: 19

**SAT Subscore (before March 2016)**

Math: 460

**SAT Subscore (March 2016 and after)**

Math: 500

**Classic ACCUPLACER Score**

Elementary Algebra: 85

**COMPASS Score**

Math Placement: 63

With an ACT math subscore of 19 or an SAT subscore of 460 (tests taken before March 2016) and 500 (tests taken March 2016 or after) no skill building courses are needed in math unless the general education math course mandated for your major requires it.
CSU-Pueblo Placement Guidelines

Skill Area: Reading

ACT Subscore
Reading: 17

SAT Subscore (before March 2016)
Evidenced-Based Reading & Writing: 430

SAT Subscore (March 2016 and later)
Evidenced-Based Reading & Writing: 470

ACCUPLACER Score
Reading Comp: 80

COMPASS Score
Reading Placement: 76

For more information on Basic Skills Assessment, contact the Center for Academic Enrichment at (719) 549-2584.

Transfer Students

Transfer applicants are degree-seeking students who, at the time of application, have completed a minimum of 24 credits of college-level coursework. Remedial courses, concurrent enrollment courses (courses taken while in high school), and courses taken at schools that are not regionally accredited do not count toward the total credit count.

Transfer students are required to submit the following:

- Completed application
- $25 application fee

*Students with non U.S. transcripts must provide official translations.

Note: Transfer students who have fewer than 13 transferable collegiate semester credit hours must meet the first-time freshmen standards. This includes international applicants. College credit earned in high school is eligible to count toward a degree at CSU-Pueblo, but cannot be used to classify a student as a transfer student.

In general, students with at least a 2.3 cumulative transfer GPA who have successfully completed all basic skill coursework will be admitted to CSU-Pueblo. Students who have not yet completed their basic skills courses or who have a GPA below a 2.3 are still encouraged to apply, and may be admitted on a probationary status.

Students who are enrolled at another institution at the time application for admission is made to CSU-Pueblo should arrange to have one official transcript from the current institution sent with the application. A final transcript must be sent when the final term is completed.

After admission and once all official transcripts have been received, evaluations of transferable credit will be completed and provided to the student.

Each student must indicate all previous college experience on his or her application. Applicants may not ignore previous college attendance. Students who fail to inform the Office of Admissions of all previous college work will be subject to delay of admission, loss of credit, rejection of application and/or cancellation of enrollment.

Transfer of Credit

Transfer students should be aware of the 10-year time limit on credit earned toward a bachelor’s degree, which applies to both transfer and resident credit. (Additional information appears in the Academic Policies section of this catalog.)

Credit is accepted by CSU-Pueblo from institutions accredited by the Higher Learning Commission or similar regional accrediting bodies. For credit toward degree requirements, CSU-Pueblo accepts a maximum of 60 semester hours from community or junior colleges and/or a maximum of 90 semester hours from four-year institutions toward degree requirements. For degree purposes, CSU-Pueblo accepts no more than 90 credits in total through transfer or other assessment of prior learning.

Transfer grades and credits are not computed within the cumulative grade point average earned at Colorado State University-Pueblo. Courses completed with a grade of C- or better are accepted in transfer.

Colorado State University-Pueblo only accepts Associate of Arts (AA) or Associate of Science (AS) degrees from regionally accredited out of state institutions as fulfilling the University’s general education requirements if CSU-Pueblo’s entire general education core is completed with acceptable transfer credit. However, some CSU-Pueblo majors may have specific general education requirements that must be completed. Associate of Applied Science (AAS) and the Associate of General Studies (AGS) degrees are not transferrable to CSU-Pueblo, but will be evaluated on a course by course basis.

AA and AS degrees earned at an accredited Colorado community/junior college satisfy the University’s general education requirements, except for those courses which are major specific. Students generally transfer in 60 semester hours and achieve junior status.

Credit from an institution without regional accreditation may be accepted by petition for transfer after the student has completed at least one term of full-time coursework at CSU-Pueblo with a C (2.000) average or better.

The University accepts up to eight semester hours of cooperative education courses in transfer. Cooperative education course work, to be acceptable, must include a clearly defined academic element, such as a study plan or reading assignments.

Military service credit is evaluated when official copies of transcripts for military schools are received and may be counted toward a baccalaureate degree. Army, Navy, and Marine personnel should submit a Joint Service Transcript (JST). Air Force personnel should submit a Community College of the Air Force (CCAF) Transcript. Courses are evaluated according to the American Council on Education (ACE) Guidelines. The Military and Veteran’s Success Center notifies and directs each student to an academic advisor who will assist them with choosing a program of study and clarify the applicability of JST transfer credits to program(s) of study. Students and advisors may refer to DARSweb “what if?” audits to explore JST transcript credit application within potential major(s).

Acceptance of credit does not necessarily mean that a specific department will accept the same credit toward its major requirements. Each department evaluates transfer courses to determine applicability to major and minor requirements.

All application materials for applicants who decide not to enroll for the term for which they applied will be kept on file in the Office of Admissions for one year. Official transcripts received from other institutions cannot be relinquished.

College Level Examination Program

See Prior Learning Assessment (Academic Policies section).
Appeals Process

If a student disputes the University’s evaluation of credits from other Colorado public institutions, the student must file a written appeal with the Registrar within 15 calendar days of receiving the evaluation. If the student fails to file an appeal within the 15-day period, the decision made in the transfer evaluation will be binding. The Registrar has 30 calendar days to respond. If the student does not receive a response or feels CSU-Pueblo did not follow its policies and procedures, the student can appeal to the Colorado Department of Higher Education (CDHE) to hear his/her case.

If a student disputes the University’s evaluation of credits from a Colorado private institution, a non-Colorado institution, or a non-regionally accredited institution, the student must file a written appeal with the academic department at CSU-Pueblo within 15 calendar days of receiving the evaluation. If the student fails to file an appeal within the 15-day period, the decision made in the transfer evaluation will be binding.

The Academic Department will have 30 calendar days to review the appeal and notify the student in writing of the decision including the rationale for the decision. In addition, the student will be notified in writing about the process for appealing the appeal decision should the student feel that reasonable doubt exists.

If the Academic Department fails to inform the student of the available appeal options, the appeals decision shall be null and void. The student’s request prevails and cannot be overturned by any institutional administrator or committee.

A student may appeal the first appeal decision in writing to the Dean of the College in which the Academic Department is housed. The appeal must be filed within 15 calendar days of the postmark date of the letter from the Academic Department regarding the first appeal decision.

The University must hear and reach a decision on the appeal within 15 calendar days after the appeal is filed. The student will be notified in writing by the University of the decision regarding the appeal and the rationale for the decision. In addition, the student will be notified in writing about the subsequent process for appealing the institutional transfer decision, if the student chooses to do so.

The student may appeal the institutional decision to the Provost. The appeal must be filed within five (5) calendar days of the postmark date of the letter notifying the student of the institutional decision. If the student fails to file an appeal within this time period, the institutional decision shall be binding.

The Provost shall review and reach a decision on the appeal within five (5) calendar days after the appeal is filed. The student will be notified in writing of the decision regarding the transfer appeal and the rationale for the decision. In addition, the institution shall inform the student that the decision may be appealed further by writing to the Colorado Department of Higher Education (CDHE). The appeal must be filed within five (5) calendar days of the postmark date of the letter notifying the student of the Vice Chancellor's decision.

If a student disputes the decision of petitions from transfer of credit from non-accredited institutions, the student must file a written appeal with the Dean of the College who denied the petitions within 15 calendar days of receiving the petition denial. If the student fails to file an appeal within the 15-day period, the decision made in the petition process will be binding.

The Dean of the College will have 30 calendar days to review the appeal and notify the student in writing of the decision including the rationale for the decision. In addition, the student will be notified in writing about the process for appealing the appeal decision should the student feel that reasonable doubt exists.

If the Dean of the College fails to inform the student of the available appeal options, the appeals decision shall be null and void. The student’s request prevails and cannot be overturned by any institutional administrator or committee.

A student may appeal the first appeal decision in writing to the Provost. The appeal must be filed within 15 calendar days of the postmark date of the letter from the Dean of the College regarding the first appeal decision.

The University must hear and reach a decision on the appeal within 15 calendar days after the appeal is filed. The student will be notified in writing by the University of the decision regarding the appeal and the rationale for the decision. The decision is final with regard to the petition for the acceptance of transfer credit from non-accredited institutions.

Degree-Plus (Second Baccalaureate Degree)

Students seeking a second undergraduate degree must meet all residency and major requirements. This includes a minimum of 30 credits in residency at CSU-Pueblo. Degree-plus students are considered to have satisfied General Education requirements by virtue of the work completed for their first undergraduate degree from a regionally accredited institution. For more information, refer to the Degree Plus (Second Baccalaureate Degree) section in the Academic Policies section of the catalog.

International Students

Students who are residents of another country must submit the following to be admitted to CSU-Pueblo:

1. The official international application for University admission, accompanied by a $30 fee for undergraduate admission or $35 fee for graduate admission; or a $30 fee for English as a Second Language students.
2. Two official transcripts of all work completed either in high school or in college (or the equivalent). One transcript must be in the native language, one in English. Both must show courses taken, grades earned, length of classes and length of school terms. All transcripts must bear the official seal of the issuing institution and must be sent by that institution directly to the Center for International Programs. An explanation of all transcript terminology must be included;
3. Results of an English language proficiency test. First-time freshmen students: A minimum score of 500 on the Test of English as a Foreign Language (TOEFL) paper-based test, a minimum score of 173 on the TOEFL computer-based test, a minimum score of 61 on the TOEFL internet-based (BT), a minimum score of 80 on the Michigan Test of English Proficiency, a minimum band score of 5.5 on the International English Language Testing System (IELTS) test, or completion of the advanced level at CSU-Pueblo's English Language Institute (with ELI Director approval) is required. Transfer students: A minimum score of 500 on the Test of English as a Foreign Language (TOEFL) paper-based test, a minimum score of 173 on the TOEFL computer-based test, a minimum score of 61 on the TOEFL internet-based (BT), a minimum score of 80 on the Michigan Test of English proficiency, or a minimum band score of 5.5 on the International English Language Testing System.
Testing System (IELTS) test is required. In addition, transfer students must have an overall cumulative grade-point average of 2.300 or above. English language proficiency tests are not required of students from countries where English is the native language.

4. A financial statement regarding the resources available to the student during his or her stay in the United States. An international student cannot be accepted without this statement.

The Center for International Programs reserves the right to change policy. Exceptions are at the discretion of the Vice-President of Enrollment Management and Student Affairs.

No international student application for admission will be considered until all required materials are complete. The Center for International Programs must receive all materials by the application deadlines.

Non-Degree Students

Students may enroll at Colorado State University-Pueblo as a non-degree seeking student in one of the following categories:

Guest Student – No Credit

Applicants who wish to register as a guest (no credit) without degree-seeking status should contact the Office of Admissions for current policies and procedures.

A guest (no credit) student may carry up to 6 hours per term. A guest (no credit) student is ineligible for financial aid. In place of a grade for each course, students receive the symbol NC (no credit) on their transcripts.

Guest Student – For Credit

Guest (for credit) student category is reserved for applicants who wish to enroll in courses without degree-seeking status. Applicants who wish to register as a guest (for credit) student must complete a short application with the Office of Admissions each term that they wish to enroll. Guest (for credit) students are NOT REQUIRED to submit official transcripts, test scores or an application fee; however test scores or a transcript will be required to enroll in an English or Math course. Tuition and fees are based on the number of credits for which they register and are INELIGIBLE to receive financial aid. A guest (for credit) student may carry up to 15 hours per semester and may earn a maximum of 30 semester hours while maintaining visiting status. A guest (for credit) student must maintain a 2.000 cumulative grade-point average. Guest (for credit) students who wish to exceed the 30-semester hour maximum must formally apply for admission. For information on Guest (for credit) Student Status for graduate students, see Graduate Programs section in catalog.

High School University Program

Under Colorado’s Concurrent Enrollment and ASCENT Programs, high school students may register for classes at the University based on the availability of existing Concurrent Enrollment and ASCENT agreements. Information on these programs is available in the CSU-Pueblo Office of Extended Studies and at participating high schools.

The University also offers a Senior-to-Sophomore (STS) program by agreement with various high school districts. High school students in this program are afforded the opportunity to study in university level courses while remaining in their high school classrooms and are considered unclassified students by the University. Students must submit an application for admission, transcript of their high school record and ACT or SAT scores. Those STS students who are in their senior year are given consideration for admission as regular first-time students for the fall semester following their high school graduation. Students interested in
this program are encouraged to seek information from their high school guidance counselor or from the University's Office of Extended Studies at 719-549-2316.

Senior Citizens
Persons 65 years of age or older, or 62 and retired, may audit courses on a space-available, non-degree student basis without paying tuition. Permission of the instructor is required. A grade of NC (no credit) will be posted.

Residency Classification
Initial residency classification at Colorado State University-Pueblo is determined by the Office of Admissions based on information provided by the student during the application process. Students are responsible for checking the residency determination provided at the time of admission, with the admissions packet. This initial residency classification remains in effect unless the student provides additional information to prove that the domicile requirements for Colorado residency have been met. This may be proven by submitting a Residency Information Form or additional documentation to the Office of Admissions. If the student does not agree with the residency determination after the Residency Information Form or additional documentation has been reviewed that student must submit a Petition for In-State Tuition Classification (see below). New students must complete the Residency Information Form and/or Petition for In-State Tuition Classification prior to the first day of class of the student’s first term.

Changes to Tuition Classification
Continuing students who believe they qualify for Colorado residency must submit a completed Petition for In-State Tuition Classification by the deadline. Students enrolled in online programs may be eligible for an exemption to this requirement; contact Admissions for additional information. Deadlines are the first Monday in August for the fall semester and the first Monday in December for spring.

Colorado residency for tuition purposes is governed by Colorado State Law (Title 23, Article 7-101 to 111, of the Colorado Revised Statutes of 1973, as amended) and by judicial decisions that apply to all public institutions of higher education in Colorado and is subject to change at any time. The residency decision made at one Colorado institution is non-transferable to other Colorado institutions. Colorado State University-Pueblo must apply the rules set forth in the residency statutes and is not free to make exceptions to the rules except as specifically permitted by State Law.

Any student granted the Western Undergraduate Exchange tuition rate is indicating that he or she is NOT a Colorado resident and WILL NOT establish Colorado residency during his or her time of attendance at CSU-Pueblo. If a student plans to establish residency in Colorado and would like to petition for in-state benefits at CSU-Pueblo during his or her time of attendance, it is recommended the student does not claim another state as his or her state of residence. WUE students who change their residence to Colorado lose their WUE eligibility, but do not become eligible for in-state tuition rates until one year after establishing Colorado domicile. Because students under 23 are deemed to have the domicile of their parents, the WUE student seeking to change domicile to Colorado must show either: a change of the parents’ residence to Colorado; or a change in the student’s residence after proving emancipation from the parents.

Qualified Individuals
Parent Petitioners
Parents who have moved to Colorado and meet the domicile requirements may submit a Petition for In-State Tuition Classification which supports their domicile. If their petition is approved, their dependents are eligible for Colorado residency for tuition purposes.

Other Qualified Individuals
A student is a qualified individual and eligible to establish domicile separate from his or her parents if, at the beginning of the 12-month domicile year, the student was:

- At least 22 years old, or
- Married, or
- Emancipated, or
- A graduate student

An emancipated minor is an individual under 23 years of age who is no longer considered a dependent and is not supported by his or her parent(s) or any other individual. An emancipated minor can begin establishing their domicile on the date he or she becomes emancipated.

Emancipation must be proven in the following way:

- Parents or other individuals must no longer provide financial support of any nature for any purpose. Parental support includes funds parents may have previously set aside for current support even if those funds are in the student’s name.
- Parents must no longer claim the minor on their federal and state income tax returns.
- If the minor takes out a loan, he or she must do so without a parent co-signer. In addition, the loan must not be the student’s major source of support.
- The minor must document that he or she is independently able to meet all financial obligations without any financial help from any other individual.

Examples of financial obligations may include:

- Tuition and fees
- Rent and food
- Cable and cell phone statements
- Medical expenses, including health insurance
- Vehicle expenses, including auto insurance

If a student is granted Colorado residency as an emancipated minor, he or she must continue to independently meet all financial obligations, including the cost of education, without financial assistance from parents or any other individual.

Asset
A student who does not have lawful immigration status may be classified as an in-state student for tuition purposes if:

1. The student attended high school in Colorado for at least 3 years immediately preceding the date the student graduates from a Colorado high school or earns a GED;
2. The student is admitted to a Colorado institution of higher education or attends any institution of higher education under a reciprocity agreement within 12 months of high school graduation or earning a GED; and
3. The student submits an affidavit thru the COF application process stating that the student does not have lawful immigration status but has applied for lawful presence or will apply as soon as the student is eligible.

Additionally, a student who does not have lawful immigration status and graduated from a Colorado high school or earned a GED prior to September 1, 2013, but was not admitted to a Colorado institution within 12 months of graduating or earning a GED may nonetheless be qualified as an in-state student if the student has been continuously physically present in Colorado for at least 18 months prior to enrolling in a Colorado institution. Students applying under ASSET must complete a Colorado ASSET form, available from Admissions.

Non-Citizens
Persons who are lawful permanent residents or who are admitted as refugees are eligible to establish domicile for tuition purposes. Nonimmigrant aliens who are residing in Colorado for purposes other than education may qualify for in-state status after one year of Colorado residence. The nonimmigrant categories subject this provision are determined by the Colorado Commission on Higher Education.

Nonimmigrants in the following categories cannot qualify for in-state tuition: F-1, F-2, H-3, J-1, M-1 and M-2.

• H-4 will qualify unless the visa holder is the spouse of child of an H-3.
• J-2 will qualify if the J-1 visa holder is not a student of trainee.
• H-1B, L, K, V, E, O and P visa may qualify.

Military Personnel
Military Exception
1. Active-duty members of the armed forces of the United States and Canada on either PCS or TDY orders in Colorado and their dependents (as defined by military regulations) are eligible for in-state status, regardless of domicile or length of residence in Colorado. A dependent of a member of the armed forces is eligible for in-state tuition classification when the member moves to Colorado on a PCS basis, regardless of the length of the member’s or dependents residency in Colorado. After qualifying as an in-state student, a member of the armed forces or the member’s dependent, shall not lose his or her eligibility for in-state tuition status if the member retires or separates from the military. Dependent means a spouse of a member of the armed services who was the member’s spouse at the time that the member was stationed in Colorado and at the time the spouse is requesting in-state tuition classification and any child under twenty-two years of age born to or legally adopted by the member of the armed forces who enrolls in a public institution of higher education within ten years after the member was stationed in Colorado.

2. Members of the Colorado National Guard who maintain their sole legal residence in Colorado and their dependents also qualify for in-state tuition exception regardless of length of residence. This includes having Colorado state taxes withheld from wages, leasing or owning property in Colorado, having a valid Colorado driver’s license, maintaining Colorado vehicle registration and Colorado voter’s registration.

3. Military dependents continuously enrolled in a Colorado college continue to qualify for in-state tuition if the military member is transferred outside Colorado or retires and remains in Colorado.

Military Members Domiciled in Colorado
To retain domicile during an absence from Colorado due to military orders, military personnel must maintain Colorado as their state of legal residence for tax purposes, and voters must maintain Colorado voter registration.

Military personnel may retain legal residence in their original state, or they may establish a new legal residence in a state in which they reside due to military orders. They may not establish domicile in Colorado while residing elsewhere or while being physically present in the State only on a temporary basis. Persons domiciled in Colorado for one year who enter active duty military service, and who return permanently to Colorado within 6 months of discharge, and their dependents, qualify for in-state tuition regardless of changes of domicile while on active duty.

Veterans
Honorary discharged members of the Armed Forces moving permanently to Colorado qualify for in-state tuition. Dependents of veterans are eligible for in-state tuition classification if the dependent has completed two years of high school in Colorado. Contact Admissions for required documentation and forms.

GI Promise—Honorably Discharged Veterans
All honorably discharged veterans who show established domicile in Colorado immediately preceding the start of the semester, regardless of length of time, shall be granted in-state tuition. The veteran can also petition for this benefit for his or her spouse and dependent if the veteran established domicile in Colorado. A dependent is an unmarried undergraduate student and under the age of 23 on or before the first day of class. Honorable discharge status must complete GI Promise eligibility document.

1. Proof of intent: a Colorado driver’s license or Colorado state ID card and a housing contract, lease agreement, or mortgage.

A residency determination cannot be made until all supporting documents have been received. Once a covered individual is determined to have met the qualifications for in-state residence, this person will retain his or her status as long as he or she remains continuously enrolled in the institution.

Veteran Access, Choice and Accountability Act of 2014 (Choice Act)
In August 2014 Congress passed the Veterans Access, Choice, and Accountability Act of 2014. Section 702 of the “Choice Act” requests that CSU-Pueblo provide in-state residency for tuition purposes to veterans and their family members using the Post 9/11 GI Bill (Chapter 33) or the Active Duty Montgomery GI Bill (Chapter 30) for terms that begin after July 1, 2015 with the following qualifying circumstances:

1. A Veteran who lives in the state in which the institution of higher learning is located (regardless of his/her formal state of residence) and enrolls in the school within three years of discharge from a period of active duty service of 90 days or more.
2. A spouse or child using transferred benefits who lives in the state in which the institution of higher learning is located (regardless of his/her formal state of residence) and enrolls in the school within 3 years of the transferor’s discharge from a period of active duty service of 90 days or more.
3. A spouse or child using benefits under the Marine Gunnery Sergeant John David Fry Scholarship who lives in the state in which the institution of higher learning is located (regardless of his/her formal state of residence) and enrolls in the school within three years of the
service member's death in the line of duty following a period of active duty service of 90 days or more.

Necessary documents for review under Section 702 classification are:

- Most recent DD-214, Member 4 for the veteran who earned the GI Bill entitlement to be used.

Additionally, students must enroll at Colorado State University-Pueblo within three years of their transferor's discharge from active duty. Students are not eligible if they are still on active duty.

Court Appointed Legal Guardian
A student may qualify for Colorado residency based on the domicile of their court appointed legal guardian if the guardianship has been in effect for at least one year. The legal guardian must provide court documents certifying that the primary purpose of the appointment is other than to qualify the student for Colorado residency. The court must also certify that the student's parents do not provide financial support.

Residency Requirements
Domicile
"Domicile" is used to describe the place where an individual has demonstrated intent to make a permanent home and legal residence. Both physical presence (see #1 below) and evidence of intent (see #2 below) must be in place to begin the domicile year. Qualified individuals must reside in Colorado with the intent to make Colorado their permanent home and legal residence.

Colorado residency requires a domicile in Colorado for 12 continuous months on or prior to the first day of classes of each semester.

Since domicile is defined as a permanent home and legal residence, being in Colorado solely for school purposes and/or temporarily for other purposes does not qualify as domicile for Colorado residency.

1. Physical presence is the qualified individual's actual permanent home and legal residence. Proof of physical presence may include all of the following:
   - Home ownership
   - Lease agreement
   - Rent receipts
   - Notarized statement from a landlord

2. Evidence of intent to make Colorado the qualified individual's permanent home and legal residence is demonstrated by surrendering all legal ties with prior states and establishing them with Colorado for 12 continuous months. Proof that demonstrates evidence of intent, as specified by the residency statute, may include all of the following:
   - Colorado driver's license or valid Colorado ID.
     If the qualified individual has a driver's license from another state, he or she must apply for a Colorado driver's license within 30 days of moving to Colorado (if employed) or within 120 days (if unemployed). If the qualified individual does not drive, he or she may obtain a Colorado identification card.
   - Colorado motor vehicle registration.
     If the qualified individual operates a motor vehicle, he or she must register it in Colorado within 30 days of moving to Colorado (if employed) or within 120 days (if unemployed). This law applies to any vehicle the qualified individual has, whether or not he or she is the registered owner.

   - Permanent, full-time, off-campus employment or acceptance of future permanent employment in Colorado. (Student employment provided by CSU-Pueblo is not recognized by the state of Colorado in proving intent.)
   - Colorado voter registration.
     A qualified individual may register to vote with the county clerk, or when his or her Colorado driver's license is obtained. Although voting is not required by law, it is nonetheless an indicator of one's intent to create Colorado domicile.
   - Change in permanent address on all pertinent records.
   - Payment of Colorado state income tax (if income is sufficient to be taxed).
     All taxable income accrued after moving to Colorado, regardless of source, must be reported to the Colorado Department of Revenue. Qualified individuals should file part-year resident returns for each state of residence for the year they move to Colorado. For subsequent years, they should file a full-year resident Colorado return.
   - Withholding of Colorado state taxes from wages.
   - Ownership of residential property in Colorado that is the qualified individual's primary residence.
     (Ownership of residential property is not an indication of domicile.)

Evidence of legal ties outside of Colorado during the domicile year that demonstrate residency in another state may include the following:

- Failure to obtain a Colorado driver's license or Colorado ID (Failure to change driver's license to Colorado within the statutory periods).
- Failure to file a Colorado state income tax return.
- Failure to pay Colorado state income tax (if income is sufficient to be taxed).

Income earned in another state by a resident of Colorado is taxable in Colorado. Filing a nonresident Colorado tax return is persuasive evidence of domicile outside Colorado.

- Maintenance of a home in another state.
- Prolonged absence from Colorado.
- Residing in another state between academic terms or when not enrolled as a student.
- Vehicle the qualified individual operates is registered in another state (Failure to register a motor vehicle in Colorado within the statutory periods).
- Any other factor unique to the individual that tends to imply that his or her permanent home and legal residence is in another state.

The fact that an individual does not qualify for in-state status in any other state does not guarantee in-state status in Colorado; in-state classification is governed solely by Colorado statute. The tuition classification statute places the burden of proof on the petitioner to provide clear and convincing evidence of a change in eligibility for in-state tuition once the student has registered.

The Admissions Office must receive completed petitions no later than the published deadline date for the semester for which the student is petitioning. Deadlines are the first Monday in August for Fall semester and the third Friday in December for Spring semester. Petitions will not be accepted after the published deadline date; incomplete petitions will not be accepted and/or reviewed for that semester, and the tuition classification and tuition assessment will remain nonresident for that term.
Decisions made by the Tuition Classification Officer may be appealed to the University's Residency Appeals Committee. A student who wants to appeal the decision to the Residency Appeals Committee must contact the Office of Admissions no later than the appeal date listed in the letter in which the decision was conveyed to the student. The decision of the Residency Appeals Committee is the FINAL University determination for that specific semester. In addition, there are no provisions in the Tuition Classification Statutes for retroactive petitioning.

Any student who provides false information to avoid paying out-of-state tuition may be subject to legal and/or disciplinary actions.
STUDENT FINANCIAL SERVICES

Financial Aid

Financial aid is a resource for students and parents seeking monetary assistance to help defray the costs of higher education. Eligible students who demonstrate financial need may receive assistance from the federal government and/or the State of Colorado in the form of grants, loans, work study and/or scholarship funds. Students may obtain information from Student Financial Services, Administration Building, Room 212, telephone (719) 549-2753. Students may obtain further financial aid information by logging onto: http://www.csupueblo.edu/student-financial-services/index.html.

The primary responsibility for educational costs resides with the student and the student’s family. Assistance offered through financial aid is intended to supplement the family contribution. Funds are awarded on a first-come, first-served, need basis.

Financial Aid Application Steps

1. Complete a Free Application for Federal Student Aid (FAFSA) by March 1. Students may apply online at http://www.fafsa.gov. The CSU-Pueblo school code is: 001365
2. Complete the CSU-Pueblo Scholarship application by March 1. Students may apply online at: http://www.csupueblo.edu/student-financial-services/Scholarships
3. Students can view their application status and other required documents on CSU-Pueblo’s Personal Access to Web Services (PAWS). Once all required information is received, students will receive a financial aid award offer, which can be viewed through the PAWS account.

Students may not receive financial aid if they are:

1. Not enrolled in a degree-seeking program;
2. On financial aid suspension Satisfactory Academic Progress;
3. In default on a federal student loan;
4. Owe money back on a federal student grant or federal loan over aggregate or have not made satisfactory arrangements to repay it; or
5. Ineligible non-citizens or not permanent residents of the United States.

Student Financial Services Policies

Student Rights and Responsibilities

As a student at CSU-Pueblo you have the right to:

- Know all the types of financial assistance available to our students, including federal, state, and institutional sources.
- Change or decline any financial aid awarded.
- Appeal financial aid eligibility

As a student at CSU-Pueblo you have the responsibility to:

- Accurately and honestly complete the Free Application for Federal Student Aid (FAFSA) and CSU-Pueblo School Application each year by the priority deadline of March 1st
- Use financial aid solely for expenses related to attendance at CSU-Pueblo.
- Be admitted in a degree-seeking program in order to receive financial aid.
- Maintain at least 6 credit hours of enrollment per semester to receive financial aid.
- Keep your address updated with Financial Aid.
- Notify Financial Aid if you are attending two schools at the same time. (You may not receive financial aid at two schools at the same time.)
- Read and understand the Satisfactory Academic Progress Policy, the Withdrawal Policy, and other general policies related to financial aid.
- Drop or officially withdraw from CSU-Pueblo if you are unable to attend classes.
- Report all scholarships that you receive to Financial Aid. (All scholarships are counted as part of your financial aid and may impact other financial aid.)
- Pay any balance to CSU-Pueblo that is not covered by financial aid.
- Monitor your CSU-Pueblo e-mail account for important financial aid information.
- View your balance due, financial aid award, and other individual student information via PAWS.

Satisfactory Academic Progress Policy (SAP)

As a standard for participating in any federal student aid program, CSU-Pueblo is required by the U.S. Department of Education to apply reasonable standards for measuring whether a student is making progress toward a degree. The state of Colorado also requires that students meet Satisfactory Academic Progress (SAP) in order to receive any state-funded student assistance. Both of these requirements are met and apply to CSU-Pueblo institutional financial aid eligibility by measuring student academic performance at the end of each payment period (period of enrollment) against the following qualitative and quantitative standards:

Cumulative Grade Point Average (GPA)

2.0 for undergraduate programs, 3.0 for graduate programs.

Completion Percentage (Pace)

At least 67% of all credit hours attempted must have successfully passing grades (all students must complete coursework with successfully passing grades by the end of each period of enrollment or put both current and future financial aid eligibility at risk). Successfully passing grades are S or D- and higher; all others (U, F, W, IN, IP, NC, and repeated coursework – see below) count as unsuccessful credit hours attempted.

Course repetition: Students are allowed to repeat a course and have it count toward enrollment for financial aid eligibility only once. Each attempt at the course, however, will count toward a student’s pace, and all prior attempts with lower grades will count as unsuccessful credit hours attempted. Please note this is specifically in reference to repeating identical coursework at CSU-Pueblo. Credits accepted as transfer credits that may count as equivalent to coursework offered here at CSU-Pueblo do not count as course repetition.

Withdrawals: Withdrawals do not affect a student’s cumulative GPA for SAP, but count as credit hours attempted toward both pace and maximum time frame. Please note that a withdrawal (grade of “W”) has great distinction from courses which are simply dropped (no grade and no record of attempt).
Unofficial Withdrawals: Students who do not earn passing grades for the period of enrollment (the grade point average for the period of enrollment is 0.00) are placed on Financial Aid Suspension without warning period (see Evaluation below for more details on Student Financial Services Suspension, unless cumulative SAP standards are met.

Incomplete: At the time of evaluation (the end of each period of enrollment), Incompletes (grade of “IN”) do not affect a student’s cumulative GPA for SAP but count as credit hours attempted toward both pace and maximum time frame. Students with grades of Incomplete which become new letter grades prior to or during a subsequent period of enrollment and that may affect financial aid eligibility for that period of enrollment can contact Financial Aid for further evaluation.

Transfer credits: Transfer credits do not count toward a student’s cumulative GPA for SAP but do count as both attempted and completed credit hours (100%) toward pace and maximum time frame.

Maximum Time Frame
Undergraduate students - attempted credit hours may not exceed 150% of the educational program

Graduate students - attempted credit hours may not exceed 100% of the educational program

Note that both Pace and Maximum time frame are measured in credit hours only, regardless of full time or part time attendance.

All students enrolled at CSU-Pueblo are evaluated for SAP at the end of each period of enrollment, after the Registrar’s Office has released official grades. Students can find their SAP status within the Financial Aid menu on PAWS. Listed here you will find each status and definition:

- Eligible – Student is eligible for financial aid. This category may include students with no SAP issue at all, students who have appealed successfully and have successfully completed their Probation period of enrollment, students who have successfully completed their Probation period of enrollment and are following their Academic Plan, and students who have met SAP after being Ineligible previously.
- Warning – Failure to make SAP, but student is financial aid eligible for one more period of enrollment and must make SAP by the end of that period of enrollment or student will be placed on Financial Aid Suspension. Warning status is not appealable.
- Suspension – Failure to make SAP after a Warning period, but student is eligible to appeal. If the appeal is approved, the student can continue financial aid eligibility for another period of enrollment under a Probation status. Students may also choose not to appeal and attempt to regain financial aid eligibility by meeting SAP while paying out of pocket (without any financial aid).
- Probation – Failure to make SAP, but appeal is approved and student is financial aid eligible for one more period of enrollment, or possibly more if following required Academic Plan (which may include documentation requirements not directly related to academic performance).

Appeal Procedure
Students may appeal their SAP Suspension online via their PAWS account (https://www.csupueblo.edu/current-students) by selecting the Financial Aid link, SAP tab, or through the SAP Appeal link found on the Student Financial Services Satisfactory Academic Progress policy page. The appeal must explain what extenuating circumstances occurred and a plan for corrective action. Students must also submit any third-party documentation of their extenuating circumstances. Students exceeding maximum timeframe must also provide a graduation plan showing remaining required courses for degree completion. The Financial Aid Committee will review the students appeal and render a decision. The Committee may ask for additional information or an academic plan. The Committee’s decision is final. Students will be notified of the Committee’s decision via their campus email account. Students who have an appeal approved will generally have one semester to correct their deficiencies, or must meet the requirements set by the academic plan. Students whose appeals are not approved may regain financial aid eligibility only by meeting the SAP cumulative standards. Students may appeal SAP suspension twice during the course of their degree completion.

Appeal Deadlines
- Fall – First Friday of Fall semester
- Spring – First Friday of Spring semester
- Summer – Students planning to attend summer courses need to plan for payment of their bill knowing in advance they are aid ineligible and their appeal may not be reviewed or approved until the coming regular semester.

Absolutely no appeals will be reviewed after the first Friday of courses for a given period of enrollment.

Academic Plans
All students who appeal successfully and are subsequently placed on Probation will automatically have a minimum Academic Plan consisting of at least 2.0 GPA and 75% completion rate (3.0 GPA and 100% completion rates for graduate students) within subsequent periods of enrollment. The Financial Aid Committee will further develop Academic Plans for individual students based on the particular situation and content of appeal on a case by case basis. The requirements of these more rigorous plans will be made in writing and signed by the student prior to a subsequent financial aid disbursement, and the Academic Plans will be monitored by the Financial Aid Committee or designee.

Note that the SAP policy differs from CSU-Pueblo’s Good Academic Standing policy (see Catalog), and in particular the difference between an SAP Academic Plan and the Academic Improvement Plan from the Center for Academic Enrichment. The SAP policy reviews both Pace and Maximum time frame, in addition to GPA, and all attempted credit hours are included in reviewing student eligibility, including those excluded by the Registrar’s Office in Academic Renewal situations. These two policies also have separate appeal procedures.

This SAP policy is effective July 1, 2018, and supersedes all other CSU-Pueblo SAP policies published on the web and/or in prior catalogs.

OFFICIAL/UNOFFICIAL WITHDRAWAL POLICY
Students, who totally withdraw from the University, for any reason, when it is passed the drop period, must initiate the Official Withdrawal process by contacting the Center for Academic Enrichment. A withdrawal from the University is not considered official until the following three required steps are completed:

1. Students must obtain an Official Withdrawal Form from the Center for Academic Enrichment.
2. Students must speak with a Financial Aid Counselor.
3. Students must speak with student billing to discuss any balance owed or payment arrangements.
4. Students must turn in the Official Withdrawal Form with all required signatures from the above named offices to the Registrar’s Office to finalize the withdrawal.

This process ensures proper notification of instructors for grading purposes.

Please note that Official Withdrawal will affect the degree completion rate of the student and may affect their eligibility for financial aid. Please review the University’s Satisfactory Academic Progress Policy (SAP) at: https://www.csupueblo.edu/student-financial-services/general-policies/index.html.

Students who totally withdraw from the University after the drop period through 60 percent of the semester will have their tuition and fees prorated. A federal formula is used to determine the amount of federal financial aid earned by the student, which will be calculated for students who withdraw within 60 percent of the semester based on the percentage of the semester completed. If the student received less assistance than the amount earned, the student may be able to receive those funds. If the student received more assistance than earned, the excess funds must be returned. The amount of federal financial aid unearned will be deducted from the adjusted tuition and fee amounts credited to the student’s account; however, there may be additional institutional charges that were not covered by federal financial aid and will be reflected in the total amount owed by the student. Students may use the following calculation to estimate the amount of Title IV aid he or she earned prior to the withdrawal date.

\[
\text{# of days student completed} / \text{total # of days in period of enrollment} = \text{percentage of aid earned}
\]

1 Scheduled breaks of five or more days will be excluded from calculation.

Students who complete an Official Withdrawal after 60 percent of the period of enrollment will not have their tuition and fees adjusted or the federal financial aid received adjusted. Please note that federal financial aid received may not cover the total amount of institutional charges owed by the students. Students can review their account balance through their PAWS account.

Students who complete Official Withdrawals within 60 percent of the period of enrollment and did not receive federal financial aid will have their tuition and fees prorated based on the day the Official Withdrawal was initiated by the student through the Center for Academic Enrichment.

Students who do not complete the Official Withdrawal process will potentially receive all failing grades on their transcripts and will be required to repay their unearned federal financial aid based on 50 percent of the semester unless their instructor completes and submits to Student Financial Services the Verification of Attendance form proving they were in attendance passed 60 percent of the semester. Total withdrawals will not be processed after the last scheduled class day of the semester.

Students who cease attendance from the University and drop all courses during the drop period will receive a 100 percent tuition refund and will be responsible for repaying all of their financial aid funds received back to the University. Students are not eligible to receive federal financial aid when they have dropped all courses and no longer attend. Please review the Financial Aid Policies for more information.

**Last Date of Attendance**

The Student Financial Services Office processes federal student aid for CSU-Pueblo students each academic year. As a part of our Program Participation Agreement with the Department of Education (ED), CSU-Pueblo agrees to award these funds in compliance with Title IV regulations. One of these regulations requires students to meet all eligibility requirements at the time of aid disbursement. This includes student enrollment and participation in all courses for which he/she receives Title IV aid. **When a student withdraws from one or all courses during the term or if the student is awarded a non-passing grade (F), as an institution, we are required to document that the student did participate in any or all courses for which he/she received Title IV aid, and to document the last day that the student attended/participated. (Please see section Last Date of Attendance on page 51 for further details.)**

**Financial Aid Programs**

**Grants**

All grants are listed on our webpage: https://www.csupueblo.edu/student-financial-services/grants.html.

The following are three common need-based funds.

**Federal Pell Grant**

The Federal Pell Grant amount is determined by the Expected Family Contribution (EFC) listed on the Free Application for Federal Student Aid and whether the student is enrolled full-time or part-time. Generally, Pell Grants are awarded only to undergraduate students. In some cases, students might receive a Pell Grant for attending a post-baccalaureate teacher certificate program.

**Colorado Student Grant (CSG)**

Generally the CSG is for full-time undergraduate students and is awarded to Colorado residents on the basis of financial need as determined by the Colorado Commission on Higher Education. Funds are provided by the Colorado General Assembly.

**Federal Supplemental Education Opportunity Grant (FSEOG)**

The FSEOG is designed to assist undergraduate students with exceptional need, targeted to Federal Pell Grant recipients and other exceptional need students.

**Student Employment/Work Study**

Work study provides part-time jobs to students. The program provides students with meaningful work experience, preferably related to their academic major. Students may use work study funds to supplement their income and help meet educational expenses. The program is funded by both the federal government and the Colorado General Assembly. The University annually employs approximately 650 students in the Student Employment program.

**General Qualifications:**

1. Must be enrolled at the University as a degree-seeking student.
2. Must be making satisfactory academic progress.
3. Must enroll in and maintain six (6) credit hours for each term employed.

**Colorado Work Study**

The Colorado work study program is funded by the Colorado General Assembly. To be eligible, students must be undergraduate Colorado residents.
Students must complete the Free Application for Federal Student Aid (FAFSA) to determine eligibility for work study. Students are selected for the program if qualifications are met and if funds are available. Generally students must demonstrate financial need, but the University is allowed to award a portion of the Colorado work study funds to students who have little or no financial need.

**Federal Work Study**
The federal work study program is funded by the federal government. To be eligible, students must demonstrate financial need.

Students must complete the Free Application for Federal Student Aid (FAFSA) to determine eligibility for work study. Students are selected for the program if qualifications are met and if funds are available. Students may work on campus or at off-campus community service designated sites and must be enrolled in undergraduate or graduate programs.

**Student Loans**
Prior to any federal education loan being processed by CSU-Pueblo, the applicant must complete the financial aid application process.

**Federal Direct Loans**
The U.S. Department of Education administers several loan programs designed to offer low-interest funding to students and their parents who need to borrow money to cover the costs of education. Below is a summary of the loans available:

Direct loans are either subsidized or unsubsidized. A **subsidized** loan is awarded on the basis of financial need. The federal government pays the interest while the student is in school.

An **unsubsidized** loan is not awarded on the basis of need. Students are charged interest from the time the loan is disbursed until it’s paid in full. If students allow the interest to accrue while in school or during other periods of nonpayment, it will be **capitalized**—that is, the interest will be added to the principal amount of the loan, and additional interest will be based on that higher amount.

The Federal Direct Loan Program is intended solely to aid students pursuing a degree in higher education. Students should borrow only the amount they believe is necessary to pay for educational costs. Keeping the amount of a loan at a minimum will ease repayment.

**Student Loan Amounts**
Federal Direct Loan interest rate is fixed. Borrowers will be notified of the amount of a loan at a minimum will ease repayment.

**Annual Loan Limits for Direct Loans**

**Federal Direct Parent Loan for Undergraduate Students (PLUS)**
PLUS enables parents who do not have an adverse credit history to borrow to pay the education expenses of each child who is a dependent undergraduate student enrolled in at least 6 credits. The interest rate is fixed. Credit checks are conducted by the lender to determine loan approval. If the loan is denied the lender is responsible for notifying the parent (borrower).

The borrower (parent) must begin monthly payments of a Federal Direct (PLUS) loan 60 days after the final disbursement of a loan or borrowers may choose to defer payments until 6 months after the date the student ceases enrollment in at least 6 credit hours.

**Exit Counseling**
Students who are graduating, totally withdrawing, dropping/withdrawing below 6 credits of enrollment, or otherwise not returning to the University for any reason must complete Exit Counseling if they have ever borrowed any federal loan from any educational institution. Exit Counseling is completed online at www.studentloans.gov (http://www.studentloans.gov). (Students seeking information about repayment options, grace periods and consequences of not repaying a student loan can visit Student Aid on the Web at www.studentaid.ed.gov (http://www.studentaid.ed.gov) or contacting their lender).

**Scholarships**
To be considered for University grant and scholarship aid, students must complete the University Scholarship Application. Also, Student Financial Services administers a number of private scholarships funded by individuals, foundations, agencies, and organizations. All CSU-Pueblo students may apply on-line at our webpage: http://www.csupueblo.edu/student-financial-services/Scholarships for institutional scholarships by submitting an institutional application by the March 1 deadline. Recipients are selected by various committees.

Students are encouraged to visit: http://www.csupueblo.edu/student-financial-services/Scholarships for more information about scholarship searches or visit **Student Financial Services** in Administration Building, Room 212.

**Impact on Financial Aid**
As a direct resource, scholarships are part of the student’s financial aid package. If the student’s financial need is already met at the time of scholarship notification, other aid may be reduced or cancelled or the donor may cancel the scholarship. Pell grants are never reduced as the result of a scholarship.

**How Aid is Determined**
Financial need is the difference between the Cost of Attendance (COA) and the Expected Family Contribution (EFC). Financial needs can be expressed as an equation:
COA minus EFC equals financial need.

COA
EFC
Financial need

For each student, the COA, EFC, and financial need will be different. Financial aid is offered to help the student cover their financial need depending on specific qualifications and available funding.

The Cost of Attendance includes:

- Tuition & Fees
- Books & Supplies
- Room/Board
- Transportation
- Medical and Dental Expenses
- Personal Expenses

The Colorado Commission of Higher Education determines the amount for each budget item. Tuition & fees are based on actual cost, and the other items are adjusted according to whether you live on-campus, off-campus, or with parents.

Please also note that the Cost of Attendance may not be exceeded once all federal, state, University, and private (outside) sources of financial aid has been considered. This includes all loans, grants, scholarships, and federal and/or state work study earnings.

Consortium Agreements
A Consortium Agreement is a signed document by which an individual student is enrolled and receives financial aid at CSU-Pueblo (Home Institution) while taking coursework at another (Host Institution). Because financial aid is only disbursed by CSU-Pueblo, the agreement allows the student’s enrollment and costs at the Host Institution to count toward total financial aid eligibility.

Criteria for use:

- Coursework is transferable and counts toward degree at CSU-Pueblo
- Student is PELL eligible
- Student is enrolled in 6 credits at CSU-Pueblo
- Cannot be used for correspondence or remedial courses
- Student must provide proof on enrollment at the Host Institution
- Student is responsible for paying tuition and fees at the Host Institution
- No CSU-Pueblo financial aid will process or be disbursed until after the drop/add period
- Consortium agreements must be submitted by the end of the Drop/Add period for the term in which the student is applying

MILITARY AND VETERAN SUCCESS CENTER
Colorado State University-Pueblo Military and Veteran Success Center (MVSC), located in OSC 114, telephone (719) 549-2910, assists all students to reach their educational goals while serving our country as well as those who have served transition to new opportunities in completion of educational goals. The MVSC is here to assist veterans, active duty and their families on educational benefits, advising, tutoring, mentoring, financial assistance, and career planning as it relates to military education benefits.

The MVSC serves as the intermediary between students and the Department of Veteran Affairs (DVA). All students utilizing VA education benefits: Chapters 30, 31, 32, 33, 35, 36, 1606, and 1607 are required to contact the MVSC. All students utilizing VA education benefits must submit a current schedule every semester for certification.

Military Tuition Assistance
The process for utilizing military tuition assistance (TA) varies per branch. If assistance is needed in utilizing TA contact at the MVSC or your base education center before starting the semester. First time users must attend brief through their prospective education services office/officer to begin using benefits. For more information, please visit the MVSC website: https://www.csupueblo.edu/military-and-veteran-success-center/, call (719) 549-2910 or email veteransuccess@csupueblo.edu

Scholarships
The MVSC can provide students information on various scholarships for veterans, active-duty, National Guard and Reserve, and family members.

Work-Study
VA work-study employment is available to any VA education recipient who is enrolled at three-quarter time or more. Students may obtain employment at any VA approved facility. Interested students should contact the MVSC.

Last Date of Attendance
The Military and Veteran Success Center processes VA benefits for CSU-Pueblo students each academic year. As part of regulation (Section 21.4203 of Title 38) Subsection (d), the Department of Veterans Affairs requires the institution to determine if a student is eligible to receive VA benefits. This regulation requires students to meet all eligibility requirements. This includes student enrollment and participation in all courses for which he/she has been certified for. When a student withdraws from one or all courses during the term or if the student is awarded a non-passing grade (F), as an institution, we are required to document that the student did participate in any or all courses for which he/she received VA Benefits, and to document the last day that the student attended/participated. (Please see section Last Date of Attendance on page 51 for further details.)

Veterans Resource Center (VRC)
The VRC’s mission is to streamline the military to civilian transition and increase student veteran success at CSU-Pueblo. The VRC offers a wide range of programs an incentives for all veterans, active duty, and benefit drawing dependents including: peer based mentoring, faculty based mentoring, veteran to veteran tutoring, veteran based tours and orientation, free text book library, full kitchen with free coffee, PC use, printing and big screen TV. Contact us at (719) 549-2910 or email veteransuccess@csupueblo.edu.

Bureau of Indian Affairs
Students, who identify as American Indian, Eskimo or Aleut, and are recognized by a tribal group served by the Bureau of Indian Affairs, may apply for a BIA grant. The amount awarded is based on financial need and availability of funds from the area agency. For additional information, write to: Scholarship Office, U.S. Department of the Interior, Bureau of Indian Affairs, P.O. Box 370, New Town, ND 58763 or visit with your tribal groups Educational Advisors.

Billing
Student billing is a resource for students and parents seeking information on tuition and fees, payment due dates, COF, tuition appeals, request for
Delinquent debt to the University:

Students are subject to any or all of the following actions if they have a delinquent student account:

- Inability to view grades
- Administratively withdrawn

Tuition and Fees

Tuition and fee rates are on-line at http://www.csupueblo.edu/business-financial-services/Tuition-and-Fees/index.html

Tuition rates are established by the Board of Governors of the Colorado State University System following budget action of the Colorado General Assembly. The Board of Governors normally acts on tuition and fee (course, program, and department) charges at a meeting prior to the start of the academic year. The Student Fee Governing Board (SFGB) is the body at Colorado State University-Pueblo responsible for recommending Permanent Student Purpose Fees (mandatory fees). There may be other fees associated with a student enrolled at the university. All fees and charges are subject to change. Go to your TWOLF Student Portal and then log into PAWS to view billing information.

Payment Due Dates

Student Balance is due in full on the specified date of each semester. Any remaining balance after the payment due date will be assessed a 1.5% finance charge each month. The finance charges will appear in the students’ PAWS account as an Extended Payment Plan Charge (EPPC). EPPC’s assessed will not be removed for pending private scholarships that have not been received by the university. Visit the Billing website and/or call Student Financial Services for more information. http://www.csupueblo.edu/student-financial-services/Student-Billing/index.html.

To view your bill: access your Student Paws/Billing Page.

College Opportunity Fund

The College Opportunity Fund (COF), created by the Colorado Legislature, provides a stipend to eligible undergraduate students. The stipend pays a portion of your total in-state tuition when you attend a Colorado public institution or a participating private institution. Eligible undergraduate students must apply at https://cof.college-assist.org, be admitted and enrolled at a participating institution. Both new and continuing students are eligible for the stipend. Qualifying students may use the stipend for eligible undergraduate classes. The stipend is paid on a per credit hour basis to the institution at which the student is enrolled. The credit-hour amount will be set annually by the General Assembly. Basic skills courses are not covered by COF. If COF tasks are not completed by the end of the semester, students will be responsible for payment of the COF portion as well as the student share.

To be eligible for COF students must not only be a Colorado resident and pursuing an undergraduate degree but must also apply, be admitted, enrolled and authorize the University to use COF through the student PAWS account. Students pursuing a second bachelor’s degree (Degree Plus) may also be eligible for COF and should contact Student Financial Services for more information.

Delinquent Student Accounts

Students are subject to any or all of the following actions if they have a delinquent debt to the University:

- Inability to view grades
- Administratively withdrawn

• Diplomas and transcripts held (official and unofficial)
• Letters of completion for graduation withheld
• Enrollment and degree verification (of National Student Clearinghouse will be restricted)
• No future course registrations allowed
• Turned over to a collection agency

Reasonable collection/legal costs will be added to the amount due. Any student who pays with a check that is returned unpaid by his/her bank will be subject to all of the penalties for late payment and also will be charged an additional $25 fee.

Tuition Appeals

The Tuition Appeals Committee will consider requests for adjustment to tuition and fee charges when a student can document extenuating circumstances. Appeals must be made no later than thirty (30) days past the end of the term in question. The Appeals committee meets only once a month. Appeal forms can be obtained by contacting Student Financial Services in the Administration Building. No adjustment/refunds of tuition and fees will be made to a student who is suspended, dismissed or expelled for a breach of discipline.

Third Party

All students who have a designated third party that will be making payment on the student’s account must submit completed forms to the Student Financial Services office before the first payment due date. Once the proper forms are received, invoicing for all third party sponsors will begin to be processed after the drop/add date. For further information please contact Student Financial Services.

Request For Refund

Students who have a credit on their account can request a refund by completing a request for refund form. Students who want to leave a credit on their account can do so for an upcoming semester. Once the request for refund form is submitted it will be verified and processed in one to two weeks. Students can pick up a request for refund from by visiting the Student Financial Services office in Administration building room 212 or by visiting the main CSU-Pueblo website. https://www.csupueblo.edu/business-financial-services/_doc/student-billing/request-for-refund.pdf.

Accessing 1098-T

To access your 1098-T tax form please visit the Heartland ECSI website below. For further questions please contact Student Financial Services. https://heartland.ecsi.net/
include but is not limited to:

Students who meet one or more of the following criteria may request an
exemption to the two-year live-on requirement. The exemption criteria
include but is not limited to:

1. Student will commute from their parent’s or guardian’s home within
   Pueblo County.¹
2. Student has lived on campus for the equivalent of two full academic
   years at another University before transferring to CSU-Pueblo.

Students seeking an exemption from the live-on requirement for housing
must complete a Housing Exemption Form and receive approval. The
Housing Exemption Committee will determine if an exemption to the
live-on requirement will be granted and students will be notified of the
committee’s decision.

All residential students are required to have a meal plan. Students
failing to meet these requirements will be assigned housing and will be
assessed the costs of the housing rate assigned and board charges.

Residence Hall Association
Residence Hall Association (RHA) is a student organization within the
residence halls with a focus on student programming. Being involved
in RHA can be as easy as being a floor representative in your hall. Each
hall has a hall council which works with the executive board of RHA to
do programming for all halls. Being in RHA also allows the opportunity
to attend regional and national conferences and the ability to network
with other students across the nation. Involvement in RHA is a good
opportunity for students to build networking and leadership skills on
campus while being a part of the residence life experience.

Crestone Residence Hall
This residence hall is home to 252 students in 72 bedroom suites. It
features a laundry room, warming kitchen, a state of the art classroom,
mail boxes, and meeting space. A glassed-in lounge is located on each
floor. There are also card access security entrances to provide a safe
living and learning environment. This building is designed for wireless
internet access.

Culebra Residence Hall
Culebra Hall has four floors of mostly suite-styled student rooms, totaling
235 beds, a commons/lounge area with adjacent small study rooms,
laundry room, mail boxes, and a food venue offering soups, snacks, and
sandwiches. A glassed-in lounge is located on each floor. There are also
card access security entrances to provide a safe living and learning environment. This building has wireless internet access.

Greenhorn Residence Hall
This residence hall offers four floors of mostly suite-styled student rooms
totaling 263 beds with a commons/lounge area and adjacent small study
rooms, laundry room, mailboxes, warming kitchen, and fully-equipped
technology classroom. A glassed-in lounge is located on each floor.
There are also card access security entrances to provide a safe living and
learning environment. This building has wireless internet access.
Application Information
A $150 non-refundable application fee must accompany each application. Housing contracts are issued for the entire academic year and must include a meal plan.

Contract Board (Meal Plan) Policies
Residence hall students are required to contract for meals at the University. Meal plans are purchased each term and allow the student full dining privileges for that term. Special diets prescribed by a physician are given consideration.

Contact information for University Housing is:
Residence Life and Housing
2290 Bonforte Boulevard
Pueblo, CO 81001
Phone: (719) 549-2602
Fax: (719) 549-2636

Website: http://www.csupueblo.edu/housing/

University Village at Walking Stick
(Student Apartment Housing)
University Village at Walking Stick is Colorado State University-Pueblo’s on-campus apartment community for students and offers a unique housing opportunity for sophomores, juniors, and seniors or for students 21 years of age or older.

The apartments offer high-speed Internet access in each bedroom and common area, as well as cable TV in each bedroom and common area. Each unit features individually controlled heating and air-conditioning. Each unit is two-stories. Two floor plans are available, each consisting of 4-bedrooms and 2-bathrooms. All utilities are included in the housing plan.

Academic year occupancy begins August 22nd and extends through May 6th. Students in the apartments are not required to purchase a meal plan.

The interior of each apartment offers a kitchen, dining and living room on the first floor and a study loft on the second floor. Each floor plan features four private locking bedrooms and a semi-private locking vanity and bathroom on each floor. Bedrooms range in size from 108 square feet to 124 square feet with large closets. This student community also features a spacious and inviting clubhouse, an outdoor basketball court, park benches, and restricted on-site parking. On-site laundry is provided in the clubhouse for all University Village at Walking Stick residents.

Application Information for University Village at Walking Stick
A $150 non-refundable application fee and a $100 non-refundable restoration fee must accompany each application. University Village at Walking Stick contracts are issued for entire academic year and do not require a meal plan.

Contact information for the University Village at Walking Stick is:
Residence Life and Housing
2290 Bonforte Blvd.
Pueblo, CO 81001
Phone: (719) 549-2602
Fax: (719) 549-2636
Email: housing@csupueblo.edu
Website: http://www.csupueblo.edu/Housing/Pages/default.aspx

Housing for Students with Families
Although the University does not provide housing for students with families, the Pueblo community offers a variety of rental options including homes, condominiums, and apartments.

Student Recreation
https://recreation.csupueblo.edu
Student Recreation Facility Services offer comprehensive and vibrant experiential opportunities that enhance students’ fitness and wellness, knowledge, personal skills, and enjoyment by providing:

- Opportunities for a variety of activities that may contribute to individual physical fitness and wellness.
- Opportunities for organized, cooperative, and competitive activity.
- A medium through which students can learn and practice leadership, management, program planning, and interpersonal skills.
- Access to quality facilities, equipment, and programs.

The Student Recreation Center (SRC) is a student-funded facility designed to serve the recreational needs of students at CSU-Pueblo. Built in August 2008, the building is approximately 43,000 square feet located adjacent and attached to the southern portion of the HPER Building.

The Student Recreation Center facilities:

- Cardiovascular, strength, and conditioning areas
- Group fitness and dance studio
- Multi-court gymnasium with an elevated 1/12th mile running track
- Four racquetball courts (one convertible squash court)
- Swimming pool
- Rock climbing wall
- Functional Fitness Room
- Locker rooms
- Lounge (Wi-Fi access) with indoor & outdoor seating area
- Health and wellness suite
- Outdoor athletic track and artificial turf field
- Outdoor Challenge (ropes) Course
- Outdoor Pursuits Programs (equipment rental program & trips)

Student Recreation Services
https://recreation.csupueblo.edu
Students are encouraged to regularly check the SRC website for updated information including: intramural events and deadlines, fitness schedules, pool schedules, and calendars for upcoming trips and events.

Intramural Sports and Club Sports
(719) 549-2087 or email bill.moorman@csupueblo.edu
Intramural Sports provide the opportunity to compete in various organized, safe, and friendly sporting activities during the academic year. Our goal is for every participant to have fun and enjoy the campus community emphasizing recreation, health, wellness, teamwork, leadership, sportsmanship, and social interaction.

Some of the activities offered include: flag football, soccer, basketball, volleyball, softball, arena football, ultimate frisbee, indoor soccer, table tennis, and various video game tournaments.
Club sports are a group of student organizations established to promote and develop the interests and skills of its members in sport-related activities. The club sports program is student initiated, and the emphasis is placed on student participation. Participation in club sports is completely voluntary. Membership is open to all current students regardless of skill level. Club Sport teams practice, travel, and compete on behalf of CSU-Pueblo. Current offerings include: Bass Fishing, Baseball, Men’s Basketball, Climbing, Men’s Rugby, Rodeo, Men’s Soccer, Women’s Volleyball, Racquetball, and Squash.

Group Fitness
(719) 549-2085 or email lisa.martin@csupueblo.edu

A variety of fitness classes are offered for participants wanting to get a great cardio workout, to burn some fat, and/or tone their bodies. Classes are open to participants of all fitness levels. Participants are encouraged to work at their own level. Classes are taught showing routine options to accommodate different audience skill levels (low, intermediate, and advanced). Walk-ins are always welcome!! You may join a class at any time and attend as often as you wish.

Classes are led by well-trained, friendly, and enthusiastic instructors who are either certified and/or have been through a rigorous training program focusing on proper technique, safety, and class format. Each instructor is allowed to teach with his/her own unique style, which enhances and adds variety to the program.

Equipment is provided for most classes, including steps and risers, Bosu balls, free weights, Body Bars, resistance bands and tubing, mats, yoga mats and blocks, jump ropes, and more!

Outdoor Pursuits
(719) 549-2091 or email sr.outdoorpursuits@csupueblo.edu

The Outdoor Pursuits Program offers a wide range of outdoor recreation and skill-building activities for students. Outdoor Pursuits core programs are:

Outdoor Programs/Trips
Professional and student staff members guide trips such as camping, hiking, skiing, snowboarding, rock climbing, kayaking, backcountry skiing/riding, snowshoeing, avalanche safety training, backpacking, peak climbing, and mountain biking.

Outdoor Pursuits can also provide maps, trip or route advice, reading material, and other resources to plan individual adventures.

Challenge Course/Team Development Programs
Challenge Course consists of a series of obstacles known as elements suspended from utility poles constructed with steel cables, ropes, and wood. The course offers a challenging environment (emotionally, mentally, and physically) designed to promote teamwork, cooperation, and group problem-solving skills, as well as develops individual self-confidence.

Programs are designed for a unique adventure based upon a group’s objectives. Programs vary in degrees of difficulty, depending upon each group’s specific needs and goals. Physical prowess is not necessary for participation; however, teamwork and cooperation are essential to help individuals discover the value of trust, shared responsibility, and mutual support. Trained facilitators provide positive support and encouragement as participants explore their individual and group abilities.

Rock Climbing Wall
The climbing wall at CSU-Pueblo located in Massari Arena has six top rope climbing routes and three sport lead routes. Classes range from an introductory session for the first timer to advanced anchor and rescue workshops. The wall is open during the day and evenings.

Equipment Rental
The Outdoor Pursuits Program provides CSU-Pueblo students with the opportunity to rent equipment for their own personal trips. Available by reservation for a modest term user fee, outdoor equipment includes:

- Mountain bikes
- Telemark skis, boots and backcountry gear
- Snowshoes and poles
- Tents
- Backpacks
- Camping equipment and cooking gear
- Maps, guidebooks
- Sleeping bags
- Rock climbing shoes

Student Engagement and Leadership
The Office of Student Engagement and Leadership’s (SEAL) mission is to provide students with co-curricular learning and leadership development opportunities through activities, events, student organizations, fraternity and sorority life, and orientation which promote and enhance their student experience and provide them with a sense of belonging at CSU-Pueblo.

SEAL facilitates a comprehensive student engagement program intended to enrich the campus experience for University students. SEAL promotes opportunities for students to participate in student leadership experiences that result in broad organizational and involvement opportunities and enhance the overall educational experiences of students through development of, exposure to, and participation in social, cultural, multicultural, intellectual, recreational, and community service programs.

Throughout the academic year, SEAL promotes events that motivate, challenge, and encourage divergent thinking through activities and events for all CSU-Pueblo students. SEAL’s popular events include speakers, comedians, hypnotists, magicians, do-it-yourself activities, talent competitions, movie nights, and concerts.

SEAL facilitates a vibrant campus environment in which students and student organizations are offered opportunities to:

- Participate in co-curricular out-of-class learning activities;
- Enhance leadership abilities;
- Widen healthy interpersonal relationships;
- Get involved in various productive ways;
- Explore activities in individual and group settings for self-understanding and growth;
- Learn about varied cultures and experiences, ideas and issues, and art and musical forms;
- Design and implement programs to enhance social, diversity, and academic opportunities;
- Design and implement programs that provide intellectual, recreational, community service, and campus involvement opportunities;
During orientation students will:

• Enable group interests and encourage group activities; and
• Learn about, and use campus facilities and other resources.

SEAL is located in OSC 102. Please visit the Student Activities website to view all events: www.csupueblo.edu/getinvolved. Contact (719) 549-2151 for more information or to learn how you can get involved with campus life or join the SEAL team.

Commuter Student Lounge
The Commuter Student Lounge is an informal social and educational environment for non-traditional and commuter students, where they can become aware of the services and programs of the University and local community. The Center is a getaway space for students to study quietly before and after their classes. The Center is located on the second floor of the LARC, room 277.

Commuter Student Program
The Commuter Student Program provides engagement opportunities for CSU-Pueblo students that live off campus to promote a sense of community and belonging and to contribute to the students’ social and academic integration at CSU-Pueblo.

The Commuter Student Advisory Board, part of the Commuter Student Program, is a student group that provides guidance to the Office of Student Engagement and Leadership on what types of programming and services that students who live off campus would like to see. To apply to be a part of the Commuter Student Advisory Board, complete the application on Packlink: https://csupueblo.collegiatelink.net/.

Associated Students’ Government
The Associated Students’ Government (ASG) is the students’ governing body and promotes student affairs and the general welfare of the student body. It also addresses student concerns and/or complaints regarding any campus issue. ASG works to be the voice of students and to make students aware of administrative decisions on campus by having Senators as representatives on most of the boards and committees on campus.

ASG functions through three branches of government: Legislative, Executive, and Judicial. The Legislative branch, the ASG Senate, is composed of 14 senators elected from the student body. It is presided over by the Vice President. The Executive branch consists of the President and the Vice President. The Judicial branch is composed of up to five justices, one of whom is designated the chief justice. The senate meets weekly. Contact (719) 549-2151 for more information.

ThunderWolf Welcome New Student Orientation
New student orientation is the beginning of an ongoing process of introduction to the curricular and co-curricular opportunities available to students at CSU-Pueblo. The purpose of orientation is to facilitate the transition of new and transfer students into the CSU-Pueblo community, prepare students for the institution’s educational opportunities and student responsibilities, and provide information to parents and families of new students as they support their students’ educational endeavors.

During orientation students will:

1. learn about the academic requirements and expectations at the University;
2. meet other new students, experienced students, University faculty, and University staff;
3. attend a variety of sessions on co-curricular activities and getting involved on campus; and
4. become familiar with the CSU-Pueblo campus and community.

Specific orientation requirements are posted on the website: www.csupueblo.edu/orientation.

Student Leadership
Leadership programs at CSU-Pueblo strive to help plan and organize comprehensive leadership development programs that are designed to enhance the total learning experience for our students. Leadership Programs evaluate student needs and implements programs and activities that facilitate the learning, growth, and development of students and fosters leadership, civic engagement, and sense of community. Through leadership education, service learning and advocacy, students will become active citizens on campus, in their respective communities, and in the workplace. The Student Leadership Program is comprised of the National Society of Leadership and Success (NSLS), the Student Leadership Experience, and other Leadership Workshops held throughout the academic year.

Fraternity and Sorority Life
The Office of Student Engagement and Leadership is committed to enhancing Fraternity and Sorority Life and Fraternity and Sorority affiliated students to build a Greek community where students can have a positive collegiate experience. SEAL believes that the leadership opportunities provided by membership in fraternal organizations are endless and will be an outstanding part of a student’s life during their undergraduate career. Fraternity and Sorority Life builds an inclusive Greek community and enhances the collegiate experience by supporting opportunities for siblinghood, leadership, service, and scholarship; and to serve as liaison among the collegiate chapters, parents, alumni, international organizations, and the University to provide organizational guidance, educational programs, and resources while challenging members to live their fraternal values. Each organization also has representation on Fraternity and Sorority Council.

CSU-Pueblo is proud to be the home of five national social Greek letter organizations:

1. Alpha Sigma Alpha Sorority - Zeta Pi Chapter,
2. Alpha Kappa Alpha Sorority, Inc. – Tau Tau Chapter,
3. Lambda Theta Nu Sorority, Inc. – Alpha Omicron Chapter,
4. Alpha Psi Lambda - CSUP Colony and
5. Lambda Chi Alpha – Delta Omega Chapter.

Contact (719) 549-2225 for more information or to learn how you can get involved with a Greek-Letter Organization.

Major Events Series
Colorado State University-Pueblo hosts a series of major events each academic year. The series is an opportunity to learn from scholars, politicians, business people, and philanthropists who can inspire students and community members to think critically about current issues, trends, events, knowledge, diversity, and leadership. The series also features cultural events; including dance productions, major concerts, and comedy shows. The major events series is open to the public. Events are co-sponsored by the Office of Student Engagement and Leadership, the Student Fee Governing Board, the Office of Diversity and Inclusion, and other entities around campus.
Student Organizations

CSU-Pueblo students have opportunities to take part in the activities of a number of student organizations. Students can search for student organizations and join them virtually through http://www.csupueblo.collegiatelink.net/. Students interested in starting a new recognized student organization must first find a faculty or staff member willing to advise the organization, four other CSU-Pueblo students to serve as officers interested in the same group, and develop a student organization mission statement and constitution. All students then must meet with the Office of Student Engagement and Leadership to complete the process. For information, please contact the Office of Student Engagement and Leadership at (719) 549-2151.

For a current list of student organizations, please visit the Student Organization website: http://www.csupueblo.collegiatelink.net/.

Academic Organizations
- American Society of Mechanical Engineers
- Art Club

Services, Support, and Student Development Programs

Career Center

The Colorado State University-Pueblo Career Center offers employment services and opportunities for students and alumni that will assist in developing a career objective, obtaining relevant work experience, and learning the skills necessary to conduct a self-directed job search.

The Career Center assists students with professional employment, internships, career planning and career coaching. This includes but not limited to: Résumé and Cover Letter development, interviewing skills, how to search and apply for internships, and strategies on how to conduct a self-directed job search.

The Career Center coordinates all on-campus recruiting with employers and coordinates the annual Dining Etiquette Training and the Spring Career Fair.

All off-campus employment, full, part-time, seasonal, and internship opportunities are posted on Handshake, via the Career Center webpage on a regular basis. Resources information such as Salary Surveys, How to Search for a Job, Dining Etiquette, and a variety of reference materials are also available in the Center.

The Career Center is located on the main floor of the University Library and Academic Resource Center (LARC), suite 187. For further information about programs and services offered by the Career Center, contact a staff member at (719) 549-2980 or visit our website at http://www.csupueblo.edu/careercenter.

Disability Resource & Support Center

The Disability Resource & Support Center ensures the provision of reasonable academic accommodations and support, designed to enhance academic effectiveness and promote independence in students with disabilities. Students with disabilities seeking adjustments for
courses or University programs must meet with the Disability Resource & Support to request services.

The Disability Resource & Support Center is located in the Library and Academic Resources Center (LARC) Suite 169. Appointments can be made by telephone (719-549-2648), online (https://calendly.com/csupjustinhiniker), or in person.

**Student Counseling Center**

The mission of the Counseling Center is to provide a professional and confidential setting that meets the psychological, emotional and developmental needs of students as they pursue their academic goals.

**Confidentiality**

All visits to the counseling center are kept confidential within the limitations mandated by state and federal law. If you have questions, please be sure to discuss the limitations with your counselor.

**Fees**

Students are allowed eight free visits with a counselor per semester. After this time there will be a $10.00 fee per session. If a student misses an appointment without advanced notice, there will be a $10.00 no show fee added to the students’ account.

There is never a charge for crisis management or intervention. Any crisis situation is immediately evaluated and addressed without charge to the student.

The Counseling Center is located 4320 Walking Stick Blvd, bottom floor of Culebra Resident Hall. Entry is through the back door off the parking lot on Walking Stick Blvd. Appointments can be made by telephone or in person.

Phone: (719)-549-2838.

**Health Education and Promotion (HEP) Program**

Our mission is to provide prevention education, healthy living, and learning opportunities in order to sustain a wellness-focused environment that further develops academics and success for students of Colorado State University-Pueblo. The Health Education and Promotion (HEP) Program works with individual students, small groups and the campus/community to provide individually tailored, evidence-based prevention education and behavioral interventions.

Individual students can receive a free assessment, access to free educational/behavioral interventions, and referral to additional options on and off campus. Some students may be mandated to complete an assessment and educational intervention track as a result of violating the Alcohol and Other Drug Policy. To schedule an appointment with the Coordinator of Health Education and Promotion (HEP) Program, call (719) 549-2121.

Group presentations are available for student clubs, organizations, residence hall communities, fraternities, sororities, classrooms, and other workgroups.

Health Education and Promotion Program

Phone: (719) 549-2121

**Drug Free Schools and Communities Act (DFSCA)**

CSU-Pueblo maintains compliance with the Drug Free Schools and Communities Act regulations. The unlawful possession, use, or distribution of illicit drugs is prohibited. Students, faculty, or staff found in violation of campus policies will face disciplinary sanctions. For more information about the legal sanctions under federal, state, or local law; information about the health risks associated with the use of alcohol or other drugs; or for information about counseling, treatment, rehabilitation, or re-entry programs, visit: http://www.csupueblo.edu/CounselingCenter/Pages/Alcohol-and-Other-Drugs.aspx

**Sex/Gender Based Discrimination and Sexual Misconduct Policy Statement**

All members of the University community, and their guests, have the right to be free from discrimination, protected class harassment, sexual misconduct (including sexual harassment) and sexual assault, intimate partner violence, and stalking. Furthermore, all members of the University community are expected to conduct themselves in a manner that does not infringe upon the rights of others. The University maintains a policy of zero tolerance for sexual misconduct and sex/gender based discrimination, regardless of the sexual orientation, gender identity, or gender expression of the involved individuals. When sexual misconduct or sex/gender based discrimination is reported the University, the University will take the appropriate actions to stop the behavior, prevent its recurrence, and remedy the behavior’s effects.

The University is committed to complying with all requirements as set forth by Title IX of the Education Amendments of 1972 ("Title IX"). As such, discrimination on the basis of sex or gender will not be tolerated in any of the University's education programs or activities, or the working environment. Such discrimination includes, but is not limited to: sexual misconduct (sexual harassment, sexual exploitation, non-consensual sexual contact, and non-consensual sexual intercourse); intimate partner violence (dating violence and domestic violence); stalking; and failing to provide equal opportunity in admissions, program/activities, athletics, or employment.

All allegations of, or concerns regarding, potential sexual misconduct or sex/gender based discrimination are referred to the University’s Title IX Coordinator. The Title IX Coordinator is responsible for identifying and addressing any patterns or systematic concerns related to sex/gender based discrimination or sexual misconduct.

Questions or concerns regarding sex/gender based discrimination, sexual misconduct, or the University’s procedures may be directed to one or more of the following resources:

For concerns relating to faculty, staff, students, contractors, guests, or visitors:

Joshua R. Ernst
Director, Office of Institutional Equity
Administration Building, Suite 304
(719) 549-2210
josh.ernst@csupueblo.edu

For concerns relating to equal opportunity in intercollegiate athletics:

Jacklin Wallgren
Associate Athletic Director for Compliance, Department of Athletics
Massari Arena, Room PE 208
(719) 549-2021
Colorado State University-Pueblo

Student Health Services
The mission of Student Health Services is to provide acute and preventative care and promote wellness, to encourage academic success and leadership of the student population.

There is no charge for an appointment to see a Nurse Practitioner or Nurse. Students, however, incur charges for laboratory tests, physical or specialty exams performed, or for medication dispensed from the on-site pharmacy. Forms of payment include credit cards, check, or cash.

Students are encouraged to visit the health clinic whenever necessary. The licensed professional staff of Student Health Services consists of nurse practitioners. Patients are seen by appointment. Walk-ins are welcome and will be seen at the first available time.

All immunization records must be turned in to the Student Health Services clinic within the first fourteen days of the semester. Colorado Statute requires proof of two MMR (measles, mumps, rubella) vaccinations for all students attending school in Colorado. Proof of immunizations may be taken to the Student Health Services clinic, 4320 Walking Stick Blvd, Culebra Hall 109B (entry is through the back door off the parking lot on Walking Stick Blvd), emailed or faxed. Students who have not provided proof of immunizations will be unable to register for classes the following semester until proof of immunizations is received and entered into the system.

Office: (719) 549-2830
Fax: (719) 549-2646
Web: http://www.csupueblo.edu/shs
Email: shs@csupueblo.edu

Student Health Services
Colorado State University-Pueblo strives to achieve a campus community in which individuals demonstrate respect for others, for themselves, and for the University; uphold high standards of personal and academic integrity; are accepting of differences and gain an appreciation for living in a pluralistic society; understand the impact of their behavior both upon the University and the larger community; and freely accept the responsibility for and the consequences of their conduct.

Student Code of Conduct
Colorado State University-Pueblo students are expected to become familiar with the Student Code of Conduct and the student conduct process. The most recent version of the Student Code of Conduct and details of the disciplinary processes and procedures may be accessed via the University’s website at: https://www.csupueblo.edu/student-affairs/_doc/student-code-of-conduct.pdf.

You may contact the Director of Student Conduct, Nicole Ferguson, if you have any questions or concerns or need to report an incident involving students online: https://www.csupueblo.edu/student-affairs/student-conduct/ or at (719) 549-2586/2092.

Trio Educational Opportunity Center (EOC)
EOC is a federally funded TRIO grant program, sponsored by CSU-Pueblo that assists first-generation and low-income individuals in gaining access to higher education. The program provides services to CSU-Pueblo students as well as high school students and adults in twelve southern Colorado counties and one northern New Mexico county. EOC services are especially beneficial to individuals who seek extra assistance in navigating the procedures related to financial aid and admissions. All services are provided free of charge.

Services include:
- Information about college and career opportunities.
- Assistance in completing admissions and financial aid applications.
- Referrals to GED and college preparation programs.
- Information about scholarship opportunities.
- College application and testing fee waivers.

For services on the CSU-Pueblo campus, students and community members can call (719) 549-2457. The central office is located on the CSU-Pueblo campus, Room 365 in the Library and Academic Resource Center (LARC). Satellite offices are located at Fort Carson’s Education Center and on community college campuses in Pueblo, Colorado Springs, Lamar, La Junta, and Trinidad. To access services or for more information, call (719) 549-2457 or toll free (877) 302-4433 or visit our website: http://www.trioeoc.com.

College Assistance Migrant Programs (CAMP)
The purpose of the Federally-funded College Assistance Migrant Programs (CAMP) is to provide academic and financial support to assist students with migrant and seasonal farm work backgrounds in entering college and being successful. The CAMP program at CSU-Pueblo is in partnership with Kansas State University.

Services:
- Academic advising
- Scholarship to assist with tuition, fees, housing, and other expenses
- Tutoring and college skills development
- Career exploration
- Mentoring, emotional and social support

Eligibility:
- Have been employed or parents have been employed in migrant or seasonal farm work for at least 75 days in the past 24 months
- Have high school diploma or GED
- Have not entered college or have earned less than 30 credit hours
- U.S. Citizen or permanent resident
- Enrolled or admitted for enrollment at CSU-Pueblo

For more information about the CAMP program, call (719) 549-2402 or stop by the office in the Library and Academic Resource Center (LARC), Room 383.

Trio Student Support Services
Student Support Services (SSS) is a federally funded TRIO grant project providing an array of services to low-income, first-generation students and students with disabilities. The purpose of TRIO SSS is to increase the retention and graduation rate of participants. This is accomplished by providing supportive services such as:
- Academic action planning.
- Peer tutoring (one-on-one, group, and drop-in).
- Academic, career, financial literacy, and graduate school counseling.
- Financial Aid advisement.

jackie.wallgren@csupueblo.edu

Please visit www.csupueblo.edu/institutional-equity for additional information.
Services include:
- College Success Course.
- Academic success seminars.
- Educational resource center and study room.

To be eligible to receive services from the TRIO SSS Project, students must meet the following requirements:

- Be enrolled or accepted for enrollment at CSU-Pueblo as an undergraduate student,
- Be a low-income student, and/or
- Be a first-generation student, and/or
- Be a student with a documented disability,
- Meet the academic criteria as established by the TRIO SSS Project, and
- Be a citizen, national, or permanent resident of the U.S.

Students who meet these criteria are encouraged to apply. For more information, please stop by the office located in the Library and Academic Resource Center (LARC), Room 357 or call us at (719) 549-2111. Additional information can be located on the SSS website: http://www.csupueblo.edu/sss.

**Trio Upward Bound**

Upward Bound is a federally funded TRIO grant program sponsored by CSU-Pueblo. The program mission is to provide low-income and first generation students the pre-collegiate experiences and services (academic, social, and cultural) necessary to matriculation into higher education and successful completion of an Associates or Bachelors Degree. Upward Bound services students at County, Centennial, Central, and East high schools in Pueblo.

**Services include:**

- Academic year tutoring on a weekly basis at area target schools
- Six-week Summer Pre-college Academy at CSU-Pueblo
- Summer Bridge (transition to college) Program at CSU-Pueblo
- Service learning and leadership development
- Social and cultural activities
- Continued Alumni outreach and support services

The main office is located on the CSU-Pueblo campus, Room 376 on the 3rd floor of the Library and Academic Resource Center (LARC). To access services or for more information, call (719) 549-2750 or visit our website: http://www.csupueblo.edu/TRIO/UB/Pages/default.aspx.

**Trio Educational Talent Search**

Educational Talent Search is a federally funded TRIO grant program sponsored by CSU-Pueblo.

The program identifies and assists middle school and high school students from disadvantaged backgrounds who have the potential to succeed in higher education. The program provides academic, career, and financial counseling to its participants and encourages them to graduate from high school and continue on to and complete their postsecondary education. Educational Talent Search services are available to students attending Pueblo Academy of Arts, Roncalli Middle School, Risley Middle School, Central High School, East High School, and South High School.

Services include:
- Academic Advising
- Mentoring Program
- Academic Skills Workshops
- Financial Literacy
- Career Exploration Activities
- College Access Programming and Support
- Fieldtrips and Campus tours

The main office is located on the CSU-Pueblo campus. Applications are accepted year round. For more information, please contact the Educational Talent Search Office at 719-549-2592 or visit our website at https://www.csupueblo.edu/trio/talent-search/index.html.

**Trio Veterans Upward Bound**

Veterans Upward Bound is a U.S. Department of Education TRIO Grant program which provides academic refresher assistance, training and advising to low income and/or first generation honorably discharged veterans who are pursuing a GED certificate and/or are preparing to enter post-secondary education. Non-credit academic instruction is available in the subject areas of English, mathematics, science, careers, computer literacy, and Spanish.

This program is an opportunity for veterans to re-establish fundamental ideas and study habits, which are prerequisites for successful performance at the post-secondary educational level. Additionally, Veterans Upward Bound provides access to academic resources, employment referrals, assistance with VA benefits applications, and referrals to various community assistance organizations.

Colorado State University-Pueblo is the host university offering a full computer lab with free printing, free coffee, a refrigerator and a variety of resources for veterans. Classes and services are also offered at Pikes Peak Community College and Pueblo Community College campuses. The program, all classes and materials are FREE for those who qualify.

The Veterans Upward Bound Staff can assist veterans in several areas, including:

- Academic Skills Refresher Training
- GED Preparation
- College Entrance Assistance
- Admissions
- Financial Aid Applications
- VA Educational Benefits
- Academic Advising
- Career Guidance

Classes are offered at various times. Please contact the program for the current schedule.

Please call to get complete information on how Veterans Upward Bound can benefit you or visit our website: http://www.csupueblo.edu/TRIO/VUB/Pages/default.aspx.

**VUB Contact Information:**

ACADEMIC POLICIES

Students are well advised to become familiar with the academic policies of the University. Each student owns the responsibility to comply with these policies.

Academic Year

The academic year begins with Fall semester and ends with the Summer session.

Rights Regarding Students’ Educational Records

The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a Federal law that protects the privacy of student education records. Colorado State University-Pueblo’s practice in regard to student record keeping and access is based on the provisions of FERPA. FERPA applies to the Education Records of Colorado State University-Pueblo students who are currently enrolled, or who were formerly enrolled, regardless of their age or status with regard to parental dependency. A student is considered to be currently enrolled and covered under FERPA when the student enrolls in classes at the University. For specific details, visit or contact the Registrar’s Office (Administration Building, Room 202).

Schools may disclose, without consent, directory information (designated below), collectively or individually. Colorado State University-Pueblo does publish several bulletins, lists, brochures, catalogs, directories, yearbooks, commencement items, annuals, guidebooks, news releases, sports information, honor rolls, etc., containing this directory information which specifically identifies students and information about them.

Directory information includes, but is not limited to,

- Student's name
- Address
- Telephone listing
- Electronic mail address
- Photograph
- Date and place of birth
- Major field of study
- Grade level
- Enrollment status (e.g., undergraduate or graduate, full-time or part-time)
- Dates of attendance
- Participation in officially recognized activities and sports
- Weight and height of members of athletic teams
- Degrees, honors, and awards received
- The most recent educational agency or institution attended
- Potential graduation date

A student, by the end of the second week of classes, must notify the Registrar’s Office (Administration Building, Room 202) in writing that directory information should not be released without prior written consent by completing the “Request to Withhold/Release Directory Information” form.

If a student later wants this information released when requested, he/she needs to complete a new “Request to Withhold/Release Directory Information” form.

Generally, schools must have written permission from the eligible students in order to release any information from a student’s education record. However, FERPA allows schools to disclose those records, without consent, to the following parties or under the following conditions (34 CFR § 99.31) which include but are not limited by:

- School officials with legitimate educational interest;
- Other schools to which the student is transferring;
- Specified officials for audit or evaluation purposes;
- Appropriate parties in connection with financial aid to a student;
- Accrediting organizations;
- Organizations conducting certain studies for or on behalf of the school;
- To comply with a judicial order or lawfully issued subpoena;
- Appropriate officials in cases of health and safety emergencies;
- State and local authorities within a juvenile justice system, pursuant to specific State law;
- The disclosure is to parents, of a dependent student, pursuant to the IRS code;
- The disclosure of the final results of a disciplinary proceeding to a victim of an alleged perpetrator of a crime of violence or a non-forcible sex offense;
- The disclosure is to a parent of a student under the age of 21 who is disciplined due to a violation of any Federal, State, or local law, or of any rule or policy of the institution, governing the use or possession of alcohol or a controlled substance; and
- The disclosure concerns sex offenders and other individuals required to register pursuant to the Violent Crime Control and Law Enforcement Act of 1994, and the information had been provided to the university.

Subject to the conditions set forth in 99.31-99.35 of the Act.

**Academic Dishonesty**

Academic dishonesty is any form of cheating that results in students giving or receiving unauthorized assistance in an academic exercise or receiving credit for work which is not their own. In cases of academic dishonesty, the instructor will follow protocol as identified by their department. Academic dishonesty is grounds for disciplinary action by both the instructor and the Director of Student Conduct. Any student found to have engaged in academic dishonesty may receive a failing grade for the work in question, a failing grade for the course, or any other lesser penalty which the instructor finds appropriate.

To dispute an accusation of academic dishonesty, the student should first consult with the instructor. If the dispute remains unresolved, the student may then state their case to the department chair (or the dean if the department chair is the instructor of the course). A student may appeal a grade through the Academic Appeals Board, if eligible.

Academic dishonesty is a behavioral issue as well as an issue of academic performance. As such, it is considered an act of misconduct and is also subject to the University conduct process as defined in the CSU-Pueblo Student Code of Conduct. Whether or not disciplinary action has been implemented by the faculty, a report of the infraction should be submitted to the Office of Student Conduct who may initiate additional disciplinary action. The decision by the Office of Student Conduct may be appealed through the process outlined in the Student Code of Conduct.

In the event of a serious incident or repeat offense of academic misconduct in which a student is found responsible by the Office of Student Conduct, the Director, or designee, shall decide with the faculty member of the course (or designee in the event the faculty member may be unable to be present) whether or not the action for which the student was found responsible was so egregious to the extent that it should be noted on a student’s transcript with a notation of AD. The notation of AD will indicate that the student was given the grade of F for the course as a result of a finding of Academic Dishonesty. Grades marked with AD will not be eligible for grade appeal or retroactive withdrawal. A record of the infraction will remain within the Office of Student Conduct as detailed in the Student Code of Conduct.

**What Are Specific Acts of Academic Dishonesty?**

The following acts of misconduct are acts of academic dishonesty:

1. Cheating—intentionally using or attempting to use unauthorized materials, information, or study aids in any academic exercise. The term academic exercise includes all forms of work submitted for credit or hours.
2. Fabrication—intentional and unauthorized falsification or invention of any information or citation in an academic exercise; or of documentation meant to excuse or justify adjustments related to attendance or completion of work (exams, exercises, etc.)
3. Facilitating Academic Dishonesty—intentionally or knowingly helping or attempting to help another commit academic dishonesty.
4. Plagiarism—the deliberate adoption or reproduction of ideas, words, or statements of another person as one’s own without acknowledgment.
5. Unauthorized Collaboration—intentionally sharing information or working together in an academic exercise when such actions are not approved by the course instructor.

This is not meant to be an exhaustive list of all acts of academic dishonesty, but a guide to help faculty and students understand what constitutes academic dishonesty.

**Classroom Behavior**

The classroom instructor is responsible for setting standards for all classroom conduct, behavior and discipline. Only enrolled students, administrative personnel and persons authorized by the instructor are permitted in classrooms and other instructional areas during scheduled periods. University policy and Colorado state laws also prohibit all forms of disruptive or obstructive behavior in academic areas during scheduled periods or any action which would disrupt scheduled academic activity. Use of classrooms and other areas of academic buildings during non-scheduled periods are permitted only in accordance with University practices and/or policy. Anyone in unauthorized attendance or causing a disturbance during scheduled academic activity may be asked to leave by the instructor. If a person refuses such a request, he or she may be removed by a deputy of the Pueblo County Sheriff’s Office located at the University and may be subject to legal prosecution, as well as through the student conduct process.

All communications with instructors, whether in class, face-to-face, on paper, or by telephone, email or other electronic means, are subject to the same standards for conduct, behavior and discipline as classroom behavior. Standards of conduct outlined elsewhere (Student Code of Conduct, Policy on Discrimination, Protected Class Harassment, Sexual Misconduct, Intimate Partner Violence, Stalking, & Retaliation, etc.) also apply. Faculty and staff are responsible for notifying the Office of Student Conduct of disruption at the time of the occurrence so that proper disciplinary action may be taken.
Class Attendance

Students are expected to attend all classes for which they are enrolled unless excused by the instructor. No extensions of vacation periods are given to students regardless of the location of their homes. Non-attendance of classes caused by late registration is considered the same as absence. Students are not allowed to attend classes for which they are not properly enrolled.

The University does not have a policy permitting a specific number of cuts or absences from class. Each instructor establishes an attendance policy for his or her classes and must inform students in writing of the policy at the beginning of the term. However, the student's grades shall not be affected negatively solely due to absence from class because of participation in University-sanctioned events. Such University-sanctioned activities may include, but are not limited to: intercollegiate competition, participation on the forensics team, and field trips. Class absence due to University-sanctioned participation does not in any way excuse students from completing class preparations, assignments, examinations, or projects.

Although students may drop classes on their own initiative within time lines established by policy, faculty members have the right to withdraw students for non-attendance.

Catalog Requirements

Students may graduate under the catalog requirements for the year in which they are first enrolled, provided they complete graduation requirements within a continuous period of no more than 10-years. If a student withdraws or is withdrawn for any reason from the University and is subsequently readmitted after an absence of two or more semesters, re-admittance will be governed by the catalog current at the time of readmission. Any exceptions to the policy must have prior approval from the Provost. Students should obtain and keep a copy of the catalog under which they enter or are readmitted. Students may also elect to follow any subsequent catalog.

Time Limitation on Credit

Any college credit earned more than 10 years before the date of admission or readmission is not applicable toward a baccalaureate degree desired unless it is approved by the appropriate department chair. This policy includes transfer credit previously accepted by CSU-Pueblo. This policy does not apply to general education courses. Credits from general education courses are accepted even if earned more than 10 years prior to the date of admission or readmission.

Any course substitutions, waivers, exceptions, or petitions completed prior to readmission must be submitted to the appropriate approving authority.

Classification of Students

Classification of students is based on semester credit hours earned as follows:

Undergraduate

Freshman: 0 - 29 semester hours earned
Sophomore: 30 - 59 semester hours earned
Junior: 60 - 89 semester hours earned
Senior: 90 + semester hours earned

Remedial credits (courses numbered 000-099) do not count toward student level.

Graduate Student

See the Graduate Studies section for classification information.

Guest Student – No Credit

Applicants who wish to register as a guest (no credit) without degree-seeking status should contact the Office of Admissions for current policies and procedures.

A guest (no credit) student may carry up to 6 hours per term. A guest (no credit) student is ineligible for financial aid. In place of a grade for each course, students receive the symbol NC (no credit) on their transcripts.

Guest Student – For Credit

Guest (for credit) student category is reserved for applicants who wish to enroll in courses without degree-seeking status. Applicants who wish to register as a guest (for credit) are required to complete a short application with the Office of Admissions each term that they wish to enroll. Guest (for credit) students are NOT REQUIRED to submit official transcripts, test scores or an application fee; however test scores or a transcript will be required to enroll in an English or math course. Tuition and fees are based on the number of credits for which they register and are INELIGIBLE to receive financial aid. A guest (for credit) student may carry up to 15 hours per semester and may earn a maximum of 30 semester hours while maintaining guest status. A guest (for credit) student must maintain a 2.000 cumulative grade-point average. Guest (for credit) students who wish to exceed the 30-semester hour maximum must formally apply for admission. For information on Guest (for credit) Student Status for graduate students, see Graduate Programs section in catalog.
Auditor
An auditor is defined as a student who has been permitted to enroll in a course for which he or she will receive no credit. Auditors determine their own attendance, take no examinations, do not participate in classroom discussion except as permitted by the instructor and earn no credit. They pay the same tuition and fees as persons enrolled for credit. An auditor may not be reclassified to receive credit in the course after the drop period of the course has passed. In place of a grade, students receive the symbol NC (no credit) on their transcripts. Students wishing to register as auditors must declare their intention at registration and may not seek credit in the course after the drop period for the course has expired. Likewise, a student may not change his or her regular enrollment to auditor (no credit) status after the end of the drop period. Auditor (or no credit) forms are available in the Registrar’s Office.

Senior Citizen
Persons 65 years of age or older, or 62 and retired, may audit courses without paying tuition on a space-available basis. Permission of the instructor is required in all cases. A grade of NC (no credit) will be posted.

Full-Time/Half-Time Enrollment Status
Enrollment status (full-time, half-time) is determined by the number of credit hours which the student has completed or is pursuing for the term in which the certification is requested.

Credit hour requirements for enrollment verification (i.e., health insurance, auto insurance, loan deferments) are as follows:

<table>

You may print an Enrollment Verification Certificate online through PAWS or visit the Registrar’s Office for certification of enrollment status and term(s) of attendance. (Please note that the above schedule for enrollment status may differ from the full-time/half-time schedule as recognized by Financial Aid.)

Verification of enrollment or loan deferments can only be processed for the term in which the student enrolled and paid tuition for the course(s). If a student receives an IN grade for a course(s) and continues working to complete the requirements for the course(s), he/she would not qualify for a verification of enrollment or loan deferment for that completion time beyond the initially enrolled term for that course(s).

Grades and the Grading System
Awarding of Grades
Grades are earned by students and awarded by faculty.
The Grading System

The quality of a student's work is appraised according to letter grades and grade point averages. The grading system of Colorado State University-Pueblo includes the following grades: A, A-, B+, B, B-, C+, C, D+, D, D-, F, S, U, IN, W, WN, NC, IP. Faculty use of +/- grading is optional. Course instructors should indicate on the course syllabus and/or policy statement the grading system used in the course.

¹ Credits not used to compute the grade-point average but counted toward graduation, excluding remedial courses.
² Credits not used to compute grade-point average and not counted toward graduation.

D: Indicates below average achievement. Although grades of D+, D, and D- are passing, they do not constitute satisfactory grades. Many departments do not permit these grades to count toward fulfillment of their requirements, even though the hours may be counted toward graduation requirements. Such grades from other institutions are not accepted in transfer.

F: Counted as a course attempted; does not constitute a passing grade nor does it satisfy major or institutional requirements.

S: Available only in certain approved courses.

U: Available only in certain approved courses.

W: This grade is given under two conditions:

1. when a student withdraws or is withdrawn from a course prior to the end of the regular withdrawal period;
2. when a student withdraws totally from the University after the initial drop period.

IN: The grade of IN is recorded at the end of the term when a student is granted an extension of time to complete course work which could not be completed for reasons beyond the student’s control. It is given solely at the discretion of the instructor and is not to be used to grant the student additional time to complete assigned course work due to poor time management. The student must be receiving a passing grade at the time an IN agreement is made, which may be no earlier than the end of the withdrawal period. The IN agreement consists of a plan for the completion of the course work and must designate the student’s existing grade in the course and the work to be completed for the IN to be removed. It must be in writing, signed by the instructor and the student, and placed on file in the Department office. An incomplete course must be satisfactorily completed within the time frame stipulated by the instructor but no later than one calendar year from the date the IN was given. An incomplete not removed within one calendar year shall revert to the pre-assigned grade and be included in the computation of the student’s grade point average. Re-enrollment is not allowed while the IN is still outstanding. Adjunct faculty are not allowed to award grades of IN without approval from the Department Chair.

IP: A grade of IP may be given at the close of the term in certain approved courses. Students receiving an IP must register in the same course the next term, pay tuition and must complete the work during that term. Courses for which IP grades are accrued are identified in the Course Description section of this catalog.
Grade-Point Average Computation

Earned grade points are computed by multiplying the point value of A, A-, B+, B, B-, C+, C, C-, D+, D, D-, and F grades earned by the number of credit hours of the course(s) in which the student was enrolled.¹ A student’s term GPA is calculated by dividing total grade points by total credit hours attempted. A student’s cumulative GPA is calculated by dividing total grade points earned by total credit hours attempted. Earned grades of S, U, W, WN, IP, IN and NC are not computed in the grade-point average. For purposes of computing a student’s grade-point average only CSU-Pueblo hours are used.

¹ And rounding to one digit past the decimal.

Grade Changes

Two signatures are required to successfully complete a faculty initiated student grade change. Since the faculty member is solely responsible for effecting a grade change, the Faculty signature is required. The second signature will be that of the Department Chair. In the event that the Department Chair is the instructor of the course, the second signature will be that of the Dean.

Grade Change Policy/Academic Appeals

Students have the right to appeal any academic decision, including the assignment of final grades. A grade-change request should be extremely rare. It is not appropriate to change a grade because the student submitted additional work.

Before making an appeal, the student must discuss the situation with the instructor(s) involved in the decision. If a grade change is approved by the instructor(s) on the basis of this discussion, the instructor(s) will complete and submit a grade change form.

If a grade change is not approved by the instructor(s), the student may appeal the instructor(s)’ grading decision based upon one or more of the following four grounds. The burden of proof rests with the student to demonstrate that the grading decision was made on the basis of any of these following conditions:

1. An instructor(s) made an error in calculating the original grade or a similar occurrence.
2. A grading decision was made on some basis other than performance and other than as a penalty for academic dishonesty.
3. A grading decision was based on standards unreasonably different from those that were applied to other students.
4. A grading decision was based on a substantial, unreasonable, or unannounced departure from previously articulated standards.

The student must submit a written grade appeal to the department chairperson. The written document must set forth the basis for the appeal, identifying at least one of the four categories set forth above. The request must be submitted, or postmarked if mailed, no later than 20 working days from the beginning of the next regular semester following the date the grade was recorded. If no appeal is received before the deadline, the grade will be considered final. It is strongly recommended that the student meet with the department chairperson within 10 working days after submission of the appeal to discuss the appeal process. The department chairperson, the dean, or any administrative official is prohibited from making a decision concerning the grade change appeal.

Within 20 working days of receipt of the written request for an appeal, the chairperson must provide a copy of the student’s appeal to the instructor(s) who assigned the grade, the dean, and the Academic Appeals Board unless the appeal has been withdrawn. The instructor(s) must write a response to the Academic Appeals Board within 10 working days of receipt of the appeal. If the written request for an appeal is received prior to or during the summer session, when the instructor(s) who assigned the grade may not be available, the chairperson must provide copies to the faculty member and the Appeals Board no later than 20 working days from the beginning of the following fall semester. All documents submitted will become part of the student’s academic file for their review.

The Academic Appeals Board will review the written appeal and response of the instructor(s). When needing further clarification, the Board may elect to separately interview both the student and the instructor(s) before rendering a decision. The decision of the Academic Appeals Board will be based upon whether one or more of the conditions for an appeal set forth above have been met. At the conclusion of the deliberations, the Board will render one of the following decisions:

1. The original grading decision is upheld.
2. The Academic Appeals Board will re-evaluate the student’s achievement of the instructional objectives of the course and assign a grade accordingly.

The Academic Appeals Board decision is the final decision of the University. Within 20 working days of reaching the decision, the Academic Appeals Board will provide written summaries of the hearing and decision, together with a rationale for that decision, to the student, the instructor(s) who assigned the grade, and the academic department of the instructor(s). Should the appeal result in a grade change, the Chair of the Academic Appeals Board will submit a grade change form to the Registrar’s Office.

Last Date of Attendance

Colorado State University-Pueblo does not require that faculty take attendance; however, the U.S. Department of Education requires (34 CFR 668.22) the Office of Financial Aid to determine if a student who receives financial aid and fails to earn a passing grade in a course has actually attended and/or completed the course, or if they withdrew from a course without providing the university official notification. In addition, for students who officially withdraw we are required to document that they also began attending the course(s) from which they withdrew in order to determine the type and
amount of financial aid they may be eligible to retain. Because a student could be a financial aid applicant at any point during the academic year, we must collect this information for all students, so that financial aid eligibility can be accurately determined.

The Department of Veterans Affairs also requires the institution to determine if a student who receives Veterans Educational Benefits stops attending class, the student is not entitled to benefits. (Section 21.4203 of Title 38) Subsection (d), in particular, states that “when a veteran or eligible person interrupts or terminates his or her training for any reason, including unsatisfactory conduct or progress, or when he or she changes the number of hours of credit or attendance,” this fact must be reported to the Department of Veterans Affairs by the school.

**Deans' List**

All undergraduate students, including those enrolled in extended studies classes and those enrolled in a second baccalaureate degree program, are eligible for the Deans’ List in a given semester provided they:

- Achieve a minimum semester grade-point average of 3.500;
- Are degree-seeking;
- Earn at least 12 credit hours at Colorado State University-Pueblo; and
- Receive no grade of “incomplete” (IN).

The Deans’ List is generated and published fall and spring semesters by the Provost’s Office, excluding summer.

**Good Academic Standing**

The academic standing of all students is reviewed two times each year by the Center for Academic Enrichment, at the end of fall, and spring semester. Students must have a **cumulative grade point average of 2.000** or higher to remain in Good Academic Standing.

**Academic Probation**

Students are placed on academic probation at the end of any semester (excluding summer, and excluding first semester freshman year) in which their cumulative grade-point average falls below 2.000.

Academic Probation status is noted on the transcript. In addition, students receive a letter (Notification of Academic Probation Status) from the Center for Academic Enrichment. At this point, students are strongly encouraged to develop an Academic Improvement Plan (AIP) in collaboration with staff from the CSU-Pueblo’s Center for Academic Enrichment.

Students on Academic Probation will have two semesters (excluding summer) to raise their cumulative grade-point average to a 2.000.

**Academic Suspension**

Students who fail to clear Academic Probation after two regular semesters (excluding summer) will be placed on Academic Suspension.

Students placed on Academic Suspension cannot re-enroll at the University for a period of two consecutive semesters (excluding summer) unless they successfully appeal their suspension by the appeal deadline (see Appeal Process for Academic Suspension below).

Students placed on Academic Suspension who successfully appeal their suspension can return to the University on a Conditional Reinstatement.

Students on Conditional Reinstatement status will remain under the guidelines of the catalog in effect at the time of their regular admission.

Students on Academic Suspension who stay away from the University two consecutive semesters (excluding summer) following their notice of formal academic suspension must:

- be readmitted to the University, and
- adhere to the requirements of the catalog in effect at the time they are readmitted to the University.

Please see the Catalog Requirement section for more information.

**Appeal Process for Academic Suspension**

Students who want to appeal their Academic Suspension are responsible for initiating the process by submitting an Appeal Letter to the Center for Academic Enrichment. The Appeal Letter must address two issues:

1. why the Academic Suspension is being appealed, and
2. what the student will do to make an improvement in academic performance.

The deadlines for Appeal Letters requesting Conditional Reinstatement are:

- Subsequent fall semester—the 2nd Monday in June
- Subsequent spring semester—the 3rd working day of January
Failure to submit Appeal Letters within this prescribed time line will result in Academic Suspension for two consecutive semesters (excluding summer).

Class Hours and Credit Hours
Colorado State University-Pueblo offers two traditional semesters (fall and spring), and 4, 6, and 12 week summer sessions. CSU-Pueblo’s policies and practices are consistent with the credit hour definition provided by Colorado Department of Higher Education and the Higher Learning Commission. The University has adopted a standard lecture class minimum of 2,250 minutes of combined in-class (750 minutes) and out-of-class (1,500 minutes) time per credit hour per semester. The University's course schedule reflects the need to surpass this minimum to account for potential reductions that may be caused by inclement weather or other unforeseen circumstances.

In a traditional lecture course of three credit hours, sample calculations would be:

MWF 14 (weeks) x 55 (minutes) x 3 (days) = 2,310 minutes in-class, plus twice that amount outside-of-class: to this subtotal of 6,930 minutes we add 140 minutes for the final exam yielding a total of 7070 minutes.

Hybrid courses meet in-class for 25% to 75% of the required minutes and online courses meet 0% to 24% in-class, with both formats including the appropriate out-of-class minutes to exceed the required 2,250 minutes per credit per semester.

For more information regarding the credit hour, review the University’s official Credit Hour Policy.

Course Loads and Overloads
Enrollment in more than 18 credit hours in a given term is defined as an overload. Both resident and extended studies courses are counted in the credit-hour total.

Students who have earned 15 or more semester credit hours and have a grade-point average of 3.000 or greater are eligible to enroll for an overload.

Overloads must be authorized by student’s faculty adviser and department chair (or dean if the adviser is the department chair). Both signatures are required. Appeals may be made to the dean of the college of the student’s major. Under no circumstances may a student enroll for more than a total of 25 semester credit hours in a single term.

Prior Learning Assessment
Prior learning assessment includes a variety of types of learning obtained outside the classroom. Credit earned by prior learning assessment is not counted as hours in residence. Types and methods of earning credit by prior learning assessment are as follows:

Advanced Placement
Colorado State University-Pueblo participates in the Advanced Placement Program of the College Entrance Examination Board. Under the program, outstanding secondary school students may take certain college-level courses in their own high schools. Students who have taken the Advanced Placement Examination and who have received scores of 3, 4, or 5 will generally be granted University credit as well as advanced placement.

CSU-Pueblo credit is awarded and posted on the transcript without a grade, is counted toward graduation, and may be used to fulfill specific requirements. For more information, please contact the Registrar’s Office.

Please refer to the Advanced Placement (AP) Equivalency Chart that shows the specific courses and credit to be awarded based on score(s) on the AP examination(s) located at the end of the Academic Policies section.

College Level Examination Program & DANTES
Credit earned by the student on selected CLEP exams will be accepted by CSU-Pueblo and posted on the transcript provided the student submits an official CLEP/DANTES score report and has scored at or above established benchmarks. If a student has already earned college credit in an academic course(s) before taking CLEP/DANTES exam, the latter credit will be considered duplicate and will not be awarded. Please contact the Registrar’s Office for additional information.

Please refer to the CLEP and DANTES Equivalency Charts that shows the specific courses and credit to be awarded based on score(s) on the CLEP and DANTES examination(s) located at the end of the Academic Policies section.

International Baccalaureate Diploma Program
Colorado State University-Pueblo recognizes and encourages high school students to participate in the International Baccalaureate Diploma Program. The University recognizes the IB program as a rigorous pre-university course of study for highly motivated secondary students. Students who successfully complete the IB program and examination(s) are eligible to receive credit and advanced placement standing at CSU-Pueblo.

To receive University credit, a student must take the IB exam(s) and request that the scores be sent to CSU-Pueblo Registrar’s Office. Upon receipt of the scores, an evaluation for credit will be performed and the student will be notified by mail of the evaluation results in approximately two to four weeks.
A score of 4 or better on each exam will receive between 3-10 credits for most examinations. Students successfully completing an IB Diploma Program may be awarded a minimum of 24 semester credits. Students who have earned an IB Diploma with a score of less than 4 on any exam may be awarded less than 24 credits. Please refer to Colorado GB 03-1108 Section 1, sub section (VII) (2) (d) for additional information.

Please refer to the IB Equivalency Chart that shows the specific courses and credit to be awarded based on score(s) on the IB examination(s) located at the end of the Academic Policies section.

Credit by Examination (In-house general education and subject area exams)

All courses satisfying general education requirements have a test-out procedure. Students wishing to test out of a course should contact the chair of the department offering the course.

Departmental faculty shall identify any additional undergraduate courses for which students may earn credit by examination.

If a student is successful in challenging a course, the title of the course, credit hours and notation of credit by examination will be recorded on the student’s permanent record/transcript. (Unsuccessful attempts are not recorded on the transcript.) The credit hours earned by examination do NOT count in the student’s load for the term or in the calculation of the student’s grade point average.

The non-refundable fee for this process is $50 per course. Application forms for credit by examination are available from the Registrar’s Office.

A student may earn credit by examination in any of the approved courses subject to the following conditions:

- The student has not previously earned credit in the course at CSU-Pueblo, has not previously failed a challenge exam for the course, or has not previously failed the course itself;
- The student has approval of the appropriate department chair (with appeal rights to the dean) to take the challenge examination;
- The student’s performance on the examination is at the level of C- or better;
- The student is currently enrolled at CSU-Pueblo and in good academic standing at the time the examination is administered;
- The student does not use the challenged course to satisfy the residency requirement for graduation; and
- The student satisfies any and all additional criteria as specified by the department.

Credit for Prior Learning

Prior learning is non-college or experience-based learning that has been attained outside of accredited postsecondary education systems. Credit for Prior Learning includes learning acquired from work and life experiences. It is awarded for college-level learning involving knowledge, skills, and competencies that students have obtained. CSU-Pueblo students may seek up to six hours of undergraduate academic credit for prior learning by contacting the academic department from which they would like the credits awarded. The department chair will determine the applicability of prior learning within the discipline and describe the requirements and the process for obtaining prior learning credit.

Military Credit

Military service credit is evaluated when official copies of transcripts are received. Army, Navy, and Marine personnel should submit a Joint Service Transcript (JST). Courses and occupation experience are evaluated according to the American Council on Education (ACE) Guidelines, through consultation with discipline faculty.

Final Examinations

Final examinations are not to be scheduled at times other than those published in the Semester Notes and on-line. In some courses a final examination may not be appropriate to the material; however, classes meet through the period scheduled for the final examination.

Faculty Records

All faculty members keep appropriate records (such as grade books or sheets) of each student’s progress in every course offered for University credit. Records are retained by the faculty member’s department for one year. They are treated in confidence by the faculty member, chair of the department, and staff.

Repeating Courses for Academic Credit

With certain restrictions, undergraduate students may repeat a course to raise the grade. Students do not accumulate graduation credits by repeating a course: a course’s credits apply toward graduation only once, no matter how many times the course is repeated. (“Repeatable” courses are an exception to this rule; see below.) The first two times a course is repeated, only the highest grade is averaged into students’ cumulative grade-point average. (For example, if a student earns an F, a C and a D in successive attempts with a course, only the C will be included in the student’s cumulative GPA.) For the fourth and any subsequent time students complete the same course, the highest of the first three grades AND all subsequent grades are averaged into the GPA. (For example, if a student earns grades F, C, D and an A in successive attempts with a course, the C and the A are averaged into the student’s cumulative grade-point average.)

Transcripts contain an appropriate entry of RP indicating that the course has been repeated and the grade-point average has been recomputed.
If a student transfers a course to CSU-Pueblo from another institution and then repeats the course at CSU-Pueblo, the credit and grade points from CSU-Pueblo will remain part of the cumulative hours and grade point average. In addition, if a student takes a course at CSU-Pueblo and then transfers the course from another institution, the credit and grade points from CSU-Pueblo will remain part of the cumulative hours and grade point average. Duplicate credit will not be granted.

CSU-Pueblo course grades cannot be recomputed using transfer courses. Students should be aware that some academic departments place limitations on repetition of courses for majors and/or minors. Once a degree has been posted, no repeats will be processed for the period used toward the degree.

**Individual Courses which may be Repeatable for Credit**

Generally courses cannot receive duplicate credit. Some specified courses may be repeated for credit. These courses are designated by the word Repeatable in the Course Description section of this catalog. The number after the word Repeatable indicates the maximum number of credits that may be used toward degree requirements. The catalog in effect during the completion of the course will determine whether or not the course may be repeated for credit.

**Class Schedule Changes**

Students are encouraged to secure adviser approval for all schedule changes. When students do not secure such approval, they assume full responsibility for their progress toward meeting degree requirements.

Students are responsible for processing schedule changes during the drop or add period for each course. Under no circumstances shall the instructor or adviser assume this responsibility on behalf of the student.

Continuing students are strongly encouraged to take advantage of the pre-registration process in order to obtain the class schedule which best meets their needs.

If you pre-register and subsequently choose not to attend, you are responsible for dropping all courses before the drop period.

**Adding Courses/Late Add Policy**

A student may add a course without instructor approval during the first week of the regularly scheduled semester. However, after the first week of the scheduled semester, a student can only add a course with the instructor's approval. Payment of a late fee is required to add courses after the drop/add period of a course has passed. After the 5th week a course may only be added with the approval of the instructor, the chair, and payment of a late fee. The Late Add Form must be completed in its entirety and must be submitted to the Registrar's Office (ADM 202) within 5 business days of the instructor signature. For short-term or summer courses, the Late Add Period is abbreviated and payment of a late fee is required to add courses after the drop/add period of a course has passed. Additionally, for short-term or summer courses, only the instructor signature is required.

**Addition of Independent Study and Extended Studies**

A resident student may enroll in independent study and extended studies courses only if the addition of such courses will not cause his or her program to exceed the maximum load allowable.

**Dropping Courses**

Students may drop courses before 15% of the course duration has passed without a record of the dropped course appearing on the student's permanent record. Courses may be dropped officially in the Registrar's Office or processed through the Web Registration System (PAWS). The drop date of each course is printed on the student's schedule.

**Administrative Drop for Non-Attendance**

CSU-Pueblo reserves the right to administratively drop all students from the University who fail to attend or participate in an enrolled course session at least once prior to the course drop date, including face-to-face, hybrid, and online courses. The University will attempt to contact the student before an administrative drop is enacted. This is done to ensure that CSU-Pueblo contributes to student success and accurately reports student enrollment.

If you pre-register and subsequently choose not to attend, you are responsible for dropping all courses before the drop period.

**Withdrawal from a Course**

Immediately following the end of the drop period, students may withdraw from a course according to the policies below.

When a student withdraws from a course before 60 percent of the course duration has passed, a grade of "W" (withdrawal) will be recorded on the academic record. After 60 percent of the course duration has passed, a student may not withdraw. Tuition and fees will not be adjusted for course withdrawals during this withdrawal period. Course withdrawals can be processed in the Registrar's Office or through the Web Registration System (PAWS). The withdrawal date of each course is printed on the student’s schedule.
Faculty Initiated Student Withdrawal

Under certain specific circumstances, a faculty member or the University may withdraw a student from a course or courses. The circumstances are either A, or B below.

A. Faculty may withdraw a student from a course for non-attendance if the student has never attended class through the end of the drop period. The course will be removed from the student’s transcript and no grade will be issued. Withdrawal forms must be received by the Registrar’s Office by 5:00 pm on the last day of the drop period.

B. Faculty may withdraw a student for a designated number of absences or for any other reason as stated in the course syllabus with the student’s signature acknowledging the withdrawal on the course withdrawal form. In the event that faculty efforts to contact a student concerning the withdrawal are unsuccessful, the signature of the department chair (or Dean if the Department Chair is the instructor of the course) acknowledging the withdrawal may be substituted for the student signature. The student will receive a grade of W for the course. Exceptions to the requirement of a student or department chair signature may be granted to programs by the Provost.

If a faculty member chooses to incorporate this policy, it must be stated in the course syllabus. The criteria to be met by the student which would trigger a Faculty Initiated Withdrawal of the student from the course must be stated in the policy. The criteria will also include the method by which the student will be informed of the impending withdrawal. As with the Student Initiated Withdrawal Policy, faculty may not initiate a student withdrawal after the official course withdrawal period has ended.

Total Withdrawal from the University

Up until the drop period expires, students may drop full-term courses without charge by using our web registration system (PAWS) or at the Registrar’s Office. Short-term courses will have shorter drop periods. Students must refer to their course schedules for exact date for each course.

After the end of the drop period, students who are planning to withdraw from all courses and leave the University for any reason must begin the withdrawal process with the Center for Academic Enrichment (LARC 151) prior to departure. Total withdrawals will not be processed after the last scheduled class day of the semester. Students residing in the residence hall also must check out at the housing office. Unless the total withdrawal procedure is followed, students are not eligible for an adjustment (if appropriate) of tuition and fees and will receive failing grades in all courses.

Retroactive Withdrawal

A student may request that all grades in previous terms be retroactively removed and replaced by entries of “W” on his/her transcript if he/she had experienced, during that term, health and/or personal problems so severe that he/she could not reasonably have been expected to complete the term satisfactorily. Application for a retroactive withdrawal may occur any time after the current term and before conferral of a degree. The Retroactive Withdrawal request form must be submitted with supporting documentation to the Registrar’s Office. Documentation must include specific information from a professional who can attest to the students’ claim of illness or legal issues, speak clearly to the difficulty that was encountered by the student and correlate to the specific time frame requested. After a request is received by the Registrar’s Office, it will be addressed by the Retroactive Withdrawal Committee. Once the request is reviewed and a decision is made, the student will be notified of the outcome by mail. If a student chooses not to share such information, the Student Academic Appeals Board will decide the case based on the information available.

If a student chooses to appeal the decision of the Retroactive Withdrawal Committee, the student must submit a formal appeal including thorough documentation as listed above. The appeal must be submitted, or postmarked if mailed, to the student Academic Appeals Board no later than 20 working days after the date of the initial decision of the Retroactive Withdrawal Committee. If no appeal is received before the deadline, the Retroactive Withdrawal Committee’s decision will be considered final.

The Academic Appeals Board decision is the final decision of the University.

Examples of reasonable requests for retroactive withdrawal include:

1. Death of immediate family member
2. Serious personal/family problems
3. Unexpected deployment or relocation
4. Diagnosed physical or mental condition/illness

A retroactive withdrawal is not allowed if a student has already earned a degree from Colorado State University-Pueblo and the term being requested is prior to the degree conferral.

Retroactive withdrawal applies to every class for the requested term(s), not for selective courses during a term.

An approved retroactive withdrawal will have no impact on any financial balance owed to the University. Please contact Student Billing Services for Tuition Appeal Information.

Military Withdrawal

If military obligations interrupt the academic work of a member of the armed forces registered for courses, the student may ask instructors for an early termination of his or her courses. Early terminations may include, but are not limited to:
1. a grade of W;
2. an incomplete (IN) grade, if there is any chance the student will be able to complete the course requirements;
3. an early final examination and course grade; or
4. an opportunity to complete the class by independent study.

It is the student’s responsibility to make such a request in writing to the instructor. After the student and instructor have agreed on the terms of early termination, the agreement must be approved in writing by the department chair and the dean.

**Military Leave of Absence**

If a student member of the armed forces receives orders to deploy or temporarily transfer stations for an extended period, that student may be afforded a military leave of absence. The student must notify CSU-Pueblo of military service and intention to return to school as follows:

*Notification of military service.* The student (or an appropriate officer of the armed forces or official of the Department of Defense) must give written notice of such service to CSU-Pueblo as far in advance as is reasonable under the circumstances by completing the Military Leave of Absence form. This notice does not have to indicate whether the student intends to return to CSU-Pueblo and may not be subject to any rule of timeliness. (Timeliness must be determined by the facts in each case.)

No notice is required if precluded by military necessity, such as service in operations that are classified or would be compromised by such notice. If this situation occurs, the student should submit an attestation of military service that necessitated the student’s absence from CSU-Pueblo at the time of readmission.

*Notification of intent to return to school.* The student must also give written notice of intent to return to CSU-Pueblo by completing a Military Leave of Absence Readmission form. The student is required to enroll in courses within three years after the completion of the period of service. Exceptions may be granted to students hospitalized or convalescing due to an illness or injury incurred or aggravated during military service. A student who fails to apply for readmission within these periods does not automatically forfeit eligibility for readmission, but is subject to CSU-Pueblo’s established leave of absence policy and general practices.

CSU-Pueblo has designated the Office of Admissions as the point of contact so that a student may provide notification of service and notification of intent to return. CSU-Pueblo will promptly readmit the student to the semester chosen on the Military Leave of Absence Readmission form. If the student’s intended semester is in progress, the student will be admitted to the next available semester. Students who have completed coursework during the Military Leave of Absence will be required to submit official transcripts before the readmission will be processed.

CSU-Pueblo must admit the student with the same academic status, which means:

- to the same program to which the student was last admitted or, if that exact program is no longer offered, the program that is most similar to that program, unless he/she chooses a different program
- at the same enrollment status, unless the student has completed additional coursework while on military leave
- with the same number of credit hours previously completed, unless the student is readmitted to a different program to which the completed credit hours are not transferable
- with the same academic standing (e.g., with the same satisfactory academic progress status)

If the student is readmitted to the same program, for the first academic year in which the student returns, CSU-Pueblo must assess the tuition and fee charges that would have been assessed for the academic year during which the student left CSU-Pueblo.

**Cooperative Education**

Cooperative education provides an educational plan in which periods of study and periods of career-related work are combined in one program, individualized for each student. Students earn a salary and acquire academic credit in their majors while experiencing, on a temporary basis, their chosen career.

The experience gives cooperative education students an opportunity to become well-acquainted with the employer which, in many cases, leads to permanent placement upon graduation. All cooperative programs are administered by the academic departments.

**Experiential Credit Courses**

Through cooperative education, internships, field experiences and laboratory research, students in many degree programs have the opportunity to expand knowledge and apply theory in real-life situations. All experiential credit courses occur under the direction of an academic instructor and are included in the regular University curriculum. In some cases, such courses are required for majors. All such courses require registration, payment of tuition, carry credit, are listed in the catalog and include a planned program of activities outlined in the course syllabus. The grading system is the same as the system used for regular courses.
Designated Experiential Education Courses

CSU-Pueblo adopted Experiential Education as the focus of its 2017 Higher Learning Commission Quality Initiative (HLC QI) and engaged in a number of efforts toward promoting the pedagogy of experiential education campus-wide beginning 2013.

As a result of the QI, CSU-Pueblo began recognizing and designating courses with significant experiential education (EE) components. The EE designation may be extended to courses on a permanent or semester-by-semester (or section-by-section) basis. EE designated courses include:

1. At least 10 hours of experiential education course work per credit hour earned
2. Discussion of the definition, principles, and purpose of the Experiential Learning Cycle
3. Course objectives and learning outcomes tied to direct experience
4. Structured reflection
5. Activities aligned with experiential education principles
6. Assessment of student learning and effectiveness of the experience

Students in EE designated courses:

1. Conceptualize course material and engage theory with practice through posing questions, solving problems, and constructing meaning,
2. Are encouraged to engage in experimentation, and
3. Demonstrate evidence of knowledge constructed through experiential learning (i.e., portfolios, presentations, projects, performances, displays, etc.).

The Association of Experiential Education (AEE) definition and principles of EE inform the practice at CSU-Pueblo. The following is from http://www.aee.org/what-is-ee, with modifications approved by the CSU-Pueblo EE Roundtable, September 2015:

Experiential education is a philosophy that informs many methodologies in which educators purposefully engage with learners both in what John Dewey refers to as direct experience and in focused reflection in order to increase knowledge, develop skills, clarify values, and develop people's capacity to contribute to their communities.

Experiential learning theory defines learning as “the process whereby knowledge is created through the transformation of experience”. Kolb's (1984) Experiential Learning Cycle depicts the learning process as including four adaptive learning modes: concrete experience (CE), reflective observation (RO), abstract conceptualization (AC), and active experimentation (AE). Concrete experiences are the basis for the learners’ reflections. The reflections are then assimilated into abstract concepts to be utilized in future contexts. These abstract concepts are then tested actively and serve to inform the learner when he or she is exposed to new experiences. This process is cyclical in nature where learners are exposed to each of the learning modes – experiencing, reflecting, thinking, and acting – in a recursive process that is dependent on the unique experiences and elements to be learned. Knowledge results from the combination of grasping and transforming experience.

The principles of experiential education practice are:

- Experiential learning occurs when carefully chosen experiences are supported by reflection, critical analysis and synthesis.
- Experiences are structured to require the learner to take initiative, make decisions and be accountable for results.
- Throughout the experiential learning process, the learner is actively engaged in posing questions, investigating, experimenting, being curious, solving problems, assuming responsibility, being creative, and constructing meaning.
- Learners are engaged intellectually, emotionally, socially, and/or physically.
- The results of the learning are personal and form the basis for future experience and learning.
- Relationships are developed and nurtured: learner to self, learner to others and learner to the world at large.
- The educator and learner may experience success, failure, adventure, risk-taking and uncertainty, because the outcomes of experience cannot totally be predicted.
- Opportunities are nurtured for learners and educators to explore and examine their own values.
- The educator’s primary roles include setting suitable experiences, posing problems, setting boundaries, supporting learners, insuring physical and emotional safety, and facilitating the learning process.
- The educator recognizes and encourages spontaneous opportunities for learning.
- Educators strive to be aware of their biases, judgments and pre-conceptions, and how these influence the learner.

Transcripts of Credit

Official transcripts are issued by the Registrar’s Office at the signed request of the student. There is a non-refundable fee for each official transcript. Check with the Registrar’s Office for current fees. Transcript fees must be prepaid before official transcripts will be released. Acceptable methods of payment are cash, personal check, money order, VISA, MasterCard and Discover. Special fees are charged for special handling (Priority, Express, International mail, and faxing).
All accounts with Colorado State University-Pueblo must be settled before an official transcript can be issued.

Transcripts are processed as rapidly as possible and are usually issued within five working days from the date the signed request is received in the Registrar’s Office. Students should allow extra time for issuance near the end of term. Due to the processing of grades, transcripts (official or unofficial) for enrolled students will not be released during the week of finals and the following week. CSU-Pueblo does not accept e-mail or telephone transcript requests.

Faxing of Transcripts
A pre-paid fee is required for an unofficial transcript to be faxed to a destination within the United States; there also is a higher pre-paid fee required for a transcript faxed outside the country. Since faxed transcripts are considered as working (unofficial) documents only, the fax will be followed up by an official (hard copy) version to follow by first class mail within five working days.

How to Order a Transcript
Signed transcript requests should include the following information:

• Student's full name (including maiden or other name if applicable);
• Student's current address and phone number;
• Student ID number;
• Date of birth;
• The last term the student was enrolled at CSU-Pueblo;
• Instructions on whether the current term grades or degree conferral are to be included (this is important when a transcript is ordered near the end of a term);
• The complete name and address of the agency, school or individuals to whom transcripts are to be sent;
• The student’s signature (this provides CSU-Pueblo with the necessary authorization to release the transcript to the designee; and
• Payment method.

NOTES:

• Transcripts do not include Upward Bound, GED, ACT, SAT, GRE or college class rank information.
• If someone other than the individual named on the transcript has been authorized to pick up the document in person, they must provide a signed release from the person named on the transcript.

Payment of Transcripts

• If payment is to be made by credit card, please provide type (VISA, MasterCard or Discover), credit card number, expiration date, 3-digit CVV code on back of card, name of card holder, address of card holder and daytime phone number.
• If the order is for a faxed transcript, the following information is also needed:
  a. The fax number and name of the person to whose attention the transcript is to be sent.
  b. The name and address to which the subsequent official, hard copy transcript will be mailed.

Graduation Contracts
Graduation Contracts for fall and spring semester are due no later than the fourth week of the graduating term.

Graduation Contracts for summer session are due no later than the third week of the 12-week summer session.

Students unable to complete degree requirements within the University deadlines will be required to submit a new Graduation Contract to the Registrar’s Office in order to establish a new tentative degree conferral date.

Commencement
Commencement exercises take place once a year, at the end of spring semester. Students eligible to participate include those who completed graduation requirements in the preceding fall semester, as well as those who are scheduled to complete requirements in the spring semester or those who are scheduled to complete requirements in the summer session following commencement. Candidates must appear in official academic regalia at commencement exercises. Petitions for exceptions to this policy must be submitted to the Provost’s Office.

Utilizing data from official deadlines, the information for the commencement program is finalized in early March—changes, modifications, or updates received after that time may not be included.

The commencement program is not an official list of confirmed graduates or honors awarded. A final audit will determine degree conferral and academic accords.
Graduation with University Honors

There are three levels of University (baccalaureate degree only) scholastic honors at graduation: *summa cum laude*, *magna cum laude* and *cum laude*.

A minimum of 60 semester credits must be earned at CSU-Pueblo for a student to be considered for these honors. Remedial courses, credit within Academic Renewal, and credit by examination cannot be included in the 60 semester credits.

To graduate *summa cum laude*, a minimum cumulative grade point average of 3.900 is required; for *magna cum laude*, a minimum cumulative grade point average of 3.750 is required; and, for *cum laude*, a minimum cumulative grade point average of 3.500 is required.

While honors will be listed at the commencement program for those who may reasonably anticipate them, the listing in the program is not a guarantee of receiving honors. The listing and reading of *cum laude* status for degree candidates are based on the grade point averages achieved at the beginning of the student’s final term. The official honor awarded, based on the final grade point average and hours earned in residence, will be noted on the student’s diploma and transcript.

Class Rank

CSU-Pueblo does not maintain or provide class rank information.

Diplomas

Diplomas are dated and awarded to graduating students each semester or session (fall, spring and summer) upon graduation clearance of each student. The spring commencement date and the last day of the summer and fall term are the dates recorded on diplomas and on the transcripts for all students fulfilling degree requirements within a degree granting period. The diploma is imprinted with the name of the degree awarded and the student’s major(s). Minors, emphases, tracks, specializations, and concentrations are not printed on the diploma. Diplomas will be mailed to graduates approximately ten to twelve weeks after the end of the term in which the degree is conferred. All accounts with Colorado State University-Pueblo must be settled before a diploma will be awarded. Replacement diplomas may be issued upon signed request from the original holder. Please check with the Registrar’s Office for current diploma replacement fees.

Posthumous Degree

Colorado State University-Pueblo has a posthumous degree policy to confer a degree for eligible deceased students. Eligible students are those who were scheduled to graduate either in the term of his/her death or the next term, are in good academic standing, and have support of the department and college.

Please contact the Registrar’s Office for specific information on the policy and process.

Registration

Advisement

All students are required to consult an academic adviser before registering for classes each term. The major area assigns academic advisers.

Undeclared academic advising for continuing and new undeclared transfer students will be handled by the Center for Academic Enrichment, located in the Library and Academic Resources Center, LARC, Room 151.

All first-year, first-time students are advised through the Center for Academic Enrichment located in the Library and Academic Resources Center, LARC, Room 151.

Registration

Registration dates are published in *Semester Notes* in advance of each registration period. Students can register through PAWS, with their adviser, or in the Registrar’s Office.

*Military Student Priority Registration*

Colorado State University-Pueblo offers priority registration to students using veteran’s education benefits and military members and qualifying dependents who submit appropriate documentation.

Active military (duty), veterans, and qualifying dependents using TA/VA benefits will be given priority registration status.

**Continuing* Undergraduates/Graduates – First Monday of Registration**

**New*/Re-Admit Students – First Friday of Registration**

*Continuing versus New: Students are considered Continuing Students if they are Continuing Undergraduate Degree-Seeking or Graduate Students at CSU – Pueblo and have completed one or more semesters at CSU - Pueblo. New students are those students with a new and re-admit status (students who have been absent for two or more major (Fall/Spring) semesters). All Military students will receive priority registration, and will be notified of specific days and/or times for registration.
Change of Address
Students should keep university authorities informed of their current address. Students may change their address on-line through PAWS or complete the Change of Address form and return completed form to the Registrar's Office.

Immunization Requirement
Colorado law requires all college students born since January 1, 1957, to be immunized against measles, mumps, and rubella.

Proof of immunity consists of:

- Measles—one dose of live measles vaccine administered no sooner than four days before the first birthday and a second dose of live measles vaccine administered at least 4 weeks after the 1st dose or a blood test showing immunity to measles.
- Mumps—one dose of live mumps vaccine administered no sooner than four days before the first birthday and a second dose of live mumps vaccine administered at least 4 weeks after the 1st dose or a blood test showing immunity to mumps.
- Rubella—one dose of live rubella vaccine administered no sooner than four days before the first birthday and a second dose of live rubella vaccine administered at least 4 weeks after the 1st dose or a blood test showing immunity to rubella.

Medical, religious, or personal exemptions continue to be in effect. The exemption statement, on the certificate provided by the University, must be signed by a physician, parent, or student 18 years and older. In the event of an outbreak, exempted people may be subject to exclusion from school and quarantine.

Prior to registration please have verified immunization records sent to Student Health Services, Colorado State University-Pueblo, Pueblo, Colorado 81001-4901 or fax records to (719) 549-2646.

MMR (measles, mumps, and rubella) vaccine is available in Student Health Services if immunization records indicate that a booster is necessary. For further information, contact the Student Health Services Office at (719) 549-2830.

Undergraduate Programs
Degree Requirements
Candidates for the baccalaureate degree must satisfy institutional and general education requirements, as well as specific requirements for a major.

Institutional Requirements for all Baccalaureate Degrees
1. Students must successfully complete a minimum of 120 semester hours of credit with an earned grade point average of 2.000 for all CSU-Pueblo hours attempted and included in the GPA computation. Courses numbered below the 100-level cannot be applied toward graduation; (i.e. ENG 099, MATH 091, 098, 099, RDG 099).
2. Students must successfully complete a minimum of 40 credit hours in upper-division courses (numbered 300-499). Upper division credit may be earned only through a four-year institution.
3. A minimum of 60 semester hours must be earned from a four-year institution.
4. A minimum of 30 semester hours of credit (as stated in the program of the major) must be earned in residence (courses taken from Colorado State University-Pueblo) with a minimum grade point average of 2.000 for all resident hours attempted. (Both on-campus and extended studies for-credit courses are considered resident credit.)
5. For degree purposes, CSU-Pueblo accepts a maximum of 60 semester hours from community or junior colleges.
6. For degree purposes, CSU-Pueblo accepts a maximum of 90 semester hours from other four-year institutions.
7. Of the last 60 semester hours earned immediately preceding graduation, no more than 30 may be completed at other colleges or universities.
8. For degree purposes, CSU-Pueblo accepts no more than 90 credits in total through transfer or other assessment of prior learning.
9. Students must successfully complete the requirements for an approved major program. Some major programs may require completion of a minor or specific related courses outside the major field.
10. Students must achieve a minimum grade point average of 2.000 in their major field of study. (Some majors and programs require higher GPAs. Refer to specific program sections of this catalog for details.)
11. Students must achieve a minimum grade point average of 2.000 in their minor field of study.
12. Students must complete the Skills Component (English Composition I and II, and Mathematics) with a minimum overall GPA of 2.000.
13. Students must satisfactorily complete all general education requirements as defined and explained in the General Education Requirements section of the Academic Policies chapter of this catalog.
14. Candidates for the Bachelor of Arts degree must satisfy the world language requirement.
15. Degree candidates must file a completed Graduation Contract with the Registrar’s Office no later than the 4th week of fall and spring semester and no later than the 3rd week of the 12 week summer session of graduating term (check Semester Notes on-line or with the Registrar’s Office for specific deadlines).
16. Degrees are issued only at the close of each semester and summer session.
17. Degrees will be granted at the end of the term during which the student completes all degree requirements.
18. Additional majors, emphasis areas, or minors will not be awarded or posted to a transcript after a baccalaureate degree has been granted.

19. Once a baccalaureate degree has been awarded, the student cannot repeat courses in order to improve the undergraduate grade point average.

20. All accounts with Colorado State University-Pueblo must be settled before a diploma will be awarded or official transcripts will be issued.

**Major Requirements**

A baccalaureate candidate must select a major and successfully complete all requirements prior to receiving a degree. The minimum number of required semester hours varies by major but must include a departmentally approved program of at least 30 semester hours of course work in the program of study.

**Emphasis Area/Track/Specialization/Concentration**

Certain programs of study may specify emphasis areas, tracks, specializations or concentrations within majors. Only the official emphasis areas will be recorded on the transcript. Neither emphasis areas, nor tracks, nor specializations nor concentrations are printed on the diploma.

**Minor Requirements**

Minors consist of a sequence of courses in a specific academic discipline which is established by the department offering the minor. A minor cannot be completed independently and must be completed simultaneously with a major degree program. Additionally, minors must be declared before degree conferral. General education courses can apply towards the minor and major(s) unless otherwise stated. Upon graduation, completed majors and minors are recorded on the transcript. Minors are not printed on the diploma.

**Double (Second) Major**

Students may choose to complete concurrently the requirements for two majors. Students seeking a double major must satisfy the requirements of both majors as stated by both departments involved under a single degree program. The single degree awarded is that degree appropriate for the first major. A single diploma is issued which displays both majors and both majors are recorded on the student's academic transcript.

**Double (Concurrent) Degrees**

Students may choose to complete concurrently the requirements for two CSU-Pueblo degrees. The second degree must be granted in a major area other than that in which the first baccalaureate degree is granted, and both degrees must be granted from CSU-Pueblo. The additional credits required for the second degree may be completed concurrently with the credits applying to the first degree and the two degrees may be granted simultaneously, providing all requirements are completed for both degrees. The total hour requirement is 150 earned hours. Simultaneous degrees require two separately completed degree planning sheets. Successful completion of concurrent degrees will result in two diplomas and both degrees are recorded on the student's academic transcript. For students wishing to complete more than two degrees simultaneously, a minimum of 30 additional credits is required for each additional degree.

**Joint (3+2) Undergraduate and Graduate Degrees (Integrated and Non-Integrated)**

CSU-Pueblo offers several programs in which well-prepared undergraduate students may complete a bachelor's degree and master's degree simultaneously. Students may apply to a 3+2 graduate program upon successful completion of at least 60 credits. If accepted into the 3+2 graduate program, students will have the opportunity to fulfill integrated requirements toward both undergraduate and graduate degrees. A maximum of 12 required graduate credits may be applied simultaneously to both the declared undergraduate and graduate degree programs. All graduate degree course requirements must be completed. Completion of a 3+2 degree program requires a minimum of 138 total credits. However individual degree programs may require more than 138 credits to satisfy the unique discipline requirements. Once admitted to the 3+2 degree program:

- The student must maintain good academic standing for both undergraduate and graduate programs. To remain in good standing, a student's cumulative and graduate GPA must remain at a 3.00 or better. The graduate GPA will be determined from all approved coursework attempted at the 500 level or above.
- Courses at the 500-level or above completed six or more years before the date of graduation, either at CSU-Pueblo or another institution, will not be accepted as satisfying graduation requirements without written approval of the student's graduate program director/coordinator.
- Courses at the undergraduate level (100-499) may be eligible to be repeated for academic credit. Please see the Repeating Courses for Academic Credit section of the catalog for more details.
- Courses at the 500-level or above may be repeated for a maximum of six semester hours of graduate credit. When a graduate level course is repeated, both the subsequent grade and the original grade are included in the grade point average.
- 3+2 students are required to be continuously registered in the fall and spring semester throughout their degree program. Students may fulfill this requirement by being registered for a credit-bearing course. As an alternative, students may opt for a Continuous Registration (CR) status. Please see the Continuous Registration section of the catalog for more details.
- Students not maintaining graduate academic standards, or who choose to opt out of the 3+2 program may complete the declared undergraduate degree. Consult with program director and undergraduate advisor for assistance.
- 3+2 students are eligible for graduation with undergraduate university scholastic honors.

**INSTITUTIONAL REQUIREMENTS FOR ALL CERTIFICATE PROGRAMS**

Each certificate program at the University has specific completion requirements, which must be met prior to the certificate's being awarded. In addition, students must fulfill the following requirements for completion.
1. Students must have a cumulative certificate GPA of 2.00 or better at the time the certificate is awarded, unless stated otherwise within the specific certificate program.

2. Students must complete the certificate program's minimum number of hours of approved coursework.

3. If students are completing a graduate certificate, they must provide proof of an undergraduate degree.

4. Non-degree seeking (guest) students may apply for admission to an undergraduate/graduate degree program; however, successful completion of the course(s) within an undergraduate or graduate certificate or the award of a certificate does not guarantee admission to a degree program.

5. If a student is degree seeking, a certificate may be conferred independently of their degree program.

6. Students must submit a Certificate Contract signed by the student’s advisor during the semester term in which completion is to occur. The deadline for submission is published in the University Catalog, Semester Notes, and Academic Calendar.

*Note: Credits earned within a certificate can be used toward a degree unless otherwise stated within the degree program.

*Note: Certificate programs are not currently eligible for financial aid unless courses are completed in conjunction with an undergraduate or graduate degree program.

**Degree-Plus (Second Baccalaureate Degree)**

A second baccalaureate degree may be granted in a major area other than that in which the first baccalaureate degree was granted provided the student has met all requirements for the second baccalaureate degree, including not fewer than 30 semester hours of Colorado State University-Pueblo (resident) credit beyond the first degree. Students must complete those 30 semester hours with a minimum grade point average of 2.000 while in Degree Plus status. The additional 30 hours of credit must have the approval of the department from which the second degree is to be earned. Students seeking a second degree are eligible for the Deans’ List.

Degree-plus students seeking a second baccalaureate degree are eligible for scholastic honors. To qualify for graduation with honors, a minimum of 60 semester credits must be completed with CSU-Pueblo after the first degree(s) are conferred. In determining the grade point average of a student, only grades earned after the first degree(s) are considered.

The general education and institutional requirements are considered complete if the student has earned a baccalaureate degree from a regionally accredited college or university, and is accepted to the University as a degree-plus student. Prior credit earned will not be posted to the CSU-Pueblo transcript; however, each department may internally consider approving prior credit earned toward certain requirements.

**Bachelor of Arts Degree: World Language Requirement**

Students seeking the degree of Bachelor of Arts must complete one of the three options listed below:

1. Second level of a world language (course number 102).
   • Students may test out of the course.
   • Completion of a world language course above 102 with a grade of C or better will satisfy the requirement.

2. Second level of ASL (course number 102).
   • Students may test out of the course.
   • Completion of an ASL course above 102 with a grade of C or better will satisfy the requirement.

3. WL 100 Intro to Comparative Linguistics (3 c.h.), and ANTHR 106 Language, Thought and Culture (3 c.h.)/ENG 106 Language, Thought and Culture (3 c.h.).

International students for whom English is a second language may substitute two terms of English courses (excluding ENG 101 Composition I (3 c.h.) and ENG 102 Composition II (3 c.h.)) for the world language requirement.

Because of the unique use of world languages in musical contexts (vocal repertoire in particular), students earning the Bachelor of Arts degree in Music may, in consultation with their advisor, complete the BA degree World Language Requirement with two 101-level World Language courses, chosen from Italian, German, French and Spanish.

**General Education Requirement**

Graduates of Colorado State University-Pueblo are lifelong learners who have developed the intellectual and ethical foundations necessary for an understanding of and respect for humanity as well as the knowledge and skills necessary to adapt to the demands of a rapidly changing society.

To help students achieve these goals, the skills component of the CSU-Pueblo general education program is designed to give students the written communication and quantitative reasoning skills necessary for success in their undergraduate studies and future careers. The knowledge component is designed to give students direct experience in the methods of thought and inquiry in three central areas of academic endeavor: the arts and humanities; the social sciences; and the natural and physical sciences.

Upon completion of general education courses, students will:

• Use the English language to communicate with clarity, coherence and persuasiveness, demonstrating critical analysis, logic, precision and rhetorical awareness. (Communication)
• Identify, analyze and evaluate arguments and sources of information to make informed and logical judgments, to arrive at reasoned and meaningful arguments and positions, and to formulate and apply ideas to new contexts. (Critical Thinking)

• Articulate the nature of a multicultural society and recognize the role of aesthetic awareness, world language skills, cultural and social perspectives or human and institutional systems of the past and present. (Diversity and Social Responsibility)

• Clarify and evaluate their own values and ethical conduct and analyze the values and ethical conduct of others. (Personal Values and Ethics)

• Apply numeric, symbolic and geometric skills to formulate and solve quantitative problems. (Quantitative Reasoning)

• Apply the scientific method, laboratory techniques, mathematical principles and/or experimental design. (Scientific Reasoning)

• Identify and evaluate wellness principles, including mental, emotional and physical health, needed to make informed choices. (Wellness and Well-Being)

The Colorado guaranteed transfer program (gtPathways) is a set of general education courses that the state guarantees to transfer. Certain courses taken at Colorado public colleges and universities are guaranteed to transfer among all two- and four-year public institutions in the state. Up to 31 credit hours of successfully completed (C- or better) courses in general education will count toward general education or graduation requirements. These courses are not based on equivalencies but meet specific content and competency criteria. Additional information about gtPathways is available at http://highered.colorado.gov/Academics/Transfers/gtPathways/. The gtPathways courses offered at CSU-Pueblo are identified in the skills and knowledge components below. They are listed according to their appropriate gtPathways code, which is common among all gtPathways courses in Colorado.

The general education requirement for graduation includes a total of 35 semester credits in two categories:

Skills Component: 9 credits
Knowledge Component: 26 credits
TOTAL: 35 credits

I. Skills Component
Candidates for the baccalaureate degree must satisfy institutional and general education requirements, as well as specific requirements for a major. (Students must successfully complete all remedial coursework within their first thirty [30] credits and the Skills Component of general education within their first sixty [60] credits. Transfer students must complete the Skills Component of general education by the end of their second semester at CSU-Pueblo.)

To complete the Skills component, students must successfully complete courses in the following content areas with a minimum overall GPA of 2.000 in courses taken at CSU-Pueblo. Transfer courses are not computed within this GPA:

Written Communication (2 courses): 6 credits
Quantitative Reasoning (1 course): 3 credits
TOTAL: 9 credits

A. Written Communication
Take each of the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 101</td>
<td>Composition I</td>
<td>3</td>
</tr>
</tbody>
</table>

Or one of the following non-GT-Pathways courses if approved by major advisor; ENG 115 Introduction to Technical Writing (3 c.h.), ENG 116 Introduction to Business Writing (3 c.h.), ENG 117 Intro. Scientific/Medical Writing (3 c.h.)

B. Quantitative Reasoning
Take one of the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 101</td>
<td>Introductory College Mathematics</td>
<td>3</td>
</tr>
<tr>
<td>MATH 109</td>
<td>Mathematical Explorations</td>
<td>3</td>
</tr>
<tr>
<td>MATH 120</td>
<td>Pre-Calculus Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 121</td>
<td>College Algebra</td>
<td>4</td>
</tr>
<tr>
<td>MATH 124</td>
<td>Pre-calculus Math</td>
<td>5</td>
</tr>
<tr>
<td>MATH 126</td>
<td>Calculus and Analytic Geometry I</td>
<td>5</td>
</tr>
<tr>
<td>MATH 156</td>
<td>Introduction to Statistics</td>
<td>3</td>
</tr>
</tbody>
</table>
MATH 221  Applied Calc: An Intuitive Approach  4

Or any MATH course that includes one of these as a prerequisite

1 If a MATH course is taken that is not one of the above listed GT-MA1 courses but does contain one of the above courses as a prerequisite, the MATH course taken will count toward the Quantitative Reasoning requirement at CSU-Pueblo but will not be guaranteed to transfer among all two-and four-year public institutions in the state.

II. Knowledge Component
To complete the Knowledge component, students must successfully complete courses in the following content areas:

Humanities: (3 courses): 9 credits
History: (1 course): 3 credits
Social Sciences: (2 courses): 6 credits
Natural and Physical Sciences: (2 courses with labs): 8 credits
TOTAL: 26 credits

Students must take one course that is designated as cross-cultural. Courses taken to meet the Knowledge content area requirements may also be used to meet the cross-cultural requirement if they have a (CC) next to their listing.

Your major may recommend certain courses from this list. Refer to your major's catalog description for more information.

A. Humanities

<table>
<thead>

Course Substitutions
Substitutions, waivers, or exceptions for courses fulfilling degree requirements must be approved by the appropriate approving authority and submitted to the Registrar’s Office.

CSU-Pueblo courses not designated as general education may not be substituted to fulfill general education requirements, except as specifically covered under the student affairs general education requirement substitution policy.

Assessment of Student Learning
Colorado State University-Pueblo is committed to providing quality education and to assuring students gain the knowledge and skills necessary to be successful after they graduate. Assessment of student learning in general education, undergraduate majors and minors, certificates, and graduate programs is central to our on-going improvement efforts.

Students will periodically participate in assessment by submitting examples of their course work, participating in focus groups, completing questionnaires, and sitting for standardized exams. Faculty and staff use assessment results to determine the extent to which students demonstrate competency in their field of study, and to improve courses and curricula, teaching practices, and other activities.

The assessment process for all academic programs contains the following common elements:

1. Student learning outcomes for undergraduate major and stand-alone minor programs, certificates, and graduate programs are set by faculty and communicated widely;
2. Student learning outcomes are evaluated by faculty using generally accepted best practices in assessment;
3. Faculty and others use assessment information to improve programs as appropriate; and
4. Information about assessment is reported to stakeholders, including the Board of Governors of the Colorado State University System, the Colorado Commission on Higher Education, professional accreditors, and the Higher Learning Commission.

In recognition of the evolutionary nature of accountability and assessment processes, the University acknowledges that they may change at any time. The University will make reasonable efforts to inform students and other stakeholders of modifications.

The University and its departments also conduct satisfaction and other types of surveys before and after students graduate. Students and alumni are strongly encouraged to respond to these surveys so that the information may be used to improve our campus.

Graduation Rate
Under the Students Right to Know and Campus Security Act of 1990, colleges and universities are required to publish the graduate rate of first-time undergraduate students. This graduation rate is defined as the percentage of first-time undergraduate students who complete their bachelor’s degree, at CSU-Pueblo, within six years of their initial enrollment. First-time undergraduate students are defined as full-time, degree seeking undergraduate students who enroll at Colorado State University-Pueblo with no previous college experience.

The University’s average graduation rate for the most recent 3-year average of entering cohorts is 32%.

Student Bill of Rights—Four Year Graduation Agreement

The General Assembly hereby finds that students enrolled in public institutions of higher education shall have the following rights:

a. Students should be able to complete their associate of arts and associate of science degree programs in no more than sixty credit hours or their baccalaureate programs in no more than one hundred twenty credit hours unless there are additional degree requirements recognized by the commission;
b. A student can sign a two-year or four-year graduation agreement that formalizes a plan for that student to obtain a degree in two or four years, unless there are additional degree requirements recognized by the commission;
c. Students have a right to clear and concise information concerning which courses must be completed successfully to complete their degrees;
d. Students have a right to know which courses are transferable among the state public institutions of higher education;
e. Students, upon completion of core general education courses, regardless of the delivery method, should have those courses satisfy the core course requirements of all Colorado public institutions of higher education;
f. Students have a right to know if courses from one or more public higher education institutions satisfy the student’s degree requirements;
g. A student’s credit for the completion of the core requirements and core courses shall not expire for ten years from the date of initial enrollment and shall be transferrable.
Freedom of Expression and Inquiry

Colorado State University-Pueblo considers freedom of discussion, inquiry, and expression to be consonant with the history and traditions of our country and a cornerstone of education in a free society. CSU-Pueblo is committed not just to valuing and respecting diversity, but also to respecting diverse viewpoints. CSU-Pueblo encourages members of the University community to engage in discussion, to exchange ideas and opinions, and to speak, write, and publish freely in accordance with the guarantees and limitations of our state and national constitutions.

Faculty and students have not only a right, but also a responsibility, to examine critically the insights, understandings, values, issues, and concerns which have evolved in the various areas of human activity. Accordingly, University-registered student organizations may extend invitations for guest lecturers, exhibitors, performers, and exhibitions of works of art with no restrictions of form or content other than those imposed by law and University policy. It is understood that inviting a speaker, performer, or exhibit does not imply concurrence of the University or of the sponsoring organization with the opinions, beliefs, or values expressed. In exercising their rights, members of the University community should understand that the public may judge the institution by their actions. Hence, they should at all times strive to be honest and accurate, exercise appropriate restraint, and show appropriate respect for the opinions of others.

Any members of the campus community (students, faculty, or staff) who feel that they have been treated unfairly because of their views or indelible traits should contact the Director of the Office of Institutional Equity, the Office of Student Conduct, or the Director of Diversity and Inclusion.

SPECIAL ACADEMIC PROGRAMS AND SERVICES

University Programs and Services

Athletics
The Colorado State University-Pueblo Athletic Department offers 22 varsity intercollegiate sports, which compete at the NCAA Division II level.

For the women, CSU-Pueblo offers golf, soccer, basketball, tennis, volleyball, softball, cross-country, indoor track & field, outdoor track & field, lacrosse, swimming, and diving.

On the men’s side, the ThunderWolves compete in soccer, basketball, baseball, tennis, golf, football, wrestling, lacrosse, cross-country, indoor track & field, and outdoor track & field.

CSU-Pueblo is a member of the Rocky Mountain Athletic Conference (RMAC) which consists of 16 member institutions throughout the states of Colorado, New Mexico, South Dakota, Nebraska, and Utah.

Pack Athletics have won two team national championships, 80 RMAC championships, 98 national tournament appearances, won eight regional tournament championships and 36 team top ten finishes.

CSU-Pueblo has also crowned 247 All-Americans and 30 individual national champions, which includes 100 All-Americans and 10 national championships in the last 13 years.

For more information, please visit the CSU-Pueblo athletics website at http://www.gothunderwolves.com.

Rawlings Outdoors Sports Complex
Colorado State University-Pueblo’s Rawlings Sports Complex houses the CSU-Pueblo baseball, softball, men’s and women’s soccer, and men’s and women’s lacrosse programs.

The Rawlings Sports Complex features a 2,500-seat baseball facility, Rawlings Field, and the four-diamond Rawlings Softball Complex, as well as the Art & Lorraine Gonzalez Soccer/Lacrosse Complex. The areas are used by sports teams for training and for use by student and public groups.

Neta and Eddie DeRose ThunderBowl
Home of CSU-Pueblo’s football and men’s & women’s track and field programs, the ThunderBowl features 6,500 seats, a synthetic turf field, a ten-lane all-weather track, throwing, jumping and pole vault areas, as well as a 27,000 square-foot field house, which includes a 10,000 square-foot strength and conditioning complex, The Leomiti Warrior Center for all 22 of CSU-Pueblo’s intercollegiate athletics programs, team meeting areas, student-athlete study-areas and lounges, and track and football coaches’ offices.

Massari Arena
Massari Arena seats 3,900 fans and is the home of CSU-Pueblo men’s and women’s basketball, wrestling, and volleyball programs. The arena includes one section of premium chair back seating and a luxury box overlooking the arena, dubbed “The Wolf Pack Room”.

Center for Academic Enrichment

Academic Improvement Program
The Academic Improvement Program helps students on academic probation develop an individualized plan for improving their academic standing. Contact us in LARC 151 or call (719) 549-2584.

First-Year Student Advising
All first-year, first-time students are advised through the Center for Academic Enrichment. The First-Year Advising program advises and orients new students during their first year in college. This program advises students for appropriate course selection and gives students the information and guidance they need to be successful college students. The Center for Academic Enrichment is located in the Library and Academic Resources Center (LARC), Room 151, and can be reached by phone at (719) 549-2584. Also, look on the web at http://www.csupueblo.edu/center-for-academic-enrichment/index.html.

Undeclared Academic Advising for Continuing and New Transfer Students
The Center for Academic Enrichment Academic Advisor works with new transfer and continuing students who are undeclared, students changing their major and undeclared students interested in exploring majors and learning how majors connect to careers. The advisor also assists students with course selection and registration. Undeclared advising is located in LARC 151. To schedule an appointment call: (719) 549-2584.

Gen Ed Tutoring Center
The Gen Ed Tutoring Center provides individual and group tutoring for general education courses in humanities, history, and social sciences as well as ENG 99 Foundational Practices in Writing (3 c.h.), ENG 111 Intro to American Academic Discourse (3 c.h.), and RDG 99 Developmental Reading Skills (3 c.h.). For more information visit us in LARC 251 or call us at (719) 549-2901.

Writing Room
The Writing Room provides an inviting atmosphere where students can receive advice and positive feedback on any type of writing from research papers, letters, and writing assignments to poetry and fiction. Visit us in LARC 251, online at http://www.csupueblo.edu/owl, or call us to make an appointment at (719) 549-2901.

CENTER FOR INTERNATIONAL PROGRAMS AND INCLUSIVE EXCELLENCE

The Center for International Programs and Inclusive Excellence (CIP&IE) develops, promotes, and supports a welcoming environment for all students. The center supports international students through international student orientation, advising, airport pick-ups, cultural activities, English tutoring services, and assistance with academic concerns. The Center also promotes a welcoming environment for underrepresented students, faculty, and staff by providing transformative and educational learning experiences.

CIP&IE staff maintains an open door policy, ensuring that every student has an opportunity to be heard and helped when needed.

Support for International Students
- **International Student Orientation**: All new international students to CSU-Pueblo are required to participate in a two-day mandatory orientation upon arrival. During orientation, new students will be administered English, math, and reading placement exams. Results will indicate registration into the appropriate course(s) and do not interfere with admission to the University.
Contact may be made directly with the study abroad coordinator by calling (719) 549-2329, e-mail: intprog@csupueblo.edu

...schools teach in English; therefore, second language proficiency may not be required.

some participating countries include Austria, France, Germany, Italy, Korea, Mexico, the Czech Republic and Thailand. Some schools teach in English; therefore, second language proficiency may not be required.

For more information call (719) 549-2329, e-mail: intprog@csupueblo.edu Contact may be made directly with the study abroad coordinator by visiting Suite 106 in the Occhiato Student Center.

Diversity
CIP&IE collaborates with several organizations and departments to sponsor diversity programming throughout the year. These activities are held in conjunction with national holidays and cultural celebrations and are open to the entire student population and the local community. Examples include: Hispanic Heritage Month, Martin Luther King's Birthday, Black History Month, Disability Awareness Month, Lesbian, Gay, Bisexual, and Transgender Pride Week, Native American Heritage Month, Women's History Month, Asian & Pacific Islander Heritage Month, and more.

Academic Support
Intellectual growth is important outside the classroom; therefore, activities and programs involving academic and student services departments are scheduled throughout the term to assist students to develop critical thinking; provide students with the skills necessary to maximize their talents and knowledge in order to advance towards a degree; and to develop an understanding of diversity in literature, art, mathematics, science, social science, and globally.

The Center also utilizes a variety of strategies such as cultural and diversity workshops and programs to develop an awareness of the diversity in our global society.

Leadership
The Center provides opportunities for students to learn about educational opportunities and career opportunities. The Center staff conducts, supports, and co-sponsors programs that encourage student learning and enhance student retention such as local and national internships, conferences, and workshops. Students are also encouraged to participate in University programs, clubs, organizations, and conferences on and off campus.

Facilities, Technology, and Equipment
The CIP&IE is located in the OSC 106. Technology available to students includes computer stations with “wireless” capability. There are also study areas, microwaves, a television, and conference room for meeting and study group sessions. The Center is open from 8:00 a.m. until 7:00 p.m. Monday through Thursday and from 8:00 a.m. until 5:00 p.m. on Friday and is available upon request for the utilization of student organizations, departments, or committees by calling (719) 549-2627.

DIVISION OF EXTENDED STUDIES
Colorado State University – Pueblo Division of Extended Studies houses several academic and professional development opportunities for the university. Through collaboration with Academic Departments, a variety of courses and programs are offered, including CSU-Pueblo Online, the Independent Study degree program, External Degree program, the High School University Bridge Program, and Short Courses and Conferences.

Both degree-seeking and non-degree seeking students may participate in Extended Studies programs. (Only degree-seeking students are eligible for financial aid.) Persons desiring classification as degree-seeking students in the External Degree Completion Program must fill out the External Degree Completion Application. Credit courses taken through the Colorado State University-Pueblo Extended Studies program have the same credit value as those conducted on campus and may be used in meeting the institutional residency requirement.

A primary aim of Extended Studies is to provide courses to additional academic access opportunities to students. A variety of educational methods – classroom instruction, correspondence courses, on-line courses, conferences, workshops and seminars – are utilized to expand...
The University also offers the STS program by agreement with various schools through the High School University Bridge (HUB) programs. These programs include Senior-to-Sophomore (STS) and Concurrent Enrollment. The Senior-to-Sophomore (STS) program enrolls eligible high school students in dual credit courses which are delivered by highly qualified teachers on the high school campus. The Concurrent Enrollment program enrolls eligible Colorado high school students in college credit courses in accordance with Colorado Concurrent Enrollment policy. These courses may be offered on or off campus. Students enrolled in the High School University Bridge (HUB) programs are not eligible for Financial Aid; however, some students may receive financial assistance from their home high school.

Extended Studies also administers programs in partnership with high schools through the High School University Bridge (HUB) programs. These programs include Senior-to-Sophomore (STS) and Concurrent Enrollment. The Senior-to-Sophomore (STS) program enrolls eligible high school students in dual credit courses which are delivered by highly qualified teachers on the high school campus. The Concurrent Enrollment program enrolls eligible Colorado high school students in college credit courses in accordance with Colorado Concurrent Enrollment policy. These courses may be offered on or off campus. Students enrolled in the High School University Bridge (HUB) programs are not eligible for Financial Aid; however, some students may receive financial assistance from their home high school.

Under Colorado's Concurrent Enrollment and ASCENT Programs, high school students may register for classes at the University based on the availability of existing Concurrent Enrollment and ASCENT agreements. Information on these programs is available in the CSU-Pueblo Office of Extended Studies and at participating high schools.

The University also offers the STS program by agreement with various high school districts. High school students in this program are afforded the opportunity to study in university level courses while remaining in their high school classrooms and are considered unclassified students by the University. Students must submit an application for admission, transcript of their high school record and ACT or SAT scores. Those STS students who are in their senior year are given consideration for admission as regular first-time students for the fall semester following their high school graduation. Students interested in this program are encouraged to seek information from their high school guidance counselor or from the University's Office of Extended Studies at 719-549-2316.

**Independent Study Program**

Independent study courses offer students the opportunity to complete print-based or web-based correspondence courses at their own pace over a six month time period. Independent Study provides flexibility and convenience. A student can enroll at almost any time during the year and study where and when it is convenient. If utilizing government financial aid degree-seeking student can combine the advantages of self-paced correspondence courses with web-based tools to complete your course work in 12-16 weeks. Students who utilize financial aid are required to complete the course in the semester in which they registered. Courses follow the traditional semester schedule. Independent Study courses are taught by CSU-Pueblo academically approved faculty/adjuncts members and qualified subject-matter experts who possess both a post-graduate degree and college or university teaching experience in their field. All instructors and curriculum are reviewed and approved by the Department Chair and Dean of the respective departments / colleges.

**Short Courses and Conferences**

Short courses, workshops, or conferences can offer both credit and Continuing Education Units (CEUs) based upon need and contact hours. Although the majority of course offerings are initiated by the University, courses may originate through requests by individuals and interested
groups. Such special request courses may take place either on or off campus.

In-house training programs, administered under the Conference and Short Courses Program, are available to meet the ever-changing needs of business and industry. The programs can be designed to meet the specific needs of an organization and may be presented at a company site or, if requested, at the University.

Office: Division of Extended Studies, LARC 267

**Teacher Education Program**

In collaboration with the Teacher Education Department, Extended Studies offers graduate-level coursework for degree- and non-degree-seeking educators interested in professional development, recertification, and/or graduate degrees. This program associate with education partners external to the university who offer graduate credit in a variety of disciplines, as well as curriculum and instruction. The credits are transcribed as ED 500 (Workshop) for those courses that are designed for professional development and recertification only and ED 501 (Graduate Topics in Education) for those courses eligible to count toward graduate degrees, professional development, and/or recertification. All curricula and faculty are supervised by the Teacher Education Department. For more information about how this program connects with graduate degrees at CSU-Pueblo, please see the Master of Education (M.Ed.) section of this catalog.

**CSU-Pueblo Bookstore**

The Colorado State University-Pueblo Bookstore is conveniently located in the Occhiato Student Center.

The bookstore’s essential role is to serve as the primary academic bookseller and provider of supplies for students and the campus in support of the academic programs and events of the University community. Regular bookstore hours are Monday-Friday from 8:00 a.m. to 5:00 p.m. Extended store hours for the Textbook Rush period are posted at the beginning of the Fall and Spring semesters. The bookstore is also open before home football games.

The CSU-Pueblo Bookstore carries a variety of products including textbooks and course materials, general books, office and art supplies, officially licensed ThunderWolves apparel and gifts, and assorted food and snack products.

ThunderWolves apparel, gifts, and souvenirs are available at the Neta & Eddie DeRose ThunderBowl for all home football games and at the Massari Arena for many other Game Day sports events.

Customers may take advantage of convenient 24/7/365 shopping online through the bookstore website at: http://www.csupueblobookstore.com.

Visa, MasterCard, Discover, debit cards, and charges to Student Accounts may be used at the bookstore and online when making purchases. Dates when students can charge to their student accounts are published on the bookstore website and in PAWS.

Current students, faculty, and staff may load their campus ID card with ThunderBucks that can be used at the bookstore and get a 10% discount on many items (textbooks, software, calculators, and markdowns are excluded).

We invite you to visit us in person, or contact us at (719) 549-2146 during our regular store hours, or email us anytime at csu-pueblobookstore@csupueblo.edu.

**Food Service Locations**

Campus food services are located in several areas on campus for your convenience. They are as follows: Due to construction and renovation of the Occhiato University Center in 2017-2018, the hours and location of the PackCafé may be adjusted. Please call Auxiliary Services at 719-549-2149, if you have any questions.

**PackCafé’s entrance** is located on the North East side of the Occhiato University Center. This location is the main dining operation for residential students dining on a meal plan. It is also open to the public for a one time door rate. It is open for service during the operating hours below.

**Monday thru Friday:**

**The Pavilion** is located just west of the Hasan School of Business. This location serves as a “grab-and-go” for food and drink. The hours of operation are Monday through Friday, 7:30 a.m. - 1:30 p.m.

**The Bistro** is located on the main level of the Culebra Residence Hall on the north side of campus. Mondo Sub Sandwiches, bagels, coffee, late night snacks and other grab-and-go favorites are offered daily. The hours of operation are as follows:

Monday thru Thursday: 7:00 a.m. - 12:00 a.m.
Friday: 7:00 a.m. - 10:00 p.m.
Saturday & Sunday: 6:00 p.m. - 1:00 p.m.

**Café Libro** is located on the main level of the LARC on the west side of campus. They offer made-to-order coffees, drinks, and grab-and-go food items. The hours of operation are as follows:

Monday thru Thursday: 7:00 a.m. - 9:00 p.m.
Friday: 7:00 a.m. - 4:00 p.m.
Saturday: 10:00 a.m. - 4:00 p.m.
Sunday: 1:00 p.m. - 9:00 p.m.

Café in the General Classroom Building (GCB) is located on the main level of the General Classroom Building (west side of campus). They offer made to order coffees, drinks, and grab-and-go foods. The hours of operation are as follows:

Monday thru Friday: 7:30 a.m. - 1:30 p.m.

Rocky Mountain PBS/KTSC-TV
KTSC-TV is a non-commercial, public television station housed in the Buell Communications Center on the campus of Colorado State University-Pueblo. KTSC is the regional affiliate of Rocky Mountain PBS, a statewide PBS-member network serving 99% of Coloradans with stations in Pueblo, Denver, and Grand Junction along with the Tim Gill Center for Public Media in Colorado Springs.

Through a unique relationship between CSU-Pueblo and Rocky Mountain PBS, students engage in hands-on learning through the production of local programs.

Math Learning Center
The Math Learning Center (MLC) at CSU-Pueblo gives students a place to work in a collaborative and supportive environment. The MLC, located in PM 132, is open each semester Monday through Friday. At the MLC students receive assistance from fellow students who are also trained tutors. Our tutors can help students in classes ranging from elementary algebra to statistics and calculus. The center is also the home of a computer laboratory dedicated to math students working online homework assignments. The MLC also provides a calculator rental program, where students can rent a graphing calculator for use in their math classes during the semester. The MLC provides CSU-Pueblo students a place and a plan for success in college level and developmental math classes. For more information, call the Math Learning Center Coordinator at (719) 549-2271

Occhiato Student Center
The Occhiato Student Center ascribes to the "Role of the College Union" developed by the Association of College Unions International which states that:

1. The union is the community center for the college, for all members of the college family - students, faculty, administration, alumni, and guests. It is not just a building: it is also an organization and a program. Together they represent a well-considered plan for the community life of the college.
2. As the "living room" or "hearthstone" of the college, the union provides for the services, conveniences, and amenities the members of the college family need in their daily life on campus and for getting to know and understand one another through informal association outside the classroom.
3. The union is part of the educational program of the college. As the center of college life, it serves as a laboratory of citizenship, training students in social responsibility and for leadership in our democracy. Through its various boards, committees, and staff, it provides a cultural, social, and recreational location aiming to make free-time activity a cooperative factor with study in education. In all its processes it encourages self-directed activity, giving maximum opportunity for self-realization and for growth in individual social competency and group effectiveness. Its goal is the development of persons as well as intellects.
4. The union serves as a unifying force in the life of the college, cultivating enduring regard for and loyalty to the college.

The Occhiato Student Center is operated by the department of Auxiliary Services. Auxiliary Services is open from 8:00 a.m. to 5:00 p.m. Monday through Friday.

Identification Cards
All students enrolled must purchase an ID card also called the ThunderCard in the Auxiliary Services Office located in the Occhiato Student Center. The office is open Monday through Friday, from 8:00 a.m. to 5:00 p.m. Please contact Auxiliary Services office for the fee structure for new IDs, replacement IDs, or reactivation of an old ID card. In addition the ThunderCard may be used to add “ThunderBucks” to the card (like a declining balance debit card) which can be purchased and placed on your ThunderCard. Thunderbucks can be used for purchases of food items at any food service location on campus plus you receive a 10% discount and pay no sales tax on the food purchased. In addition you may use your ThunderCard to purchase anything needed in the University Bookstore (there is a 10% discount on all items except textbooks and computer software and sale items). The staff in the Auxiliary Services Office would be happy to give you more detailed information on these items.

Lost and Found
Auxiliary Services is the central Lost and Found for the campus. If you have lost something please stop by our office located in the Occhiato Student Center or contact us at (719) 549-2149.

Parking Permits
All students needing to park a vehicle on campus are required to purchase an annual parking permit for their vehicle or motorcycle. Students are encouraged to purchase their parking permit at the beginning of each academic year (August) since parking rules are enforced year-round and enforced by University Public Safety. Permits can be purchased online at csupueblo.thepermitstore.com twenty-four hours a day, throughout the year. Students living in Crestone hall, Culebra Hall, and Greenhorn Hall will be provided special parking lots as well as any other General Student Lots. Students living at University Village at Walking Stick must obtain a permit that allows them to park in the lots at University Village at Walking Stick as well as any other General Student Lots. Students are authorized to park between two white lines, indicating student parking.

The University Library
The University Library supports teaching and learning by providing information services to students, faculty, staff and patrons throughout the city and region.

Library faculty and staff assist patrons in learning how to find and utilize print and electronic books and journals, internet sources, audiovisual materials, and government documents through instruction for individuals, small groups or formal classes. Staff also prepares subject guides for classes and arranges interlibrary loans. Librarians are available by phone, email, text message, chat, or in person to answer questions.

Approximately 350,000 titles are available. The library’s website provides access to over 100 online databases with reference information and journal articles, as well as web-based tutorials and help guides.

The University Library is a designated selective depository for U.S. Government documents. Special collections include the University Archives; the Colorado Chicano Movement Archives; the Ruben Archuleta Collection; papers of Vincent Massari, former state senator; the Alva...
Adams family papers; Tobie Hopkins Black Literature; the Ralph Taylor Southwest collection, and the Edward O’Brien Western collection.

The University Library is located in the Library and Academic Resources Center (LARC) which opened in the spring 2011. The LARC includes technology study rooms and open computer labs that provide access to 100 desktop computers as well as laptops and iPads. Tutoring, advising, and other academic support services are also housed in the LARC.

**Vehicle Parking Permits**

Students who park their vehicles on campus must display a valid permit. Permits may be obtained online at https://csupueblo.thepermitstore.com. Each student should purchase either a University Village at Walking Stick, Resident or General Student permit, depending on his/her housing situation. Students may be eligible to charge a permit to their student account prior to financial aid disbursement. Student permits expire on August 31st every year.

- University Studies (p. 84)
- Center for Teaching and Learning (p. 84)
- Communities to Build Active Stem Engagement (p. 84)
- President’s Leadership Program (p. 84)
- University Honors Minor Program (p. 86)
- Interdisciplinary Studies (p. 87)

**University Studies**

The University Studies Program offers students opportunities to take courses in areas generally not available through the University’s departmental structures. These include such interdisciplinary programs as the First-Year Experience, as well as individual courses that will contribute to the student’s University education but are not available through other departments or programs.

**Center for Teaching and Learning**

Director: Dr. Jonathan Poritz

The Center for Teaching and Learning (CTL) Courses offer students and faculty the opportunity to engage in topics that are at the forefront of our diverse faculty’s research interests. Conducted in a seminar-style setting, instructors will provide an overview of the subject and present their scholarly work and related research innovations. Seminarians will be able to not only learn about the topic, they will be encouraged to engage, with each other and with the instructor. CTL Courses encourage a multidisciplinary examination of issues and topics by community members, faculty, and students from across the university. The goals of CTL Courses are to focus the many intellectual perspectives and resources of CSU-Pueblo on the study of important topics and to enact a sense of common purpose across the diverse communities at CSU-Pueblo. These classes are offered to all students: undergraduate, graduate, and professional. Community members may audit these courses for a lowered tuition cost and a certificate of completion; faculty and staff are invited to apply to audit these courses, as room is available, at no cost as ongoing efforts to support professional development utilizing resources readily available on our campus.

**Communities to Build Active Stem Engagement**

Director: Dr. Brian Vanden Heuvel

Communities To Build Active Stem Engagement (CBASE) Courses are designed to work in conjunction with and provide support to students within the CBASE program and to meet the goals of CBASE, specifically to provide:

1.  students with a support network within their research community, and
2.  an opportunity to learn, develop, and receive feedback on their scientific growth throughout the CBASE program.

These courses are intended to familiarize students with the scientific process (including research development, scientific inquiry, written and oral dissemination of research, experimental design and implementation), and provide students with academic support and mentoring throughout their undergraduate career in the STEM community.

**President’s Leadership Program**

Director: Shelly Moreschini

The President’s Leadership Program (PLP) at Colorado State University-Pueblo is a competitive, cohort-based, multidisciplinary program with a strong experiential emphasis that leads to a minor in Leadership Studies. The curriculum includes a core of five three-credit-hour courses and a minimum of three credit hours of approved elective courses selected from leadership-related courses offered on campus.

The vision of the President’s Leadership Program is to create multiculturally-competent transformational leaders who will serve the communities in which they live and work. Crucial to the development of participants’ leadership skills and practices are the acquisition of intercultural competence, social consciousness and civic responsibility, as well as ethical and altruistic attitudes and behaviors.

Potential scholars must be admitted to Colorado State University-Pueblo as full-time students. Applications to the PLP must demonstrate academic excellence, leadership potential, and community service experience. Throughout their time in the program, PLP scholars may be eligible for scholarship consideration and/or financial assistance, based on merit and program participation.

**President’s Leadership Program Goals**

- To provide a sequence of courses and professional placements centered in the concept of trans-formational leadership.
- To offer challenging experiential opportunities for students in diverse leadership settings.
- To showcase individual student interests and goals through mentorship, personal development strategies, and internship placements.

**Requirements for PLP Scholars**

Students must remain in good academic standing within the program, maintaining a minimum cumulative grade point average of 3.000. Program participants are expected to be involved in extra-curricular activities on campus and in the community, and must adhere to the PLP Standards and Expectations, as outlined in the PLP Student Handbook distributed at the Scholar Orientation and Retreat each August. All
students are expected to volunteer 30 hours of community service each semester.

Program Admissions
The PLP focuses on first-time, full-time students who meet the minimum program admission requirements and must submit all of the components of the application, which includes:

- PLP Application Form (available online).
- Essay on a Leadership Topic (see application form).
- Resume (including personal objectives, education, work experience, school and community leadership experiences, honors and awards).
- Two letters of recommendation from professionals (teachers, principals, pastors, employers, etc.).
- Copy of Official High School Transcript.

All application information is available on the PLP website. Students who have been accepted into other college-level leadership programs, and wish to transfer into CSU-Pueblo’s PLP must apply through the Director. All applicants are interviewed by a PLP Selection team and are accepted at the discretion of this committee based on the admissions criteria.

Timelines
To meet the preferred deadline, application materials must be received by March 1st. The applications will be screened and interviews with the Selection Committee will be scheduled.

Students may choose from the following electives to complete the minor in Leadership Studies. Students are encouraged to diversify their course selections. Only one course may count in both the student’s major and the Leadership Studies minor. Special topics courses related to leadership and new courses approved in other disciplines may also be approved on a case by case basis. Students should check with the PLP Academic Adviser for a current roster of specific additions. In some cases, prerequisites or permission of instructor may be required for enrollment. See Course Descriptions section of catalog for information and requirements about all courses.)

The President’s Leadership Program staff recommends at least one course focusing on the issues of diversity, either as a general education offering or as it relates to leadership, to prepare students for leadership in a multicultural world. Considering the benefits of a multidisciplinary education, students should select electives from more than one discipline.

Student Learning Outcomes
Scholars in the President’s Leadership Program will complete the minor in Leadership Studies. Through this minor program, students will focus on six learning outcomes as described below:

- **Self-Leadership**: PLP scholars will understand, synthesize, and evaluate their personal readiness for leadership by communicating effectively through written and oral means as measured by course assignments and a final portfolio.
- **Ethics**: PLP scholars will manifest an understanding of leadership ethics and service to others, and illustrate, analyze and assess ethical behaviors as demonstrated in written work and oral presentation.
- **Leadership Theory**: PLP scholars will describe, apply and criticize major leadership theories, and will be prepared to assess their own leadership qualities in relation to theoretical principles.
- **Critical Thinking**: PLP scholars will understand the methods and skills needed for critical thinking and decision-making and be prepared to interpret situations and cases beyond surface arguments.
- **Problem Solving**: PLP scholars will apply problem-solving skills through faculty-directed classroom project assignments and by taking on volunteer and community service projects.
- **Civic Engagement**: PLP scholars will understand the importance of civic engagement and community activism as measured through volunteerism, community and campus service, team projects and class assignments.

Outcomes Assessment Activities
Assessment of the Leadership Studies minor is the responsibility of the PLP faculty, staff, and students. The following tracking processes are in place to gather information and evaluate student progress in the following ways:

- Course syllabi, sample project portfolios and presentations, and related survey data will remain on file in the office of the President’s Leadership Program for use in appropriate assessment activities.
University Honors Minor Program

Director: Dr. David Volk

The University Honors minor at CSU-Pueblo provides high-achieving students with enhanced learning opportunities to stimulate their engagement and development, both within an intellectual community of scholars, and as citizens of the wider university community and the world. The Honors minor curriculum provides students with special opportunities for interaction with faculty in thought-provoking seminars and intensive guided research, as well as experiential and service-learning projects.

Program Goals

• To provide opportunities for enriched work for high-achieving students.
• To offer small classes that permit challenging study of advanced material and increased interaction with faculty who will serve as academic and pre-professional mentors.
• To provide students with an interdisciplinary approach to academic research through seminars and experiential learning, culminating in individual projects supervised by faculty.

Contact Information

Contact the University Honors Program for further information at: (719) 549-2429.

Program Admission Requirements

Criteria for admission to the CSU-Pueblo University Honors Minor Program:

1. Incoming freshmen to Colorado State University-Pueblo are encouraged to apply for the Honors Program if they graduated high school with a GPA of 3.8 or a minimum combined ACT score of 26, or a minimum combined SAT score of 1200. An index system determines final eligibility.

2. Undergraduate transfer students and current CSU-Pueblo undergraduate students with a minimum grade point average of 3.5 are encouraged to apply for membership in the Honors Program. Two letters of recommendation from faculty members addressed to the Honors Program Director are also required.

3. Admission of non-honors students into honors courses is at the discretion of the faculty member teaching the course, with the approval of the Honors Director. Non-honors students may enroll in a maximum of two honors courses. They may, however, apply for admission to the Honors Program if their overall grade-point average and their honors coursework are commensurate with the general standards for admission.

General Requirements

• University Honors Minor Program students must maintain a 3.5 cumulative GPA at CSU-Pueblo to remain in good standing in the program. Students who do not meet the requirement will receive a single one semester probation period permitted before they are removed from the program and forfeit program awards. Students must maintain appropriate Honors standards as well, and may also be removed from the program by the Honors Director, in consultation with the Honors Steering Committee, for failing to uphold other Program commitments (e.g., failing Honors courses, failing to attend Honors seminars, and inappropriate behavior on service-learning assignments). To receive program credit, each required Honors Minor course must be passed with a B (3.0) or better.

Expected Student Learning Outcomes

Honors Program students should be able to:

• Formulate and develop arguments with sufficient support, including reasoning, evidence, persuasive appeals, and proper attribution.
• Integrate knowledge from diverse perspectives, disciplines, and skill sets, both theoretical and applied, to hone them into arguments and/or strategies.
• Apply discipline-specific as well as cross-discipline-based knowledge to design, execute, and report on a specific problem-solving strategy.
• Make substantial leadership contributions to advancing personal and group work.
• Behave ethically as demonstrated in all performance categories, including classroom, extracurricular, community-based service learning, and independent research areas.

Outcomes Assessment

Assessment for Honors seminars is based on short research papers each semester involving the use of academic resources and material covered by seminar speakers. Assessment of service learning experiences is based on journals submitted by students and on evaluations provided by site supervisors. Assessment of Honors courses and supervised research will be conducted by the faculty supervisor in the appropriate academic
department. An assessment plan is on file with the University and will be updated annually.

**Interdisciplinary Studies, Bachelor of Science**

Dean of Extended Studies: Dr. Kristyn White Davis

Extended Studies Faculty Advisory Committee Chair: Dr. Margie Massey (CEEDPS)

Extended Studies Faculty Advisory Board Members: Dr. Ian Brennan (HSB), Dr. Richard Farrer (CSM), Dr. Steven Liebel (CHASS)

Advisor: Jason Engel

Extended Studies offers a Bachelor’s of Science (BS) in Interdisciplinary Studies. An interdisciplinary studies degree allows the student to choose a major or concentration in more than one area and study the subjects and topics that interest him/her. It also allows for students to combine science with other interests such as business, psychology, humanities, or social science. A major in interdisciplinary studies provides a flexible degree that provides students a means to combine multiple majors for degree completion. This new range of skills for the workplace allows students to make connections between different ideas and concepts, which bolsters their critical thinking, ability to be creative when solving problems, and collaboration skills that are essential for their success in their careers. The Bachelor of Science in Interdisciplinary Studies will be housed in the Division of Extended Studies. Extended Studies has developed a Faculty Advisory Board, with a member from each college to represent the faculty and approve all curriculum requirements. Upon entry into the new program, the student will work with the Extended Studies Academic Advisor to develop a program proposal, which includes a list of courses required to meet the requirements of the degree, and develop a plan for completion.

Proposed individual curriculum plans for degree completion will be approved by the chair of the committee, along with the Dean of Extended Studies.

This degree option is only available to students with 30 credits or more completed. Per university requirements, no more than 60 credits can be transferred from a 2-year college or 90 credits from a 4-year college. A student must complete 30 credits at CSU-Pueblo to receive the degree.

</tbody>
</table>

¹ The upper division electives must total 42 credits, with 300/400 level courses in a consistent major with a minimum of 15 credit hours in two consistent majors (major prefixes) making the total 30 credits in two different disciplines. The remaining 10 upper division credits can come from alternate major prefixes. The upper division courses must have 2.0 in all courses.

² The remaining required credits (22 credit hours) are electives. This can include: Up to 6 credits of Prior Learning approved by the respective major department chair can be used towards the degree. The courses cannot be dual counted for multiple graduation requirements.

A student cannot count credits for the Interdisciplinary Studies degree towards a second degree/major/minor.

**Program Student Learning Outcomes**

- Students will develop critical thinking, communication, organizational and problem-solving skills that allow them to see intellectual connections among various disciplinary fields.
- Students will develop linkages between their individualized intellectual inquiries and related areas in terms of contemporary challenges facing individuals, communities, and societies.
- Students will articulate their personal educational and professional goals focusing on existing and potential demand for the skills and knowledge they acquire in their degree program.
- Students will acquire an understanding of future opportunities for the program of study that they propose.
GRADUATE PROGRAMS & ADMISSIONS

Graduate Policies and Procedures

Graduate Administration

Graduate programs and curricula at Colorado State University-Pueblo are developed by the faculty and administration in the instructional colleges and schools and are administered by graduate program directors or coordinators with the assistance of the Provost/VPAA and the Vice-President of Enrollment Management and Student Affairs. Academic policies affecting graduate programs and courses are reviewed by the University Graduate Studies Board and governed by the Faculty Senate.

Graduate Degree Programs

Colorado State University-Pueblo offers selected graduate courses and programs for degree-seeking and non-degree students. Graduate degrees are offered in Athletic Training (MS), Biochemistry (MS), Biology (MS), Business Administration (MBA), Chemistry (MS), Education (M.Ed.), Engineering (MS), English (MA), Industrial and Systems Engineering (MSISE), Nursing (MS, DNP), and Social Work (MSW).

3+2 Programs

The following master’s degrees can be completed in conjunction with 3+2 programs (options to complete undergraduate and graduate degrees simultaneously): Athletic Training (p. 147), Biochemistry (p. 288), Biology (p. 274), Business Administration (p. 313), Chemistry (p. 289), Computer Information Systems (p. 314), Construction Management (p. 106), Engineering (p. 98), English (p. 215), Industrial and Systems Engineering (p. 98), and Non-Integrated (p. 317). For more information, please see the “Joint 3+2 Undergraduate and Graduate Degrees” section of this catalog, under Academic Policies. 3+2 programs are only available to degree-seeking undergraduate students. The 3+2 programs are not available to degree plus students, guest students, or non-degree seeking students.

Graduate Admissions Policies and Procedures

A student who has received a baccalaureate degree from an accredited institution and who wishes to begin a graduate program must submit the following items to the:

Office of Admissions, Colorado State University-Pueblo
2200 Bonforte Boulevard
Pueblo, Colorado, 81001-4901

The following items shall constitute the admission file for each applicant:

1. A completed application for admission to graduate programs of Colorado State University-Pueblo and an application fee of $35. The fee is non-refundable and is not applicable towards tuition. An application form may be obtained by writing the CSU-Pueblo Office of Admissions, by telephoning (719) 549-2462, or online at http://www.csupueblo.edu.

2. Official transcripts of all college and university work must be sent directly to the Office of Admissions by each institution attended. Records received directly from students may be used for advisement purposes only.

3. An official score from the appropriate standardized admission exam must be provided. See specific programs for required exam(s) and scores.

4. For international students whose native language is not English, a minimum score of 500 on the Test of English as a World Language (TOEFL) paper-based exam, a minimum score of 173 on the TOEFL computer-based exam, a minimum score of 61 on the TOEFL internet-based (iBT) exam, a minimum score of 80 on the Michigan Test of English Proficiency, or a minimum band score of 5.5 on the International English Language Testing System (IELTS) test is required for admission. However, a minimum score of 550 on the TOEFL paper-based exam, a minimum score of 213 on the TOEFL computer-based exam, a minimum score of 79-80 on the TOEFL internet-based (iBT) exam, or a minimum band score of 6.0 on the IELTS is required for the Master in Business Administration (MBA), and the Master of Science with a major in Nursing. Students who complete an undergraduate degree at an institution in the United States are exempt from this requirement.

5. Specific programs may have additional requirements.

Graduate Admission

Admission to graduate studies does not constitute admission to a particular graduate program. Admission to a particular degree program must be approved by the program director/coordinator upon review of the student's credentials.

Regular Status

Regular status will be given to degree-seeking students who meet all of the published requirements of their selected graduate program department. The requirements include:

- A baccalaureate degree from an institution accredited by the regional accreditation agency (or equivalent). Admission to an approved joint degree (3+2) program at CSU-Pueblo does not require a baccalaureate.
- The minimum undergraduate GPA established for all programs is 3.000.
- Submission of satisfactory scores from a standardized admissions test if required by the program department. International students whose native language is not English must also meet the English language proficiency standard set forth in the Graduate Admissions Policies and Procedures section.
- A completed admissions file.
- Any additional requirements for the selected program, including completion of leveling courses to correct undergraduate deficiencies. Programs may specify conditions which may include higher grade-point averages, required scores on entrance examinations, or undergraduate major or course requirements. Programs may also limit admissions based on capacity.

Conditional Status

The University provides a conditional status for students who have not satisfied the minimum undergraduate grade-point average, or the minimum required test score(s), or who have other deficiencies in their preparation.

The Director of Admissions on recommendation of the program director/coordinator will admit the student under conditional status if the student's grade-point average is at least 2.500, but not high enough for regular admission; or if the student has not met a condition specified by
the program department. Such special action may be taken if there are positive indicators of graduate success, e.g., high GRE or GMAT scores, solid upper-division academic performance, or outstanding professional achievement.

The program director/coordinator will notify the student of the specific conditions for moving to regular graduate status. Conditions of admission to regular status can include additional course work beyond the degree requirements; specified scores on standardized admissions tests; or other conditions required by the program director/coordinator. A written statement of the conditions and a plan for meeting them will be prepared by the program director/coordinator and filed with the Director of Admissions. The program director will provide a copy of the plan to the student.

If the conditions are met, the program director will notify the Director of Admissions and the student that the student has achieved regular degree-seeking status. If not successful, the student will be notified by the Director of Admissions that conditional status has been terminated and the student has been dismissed from the program. Students on conditional status may count toward the degree a maximum of 12 hours of graduate course work taken in the degree program.

Residency Requirements
For Residency Requirements please visit Residency Classification (p. 29).

Non-Degree Seeking Students
A student who desires to take graduate courses for personal enrichment, for job advancement, or for transfer to another institution, may do so through either the Non-Degree Status option or through the Guest (for credit) option.

Non-Degree Status
Students seeking non-degree status must complete a full graduate admission application. Non-degree status students are limited to enrolling in a total of twelve graduate hours unless approval is given by the Graduate Studies Board. The approval of the appropriate program director is required to enroll in graduate coursework that is part of the curriculum for a graduate program.

A maximum of twelve graduate hours of CSU-Pueblo credit earned as a non-degree seeking student may subsequently be applied toward a master’s degree if approved by the degree-granting program. Individual programs may limit the number of hours applicable to the program.

Guest (For Credit) Student Status
Guest (for credit) student status is reserved for applicants who wish to enroll in courses without seeking a degree and who meet the following criteria. Applicants who wish to register as a guest (for credit) student must be Colorado residents and are required to complete a short application with the Office of Admissions each term that they wish to enroll. Guest (for credit) students are NOT REQUIRED to submit official transcripts, test scores or an application fee; however, guest (for credit) students must obtain approval from the relevant graduate program director/coordinator and the instructor. Tuition and fees are based on the number of credits for which they register and students are INELIGIBLE to receive financial aid. The maximum limit on credit taken as a graduate guest (for credit) student before they need to apply for regular admission is 12 credits.

Western Regional Graduate Program
CSU-Pueblo participates in the Western Regional Graduate Program (https://wiche.edu/wrgp), allowing graduate students from select states (https://wiche.edu/states) to receive a discounted tuition rate equal to the in-state rate. Qualifying students must be residents of a WICHE state (https://wiche.edu/states) for tuition purposes. No additional application is required.

Graduate Work Taken by Seniors
CSU-Pueblo students who are in their senior year of undergraduate work may take graduate courses for graduate credit (see information for specific programs) with the approval of the appropriate program director/coordinator.

Graduate level courses (500 level) cannot be used simultaneously to satisfy baccalaureate and graduate degree requirements with the exception of approved joint-degree (3+2) programs.

Graduation Requirements
Each graduate program at the University has specific graduation requirements, which must be met prior to graduation. In addition, students must fulfill the following requirements for a graduate degree:

1. Have a cumulative graduate GPA of 3.000 or better at graduation. A maximum of six semester hours of course work at the grade of C+ or C may apply toward graduation. A maximum number of nine semester hours of approved transfer credit may be applied to the degree.
2. Have regular student status.
3. Complete the program’s minimum number of hours of approved course work.
4. Pass a final comprehensive and/or oral examination in the major area of study, if required by the program.
5. Submit a graduation planning sheet signed by the student’s graduate adviser during the semester term in which graduation is to occur. The deadline for submission is published.
6. Complete a thesis or directed research project if required by the program. If choosing the thesis option, submit an electronic copy and one unbound paper copy of the approved thesis to the Library. Reproduction and binding costs are the responsibility of the student. (Individual programs may require additional bound copies.)

Note: Enrollment for thesis or directed research credit is required for any academic term during which University resources (e.g., faculty time, computer use, library, etc.) are being used. However, a maximum of six (6) semester hours of thesis or directed research course work will count toward meeting graduation requirements for MS/MA degrees.

Acceptance of Transfer Credits
A maximum of nine semester hours of resident graduate credit from other regionally accredited graduate institutions may be applied to a graduate degree program. Transfer credit from non-United States institutions will be evaluated on a case-by-case basis. Transfer credits must be directly applicable to the degree program and must be approved by the program director/coordinator and sent to the Transfer Credit Evaluator. Graduate credits accepted in transfer must be from a course in which a grade of B- or better was earned. Credits accepted in transfer do not apply to the GPA at CSU-Pueblo. Credits already used for minimum degree requirements at another institution cannot be used toward fulfilling a CSU-Pueblo degree.
Individual programs may set additional criteria for acceptance of transfer credit.

Credit for Prior Learning
Prior learning is non-college or experienced-based learning that has been attained outside of accredited postsecondary education systems. Credit for Prior Learning includes learning acquired from work and life experiences. It is awarded for graduate-level learning involving knowledge, skills, and competencies that students have obtained. The Graduate Program Director/Coordinator will describe the requirements and the process for obtaining prior learning credits. Individual graduate program may or may not authorize credits for prior learning.

Credit for such experiences may be given if the following conditions are met:
1. The experience must be directly similar to the content of internships, field courses and/or laboratory courses in the regular curriculum;
2. The student must describe in writing the nature of the experience and what he or she learned through it;
3. Evidence documenting the prior learning experience is to be provided by the student. Documentation must include a detailed account of the nature, frequency and duration of the duties; and
4. A paper integrating the experiences with subsequent or concurrent classroom instruction must be submitted and approved.

The maximum number of graduate credit hours allowed for prior learning is six. Credit for prior learning is granted only for experiences gained within 12-years from the date the degree is expected to be awarded. Credit for prior learning experiences is subject to the approval of the program director/Coordinator and the dean of the college/school in which credit is requested.

Continuous Registration
All students admitted to a graduate program at Colorado State University-Pueblo are required to be continuously registered in the fall and spring semester throughout their degree programs. This policy applies from the time of first enrollment through the graduation term. Students may fulfill this requirement by registering for any graduate credit-bearing course (regular or non-regular). As an alternative, students may opt for a Continuous Registration (CR) status. Registration for CR status is accomplished in the same way as registration for courses. Students registering for CR will be assessed a fee for each semester of CR registration. Students graduating in summer term are required to be registered for at least one credit or CR. See the Graduate Enrollment Requirement.

Subject to the established time limits for the earning of graduate degrees and the various academic requirements, CR registrants need not apply for readmission should they wish to take additional graduate courses. Such students are ensured a place in their graduate programs as long as they remain in good academic standing. However, students who do not register will need to apply for readmission for their next semester of enrollment.

The availability of the CR option shall not supersede any other registration requirements to which students may be subject. For example, a student’s advisory committee may require additional course work.

Similarly, some departments may require credit-bearing registration until the degree is completed.

Graduate Enrollment Requirement
Graduate degree candidates must either enroll for at least one credit or register for CR during the term (fall, spring, or summer) they will complete their degree.

Graduate Advising
Each graduate degree area has a program director/Coordinator that serves as the initial graduate adviser to all graduate students in the program. The responsibilities of the graduate adviser and the graduate committee include advisement, approval of the degree plan, approval of a thesis or directed research topic and final document (if appropriate), and administration and approval of comprehensive and/or oral examinations and thesis/project defense.

Course Loads
Graduate students enrolled in nine or more graduate credit hours are considered full-time students (five hours, summer); those enrolled for five graduate credit hours are considered half-time students (three hours, summer).

Time Limits
Courses completed six or more years before the date of graduation, either at CSU-Pueblo or at another institution, will not be accepted as satisfying graduation requirements without the written approval of the student’s graduate program director/Coordinator.

Undergraduate Courses
Only graduate courses (500 level or above) will count toward a graduate degree. However, students admitted to graduate study may be required to complete some undergraduate prerequisite or leveling courses in addition to their graduate work.

Courses taken for undergraduate credit by a graduate student (courses 400 level or below) do not enter into the graduate grade-point computation. A graduate program director/Coordinator may, however, stipulate a grade point to be achieved in such undergraduate courses.

Graduate programs may include courses which are dually numbered at the undergraduate (400) and graduate (500) level. Students registered for graduate credit are required to perform at the graduate level. Dual-listed courses taken for undergraduate credit will not apply toward a graduate program. Graduate students may not repeat for graduate credit a dual-listed course which was taken in the undergraduate program.

Dual Degree Credit
Up to six semester hours of elective credit may be applied to more than one graduate degree program if the degrees are pursued concurrently pending approval of the graduate committees of the programs involved and the Graduate Studies Board.

Academic Standards
Graduate courses are graded in an alphabetical system with the following interpretation:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
<th>per Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td></td>
<td>3.67</td>
</tr>
<tr>
<td>B+</td>
<td></td>
<td>3.33</td>
</tr>
</tbody>
</table>
Academic Standing

The cumulative graduate GPA will be determined from all approved coursework attempted at the 500 level or above. Coursework must be approved by the student's graduate program coordinator or director. To remain in good academic standing, a student's graduate GPA must remain at 3.000 or better. If the graduate GPA falls below 3.000, a graduate student will be placed on probation. Students have one semester to show progress toward good standing as measured by increasing the graduate GPA from the previous semester. Probationary students will be dismissed whenever progress toward good standing is not achieved; after a probationary student has accrued 15 credits; or whenever the graduate GPA falls below 2.500. Graduate students may repeat a maximum of six semester hours of graduate credit. When a course is repeated, both the subsequent grade and the original grade are included in the graduate grade point average.

In addition, students must maintain a cumulative GPA of 3.000 or better in all courses attempted after achieving graduate status. If a student is in the degree plus program or admitted conditionally, all required leveling courses must be completed at a minimum GPA of 3.00. Graduate program directors/coordinators will notify the Director of Admissions if and when there is a change in academic standing for a graduate student based upon required leveling courses for a conditionally admitted student.

A student may appeal dismissal by submitting a written petition to his/her program director/coordinator. This petition must provide a justification for continued registration. The program director/coordinator will forward a recommendation through the appropriate college dean, and the Office of the Provost. The Provost or his/her designee will make a final decision on the appeal and inform the student of that decision. Decisions by the Provost are final.

Students must maintain a cumulative GPA of 3.000 or better in all courses attempted after achieving graduate status. If a student is in the degree plus program or admitted conditionally, all required leveling courses must be completed at a minimum GPA of 3.00. Graduate program directors/coordinators will notify the Director of Admissions if and when there is a change in academic standing for a graduate student based upon required leveling courses for a conditionally admitted student.

Academic Standing

The cumulative graduate GPA will be determined from all approved coursework attempted at the 500 level or above. Coursework must be approved by the student's graduate program coordinator or director. To remain in good academic standing, a student's graduate GPA must remain at 3.000 or better. If the graduate GPA falls below 3.000, a graduate student will be placed on probation. Students have one semester to show progress toward good standing as measured by increasing the graduate GPA from the previous semester. Probationary students will be dismissed whenever progress toward good standing is not achieved; after a probationary student has accrued 15 credits; or whenever the graduate GPA falls below 2.500. Graduate students may repeat a maximum of six semester hours of graduate credit. When a course is repeated, both the subsequent grade and the original grade are included in the graduate grade point average.

In addition, students must maintain a cumulative GPA of 3.000 or better in all courses attempted after achieving graduate status. If a student is in the degree plus program or admitted conditionally, all required leveling courses must be completed at a minimum GPA of 3.00. Graduate program directors/coordinators will notify the Director of Admissions if and when there is a change in academic standing for a graduate student based upon required leveling courses for a conditionally admitted student.

A student may appeal dismissal by submitting a written petition to his/her program director/coordinator. This petition must provide a justification for continued registration. The program director/coordinator will forward a recommendation through the appropriate college dean, and the Office of the Provost. The Provost or his/her designee will make a final decision on the appeal and inform the student of that decision. Decisions by the Provost are final.

Students must maintain a cumulative GPA of 3.000 or better in all courses attempted after achieving graduate status. If a student is in the degree plus program or admitted conditionally, all required leveling courses must be completed at a minimum GPA of 3.00. Graduate program directors/coordinators will notify the Director of Admissions if and when there is a change in academic standing for a graduate student based upon required leveling courses for a conditionally admitted student.

A student may appeal dismissal by submitting a written petition to his/her program director/coordinator. This petition must provide a justification for continued registration. The program director/coordinator will forward a recommendation through the appropriate college dean, and the Office of the Provost. The Provost or his/her designee will make a final decision on the appeal and inform the student of that decision. Decisions by the Provost are final.

Students may apply no more than six semester hours of work with a grade of C/C+ toward graduation requirements. Only grades of A through C, and S fulfill graduation requirements for graduate programs.

Same Masters Degree (Same Program)

Eligibility

In certain instances, applicants may wish to seek a second master's degree in the same program for which they already hold a master's degree in order to fulfill new career, professional, or specialization requirements. These applicants may seek a second master's degree for the same discipline if they:

1. Meet the University admission requirements; and
2. Meet the master's program admission requirements (individual master's programs may elect not to consider applicants who already hold a master's degree in the same discipline; applicants should consult with the graduate program coordinator of the prospective master's program).

Requirements

The second master's degree must be based on:

1. A different option from the first master's degree (or in a different area of specialization in the case of a master's program without differentiated options); and
2. A curriculum distinct from the first master's degree containing a minimum of 30 semester hours of coursework different from those taken to earn the first master's degree, and
3. At least seventy percent of the coursework must be completed in residence and include a culminating experience.

Graduate Fresh Start

Graduate students who discontinue one graduate program with a cumulative grade point average below 3.000 and are fully admitted to a different graduate program (not a different emphasis) are eligible to apply for a graduate fresh start. Students who take advantage of Graduate Fresh Start will not have grade point averages carried forward in the new graduate program. Courses previously completed with an earned grade of B or higher may count toward graduation only upon approval by the program director.

Comprehensive Examinations

Graduate programs may require a final comprehensive and/or oral examination. Scheduling is made through the graduate adviser. Students who fail a final examination may retake the examination once. A re-examination cannot be scheduled in the same term as the original examination.

Non-Thesis Options

Some graduate programs offer non-thesis options to students. Details of the requirements are specified in the respective section of this catalog. Students also should consult with the appropriate program director/ coordinator for the requirements.

Thesis

Some graduate programs provide an option that includes a thesis and an oral defense of the thesis. Students must submit a research plan prior to the work. The plan must define the topic of study and outline the research design. The plan must have the written approval of all members of the student's graduate committee and the program director/coordinator.

The graduate committee shall consist of at least three faculty members approved by the thesis adviser and the program director/coordinator.
least two members of the committee must be from within the department of the student’s graduate program. Changes in membership in the graduate committee may be requested in writing by the student to the program director/coordinator.

The research/thesis plan should be filed as soon as possible after the degree plan is filed and before 18 credit hours of the student’s degree plan have been completed.

**Thesis Instructions**

Students writing a thesis in partial fulfillment of graduation requirements must submit an electronic copy and one unbound paper copy of the approved thesis to the University Library. (Students should contact the Office of the Dean of Library Services for further details.) The student will pay the Library for the binding cost (based upon the fee schedule maintained by the Library) of the required copy plus any additional copy bindings requested by the student. The bound thesis will be submitted to the library. Individual programs may require additional bound copies.

**The Thesis Must:**

1. Contain a title page;
2. Contain a certificate of acceptance;
3. Conform to the style and form approved by the major department and outlined in the thesis plan;
4. Be printed on high-quality paper with a minimum of 25 percent rag content; and
5. Be bound.

The required University copy of the thesis must be of high-quality printing and must use a paper of the same quality as the original and include color pages wherever appropriate. Other copies of the thesis may be duplicated in any manner the student desires.

It is imperative that the utmost care be taken in the preparation of the final copy of the thesis. The completion of the thesis, including preparation and duplication, is the sole responsibility of the student.

The thesis abstract should consist of no more than five hundred (500) words. The thesis abstract should cover the following items:

1. Purpose of study;
2. Research materials and methods results; and
3. Summary and conclusions.

For additional thesis or directed research requirements, consult your program adviser.

**Oral Defense of Research**

Upon completion of a master’s thesis, an oral defense/final comprehensive examination must be scheduled. Application for the oral defense is made to the graduate adviser.

A report of the outcome of the oral defense must be filed with the program director/coordinator. The report must be signed by all members of the student’s graduate committee. Students must pass the oral defense to complete their thesis or directed research requirement successfully.

**Appeals**

All graduate policies, procedures, and regulations may be appealed. Appeals must be made in writing first to the appropriate graduate director/coordinator, the Graduate Studies Board, and finally to the Office of the Provost. The academic grade appeals process is the same as is described in the undergraduate section on appeals.

See Grade Change Policy/Academic Appeals listed in the Academic Policies section of this catalog.

COLLEGE OF EDUCATION, ENGINEERING, AND PROFESSIONAL STUDIES

Dr. Sylvester A. Kalevela, Dean

Mission

The College of Education, Engineering, and Professional Studies degree programs reflect Colorado State University-Pueblo’s professional focus and are designed to prepare graduates for positions in industry, education, business, and governmental agencies.

The mission of the College is to offer a career-oriented education that efficiently and effectively prepares students to excel as professionals.

Mission objectives:

• To be the premier educational institution in Southern Colorado that provides professional programs.
• To be the preferred source in Southern Colorado for consulting services, research effort, service learning, and other linkages to the public schools, industry, and the community.
• To be recognized for effectiveness in the professional development of faculty, staff, and students.

The College embraces the model of continuous improvement through the use of assessment in evaluating and improving student learning.

  • Teacher Education Department (p. 154)
Industrial engineers are productivity and quality improvement specialists who deal with the human aspects of work in addition to the advanced technologies of computer software and production related hardware.

A student can receive the BSE and BSIE degree simultaneously by taking 30 additional credit hours over one degree alone, including a second senior design project.

For more information on the MS degree with a major in Industrial and Systems Engineering, the MS degree with a major in Engineering, and the Railroad Engineering Certificate, see the Graduate Studies section of this catalog.

In the Pre-Engineering program, students seeking to major in some area of engineering other than industrial engineering or engineering with a mechatronics specialization (for example, civil, electrical, or mechanical engineering) can complete at least 60 credits that will transfer to other engineering schools.

The minors in Engineering and Industrial Engineering are not available to majors in the department.

The Department of Engineering has found that transfer students are very successful in our programs and we welcome transfer students. About half our graduates began their degrees at other institutions.

### Engineering (MS) and Industrial and Systems Engineering (MS)

**Program Directors:**
- Nebojsa Jaksic (Engineering)
- Leonardo Bedoya Valencia (Industrial and Systems Engineering)

The Department of Engineering offers two distinct MS degrees: the MS in Engineering (MSE) and the MS in Industrial and Systems Engineering (MSISE).

The MSE program provides advanced education in engineering, currently in two emphasis areas: mechatronics and railroad engineering. Mechatronics combines mechanical and electrical engineering with computers to create devices that make our lives better. Electrical and mechanical systems, controlled by computers, are at the core of a wide range of processes and products. Robots, the Mars Rover, a heart-lung machine, a computer controlled telescope, and a nano-scale microscope are all examples of mechatronics. Railroad engineering combines civil, mechanical, electrical, and industrial engineering in solving engineering problems for the railroad industry.

Industrial and systems engineering deals with the design and analysis of complex, human/machine systems. Industrial and systems engineers use a “big picture” or systems-oriented viewpoint to serve as management and operations analysts, focusing on the people, materials, equipment and procedures needed for the most efficient and effective systems performance. Industrial and systems engineers analyze and evaluate systems against specified performance criteria, including efficiency, quality and safety, before new systems are created or old ones are modified. Industrial and systems engineering techniques can be applied in manufacturing and service industries, health care systems, governmental agencies and non-profit organizations.

Regular admission to the MSE or MSISE program requires an undergraduate GPA of at least 3.0 on a 4.0 scale and completion of the GRE test.

---

**Department of Engineering**

**Department Chair:** Jude DePalma  
**Department Director:** Baha Ansaf

Faculty: Bedoya-Valencia, Duong, Jaksic, Wollega

The BSE is a 4-year program that can be completed at CSU-Pueblo. The program is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org. The BS in Engineering with specialization in mechatronics is a flexible, broad degree that prepares graduates to work in many industries. Mechatronics combines mechanical and electrical engineering with computers to create devices that make our lives better. Electrical and mechanical systems, controlled by computers, are at the core of a wide range of processes and products. Robots, the Mars Rover, a heart-lung machine, a computer controlled telescope, and a nano-scale microscope are all examples of mechatronics.

The BSIE is a 4-year program that can be completed at CSU-Pueblo. The program is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org. As defined by the Institute of Industrial Engineers, “industrial engineering is concerned with the design, improvement and installation of integrated systems of people, materials, information, equipment, and energy. It draws upon specialized knowledge and skill in the mathematical and physical sciences, together with the principles and methods of engineering analysis and design, to specify, predict and evaluate the results to be obtained from such integrated systems.” Industrial engineering is a major branch of engineering with applications in manufacturing, service, governmental, and non-profit organizations. Industrial engineers are productivity and quality improvement specialists who deal with the human aspects of work in addition to the advanced technologies of computer software and production related hardware.

A student can receive the BSE and BSIE degree simultaneously by taking 30 additional credit hours over one degree alone, including a second senior design project.

For more information on the MS degree with a major in Industrial and Systems Engineering, the MS degree with a major in Engineering, and the Railroad Engineering Certificate, see the Graduate Studies section of this catalog.

In the Pre-Engineering program, students seeking to major in some area of engineering other than industrial engineering or engineering with a mechatronics specialization (for example, civil, electrical, or mechanical engineering) can complete at least 60 credits that will transfer to other engineering schools.

The minors in Engineering and Industrial Engineering are not available to majors in the department.

The Department of Engineering has found that transfer students are very successful in our programs and we welcome transfer students. About half our graduates began their degrees at other institutions.

### Engineering (MS) and Industrial and Systems Engineering (MS)

**Program Directors:**
- Nebojsa Jaksic (Engineering)
- Leonardo Bedoya Valencia (Industrial and Systems Engineering)

The Department of Engineering offers two distinct MS degrees: the MS in Engineering (MSE) and the MS in Industrial and Systems Engineering (MSISE).

The MSE program provides advanced education in engineering, currently in two emphasis areas: mechatronics and railroad engineering. Mechatronics combines mechanical and electrical engineering with computers to create devices that make our lives better. Electrical and mechanical systems, controlled by computers, are at the core of a wide range of processes and products. Robots, the Mars Rover, a heart-lung machine, a computer controlled telescope, and a nano-scale microscope are all examples of mechatronics. Railroad engineering combines civil, mechanical, electrical, and industrial engineering in solving engineering problems for the railroad industry.

Industrial and systems engineering deals with the design and analysis of complex, human/machine systems. Industrial and systems engineers use a “big picture” or systems-oriented viewpoint to serve as management and operations analysts, focusing on the people, materials, equipment and procedures needed for the most efficient and effective systems performance. Industrial and systems engineers analyze and evaluate systems against specified performance criteria, including efficiency, quality and safety, before new systems are created or old ones are modified. Industrial and systems engineering techniques can be applied in manufacturing and service industries, health care systems, governmental agencies and non-profit organizations.

Regular admission to the MSE or MSISE program requires an undergraduate GPA of at least 3.0 on a 4.0 scale and completion of the GRE test.
Additional Program of Study Requirements for the MSE and MSISE Programs

For a student to be awarded the MSE or MSISE degree, the student's program of study must also satisfy the following requirements. Additionally, the program of study must be approved by the MSE/MSISE Program Director.

- At least 21 credit hours must be in graduate level engineering courses.
- No more than 9 credit hours of graduate coursework may be accepted as transfer credit from another institution.
- Any course taken as a prerequisite to engineering graduate study at CSU-Pueblo may not be counted towards graduation and must be taken for credit (i.e., not audited).

Advising

Each term, a student must meet with his or her adviser and be advised before the student can register for classes. Students are generally advised by the MSE/MSISE Program Director, unless the student is working on a thesis. Students working on a thesis are typically advised by their thesis advisers. A candidate for the MSE or MSISE degree must work with the adviser to design a program of study. The program of study must be approved by the adviser and department. This process is formalized by submitting a graduation planning sheet to the MSE/MSISE Program Director before the semester prior to graduation.

Admission Requirements

A successful applicant will have a quantitatively based baccalaureate degree from a regionally accredited college or university. Students with non-quantitatively based baccalaureate degrees may be admitted conditionally, but additional prerequisites may be required. Admission to the MSE program or MSISE program requires prior admission to graduate study at CSU-Pueblo. Regulations governing graduate studies are contained in the Graduate Policies and Procedures Guide available from the Office of Admissions.

Prerequisite Requirements for Admission

Prior to being admitted to regular status, a student is required to demonstrate preparation for graduate study in the chosen emphasis (for the MSE) or in industrial and systems engineering (for the MSISE). This is done either by completing prerequisite background courses at CSU-Pueblo, by documenting satisfactory completion of equivalent coursework elsewhere, or by demonstrating equivalent work and/or life experience.

Students who do not possess a satisfactory prerequisite background may be admitted conditionally but be required to complete prerequisites. A plan for completing prerequisite requirements in a timely fashion is developed by the student and adviser and must be approved by the MSE/MSISE Program Director.

Graduate Assistantships

Full-time student admitted to the program with regular status are eligible to apply for merit-based, competitive graduate assistantships. Graduate assistants receive financial support from the department in the form of a stipend and/or remission of tuition and fees for one year (two semesters). A graduate assistant who is supported at a funding level equivalent to full-time tuition and fees is required to choose the Thesis Option.

An assistantship is renewable for a second academic year provided the student remains in good academic standing and makes satisfactory progress towards completion of the MSE or MSISE. An award made to a student who does not perform adequately in his or her duties may be rescinded after the first semester of the award period. In extreme circumstances, an award may be rescinded before the end of a semester.

An application for assistantship consists of a résumé and letter of interest addressed to the department chair. For the following academic year, the deadline for application for an assistantship beginning in the Fall semester is April 1. Subject to availability of funds, assistantships may be granted to begin in the Spring semester.

- Sustainability, Certificate (p. 106)
- Sustainability, Minor (p. 104)

Engineering, Master of Science

Mission

The MSE program prepares students from diverse educational backgrounds to function as engineers in advanced projects in mechatronics and railroad engineering areas and to continue their studies and obtain other advanced degrees especially at the doctoral level.

Degree Requirement Components

The MSE program consists of three components:

Component/Credit Hours
Core Component: 14
Track Component: 9
Elective Component for non thesis option: 10
Elective Component for thesis option: 7
Total Non Thesis: 33
Total Thesis: 30

When considered as a cohesive whole, these three components constitute the student's program of study, totaling at least 33 credit hours for the non thesis option and 30 credit hours for the thesis option. Any course that is applied to one of these three components is said to count towards graduation.

The Core Component

The Core Component consists of 14 credit hours in topics relevant to the emphasis area.
The Core Component

The Core Component consists of 15 credit hours in five fundamental engineering topics. Each core course includes content that is necessary for success as an industrial engineer working in industrial engineering and operations research and to continue their studies and obtain other advanced degrees especially at doctoral level.

The Elective Component

For the non thesis option, the Elective Component consists of 10 credit hours of coursework of courses approved as electives by the department. For the thesis option the Elective Component consists of 6 credit hours of coursework and 1 credit hour of coursework of courses approved as electives by the department.

Prerequisites for the MS in Engineering

Note that some of the courses listed below may have prerequisites not listed here.

- Problem Solving for Engineers (EN 103 Problem Solving for Engineers (3 c.h.))
- Engineering Economy (EN 343 Engineering Economy (3 c.h.))
- Stochastic Systems Engineering (EN 375 Stochastic Systems Engineering (3 c.h.))—railroad engineering emphasis only
- Calculus I and II (MATH 126 Calculus and Analytic Geometry I (5 c.h.) and MATH 224 Calculus and Analytic Geometry II (5 c.h.))
- Calculus-Based Physics I and II (PHYS 221 General Physics I (4 c.h.) and PHYS 222 General Physics II (4 c.h.))
- Engineering mechanics (statics and dynamics) (EN 211 Engineering Mechanics I (3 c.h.) and EN 212 Engineering Mechanics II (3 c.h.))
- Circuits (EN 231 Circuit Analysis I (4 c.h.) and EN 231L Circuit Analysis I Lab (1 c.h.))
- Controls (EN 360 Control Systems I (2 c.h.))
- Electromechanical devices (EN 263 Electromechanical Devices (3 c.h.))

Any material substituted for EN 343 Engineering Economy (3 c.h.) must include the time value of money topic.

Expected Student Learning Outcomes

Each MSE and MSISE graduate will be able to:

- Demonstrate advanced understanding of the fundamental knowledge which serves as the basis for practice in their chosen specialization.
- Apply those principles in the design and analysis of a system or process to meet specified needs.
- Communicate effectively in writing and orally.

By applying the following rules, the MSE and MSISE programs are designed to ensure these additional learning outcomes:

- Each student who does not have the required prerequisites in the chosen specialization takes the necessary leveling courses.
- Every MSE or MSISE graduate must demonstrate knowledge of material in the core courses in the chosen specialization.

Assessment Activities

The MSE and MSISE programs are assessed by periodically reviewing the results of various metrics such as final course exams, homework assignments, projects, project report evaluations, presentations, paper evaluations, student surveys, and exit interviews with MSE and MSISE graduated. Assessment results are used to improve the two programs.

Industrial and Systems Engineering, Master of Science

Mission

The MSISE program prepares students from diverse educational backgrounds to function as engineers in advanced projects in industrial engineering and operations research and to continue their studies and obtain other advanced degrees especially at doctoral level.

Degree Requirement Components

The MSISE Program consists of three components:

Component/Credit Hours

Core Component: 15
Track Component: 9
Elective Component for non thesis option: 9
Elective Component for thesis option: 6
Total Non Thesis: 33
Total Thesis: 30

The Core Component

The Core Component consists of 15 credit hours in five fundamental industrial engineering topics. These core courses include content that is necessary for success as an industrial engineer working in industry or continuing in graduate study. The Core Component topic areas are Simulation, Operations Research, Facility Design, Operations Planning, and a seminar on conducting academic research as a graduate student.
If the student has an undergraduate degree in industrial engineering or a related field, some or all of the core (except EN 593 Graduate Seminar (2 c.h.)) may be waived; additional electives will replace the waived courses.

The Track Component
The Track Component consists of 9 credit hours of coursework selected by the student and his or her adviser to advance the professional and/or educational goals of the student. Currently available tracks include the Industrial Engineering and Engineering Management tracks.

Alternately, any student may pursue an Individualized Track tailored to the needs of the student. An Individualized Track must consist of 9 credit hours of graduate coursework, subject to the approval of the adviser and department.

In order to count towards graduation, any Special Projects, Special Topics, Graduate Projects or Independent Study course must consist of content appropriate for the track selected. The determination of an appropriate topic is at the discretion of the adviser and department.

Total Credits 15

For the non thesis option the Elective Component consists of 9 credit hours of coursework of courses approved as electives by the department.

For the thesis option the Elective Component consists of 6 credit hours of thesis.

Prerequisites for the MS in Industrial and Systems Engineering (CSU-Pueblo Course Equivalents)
Note that some of the courses listed below may have prerequisites not listed here.

- Problem Solving for Engineers (EN 103 Problem Solving for Engineers (3 c.h.))
- Engineering Economy (EN 343 Engineering Economy (3 c.h.))
- Stochastic Systems Engineering (EN 375 Stochastic Systems Engineering (3 c.h.))
- Calculus I and II (MATH 126 Calculus and Analytic Geometry I (5 c.h.) and MATH 224 Calculus and Analytic Geometry II (5 c.h.))
- Calculus-Based Physics I and II (PHYS 221 General Physics I (4 c.h.) and PHYS 222 General Physics II (4 c.h.))

1 Any material substituted for EN 343 Engineering Economy (3 c.h.) must include the time value of money topic.

The Thesis Option
MS and MSISE Students choosing the Thesis Option will apply 6 credit hours of EN 599 Thesis Research (1-9 c.h.) to the Elective Component. A program of study may include more than 6 credit hours of EN 599 Thesis Research (1-9 c.h.), but no more than 6 may count towards graduation.

Expected Student Learning Outcomes
Each MSE and MSISE graduate will be able to:

- Demonstrate advanced understanding of the fundamental knowledge which serves as the basis for practice in their chosen specialization.
- Apply those principles in the design and analysis of a system or process to meet specified needs.
- Communicate effectively in writing and orally.

By applying the following rules, the MSE and MSISE programs are designed to ensure these additional learning outcomes:

- Each student who does not have the required prerequisites in the chosen specialization takes the necessary leveling courses.
- Every MSE or MSISE graduate must demonstrate knowledge of material in the core courses in the chosen specialization.

Assessment Activities
The MSE and MSISE programs are assessed by periodically reviewing the results of various metrics such as final course exams, homework assignments, projects, project report evaluations, presentations, paper evaluations, student surveys, and exit interviews with MSE and MSISE graduated. Assessment results are used to improve the two programs.

Engineering 3+2 Plan, Joint Bachelor of Science/Master of Science
The BS/MS program allows qualified students to earn both a BS (BSE or BSIE) and MS (MSE or MSISE) concurrently (BSE/MSE, BSE/MSISE, BSIE/MSE, BSIE/MSISE). Students can complete the requirements for both degrees in five years, thus shortening the normal time to receive
both degrees from six years to five years. The degrees are awarded
simultaneously.

Admission Requirements

Students should apply no later than the spring before the senior year.
Students are required to take the GRE and have a 3.0 GPA for regular
admission to the MS programs. The application for admission must
include a completed Engineering MS application form, an unofficial CSU-
Pueblo transcript, and GRE scores. Students are strongly encouraged to
complete an internship prior to enrolling in graduate-level courses.

Up to 9 credits of coursework taken at the 500 level while the student is
in the 3+2 program will count toward both the BSE/BSIE and the MSE/
MSISE degrees. Courses commonly used for such purposes include for
BSIE students, EN 520, EN 571, EN 575, or EN 577, and for BSE students,
EN 540, EN 541, EN 562, or EN 573.

All other requirements for the 3+2 program in engineering are the same
as for the regular master's degree. For more information, consult the
Engineering (BS), Industrial and Systems Engineering (BSIE), Engineering
(MS) and Industrial and Systems Engineering (MS) graduate programs.

Engineering, Bachelor of Science (p. 99)

Industrial Engineering, Bachelor of Science in Industrial Engineering
(p. 101)

Engineering, Master of Science (p. 96)

Industrial and Systems Engineering, Master of Science (p. 97)

Pre-Engineering Program

Students seeking to specialize in some area of engineering other than
mechatronics or industrial engineering (for example, civil, electrical, or
mechanical engineering) can complete at least 60 credits (two years)
of courses that will transfer to other engineering schools. The courses
should be selected in consultation with an Engineering faculty member
and an adviser at the school to which the student plans to transfer.
Generally recommended courses for a student planning to transfer to
another engineering school include:

Humanities, Social Sciences & History courses

A student who intends to transfer elsewhere and then decides to stay at
CSU-Pueblo will be able to count all of the above courses toward the BSE
or the BSIE.

Engineering, Bachelor of Science in Engineering: Mechatronics
Specialization

Undergraduate Admission Requirements

Applying as an incoming freshman

In order to be considered for admission to the BSE or BSIE as an
incoming freshman, a student must:

- Be placed into MATH 126 Calculus and Analytic Geometry I (5 c.h.), or
  higher.
- Have a high school GPA of 3.25 or higher on a 4.0 scale.

The number of students admitted to the BSE or the BSIE as incoming
freshmen is limited. Priority is given to students with the highest GPA's
and ACT/SAT scores. A student admitted as an incoming freshman
may continue in the BSE or BSIE program as a sophomore if he or
she completes the required first year engineering courses (EN 101
Introduction to Engineering (2 c.h.), EN 103 Problem Solving for Engineers
(3 c.h.), and EN 107 Engineering Graphics (2 c.h.)) with a B or better in
each course. If a student admitted as an incoming freshman does not
meet the requirements to continue in the program as a sophomore, he or
she is eligible to apply as a sophomore, as described below.

Applying after completing the required first year courses

A student (including a transfer student) who does not receive admission
as a freshman must complete the required first year courses (EN 101
Introduction to Engineering (2 c.h.), EN 103 Problem Solving for Engineers
(3 c.h.), EN 107 Engineering Graphics (2 c.h.), ENG 101 Composition I (3
c.h.), ENG 102 Composition II (3 c.h.), MATH 126 Calculus and Analytic
Geometry I (5 c.h.), MATH 224 Calculus and Analytic Geometry II (5 c.h.),
and PHYS 221 General Physics I (4 c.h.), PHYS 221L General Physics I Lab (1 c.h.)) with a grade of C or better in each course in order to be
eligible to apply for admission to the BSE or BSIE as a sophomore.
Admission is not guaranteed as priority is given to students with the
highest GPA's.

Specific Requirements for the BSE Degree

Students are required to have earned a cumulative GPA of 2.000 or better
in required EN courses.

</tbody>
</table>
The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

**BSE Program Outcomes**

The BSE program is designed so that students graduate from the program with the following abilities and knowledge:

1. An ability to apply knowledge of mathematics, science, and engineering;
2. An ability to design and conduct experiments, as well as to analyze and interpret data;
3. An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability;
4. An ability to function on multi-disciplinary teams;
5. An ability to identify, formulate, and solve engineering problems;
6. An understanding of professional and ethical responsibility;
7. An ability to communicate effectively;
8. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context;
9. A recognition of the need for, and an ability to engage in life-long learning;
10. A knowledge of contemporary issues; and
11. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

**BSE Educational Objectives**

During the first few years after graduation, BSE graduates should be able to:

- Conduct low-level designs and modifications of mechatronic systems;
- Troubleshoot and support existing mechatronic systems;
- Work directly with suppliers and customers of mechatronic systems;
- Manage small and support large engineering projects;
- Assume ownership and accountability for engineering projects;
- Function well on teams of engineers with different skill levels;
- Implement basic quality control principles;
- Write sound technical documents such as requests for proposals, grant applications, project specifications and technical reports;
- Continue their education at the graduate level; and
- Obtain additional engineering certifications.

**Outcomes Assessment Activities**

The BSE and BSIE programs and the courses in each program are designed to support the Program Outcomes listed for each degree. Each program has an Advisory Board that meets annually and the input from those Boards is used to revise the programs. The Department also uses the following assessment activities:

- During the final term of study, all engineering students are required to demonstrate their ability to apply and integrate the skills and knowledge learned in the program by producing a capstone engineering design project. This project must incorporate subject material covered in two or more courses in the student's major,

BSIE Program Outcomes

The BSIE program is designed so that students graduate from the program with the following abilities and knowledge:

1. An ability to apply knowledge of mathematics, science, and engineering;
2. An ability to design and conduct experiments, as well as to analyze and interpret data;
3. An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability;
4. An ability to function on multi-disciplinary teams;
5. An ability to identify, formulate, and solve engineering problems;
6. An understanding of professional and ethical responsibility;
7. An ability to communicate effectively;
8. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context;
9. A recognition of the need for, and an ability to engage in life-long learning;
10. A knowledge of contemporary issues; and
11. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

BSIE Educational Objectives

During the first few years after graduation, BSIE graduates should be able to:

- Identify root causes of symptoms and fix problems in situations where data and resources may be lacking and multiple problems may exist;
- Function well on teams of engineers with different skill levels;
- Obtain jobs of increasing responsibility applying industrial engineering skills and knowledge to a wide range of problems in a wide range of industries;
- Continue their education, for example, in MS, PhD, and MBA programs;
- Obtain additional certifications, such as Professional Engineer, Six Sigma Black Belt, Certified Manufacturing Engineer, or Railroad Engineering; and
- Achieve management positions.

Outcomes Assessment Activities

The BSE and BSIE programs and the courses in each program are designed to support the Program Outcomes listed for each degree. Each program has an Advisory Board that meets annually and the input from those Boards is used to revise the programs. The Department also uses the following assessment activities:

- During the final term of study, all engineering students are required to demonstrate their ability to apply and integrate the skills and knowledge learned in the program by producing a capstone engineering design project. This project must incorporate subject material covered in two or more courses in the student’s major, involve knowledge or skill not learned in a class thus demonstrating the student’s ability to engage in life long learning, involve reflection on the impact of the proposed solution in a global and societal context;
context, and be presented in written and oral reports to demonstrate the student's communication skills.

- All senior engineering studies are encouraged to take the Fundamentals of Engineering (FE) exam administered by the Colorado State Board of Registration for Professional Engineers. The Department periodically sets goals for and reviews the section-by-section performance of students on the FE. The results are used to identify areas of the curriculum that may need improvement.

**Engineering, Minor**

The Engineering minor is appropriate for students who want to add knowledge of engineering to their study of a technical field, such as chemistry, mathematics, or physics. The courses in the minor have prerequisites (calculus and physics) that are not listed below. This minor is not available to students majoring in Engineering or Industrial Engineering.

**Specific Requirements for the Minor in Engineering**

**Industrial Engineering, Minor**

The minor in Industrial Engineering is appropriate for students who want to add considerations of efficiency, quality, and safety to their study of a technical field, such as chemistry, mathematics, or physics. Some of the courses in the minor have prerequisites (calculus and physics) that are not listed below. This minor is not available to students majoring in Engineering or Industrial Engineering.

Sustainability, Minor

Attention to sustainability is a global trend. Sustainability promotes systems thinking and challenges the student to take the long view of any subject by considering the environmental, social and economic effects. Moreover, sustainability has played and will play a critical role in the future workforce. This minor provides students with the opportunity to position themselves strategically in the ever-changing workforce. It challenges students to think systemically and globally, while shaping them to become leaders.

Three core concepts in sustainability shape the minor: science and technology, economics, and social and cultural perspectives. These three are interconnected and serve as guides for the curricular pathways selected by the students in the minor.

Student Learning Outcomes

The student learning outcomes are differentiated by the six levels of Bloom's taxonomy:

- **KNOWLEDGE**
  - Identify the principles and core concepts of sustainability and its role within local and global contexts.

- **COMPREHENSION & SYNTHESIS**
  - Explain the socio-cultural, economic, scientific and technological implications of sustainability problems and solutions from a systemic perspective.
  - Synthesize the scientific and technological foundations and socioeconomic impacts of different sustainable alternatives within a local and global context to become agents of change who champion sustainable skills and principles in their communities and organizations.

- **APPLICATION**
  - Demonstrate the ability to formulate technical, operational and strategic frameworks for sustainability problems and solutions within local and global contexts.

- **ANALYSIS**
  - Develop critical and rational thinking skills to understand systems interdependencies and emergent aspects associated with sustainability.

- **EVALUATION**
  - Use the scientific method and knowledge transfer processes to assess and select different solutions for sustainability related problems, with local and global contexts.

Outcome Assessment Activities

The assessment plan for the minor consists of a two-step process initiated in the introductory courses.

1. **Pre and Post Literacy Assessment**: A questionnaire designed to measure sustainability literacy is administered at the beginning of the EN 109 Introduction to Sustainability (2 c.h.) course. The same questionnaire is applied at the beginning of the Sustainability capstone Project Course and gains in knowledge are assessed.

2. **Skills and Competencies**: During the Sustainability Capstone Experience, students are required to design and deploy a sustainability related project that will be used to assess the student learning objectives.

Specific Requirements for the Sustainability Minor

The minor in Sustainability is open to students in all majors.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EN 109</td>
<td>Introduction to Sustainability</td>

</tr>
<tr>
<td>Sustainability Electives $^1$</td>
<td></td>
<td>15</td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>21</td>
</tr>
</tbody>
</table>

$^1$ Sustainability electives are to be selected, with approval of the student’s adviser, from a list of approved sustainability electives. The electives must include three courses from outside the college of the student's major and two courses from inside the college of the student's major.

Senior Capstone Experience

This course allows the student to bring together interdisciplinary knowledge to:

- Synthesize and apply sustainability principles and concepts to the student's major;
- Synthesize and apply sustainability principles and concepts to disciplines outside of the student's area of study or interest;
- Enhance professional skills as applied to the student's major and the sustainability discipline by demonstrating competencies including research techniques, team building, oral presentations, strategy and policy analysis and development; and
- To prepare to obtain professional certifications and future jobs.

It is expected that the student will apply the acquired knowledge, competencies and skill set in a community-based setting (through experiential education) and demonstrate the ability to effect positive change around a sustainability issue.

Sustainability Capstone Project Prerequisites

The Capstone Project will be open to students who have declared a minor in Sustainability and have completed the core requirements and at least 75% of the minor's electives. It is preferred that this capstone experience be taken in the senior year, after all other minor requirements have been met.

Railroad Engineering, Graduate Certificate

The Railroad Engineering Certificate Program is a 12-credit hour certificate program housed in the Department of Engineering. The Program is designed to prepare students with an undergraduate degree in engineering (or related field) to succeed in a career in railroad
engineering. Coursework includes material from civil, electrical, industrial, and mechanical engineering.

**Student Learning Outcomes**

Each student will be able to

- Demonstrate advanced understanding of the fundamental knowledge which serves as the basis for practice in railroad engineering.
- Apply that knowledge in the design and analysis of a system or process to meet specified needs.

**Outcomes Assessment Activities**

Within the Department’s existing assessment structures, the performance of Certificate students in the specific courses will be evaluated separately from other students.

**Specific Requirements for the Railroad Engineering Certificate**

A student will receive a Railroad Engineering Certificate after completing the following courses with a grade of B or better in each:

**Graduate Student**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EN 511</td>
<td>Structural Engineering</td>
<td>3</td>
</tr>
<tr>
<td>EN 531</td>
<td>Railroad Power Systems</td>
<td>3</td>
</tr>
<tr>
<td>EN 551</td>
<td>Fleet Management</td>
<td>3</td>
</tr>
<tr>
<td>EN 552</td>
<td>Vehicle Dynamics</td>
<td>3</td>
</tr>
<tr>
<td><strong>Total Credits</strong></td>
<td></td>
<td><strong>12</strong></td>
</tr>
</tbody>
</table>

An applicant for the certificate must be admitted as a graduate student and can then complete the certificate in non-degree status. Colorado residents can complete the certificate as guest (for credit) students. If a student decides to later pursue the MS in Engineering with emphasis in Railroad Engineering, the student must apply and be accepted to that degree program; credits completed toward the certificate can be applied toward the degree.

**Lean Green Belt, Certificate**

The Lean Green Belt Certificate Program is a 5-credit hour certificate program housed in the Department of Engineering. A lean company views itself as a part of an extended value chain, focusing on the elimination of waste between the company and its suppliers and the company and its customers. Lean is a management philosophy derived mostly from the Toyota Production System (TPS). Upon completion of this certificate, a student will have developed a deep understanding of the principles of lean manufacturing and will be able to apply these principles in manufacturing or service organizations.

**Specific Requirements for the Lean Green Belt Certificate**

Students will receive a Lean Green Belt Certificate after completing the following courses with required grades of B or better in each:

**Undergraduate Student**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EN 439</td>
<td>Time and Motion Studies</td>
<td>2</td>
</tr>
<tr>
<td>EN 477</td>
<td>Operations Planning and Control</td>
<td>3</td>
</tr>
<tr>
<td><strong>Total Credits</strong></td>
<td></td>
<td><strong>5</strong></td>
</tr>
</tbody>
</table>

**Graduate Student**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EN 539</td>
<td>Time and Motion Studies</td>
<td>2</td>
</tr>
<tr>
<td>EN 577</td>
<td>Operations Planning and Control</td>
<td>3</td>
</tr>
<tr>
<td><strong>Total Credits</strong></td>
<td></td>
<td><strong>5</strong></td>
</tr>
</tbody>
</table>

Students do not need to apply to the program. The certificate will be issued upon completion of the required courses as the required level.

**Student Learning Outcomes**

Students who successfully complete the Lean Green Belt Certificate Program are expected to have the ability to:

- Identify waste and propose ways to eliminate such waste; and
- Compute and apply measures related to lean processes.

**Outcomes Assessment Activities**

Within the department’s existing assessment structures, the performance of Certificate students in the specific courses will be evaluated separately from other students.

**Six Sigma Green Belt, Certificate**

The Six Sigma Green Belt Certificate Program is a 7-credit hour certificate program housed in the Department of Engineering. Six Sigma is a method of continuous process improvement. First developed at Motorola in the 1980s, the systematic approach of Define, Measure, Analyze, Improve, and Control (DMAIC) and the associated tools (such as the fishbone diagram, the Pareto chart, and ANOVA) have been widely and successfully applied. Upon completion of this certificate, a student will be able to play a major role in process improvement and will be prepared to achieve the Black Belt and Master Black Belt certifications through their company.

**Student Learning Outcomes**

Students who successfully complete the Six Sigma Green Belt Certificate Program are expected to have the ability to:

- Collect and analyze data, using appropriate statistical tools; and
- Select and apply appropriate Six Sigma tools to improve a process.

**Outcomes Assessment Activities**

Within the department’s existing assessment structures, the performance of Certificate students in the specific courses will be evaluated separately from other students.

**Specific Requirements for the Six Sigma Green Belt Certificate**

Students will receive a Six Sigma Green Belt Certificate after completing the following:
**Undergraduate Student**

**Department Chair:** Michael Mincic  
**Faculty:** Kalevela, Mincic

**Construction Management Program**

**Department Chair:** Michael Mincic

- Automotive Industry Management, Bachelor of Science (p. 108)  
- Automotive Industry Management, Minor (p. 109)  
- Civil Engineering Technology, Bachelor of Science in Civil Engineering Technology (p. 109)  
- Construction Management 3+2 Program, Joint Bachelor of Science in Construction Management/Master of Business Administration (p. 106)  
- Construction Management, Bachelor of Science (p. 112)

**Construction Management 3+2 Program, Joint Bachelor of Science in Construction Management/Master of Business Administration**

**Admission Requirements**

The BS-CM/MBA program is unique. It allows qualified students to earn both a BS degree in Construction Management and an MBA concurrently.

Students are required to take the Graduate Management Admissions Test (GMAT). An admission index formula of 200 times the undergraduate GPA (4.000 system) plus the GMAT score is used as an admission score. The undergraduate GPA must be based on a minimum of 90 semester hours of course work, including MGMT 201 Principles of Management (3 c.h.), FIN 330 Principles of Finance (3 c.h.), and MKTG 340 Principles of Marketing (3 c.h.). Students must have a minimum GPA of 3.5 and a GMAT of at least 450 (i.e., an index of 1150) to be admitted to the program. Students may also take the GRE and receive a 152 on the Verbal Reasoning and a 152 on the Quantitative Reasoning to be admitted to the program.

**Options to satisfy GMAT requirement:**

All MBA students are required to either take the Graduate Management Admissions Test (GMAT) or qualify to waive the GMAT requirement based on the options provided in the following sections.

**Option I:** Complete the GMAT with a minimum score of 400 and satisfy the qualification score of 1,150 calculated as 200 * Undergraduate cumulative GPA + GMAT score.

**Option II:** Take the GRE with a minimum GMAT score equivalent of 400 and a minimum undergraduate GPA of 3.0.

GMAT equivalent Score calculated as [2080.75 + (GRE Verbal * 6.38) + (GRE Quant * 10.62)] must be at least 400.

Admissions Index Score calculated as GMAT equivalent score + 200 * Undergraduate cumulative GPA, must be equal to or greater than 1,150.

**Option III:** If you have earned a graduate degree (equivalent to a U.S. Master’s or PhD) from a regionally accredited institution with cumulative GPA of 3.0 higher.

**Department of Engineering Technology, Construction and Automotive Industry Management**

**Department Chair:** Michael A. Mincic

**Automotive Industry Management Program**

**Program Coordinator:** Cathi J. Robbe  
**Faculty:** Bencini, Fass, Robbe  
**Civil Engineering Technology Program**
If your degree is from outside of the U.S., you will have to provide an official evaluation from any approved evaluation company that proves your master's is equivalent to a U.S. master's degree from a regionally accredited institution.

OR

Current admission and enrollment in a graduate dual-degree program at select partner institutions, currently including MBA admission at Chungnam National University, Korea.

Option IV: Five (5) or more years of full-time substantive mid-level managerial work experience and/or military service with increasing levels of responsibility AND an undergraduate cumulative GPA of 3.0 or higher.

Option V: Ten (10) or more years of full-time substantive mid-level managerial work experience and/or military service with increasing levels of responsibility AND an undergraduate GPA of 2.75 or higher.

All petitioners will need to provide one letter of reference from a supervisor who can verify your work experience and increasing scope of responsibility.

GMAT writing score must be 4.5 or higher to waive BUSAD 592. GRE writing score must be a minimum of 3.5 to waive BUSAD 592.

Prior to enrolling in the first 500-level course, students are expected to have completed a significant portion of the requirements for their undergraduate major and must have submitted an acceptable GMAT.

NOTE: CM Students are strongly encouraged to establish an academic advisor in both in Construction Management and Business Administration as early as possible in the process to ensure efficient academic planning. Students are also strongly encouraged to complete an internship prior to enrolling in graduate-level courses.

General Requirements

Students in the joint BS-CM/MBA program must complete:

- ACCTG 201 Principles of Financial Accounting (3 c.h.), ECON 202 Principles of Microeconomics (3 c.h.), FIN 330 Principles of Finance (3 c.h.) and MKTG 340 Principles of Marketing (3 c.h.);
- The CM Required Course Core (excluding BUSAD 302 Ethics in Business (3 c.h.), replaced by BUSAD 502 Business Ethics and Environment (3 c.h.))
- The CM major within the College of Education, Engineering and Professional Studies and;
- All remaining specified MBA courses.

In order to minimize additional credits being required BSCM/MBA students must take the graduate courses MGMT 520 Management of Organizational Behavior (3 c.h.), MGMT 511 Production/Operations Management (3 c.h.), and MGMT 585 Management Policy and Strategy (3 c.h.) in place of the 9 credits of Technical and Management Electives. If CM majors take different undergraduate courses, they will still be required take the needed MBA courses to complete both degrees.

In addition, students must satisfy all GPA requirements for the BS in CM and the MBA (see the MBA listing under the Graduate Programs section of the catalog).

Special Projects and Internships will not be substituted for required CM major courses. Independent Studies will not be substituted for required MBA courses.

</tbody>
</table>
General Education
The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Student Learning Outcomes
Students who successfully complete the CM program are expected to have the ability to:

• Apply knowledge, techniques, skills, and tools of the construction industry in construction activities;
• Select and apply knowledge of mathematics, science, and technology to construction problems;
• Perform standard tests, organize and interpret test data, and apply test results to improve construction processes;
• Function effectively as members or leaders on construction teams;
• Communicate effectively regarding subjects related to construction activities; and
• Demonstrate an understanding of professional and ethical responsibilities.

Outcomes Assessment Activities
• To be eligible for graduation, all construction management majors are required to take an exit examination. The results of the exit examination are used in the evaluation of the program but have no effect on the student’s GPA.
• Graduates and their employers are surveyed on program satisfaction and job performance following their graduation.
• The CM Advisory Committee meets every year to review the three year cycle report and make suggestions for program improvement. The committee also meets with current CM students for an open discussion regarding the CM program.

Automotive Industry Management, Bachelor of Science
The major in Automotive Industry Management (AIM) leads to a Bachelor of Science (BS) Degree with a Business Administration minor. The AIM program also offers an AIM minor to complement other CSU-Pueblo degrees. The AIM degree is designed to prepare students for automotive industry management careers by providing automotive management skills, supported by the business and technical background requisite for success in the automotive industry. The curriculum emphasizes personnel supervision, financial analysis, customer relations, warranty administration, sales promotions and techniques of technical problem-solving, service management, marketing, merchandising and distribution methods used by the automotive aftermarket, automotive manufacturer and import industries.

Program Goals
• Prepare students with the appropriate knowledge and skills to enter the workforce as productive, accountable and responsible employees.
• To provide students with theoretical and hands-on laboratory experiences designed to develop the knowledge and skills for success in automotive management careers.

• To utilize an advisory committee of automotive business leaders to advise and support the AIM program on a range of issues, which includes keeping the curriculum current with industry needs.

General Requirements for the AIM Program
• AIM majors are required to complete an approved curriculum with a minimum grade of C earned in all courses having an AIM prefix.
• AIM majors are required to demonstrate intellectual skills and knowledge in related business courses to satisfy the minor and institutional requirements.
• AIM minors are required to complete the approved curriculum with a minimum grade of C earned in all minor courses having an AIM prefix.

Institutional and General Education
Please refer to the General Education Requirements in the Undergraduate Programs section of this catalog or refer to your individual program’s curriculum sheet.

General Education
The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Student Learning Outcomes
Students in the AIM Program will be able to:

- Analyze financial profitability, efficiency and productivity of an automotive industry business;
- Manage and implement retail inventory control systems;
- Demonstrate knowledge and ability to apply automotive industry health, safety, and environment regulations;
- Demonstrate critical thinking and problem solving in the diagnosis and service of automotive systems;
- Demonstrate professional writing and oral presentation skills; and
- Develop employment seeking skills required to obtain an entry level management position in the automotive industry.

Outcomes Assessment Activities
- Graduating students complete an exit survey that provides feedback on the quality and usefulness of the coursework for professional preparation.
- Employer surveys are collected every three years.
- The AIM Advisory Committee meets every fall semester to review the three year cycle report and make suggestions for program improvement. The committee also meets with current AIM students for an open discussion regarding the AIM program.
- Assessment materials are collected yearly (except the employer survey) and analyzed and reported on a three year cycle.

Automotive Industry Management, Minor
The major in Automotive Industry Management (AIM) leads to a Bachelor of Science (BS) Degree with a Business Administration minor. The AIM program also offers an AIM minor to complement other CSU-Pueblo degrees. The AIM degree is designed to prepare students for automotive industry management careers by providing automotive management skills, supported by the business and technical background requisite for success in the automotive industry. The curriculum emphasizes personnel supervision, financial analysis, customer relations, warranty administration, sales promotions and techniques of technical problem-solving, service management, marketing, merchandising and distribution methods used by the automotive aftermarket, automotive manufacturer and import industries.

Institutional and General Education
To complete the General Education requirements, students are required to take a total of 35 credit hours consisting of the skills and knowledge components as specified under the undergraduate General Education Requirements section of this catalog. Civil Engineering Technology (CET) students take 11 of the 35 credit hours of the general education requirements under the required math and physical science courses. Therefore, the CET majors are expected to take 24 credit hours to complete the skills and knowledge components of the general education requirements. The skills and knowledge components include:

a. Written Communication (6 credit hours),
b. Humanities and Speech Communication (9 credit hours),
c. History (3 credit hours) and
d. Social Sciences (6 credit hours).

Please refer to the undergraduate General Education Requirements section of this catalog for actual courses required to fulfill the skills and knowledge components. General Education Requirements in Written Communication, Humanities, History and Social Sciences = 24

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Co-curricular Activities
The CET faculty supports and encourages the involvement of civil engineering technology majors in at least one technical organization relevant to the civil engineering discipline.

Graduation Requirements
CET Program Requirements

• Students are required to complete an approved program of study with a cumulative GPA of 2.000 or better in the CET major courses.
• Students are required to demonstrate skill and knowledge in the areas of quantitative analysis and science by having a cumulative GPA of 2.000 or better in the required mathematics and physics courses.
• Civil Engineering Technology majors are required to demonstrate the ability to solve problems appropriate to their discipline and to complete a final senior-year technical project requiring a written report and an oral presentation.

Program Education Objectives
The objective of the Civil Engineering Technology (CET) program at Colorado State University-Pueblo is to provide an integrated educational experience so that its graduates are:

• Prepared to apply established engineering principles and standards of practice in developing solutions to civil engineering problems, and
• Prepared for successful careers in civil engineering by providing them with the ability to contribute to engineering teams in various practice areas including
  a. engineering analysis and design,
  b. construction planning and management,
  c. experimentation,
  d. technical documentation, and
  e. systems operations or maintenance.

Program Emphasis
The CET major is designed to produce civil engineering technologists who
a. are capable of performing engineering surveys;
b. can perform standard analysis and design of elements of structures, water systems, and transportation systems;
c. are capable of conducting standard laboratory and field tests for construction materials and soils; and
d. can manage a construction project.

The civil engineering technology curriculum places emphasis on hands-on experience obtained through laboratory activities that include:

a. testing engineering/construction materials;
b. developing technical solutions to problems using established engineering analysis and design principles;
c. performing cost and economic analysis of technical solutions; and
d. developing plans and schedules for construction projects.

Student Learning Outcomes

Students who complete the CET program at CSU-Pueblo will have the ability to:

- Apply knowledge, techniques, skills, and tools of the civil engineering discipline to engineering technology activities;
- Select and apply a knowledge of mathematics, science, engineering, and technology to civil engineering technology problems;
- Conduct standard tests and measurements, analyze and interpret experimental data, and apply experimental results to improve processes;
- Design systems, components, or processes for civil engineering technology problems;
- Function effectively as members or leaders on a technical team;
- Communicate effectively regarding subjects related to engineering technology activities;
- Demonstrate a disposition to engage in self-directed continuing professional development;
- Demonstrate an understanding of professional and ethical responsibilities;
- Demonstrate an understanding of the impact of engineering technology solutions to society; and
- Demonstrate commitment to quality, timeliness, and continuous improvement.

In addition, in order to enable graduates to attain the CET program educational objectives, CET students are trained to acquire specific skills and the ability to:

- Utilize principles and appropriate technology to produce drawings, reports, quantity estimates, and other documents related to civil engineering;
- Conduct standardized field and laboratory tests related to civil engineering;
- Utilize surveying methods and equipment to perform land measurement or construction layout;
- Apply fundamental computational methods and elementary analytical techniques to solve civil engineering technology problems;
- Plan and prepare documents appropriate for design and construction;
- Perform economic analyses and cost estimates related to design, construction, operations and maintenance of systems associated with civil engineering;
- Select appropriate engineering materials and practices; and
- Perform standard analysis and design of elements for structures, hydraulic and hydrologic systems, construction operations, and transportation systems.

Outcomes Assessment Activities

- To be eligible for graduation, all civil engineering technology majors are required to take an exit examination. The results of the exit examination are used in the evaluation of the program but have no effect on student’s GPA.
- Graduates and their employers are surveyed on program satisfaction and job performance following their graduation.

Construction Management, Bachelor of Science

The major in construction management leads to the Bachelor of Science (BS) degree in Construction Management. Graduates of the Construction Management (CM) program enter the industry as project superintendents, field supervisors, project managers, or owner’s representatives for a variety of construction related firms such as general contractors, specialty subcontractors, construction managers, designers, developers, consultants, or owners.

Program Goals

The goal of the Construction Management program is to prepare baccalaureate degree graduates who have the necessary skills to plan, organize, staff, lead and exercise control in the directing and coordinating of resources to achieve construction project objectives. Therefore, the objective of the program is to produce graduates who have the technical grounding in construction processes for infrastructure and have managerial skills to plan and direct projects.

Co-curricular Activities

The CM faculty supports and encourages the involvement of construction management majors in at least one technical organization relevant to the construction enterprise.

Construction Management Certificate Options:

The Construction Management BS Degree is designed to prepare students for entry level positions in the heavy/civil or Commercial/Residential construction management industry.

Non Construction Management Majors who wish to build their construction management knowledge in various discipline specific areas can obtain a certificate in any of the following Construction Management specialization areas:

- Construction Manager Certificate
- Estimating & Planning Construction Costs Certificate
- Advanced Construction Manager Certificate

Construction Management Curriculum

The CM curriculum consists of courses listed under the major categories listed below.

Student Learning Outcomes

Students who successfully complete the CM program are expected to have the ability to:

- Apply knowledge, techniques, skills, and tools of the construction industry in construction activities;
- Select and apply knowledge of mathematics, science, and technology to construction problems;
- Perform standard tests, organize and interpret test data, and apply test results to improve construction processes;
- Function effectively as members or leaders on construction teams;
- Communicate effectively regarding subjects related to construction activities; and
- Demonstrate an understanding of professional and ethical responsibilities.

Outcomes Assessment Activities

- To be eligible for graduation, all construction management majors are required to take an exit examination. The results of the exit examination are used in the evaluation of the program but have no effect on the student's GPA.
- Graduates and their employers are surveyed on program satisfaction and job performance following their graduation.
- The CM Advisory Committee meets every year to review the three year cycle report and make suggestions for program improvement. The committee also meets with current CM students for an open discussion regarding the CM program.

Advanced Construction Manager, Certificate

The Construction Management BS Degree is designed to prepare students for entry level positions in the heavy/civil or Commercial/Residential construction management industry.

Non Construction Management Majors who wish to build their construction management knowledge in various discipline specific areas can obtain a certificate in any of the following Construction Management specialization areas:

Advanced Construction Manager Certificate

Total Credits 12

Recipients of a certificate will gain a deeper understanding of the current major issues effecting the construction industry. The student will be exposed to the important skills and knowledge necessary to be a manager in today's construction industry.

The Advanced Construction Manager Certificate is intended to enhance a current construction industry professional's body of knowledge with
advanced construction industry skills. Interested students must consult with a Construction Management Program approved advisor prior to registration to ensure adequate entry level skills.

**Construction Manager, Certificate**

### Exercise Science, Physical Education, and Recreation Department

Department Chair: Steve McClaran

Faculty: Bowan, Clark, Conroy, Dallam, Rochester

Lecturers: Hanenberg, Marley

The mission of the Department of Exercise Science, Physical Education, and Recreation is to prepare students for professional positions and leadership roles in Exercise Science, Physical Education, Recreation, and Strength and Conditioning through experiential educational opportunities that promote healthy lifestyles. The EXPER department awards:

- A Bachelor of Science degree in Exercise Science, Physical Education, and Recreation (EXPER).
- The BS in Exercise Science, Physical Education, and Recreation (EXPER) program currently includes four emphasis of study:
  - General Exercise Science
  - Physical Education K-12 Teacher Preparation
  - Recreation
  - Strength & Conditioning

### Department Vision

The EXPER Department's vision is to provide students with a broad-based theoretical foundation supported by laboratory and field experiences that allow individual observations, inferences, and hands-on mastery of skills related to the promotion of wellness and healthy lifestyles. This vision is accomplished by creating effective professional learning opportunities based on the following conceptual hierarchy of learning skills: Information Retrieval, Conceptual Understanding, Information Analysis, Critical Thinking, Development of Relevant Skill, and Practical Application of Ideas. In so doing we prepare student to become productive, accountable, ethical, and responsible professionals.

### General Requirements

All departmental Majors are required to:

- Complete an EXPER emphasis of study with a cumulative GPA of 2.50 or higher.
- Earn a 2.0 overall GPA to enroll in 300 or 400 level courses in the department;
- Earn a minimum grade of a “C” in all prerequisite and major courses;
- Repeat prerequisite and major courses with a grade of “D” or lower until a grade of “C” or higher is achieved; and
EXPER Minors

Five minors are available in Exercise Science, Physical Education, and Recreation:

- The Exercise Science minor is available to all non-EXPER majors. This minor is ideal for other majors interested in Exercise Science or Strength and Conditioning.
- The Coaching minor is available to all students and is a great choice for students aspiring to coach.
- The Outdoor Education minor is for students who want to teach adventure education, outdoor skills and lead trips within the educational settings.
- The Recreation minor is available to all non-REC majors. The minor is ideal for those majoring in EXPER, social work, sociology, and biology as well as for students aspiring to teach in public/private schools.
- The Fitness and Recreational Sports Management minor is ideal for business students, community/ commercial recreation students or any student interested in managing fitness and recreational sports facilities.

EXPER minors will:

- Complete the credit hour requirement of the minor;
- Complete all required coursework with a cumulative GPA of 2.5 or higher;
- Earn a minimum grade of a "C" in all minor courses;
- Repeat minor courses with a grade of "D" or lower until a grade of "C" or higher is achieved;
- Possess content knowledge and skills necessary for their perspective fields of study;

- Evaluate and integrate critical concepts and skills acquired in the EXPER program to common professional problems in the fields of interest; and
- Exhibit effective oral and written communication regarding subjects related to EXPER in an individual and group setting.

EXPER Majors

The BS degree in EXPER prepares program graduates for professional positions in worksite, clinical, school, fitness government and community settings.

- Graduates of the General Exercise Science coursework are prepared for exercise and fitness related professional positions. This emphasis is an excellent selection for students preparing for advanced study in fields such as exercise physiology, allied health, or sport administration.
- Graduates of the Physical Education K-12 Teacher Preparation emphasis who also complete the Teacher Education program, and receive a passing score on the Colorado Department of Education PRAXIS. test are eligible to receive Teacher Licensure in the State of Colorado. Licensed graduates can find physical education teaching positions in both the public and private school settings.
- Graduates of the Recreation emphasis are prepared for careers in City and County Recreation Departments, YMCAs, Intramural Sports, Resort & Travel destinations, Rafting Trips, Wilderness Experiences, Youth Camps and Developmental Programs.
- Graduates of the Strength and Conditioning emphasis are prepared to take the National Strength and Conditioning Association certification. Graduates can find employment in fitness and recreation facilities, high school and college athletics and allied health industries.

Exercise Science, Physical Education and Recreation, Bachelor of Science: Physical Education K-12 Teacher Preparation Emphasis

The BS degree in EXPER prepares program graduates for professional positions in worksite, clinical, school, fitness government and community settings.

- Graduates of the Physical Education K-12 Teacher Preparation emphasis who also complete the Teacher Education program, and receive a passing score on the Colorado Department of Education PRAXIS. test are eligible to receive Teacher Licensure in the State of Colorado. Licensed graduates can find physical education teaching positions in both the public and private school settings.

General Requirements

All departmental Majors are required to:

- Complete an EXPER emphasis of study with a cumulative GPA of 2.50 or higher.
- Earn a 2.0 overall GPA to enroll in 300 or 400 level courses in the department;
- Earn a minimum grade of a "C" in all prerequisite and major courses;
- Repeat prerequisite and major courses with a grade of "D" or lower until a grade of "C" or higher is achieved; and
- Earn a cumulative GPA of 2.0 or higher in required English and speech communication courses.

Please see the Teacher Education Program section of this catalog for admission to the Teacher Education Program.
ED 485  Capstone Seminar in Education  1
ED 488  Student Teaching Secondary  12
or ED 489  Student Teaching K-12
Total Credits 3  37-40

1. Music students may take PSYCH 151 Human Development (3 c.h.) or PSYCH 251 Childhood and Adolescence (3 c.h.).
2. Music Education students may complete MUS 103 Music and Computer Technology I (1 c.h.) and MUS 306 Technology for Music Educators (2 c.h.) for ED 280 Educational Media and Technology (3 c.h.).
3. English/Language Arts student must also complete RDG 410 Teaching Reading (3 c.h.)
4. Physical Education students may complete EXHP 465 Adapted Physical Education (3 c.h.) or ED 412 Teaching Diverse Learners (3 c.h.).
5. GPA of 2.6 required

General Education
The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Student Learning Outcomes
Expected student outcomes in Physical Education K-12 Teacher Preparation are based on the six physical education standards from the Society of Health and Physical Educators.

Standard 1: Scientific and Theoretical Knowledge
Standard 2: Skill-Based and Fitness-Based Competence
Standard 3: Planning and Implementation
Standard 4: Instructional Delivery and Management
Standard 5: Impact on Student Learning
Standard 6: Professionalism

Students completing a major in EXPER with an emphasis in Physical Education K-12 Teacher Preparation are required to complete a minor in education and meet all other requirements outlined by the Teacher Education Program.

Students in the Physical Education Teacher Education Program (K-12) will be able to:

• Meet Colorado State University-Pueblo Teacher Education Goals and Beginning Physical Education Teacher Standards (in the areas of knowledge, dispositions, and performance). See links for detail: http://ceeps.csupueblo.edu/TEP/StandardsAndGoals/Pages/default.aspx.
• Be prepared to develop safety plans, teach and adapt lessons in a progressive manner, and meet the needs of diverse learners in the following activities:
  a. Rhythmic Activities,
  b. Tumbling,
  c. Individual Sports,
  d. Dual Sports,
  e. Team Sports,
  f. Fitness Education,
  g. Adventure education, and
  h. Team Sports.

Exercise Science, Physical Education, and Recreation, Bachelor of Science: General Exercise Science Emphasis
The BS degree in EXPER prepares program graduates for professional positions in worksite, clinical, school, fitness government and community settings.

• Graduates of the General Exercise Science coursework are prepared for exercise and fitness related professional positions. This emphasis is an excellent selection for students preparing for advanced study in fields such as exercise physiology, allied health, or sport administration.

General Requirements
All departmental Majors are required to:

• Complete an EXPER emphasis of study with a cumulative GPA of 2.50 or higher.
• Earn a 2.0 overall GPA to enroll in 300 or 400 level courses in the department;
• Earn a minimum grade of a "C" in all prerequisite and major courses;
• Repeat prerequisite and major courses with a grade of "D" or lower until a grade of "C" or higher is achieved; and
• Earn a cumulative GPA of 2.0 or higher in required English and speech communication courses.

### General Education

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.
Student Learning Outcomes
General Exercise Science, Physical Education, Strength and Conditioning and Recreation students will:

- Possess content knowledge and skills necessary for their perspective fields of study;
- Exhibit the ability to read and interpret scientific research with application of the scientific methods, statistics, study design, and reporting;
- Evaluate and integrate critical concepts and skills acquired in the EXPER program to common professional problems in the fields of interest;
- Exhibit effective oral and written communication regarding subjects related to EXPER in an individual and group setting; and
- Apply and demonstrate knowledge, skills and critical problem solving in a field-based setting.

Assessment of EXPER Student/Program Outcomes
The student outcomes are measured and assessed through several techniques:

- End of program case study assessment and end of program examination;
- Fieldwork, internship and student teaching portfolios and projects;
- Internship and student teaching site supervisor evaluations;
- Student exit surveys; and
- Employer surveys and Advisory Committee

End of program exams will be, or will be representative of, the professional certification exams in each emphasis area. Case study questions will be developed by the faculty and EXPER Advisory Committee (made up of professionals in the EXPER field). The end of program exam will be completed during an appropriate field based course at the end of the course of study but before graduation. The EXPER curriculum map details the specific types of assessments used in the capstone and experiential end of program courses to assess the Program’s Student Outcomes.

Upon completion of the EXPE core program requirements, students will be eligible to sit for a variety of nationally recognized certification exams including those offered by the American College of Sports Medicine ("Health/Fitness Instructor", "Personal Trainer", and Exercise Leader"), the American Council on Exercise ("Personal Trainer", and "Aerobics Instructor"), the Aerobics and Fitness Association of America ("Personal Trainer", and "Aerobics Instructor"), and the National Strength and Conditioning Association ("Certified Strength and Conditioning Specialist").

Exercise Science, Physical Education, and Recreation, Bachelor of Science: Recreation Emphasis
The Recreation Emphasis offers two concentration areas to choose from:

- Outdoor Leadership and Wilderness Education
- Recreation Management

Completion of the Recreation emphasis prepares graduates to work in positions of leadership in a variety of recreational service agencies. Prospective employers include parks and recreation departments at the city, county, district, and state levels as well as voluntary youth agencies such as the YWCA/YMCA, boys’ and girls’ clubs and scouting. Other areas of employment include recreation programs in the military, hospital, commercial, and worksite settings as well as hospital and therapeutic settings. Students completing the Recreation Management concentration are eligible to sit for the Certified Park and Recreation Professional (CPRP). Students who participate in the Outdoor Leadership and Wilderness Education concentration have the opportunity to be certified through the Wilderness Education Association as an outdoor leader. This process requires the student to take specific outdoor adventure education courses at CSU-Pueblo, go on at least five extended trips, be a Wilderness First Responder, and lead at least two trips as a student leader.

The BS degree in EXPER prepares program graduates for professional positions in worksite, clinical, school, fitness government and community settings.

- Graduates of the Recreation emphasis are prepared for careers in City and County Recreation Departments, YMCAs, Intramural Sports, Resort & Travel destinations, Rafting Trips, Wilderness Experiences, Youth Camps and Developmental Programs.

General Requirements
All departmental Majors are required to:

- Complete an EXPER emphasis of study with a cumulative GPA of 2.50 or higher.
- Earn a 2.0 overall GPA to enroll in 300 or 400 level courses in the department;
- Earn a minimum grade of a “C” in all prerequisite and major courses;
- Repeat prerequisite and major courses with a grade of “D” or lower until a grade of “C” or higher is achieved; and
- Earn a cumulative GPA of 2.0 or higher in required English and speech communication courses.

### General Education

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

### Student Learning Outcomes

General Exercise Science, Physical Education, Strength and Conditioning and Recreation students will:

- Possess content knowledge and skills necessary for their perspective fields of study;
- Exhibit the ability to read and interpret scientific research with application of the scientific methods, statistics, study design, and reporting;
- Evaluate and integrate critical concepts and skills acquired in the EXPER program to common professional problems in the fields of interest;
- Exhibit effective oral and written communication regarding subjects related to EXPER in an individual and group setting; and
- Apply and demonstrate knowledge, skills and critical problem solving in a field-based setting.
Assessment of EXPER Student/Program Outcomes

The student outcomes are measured and assessed through several techniques:

- End of program case study assessment and end of program examination;
- Fieldwork, internship and student teaching portfolios and projects;
- Internship and student teaching site supervisor evaluations;
- Student exit surveys; and
- Employer surveys and Advisory Committee

End of program exams will be, or will be representative of, the professional certification exams in each emphasis area. Case study questions will be developed by the faculty and EXPER Advisory Committee (made up of professionals in the EXPER field). The end of program exam will be completed during an appropriate field based course at the end of the course of study but before graduation. The EXPER curriculum map details the specific types of assessments used in the capstone and experiential end of program courses to assess the Program's Student Outcomes.

Upon completion of the EXPE core program requirements, students will be eligible to sit for a variety of nationally recognized certification exams including those offered by the American College of Sports Medicine (“Health/Fitness Instructor”, “Personal Trainer”, and Exercise Leader”), the American Council on Exercise (“Personal Trainer”, and “Aerobics Instructor”), the Aerobics and Fitness Association of America (“Personal Trainer”, and “Aerobics Instructor”), and the National Strength and Conditioning Association (“Certified Strength and Conditioning Specialist”).

Exercise Science, Physical Education, and Recreation, Bachelor of Science: Strength & Conditioning Emphasis

The Strength and Conditioning emphasis is designed from the National Strength and Conditioning Association standards including course work from:

- human anatomy and physiology,
- exercise physiology,
- kinesiology/biomechanics,
- nutrition, scientific
- principles of strength and conditioning
- exercise technique/exercise prescription with emphasis in anaerobic exercise,
- and program design as related to strength and conditioning.

The BS degree in EXPER prepares program graduates for professional positions in worksite, clinical, school, fitness government and community settings.

- Graduates of the Strength and Conditioning emphasis are prepared to take the National Strength and Conditioning Association certification. Graduates can find employment in fitness and recreation facilities, high school and college athletics and allied health industries.

General Requirements

All departmental Majors are required to:

- Complete an EXPER emphasis of study with a cumulative GPA of 2.50 or higher.
- Earn a 2.0 overall GPA to enroll in 300 or 400 level courses in the department;
- Earn a minimum grade of a "C" in all prerequisite and major courses;
- Repeat prerequisite and major courses with a grade of "D" or lower until a grade of "C" or higher is achieved; and
- Earn a cumulative GPA of 2.0 or higher in required English and speech communication courses.

General Education
The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Student Learning Outcomes
General Exercise Science, Physical Education, Strength and Conditioning and Recreation students will:

• Possess content knowledge and skills necessary for their perspective fields of study;
• Exhibit the ability to read and interpret scientific research with application of the scientific methods, statistics, study design, and reporting;
• Evaluate and integrate critical concepts and skills acquired in the EXPER program to common professional problems in the fields of interest;
• Exhibit effective oral and written communication regarding subjects related to EXPER in an individual and group setting; and
• Apply and demonstrate knowledge, skills and critical problem solving in a field-based setting.

Assessment of EXPER Student/Program Outcomes
The student outcomes are measured and assessed through several techniques:

• End of program case study assessment and end of program examination;
• Fieldwork, internship and student teaching portfolios and projects;
• Internship and student teaching site supervisor evaluations;
• Student exit surveys; and
• Employer surveys and Advisory Committee

End of program exams will be, or will be representative of, the professional certification exams in each emphasis area. Case study questions will be developed by the faculty and EXPER Advisory Committee (made up of professionals in the EXPER field). The end of program exam will be completed during an appropriate field based course at the end of the course of study but before graduation. The EXPER curriculum map details the specific types of assessments used in the capstone and experiential end of program courses to assess the Program's Student Outcomes.

Upon completion of the EXPE core program requirements, students will be eligible to sit for a variety of nationally recognized certification exams including those offered by the American College of Sports Medicine (“Health/Fitness Instructor”, “Personal Trainer”, and Exercise Leader), the American Council on Exercise (“Personal Trainer”, and "Aerobics Instructor”), the Aerobics and Fitness Association of America (“Personal Trainer”, and "Aerobics Instructor”), and the National Strength and Conditioning Association (“Certified Strength and Conditioning Specialist”).

Exercise Science, Minor
Specific Requirement for Exercise Science Minor

• Complete the credit hour requirement of the minor;
• Complete all required coursework with a cumulative GPA of 2.5 or higher;
• Earn a minimum grade of a ‘C’ in all minor courses;
• Repeat minor courses with a grade of ‘D’ or lower until a grade of ‘C’ or higher is achieved;
• Possess content knowledge and skills necessary for their perspective fields of study;
• Evaluate and integrate critical concepts and skills acquired in the EXPER program to common professional problems in the fields of interest; and
• Exhibit effective oral and written communication regarding subjects related to EXPER in an individual and group setting.

Total Credits 15

School of Nursing and Health Sciences

Associate Dean: Dr. Joe Franta

The School of Nursing and Health Sciences provides a unique environment for learning. Whether your focus is health promotion and wellness or illness care and disease prevention, our programs can lead you to careers as a professional to positively impact health care.

Nursing
Graduate Coordinator: Dr. Susan Belport

Undergraduate Coordinator: Dr. Ruth DePalma

Faculty: Bajah, Belpot, Coram, DePalma, Edwards, Heintzelman, Holthaus, Imes, Jackson-Howard, Murtagh, Nichols, Persons, Van Winkle, Whetzel

School of Nursing Mission

The mission of the School of Nursing is to prepare graduates for professional positions as safe, competent, and caring nurses to meet the healthcare needs of diverse populations.

School of Nursing Goals

The School of Nursing will:

- Provide quality learning experiences for nursing students that prepare graduates for entry level baccalaureate nursing practice or advanced nursing practice in a culturally diverse community.
- Provide multiple degree entry paths based on previous education and academic entrance criteria that support student achievement at a professional level.
- Serve as a regional nursing education center for southern Colorado, by collaborating with local and regional health care agencies to provide nursing programs.
- Maintain educational excellence demonstrated by program status consistent with the Colorado Board of Nursing, national accrediting agency criteria and educational emphases on professional nursing standards.
- Provide a supportive and caring learning environment to address the learning needs for a diverse student population.
- Support role development responsive to the changing health care environment by redefining and maintaining competencies throughout one’s practice.

The School of Nursing awards three degrees with multiple emphases:

The Doctor of Nursing Practice (DNP) emphases:
- Adult/Gerontology Acute Care Nurse Practitioner (AGACNP)
- Adult/Gerontology Acute Care/Family Nurse Practitioner (AGACNP/FNP)
- Psychiatric-Mental Health Nurse Practitioner (PMHNP)
- MS (Nursing) to DNP Population Health

The Masters (MS) with a Major in Nursing Emphases:
- Adult/Gerontology Acute Care Nurse Practitioner (AGACNP)
- Adult/Gerontology Acute Care/Family Nurse Practitioner (AGACNP/FNP)
- Psychiatric-Mental Health Nurse Practitioner (PMHNP)
- Nurse Educator

*All graduate emphases can be completed with a Post MS Certificate

A Bachelor of Science degree in Nursing (BSN). The BSN can be completed through:
- The basic (traditional) program
- The accelerated program (those with a previous non-nursing baccalaureate degree
- The RN (ADN) to BSN or MS online program
National Accreditation
The CSU-Pueblo School of Nursing baccalaureate educational program is fully accredited by the:

Accreditation Commission for Education in Nursing (ACEN)
3343 Peachtree Rd NE, Suite 850
Atlanta, GA 30326

State Board Approval
The CSU-Pueblo School of Nursing baccalaureate educational program is fully approved by the Colorado Board of Nursing.

Colorado Community College System or Compact State Dual Enrollment/ADN to BSN
BSN courses may be taken concurrently while enrolled in a Colorado compact state or a Colorado Community College System ADN program. In addition, pre-requisite courses may be taken while concurrently enrolled. Upon receiving RN licensure and completion of all BSN courses students are eligible for escrow credits through articulation.

Health Sciences
Health Sciences Director: Dr. Carol Foust
Faculty: R. Clark, Foust, Kies-Boklema, Pickerill
The mission of the Bachelor of Science in Health Science is to prepare students for jobs in public health, athletic training and other allied health careers as well as prepare students for admission to the undergraduate BSN degree, accelerated nursing program, Master in Athletic Training and graduate school at other institutions in a variety of health science related degree such as the Master of Science in Nursing, Master of Science in Athletic Training, Master of Public Health, Master of Occupational Therapy, Doctorate of Physical Therapy. The program is also an excellent degree path for individuals who already have a two year allied health degree to bridge them to a Bachelor of Science degree in Health Science. This degree will allow students to earn credentials to move seamlessly into careers with clinics, academic institutions, laboratories, government and community and private agencies and professional sports teams.

The HS department awards two degrees:
A Bachelor of Science degree in Health Science.
The BS in Health Science (HS) program currently includes four emphasis of study:

- General Health Science
- Pre-Athletic Training
- Pre-Nursing
- Public Health

A Master’s Degree in Athletic Training.
- 3+2 Athletic Training (MS)

Department Vision
The HS Department’s vision is to provide students with a broad-based theoretical foundation supported by laboratory and field experiences that allow individual observations, inferences, and hands-on mastery of skills related to the promotion of healthy lifestyles. This vision is accomplished by creating effective professional learning opportunities based on the following conceptual hierarchy of learning skills: Information Retrieval, Conceptual Understanding, Information Analysis, Critical Thinking, Development of Relevant Skill, and Practical Application of Ideas. In so doing we prepare student to become productive, accountable, ethical, and responsible professionals.

- Athletic Training 3+2 Plan, Joint Bachelor of Science/Master of Science (p. 147)
- Athletic Training, Master of Science (p. 146)
- Health Sciences, Bachelor of Science: General Health Science Emphasis (p. 150)
- Health Sciences, Bachelor of Science: Pre-Athletic Training Emphasis (p. 148)
- Health Sciences, Bachelor of Science: Public Health Emphasis (p. 152)
- Health Sciences, Pre-Nursing Emphasis (p. 153)
- Nurse Educator, Certificate (p. 139)
- Nurse Educator, Post Masters Certification (p. 138)
- Nursing, Bachelor of Science in Nursing (p. 142)
- Nursing, Doctor of Nursing Practice: Adult/Gerontology Acute Care Nurse Practitioner Emphasis (p. 128)
- Nursing, Doctor of Nursing Practice: Adult/Gerontology Acute Care/Family Nurse Practitioner Emphasis (p. 125)
- Nursing, Doctor of Nursing Practice: Population Health, Emphasis (p. 129)
- Nursing, Doctor of Nursing Practice: Psychiatric-Mental Health Nurse Practitioner Emphasis (p. 131)
- Nursing, Joint Bachelor of Science in Nursing/Nursing, Master of Science: Nurse Educator Emphasis (p. 141)
- Nursing, Master of Science: Adult/Gerontology Acute Care Nurse Practitioner Emphasis (p. 134)
- Nursing, Master of Science: Adult/Gerontology Acute Care/ Family Nurse Practitioner Emphasis (p. 133)
- Nursing, Master of Science: Nurse Educator Emphasis (p. 136)
- Nursing, Master of Science: Psychiatric-Mental Health Nurse Practitioner Emphasis (p. 137)
- Nursing-Adult/Gerontology Acute Care Nurse Practitioner, Post Masters Certification (p. 140)
- Nursing-Adult/Gerontology Acute Care/Family Nurse Practitioner, Post Masters Certification (p. 140)
- Nursing-Psychiatric-Mental Health Nurse Practitioner, Post Masters Certification (p. 139)

Nursing, Doctor of Nursing Practice: Adult/Gerontology Acute Care/Family Nurse Practitioner Emphasis
The Doctor of Nursing Practice (DNP) degree is designed to prepare nurses for the highest level of clinical practice in the profession of nursing. Graduates are prepared to create and lead new models of health care delivery for communities locally, across the nation and around the world. The DNP program is innovative, inter/intra-professional and focuses on evidence-based health care. The program maximizes the use of hybrid delivery methods for enhanced learning and increased course accessibility. (To read more about the DNP, visit
This program prepares students to provide evidence-based, safe, quality patient-centered care in a variety of chronic, acute, and emergent care settings. Students will also be prepared for primary care practice across the lifespan. The graduate will be eligible to take the Adult/Gerontology Acute Care Nurse Practitioner certification examination and Family Nurse Practitioner certification examination.

Some states require a specific master’s degree to practice as a nurse practitioner; therefore, a concurrent Master of Science with a major in Nursing will be awarded with completion of the DNP.

The School of Nursing also offers the post graduate certificate for DNP-prepared nurses. The plan of study is individualized based on academic completion and requirements.

### School of Nursing Mission

The mission of the School of Nursing is to prepare graduates for professional positions as safe, competent, and caring nurses to meet the health care needs of diverse populations.

### Acceptance of Transfer Credits

Transfer credit will be awarded per the published Graduate Programs section of the University catalog. A maximum of nine semester hours of transfer credits from an accredited institution may be applied to the degree with approval from the graduate nursing program coordinator.

### Time Limits

Courses completed 6 or more years before the date of graduation will not be accepted as satisfying graduation requirements without the approval by the graduate nursing program coordinator.

### Admission Criteria

**BSN or MS (Nursing) to DNP or Post Masters Certification**

Students are responsible for following all admission policies and procedures as outlined in the Graduate Programs section of the University catalog.

1. Baccalaureate degree in nursing from an institution accredited by a regional accreditation agency (or equivalent).
2. Undergraduate BSN cumulative GPA of 3.0 or higher will consider courses with a graduate nursing GPA of 3.0 or higher.
3. Undergraduate statistics course with a grade of C or higher.
4. Application for admission to graduate programs in the university Office of Admission (admission to graduate programs does not constitute admission to the nursing graduate program).
5. Proof of active, unrestricted Colorado Registered Nurse license by the end of the first semester of the program.
6. Background check per Colorado Law (see application).
8. Current certification in CPR (Health Care Provider – C or equivalent).
9. Three letters of recommendation:
   a. Professional or Academic
   b. Clinical
   c. Other
10. Letter of intent that includes:
    a. Brief professional history
    b. Reason for pursuing advanced degree
    c. How applicant will manage work, home, and study

### Curriculum Vitae

(Use the template located under Graduate Nursing Student Application Instructions on the website)

Preference for acceptance will be given to applicants who have:

1. 2000 Hours (1 year full-time) experience as a registered nurse (AGACNP, AGACNP/FNP and PMHNP emphases only).
2. One year or more of experience as a clinical adjunct instructor (Nurse Educator only)
3. Residency in Southern Colorado
4. Graduate from CSU-Pueblo

If accepted into a program, requirements prior to attending first class include:

1. Drug screen
2. Physical exam within last 12 months

### Graduation Requirements for DNP

The graduate degree will be granted to candidates who meet all of the University catalog requirements plus the following:

1. Graduate cumulative GPA of 3.0 or better.
2. All courses must be passed with a B or better.
3. Completed and approved DNP Project Practicum.

### Adult/Gerontology Acute Care/Family Nurse Practitioner Emphasis (AGACNP/FNP)

# Program Outcomes

1. Eighty percent of graduates will:
   - Complete the program within one and one-half times the length of the program
   - Express satisfaction with the program
   - Pass national certification exam the first time
   - Be employed in role-related professional practice within six months to one year

2. Eighty percent of employers’ will express satisfaction with graduates’ job performance.

## DNP Graduate Student Learning Outcomes

At the completion of this program, graduates will be able to:

1. Integrate evidence-based practice, ethical decision making and technology into advanced nursing practice
2. Conduct scholarly inquiry to influence health outcomes of individuals, aggregates and populations
3. Organize interprofessional collaboration to provide safe, quality patient-centered care.
4. Assume a leadership role in transforming health care systems, policies and standards of care

The School of Nursing offers the DNP for the:

- Baccalaureate-prepared registered nurse
- Master-prepared nurse practitioner who is certified in adult/geriatric acute care, family or psychiatric-mental health
- Post-master’s registered nurse

### Seeking Candidacy for the DNP from:

Accreditation Commission for Education in Nursing (ACEN)
3343 Peachtree Road NE, Suite 850
Atlanta, Georgia 30326
Phone: (404) 975-5000
Fax: (404) 975-5020

---

1. Family Nurse Practitioner students must complete a total of 13 semester hours of Family Practicum, the recommended sequence to graduate in eleven semesters is: Summer (Year 2) NSG 636L FNP Practicum (1-13 c.h.) – 1 semester hours, /Fall (Year 3) NSG 636L – 2 semester hours /Spring (Year 3) NSG 636L FNP Practicum (1-13 c.h.) – 2 semester hours, /Summer (Year 3) NSG 636L FNP Practicum (1-13 c.h.) – 1 semester hours. /Fall (Year 4) NSG 636L FNP Practicum (1-13 c.h.)-2 semester hours/Spring (Year 4) NSG 807L Final DNP Practicum AGACNP/FNP (10 c.h.)-4 semester hours. Students are required to take a minimum of 1 semester hour of Family Practicum starting summer of Year 2, a change to the degree plan must be approved by the Graduate Nursing Program Coordinator.
Nursing, Doctor of Nursing Practice: Adult/Gerontology Acute Care Nurse Practitioner Emphasis

The Doctor of Nursing Practice (DNP) degree is designed to prepare nurses for the highest level of clinical practice in the profession of nursing. Graduates are prepared to create and lead new models of health care delivery for communities locally, across the nation and around the world. The DNP program is innovative, inter-/intra-professional and focuses on evidence-based health care. The program maximizes the use of hybrid delivery methods for enhanced learning and increased course accessibility. (To read more about the DNP, visit the American Association of Colleges of Nursing website: https://www.aacnnursing.org/)

This program prepares students to provide evidence-based, safe, quality patient-centered care in a variety of chronic, acute, and emergent care settings. The graduate will be eligible to take the Adult/Gerontology Acute Care Nurse Practitioner certification examination.

Some states require a specific master's degree to practice as a nurse practitioner; therefore, a concurrent Master of Science with a major in Nursing will be awarded with completion of the DNP.

The School of Nursing also offers the post graduate certificate for DNP-prepared nurses. The plan of study is individualized based on academic completion and requirements.

School of Nursing Mission

The mission of the School of Nursing is to prepare graduates for professional positions as safe, competent, and caring nurses to meet the health care needs of diverse populations.

Acceptance of Transfer Credits

Transfer credit will be awarded per the published Graduate Programs section of the University catalog. A maximum of nine semester hours of transfer credits from an accredited institution may be applied to the degree with approval from the graduate nursing program coordinator.

Time Limits

Courses completed 6 or more years before the date of graduation will not be accepted as satisfying graduation requirements without the approval by the graduate nursing program coordinator.

Admission Criteria

BSN or MS (Nursing) to DNP or Post Masters Certification

Students are responsible for following all admission policies and procedures as outlined in the Graduate Programs section of the University catalog. 

1. Baccalaureate degree in nursing from an institution accredited by a regional accreditation agency (or equivalent).
2. Undergraduate BSN cumulative GPA of 3.0 or higher will consider courses with a graduate nursing GPA of 3.0 or higher.
3. Undergraduate statistics course with a grade of C or higher.
4. Application for admission to graduate programs in the university Office of Admission (admission to graduate programs does not constitute admission to the nursing graduate program).
5. Proof of active, unrestricted Colorado Registered Nurse license by the end of the first semester of the program.
6. Background check per Colorado Law (see application).
8. Current certification in CPR (Health Care Provider – C or equivalent).
9. Three letters of recommendation:
   a. Professional or Academic
   b. Clinical
   c. Other
10. Letter of intent that includes:
    a. Brief professional history
    b. Reason for pursuing advanced degree
    c. How applicant will manage work, home, and study
11. Curriculum Vitae

(Use the template located under Graduate Nursing Student Application Instructions on the website)

Preference for acceptance will be given to applicants who have:
1. 2000 Hours (1 year full-time) experience as a registered nurse (AGACNP, AGACNP/FNP and PMHNP emphases only).
2. One year or more of experience as a clinical adjunct instructor (Nurse Educator only)
3. Residency in Southern Colorado
4. Graduate from CSU-Pueblo

If accepted into a program, requirements prior to attending first class include:

1. Drug screen
2. Physical exam within last 12 months

Graduation Requirements for DNP

The graduate degree will be granted to candidates who meet all of the University catalog requirements plus the following:

1. Graduate cumulative GPA of 3.0 or better.
2. All courses must be passed with a B or better.
3. Completed and approved DNP Project Practicum.

### Program Outcomes

1. Eighty percent of graduates will:
   - Complete the program within one and one-half times the length of the program
   - Express satisfaction with the program
   - Pass national certification exam the first time
   - Be employed in role-related professional practice within six months to one year

2. Eighty percent of employers' will express satisfaction with graduates' job performance.

### DNP Graduate Student Learning Outcomes

At the completion of this program, graduates will be able to:

1. Integrate evidence-based practice, ethical decision making and technology into advanced nursing practice
2. Conduct scholarly inquiry to influence health outcomes of individuals, aggregates and populations
3. Organize interprofessional collaboration to provide safe, quality patient-centered care.
4. Assume a leadership role in transforming health care systems, policies and standards of care

The School of Nursing offers the DNP for the:

- Baccalaureate-prepared registered nurse
- Master-prepared nurse practitioner who is certified in adult/geriatric acute care, family or psychiatric-mental health
- Post-master's registered nurse

### Seeking Candidacy for the DNP from:

Accreditation Commission for Education in Nursing (ACEN)
3343 Peachtree Road NE, Suite 850
Atlanta, Georgia 30326
Phone: (404) 975-5000
Fax: (404) 975-5020

### Nursing, Doctor of Nursing Practice: Population Health, Emphasis

The Doctor of Nursing Practice (DNP) degree is designed to prepare nurses for the highest level of clinical practice in the profession of nursing. Graduates are prepared to create and lead new models of health care delivery for communities locally, across the nation and around the world. The DNP program is innovative, inter-/intra-professional and focuses on evidence-based health care. The program maximizes the use of hybrid delivery methods for enhanced learning and increased course accessibility. (To read more about the DNP, visit the American Association of Colleges of Nursing website: https://www.aacnnursing.org/)

Some states require a specific master's degree to practice as a nurse practitioner; therefore, a concurrent Master of Science with a major in Nursing will be awarded with completion of the DNP.
The School of Nursing also offers the post graduate certificate for DNP-prepared nurses. The plan of study is individualized based on academic completion and requirements.

**School of Nursing Mission**

The mission of the School of Nursing is to prepare graduates for professional positions as safe, competent, and caring nurses to meet the health care needs of diverse populations.

**Acceptance of Transfer Credits**

Transfer credit will be awarded per the published Graduate Programs section of the University catalog. A maximum of nine semester hours of transfer credits from an accredited institution may be applied to the degree with approval from the graduate nursing program coordinator.

**Time Limits**

Nursing, Doctor of Nursing Practice: Psychiatric-Mental Health Nurse Practitioner Emphasis
The Doctor of Nursing Practice (DNP) degree is designed to prepare nurses for the highest level of clinical practice in the profession of nursing. Graduates are prepared to create and lead new models of health care delivery for communities locally, across the nation and around the world. The DNP program is innovative, inter-/intra-professional and focuses on evidence-based health care. The program maximizes the use of hybrid delivery methods for enhanced learning and increased course accessibility. (To read more about the DNP, visit the American Association of Colleges of Nursing website: https://www.aacnnursing.org/)

This program will prepare students to provide advanced evidence-based patient-centered care psychiatric and mental health patients across the lifespan. The graduate will be eligible to take the Psychiatric-Mental Health Nurse Practitioner certification examination.

Some states require a specific master’s degree to practice as a nurse practitioner; therefore, a concurrent Master of Science with a major in Nursing will be awarded with completion of the DNP.

The School of Nursing also offers the post graduate certificate for DNP-prepared nurses. The plan of study is individualized based on academic completion and requirements.

School of Nursing Mission
The mission of the School of Nursing is to prepare graduates for professional positions as safe, competent, and caring nurses to meet the health care needs of diverse populations.

At the completion of this program, graduates will be able to:

1. Integrate evidence-based practice, ethical decision making and technology into advanced nursing practice
2. Conduct scholarly inquiry to influence health outcomes of individuals, aggregates and populations
3. Organize interprofessional collaboration to provide safe, quality patient-centered care.
4. Assume a leadership role in transforming health care systems, policies and standards of care

The School of Nursing offers the DNP for the:

- Baccalaureate-prepared registered nurse
- Master-prepared nurse practitioner who is certified in adult/geriatric acute care, family or psychiatric-mental health
- Post-master’s registered nurse

Seeking Candidacy for the DNP from:

Accreditation Commission for Education in Nursing (ACEN)
3343 Peachtree Road NE, Suite 850
Atlanta, Georgia 30326
Phone: (404) 975-5000
Fax: (404) 975-5020

Nursing, Master of Science: Adult/Gerontology Acute Care/Family Nurse Practitioner Emphasis

This program prepares students to provide evidence-based, safe, quality patient-centered care in a variety of chronic, acute, and emergent care settings. Students will also be prepared for primary care practice across the lifespan. The graduate will be eligible to take the Adult/Gerontology Acute Care Nurse Practitioner certification examination and Family Nurse Practitioner certification examination. The following courses are required:

School of Nursing Mission

The mission of the School of Nursing is to prepare graduates for professional positions as safe, competent, and caring nurses to meet the health care needs of diverse populations.

Acceptance of Transfer Credits

Transfer credit will be awarded per the published Graduate Programs section of the University catalog. A maximum of nine semester hours of transfer credits from an accredited institution may be applied to the degree with approval from the graduate nursing program coordinator.

Time Limits

Courses completed 6 or more years before the date of graduation will not be accepted as satisfying graduation requirements without the approval by the graduate nursing program coordinator.

Graduation Requirements for MS

The graduate degree will be granted to candidates who meet all of the University catalog requirements plus the following:

1. Graduate cumulative GPA of 3.0 or better.
2. All courses must be passed with a B or better.
3. Completed oral comprehensive exam or directed research or thesis.

If choosing to complete a directed research project or thesis you will need to contact the Graduate Nursing Program Coordinator by the end of your second semester.
1. NSG 636L FNP Practicum (1-3 c.h.) is a variable credit course. Students must complete a total of 13 credit (585) hours of Family NP Practicum in the required sequence during the seven semester program: Fall (Year 2) – 3 semester hours, Spring (Year 2) – 3 semester hours, Summer (Year 2) – 3 semester hours and Fall (Year 3) – 4 credits. In addition, students must complete a total of 13 credit (585) hours of Adult-Gerontology Acute Care NP Practicum in seven semesters in the required sequence.

2. NSG 646L AGACNP Practicum MS (1-3 c.h.) is a variable credit course. Students must complete 1 credit each semester for three seminars in the required sequence for a total of 3 credits during the seven semester program. The additional practicum credits are required: Summer (Year 1) NSG 641L—1 cr., Fall (Year 2) 642L—3 cr., Spring (Year 2) 643L—2 cr., Summer (Year 2) 644L 1 cr., Fall (Year 3) 645L—2 cr. Students must complete a total of 13 credit (585) hours of Adult-Gerontology Acute Care NP Practicum in seven semesters.

¹ NSG 504 NSG Writing & Presentation Skills (1 c.h.) is an optional elective to assist students in graduate writing. Graduate level writing is required in the graduate nursing program. This course is highly encouraged for all graduate nursing students.

² NSG 505 Biostatistics & Research (3 c.h.) is an optional elective to assist students in graduate level statistics.

³ NSG 575 Curriculum Development (3 c.h.), NSG 576 Instructional Strategies (3 c.h.), NSG 577 Assessment & Evaluation (3 c.h.) Nurse Educator Courses. Discuss with your Graduate Nursing Advisor about the Online Nursing Educator Certificate and MS Nurse Educator program option.

⁴ NSG 593 Thesis Seminar (3 c.h.), NSG 599 Thesis Research (1-6 c.h.) Thesis is one of three options minimum to complete the university master’s degree graduation requirements. A minimum of 9 credits is required for a thesis option.

Program Outcomes

1. Eighty percent of graduates will:
   - Complete the program within one and one-half times the length of the program
   - Express satisfaction with the program
   - Pass national certification exam the first time
   - Be employed in role-related professional practice within six months to one year

2. Eighty percent of employers will express satisfaction with graduates’ job performance.

Expected Student Learning Outcomes for Masters Programs

At the completion of the program, graduates will be able to:

1. Integrate evidence-based practice, ethical decision making and technology into advanced nursing practice.

2. Utilize interprofessional collaboration to provide safe, quality patient-centered care.

3. Explore quality improvement initiatives that affect delivery of advanced nursing practice and health care services.

Nursing, Master of Science: Nurse Educator Emphasis
The School of Nursing offers the Master of Science degree with a major in nursing emphasis Nurse Educator. Master’s-prepared nurses may complete a post graduate certificate in the nurse educator emphasis. This program prepares the nurse to practice as faculty in colleges, universities, hospital-based schools of nursing or technical schools, or as staff development educators in health care facilities. Nurse educators serve as role models and provide leadership needed to implement evidence-based practice. These leaders document the outcomes of educational programs and guide students through the learning process. The shortage of nurse educators may enhance career prospects since it affords job security and provides opportunities for nurses to maintain dual roles as educators and direct patient care providers. The graduate will be eligible to take the National League for Nursing Certified Nurse Educator Examination. Master’s-prepared nurses may complete a post graduate certificate in the nurse educator emphasis. The following courses are required.

Nursing Mission
The mission of the School of Nursing is to prepare graduates for professional positions as safe, competent and caring nurses to meet the healthcare needs of diverse populations.

Acceptance of Transfer Credits
Transfer credit will be awarded per the published Graduate Programs section of the University catalog. Nine semester hours of transfer credits from an accredited institution may be applied to the degree with approval of the graduate program coordinator.

Nurse Educator, Post Masters Certification

BSN or MS (Nursing) to DNP or Post Masters Certification

Students are responsible for following all admission policies and procedures as outlined in the Graduate Programs section of the University catalog.

1. Baccalaureate degree in nursing from an institution accredited by a regional accreditation agency (or equivalent).

2. Undergraduate BSN cumulative GPA of 3.0 or higher will consider courses with a graduate nursing GPA of 3.0 or higher.

3. Undergraduate statistics course with a grade of C or higher.

4. Application for admission to graduate programs in the university Office of Admission (admission to graduate programs does not constitute admission to the nursing graduate program).

5. Proof of active, unrestricted Colorado Registered Nurse license by the end of the first semester of the program.

6. Background check per Colorado Law (see application).

8. Current certification in CPR (Health Care Provider – C or equivalent).

---

1. NSG 504 NSG Writing & Presentation Skills (1 c.h.) is an optional elective to assist students in graduate writing. Graduate level writing is required in the graduate nursing program. **This course is highly encouraged for all graduate nursing students.**

2. NSG 505 Biostatistics & Research (3 c.h.) is an optional elective to assist students in graduate level statistics.

3. NSG 575 Curriculum Development (3 c.h.), NSG 576 Instructional Strategies (3 c.h.), NSG 577 Assessment & Evaluation (3 c.h.) Nurse Educator Courses. Discuss with your Graduate Nursing Advisor about the Online Nursing Educator Certificate and MS Nurse Educator program option.

4. NSG 593 Thesis Seminar (3 c.h.) & NSG 599 Thesis Research (1-6 c.h.).Thesis is one of three options minimum to complete the university master’s degree graduation requirements. A minimum of 9 credits is required for a thesis option.
a. Professional or Academic  
b. Clinical  
c. Other  
10. Letter of intent that includes:  
a. Brief professional history  
b. Reason for pursuing advanced degree  
c. How applicant will manage work, home, and study  
11. Curriculum Vitae  
(Use the template located under Graduate Nursing Student Application Instructions on the website)  
Preference for acceptance will be given to applicants who have:  
1. 2000 Hours (1 year full-time) experience as a registered nurse (AGACNP, AGACNP/FNP and PMHNP emphases only).  
2. One year or more of experience as a clinical adjunct instructor (Nurse Educator only)  
3. Residency in Southern Colorado  
4. Graduate from CSU-Pueblo  
If accepted into a program, requirements prior to attending first class include:  
1. Drug screen  
2. Physical exam within last 12 months  

Students seeking post masters’ certification or DNP Degree in the program who already have a nursing graduate degree are evaluated on an individual basis. Their plan of study is based on their academic credentials. A student must complete a minimum of 15 postgraduate credit hours at CSU-Pueblo to be eligible for a post masters certification. Core courses must be completed to meet the mandates of the Colorado State Board of Nursing for Advanced Nursing Practice. A total of 585 clinical hours must be documented for each nurse practitioner emphasis. The student’s plan is developed based on the academic course work already completed.

Nurse Educator, Certificate  
This nine (9) credit online certificate program is open to any nurse with a BSN degree or higher who wants further their knowledge and skills for nursing education.

These certificate courses will transfer (six-year time limit) to the CSU-Pueblo Master of Science major Nursing, Nurse Educator Emphasis.

Nursing-Psychiatric-Mental Health Nurse Practitioner, Post Masters Certification  

BSN or MS (Nursing) to DNP or Post Masters Certification  
Students are responsible for following all admission policies and procedures as outlined in the Graduate Programs section of the University catalog.

1. Baccalaureate degree in nursing from an institution accredited by a regional accreditation agency (or equivalent).  
2. Undergraduate BSN cumulative GPA of 3.0 or higher will consider courses with a graduate nursing GPA of 3.0 or higher.  
3. Undergraduate statistics course with a grade of C or higher.  
4. Application for admission to graduate programs in the university Office of Admission (admission to graduate programs does not constitute admission to the nursing graduate program).  
5. Proof of active, unrestricted Colorado Registered Nurse license by the end of the first semester of the program.  
6. Background check per Colorado Law (see application).  
8. Current certification in CPR (Health Care Provider – C or equivalent).  
9. Three letters of recommendation:  
a. Professional or Academic  
b. Clinical  
c. Other  
10. Letter of intent that includes:  
a. Brief professional history  
b. Reason for pursuing advanced degree  
c. How applicant will manage work, home, and study  
11. Curriculum Vitae  
(Use the template located under Graduate Nursing Student Application Instructions on the website)  
Preference for acceptance will be given to applicants who have:  
1. 2000 Hours (1 year full-time) experience as a registered nurse (AGACNP, AGACNP/FNP and PMHNP emphases only).  
2. One year or more of experience as a clinical adjunct instructor (Nurse Educator only)  
3. Residency in Southern Colorado  
4. Graduate from CSU-Pueblo  
If accepted into a program, requirements prior to attending first class include:  
1. Drug screen

1. Drug screen
2. Physical exam within last 12 months

Students seeking post masters’ certification or DNP Degree in the program who already have a nursing graduate degree are evaluated on an individual basis. Their plan of study is based on their academic
Nursing, Joint Bachelor of Science in Nursing/Nursing, Master of Science: Nurse Educator Emphasis

The School of Nursing offers the Master of Science degree with a major in nursing emphasis Nurse Educator. Master’s-prepared nurses may complete a post graduate certificate in the nurse educator emphasis. This program prepares the nurse to practice as faculty in colleges, universities, hospital-based schools of nursing or technical schools, or as staff development educators in health care facilities. Nurse educators serve as role models and provide leadership needed to implement evidence-based practice. These leaders document the outcomes of educational programs and guide students through the learning process. The shortage of nurse educators may enhance career prospects since it affords job security and provides opportunities for nurses to maintain dual roles as educators and direct patient care providers. The graduate will be eligible to take the National League for Nursing Certified Nurse Educator Examination. Master’s-prepared nurses may complete a post graduate certificate in the nurse educator emphasis. The following courses are required.

RN (ADN) to MS (Nursing-Nurse Educator) Emphasis

Associate degree RNs may apply for a continuous pathway to receive the BSN and the MS (Nursing) in the Nurse Educator emphasis. Students who have completed all of the BSN prerequisites can complete their master’s degree in 48 credits.

RN (ADN) to MS (Nursing) Pathway

Associate degree RNs may apply for a continuous pathway to receive the MS (Nursing) Nurse Educator emphasis Admission requirements for the RN-(ADN) to BSN and RN (ADN) MS (Nursing) programs must be met to enter this pathway.

RN-MS (Nursing) Degree Requirements

The student must confer with the RN-MS (Nursing) advisor to develop a degree plan. The RN-MS (Nursing) option will include 33 credit hours through articulation, 57 credit hours of prerequisite or co-requisite courses and 48 credit hours of nursing and approved elective courses for a total of 138 credit hours. Students must pass all nursing courses with a B or better and maintain a nursing 3.0 GPA. RNs transferring from community colleges can transfer in 57 prerequisite credits along with 33 RN credits of which 10 are considered upper division for a total of 90 credit hours. This applies only to the students in the RN to BSN option.

Total Credits 138

Accredited by:
Accreditation Commission for Education in Nursing (ACEN)

3343 Peachtree Road NE, Suite 850
Atlanta, Georgia 30326
Option offers students an intense, challenging approach that enables necessary prerequisites prior to starting the program. The Accelerated nursing baccalaureate degree. The applicant must have completed the Degree-Plus Accelerated Option is for students with a previous non-Nursing Accelerated (BSN) Option. Students are eligible for escrow credits through articulation. In addition, pre-requisite courses may be taken while concurrently enrolled. Upon receiving RN licensure and completion of all BSN courses seamlessly from the associate degree program to the bachelor's degree. Students may be eligible for re-admission on a one-time basis only. If readmission is granted, subsequent failure will make the student ineligible for re-admission.

The Basic Bachelor of Science in Nursing Option (Basic BSN)
The Basic BSN program assists the new student who has completed their prerequisite courses to enter a dynamic ever-changing profession of nursing by completing their BSN degree requirements. The program is based on a philosophical approach to nursing that includes the caring and the Quality and Safety Education for Nursing (QSEN) competencies. The Colorado State University-Pueblo offers the ideal foundation for the development of the professional nurse.

Registered Nurse to Bachelor of Science in Nursing Option (RN-BSN)
The RN to BSN courses are offered in an online format. Two types of students are eligible to enroll in this option: Those who are licensed RN's and those enrolled in a Colorado community college associate degree nursing program (ADN). A licensed RN includes both an associate degree and a diploma nurse. Those enrolled in the community college have an opportunity to concurrently enroll in the RN to BSN program and begin taking select bachelor level courses. This allows them to move seamlessly from the associate degree program to the bachelor's degree program. These students must pass the NCLEX-RN and be licensed in order to take the remaining BSN courses.

Colorado Community College System or Compact State Dual Enrollment/ADN to BSN
BSN courses may be taken concurrently while enrolled in a Colorado compact state or a Colorado Community College System ADN program. In addition, pre-requisite courses may be taken while concurrently enrolled. Upon receiving RN licensure and completion of all BSN courses students are eligible for escrow credits through articulation.

Degree Plus to Bachelor of Science in Nursing Accelerated (BSN) Option
The Degree-Plus Accelerated Option is for students with a previous non-nursing baccalaureate degree. The applicant must have completed the necessary prerequisites prior to starting the program. The Accelerated Option offers students an intense, challenging approach that enables students to complete the Bachelor of Science in Nursing degree in 14 months.

Acceptance of Transfer Credit
Transfer credit will be awarded per the published Academic Policies section of this catalog. Credit will be awarded for a course in which a grade of C or better was earned. Grades of C- are not accepted for any nursing or nursing prerequisite course. Requests for transfer of nursing credit are evaluated on an individual basis.

Academic Standards
Students are responsible for all academic standards policies per the published Academic Policies section of this catalog. In addition to those policies, the following applies:

- Students must complete all nursing courses with a grade of B or better. Failure of any nursing courses will result in dismissal from the program. The student may be eligible for re-admission on a one-time basis only. If readmission is granted, subsequent failure will make the student ineligible for re-admission.
- Students must follow their appropriate program option nursing course sequence plan. Exceptions are only by permission of the undergraduate nursing program coordinator.
- All nursing courses with corresponding labs must be completed in the same semester. Exceptions are only by permission of the undergraduate nursing program coordinator.

Licensure Examination
Students must complete all of the Bachelor of Science in Nursing requirements and required national standardized exams in order to be qualified to sit for the National Certification Licensure Examination.

Hybrid Courses
A hybrid course is a combination classroom/on-line course. Students meet in a classroom at a regularly-scheduled time and place, the rest of the time is spent online. Both parts of the course, classroom attendance and online work, are mandatory.

Undergraduate Admission Policies and Procedures
Students are responsible for all undergraduate admissions policies and procedures as outlined in the Academic Policies section of this catalog.

The BSN program is very competitive. If a student is not admitted to the BSN program they can complete the BS in Health Science which will prepare them for an accelerated nursing program, entry level Master degree in Nursing or graduate degrees in several other health science oriented professions such as Public Health, Athletic Training, Nutrition, Physical Therapy, Occupational Therapy, and Healthcare Administration.

Undergraduate Admission Requirements
There are two ways to apply for admission to the Nursing Program.

Admission as a High School Senior to Nursing Program as a Freshman
Slots for admission as a freshman are limited. Admission is not guaranteed as students with the highest GPA’s and ACT/SAT scores will have priority selection. Preference is given to students graduating from
Southern Colorado high schools and/or Health Academy programs. In order to be admitted directly in to the program as a freshman, students must:

- Demonstrate proof of high school diploma. Students must show proof of 3 years of science, including biology and chemistry and proof of algebra or equivalent.
- Have a cumulative high school GPA of 3.25 or higher on a 4.0 scale.
- Have minimal scores: ACT 22 or SAT 1100
- Have minimal math scores: ACT 22 or SAT 650. Remain a full-time CSU-Pueblo student and maintain a 3.0 cumulative average and 3.0 nursing prerequisite average while taking courses at CSU-Pueblo.
- Have prerequisites and general education completed by the start of the second semester sophomore year.

If students do not have these requirements, they will lose their opportunity to progress directly into the nursing program.

Students denied admission as freshman are eligible to apply as second semester sophomores.

**Admission as a Second Semester Sophomore from CSU-Pueblo or Transfer from an Accredited School**

All pre-nursing students will be Health Sciences majors with a pre-nursing emphasis. Admission to the University does not imply acceptance to the nursing program. The undergraduate program is very competitive and applicants are ranked based on their GPA for the general education and prerequisites required by the program. Fifty percent of the prerequisites and general education courses must be completed by the application deadline. Special consideration will be given to students completing all of their prerequisite and general education coursework at CSU-Pueblo, veteran status, first generation students, and residency in Southeastern Colorado. Only students admitted to the Nursing or Health Sciences major are eligible to take nursing courses as indicated in their degree plan. For the basic nursing student admission:

- Requirements are a minimum GPA of 3.00 for all required general education and prerequisites. All prerequisites must be passed with a C or better (C- is not acceptable) and be completed prior to the term of entrance into the nursing program. Students receiving a grade less than C in a nursing prerequisite course are not eligible for admission. Prerequisite courses may be repeated one (1) time only for admission eligibility.
- All general education must be completed prior to the term of entrance into the nursing program.
- The student needs to be admitted to CSU-Pueblo first, and then submit a separate application to the nursing program the year prior to the spring (basic) or summer (accelerated) term they plan to start the program. During the pre-nursing phase of the application process, students will be advised by the pre-nursing adviser.

Students will be notified via email of their admission status to the program. Those students who are accepted to the program must return receipt of acceptance by the stated deadline or the admission status will be revoked.

Students for whom English is a second language must have a TOFEL of 550 or have completed the University requirements of English and Speech skills.

**Undergraduate Nursing Program Application Process**

Applications to the nursing program may be obtained at http://ceeps.csupueblo.edu/nursing or in the nursing department. The completed applications must be submitted to the School of Nursing by the scheduled deadline. Incomplete applications will not be processed. Applicants should contact the School of Nursing with questions regarding applications.

**Post Acceptance Requirements**

Before a student starts the nursing program they must attend a mandatory orientation.

The following must be submitted through the nursing tracking system after receiving a personal identification number from the University and instructions from the Department of Nursing prior to orientation. Failure to do so by the stated deadline will result in loss of admission status.

- Background check per Colorado Law. (House bill 97-1084).
- A urine drug screen.
- Current certification in CPR (Health Care Provider-C or equivalent).
- Current physical examination within the last year and current immunizations including, hepatitis B series, TB test or two step if necessary, measles, mumps, rubella, influenza, tetanus and varicella and/or titers.
- Proof of current health insurance.
- Proof of current nursing student malpractice insurance from organization specified by School of Nursing.

The following must be submitted to the School of Nursing prior to orientation by the stated deadline:

- Current unofficial transcripts showing completion of all prerequisite and general education classes.
- Return receipt for program acceptance.

In order to register for undergraduate nursing courses, students must have unconditional acceptance into the nursing program and follow their option degree plan, or register by permission of the nursing undergraduate program coordinator.

**RN-BSN Admissions Requirements**

The student needs to be admitted to CSU-Pueblo, and submit a separate application to the nursing program. Applicants must be from a compact state with the state of Colorado. All prerequisites must be passed with a C or better (C- is not acceptable) Students receiving a grade less than C in a nursing prerequisite course are not eligible for admission.

Additional requirements for the RN-BSN option include:

- Completion of an Associate Degree or Diploma in Nursing.
- Colorado registered nursing license in good standing with a compact state.

Additional requirements for the Colorado community college system dual enrollment/ADN to BSN include:

- Current enrollment in a Colorado community college system or compact state ADN program.
Degree Plus to Bachelor of Science in Nursing Accelerated (BSN) Option

Students will be notified by email of their admission status to the program. Those students who are accepted to the program should acknowledge acceptance by return email.

The degree-plus student is expected to meet with the pre-nursing adviser for advisement and plan development. The student must have a cumulative nursing prerequisite GPA of 3.0 and follow all admission and post acceptance requirements set forth in the Basic Nursing Option. Due to the intensity of the curriculum, it is advised that the student not work and be able to attend to their studies full-time. Students must maintain a cumulative nursing 3.00 GPA to progress.

Admission to this option is very competitive and applicants are ranked based on their prerequisite GPA.

Time Limits

For applicants to all options (except registered nurses), Anatomy & Physiology I & II, Intro to Human Development, and Pathophysiology completed (5) years or more before applying to the nursing program will not be accepted as satisfying the prerequisite requirement.

Graduation Requirement

The BSN degree will be granted to undergraduate nursing degree-seeking students who meet all of the published requirements plus the additional requirements below:

- Have a cumulative nursing GPA of 3.00 or better at graduation. All required prerequisite courses must be passed with a C or better. All nursing courses must be passed with a B or better or satisfactory (S).
- Complete the program’s minimum number of hours of approved nursing course work within five years.

Note: Nursing courses completed five (5) or more years before the date of graduation, either at CSU-Pueblo or at some other institution, will not be accepted as satisfying graduation requirements without the approval of the nursing admissions committee.

General Education and Prerequisites Courses

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Elective Concentrated Clinical Practicum

The elective concentrated clinical practicum allows the student enrolled in the Basic BSN option to choose an area of clinical concentration during their progression through the program. The student will meet with their adviser and course coordinator to develop their plan. The elective concentrated clinical practicum is not an option for students enrolled in the accelerated BSN option.
### RN-BSN (Nursing) Degree Requirements (Online only)

The student must confer with the RN-BSN advisor to develop a program of study. The RN-BSN option will include 33 credit hours through articulation, which will be posted the semester prior to anticipated graduation, 57 credit hours of prerequisite or co-requisite courses and 30 credit hours of nursing and approved elective courses for a total of 120 credit hours. Students must pass all nursing courses with a B or better and maintain a nursing 3.0 GPA. RNs transferring from community colleges can transfer in 57 prerequisite credits along with 33 RN credits of which 10 are considered upper division for a total of 90 credit hours. This applies only to the students in the RN to BSN option. Students must provide evidence of RN licensure in order to enroll in NG 453 Synthesis for RN's (4 c.h.) NG 453L Synthesis for RN's Lab (5 c.h.)

Undergraduate Program Outcomes

1. Eighty percent of graduates will:
   - Express satisfaction with the program.
   - Pass national licensure exam the first time.
   - Be employed in role related professional practice within six months to one year.

2. Seventy percent of graduates will:
   - Complete the program within one and one half times the length of the program.

Expected Student Learning Outcomes

- Demonstrate caring through advocacy for patients by providing compassionate care based on respect for patient’s preferences, values, and needs.
- Collaborate effectively within health care team, to achieve safe, quality patient care in a variety of health care settings.
- Use nursing judgment based on best current evidence to ensure optimal outcomes for patients and families.
- Demonstrate professional identity, integrity, and leadership as the coordinator of patient care.

Outcome Assessments

The outcome assessments will be evaluated through or by:

- Assessment of clinical competencies through multiple strategies including simulations and clinical evaluation tools.
- Individual and course evaluations including the standardized testing program.
- Survey of nursing graduates and their employers.
- National Certification and/or Licensure Examination (NCLEX) required of graduates prior to professional nursing practice as a registered nurse.
- A survey of graduate employment and graduation rates.

Athletic Training, Master of Science

Program Director: Dr. Roger Clark
Clinical Education Coordinator: Dr. Marie Pickerill

Colorado State University-Pueblo is currently seeking accreditation for their new Masters in Athletic Training program and is not accredited by the Commission on Accreditation of Athletic Training Education (CAATE). The institution will be submitting a self-study to begin this accreditation process on July 1, 2021. Submission of the self-study and completion of a site visit does not guarantee that the program will become accredited. Students that graduate from the program prior to accreditation WILL NOT be eligible for sit for the credentialing examination for athletic trainers and will not be eligible for licensure in most states.

Students with a bachelor’s degree and have completed the required prerequisites for the MS in Athletic Training Program may make application to the program. Contact Program Director for required documents.

Admission Requirements

- Cumulative undergraduate GPA = 3.0
- First Aid and CPR/AED for Professional Rescuer certification (or equivalent)
- Two letters of recommendation. One from a certified Athletic Trainer and one from an academic instructor.
- 50 observation hours with a certified and state credentialed Athletic Trainer.
- Submission of Graduate Record Examination (GRE) score.
- Immunization records
- TB test and completed TB form
- Completed technical standards form
- Physical exam
Prerequisite courses with a grade of C or better:
• Anatomy & Physiology I & II with Labs (8 credits)\(^1\)
• General College Biology with Lab (4 credits)
• Chemistry with Lab (4 credits)
• Physics with Lab (4 credits)
• Nutrition (3 credits)
• Exercise Physiology with Lab (4 credits)
• Kinesiology (3 credits)
• Human Development (3 credits)
• Sports Psychology (3 credits)
• College Algebra or Statistics (3-4 credits)
• Applied Statistics (3 credits)
• Personal Health (3 credits)
• Care and Prevention of Athletic Injuries (3 credits)
• Medical Terminology (2 credits)

\(^1\) Separate Anatomy with lab (4 credits) and Physiology with lab (4 credits) will be acceptable.

The institution will be submitting a self-study to begin this accreditation process on July 1, 2021. Submission of the self-study and completion of a site visit does not guarantee that the program will become accredited. Students that graduate from the program prior to accreditation WILL NOT be eligible to sit for the credentialing examination for athletic trainers and will not be eligible for licensure in most states.

Students who complete the 3+2 MS degree in Athletic Training will received a BS in Health Science and an MS in Athletic Training at the completion of the 3+2 curriculum. If the student does not complete the entire 3+2 curriculum they could receive the BS in Health Science with the Pre-Athletic Training emphasis.

**Athletic Training 3+2 Plan (BS/MS)**

One feature of the MS in Athletic Training program is the 3+2 plan, which is designed to give the opportunity to qualified advanced-level undergraduate students to simultaneously pursue both the Baccalaureate (BS) and Master of Science (MS) degrees. Talented students are thus quickly moved toward expanding their academic and scientific horizons based on an individual student’s abilities and motivation.

Students must meet the requirements of both degrees.

**Admission Requirements to Graduate Portion of Program**

- Cumulative undergraduate GPA = 3.0 at the end of junior year of the Health Science Pre-Athletic Training Emphasis
- First Aid and CPR/AED for Professional Rescuer certification (or equivalent)
- Two letters of recommendation. One from a certified Athletic Trainer and one from an academic instructor.
- 50 observation hours with a certified Athletic Trainer.
- Submission of Graduate Record Examination (GRE) score.
- Immunization Record
- TB test and completed TB form
- Completed technical standards form
- Physical exam

Student must have a cumulative undergraduate GPA = 3.0 at the end of junior year.

**Health Sciences, Bachelor of Science: Pre-Athletic Training Emphasis**

**HEALTH SCIENCES**

Health Sciences Director: Dr. Carol Foust

Faculty: Clark, Kies-Bolkema, Pickerill

The mission of the Bachelor of Science in Health Science is to prepare students for jobs in public health, athletic training and other allied health careers as well as prepare students for admission to the undergraduate BSN degree, accelerated nursing program, Master in Athletic Training and graduate school at other institutions in a variety of health science related degree such as the Master of Science in Nursing, Master of Science in Athletic Training, Master of Public Health, Master of Occupational Therapy, Doctorate of Physical Therapy. The program is also an excellent degree path for individuals who already have a two year allied health degree to bridge them to a Bachelor of Science degree in Health Science. This degree will allow students to earn credentials to move seamlessly into careers with clinics, academic institutions, laboratories, government and community and private agencies and professional sports teams.

**The HS department awards two degrees:**

A Bachelor of Science degree in Health Science. The BS in Health Science (HS) program currently includes four emphasis of study:

- General Health Science
- Pre-Athletic Training
- Pre-Nursing
- Public Health

A Master’s Degree in Athletic Training (MS)

- 3+2 Athletic Training (MS)

Colorado State University-Pueblo is currently seeking accreditation for their new Masters in Athletic Training program and is not accredited by the Commission on Accreditation of Athletic Training Education (CAATE). The institution will be submitting a self-study to begin this accreditation process on July 1, 2021. Submission of the self-study and completion of a site visit does not guarantee that the program will become accredited. Students that graduate from the program prior to accreditation WILL NOT be eligible to sit for the credentialing examination for athletic trainers and will not be eligible for licensure in most states.

---

**Department Vision**

The HS Department’s vision is to provide students with a broad-based theoretical foundation supported by laboratory and field experiences that
allow individual observations, inferences, and hands-on mastery of skills related to the promotion of healthy lifestyles. This vision is accomplished by creating effective professional learning opportunities based on the following conceptual hierarchy of learning skills: Information Retrieval, Conceptual Understanding, Information Analysis, Critical Thinking, Development of Relevant Skill, and Practical Application of Ideas. In so doing we prepare student to become productive, accountable, ethical, and responsible professionals.

This 4 year program is intended for the students planning to complete the MS in Athletic Training 2 year Master’s Program or who are not accepted into the MS in Athletic Training 3+2 Program.

- Graduates of the Pre-Athletic Training emphasis are prepared for entry into Master level Athletic Training Programs as well as advanced education in other related graduate programs.

**Graduation Requirements**

- Complete an HS emphasis of study with a cumulative GPA of 2.50 or higher;
- Earn a 2.0 overall GPA to enroll in 300 or 400 level courses in the department;
- Earn a minimum grade of a “C” in all prerequisite and major courses;
- Repeat prerequisite and major courses with a grade of “D” or lower until a grade of “C” or higher is achieved; and
- Earn a cumulative GPA of 2.0 or higher in required English and speech communication courses.

**General Education**

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

**Student Learning Outcomes**

1. Summarize and synthesize information relevant to assessing and improving population health and healthcare issues;
2. Exhibit the ability to read and interpret scientific research with application of the scientific methods, statistics, study design, and reporting in the health sciences;
3. Evaluate and integrate critical concepts and skills acquired in the health sciences curriculum to common professional problems in the health science fields of interest;
4. Exhibit effective oral and written communication as well as mass communication regarding subjects related to the health sciences in an individual and group setting;
The mission of the Bachelor of Science in Health Science is to prepare students for jobs in public health, athletic training and other allied health careers as well as prepare students for admission to the undergraduate BSN degree, accelerated nursing program, Master in Athletic Training and graduate school at other institutions in a variety of health science related degree such as the Master of Science in Nursing, Master of Science in Athletic Training, Master of Public Health, Master of Occupational Therapy, Doctorate of Physical Therapy. The program is also an excellent degree path for individuals who already have a two year allied health degree to bridge them to a Bachelor of Science degree in Health Science. This degree will allow students to earn credentials to move seamlessly into careers with clinics, academic institutions, laboratories, government and community and private agencies and professional sports teams.

The HS department awards two degrees:

A Bachelor of Science degree in Health Science. The BS in Health Science (HS) program currently includes four emphasis of study:

5. Apply and demonstrate knowledge, skills and critical problem solving in a field-based and/or clinical setting;
6. Successfully enter into a health science related career or into a graduate program;

Assessment of HS Student/Program Outcomes
The student outcomes are measured and assessed through several techniques:

- Student samples of writing, communication, and project implementation.
- End of program case study assessment and end of program examination;
- Fieldwork and internship portfolios and projects;
- Fieldwork and internship site supervisor evaluations;
- Student exit surveys; and
- Employer surveys and Advisory Committee

End of program exams will be, or will be representative of, the professional certification exams in each emphasis area including case study questions developed by the faculty and HS Advisory Committee (made up of professionals in the health sciences field). The end of program exams are completed during an appropriate field based course at the end of the course of study but before graduation. The HS curriculum map details the specific types of assessments used in the capstone and experiential end of program courses to assess the Program’s Student Outcomes.

Health Sciences, Bachelor of Science: General Health Science Emphasis

HEALTH SCIENCES

Health Sciences Director: Dr. Carol Foust

Faculty: Clark, Kies-Bolkema, Pickerill

The mission of the Bachelor of Science in Health Science is to provide students with a broad-based theoretical foundation supported by laboratory and field experiences that allow individual observations, inferences, and hands-on mastery of skills related to the promotion of healthy lifestyles. This vision is accomplished by creating effective professional learning opportunities based on the following conceptual hierarchy of learning skills: Information Retrieval, Conceptual Understanding, Information Analysis, Critical Thinking, Development of Relevant Skill, and Practical Application of Ideas. In so doing we prepare student to become productive, accountable, ethical, and responsible professionals.

The BS degree in Health Science prepares program graduates for professional positions in worksite, clinical, school, government and community settings.

- Graduates of the General Health Science coursework are prepared for health science related professional positions. This emphasis is an excellent selection for students preparing for work in careers in clinics, academic institutions, laboratories, government and community and private agencies as well as advanced study in fields such as nursing, occupational therapy, physical therapy, allied health, or healthcare administration.

General Requirements
All departmental Majors are required to:

- Complete an HS emphasis of study with a cumulative GPA of 2.50 or higher;
- Earn a 2.0 overall GPA to enroll in 300 or 400 level courses in the department;
- Earn a minimum grade of a “C” in all prerequisite and major courses;
- Repeat prerequisite and major courses with a grade of “D” or lower until a grade of “C” or higher is achieved; and
- Earn a cumulative GPA of 2.0 or higher in required English and speech communication courses.

Courses Outside the Major 20
Total Credits 120

Student Learning Outcomes

1. Summarize and synthesize information relevant to assessing and improving population health and healthcare issues;
2. Exhibit the ability to read and interpret scientific research with application of the scientific methods, statistics, study design, and reporting in the health sciences;
3. Evaluate and integrate critical concepts and skills acquired in the health sciences curriculum to common professional problems in the health sciences field of interest;
4. Exhibit effective oral and written communication as well as mass communication regarding subjects related to the health sciences in an individual and group setting;
5. Apply and demonstrate knowledge, skills and critical problem solving in a field-based and/or clinical setting;
6. Successfully enter into a health science related career or into a graduate program;

Assessment of HS Student/Program Outcomes

The student outcomes are measured and assessed through several techniques:

- Student samples of writing, communication, and project implementation.
- End of program case study assessment and end of program examination;
- Fieldwork and internship portfolios and projects;
- Fieldwork and internship site supervisor evaluations;
- Student exit surveys; and
- Employer surveys and Advisory Committee

End of program exams will be, or will be representative of, the professional certification exams in each emphasis area including case study questions developed by the faculty and HS Advisory Committee (made up of professionals in the health sciences field). The end of program exams are completed during an appropriate field based course at the end of the course of study but before graduation. The HS curriculum map details the specific types of assessments used in
the capstone and experiential end of program courses to assess the Program's Student Outcomes.

Health Sciences, Bachelor of Science: Public Health Emphasis

HEALTH SCIENCES
Health Sciences Director: Dr. Carol Foust
Faculty: Clark, Kies-Bolkema, Pickerill

The mission of the Bachelor of Science in Health Science is to prepare students for jobs in public health, athletic training and other allied health careers as well as prepare students for admission to the undergraduate BSN degree, accelerated nursing program, Master in Athletic Training and graduate school at other institutions in a variety of health science related degree such as the Master of Science in Nursing, Master of Science in Athletic Training, Master of Public Health, Master of Occupational Therapy, Doctorate of Physical Therapy. The program is also an excellent degree path for individuals who already have a two year allied health degree to bridge them to a Bachelor of Science degree in Health Science. This degree will allow students to earn credentials to move seamlessly into careers with clinics, academic institutions, laboratories, government and community and private agencies and professional sports teams.

The HS department awards two degrees:

A Bachelor of Science degree in Health Science. The BS in Health Science (HS) program currently includes four emphasis of study:

- General Health Science
- Pre-Athletic Training
- Pre-Nursing
- Public Health

A Master’s Degree in Athletic Training (MS)

- 3+2 Athletic Training (MS)

Department Vision

The HS Department's vision is to provide students with a broad-based theoretical foundation supported by laboratory and field experiences that allow individual observations, inferences, and hands-on mastery of skills related to the promotion of healthy lifestyles. This vision is accomplished by creating effective professional learning opportunities based on the following conceptual hierarchy of learning skills: Information Retrieval, Conceptual Understanding, Information Analysis, Critical Thinking, Development of Relevant Skill, and Practical Application of Ideas. In so doing we prepare student to become productive, accountable, ethical, and responsible professionals.

The BS degree in HS prepares program graduates for professional positions in worksite, clinical, school, government and community settings.

- Graduates of the Public Health emphasis are eligible to sit for the National Commission for Health Education Credentialing exam to become a Certified Health Education Specialist. Public Health graduates can find employment in worksite health promotion, community health, government and volunteer health agencies, clinical and managed care settings. Public Health graduates will be prepared to apply for a Master in Public Health degree.

General Requirements

All departmental Majors are required to:

- Complete an HS emphasis of study with a cumulative GPA of 2.50 or higher;
- Earn a 2.0 overall GPA to enroll in 300 or 400 level courses in the department;
- Earn a minimum grade of a “C” in all prerequisite and major courses;
- Repeat prerequisite and major courses with a grade of “D” or lower until a grade of “C” or higher is achieved; and
- Earn a cumulative GPA of 2.0 or higher in required English and speech communication courses.

Other Required Courses
Student Learning Outcomes

1. Summarize and synthesize information relevant to assessing and improving population health and healthcare issues;
2. Exhibit the ability to read and interpret scientific research with application of the scientific methods, statistics, study design, and reporting in the health sciences;
3. Evaluate and integrate critical concepts and skills acquired in the health sciences curriculum to common professional problems in the health science fields of interest;
4. Exhibit effective oral and written communication as well as mass communication regarding subjects related to the health sciences in an individual and group setting;
5. Apply and demonstrate knowledge, skills and critical problem solving in a field-based and/or clinical setting;
6. Successfully enter into a health science related career or into a graduate program;

Assessment of HS Student/Program Outcomes

The student outcomes are measured and assessed through several techniques:

- Student samples of writing, communication, and project implementation.
- End of program case study assessment and end of program examination;
- Fieldwork and internship portfolios and projects;
- Fieldwork and internship site supervisor evaluations;
- Student exit surveys; and
- Employer surveys and Advisory Committee

Expected student outcomes in Public Health align with the eight core competencies for public health professionals as adopted by the Council on Linkages between Academia and Public Health Practice in 2014.

Core Competencies:

Domain 1: Analytical/Assessment Skills
Domain 2: Policy Development/Program Planning Skills
Domain 3: Communication Skills
Domain 4: Cultural Competency Skills
Domain 5: Community Dimensions of Practice Skills
Domain 6: Public Health Sciences Skills
Domain 7: Financial Planning and Management Skills
Domain 8: Leadership and Systems Thinking Skills

Health Sciences, Pre-Nursing Emphasis

All pre-nursing students will be Health Sciences majors with a pre-nursing emphasis. Admission to the University does not imply acceptance to the nursing program. The undergraduate program is very competitive and applicants are ranked based on their GPA for the general education and prerequisites required by the program. Fifty percent of the prerequisites and general education courses must be completed by the application deadline. Special consideration will be given to students completing all of their prerequisite and general education coursework at CSU-Pueblo, veteran status, first generation students, and residency in Southeastern Colorado. Only students admitted to the Nursing or Health Sciences majors are eligible to take nursing courses as indicated in their degree plan.

The BSN program is very competitive. If a student is not admitted to the BSN program they can complete the BS in Health Science which will prepare them for the accelerated Nursing Program, and entry level Master in Nursing and other health related graduate degrees at other institutions such as Public Health, Nutrition, Physical Therapy, Occupational Therapy, and Healthcare Administration.

For admission requirements for the Bachelor of Science Nursing please see Admissions (p. 142) tab.
The student outcomes are measured and assessed through several techniques:

- Student samples of writing, communication, and project implementation.
- End of program case study assessment and end of program examination;
- Fieldwork and internship portfolios and projects;
- Fieldwork and internship site supervisor evaluations;
- Student exit surveys; and
- Employer surveys and Advisory Committee

End of program exams will be, or will be representative of, the professional certification exams in each emphasis area including case study questions developed by the faculty and HS Advisory Committee (made up of professionals in the health sciences field). The end of program exams are completed during an appropriate field based course at the end of the course of study but before graduation. The HS curriculum map details the specific types of assessments used in the capstone and experiential end of program courses to assess the Program’s Student Outcomes.

Teacher Education Department

Mission of the Teacher Education Program

The Teacher Education Program has a primary mission of preparing teachers of quality and distinction. At Colorado State University-Pueblo, preparing teachers is a campus-wide responsibility, with faculty and administrators involved in support of the program’s mission. An integral component of the program is its formal partnership with 17 school districts and four community colleges in southern and southeastern Colorado. The joint efforts of students, faculty, and administrators across all partners focus on improving the quality of learning in classrooms in elementary, secondary, and higher education.

Conceptual Framework—Building and Bridging Communities of Learners

A Conceptual Framework is a guide for how a teacher education program is planned and organized, summarizing its philosophical views of the roles of teaching and learning and its essential understandings of how students become teachers. The conceptual framework of teacher education at Colorado State University-Pueblo is Building and Bridging Communities of Learners. The organizing theme of learning communities focuses the attention of faculty and students on the essential nature of teaching and learning: How does community shape learning and achievement? What are the roles of successful learners and teachers? What social interactions are necessary for both learning and community? How is the definition of a learning community changing in an increasingly technological age? What is the relationship between the concept of learning community and the democratic ideal of American education?

For faculty at CSU-Pueblo, the vision of quality education requires a learner-centered environment in which learning (not teaching) is at the core. All learners will achieve in communities in which learning is publicly and constructively discussed, a positive climate surrounds all members, and support exists for all learners’ individual growth and development.

Inclusive, equitable communities require constant attention to the nature of relationships among teachers and students. CSU-Pueblo students will be prepared to participate as learners and teachers in overlapping and expanding learning communities—from the University classroom to K-12 settings, the professional education community, distributed communities created by technology, and cultural, economic, and political communities of students and their families.

To become beginning teachers, students must change their perceptions of themselves as learners and as students of teaching. As students

---

1. HS 101 not required but highly recommended for entry into the BSN program.
2. CHEM 121 and CHEM 121L will be accepted for CHEM 111 and CHEM 111L

Note: HS 101 is not required but highly recommended for entry into the BSN program.

**Course** | **Title** | **Credits**
--- | --- | ---
BIOL 223 | Human Physiology and Anatomy I | 3
BIOL 223L | Human Physiology and Anatomy I Lab | 1
BIOL 224 | Human Physiology and Anatomy II | 3

PSYCH 151 | Human Development | 3
General Education: World Language | 3
General Education: English | 6
General Education: History | 3
General Education: Humanities | 3
General Education: Social Science | 3

Total Credits | 35

1. COMR 221 will be accepted in lieu of COMR 103 but student must complete additional Gen Ed Humanities

**Total credits hours before applying to the BSN Program:** 46

**Student Learning Outcomes**

1. Summarize and synthesize information relevant to assessing and improving population health and healthcare issues;
2. Exhibit the ability to read and interpret scientific research with application of the scientific methods, statistics, study design, and reporting in the health sciences;
3. Evaluate and integrate critical concepts and skills acquired in the health sciences curriculum to common professional problems in the health science fields of interest;
4. Exhibit effective oral and written communication as well as mass communication regarding subjects related to the health sciences in an individual and group setting;
5. Apply and demonstrate knowledge, skills and critical problem solving in a field-based and/or clinical setting;
6. Successfully enter into a health science related career or into a graduate program;

**Assessment of HS Student/Program Outcomes**

The student outcomes are measured and assessed through several techniques:

- Employer surveys and Advisory Committee

---
progress through the program, they will skillfully assume a variety of roles, including those of master learners, instructors, collaborators, apprentices, models, coaches, colleagues, and mentors. It is the mission of the teacher education program to prepare teachers and learners of quality and distinction by exposing students to quality communities of teaching and learning.

**Program Goals**

- Prepare teachers of quality and distinction with broad-based liberal arts education, depth of knowledge in the areas in which they teach, and the ability to skillfully translate theory and practice to ensure student learning.
- Create a learner-centered community designed to achieve program goals and expected student results.
- Provide systematic advising and evaluation activities which assure student success and program quality.
- Serve the region and state of Colorado through partnerships with school districts and institutions of higher education.

**Expected Student Outcomes**

The Teacher Education Program is a standards-based model of education. Student outcomes are the foundation of the program, upon which the curriculum, instruction, and assessment are aligned and implemented. Based on its mission to produce teachers of quality and distinction, the program has adopted goals in eight areas. Each goal has been articulated into a series of performance-based standards or outcomes that all students must achieve before completing the program. Benchmarks, or more specific outcomes, for each standard have been developed as course objectives throughout the program and faculty across campus have organized course requirements and assignments to assure that students can meet these standards at high levels.

Standards are aligned with the *Colorado Teacher Quality Standards (2015)* and requirements of the Colorado Department of Education and Colorado Department of Higher Education. Proficiency in all standards is required for successful completion of teacher education and recommendation for state licensure.

CSU-Pueblo teacher education graduates will:

1. Use democratic principles to create communities of learners that assure positive social interactions, collaboration, and cooperation.
2. Create learning experiences that make content knowledge accessible, exciting, and meaningful for all students.
3. Create a learning community in which individual differences are respected, appreciated, and celebrated.
4. Ensure, through the use of standards and informal and formal assessment activities, the continuous development of all learners.
5. Construct and use pedagogy to maximize the intellectual, social, physical, and moral development of all students.
6. Be reflective decision-makers, incorporating understandings of educational history, philosophy, and inquiry, as will as the values of the democratic ideal.
7. Create communities of learning by working collaboratively with colleagues, families, and other members.
8. Model the professional and ethical responsibilities of the education profession.

**Outcome Assessment Activities**

Teacher Education assesses student knowledge and skills at three points in the program: admission to education, admission to student teaching, and during the student teaching semester (program completion). Assessment activities include a review of:

1. performance documented in students’ eportfolios;
2. scores on standardized tests of general education and content knowledge;
3. ratings of proficiency on program standards by K-12 classroom teachers, University faculty, and student teacher supervisors based on direct observation of teaching;
4. self-evaluations/ratings of proficiency on program standards by program completers and graduates one year after teaching; and
5. ratings of proficiency by K-12 supervisors after graduates have taught for one year.

**Teaching Endorsement Areas**

The Teacher Education Program collaborates with other academic units to offer programs leading to Colorado teacher licensure in the following endorsement areas:

- Art (K-12)
- Early Childhood Education (birth-age 8)
- Elementary Education (K-6)
- English (7-12)
- World Languages–Spanish (K-12)
- Mathematics (7-12)
- Music (K-12)
- Physical Education (K-12)
- Science (7-12)
- Social Studies (7-12)

See the Teacher Education Handbook for add-on endorsements that have been approved by the Colorado Department of Education in K-12: Instructional Technology, Culturally and Linguistically Diverse Education, and Special Education

**Selective Entry and Retention in Teacher Education Admission**

Many education courses require the prerequisite of admission to education (see description of courses). Students complete the admission to education process during ED 301 Frameworks of Teaching (4 c.h.). The entire process for gathering information and submitting it to faculty is completed during the course.

The following are the requirements that must be met to be admitted to teacher education. No exceptions can occur to these requirements:

1. Cumulative grade point of 2.600 or greater.
2. Completion of ENG 101 Composition I (3 c.h.) and ENG 102 Composition II (3 c.h.) with grades of C or better.
3. For students pursuing secondary or K-12 licensure, completion of math course required by major field with a grade of C or better¹. For students pursuing elementary or early childhood education, admission can happen by either¹:
   a. completion of MATH 109 Mathematical Explorations (3 c.h.) with a B- or better or
b. completion of two of the following courses with a C or better:
   MATH 109 Mathematical Explorations (3 c.h.), MATH 156
   Introduction to Statistics (3 c.h.), MATH 360 Elementary
   Mathematics Concepts I (3 c.h.), MATH 361 Elementary
   Mathematics Concepts II (3 c.h.)
4. Completion of COMR 103 Speaking and Listening (3 c.h.) with a
   grade of B- or better. Students completing COMR 103 Speaking
   and Listening (3 c.h.) with a C or C+, or degree plus students may
   complete this competency through the Oral Proficiency Exam.
5. Completion of ED 301 Frameworks of Teaching (4 c.h.) with a grade
   of C or better.
6. Completion of a formal, standardized test during ED 301 Frameworks
   of Teaching (4 c.h.) such as the Proficiency Profile and a writing
   sample.
7. Completion of satisfactory background check with the Colorado
   Bureau of Investigation. Background check is sent to the Colorado
   Department of Education and report must meet the criteria required
   for obtaining a teaching license in Colorado as outlined in 22-60.5-103
   C.R.S.
8. Completion of an education portfolio. Six types of materials will be
   submitted with the portfolio:
   1. transcripts and official documents demonstrating students
      performance in University classes,
   2. materials developed in University classes which demonstrate
      proficiency on specific education standards,
   3. recommendations and evaluations from teachers,
   4. materials used in field experience and videos of teaching, and
   5. personal reflections and summaries about progress.
   Specific portfolio requirements and manner of evaluation are
   included in the appendices to the Teacher Education Handbook. All
   portfolios will be submitted in electronic format (website).
     Submission of current satisfactory background check from the
     Colorado Bureau of Investigation.

Applications must be submitted a semester in advance; the deadline for
the application is 5:00pm on Wednesday of week 3 of classes. Student
Teaching requires full time effort; therefore students may not enroll in
University courses other than Student Teaching and Capstone Seminar
without permission of the Associate Dean.

Teacher Licensure
At completion of student teaching, the University Supervisor will
recommend the student teacher for licensure. This recommendation is
required for the institutional recommendation for successful program
completion and recommendation to the Colorado Department of
Education for a teaching license. Recommendation for licensure is not
required for completion of the education minor.

Performance Assessment Activities
In the Teacher Education Program, performance assessment is a process
that documents the relationship between the stated mission, goals,
program standards, and actual student outcomes. Assessment is
multidimensional and comprehensive, utilizing a variety of quantitative
and qualitative measures.

- Assessment of student progress is frequent and ongoing throughout
  the program. At three points in the student’s program, faculty
  completes a multidimensional assessment of progress on teacher
  education program standards: at admission to education, admission
  to student teaching and during student teaching. These assessments
  include a review of progress in all courses, evaluation of student
  performance through a student-constructed portfolio, and review of
  K-12 teachers’ evaluation of student performance in field experiences.
- Evaluation of progress occurs at the end of each semester after
  admission to education through a review of student performance in
  University classes and field experiences.
- Student records are maintained in the Teacher Education Office.

Higher Education Act (HEA) Reporting Requirements
In October 1998, Congress enacted Title II of the Higher Education Act
(HEA), requiring new reporting requirements for institutions and states
on teacher preparation and licensing. Section 207 of Title II requires the
annual preparation and submission of a report by each university that
prepares teachers on how well individuals who complete its teacher
preparation program perform on initial state licensing and certification
assessments in their areas of specialization. Universities are also
required to publish information on basic aspects of their programs, such
as number of students, amount of required supervised practice teaching, and the student-faculty ratio in supervised practice teaching. Information on students who completed CSU-Pueblo’s teacher education program can be found on the program’s website: https://www.csupueblo.edu/institutional-research/student-outcomes/licensure-exams.html.

- Reading, Minor (p. 200)

**Education, Master of Education: Art Education Emphasis**

Graduate Coordinator: Victoria Hansen, Art Department

Associate Dean: Jeff Piquette

Educational researchers and policy makers agree on the fundamental requirements for successful teachers: knowledge of subjects they teach, knowledge of both general and subject-matter specific methods for instruction and assessment; knowledge of student development; and the ability to apply this knowledge with students from diverse backgrounds. The M.Ed. at CSU-Pueblo is planned to impact the quality of teaching and learning in K-12 classrooms by preparing master teachers with expertise in their content disciplines, in the pedagogy of teaching and learning, and in the process of continual professional development and growth. To ensure graduates’ application of new knowledge and skills, CSU-Pueblo’s program requires application of new knowledge and skills throughout the program and utilizes an assessment model that monitors teacher performance and provides information for ongoing program improvement.

One promising approach that has resulted in significant improvements in teaching practices is the National Board for Professional Teaching Standards (NBPTS) process for National Board Certification. The NBPTS has developed standards for effective teaching in specific subject areas and assessments geared to measure performance against the standards, as well as a process for teachers to demonstrate their performance on these standards. In addition to strengthening classroom teaching, teachers’ involvement with the NBPTS program has improved student engagement, motivation, and achievement, including positive impact in low-performing schools.

The Master of Education degree is built on research on teacher change and is designed to prepare teachers to lead school reform, requiring completion of an emphasis area of their choice; of a core of pedagogy courses focusing on literacy instructional technology, and differentiation of instruction; and of a core of courses focusing on professional growth. The National Board standards and certification process form the heart of the M.Ed. core and assessment process. A unique characteristic of the degree is the collaboration of faculty in teacher education and in content disciplines at the University in the design and implementation of the program.

**Relationship to the Mission of Teacher Education**

The Teacher Education Program has a primary mission to prepare teachers of quality and distinction through K-16 collaborations. One of the central goals of the program is its commitment to serve the region and state of Colorado through partnerships with school districts and institutions of higher education. An integral aspect of this goal is Teacher Education's formal partnership with school districts in southern and southeastern Colorado. The joint efforts of students, faculty, and administrators across all K-16 partners focus on improving the quality of learning in classrooms in elementary, secondary, and higher education. The Master of Education degree supports this mission, strengthening K-12 teachers’ abilities to provide educational opportunities for their students. At Colorado State University-Pueblo, preparing teachers is a campus-wide responsibility, with faculty and administrators involved in support of the program’s mission.

**Graduate Admission Policies and Procedures**

**Admission**

Regular status will be given to degree-seeking students who meet all of the following requirements:

- A baccalaureate degree from an institution accredited by the regional accreditation agency (or equivalent).
- A minimum 3.00 cumulative GPA. Conditional admission may be granted for candidates with cumulative GPAs lower than 2.500, but whose recent graduate GPA (at least 15 hours) is above 3.000
- A letter of interest that outlines the candidate’s reason(s) for applying to the M.Ed. program and how they expect to both benefit from and contribute to it.
- Two recommendations from individuals who can speak to potential success in graduate school.
- A teaching license. Conditional admission can be granted for candidates without a teaching license, but with significant teaching experience, Candidates must provide documentation of the quantity and quality of this experience.

International students whose native language is not English must also meet the English language proficiency standard set forth in the Graduate Admissions section of the CSU-Pueblo Catalog.
Continuation
To continue in the program, students must maintain a cumulative GPA of 3.000.

Program Completion
All students must fulfill the following requirements for a graduate degree:

- A cumulative graduate GPA of 3.000 or better at graduation. A maximum of six semester hours of course work at the grade of C+ or C may be applied toward graduation. A maximum number of nine semester hours of transfer credit may be applied to the degree.
- Regular student status.
- The program’s minimum number of hours of approved course work (38 semester hours).
- Completion of a final portfolio review and oral examination. The portfolio project includes a directed research project.
- Submission of a graduation planning sheet signed by the student’s graduate advisor and program director, in accordance with published deadlines during the semester is to occur. The deadline for submission is published in the Semester Notes, University Calendar, and CSU-Pueblo Catalog.

M.Ed. Degree Course Requirements
The degree is designed with three components:

1. core courses in research and professional change;
2. pedagogy courses in literacy, differentiation of instruction, and technology; and
3. courses in an emphasis area chosen by the graduate student.

A unique feature of the degree is its alignment with the standards of the National Board for Professional Teaching Standards and participants’ opportunity to work towards national board certification as they complete the degree.

Component 1: Core Requirements (11 hours)
Organizational change and school reform, as well as the responsibilities of professional leadership related to educational change, are emphasized in the core. The four courses in Component 1 are developmental, with the first taken within the first nine hours, the third within the last nine hours, and the final course completed as the capstone experience in the program. All courses focus on knowledge and skills related to teacher change and leadership as a change agent in the schools. Emphasis in interpreting and conducting research is included.

Although courses in Components 2 and 3 may be completed by teachers, degree plus or senior students who have been admitted to the Teacher Education Program and meet the 2.600 GPA requirements, admission to all Core courses requires full admission to the graduate program.

Component 2: Pedagogy Requirements (choose 3 hours from each category, 9 hours total)
CSU-Pueblo recognizes that master teachers demonstrate expertise in understanding and applying current best practices in each of the following areas: literacy education, instructional technology, and differentiation of instruction for all learners. All three were selected because recent research has indicated that application of best practices in these three areas will impact the quality of student achievement in K-12 classrooms. Teachers will select courses based on their development plan, with input from their graduate adviser. Courses cannot be double counted in emphasis areas and the Pedagogy Core.

Instructional Technology
Graduate students may select from instructional technology courses offered by the University, with approval of their faculty advisers. Sample courses include:

</table>
Component 3: Emphasis Area Requirements (18 hours in one area)

The more deeply teachers grasp content, the more they tend to emphasize conceptual, problem solving, and inquiry aspects of their subjects. The less knowledgeable teachers are of the content they are teaching, the more they tend to emphasize facts and procedures. The purpose of Component 3 of the program is the development of teachers’ content expertise related to their area of responsibility, with candidates choosing among a number of different K-12 emphasis areas. Some areas require prerequisites, and an emphasis area should be chosen with the advisement of their graduate adviser.

It is the philosophy of the Art Education emphasis that exceptional art educators continue to perfect their skills as practicing artists. Students completing this area should confer with their adviser in Art Education to select courses that will expand their understanding of current issues and techniques in the field of art education as well as their knowledge and skills in art processes and production. The emphasis requires completion of eighteen hours of graduate level art courses including one graduate level course in art history.

Graduate Program Goals and Student Outcomes

As teachers proceed through the program, they will be asked to apply and demonstrate their growth in learning and teaching related to the following goals and outcomes.

**Content Knowledge Goal:** Master teachers utilize content knowledge to raise the achievement of PK-12 learners.

1. Demonstrate growth in content knowledge related to emphasis area and the application of content knowledge to classroom instruction and assessment.

**Pedagogy Goal:** Master teachers utilize best practices in instruction and assessment to raise achievement of PK-12 learners.

1. Understand scientifically-based practices in teaching and learning, including strategies in literacy education, instructional technology, differentiation of instruction, and apply them to raise student achievement.
2. Demonstrate multiple means of assessing and evaluating student learning and use them to change teaching and learning.

**Professional Development and School Reform Goal:** Master teachers understand the process for professional change in their own practice and in education, including the interpretation of educational research.

1. Locate, interpret, synthesize, and apply educational research in best practices in teaching.
2. Understand models for professional change, including teacher collaboration, professional learning communities, strategies for mentoring and coaching to facilitate change, and effective professional development.
3. Demonstrate understanding of reflective practice that results in improved classroom teaching and learning, including teacher reflection, use of technology in self-assessment, collaboration for change, and self-management of change.
4. Demonstrate understanding of system and organizational change in education, including models for school change and current research and trends in school change.

**Leadership and Change Agent Goal:** Master teachers apply educational research, including research on school reform and professional development to raise student achievement.

1. Demonstrate responsibility for student learning at high levels.
2. Demonstrate responsibility for school reform and leadership in school change.

Program Assessment

The assessment plan for Colorado State University-Pueblo’s M.Ed. ensures that the program:

1. Monitors individual student progress necessary to support success,
2. Provides summative information on student proficiency on all performance-based standards, and
3. Provides reliable and valid information on the program's successes and weaknesses to ensure continuous program improvement.

The assessment design has four components:

1. Benchmarks, student outcomes and tasks aligned with the Colorado Department of Education standards for content areas leading to endorsements (Special Education, Linguistically Diverse Education, and Instructional Technology) and the National Board of Professional Teaching Standards, forming the basis for both monitoring of student success and program evaluation.
2. A series of evaluation tools that are used by faculty within courses and at program completion to assess student performance in meeting all standards.
3. A system for documenting and monitoring student progress using the student's electronic portfolio.
4. A system to identify program strengths and weaknesses resulting in continual program improvement.

Performance Standards, Program Alignment and Evaluation Criteria

A range of tasks aligned to program standards, curriculum and instructional activities throughout the program provide multiple sources of evidence to assess performance on each program standard. These tasks include a range of examples of teaching and learning, most of them authentic teaching performance, including all of the following:

- Curriculum plans: lesson plans and unit planning.
- Self evaluations and peer evaluations of teaching.
- Measures of achievement of PK-12 students: student work samples, pre-post data, and a range of assessment results.
- Standardized test scores (e.g., the PRAXIS exam for Special Education), as well as teacher-constructed exams and quizzes.
- Materials and artifacts from activities with parents, colleagues, and classroom teachers included in the master's portfolio.
- Evidence of ability to understand and utilize research to improve practice.
- Evidence of inquiry (e.g., action research, case studies) to change practice.
- Video case studies of teaching.
- Evidence of program and school change, including activities in coaching, mentoring, and professional learning communities.
Graduate students begin developing their M.Ed. portfolio with their first master's course. The portfolio is a web-based database system that is linked with a system for faculty to review materials and communicate their feedback to the student. Documents that demonstrate their performance on specific standards are added throughout the program.

Program Completion
During the final capstone course, students submit the portfolio for review by a group of three faculty. In addition to the portfolio materials, graduate students participate in an oral review of portfolio contents.

Program Completer Self-Evaluation
At the end of their final course, students will complete their own self-evaluation of their performance across program standards and an evaluation of the quality of the master's program.

Follow-up Assessments
One year after graduating from the program, teacher education will conduct a survey, requesting feedback from each graduate about his/her teaching and about the quality of preparation at CSU-Pueblo. Survey forms will be aligned with the program standards. A similar survey will be sent to each graduate's supervisor (building principal), requesting information about teaching performance.

Education, Master of Education: Curriculum & Instruction Emphasis

Associate Dean/Graduate Coordinator: Jeff Piquette, Teacher Education Program

Educational researchers and policy makers agree on the fundamental requirements for successful teachers: knowledge of subjects they teach, knowledge of both general and subject-matter specific methods for instruction and assessment; knowledge of student development; and the ability to apply this knowledge with students from diverse backgrounds. The M.Ed. at CSU-Pueblo is planned to impact the quality of teaching and learning in K-12 classrooms by preparing master teachers with expertise in their content disciplines, in the pedagogy of teaching and learning, and in the process of continual professional development and growth. To ensure graduates' application of new knowledge and skills, CSU-Pueblo's program requires application of new knowledge and skills throughout the program and utilizes an assessment model that monitors teacher performance and provides information for ongoing program improvement.

One promising approach that has resulted in significant improvements in teaching practices is the National Board for Professional Teaching Standards (NBPTS) process for National Board Certification. The NBPTS has developed standards for effective teaching in specific subject areas and assessments geared to measure performance against the standards, as well as a process for teachers to demonstrate their performance on these standards. In addition to strengthening classroom teaching, teachers' involvement with the NBPTS program has improved student engagement, motivation, and achievement, including positive impact in low-performing schools.

The Master of Education degree is built on research on teacher change and is designed to prepare teachers to lead school reform, requiring completion of an emphasis area of their choice; of a core of pedagogy courses focusing on literacy instructional technology, and differentiation of instruction; and of a core of courses focusing on professional growth. The National Board standards and certification process form the heart of the M.Ed. core and assessment process. A unique characteristic of the degree is the collaboration of faculty in teacher education and in content disciplines at the University in the design and implementation of the program.

Relationship to the Mission of Teacher Education
The Teacher Education Program has a primary mission to prepare teachers of quality and distinction through K-16 collaborations. One of the central goals of the program is its commitment to serve the region and state of Colorado through partnerships with school districts and institutions of higher education. An integral aspect of this goal is Teacher Education’s formal partnership with school districts in southern and southeastern Colorado. The joint efforts of students, faculty, and administrators across all K-12 partners focus on improving the quality of learning in classrooms in elementary, secondary, and higher education. The Master of Education degree supports this mission, strengthening K-12 teachers’ abilities to provide educational opportunities for their students. At Colorado State University-Pueblo, preparing teachers is a campus-wide responsibility, with faculty and administrators involved in support of the program’s mission.

Graduate Admission Policies and Procedures

Admission
Regular status will be given to degree-seeking students who meet all of the following requirements:

• A baccalaureate degree from an institution accredited by the regional accreditation agency (or equivalent).
• A minimum 3.000 cumulative GPA. Conditional admission may be granted for candidates with cumulative GPAs lower than 2.500, but whose recent graduate GPA (at least 15 hours) is above 3.000
• A letter of interest that outlines the candidate's reason(s) for applying to the M.Ed. program and how they expect to both benefit from and contribute to it.
• Two recommendations from individuals who can speak to potential success in graduate school.
• A teaching license. Conditional admission can be granted for candidates without a teaching license, but with significant teaching experience. Candidates must provide documentation of the quantity and quality of this experience.

International students whose native language is not English must also meet the English language proficiency standard set forth in the Graduate Admissions section of the CSU-Pueblo Catalog.

Continuation
To continue in the program, students must maintain a cumulative GPA of 3.000.

Program Completion
All students must fulfill the following requirements for a graduate degree:

• A cumulative graduate GPA of 3.000 or better at graduation. A maximum of six semester hours of course work at the grade of C+ or C may be applied toward graduation. A maximum number of nine semester hours of transfer credit may be applied to the degree.
• Regular student status.
The program’s minimum number of hours of approved course work (38 semester hours).

- Completion of a final portfolio review and oral examination. The portfolio project includes a directed research project.
- Submission of a graduation planning sheet signed by the student’s graduate advisor and program director, in accordance with published deadlines during the semester is to occur. The deadline for submission is published in the Semester Notes, University Calendar, and CSU-Pueblo Catalog.

M.Ed. Degree Course Requirements

The degree is designed with three components:

1. core courses in research and professional change;
2. pedagogy courses in literacy, differentiation of instruction, and technology; and
3. courses in an emphasis area chosen by the graduate student.

Component 2: Pedagogy Requirements (choose 3 hours from each area, 9 hours total)

CSU-Pueblo recognizes that master teachers demonstrate expertise in understanding and applying current best practices in each of the following areas: literacy education, instructional technology, and differentiation of instruction for all learners. All three were selected because recent research has indicated that application of best practices in these three areas will impact the quality of student achievement in K-12 classrooms. Teachers will select courses based on their development plan, with input from their graduate adviser. Courses cannot be double counted in emphasis areas and the Pedagogy Core.

Component 3: Emphasis Area Requirements (18 hours in one area)

The more deeply teachers grasp content, the more they tend to emphasize conceptual, problem solving, and inquiry aspects of their subjects. The less knowledgeable teachers are of the content they are teaching, the more they tend to emphasize facts and procedures. The purpose of Component 3 of the program is the development of teachers’ content expertise related to their area of responsibility, with candidates choosing among a number of different K-12 emphasis areas. Some areas require prerequisites, and an emphasis area should be chosen with the advisement of their graduate adviser.

The emphasis in Curriculum & Instruction is designed to increase knowledge about curriculum, teaching, learning, teacher education,
and teacher as change agent. It helps prepare teachers to meet the challenges facing modern education, such as diverse and changing social, cultural, economic, and physical environments. Candidates will choose their courses in conjunction with an advisor to create a program that is tailored to individual's needs and interests.

Graduate Program Goals and Student Outcomes

As teachers proceed through the program, they will be asked to apply and demonstrate their growth in learning and teaching related to the following goals and outcomes.

**Content Knowledge Goal:** Master teachers utilize content knowledge to raise the achievement of PK-12 learners.

1. Demonstrate growth in content knowledge related to emphasis area and the application of content knowledge to classroom instruction and assessment.

ensures that the program:

The assessment plan for Colorado State University-Pueblo's M.Ed. Program Assessment to raise student achievement.

Research, including research on school reform and professional development.

Leadership and Change Agent Goal: Master teachers utilize best practices in leadership and change in their own practice and in school change.

Professional Development and School Reform Goal: Master teachers utilize content knowledge to raise the achievement of PK-12 learners.

Pedagogy Goal: Master teachers utilize best practices in instruction and assessment to raise achievement of PK-12 learners.

Content Knowledge Goal: Master teachers utilize content knowledge to raise the achievement of PK-12 learners.

As teachers proceed through the program, they will be asked to apply and demonstrate their growth in learning and teaching related to the following goals and outcomes.

**Content Knowledge Goal:** Master teachers utilize content knowledge to raise the achievement of PK-12 learners.

1. Demonstrate growth in content knowledge related to emphasis area and the application of content knowledge to classroom instruction and assessment.

**Pedagogy Goal:** Master teachers utilize best practices in instruction and assessment to raise achievement of PK-12 learners.

1. Understand scientifically-based practices in teaching and learning, including strategies in literacy education, instructional technology, differentiation of instruction, and apply them to raise student achievement.

2. Demonstrate multiple means of assessing and evaluating student learning and use them to change teaching and learning.

**Professional Development and School Reform Goal:** Master teachers understand the process for professional change in their own practice and in organizations, including the interpretation of educational research.

1. Locate, interpret, synthesize, and apply educational research in best practices in teaching.

2. Understand models for professional change, including teacher collaboration, professional learning communities, strategies for mentoring and coaching to facilitate change, and effective professional development.

3. Demonstrate understanding of reflective practice that results in improved classroom teaching and learning, including teacher reflection, use of technology in self-assessment, collaboration for change, and self-management of change.

4. Demonstrate understanding of system and organizational change in education, including models for school change and current research and trends in school change.

**Leadership and Change Agent Goal:** Master teachers apply educational research, including research on school reform and professional development to raise student achievement.

1. Demonstrate responsibility for student learning at high levels.

2. Demonstrate responsibility for school reform and leadership in school change.

**Program Assessment**

The assessment plan for Colorado State University-Pueblo's M.Ed. ensures that the program:

- Monitors individual student progress necessary to support success.
- Provides summative information on student proficiency on all performance-based standards, and
- Provides reliable and valid information on the program's successes and weaknesses to ensure continuous program improvement.

The assessment design has four components:

1. Benchmarks, student outcomes and tasks aligned with the Colorado Department of Education standards for content areas leading to endorsements (Special Education, Linguistically Diverse Education, and Instructional Technology) and the National Board of Professional Teaching Standards, forming the basis for both monitoring of student success and program evaluation.

2. A series of evaluation tools that are used by faculty within courses and at program completion to assess student performance in meeting all standards.

3. A system for documenting and monitoring student progress using the student's electronic portfolio.

4. A system to identify program strengths and weaknesses resulting in continual program improvement.

**Performance Standards, Program Alignment and Evaluation Criteria**

A range of tasks aligned to program standards, curriculum and instructional activities throughout the program provide multiple sources of evidence to assess performance on each program standard. These tasks include a range of examples of teaching and learning, most of them authentic teaching performance, including all of the following:

- Curriculum plans: lesson plans and unit planning.
- Self evaluations and peer evaluations of teaching.
- Measures of achievement of PK-12 students: student work samples, pre-post data, and a range of assessment results.
- Standardized test scores (e.g., the PRAXIS exam for Special Education), as well as teacher-constructed exams and quizzes.
- Materials and artifacts from activities with parents, colleagues, and classroom teachers included in the master's portfolio.
- Evidence of ability to understand and utilize research to improve practice.
- Evidence of inquiry (e.g., action research, case studies) to change practice.
- Video case studies of teaching.
- Evidence of program and school change, including activities in coaching, mentoring, and professional learning communities.

Graduate students begin developing their M.Ed. portfolio with their first master’s course. The portfolio is a web-based database system that is linked with a system for faculty to review materials and communicate their feedback to the student. Documents that demonstrate their performance on specific standards are added throughout the program.

**Program Completion**

During the final capstone course, students submit the portfolio for review by a group of three faculty. In addition to the portfolio materials, graduate students participate in an oral review of portfolio contents.

Additional courses with an Early Childhood Education focus may be added with approval of the graduate advisor. Students completing this area should confer with their advisor if they wish to select courses leading to teacher licensure in Early Childhood Education.

**Graduate Program Goals and Student Outcomes**

As teachers proceed through the program, they will be asked to apply and demonstrate their growth in learning and teaching related to the following goals and outcomes.

**Content Knowledge Goal:** Master teachers utilize content knowledge to raise the achievement of PK-12 learners.

1. Demonstrate growth in content knowledge related to emphasis area and the application of content knowledge to classroom instruction and assessment.

**Pedagogy Goal:** Master teachers utilize best practices in instruction and assessment to raise achievement of PK-12 learners.

1. Understand scientifically-based practices in teaching and learning, including strategies in literacy education, instructional technology, differentiation of instruction, and apply them to raise student achievement.

2. Demonstrate multiple means of assessing and evaluating student learning and use them to change teaching and learning.

**Professional Development and School Reform Goal:** Master teachers understand the process for professional change in their own practice and in organizations, including the interpretation of educational research.

1. Locate, interpret, synthesize, and apply educational research in best practices in teaching.

2. Understand models for professional change, including teacher collaboration, professional learning communities, strategies for mentoring and coaching to facilitate change, and effective professional development.

3. Demonstrate understanding of reflective practice that results in improved classroom teaching and learning, including teacher reflection, use of technology in self-assessment, collaboration for change, and self-management of change.

4. Demonstrate understanding of system and organizational change in education, including models for school change and current research and trends in school change.

**Leadership and Change Agent Goal:** Master teachers apply educational research, including research on school reform and professional development to raise student achievement.

1. Demonstrate responsibility for student learning at high levels.

2. Demonstrate responsibility for school reform and leadership in school change.

**Program Assessment**

The assessment plan for Colorado State University-Pueblo's M.Ed. ensures that the program:

1. Monitors individual student progress necessary to support success, and
2. Provides summative information on student proficiency on all performance-based standards, and
3. Provides reliable and valid information on the program's successes and weaknesses to ensure continuous program improvement.

The assessment design has four components:

1. Benchmarks, student outcomes and tasks aligned with the Colorado Department of Education standards for content areas leading to endorsements (Special Education, Linguistically Diverse Education, and Instructional Technology) and the National Board of Professional Teaching Standards, forming the basis for both monitoring of student success and program evaluation.

2. A series of evaluation tools that are used by faculty within courses and at program completion to assess student performance in meeting all standards.

3. A system for documenting and monitoring student progress using the student's electronic portfolio.

4. A system to identify program strengths and weaknesses resulting in continual program improvement.

**Performance Standards, Program Alignment and Evaluation Criteria**

A range of tasks aligned to program standards, curriculum and instructional activities throughout the program provide multiple sources of evidence to assess performance on each program standard. These tasks include a range of examples of teaching and learning, most of them authentic teaching performance, including all of the following:

- Curriculum plans: lesson plans and unit planning.
- Self evaluations and peer evaluations of teaching.
- Measures of achievement of PK-12 students: student work samples, pre-post data, and a range of assessment results.
- Standardized test scores (e.g., the PRAXIS exam for Special Education), as well as teacher-constructed exams and quizzes.
- Materials and artifacts from activities with parents, colleagues, and classroom teachers included in the master's portfolio.
- Evidence of ability to understand and utilize research to improve practice.
- Evidence of inquiry (e.g., action research, case studies) to change practice.
- Video case studies of teaching.
- Evidence of program and school change, including activities in coaching, mentoring, and professional learning communities.

Graduate students begin developing their M.Ed. portfolio with their first master’s course. The portfolio is a web-based database system that is linked with a system for faculty to review materials and communicate their feedback to the student. Documents that demonstrate their performance on specific standards are added throughout the program.

**Program Completion**

During the final capstone course, students submit the portfolio for review by a group of three faculty. In addition to the portfolio materials, graduate students participate in an oral review of portfolio contents.
**Program Completer Self-Evaluation**

At the end of their final course, students will complete their own self-evaluation of their performance across program standards and an evaluation of the quality of the master's program.

**Follow-up Assessments**

One year after graduating from the program, teacher education will conduct a survey, requesting feedback from each graduate about his/her teaching and about the quality of preparation at CSU-Pueblo. Survey forms will be aligned with the program standards. A similar survey will be sent to each graduate's supervisor (building principal), requesting information about teaching performance.

**Education, Master of Education: Early Learning Emphasis**

Associate Dean/Graduate Coordinator: Jeff Piquette, Teacher Education Program

Educational researchers and policy makers agree on the fundamental requirements for successful teachers: knowledge of subjects they teach, knowledge of both general and subject-matter specific methods for instruction and assessment; knowledge of student development; and the ability to apply this knowledge with students from diverse backgrounds. The M.Ed. at CSU-Pueblo is planned to impact the quality of teaching and learning in K-12 classrooms by preparing master teachers with expertise in their content disciplines, in the pedagogy of teaching and learning, and in the process of continual professional development and growth. To ensure graduates' application of new knowledge and skills, CSU-Pueblo's program requires application of new knowledge and skills throughout the program and utilizes an assessment model that monitors teacher performance and provides information for ongoing program improvement.

One promising approach that has resulted in significant improvements in teaching practices is the National Board for Professional Teaching Standards (NBPTS) process for National Board Certification. The NBPTS has developed standards for effective teaching in specific subject areas and assessments geared to measure performance against the standards, as well as a process for teachers to demonstrate their performance on these standards. In addition to strengthening classroom teaching, teachers' involvement with the NBPTS program has improved student engagement, motivation, and achievement, including positive impact in low-performing schools.

The Master of Education degree is built on research on teacher change and is designed to prepare teachers to lead school reform, requiring completion of an emphasis area of their choice; of a core of pedagogy courses focusing on literacy instructional technology, and differentiation of instruction; and of a core of courses focusing on professional growth. The National Board standards and certification process form the heart of the M.Ed. core and assessment process. A unique characteristic of the degree is the collaboration of faculty in teacher education and in content disciplines at the University in the design and implementation of the program.

**Relationship to the Mission of Teacher Education**

The Teacher Education Program has a primary mission to prepare teachers of quality and distinction through K-16 collaborations. One of the central goals of the program is its commitment to serve the region and state of Colorado through partnerships with school districts and institutions of higher education. An integral aspect of this goal is Teacher Education’s formal partnership with school districts in southern and southeastern Colorado. The joint efforts of students, faculty, and administrators across all K-16 partners focus on improving the quality of learning in classrooms in elementary, secondary, and higher education. The Master of Education degree supports this mission, strengthening K-12 teachers’ abilities to provide educational opportunities for their students. At Colorado State University-Pueblo, preparing teachers is a campus-wide responsibility, with faculty and administrators involved in support of the program’s mission.

**Graduate Admission Policies and Procedures**

**Admission**

Regular status will be given to degree-seeking students who meet all of the following requirements:

- A baccalaureate degree from an institution accredited by the regional accreditation agency (or equivalent).
- A minimum 3.000 cumulative GPA. Conditional admission may be granted for candidates with cumulative GPAs lower than 2.500, but whose recent graduate GPA (at least 15 hours) is above 3.000
- A letter of interest that outlines the candidate's reason(s) for applying to the M.Ed. program and how they expect to both benefit from and contribute to it.
- Two recommendations from individuals who can speak to potential success in graduate school.
- A teaching license. Conditional admission can be granted for candidates without a teaching license, but with significant teaching experience.

International students whose native language is not English must also meet the English language proficiency standard set forth in the Graduate Admissions section of the CSU-Pueblo Catalog.

**Continuation**

To continue in the program, students must maintain a cumulative GPA of 3.000.

**Program Completion**

All students must fulfill the following requirements for a graduate degree:

- A cumulative graduate GPA of 3.000 or better at graduation.
- A maximum of six semester hours of course work at the grade of C+ or C may be applied toward graduation. A maximum number of nine semester hours of transfer credit may be applied to the degree.
- Regular student status.
- The program's minimum number of hours of approved course work (38 semester hours).
- Completion of a final portfolio review and oral examination. The portfolio project includes a directed research project.
- Submission of a graduation planning sheet signed by the student's graduate advisor and program director, in accordance with published deadlines during the semester is to occur. The deadline for submission is published in the Semester Notes, University Calendar, and CSU-Pueblo Catalog.
M.Ed. Degree Course Requirements

The degree is designed with three components:

1. core courses in research and professional change;
2. pedagogy courses in literacy, differentiation of instruction, and technology; and
3. courses in an emphasis area chosen by the graduate student.

A unique feature of the degree is its alignment with the standards of the National Board for Professional Teaching Standards and participants’ opportunity to work towards national board certification as they complete the degree.

Component 1: Core Requirements (11 hours)

Organizational change and school reform, as well as the responsibilities of professional leadership related to educational change, are emphasized in the core. The four courses in Component 1 are developmental, with the first taken within the first nine hours, the third within the last nine hours, and the final course completed as the capstone experience in the program. All courses focus on knowledge and skills related to teacher change and leadership as a change agent in the schools. Emphasis in interpreting and conducting research is included.

Although courses in Components 2 and 3 may be completed by teachers, degree plus or senior students who have been admitted to the Teacher Education Program and meet the 2.60 GPA requirements, admission to all Core courses requires full admission to the graduate program.

Component 2: Pedagogy Requirements (choose 3 hours from each category, 9 hours total)

CSU-Pueblo recognizes that master teachers demonstrate expertise in understanding and applying current best practices in each of the following areas: literacy education, instructional technology, and differentiation of instruction for all learners. All three were selected because recent research has indicated that application of best practices in these three areas will impact the quality of student achievement in K-12 classrooms. Teachers will select courses based on their development plan, with input from their graduate adviser. Courses cannot be double counted in emphasis areas and the Pedagogy Core.

Instructional Technology

Graduate students may select from instructional technology courses offered by the University, with approval of their faculty advisers. Sample courses include:

<table>

<tr>
<td>ED 523</td>
<td>Teaching and Managing Technology</td>
<td>3</td>
</tr>
<tr>
<td>ED 529</td>
<td>Literacy &amp; Technology</td>
<td>3</td>
</tr>
</tbody>
</table>

Component 3: Emphasis Area Requirements (18 hours in one area)

The more deeply teachers grasp content, the more they tend to emphasize conceptual, problem solving, and inquiry aspects of their subjects. The less knowledgeable teachers are of the content they are teaching, the more they tend to emphasize facts and procedures. The purpose of Component 3 of the program is the development of teachers’ content expertise related to their area of responsibility, with candidates choosing among a number of different K-12 emphasis areas. Some areas require prerequisites, and an emphasis area should be chosen with the advisement of their graduate adviser.

Program Completer Self-Evaluation
At the end of their final course, students will complete their own self-evaluation of their performance across program standards and an evaluation of the quality of the master’s program.

Follow-up Assessments
One year after graduating from the program, teacher education will conduct a survey, requesting feedback from each graduate about his/her teaching and about the quality of preparation at CSU-Pueblo. Survey forms will be aligned with the program standards. A similar survey will be sent to each graduate’s supervisor (building principal), requesting information about teaching performance.

Education, Master of Education: English Emphasis

Graduate Coordinator: Cynthia Taylor, English and World Languages Department
Associate Dean: Jeff Piquette

The emphasis in English helps develop teachers of English and Language Arts by expanding their proficiency and understanding of language, literature, linguistics, and other issues in the field. As with other discipline-specific courses, this emphasis helps individuals meet credentialing expectations for concurrent enrollment and other higher education courses.

Educational researchers and policy makers agree on the fundamental requirements for successful teachers: knowledge of subjects they teach, knowledge of both general and subject-matter specific methods for instruction and assessment; knowledge of student development; and the ability to apply this knowledge with students from diverse backgrounds. The M.Ed. at CSU-Pueblo is planned to impact the quality of teaching and learning in K-12 classrooms by preparing master teachers with expertise in their content disciplines, in the pedagogy of teaching and learning, and in the process of continual professional development and growth. To ensure graduates’ application of new knowledge and skills, CSU-Pueblo’s program requires application of new knowledge and skills throughout the program and utilizes an assessment model that monitors teacher performance and provides information for ongoing program improvement.

One promising approach that has resulted in significant improvements in teaching practices is the National Board for Professional Teaching Standards (NBPTS) process for National Board Certification. The NBPTS has developed standards for effective teaching in specific subject areas and assessments geared to measure performance against the standards, as well as a process for teachers to demonstrate their performance on these standards. In addition to strengthening classroom teaching, teachers’ involvement with the NBPTS program has improved student engagement, motivation, and achievement, including positive impact in low-performing schools.

The Master of Education degree is built on research on teacher change and is designed to prepare teachers to lead school reform, requiring completion of an emphasis area of their choice; of a core of pedagogy courses focusing on literacy instructional technology, and differentiation of instruction; and of a core of courses focusing on professional growth. The National Board standards and certification process form the heart of the M.Ed. core and assessment process. A unique characteristic of the degree is the collaboration of faculty in teacher education and in content disciplines at the University in the design and implementation of the program.

Relationship to the Mission of Teacher Education
The Teacher Education Program has a primary mission to prepare teachers of quality and distinction through K-16 collaborations. One of the central goals of the program is its commitment to serve the region and state of Colorado through partnerships with school districts and institutions of higher education. An integral aspect of this goal is Teacher Education’s formal partnership with school districts in southern and southeastern Colorado. The joint efforts of students, faculty, and administrators across all K-16 partners focus on improving the quality of learning in classrooms in elementary, secondary, and higher education. The Master of Education degree supports this mission, strengthening K-12 teachers’ abilities to provide educational opportunities for their students. At Colorado State University-Pueblo, preparing teachers is a campus-wide responsibility, with faculty and administrators involved in support of the program’s mission.

Graduate Admission Policies and Procedures

Admission
Regular status will be given to degree-seeking students who meet all of the following requirements:

- A baccalaureate degree from an institution accredited by the regional accreditation agency (or equivalent).
- A minimum 3.000 cumulative GPA. Conditional admission may be granted for candidates with cumulative GPAs lower than 2.500, but whose recent graduate GPA (at least 15 hours) is above 3.000.
- A letter of interest that outlines the candidate’s reason(s) for applying to the M.Ed. program and how they expect to both benefit from and contribute to it.
- Two recommendations from individuals who can speak to potential success in graduate school.
- A teaching license. Conditional admission can be granted for candidates without a teaching license, but with significant teaching experience. Candidates must provide documentation of the quantity and quality of this experience.

International students whose native language is not English must also meet the English language proficiency standard set forth in the Graduate Admissions section of the CSU-Pueblo Catalog.

Continuation
To continue in the program, students must maintain a cumulative GPA of 3.000.

Program Completion
All students must fulfill the following requirements for a graduate degree:

- A cumulative graduate GPA of 3.000 or better at graduation. A maximum of six semester hours of course work at the grade of C+ or C may be applied toward graduation. A maximum number of nine semester hours of transfer credit may be applied to the degree.
- Regular student status.
- The program’s minimum number of hours of approved course work (38 semester hours).
• Completion of a final portfolio review and oral examination. The portfolio project includes a directed research project.
• Submission of a graduation planning sheet signed by the student’s graduate advisor and program director, in accordance with published deadlines during the semester to occur. The deadline for submission is published in the Semester Notes, University Calendar, and CSU-Pueblo Catalog.

M.Ed. Degree Course Requirements

The degree is designed with three components:

1. core courses in research and professional change;
2. pedagogy courses in literacy, differentiation of instruction, and technology; and
3. courses in an emphasis area chosen by the graduate student.

A unique feature of the degree is its alignment with the standards of the National Board for Professional Teaching Standards and participants’ opportunity to work towards national board certification as they complete the degree.

Component 1: Core Requirements (11 hours)

Organizational change and school reform, as well as the responsibilities of professional leadership related to educational change, are emphasized in the core. The four courses in Component 1 are developmental, with the first taken within the first nine hours, the third within the last nine hours, and the final course completed as the capstone experience in the program. All courses focus on knowledge and skills related to teacher change and leadership as a change agent in the schools. Emphasis in interpreting and conducting research is included.

Although courses in Components 2 and 3 may be completed by teachers, degree plus or senior students who have been admitted to the Teacher Education Program and meet the 2.600 GPA requirements, admission to all Core courses requires full admission to the graduate program.

Total Credits 11

Component 2: Pedagogy Requirements (choose 3 hours from each category, 9 hours total)

CSU-Pueblo recognizes that master teachers demonstrate expertise in understanding and applying current best practices in each of the following areas: literacy education, instructional technology, and differentiation of instruction for all learners. All three were selected because recent research has indicated that application of best practices in these three areas will impact the quality of student achievement in K-12 classrooms. Teachers will select courses based on their development plan, with input from their graduate adviser. Courses cannot be double counted in emphasis areas and the Pedagogy Core.

Total Credits 9

Component 3: Emphasis Area Requirements (18 hours in one area)

The more deeply teachers grasp content, the more they tend to emphasize conceptual, problem solving, and inquiry aspects of their subjects. The less knowledgeable teachers are of the content they are teaching, the more they tend to emphasize facts and procedures. The purpose of Component 3 of the program is the development of teachers’ content expertise related to their area of responsibility, with candidates choosing among a number of different K-12 emphasis areas. Some areas require prerequisites, and an emphasis area should be chosen with the advisement of their graduate adviser.

Instructional Technology

Graduate students may select from instructional technology courses offered by the University, with approval of their faculty advisers. Sample courses include:

Component 3: Emphasis Area Requirements (18 hours in one area)

The more deeply teachers grasp content, the more they tend to emphasize conceptual, problem solving, and inquiry aspects of their subjects. The less knowledgeable teachers are of the content they are teaching, the more they tend to emphasize facts and procedures. The purpose of Component 3 of the program is the development of teachers’ content expertise related to their area of responsibility, with candidates choosing among a number of different K-12 emphasis areas. Some areas require prerequisites, and an emphasis area should be chosen with the advisement of their graduate adviser.
Graduate Program Goals and Student Outcomes

As teachers proceed through the program, they will be asked to apply and demonstrate their growth in learning and teaching related to the following goals and outcomes.

**Content Knowledge Goal:** Master teachers utilize content knowledge to raise the achievement of PK-12 learners.

1. Demonstrate growth in content knowledge related to emphasis area and the application of content knowledge to classroom instruction and assessment.

**Pedagogy Goal:** Master teachers utilize best practices in instruction and assessment to raise achievement of PK-12 learners.

1. Understand scientifically-based practices in teaching and learning, including strategies in literacy education, instructional technology, differentiation of instruction, and apply them to raise student achievement.
2. Demonstrate multiple means of assessing and evaluating student learning and use them to change teaching and learning.

**Professional Development and School Reform Goal:** Master teachers understand the process for professional change in their own practice and in education, including the interpretation of educational research.

1. Locate, interpret, synthesize, and apply educational research in best practices in teaching.
2. Understand models for professional change, including teacher collaboration, professional learning communities, strategies for mentoring and coaching to facilitate change, and effective professional development.
3. Demonstrate understanding of reflective practice that results in improved classroom teaching and learning, including teacher reflection, use of technology in self-assessment, collaboration for change, and self-management of change.
4. Demonstrate understanding of system and organizational change in education, including models for school change and current research and trends in school change.

**Leadership and Change Agent Goal:** Master teachers apply educational research, including research on school reform and professional development to raise student achievement.

1. Demonstrate responsibility for student learning at high levels.
2. Demonstrate responsibility for school reform and leadership in school change.

Program Assessment

The assessment plan for Colorado State University-Pueblo’s M.Ed. ensures that the program:

1. Monitors individual student progress necessary to support success,
2. Provides summative information on student proficiency on all performance-based standards, and
3. Provides reliable and valid information on the program’s successes and weaknesses to ensure continuous program improvement.

The assessment design has four components:

1. Benchmarks, student outcomes and tasks aligned with the Colorado Department of Education standards for content areas leading to endorsements (Special Education, Linguistically Diverse Education, and Instructional Technology) and the National Board of Professional Teaching Standards, forming the basis for both monitoring of student success and program evaluation.
2. A series of evaluation tools that are used by faculty within courses and at program completion to assess student performance in meeting all standards.
3. A system for documenting and monitoring student progress using the student’s electronic portfolio.
4. A system to identify program strengths and weaknesses resulting in continual program improvement.

Performance Standards, Program Alignment and Evaluation Criteria

A range of tasks aligned to program standards, curriculum and instructional activities throughout the program provide multiple sources of evidence to assess performance on each program standard. These tasks include a range of examples of teaching and learning, most of them authentic teaching performance, including all of the following:

- Curriculum plans: lesson plans and unit planning.
- Self evaluations and peer evaluations of teaching.
- Measures of achievement of PK-12 students: student work samples, pre-post data, and a range of assessment results.
- Standardized test scores (e.g., the PRAXIS exam for Special Education), as well as teacher-constructed exams and quizzes.
- Materials and artifacts from activities with parents, colleagues, and classroom teachers included in the master’s portfolio.
- Evidence of ability to understand and utilize research to improve practice.
- Evidence of inquiry (e.g., action research, case studies) to change practice.
- Video case studies of teaching.
- Evidence of program and school change, including activities in coaching, mentoring, and professional learning communities.

Graduate students begin developing their M.Ed. portfolio with their first master’s course. The portfolio is a web-based database system that is linked with a system for faculty to review materials and communicate their feedback to the student. Documents that demonstrate their performance on specific standards are added throughout the program.

Program Completion

During the final capstone course, students submit the portfolio for review by a group of three faculty. In addition to the portfolio materials, graduate students participate in an oral review of portfolio contents.

Program Completer Self-Evaluation

At the end of their final course, students will complete their own self-evaluation of their performance across program standards and an evaluation of the quality of the master’s program.

Follow-up Assessments

One year after graduating from the program, teacher education will conduct a survey, requesting feedback from each graduate about his/her teaching and about the quality of preparation at CSU-Pueblo. Survey forms will be aligned with the program standards. A similar survey will
be sent to each graduate's supervisor (building principal), requesting information about teaching performance.

**Education, Master of Education: Health & Physical Education Emphasis**

Graduate Coordinator: Christine Rochester, Exercise Science, Health Promotion, and Recreation Department

Associate Dean: Jeff Piquette

Educational researchers and policy makers agree on the fundamental requirements for successful teachers: knowledge of subjects they teach, knowledge of both general and subject-matter specific methods for instruction and assessment; knowledge of student development; and the ability to apply this knowledge with students from diverse backgrounds. The M.Ed. at CSU-Pueblo is planned to impact the quality of teaching and learning in K-12 classrooms by preparing master teachers with expertise in their content disciplines, in the pedagogy of teaching and learning, and in the process of continual professional development and growth. To ensure graduates' application of new knowledge and skills, CSU-Pueblo's program requires application of new knowledge and skills throughout the program and utilizes an assessment model that monitors teacher performance and provides information for ongoing program improvement.

One promising approach that has resulted in significant improvements in teaching practices is the National Board for Professional Teaching Standards (NBPTS) process for National Board Certification. The NBPTS has developed standards for effective teaching in specific subject areas and assessments geared to measure performance against the standards, as well as a process for teachers to demonstrate their performance on these standards. In addition to strengthening classroom teaching, teachers' involvement with the NBPTS program has improved student engagement, motivation, and achievement, including positive impact in low-performing schools.

The Master of Education degree is built on research on teacher change and is designed to prepare teachers to lead school reform, requiring completion of an emphasis area of their choice; of a core of pedagogy courses focusing on literacy instructional technology, and differentiation of instruction; and of a core of courses focusing on professional growth. The National Board standards and certification process form the heart of the M.Ed. core and assessment process. A unique characteristic of the degree is the collaboration of faculty in teacher education and in content disciplines at the University in the design and implementation of the program.

**Relationship to the Mission of Teacher Education**

The Teacher Education Program has a primary mission to prepare teachers of quality and distinction through K-16 collaborations. One of the central goals of the program is its commitment to serve the region and state of Colorado through partnerships with school districts and institutions of higher education. An integral aspect of this goal is Teacher Education's formal partnership with school districts in southern and southeastern Colorado. The joint efforts of students, faculty, and administrators across all K-16 partners focus on improving the quality of learning in classrooms in elementary, secondary, and higher education.

The Master of Education degree supports this mission, strengthening K-12 teachers' abilities to provide educational opportunities for their students. At Colorado State University-Pueblo, preparing teachers is a campus-wide responsibility, with faculty and administrators involved in support of the program's mission.

**Graduate Admission Policies and Procedures**

**Admission**

Regular status will be given to degree-seeking students who meet all of the following requirements:

- A baccalaureate degree from an institution accredited by the regional accreditation agency (or equivalent).
- A minimum 3.000 cumulative GPA. Conditional admission may be granted for candidates with cumulative GPAs lower than 2.500, but whose recent graduate GPA (at least 15 hours) is above 3.000
- A letter of interest that outlines the candidate's reason(s) for applying to the M.Ed. program and how they expect to both benefit from and contribute to it.
- Two recommendations from individuals who can speak to potential success in graduate school.
- A teaching license. Conditional admission can be granted for candidates without a teaching license, but with significant teaching experience. Candidates must provide documentation of the quantity and quality of this experience.

International students whose native language is not English must also meet the English language proficiency standard set forth in the Graduate Admissions section of the CSU-Pueblo Catalog.

**Continuation**

To continue in the program, students must maintain a cumulative GPA of 3.000.

**Program Completion**

All students must fulfill the following requirements for a graduate degree:

- A cumulative graduate GPA of 3.000 or better at graduation. A maximum of six semester hours of course work at the grade of C+ or C may be applied toward graduation. A maximum number of nine semester hours of transfer credit may be applied to the degree.
- Regular student status.
- The program's minimum number of hours of approved course work (38 semester hours).
- Completion of a final portfolio review and oral examination. The portfolio project includes a directed research project.
- Submission of a graduation planning sheet signed by the student's graduate advisor and program director, in accordance with published deadlines during the semester is to occur. The deadline for submission is published in the Semester Notes, University Calendar, and CSU-Pueblo Catalog.

**M.Ed. Degree Course Requirements**

The degree is designed with three components:
1. core courses in research and professional change;

One of the central goals of the program is its commitment to serve the region and state of Colorado through partnerships with school districts and institutions of higher education. An integral aspect of this goal is Teacher Education’s formal partnership with school districts in southern and southeastern Colorado. The joint efforts of students, faculty, and administrators across all K-16 partners focus on improving the quality of learning in classrooms in elementary, secondary, and higher education. The Master of Education degree supports this mission, strengthening K-12 teachers’ abilities to provide educational opportunities for their students. At Colorado State University-Pueblo, preparing teachers is a campus-wide responsibility, with faculty and administrators involved in support of the program’s mission.

**Graduate Admission Policies and Procedures**

**Admission**
Regular status will be given to degree-seeking students who meet all of the following requirements:

- A baccalaureate degree from an institution accredited by the regional accreditation agency (or equivalent).
- A minimum 3.000 cumulative GPA. Conditional admission may be granted for candidates with cumulative GPAs lower than 2.500, but whose recent graduate GPA (at least 15 hours) is above 3.000
- A letter of interest that outlines the candidate’s reason(s) for applying to the M.Ed. program and how they expect to both benefit from and contribute to it.
- Two recommendations from Individuals who can speak to potential success in graduate school.
- A teaching license. Conditional admission can be granted for candidates without a teaching license, but with significant teaching experience, Candidates must provide documentation of the quantity and quality of this experience.

International students whose native language is not English must also meet the English language proficiency standard set forth in the Graduate Admissions section of the CSU-Pueblo Catalog.

**Continuation**
To continue in the program, students must maintain a cumulative GPA of 3.000.

**Program Completion**
All students must fulfill the following requirements for a graduate degree:

- A cumulative graduate GPA of 3.000 or better at graduation. A maximum of six semester hours of course work at the grade of C+ or C may be applied toward graduation. A maximum number of nine semester hours of transfer credit may be applied to the degree.
- Regular student status.
- The program’s minimum number of hours of approved course work (38 semester hours).
• Completion of a final portfolio review and oral examination. The portfolio project includes a directed research project.
• Submission of a graduation planning sheet signed by the student’s graduate advisor and program director, in accordance with published deadlines during the semester to occur. The deadline for submission is published in the Semester Notes, University Calendar, and CSU-Pueblo Catalog.

M.Ed. Degree Course Requirements
The degree is designed with three components:

1. Core courses in research and professional change;
2. Pedagogy courses in literacy, differentiation of instruction, and technology; and
3. Courses in an emphasis area chosen by the graduate student.

A unique feature of the degree is its alignment with the standards of the National Board for Professional Teaching Standards and participants’ opportunity to work towards national board certification as they complete the degree.

Component 1: Core Requirements (11 hours)
Organizational change and school reform, as well as the responsibilities of professional leadership related to educational change, are emphasized in the core. The four courses in Component 1 are developmental, with the first taken within the first nine hours, the third within the last nine hours, and the final course completed as the capstone experience in the program. All courses focus on knowledge and skills related to teacher change and leadership as a change agent in the schools. Emphasis in interpreting and conducting research is included.

Although courses in Components 2 and 3 may be completed by teachers, degree plus or senior students who have been admitted to the Teacher Education Program and meet the 2.600 GPA requirements, admission to all Core courses requires full admission to the graduate program.

Total Credits 11

Component 2: Pedagogy Requirements (choose 3 hours from each category, 9 hours total)

CSU-Pueblo recognizes that master teachers demonstrate expertise in understanding and applying current best practices in each of the following areas: literacy education, instructional technology, and differentiation of instruction for all learners. All three were selected because recent research has indicated that application of best practices in these three areas will impact the quality of student achievement in K-12 classrooms. Teachers will select courses based on their development plan, with input from their graduate adviser. Courses cannot be double counted in emphasis areas and the Pedagogy Core.

Instructional Technology
Graduate students may select from instructional technology courses offered by the University, with approval of their faculty advisers. Sample courses include:

Total Credits 3

Component 3: Emphasis Area Requirements (18 hours in one area)
The more deeply teachers grasp content, the more they tend to emphasize conceptual, problem solving, and inquiry aspects of their subjects. The less knowledgeable teachers are of the content they are teaching, the more they tend to emphasize facts and procedures. The purpose of Component 3 of the program is the development of teachers’ content expertise related to their area of responsibility, with candidates choosing among a number of different K-12 emphasis areas. Some areas require prerequisites, and an emphasis area should be chosen with the advisement of their graduate adviser.

Total Credits 3

**Leadership and Change Agent Goal:** Master teachers apply educational research, including research on school reform and professional development to raise student achievement.

1. Demonstrate responsibility for student learning at high levels.
2. Demonstrate responsibility for school reform and leadership in school change.

**Program Assessment**

The assessment plan for Colorado State University-Pueblo’s M.Ed. ensures that the program:

1. Monitors individual student progress necessary to support success,
2. Provides summative information on student proficiency on all performance-based standards, and
3. Provides reliable and valid information on the program’s successes and weaknesses to ensure continuous program improvement.

The assessment design has four components:

1. Benchmarks, student outcomes and tasks aligned with the Colorado Department of Education standards for content areas leading to endorsements (Special Education, Linguistically Diverse Education, and Instructional Technology) and the National Board of Professional Teaching Standards, forming the basis for both monitoring of student success and program evaluation.
2. A series of evaluation tools that are used by faculty within courses and at program completion to assess student performance in meeting all standards.
3. A system for documenting and monitoring student progress using the student’s electronic portfolio.
4. A system to identify program strengths and weaknesses resulting in continual program improvement.

**Performance Standards, Program Alignment and Evaluation Criteria**

A range of tasks aligned to program standards, curriculum and instructional activities throughout the program provide multiple sources of evidence to assess performance on each program standard. These tasks include a range of examples of teaching and learning, most of them authentic teaching performance, including all of the following:

- Curriculum plans: lesson plans and unit planning.
- Self evaluations and peer evaluations of teaching.
- Measures of achievement of PK-12 students: student work samples, pre-post data, and a range of assessment results.
- Standardized test scores (e.g., the PRAXIS exam for Special Education), as well as teacher-constructed exams and quizzes.
- Materials and artifacts from activities with parents, colleagues, and classroom teachers included in the master’s portfolio.
- Evidence of ability to understand and utilize research to improve practice.
- Evidence of inquiry (e.g., action research, case studies) to change practice.
- Video case studies of teaching.
- Evidence of program and school change, including activities in coaching, mentoring, and professional learning communities.

Students completing this area should confer with their adviser if they wish to select courses leading to completion of the Colorado endorsement for K-12 Instructional Technology Teachers and K-12 Instructional Technology Specialists.

**Graduate Program Goals and Student Outcomes**

As teachers proceed through the program, they will be asked to apply and demonstrate their growth in learning and teaching related to the following goals and outcomes.

**Content Knowledge Goal:** Master teachers utilize content knowledge to raise the achievement of PK-12 learners.

1. Demonstrate growth in content knowledge related to emphasis area and the application of content knowledge to classroom instruction and assessment.

**Pedagogy Goal:** Master teachers utilize best practices in instruction and assessment to raise achievement of PK-12 learners.

1. Understand scientifically-based practices in teaching and learning, including strategies in literacy education, instructional technology, differentiation of instruction, and apply them to raise student achievement.
2. Demonstrate multiple means of assessing and evaluating student learning and use them to change teaching and learning.

**Professional Development and School Reform Goal:** Master teachers understand the process for professional change in their own practice and in education, including the interpretation of educational research.

1. Locate, interpret, synthesize, and apply educational research in best practices in teaching.
2. Understand models for professional change, including teacher collaboration, professional learning communities, strategies for mentoring and coaching to facilitate change, and effective professional development.
3. Demonstrate understanding of reflective practice that results in improved classroom teaching and learning, including teacher reflection, use of technology in self-assessment, collaboration for change, and self-management of change.
4. Demonstrate understanding of system and organizational change in education, including models for school change and current research and trends in school change.
Graduate students begin developing their M.Ed. portfolio with their first master’s course. The portfolio is a web-based database system that is linked with a system for faculty to review materials and communicate their feedback to the student. Documents that demonstrate their performance on specific standards are added throughout the program.

Program Completion
During the final capstone course, students submit the portfolio for review by a group of three faculty. In addition to the portfolio materials, graduate students participate in an oral review of portfolio contents.

Program Completer Self-Evaluation
At the end of their final course, students will complete their own self-evaluation of their performance across program standards and an evaluation of the quality of the master’s program.

Follow-up Assessments
One year after graduating from the program, teacher education will conduct a survey, requesting feedback from each graduate about his/her teaching and about the quality of preparation at CSU-Pueblo. Survey forms will be aligned with the program standards. A similar survey will be sent to each graduate’s supervisor (building principal), requesting information about teaching performance.

Education, Master of Education: Linguistically Diverse Emphasis
Associate Dean/Graduate Coordinator: Jeff Piquette, Teacher Education Program

Educational researchers and policy makers agree on the fundamental requirements for successful teachers: knowledge of subjects they teach, knowledge of both general and subject-matter specific methods for instruction and assessment; knowledge of student development; and the ability to apply this knowledge with students from diverse backgrounds. The M.Ed. at CSU-Pueblo is planned to impact the quality of teaching and learning in K-12 classrooms by preparing master teachers with expertise in their content disciplines, in the pedagogy of teaching and learning, and in the process of continual professional development and growth. To ensure graduates’ application of new knowledge and skills, CSU-Pueblo’s program requires application of new knowledge and skills throughout the program and utilizes an assessment model that monitors teacher performance and provides information for ongoing program improvement.

One promising approach that has resulted in significant improvements in teaching practices is the National Board for Professional Teaching Standards (NBPTS) process for National Board Certification. The NBPTS has developed standards for effective teaching in specific subject areas and assessments geared to measure performance against the standards, as well as a process for teachers to demonstrate their performance on these standards. In addition to strengthening classroom teaching, teachers’ involvement with the NBPTS program has improved student engagement, motivation, and achievement, including positive impact in low-performing schools.

The Master of Education degree is built on research on teacher change and is designed to prepare teachers to lead school reform, requiring completion of an emphasis area of their choice; of a core of pedagogy courses focusing on literacy instructional technology, and differentiation of instruction; and of a core of courses focusing on professional growth. The National Board standards and certification process form the heart of the M.Ed. core and assessment process. A unique characteristic of the degree is the collaboration of faculty in teacher education and in content disciplines at the University in the design and implementation of the program.

Relationship to the Mission of Teacher Education
The Teacher Education Program has a primary mission to prepare teachers of quality and distinction through K-16 collaborations. One of the central goals of the program is its commitment to serve the region and state of Colorado through partnerships with school districts and institutions of higher education. An integral aspect of this goal is Teacher Education’s formal partnership with school districts in southern and southeastern Colorado. The joint efforts of students, faculty, and administrators across all K-16 partners focus on improving the quality of learning in classrooms in elementary, secondary, and higher education. The Master of Education degree supports this mission, strengthening K-12 teachers’ abilities to provide educational opportunities for their students. At Colorado State University-Pueblo, preparing teachers is a campus-wide responsibility, with faculty and administrators involved in support of the program’s mission.

Graduate Admission Policies and Procedures

Admission
Regular status will be given to degree-seeking students who meet all of the following requirements:

- A baccalaureate degree from an institution accredited by the regional accreditation agency (or equivalent).
- A minimum 3.000 cumulative GPA. Conditional admission may be granted for candidates with cumulative GPAs lower than 2.500, but whose recent graduate GPA (at least 15 hours) is above 3.000
- A letter of interest that outlines the candidate’s reason(s) for applying to the M.Ed. program and how they expect to both benefit from and contribute to it.
- Two recommendations from Individuals who can speak to potential success in graduate school.
- A teaching license. Conditional admission can be granted for candidates without a teaching license, but with significant teaching experience. Candidates must provide documentation of the quantity and quality of this experience.

International students whose native language is not English must also meet the English language proficiency standard set forth in the Graduate Admissions section of the CSU-Pueblo Catalog.

Continuation
To continue in the program, students must maintain a cumulative GPA of 3.000.

Program Completion
All students must fulfill the following requirements for a graduate degree:

- A cumulative graduate GPA of 3.000 or better at graduation. A maximum of six semester hours of course work at the grade of C+ or C may be applied toward graduation. A maximum number of nine semester hours of transfer credit may be applied to the degree.
- Regular student status.
The program's minimum number of hours of approved course work (38 semester hours).

Completion of a final portfolio review and oral examination. The portfolio project includes a directed research project.

Submission of a graduation planning sheet signed by the student's graduate advisor and program director, in accordance with published deadlines during the semester is to occur. The deadline for submission is published in the Semester Notes, University Calendar, and CSU-Pueblo Catalog.

M.Ed. Degree Course Requirements

The degree is designed with three components:

1. core courses in research and professional change;
2. pedagogy courses in literacy, differentiation of instruction, and technology; and
3. courses in an emphasis area chosen by the graduate student.

A unique feature of the degree is its alignment with the standards of the National Board for Professional Teaching Standards and participants' opportunity to work towards national board certification as they complete the degree.

Component 1: Core Requirements (11 hours)

Organizational change and school reform, as well as the responsibilities of professional leadership related to educational change, are emphasized in the core. The four courses in Component 1 are developmental, with the first taken within the first nine hours, the third within the last nine hours, and the final course completed as the capstone experience in the program. All courses focus on knowledge and skills related to teacher change and leadership as a change agent in the schools, Emphasis in interpreting and conducting research is included.

Although courses in Components 2 and 3 may be completed by teachers, degree plus or senior students who have been admitted to the Teacher Education Program and meet the 2.600 GPA requirements, admission to all Core courses requires full admission to the graduate program.

Component 2: Pedagogy Requirements (choose 3 hours from each area, 9 hours total)

CSU-Pueblo recognizes that master teachers demonstrate expertise in understanding and applying current best practices in each of the following areas: literacy education, instructional technology, and differentiation of instruction for all learners. All three were selected because recent research has indicated that application of best practices in these three areas will impact the quality of student achievement in K-12 classrooms, Teachers will select courses based on their development plan, with input from their graduate advisor. Courses cannot be double counted in emphasis areas and the Pedagogy Core.

Component 3: Emphasis Area Requirements (18 hours in one area)

The more deeply teachers grasp content, the more they tend to emphasize conceptual, problem solving, and inquiry aspects of their subjects. The less knowledgeable teachers are of the content they are teaching, the more they tend to emphasize facts and procedures. The purpose of Component 3 of the program is the development of teachers’ content expertise related to their area of responsibility, with candidates choosing among a number of different K-12 emphasis areas. Some areas require prerequisites, and an emphasis area should be chosen with the advisement of their graduate advisor.
Graduate Program Goals and Student Outcomes

As teachers proceed through the program, they will be asked to apply and demonstrate their growth in learning and teaching related to the following goals and outcomes.

**Content Knowledge Goal:** Master teachers utilize content knowledge to raise the achievement of PK-12 learners.

1. Demonstrate growth in content knowledge related to emphasis area and the application of content knowledge to classroom instruction and assessment.

**Pedagogy Goal:** Master teachers utilize best practices in instruction and assessment to raise achievement of PK-12 learners.

1. Understand scientifically-based practices in teaching and learning, including strategies in literacy education, instructional technology, differentiation of instruction, and apply them to raise student achievement.
2. Demonstrate multiple means of assessing and evaluating student learning and use them to change teaching and learning.

**Professional Development and School Reform Goal:** Master teachers understand the process for professional change in their own practice and in education, including the interpretation of educational research.

1. Locate, interpret, synthesize, and apply educational research in best practices in teaching.
2. Understand models for professional change, including teacher collaboration, professional learning communities, strategies for mentoring and coaching to facilitate change, and effective professional development.
3. Demonstrate understanding of reflective practice that results in improved classroom teaching and learning, including teacher reflection, use of technology in self-assessment, collaboration for change, and self-management of change.
4. Demonstrate understanding of system and organizational change in education, including models for school change and current research and trends in school change.

**Leadership and Change Agent Goal:** Master teachers apply educational research, including research on school reform and professional development to raise student achievement.

1. Demonstrate responsibility for student learning at high levels.
2. Demonstrate responsibility for school reform and leadership in school change.

**Program Assessment**

The assessment plan for Colorado State University-Pueblo's M.Ed. ensures that the program:

1. Monitors individual student progress necessary to support success,
2. Provides summative information on student proficiency on all performance-based standards, and
3. Provides reliable and valid information on the program's successes and weaknesses to ensure continuous program improvement.

**The assessment design has four components:**

1. Benchmarks, student outcomes and tasks aligned with the Colorado Department of Education standards for content areas leading to endorsements (Special Education, Linguistically Diverse Education, and Instructional Technology) and the National Board of Professional Teaching Standards, forming the basis for both monitoring of student success and program evaluation.
2. A series of evaluation tools that are used by faculty within courses and at program completion to assess student performance in meeting all standards.
3. A system for documenting and monitoring student progress using the student's electronic portfolio.
4. A system to identify program strengths and weaknesses resulting in continual program improvement.

**Performance Standards, Program Alignment and Evaluation Criteria**

A range of tasks aligned to program standards, curriculum and instructional activities throughout the program provide multiple sources of evidence to assess performance on each program standard. These tasks include a range of examples of teaching and learning, most of them authentic teaching performance, including all of the following:

- Curriculum plans: lesson plans and unit planning.
- Self evaluations and peer evaluations of teaching.
- Measures of achievement of PK-12 students: student work samples, pre-post data, and a range of assessment results.
- Standardized test scores (e.g., the PRAXIS exam for Special Education), as well as teacher-constructed exams and quizzes.
- Materials and artifacts from activities with parents, colleagues, and classroom teachers included in the master's portfolio.
- Evidence of ability to understand and utilize research to improve practice.
- Evidence of inquiry (e.g., action research, case studies) to change practice.
- Video case studies of teaching.
- Evidence of program and school change, including activities in coaching, mentoring, and professional learning communities.

Graduate students begin developing their M.Ed. portfolio with their first master's course. The portfolio is a web-based database system that is linked with a system for faculty to review materials and communicate.
their feedback to the student. Documents that demonstrate their performance on specific standards are added throughout the program.

Program Completion
During the final capstone course, students submit the portfolio for review by a group of three faculty. In addition to the portfolio materials, graduate students participate in an oral review of portfolio contents.

Program Completer Self-Evaluation
At the end of their final course, students will complete their own self-evaluation of their performance across program standards and an evaluation of the quality of the master’s program.

Follow-up Assessments
One year after graduating from the program, teacher education will conduct a survey, requesting feedback from each graduate about his/her teaching and about the quality of preparation at CSU-Pueblo. Survey forms will be aligned with the program standards. A similar survey will be sent to each graduate’s supervisor (building principal), requesting information about teaching performance.

Education, Master of Education: Music Education Emphasis
Graduate Coordinator: Contact Music Department

Associate Dean: Jeff Piquette

Educational researchers and policy makers agree on the fundamental requirements for successful teachers: knowledge of subjects they teach, knowledge of both general and subject-matter specific methods for instruction and assessment; knowledge of student development; and the ability to apply this knowledge with students from diverse backgrounds. The M.Ed. at CSU-Pueblo is planned to impact the quality of teaching and learning in K-12 classrooms by preparing master teachers with expertise in their content disciplines, in the pedagogy of teaching and learning, and in the process of continual professional development and growth. To ensure graduates’ application of new knowledge and skills, CSU-Pueblo’s program requires application of new knowledge and skills throughout the program and utilizes an assessment model that monitors teacher performance and provides information for ongoing program improvement.

One promising approach that has resulted in significant improvements in teaching practices is the National Board for Professional Teaching Standards (NBPTS) process for National Board Certification. The NBPTS has developed standards for effective teaching in specific subject areas and assessments geared to measure performance against the standards, as well as a process for teachers to demonstrate their performance on these standards. In addition to strengthening classroom teaching, teachers’ involvement with the NBPTS program has improved student engagement, motivation, and achievement, including positive impact in low-performing schools.

The Master of Education degree is built on research on teacher change and is designed to prepare teachers to lead school reform, requiring completion of an emphasis area of their choice; of a core of pedagogy courses focusing on literacy instructional technology, and differentiation of instruction; and of a core of courses focusing on professional growth. The National Board standards and certification process form the heart of the M.Ed. core and assessment process. A unique characteristic of the degree is the collaboration of faculty in teacher education and in content disciplines at the University in the design and implementation of the program.

Relationship to the Mission of Teacher Education
The Teacher Education Program has a primary mission to prepare teachers of quality and distinction through K-16 collaborations. One of the central goals of the program is its commitment to serve the region and state of Colorado through partnerships with school districts and institutions of higher education. An integral aspect of this goal is Teacher Education’s formal partnership with school districts in southern and southeastern Colorado. The joint efforts of students, faculty, and administrators across all K-16 partners focus on improving the quality of learning in classrooms in elementary, secondary, and higher education. The Master of Education degree supports this mission, strengthening K-12 teachers’ abilities to provide educational opportunities for their students. At Colorado State University-Pueblo, preparing teachers is a campus-wide responsibility, with faculty and administrators involved in support of the program’s mission.

Graduate Admission Policies and Procedures

Admission
Regular status will be given to degree-seeking students who meet all of the following requirements:

- A baccalaureate degree from an institution accredited by the regional accreditation agency (or equivalent).
- A minimum 3.000 undergraduate GPA.
- Submission of satisfactory scores from a standardized exam required for teacher licensure in the content area in which the applicant holds a teaching license (e.g., English or Elementary Education). Applicants who have taught successfully for three years may submit alternative evidence of content knowledge. Applicants who have completed the GRE or MAT should submit these scores.
- A current resume.
- A completed admissions file.
- Two letters of recommendation, one from an administrator familiar with applicant’s teaching.
- A teaching license.

International students whose native language is not English must also meet the English language proficiency standard set forth in the Graduate Admissions section of the CSU-Pueblo Catalog.

Continuation
To continue in the program, students must maintain a cumulative GPA of 3.000.

Program Completion
All students must fulfill the following requirements for a graduate degree:

- A cumulative graduate GPA of 3.000 or better at graduation. A maximum of six semester hours of course work at the grade of C+ or C may be applied toward graduation. A maximum number of nine semester hours of transfer credit may be applied to the degree.
- Regular student status.
• The program’s minimum number of hours of approved course work (38 semester hours).
• Completion of a final portfolio review and oral examination. The portfolio project includes a directed research project.
• Submission of a graduation planning sheet signed by the student’s graduate adviser and program director, in accordance with published deadlines during the semester to occur. The deadline for submission is published in the Semester Notes, University Calendar, and CSU-Pueblo Catalog.

M.Ed. Degree Course Requirements
The degree is designed with three components:

1. Core courses in research and professional change;

Component 3: Emphasis Area Requirements (18 hours in one area)
The more deeply teachers grasp content, the more they tend to emphasize conceptual, problem solving, and inquiry aspects of their subjects. The less knowledgeable teachers are of the content they are teaching, the more they tend to emphasize facts and procedures. The purpose of Component 3 of the program is the development of teachers’ content expertise related to their area of responsibility, with candidates choosing among a number of different K-12 emphasis areas. Some areas require prerequisites, and an emphasis area should be chosen with the advisement of their graduate adviser.

18 hours of MUS 500-level credit must be earned to complete the Music Emphasis portion of the Master of Education degree. No more than
4 hours of 500-level ensemble credit or applied music credit may be applied toward the Master of Education-Music Emphasis. In addition to 18 hours of 500 level MUS credit completed, students must demonstrate completion of the following courses or the comparable undergraduate course listed below.

Graduate Program Goals and Student Outcomes
As teachers proceed through the program, they will be asked to apply and demonstrate their growth in learning and teaching related to the following goals and outcomes.

Content Knowledge Goal: Master teachers utilize content knowledge to raise the achievement of PK-12 learners.
1. Demonstrate growth in content knowledge related to emphasis area and the application of content knowledge to classroom instruction and assessment.

Pedagogy Goal: Master teachers utilize best practices in instruction and assessment to raise achievement of PK-12 learners.
1. Understand scientifically-based practices in teaching and learning, including strategies in literacy education, instructional technology, differentiation of instruction, and apply them to raise student achievement.
2. Demonstrate multiple means of assessing and evaluating student learning and use them to change teaching and learning.

Professional Development and School Reform Goal: Master teachers understand the process for professional change in their own practice and in education, including the interpretation of educational research.
1. Locate, interpret, synthesize, and apply educational research in best practices in teaching.
2. Understand models for professional change, including teacher collaboration, professional learning communities, strategies for mentoring and coaching to facilitate change, and effective professional development.
3. Demonstrate understanding of reflective practice that results in improved classroom teaching and learning, including teacher reflection, use of technology in self-assessment, collaboration for change, and self-management of change.
4. Demonstrate understanding of system and organizational change in education, including models for school change and current research and trends in school change.

Leadership and Change Agent Goal: Master teachers apply educational research, including research on school reform and professional development to raise student achievement.
1. Demonstrate responsibility for student learning at high levels.
2. Demonstrate responsibility for school reform and leadership in school change.

Program Assessment
The assessment plan for Colorado State University-Pueblo’s M.Ed. ensures that the program:
1. Monitors individual student progress necessary to support success,
2. Provides summative information on student proficiency on all performance-based standards, and
3. Provides reliable and valid information on the program’s successes and weaknesses to ensure continuous program improvement.

The assessment design has four components:
1. Benchmarks, student outcomes and tasks aligned with the Colorado Department of Education standards for content areas leading to endorsements (Special Education, Linguistically Diverse Education, and Instructional Technology) and the National Board of Professional Teaching Standards, forming the basis for both monitoring of student success and program evaluation.
2. A series of evaluation tools that are used by faculty within courses and at program completion to assess student performance in meeting all standards.
3. A system for documenting and monitoring student progress using the student’s electronic portfolio.
4. A system to identify program strengths and weaknesses resulting in continual program improvement.

Performance Standards, Program Alignment and Evaluation Criteria
A range of tasks aligned to program standards, curriculum and instructional activities throughout the program provide multiple sources of evidence to assess performance on each program standard. These tasks include a range of examples of teaching and learning, most of them authentic teaching performance, including all of the following:
throughout the program and utilizes an assessment model that monitors growth. To ensure graduates’ application of new knowledge and skills, learning, and in the process of continual professional development and expertise in their content disciplines, in the pedagogy of teaching and learning in K-12 classrooms by preparing master teachers with the ability to apply this knowledge with students from diverse backgrounds. Instruction and assessment; knowledge of student development; and the requirements for successful teachers: knowledge of subjects they teach, classroom teachers included in the master’s portfolio. Evidence of ability to understand and utilize research to improve practice. Evidence of inquiry (e.g., action research, case studies) to change practice. Video case studies of teaching. Evidence of program and school change, including activities in coaching, mentoring, and professional learning communities.

Graduate students begin developing their M.Ed. portfolio with their first master’s course. The portfolio is a web-based database system that is linked with a system for faculty to review materials and communicate their feedback to the student. Documents that demonstrate their performance on specific standards are added throughout the program.

Program Completion
During the final capstone course, students submit the portfolio for review by a group of three faculty. In addition to the portfolio materials, graduate students participate in an oral review of portfolio contents.

Program Completer Self-Evaluation
At the end of their final course, students will complete their own self-evaluation of their performance across program standards and an evaluation of the quality of the master’s program.

Follow-up Assessments
One year after graduating from the program, teacher education will conduct a survey, requesting feedback from each graduate about his/her teaching and about the quality of preparation at CSU-Pueblo. Survey forms will be aligned with the program standards. A similar survey will be sent to each graduate’s supervisor (building principal), requesting information about teaching performance.

Education, Master of Education: Space Studies for Educators Emphasis

Associate Dean/Graduate Coordinator: Jeff Piquette, Teacher Education Program

Educational researchers and policy makers agree on the fundamental requirements for successful teachers: knowledge of subjects they teach, knowledge of both general and subject-matter specific methods for instruction and assessment; knowledge of student development; and the ability to apply this knowledge with students from diverse backgrounds. The M.Ed. at CSU-Pueblo is planned to impact the quality of teaching and learning in K-12 classrooms by preparing master teachers with expertise in their content disciplines, in the pedagogy of teaching and learning, and in the process of continual professional development and growth. To ensure graduates’ application of new knowledge and skills, CSU-Pueblo’s program requires application of new knowledge and skills throughout the program and utilizes an assessment model that monitors teacher performance and provides information for ongoing program improvement.

One promising approach that has resulted in significant improvements in teaching practices is the National Board for Professional Teaching Standards (NBPTS) process for National Board Certification. The NBPTS has developed standards for effective teaching in specific subject areas and assessments geared to measure performance against the standards, as well as a process for teachers to demonstrate their performance on these standards. In addition to strengthening classroom teaching, teachers’ involvement with the NBPTS program has improved student engagement, motivation, and achievement, including positive impact in low-performing schools.

The Master of Education degree is built on research on teacher change and is designed to prepare teachers to lead school reform, requiring completion of an emphasis area of their choice; of a core of pedagogy courses focusing on literacy instructional technology, and differentiation of instruction; and of a core of courses focusing on professional growth. The National Board standards and certification process form the heart of the M.Ed. core and assessment process. A unique characteristic of the degree is the collaboration of faculty in teacher education and in content disciplines at the University in the design and implementation of the program.

Relationship to the Mission of Teacher Education

The Teacher Education Program has a primary mission to prepare teachers of quality and distinction through K-16 collaborations. One of the central goals of the program is its commitment to serve the region and state of Colorado through partnerships with school districts and institutions of higher education. An integral aspect of this goal is Teacher Education’s formal partnership with school districts in southern and southeastern Colorado. The joint efforts of students, faculty, and administrators across all K-16 partners focus on improving the quality of learning in classrooms in elementary, secondary, and higher education. The Master of Education degree supports this mission, strengthening K-12 teachers’ abilities to provide educational opportunities for their students. At Colorado State University-Pueblo, preparing teachers is a campus-wide responsibility, with faculty and administrators involved in support of the program’s mission.

Graduate Admission Policies and Procedures

Admission
Regular status will be given to degree-seeking students who meet all of the following requirements:

- A baccalaureate degree from an institution accredited by the regional accreditation agency (or equivalent).
- A minimum 3.000 cumulative GPA. Conditional admission may be granted for candidates with cumulative GPAs lower than 2.500, but whose recent graduate GPA (at least 15 hours) is above 3.000
- A letter of interest that outlines the candidate’s reason(s) for applying to the M.Ed. program and how they expect to both benefit from and contribute to it.
- Two recommendations from individuals who can speak to potential success in graduate school.
• A teaching license. Conditional admission can be granted for candidates without a teaching license, but with significant teaching experience. Candidates must provide documentation of the quantity and quality of this experience.

International students whose native language is not English must also meet the English language proficiency standard set forth in the Graduate Admissions section of the CSU-Pueblo Catalog.

Continuation
To continue in the program, students must maintain a cumulative GPA of 3.000.

Program Completion
All students must fulfill the following requirements for a graduate degree:

• A cumulative graduate GPA of 3.000 or better at graduation. A maximum of six semester hours of course work at the grade of C+ or C may be applied toward graduation. A maximum number of nine semester hours of transfer credit may be applied to the degree.
• Regular student status.
• The program’s minimum number of hours of approved course work (38 semester hours).
• Completion of a final portfolio review and oral examination. The portfolio project includes a directed research project.
• Submission of a graduation planning sheet signed by the student’s graduate advisor and program director, in accordance with published deadlines during the semester is to occur. The deadline for submission is published in the Semester Notes, University Calendar, and CSU-Pueblo Catalog.

M.Ed. Degree Course Requirements
The degree is designed with three components:

1. core courses in research and professional change;
2. pedagogy courses in literacy, differentiation of instruction, and technology; and
3. courses in an emphasis area chosen by the graduate student.

A unique feature of the degree is its alignment with the standards of the National Board for Professional Teaching Standards and participants’ opportunity to work towards national board certification as they complete the degree.

Component 1: Core Requirements (11 hours)
Organizational change and school reform, as well as the responsibilities of professional leadership related to educational change, are emphasized in the core. The four courses in Component 1 are developmental, with the first taken within the first nine hours, the third within the last nine hours, and the final course completed as the capstone experience in the program. All courses focus on knowledge and skills related to teacher change and leadership as a change agent in the schools. Emphasis in interpreting and conducting research is included.

Although courses in Components 2 and 3 may be completed by teachers, degree plus or senior students who have been admitted to the Teacher Education Program and meet the 2.600 GPA requirements, admission to all Core courses requires full admission to the graduate program.

Component 2: Pedagogy Requirements (choose 3 hours from each category, 9 hours total)
CSU-Pueblo recognizes that master teachers demonstrate expertise in understanding and applying current best practices in each of the following areas: literacy education, instructional technology, and differentiation of instruction for all learners. All three were selected because recent research has indicated that application of best practices in these three areas will impact the quality of student achievement in K-12 classrooms. Teachers will select courses based on their development plan, with input from their graduate adviser. Courses cannot be double counted in emphasis areas and the Pedagogy Core.

Instructional Technology
Graduate students may select from instructional technology courses offered by the University, with approval of their faculty advisers. Sample courses include:

**Graduate Program Goals and Student Outcomes**

As teachers proceed through the program, they will be asked to apply and demonstrate their growth in learning and teaching related to the following goals and outcomes.

**Content Knowledge Goal:** Master teachers utilize content knowledge to raise the achievement of PK-12 learners.

1. Demonstrate growth in content knowledge related to emphasis area and the application of content knowledge to classroom instruction and assessment.

**Pedagogy Goal:** Master teachers utilize best practices in instruction and assessment to raise achievement of PK-12 learners.

1. Understand scientifically-based practices in teaching and learning, including strategies in literacy education, instructional technology, differentiation of instruction, and apply them to raise student achievement.

2. Demonstrate multiple means of assessing and evaluating student learning and use them to change teaching and learning.

**Professional Development and School Reform Goal:** Master teachers understand the process for professional change in their own practice and in education, including the interpretation of educational research.

1. Locate, interpret, synthesize, and apply educational research in best practices in teaching.

2. Understand models for professional change, including teacher collaboration, professional learning communities, strategies for mentoring and coaching to facilitate change, and effective professional development.

3. Demonstrate understanding of reflective practice that results in improved classroom teaching and learning, including teacher reflection, use of technology in self-assessment, collaboration for change, and self-management of change.

4. Demonstrate understanding of system and organizational change in education, including models for school change and current research and trends in school change.

**Leadership and Change Agent Goal:** Master teachers apply educational research, including research on school reform and professional development to raise student achievement.

1. Demonstrate responsibility for student learning at high levels.

2. Demonstrate responsibility for school reform and leadership in school change.

**Program Assessment**

The assessment plan for Colorado State University-Pueblo's M.Ed. ensures that the program:

1. Monitors individual student progress necessary to support success, provides summative information on student proficiency on all performance-based standards, and provides reliable and valid information on the program's successes and weaknesses to ensure continuous program improvement.

2. A series of evaluation tools that are used by faculty within courses and at program completion to assess student performance in meeting all standards.

3. A system for documenting and monitoring student progress using the student's electronic portfolio.

4. A system to identify program strengths and weaknesses resulting in continual program improvement.

**The assessment design has four components:**

1. Benchmarks, student outcomes and tasks aligned with the Colorado Department of Education standards for content areas leading to endorsements (Special Education, Linguistically Diverse Education, and Instructional Technology) and the National Board of Professional Teaching Standards, forming the basis for both monitoring of student success and program evaluation.

2. A series of evaluation tools that are used by faculty within courses and at program completion to assess student performance in meeting all standards.

3. A system for documenting and monitoring student progress using the student's electronic portfolio.

4. A system to identify program strengths and weaknesses resulting in continual program improvement.

**Performance Standards, Program Alignment and Evaluation Criteria**

A range of tasks aligned to program standards, curriculum and instructional activities throughout the program provide multiple sources of evidence to assess performance on each program standard. These tasks include a range of examples of teaching and learning, most of them authentic teaching performance, including all of the following:

- Curriculum plans: lesson plans and unit planning.
- Self evaluations and peer evaluations of teaching.
- Measures of achievement of PK-12 students: student work samples, pre-post data, and a range of assessment results.
Graduate students begin developing their M.Ed. portfolio with their first master's course. The portfolio is a web-based database system that is linked with a system for faculty to review materials and communicate their feedback to the student. Documents that demonstrate their performance on specific standards are added throughout the program.

**Program Completion**
During the final capstone course, students submit the portfolio for review by a group of three faculty. In addition to the portfolio materials, graduate students participate in an oral review of portfolio contents.

**Program Completer Self-Evaluation**
At the end of their final course, students will complete their own self-evaluation of their performance across program standards and an evaluation of the quality of the master's program.

**Follow-up Assessments**
One year after graduating from the program, teacher education will conduct a survey, requesting feedback from each graduate about his/her teaching and about the quality of preparation at CSU-Pueblo. Survey forms will be aligned with the program standards. A similar survey will be sent to each graduate's supervisor (building principal), requesting information about teaching performance.

**Education, Master of Education: Special Education Emphasis**
Associate Dean/Graduate Coordinator: Jeff Piquette, Teacher Education Program

Educational researchers and policy makers agree on the fundamental requirements for successful teachers: knowledge of subjects they teach, knowledge of both general and subject-matter specific methods for instruction and assessment; knowledge of student development; and the ability to apply this knowledge with students from diverse backgrounds. The M.Ed. at CSU-Pueblo is planned to impact the quality of teaching and learning in K-12 classrooms by preparing master teachers with expertise in their content disciplines, in the pedagogy of teaching and learning, and in the process of continual professional development and growth. To ensure graduates' application of new knowledge and skills, CSU-Pueblo's program requires application of new knowledge and skills throughout the program and utilizes an assessment model that monitors teacher performance and provides information for ongoing program improvement.

One promising approach that has resulted in significant improvements in teaching practices is the National Board for Professional Teaching Standards (NBPTS) process for National Board Certification. The NBPTS has developed standards for effective teaching in specific subject areas and assessments geared to measure performance against the standards, as well as a process for teachers to demonstrate their performance on these standards. In addition to strengthening classroom teaching, teachers' involvement with the NBPTS program has improved student engagement, motivation, and achievement, including positive impact in low-performing schools.

The M.Ed. at CSU-Pueblo is planned to impact the quality of teaching and learning in K-12 classrooms by preparing master teachers with expertise in their content disciplines, in the pedagogy of teaching and learning, and in the process of continual professional development and growth. To ensure graduates' application of new knowledge and skills, CSU-Pueblo's program requires application of new knowledge and skills throughout the program and utilizes an assessment model that monitors teacher performance and provides information for ongoing program improvement.

### Relationship to the Mission of Teacher Education

The Teacher Education Program has a primary mission to prepare teachers of quality and distinction through K-16 collaborations. One of the central goals of the program is its commitment to serve the region and state of Colorado through partnerships with school districts and institutions of higher education. An integral aspect of this goal is Teacher Education's formal partnership with school districts in southern and southeastern Colorado. The joint efforts of students, faculty, and administrators across all K-16 partners focus on improving the quality of learning in classrooms in elementary, secondary, and higher education. The Master of Education degree supports this mission, strengthening K-12 teachers' abilities to provide educational opportunities for their students. At Colorado State University-Pueblo, preparing teachers is a campus-wide responsibility, with faculty and administrators involved in support of the program’s mission.

### Graduate Admission Policies and Procedures

#### Admission
Regular status will be given to degree-seeking students who meet all of the following requirements:

- A baccalaureate degree from an institution accredited by the regional accreditation agency (or equivalent).
- A minimum 3.000 cumulative GPA. Conditional admission may be granted for candidates with cumulative GPAs lower than 2.500, but whose recent graduate GPA (at least 15 hours) is above 3.000
- A letter of interest that outlines the candidate's reason(s) for applying to the M.Ed. program and how they expect to both benefit from and contribute to it.
- Two recommendations from individuals who can speak to potential success in graduate school.
- A teaching license. Conditional admission can be granted for candidates without a teaching license, but with significant teaching experience, Candidates must provide documentation of the quantity and quality of this experience.

International students whose native language is not English must also meet the English language proficiency standard set forth in the [Graduate Admissions](#) section of the CSU-Pueblo Catalog.
Continuation
To continue in the program, students must maintain a cumulative GPA of 3.000.

Program Completion
All students must fulfill the following requirements for a graduate degree:

• A cumulative graduate GPA of 3.000 or better at graduation. A maximum of six semester hours of course work at the grade of C+ or C may be applied toward graduation. A maximum number of nine semester hours of transfer credit may be applied to the degree.

• Regular student status.

• The program’s minimum number of hours of approved course work (38 semester hours).

• Completion of a final portfolio review and oral examination. The portfolio project includes a directed research project.

• Submission of a graduation planning sheet signed by the student’s graduate advisor and program director, in accordance with published deadlines during the semester to which the student is assigned. The deadline for submission is published in the Semester Notes, University Calendar, and CSU-Pueblo Catalog.

M.Ed. Degree Course Requirements
The degree is designed with three components:

1. core courses in research and professional change;
2. pedagogy courses in literacy, differentiation of instruction, and technology; and
3. courses in an emphasis area chosen by the graduate student.

A unique feature of the degree is its alignment with the standards of the National Board for Professional Teaching Standards and participants’ opportunity to work towards national board certification as they complete the degree.

Component 1: Core Requirements (11 hours)
Organizational change and school reform, as well as the responsibilities of professional leadership related to educational change, are emphasized in the core. The four courses in Component 1 are developmental, with the first taken within the first nine hours, the third within the last nine hours, and the final course completed as the capstone experience in the program. All courses focus on knowledge and skills related to teacher change and leadership as a change agent in the schools. Emphasis in interpreting and conducting research is included.

Although courses in Components 2 and 3 may be completed by teachers, degree plus or senior students who have been admitted to the Teacher Education Program and meet the 2.600 GPA requirements, admission to all Core courses requires full admission to the graduate program.

Component 3: Emphasis Area Requirements (18 hours in one area)

The more deeply teachers grasp content, the more they tend to emphasize conceptual, problem solving, and inquiry aspects of their subjects. The less knowledgeable teachers are of the content they are teaching, the more they tend to emphasize facts and procedures. The purpose of Component 3 of the program is the development of teachers’ content expertise related to their area of responsibility, with candidates choosing among a number of different K-12 emphasis areas. Some areas require prerequisites, and an emphasis area should be chosen with the advisement of their graduate adviser.

### Course Title Credits
- ED 512 Teaching Diverse Learners 3
- ED 531 Diverse Learners & Technology 3
- RDG 550 Diagnosis and Remediation of Reading Problems 3
- ED 506 Behavioral Support 3
- ED 507 Levels of Support I 3
- ED 508 Levels Of Support II 3
- ED 509 Levels Of Support III 3
- ED 545 Assessment & Data Driven Instruction 3
- ED 510 Collaboration in Education 3
- ED 581 Practicum & Seminar in Education 1-6

Students completing this area should confer with their adviser if they wish to select courses leading to completion of the endorsement for K-12 Special Education Generalist.

### Graduate Program Goals and Student Outcomes

As teachers proceed through the program, they will be asked to apply and demonstrate their growth in learning and teaching related to the following goals and outcomes.

**Content Knowledge Goal:** Master teachers utilize content knowledge to raise the achievement of PK-12 learners.

1. Demonstrate growth in content knowledge related to emphasis area and the application of content knowledge to classroom instruction and assessment.

**Pedagogy Goal:** Master teachers utilize best practices in instruction and assessment to raise achievement of PK-12 learners.

1. Understand scientifically-based practices in teaching and learning, including strategies in literacy education, instructional technology, differentiation of instruction, and apply them to raise student achievement.
2. Demonstrate multiple means of assessing and evaluating student learning and use them to change teaching and learning.

**Professional Development and School Reform Goal:** Master teachers understand the process for professional change in their own practice and in education, including the interpretation of educational research.

1. Locate, interpret, synthesize, and apply educational research in best practices in teaching.
2. Understand models for professional change, including teacher collaboration, professional learning communities, strategies for mentoring and coaching to facilitate change, and effective professional development.
3. Demonstrate understanding of reflective practice that results in improved classroom teaching and learning, including teacher reflection, use of technology in self-assessment, collaboration for change, and self-management of change.
4. Demonstrate understanding of system and organizational change in education, including models for school change and current research and trends in school change.

**Leadership and Change Agent Goal:** Master teachers apply educational research, including research on school reform and professional development to raise student achievement.

1. Demonstrate responsibility for student learning at high levels.
2. Demonstrate responsibility for school reform and leadership in school change.

### Program Assessment

The assessment plan for Colorado State University-Pueblo’s M.Ed. ensures that the program:

1. Monitors individual student progress necessary to support success, provides summative information on student proficiency on all performance-based standards, and provides reliable and valid information on the program’s successes and weaknesses to ensure continuous program improvement.

The assessment design has four components:

1. Benchmarks, student outcomes and tasks aligned with the Colorado Department of Education standards for content areas leading to endorsements (Special Education, Linguistically Diverse Education, and Instructional Technology) and the National Board of Professional Teaching Standards, forming the basis for both monitoring of student success and program evaluation.
2. A series of evaluation tools that are used by faculty within courses and at program completion to assess student performance in meeting all standards.
3. A system for documenting and monitoring student progress using the student’s electronic portfolio.
4. A system to identify program strengths and weaknesses resulting in continual program improvement.

### Performance Standards, Program Alignment and Evaluation Criteria

A range of tasks aligned to program standards, curriculum and instructional activities throughout the program provide multiple sources of evidence to assess performance on each program standard. These tasks include a range of examples of teaching and learning, most of them authentic teaching performance, including all of the following:

- Curriculum plans: lesson plans and unit planning.
- Self evaluations and peer evaluations of teaching.
- Measures of achievement of PK-12 students: student work samples, pre-post data, and a range of assessment results.
- Standardized test scores (e.g., the PRAXIS exam for Special Education), as well as teacher-constructed exams and quizzes.
throughout the program and utilizes an assessment model that monitors growth. To ensure graduates’ application of new knowledge and skills, learning, and in the process of continual professional development and expertise in their content disciplines, in the pedagogy of teaching and learning in K-12 classrooms by preparing master teachers with ability to apply this knowledge with students from diverse backgrounds. Educational researchers and policy makers agree on the fundamental emphasis will include opportunities for world language immersion and language instruction. In addition to traditional campus-base courses, the teachers by expanding their proficiency in the language as well as their understanding of culture, literature, linguistics, and issues in world language instruction. In addition to traditional campus-base courses, the emphasis will include opportunities for world language immersion and foreign travel.

Educational researchers and policy makers agree on the fundamental requirements for successful teachers: knowledge of subjects they teach, knowledge of both general and subject-matter specific methods for instruction and assessment; knowledge of student development; and the ability to apply this knowledge with students from diverse backgrounds. The M.Ed. at CSU-Pueblo is planned to impact the quality of teaching and learning in K-12 classrooms by preparing master teachers with expertise in their content disciplines, in the pedagogy of teaching and learning, and in the process of continual professional development and growth. To ensure graduates’ application of new knowledge and skills, CSU-Pueblo’s program requires application of new knowledge and skills throughout the program and utilizes an assessment model that monitors teacher performance and provides information for ongoing program improvement.

One promising approach that has resulted in significant improvements in teaching practices is the National Board for Professional Teaching Standards (NBPTS) process for National Board Certification. The NBPTS has developed standards for effective teaching in specific subject areas and assessments geared to measure performance against the standards, as well as a process for teachers to demonstrate their performance on these standards. In addition to strengthening classroom teaching, teachers’ involvement with the NBPTS program has improved student engagement, motivation, and achievement, including positive impact in low-performing schools.

The Master of Education degree is built on research on teacher change and is designed to prepare teachers to lead school reform, requiring completion of an emphasis area of their choice; of a core of pedagogy courses focusing on literacy instructional technology, and differentiation of instruction; and of a core of courses focusing on professional growth. The National Board standards and certification process form the heart of the M.Ed. core and assessment process. A unique characteristic of the degree is the collaboration of faculty in teacher education and in content disciplines at the University in the design and implementation of the program.

**Relationship to the Mission of Teacher Education**

The Teacher Education Program has a primary mission to prepare teachers of quality and distinction through K-16 collaborations. One of the central goals of the program is its commitment to serve the region and state of Colorado through partnerships with school districts and institutions of higher education. An integral aspect of this goal is Teacher Education’s formal partnership with school districts in southern and southeastern Colorado. The joint efforts of students, faculty, and administrators across all K-16 partners focus on improving the quality of learning in classrooms in elementary, secondary, and higher education. The Master of Education degree supports this mission, strengthening K-12 teachers’ abilities to provide educational opportunities for their students. At Colorado State University-Pueblo, preparing teachers is a campus-wide responsibility, with faculty and administrators involved in support of the program’s mission.

**Graduate Admission Policies and Procedures**

**Admission**

Regular status will be given to degree-seeking students who meet all of the following requirements:

- A baccalaureate degree from an institution accredited by the regional accreditation agency (or equivalent).
- A minimum 3.000 cumulative GPA. Conditional admission may be granted for candidates with cumulative GPAs lower than 2.500, but whose recent graduate GPA (at least 15 hours) is above 3.000
- A letter of interest that outlines the candidate’s reason(s) for applying to the M.Ed. program and how they expect to both benefit from and contribute to it.
- Two recommendations from individuals who can speak to potential success in graduate school.
• A teaching license. Conditional admission can be granted for candidates without a teaching license, but with significant teaching experience. Candidates must provide documentation of the quantity and quality of this experience.

e native language is not English must also meet the English language proficiency standard set forth in the Graduate Admissions section of the CSU-Pueblo Catalog.

Continuation
To continue in the program, students must maintain a cumulative GPA of 3.000.

Program Completion
All students must fulfill the following requirements for a graduate degree:

• A cumulative graduate GPA of 3.000 or better at graduation. A maximum of six semester hours of course work at the grade of C+ or C may be applied toward graduation. A maximum number of nine semester hours of transfer credit may be applied to the degree.
• Regular student status.
• The program’s minimum number of hours of approved course work (38 semester hours).
• Completion of a final portfolio and oral examination. The portfolio project includes a directed research project.
• Submission of a graduation planning sheet signed by the student’s graduate advisor and program director, in accordance with published deadlines during the semester is to occur. The deadline for submission is published in the Semester Notes, University Calendar, and CSU-Pueblo Catalog.

M.Ed. Degree Course Requirements
The degree is designed with three components:

1. core courses in research and professional change;
2. pedagogy courses in literacy, differentiation of instruction, and technology; and
3. courses in an emphasis area chosen by the graduate student.

A unique feature of the degree is its alignment with the standards of the National Board for Professional Teaching Standards and participants’ opportunity to work towards national board certification as they complete the degree.

Component 1: Core Requirements (11 hours)
Organizational change and school reform, as well as the responsibilities of professional leadership related to educational change, are emphasized in the core. The four courses in Component 1 are developmental, with the first taken within the first nine hours, the third within the last nine hours, and the final course completed as the capstone experience in the program. All courses focus on knowledge and skills related to teacher change and leadership as a change agent in the schools. Emphasis in interpreting and conducting research is included.

Although courses in Components 2 and 3 may be completed by teachers, degree plus or senior students who have been admitted to the Teacher Education Program and meet the 2.600 GPA requirements, admission to all Core courses requires full admission to the graduate program.

Component 2: Pedagogy Requirements (choose 3 hours from each category, 9 hours total)
CSU-Pueblo recognizes that master teachers demonstrate expertise in understanding and applying current best practices in each of the following areas: literacy education, instructional technology, and differentiation of instruction for all learners. All three were selected because recent research has indicated that application of best practices in these three areas will impact the quality of student achievement in K-12 classrooms. Teachers will select courses based on their development plan, with input from their graduate adviser. Courses cannot be double counted in emphasis areas and the Pedagogy Core.

Instructional Technology
Graduate students may select from instructional technology courses offered by the University, with approval of their faculty advisers. Sample courses include:

Literacy Education
Graduate students may select from any literacy course, including the following:
Component 3: Emphasis Area Requirements (18 hours in one area)
The more deeply teachers grasp content, the more they tend to emphasize conceptual, problem solving, and inquiry aspects of their subjects. The less knowledgeable teachers are of the content they are teaching, the more they tend to emphasize facts and procedures. The purpose of Component 3 of the program is the development of teachers’ content expertise related to their area of responsibility, with candidates choosing among a number of different K-12 emphasis areas. Some areas require prerequisites, and an emphasis area should be chosen with the advisement of their graduate adviser.

Graduate Program Goals and Student Outcomes
As teachers proceed through the program, they will be asked to apply and demonstrate their growth in learning and teaching related to the following goals and outcomes.

Content Knowledge Goal: Master teachers utilize content knowledge to raise the achievement of PK-12 learners.

1. Demonstrate growth in content knowledge related to emphasis area and the application of content knowledge to classroom instruction and assessment.

Pedagogy Goal: Master teachers utilize best practices in instruction and assessment to raise achievement of PK-12 learners.

1. Understand scientifically-based practices in teaching and learning, including strategies in literacy education, instructional technology, differentiation of instruction, and apply them to raise student achievement.
2. Demonstrate multiple means of assessing and evaluating student learning and use them to change teaching and learning.

Professional Development and School Reform Goal: Master teachers understand the process for professional change in their own practice and in education, including the interpretation of educational research.

1. Locate, interpret, synthesize, and apply educational research in best practices in teaching.
2. Understand models for professional change, including teacher collaboration, professional learning communities, strategies for mentoring and coaching to facilitate change, and effective professional development.
3. Demonstrate understanding of reflective practice that results in improved classroom teaching and learning, including teacher reflection, use of technology in self-assessment, collaboration for change, and self-management of change.
4. Demonstrate understanding of system and organizational change in education, including models for school change and current research and trends in school change.

Leadership and Change Agent Goal: Master teachers apply educational research, including research on school reform and professional development to raise student achievement.

1. Demonstrate responsibility for student learning at high levels.
2. Demonstrate responsibility for school reform and leadership in school change.

Program Assessment
The assessment plan for Colorado State University-Pueblo’s M.Ed. ensures that the program:

1. Monitors individual student progress necessary to support success,
2. Provides summative information on student proficiency on all performance-based standards, and
3. Provides reliable and valid information on the program’s successes and weaknesses to ensure continuous program improvement.

The assessment design has four components:

1. Benchmarks, student outcomes and tasks aligned with the Colorado Department of Education standards for content areas leading to endorsements (Special Education, Linguistically Diverse Education, and Instructional Technology) and the National Board of Professional Teaching Standards, forming the basis for both monitoring of student success and program evaluation.
2. A series of evaluation tools that are used by faculty within courses and at program completion to assess student performance in meeting all standards.
3. A system for documenting and monitoring student progress using the student’s electronic portfolio.
4. A system to identify program strengths and weaknesses resulting in continual program improvement.

Performance Standards, Program Alignment and Evaluation Criteria
A range of tasks aligned to program standards, curriculum and instructional activities throughout the program provide multiple sources of evidence to assess performance on each program standard. These tasks include a range of examples of teaching and learning, most of them authentic teaching performance, including all of the following:

- Curriculum plans: lesson plans and unit planning.
- Self evaluations and peer evaluations of teaching.
- Measures of achievement of PK-12 students: student work samples, pre-post data, and a range of assessment results.
- Standardized test scores (e.g., the PRAXIS exam for Special Education), as well as teacher-constructed exams and quizzes.
- Materials and artifacts from activities with parents, colleagues, and classroom teachers included in the master’s portfolio.
- Evidence of ability to understand and utilize research to improve practice.
- Evidence of inquiry (e.g., action research, case studies) to change practice.
- Video case studies of teaching.
• Evidence of program and school change, including activities in coaching, mentoring, and professional learning communities.

Graduate students begin developing their M.Ed. portfolio with their first master’s course. The portfolio is a web-based database system that is linked with a system for faculty to review materials and communicate their feedback to the student. Documents that demonstrate their performance on specific standards are added throughout the program.

Program Completion
During the final capstone course, students submit the portfolio for review by a group of three faculty. In addition to the portfolio materials, graduate students participate in an oral review of portfolio contents.

Program Completer Self-Evaluation
At the end of their final course, students will complete their own self-evaluation of their performance across program standards and an evaluation of the quality of the master’s program.

Follow-up Assessments
One year after graduating from the program, teacher education will conduct a survey, requesting feedback from each graduate about his/her teaching and about the quality of preparation at CSU-Pueblo. Survey forms will be aligned with the program standards. A similar survey will be sent to each graduate’s supervisor (building principal), requesting information about teaching performance.

Early Childhood Education, Bachelor of Science
Coordinator: Jeff Piquette

The early childhood education program at CSU-Pueblo is focused on teaching children from birth through age 8. We offer two four-year degree programs (both bachelor of science): one with Director Qualification and one with K-3 licensure. Students will acquire a strong foundation in child development and education through a combination of engaging courses and practical field work.

Program Goals
At CSU-Pueblo, teacher education is a campus-wide responsibility, and overall program goals reflect components of both a breadth and depth of knowledge of the liberal arts and the pedagogical skills to transform this knowledge into curriculum and instruction for young children.

Requirements for the Early Childhood Education Major
Requirements for admission and retention in teacher education are included in the description of the Teacher Education Program in this catalog and in the Teacher Education Handbook.

Students must receive a grade of C or greater in all courses listed as requirements; a minimum cumulative GPA of 2.500 in courses completed in the major at CSU-Pueblo is required for admission to student teaching.

General Education

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Expected Student Learning Outcomes

Upon completion of the Bachelor of Science degree in Early Childhood Education, students will:

1. Acquire a broad knowledge of the liberal arts and sciences including an understanding of the significant ideas, concepts, structures and values within disciplines and mastering content knowledge in all areas taught in early childhood education: the arts, math, literature
and language, social sciences, sciences, and child development and learning.
2. Construct knowledge through critical and analytical thinking, independent thinking, reasoned judgment, mature values, and imagination.
3. Communicate knowledge by effectively writing in academic and practical formats, speaking in a variety of settings, and utilizing technology as a tool for communication.
4. Apply knowledge by using multiple representations and explanations of disciplinary concepts; using different viewpoints, theories, 'ways of knowing,' and methods of inquiry in the teaching of subject matter content; evaluating curriculum for comprehensiveness, accuracy, and usefulness; engaging students in generating knowledge and testing hypotheses through inquiry; developing and using curricula that encourage students to see and interpret ideas from diverse perspectives; and creating interdisciplinary learning experiences.

Outcomes Assessment Activities
The knowledge and skills of students in the Early Childhood Education major are assessed at three points in their program: admission to education, during the semester prior to the capstone term (student teaching or practicum), and at program completion. Assessment activities include the faculty's review of:

1. performance documented in students' eportfolios;
2. scores on standardized tests of general education and content knowledge;
3. ratings of proficiency on program standards by PK-3 classroom teachers, University faculty, and student teacher or practicum supervisors based on direct observation;
4. self-evaluations/ratings of proficiency on program standards by program completers and graduates one year after teaching; and
5. ratings of proficiency by PK-3 supervisors after graduates have been employed for one year.

Early Childhood Education, Bachelor of Science: K-3 Licensure Emphasis
Students completing a major in Early Childhood Education with Director Qualification & K-3 Licensure are required to complete a minor in education and meet all other requirements outlined by the Teacher Education Program.

Requirements for admission and retention in teacher education are included in the description of the Teacher Education Program in this catalog and in the Teacher Education Handbook.

Students must receive a grade of C or greater in all courses listed as requirements; a minimum cumulative GPA of 2.500 in courses completed in the major at CSU-Pueblo is required for admission to student teaching.

Early Childhood Education, Bachelor of Science: K-3 Licensure Emphasis
Students completing a major in Early Childhood Education with Director Qualification & K-3 Licensure are required to complete a minor in education and meet all other requirements outlined by the Teacher Education Program.

Requirements for admission and retention in teacher education are included in the description of the Teacher Education Program in this catalog and in the Teacher Education Handbook.

Students must receive a grade of C or greater in all courses listed as requirements; a minimum cumulative GPA of 2.500 in courses completed in the major at CSU-Pueblo is required for admission to student teaching.

Coordinator: Jeff Piquette

The early childhood education program at CSU-Pueblo is focused on teaching children from birth through age 8. We offer two four-year degree programs (both bachelor of science): one with Director Qualification and one with K-3 licensure. Students will acquire a strong foundation in child development and education through a combination of engaging courses and practical field work.

Program Goals
At CSU-Pueblo, teacher education is a campus-wide responsibility, and overall program goals reflect components of both a breadth and depth of knowledge of the liberal arts and the pedagogical skills to transform this knowledge into curriculum and instruction for young children.

Outcomes Assessment Activities
The knowledge and skills of students in the Early Childhood Education major are assessed at three points in their program: admission to education, during the semester prior to the capstone term (student teaching or practicum), and at program completion. Assessment activities include the faculty's review of:

1. performance documented in students' eportfolios;
2. scores on standardized tests of general education and content knowledge;
3. ratings of proficiency on program standards by PK-3 classroom teachers, University faculty, and student teacher or practicum supervisors based on direct observation;
4. self-evaluations/ratings of proficiency on program standards by program completers and graduates one year after teaching; and
5. ratings of proficiency by PK-3 supervisors after graduates have been employed for one year.

Liberal Studies, Bachelor of Science

(Major for Elementary Education)

Coordinator: Jeff Piquette

The Liberal Studies major, which leads to a B.S. degree, is intended to provide a strong liberal arts education for future elementary education teachers. Core requirements build upon students’ experiences in General Education to provide both breadth and depth in the arts and humanities, English, math, sciences, and social sciences. Required courses provide support in each area of the Colorado Content Standards. Students are required to select an area of concentration or emphasis for an additional 15 hours of study. Areas of concentration may be chosen from Art, English, Health, Language and Linguistics, Math, Modern World Languages, Music, Science, and Social Studies.

This degree is approved for students in Elementary Education. Students completing a major in Liberal Studies are required to complete a minor in education and meet all other requirements outlined by the Teacher Education Program.

Program Goals

At CSU-Pueblo, teacher education is a campus wide responsibility, and overall program goals reflect components of both the Liberal Studies major and Education minor. It is the purpose of the Liberal Studies major to assure that students will develop breadth and depth of knowledge of the liberal arts, and it is the responsibility of the Education minor to assure students become proficient at transforming this knowledge into curriculum and instruction for young children.

Program Design

The program is planned as a coherent whole, with four components:

1. General Education
   Specific General Education courses form the foundation of knowledge for all students with this major. These courses fulfill CSU-Pueblo graduation requirements and are essential to meet many of the content standards for elementary teachers. Courses in the arts and humanities, English, math, history, sciences, and social sciences contribute to the General Education core.

2. Liberal Studies Core
   Liberal Studies Core requirements build upon students’ experiences in General Education to provide both breadth and depth to the program to meet program goals. Emphasis is placed on each area relative to K-6 content standards to assure depth of knowledge in the humanities, social sciences, math, and sciences.

3. Liberal Studies Area of Emphasis in a Specific Discipline
   Students are required to select an area of concentration or emphasis and, in consultation with an adviser, develop a plan for study for an additional 15 hours in Liberal Studies. The plan should include goals to be achieved by the concentration and the sequence of courses to achieve the goals. Areas of concentration may be chosen from Art, English, Health, Language and Linguistics, Math, Modern World Languages, Music, Reading, Science, Social Studies and Special Education. Elementary Education has special requirements for admission and retention. Please refer to the section in the catalog for this information.
4. Education Minor

All students must complete a minor in Education. The Education minor, which has been developed to coordinate with the major, requires completion of 40 credit hours. Please refer to Teacher Education Program section: Specific Requirements for the Elementary Teaching Endorsement. Education has special requirements for admission and retention. Please refer to Teacher Education Program section: Selective Entry and Retention in Teacher Education Admission.

Requirements for admission and retention in teacher education are included in the description of the Teacher Education Program in this catalog and in the Teacher Education Handbook.

Students must receive a grade of C or greater in all courses listed as requirements; a minimum cumulative GPA of 2.500 in courses completed in the major at CSU-Pueblo is required for admission to student teaching.

Total Credits 15

1. This course counts toward the concentration, but is not part of the required 24 credit hours for the Special Education Generalist added endorsement.

General Education

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Expected Student Learning Outcomes

It is the joint responsibility of both the major and minor to prepare future teachers to evaluate information critically, to study and research independently, and to communicate knowledge effectively. The following four program goals have been established for the Liberal Studies Degree. Goal 1 is largely the responsibility of the Liberal Studies major and Goal 4 the responsibility of the Elementary Education minor; benchmarks for Goals 2 and 3 have been designed across the entire degree program.

1. Acquisition of Knowledge. Graduates are broadly educated in the liberal arts and sciences:
   - Understanding the significant ideas, concepts, structures and values within disciplines, including theoretical, ethical, and practical implications.
   - Mastering content knowledge in all areas taught in elementary schools: the arts, math literature and language, social sciences, sciences, and human development and learning.
   - Balancing a breadth of knowledge in the liberal arts and sciences with depth of knowledge within a discipline.
2. Construction of Knowledge. Graduates demonstrate habits of thinking, including analytical skills, independent thinking, reasoned judgment, mature values, and imagination:
   - Utilizing the tools of inquiry of the humanities, arts, mathematics, and behavioral, social, and natural sciences to understand and evaluate ideas.
   - Developing habits of critical intellectual inquiry, including self-direction and self-reflection.
   - Making connections from different intellectual perspectives and multiple viewpoints to form cross-disciplinary connections.
   - Utilizing research skills of the liberal arts and sciences, including library and data retrieval skills, to study and evaluate information.
3. Communication of Knowledge. Graduates communicate effectively:
   - Writing clearly in a variety of academic and practical formats.
   - Speaking effectively in a variety of settings.
   - Utilizing technology as a tool to inform and communicate.
4. Application of Knowledge. Graduates create standards-based learning experiences that make knowledge accessible, exciting, and meaningful for all students:
   - Using multiple representations and explanations of disciplinary concepts that capture key ideas and link them to students’ prior understandings.
   - Using different viewpoints, theories, “ways of knowing,” and methods of inquiry in teaching of subject matter content.
   - Evaluating curriculum for their comprehensiveness, accuracy, and usefulness for representing particular ideas and concepts.
   - Engaging students in generating knowledge and testing hypotheses according to the methods of inquiry and standards of evidence used in the discipline
   - Developing and using curricula that encourage students to see and interpret ideas from diverse perspectives.
   - Creating interdisciplinary learning experiences that allow inquiry from several subject areas.

Outcomes Assessment Activities

The knowledge and skills of students in the Liberal Studies major are assessed at three points in their program: admission to education, admission to student teaching, and during the student teaching semester (program completion). Assessment activities include the faculty’s review of:

1. performance documented in students’ eportfolios;
2. scores on standardized tests of general education and content knowledge;
3. ratings of proficiency on program standards by K-12 classroom teachers, University faculty, and student teacher supervisors based on direct observation of teaching;
4. self-evaluations/ratings of proficiency on program standards by program completers and graduates one year after teaching; and
5. ratings of proficiency by K-12 supervisors after graduates have taught for one year.

Standardized tests completed by students in Liberal Studies include the Educational Testing Service's (ETS) Proficiency Profile and the Praxis II Elementary Content Knowledge Test (produced by ETS).

Program Assessment
Assessment will be ongoing, with evaluations at three check points (admission to education, admission to student teaching, and program completion), as well as follow-up assessments at the end of one year after program completion. Student outcomes will be evaluated through,
1. formal assessments at the sophomore (e.g., Proficiency Profile) and senior level (PRAXIS Elementary Education Content Exam),
2. faculty recommendations of student progress,
3. portfolio assessment, and
4. assessment of the application of knowledge in students’ field experiences and student teaching.

The contents of the electronic portfolio required of all students will include representative work from courses, as well as student-directed evaluations of progress.

Education, Minor
Specific Requirements for the Early Childhood Education Teaching Endorsement/Minor
CSU-Pueblo requires the student interested in Early Childhood Education to complete a major in Early Childhood Education and all of the courses listed below.

1 Music students may take PSYCH 151 Human Development (3 c.h.) or PSYCH 251 Childhood and Adolescence (3 c.h.).
2 Music Education students may complete MUS 103 Music and Computer Technology I (1 c.h.) and MUS 306 Technology for Music Educators (2 c.h.) for ED 280 Educational Media and Technology (3 c.h.).
English/Language Arts student must also complete RDG 410 Teaching Reading (3 c.h.)

Physical Education students may complete EXHP 465 Adapted Physical Education (3 c.h.) or ED 412 Teaching Diverse Learners (3 c.h.).

GPA of 2.6 required

Reading, Minor

The reading minor is intended for elementary, secondary, or K-12 teacher certification candidates who wish to have a recognized area of strength in the teaching of reading and other language arts.

Expected Student Outcomes

As a result of successfully completing the reading minor, the student must be able to:

- Recognize, describe, diagnose, and teach all the generally accepted concepts, strategies and skills in the areas of oral language, reading readiness, emergent literacy, word recognition, comprehension, interpretation, literary appreciation, reading for information, critical reading and thinking, reference skills, study skills, oral reading, listening, speaking, English language usage, syntax, grammar, punctuation, capitalization, creative and informative writing, spelling and penmanship;
- Describe the role and importance of the child's self-concept, experience and culture, home language and dialect, stages of growth and development, and success and familiarity with literature as factors in motivating growth in reading and the language arts;
- Plan lessons and teach effectively using a variety of grouping techniques, including whole class, individual, ability, and cooperative;
- Locate and use a variety of materials to teach reading and the other language arts. The materials include textbooks, basal readers, trade and library books, teacher-made materials, computer programs, student-generated texts, centers, newspapers, and children's literature;
- Diagnose student reading levels and specific strengths and weaknesses, organize instruction to provide for the needs of the class and individual special students, adapt instruction in content areas to promote content learning, and develop reading and writing growth for all students;
- Recognize common causes of reading and writing difficulties and administer and interpret the scores of a variety of informal assessment techniques such as reading miscue inventories and norm-referenced standardized tests;
- Assess writing samples for diagnosis and prescription in expression, organization, fluency, sentence and paragraph development, theme, spelling, penmanship and fluency in work processing; and
- Explain the need to collaborate with parents, librarians, drama and other teachers to provide an effective language arts program.

Outcomes Assessment Activities

Assessment activities conducted for the Reading minor include the following: a review of:

1. scores on standardized tests of content knowledge related to literacy;
2. ratings of proficiency on program based on performance documented for standards in Goal 2 of students' eportfolios; and

3. self-evaluations/ratings of proficiency on program outcomes by program completers and graduates one year after teaching.

Specific Requirements

Students must complete the reading core with a GPA of 3.00 or better and complete the reading electives with a cumulative GPA of 2.60 or better. The minor requires completion of a minimum of 22 hours, 15 from core courses and 7 hours chosen from available electives with consultation with an education adviser. Many electives are available only in summer sessions.

Electives

Select 7 credits from the following:

- CLDE 420: Literacy for Eng Lang Learners (3)
- ECE 440: Effective Instr in Early Literacy (3)
- ECE 462: Teaching ECE Reading (3)
- ED 429: Literacy & Technology (3)
- RDG 310: Current Approaches to Reading and Writing Instruction (3)
- RDG 360: Practicum (1-3)
- RDG 431: Developing Creative Centers (1)
- RDG 436: New Directions in Reading Comprehension (2)
- RDG 437: Newspapers as a Teaching Resource (1)
- RDG 442: Reading Across Cultures (2)
- RDG 491: Special Topics (1-2)

Total Credits: 22
Dr. William Folkestad, Dean

Mission
The mission of the College of Humanities and Social Sciences is to help students develop critical thinking skills, aesthetic awareness, and ethical perspectives, to provide them with the tools and expertise necessary to function as responsible citizens and professionals and to engage in intellectual and artistic pursuits. Faculty members are committed to high quality teaching, theoretical and applied research, scholarship, creativity, to effective service to the University, the profession, and the region, and to the innovative use of technology in these endeavors. The college strives to be a community of learners, teachers, and scholars responsive to the challenges of a diverse society, a vulnerable environment, and an increasingly technological and interdependent world.

Graduation Requirements
In addition to requirements for the major and general education, students must complete unless otherwise specified by departmental requirements either

A. any minor degree program listed in the catalog other than their major;
B. 18 hours of credit outside their major (courses must have a different prefix than their major).

Music and Social Work majors are exempt from this requirement. Students may not use the same credits to satisfy requirements for both the major and minor degrees. Students may not use credits taken to satisfy general education to count toward their required 18 hours.

The Anthony T. and Theresa H. Capps-Capozzolo Center for the Creative and Performing Arts
The Anthony T. and Theresa H. Capps-Capozzolo Center for the Creative and Performing Arts is an interdisciplinary academic unit within the College of Humanities and Social Sciences. In accordance with the intent of Anthony Capozzolo’s generous gift to the University, the center’s mission is to promote and enhance the visual arts and music through academic programs, course offerings, scholarships, special events, and related activities that contribute to student learning and appreciation for the creative and performing arts at CSU-Pueblo.

General Requirements
- Students interested in pursuing a Bachelor of Arts in Humanities and Social Sciences must be, at a minimum, junior status.
- Students must schedule an interview with the CHASS Associate Dean, who will determine the appropriateness of the Bachelor of Arts in Humanities and Social Sciences to an individual's post-graduation planning.
- Upon entry into this degree program, students must submit a proposal that includes the list of courses required to meet the requirements of the degree (developed in consultation with the CHASS Associate Dean), a senior project plan and a summary of the student's post-academic plans.
- The degree plan will be used to determine completion of the degree requirements.
- Major core and elective requirements will be outlined in the student's degree plan, which is approved by the advisor and by the degree review committee, comprised of all CHASS department chairs.
- All courses must be approved by the advisor.
- Students must earn a C or better in all courses applicable to the major.
- MATH 101 or higher fulfills the general education math requirement for this major.
- Students may complete a minor; the minor must be approved by the advisor.
- All CSU-Pueblo institutional graduation requirements apply for this degree program (minimum of 120 credit hours; minimum cumulative GPA of 2.000; minimum of 60 credit hours from a four-year institution, with 30 of these 60 coming from CSU-Pueblo; completion of 40 credit hours of upper-division courses).

1 (18 credits minimum) Completion of at least 18 credits in a core concentration area, including completion of HSS 499: Senior Capstone, is required. This requirement may be fulfilled by completing an existing minor program or by selecting coursework in existing academic degree programs that address the student's specific interest areas. All courses must be approved by the advisor. Student must complete a senior capstone course as part of their major core concentration requirements.

2 (30 credits minimum) A student must complete at least 18 credits of upper-division credits in major elective requirements. All courses must be approved by the advisor.

Student Learning Outcomes
1. Students will develop critical thinking, communication, organizational and problem-solving skills that allow them to see intellectual connections among various disciplinary fields.
2. Students will develop linkages between their individualized intellectual inquiries and related areas in terms of contemporary challenges facing individuals, communities and societies.
3. Students will articulate their personal educational and professional goals focusing on existing and potential demand for the skills and knowledge they acquire in their degree program.
4. Students will acquire a clear understanding of future opportunities for the program that they propose.

Outcomes Assessment
At the end of their senior year, students will submit a portfolio to the program coordinator which will include the following:
• The original proposal developed upon entry into the program used to assess outcomes 3 and 4.
• A final senior research project (under the supervision of a faculty advisor) used to assess outcomes 1 and 2.
• A senior paper analyzing the market for their area(s) of professional interest used to assess outcomes 3 and 4.
• A resume and letter of interest or letter of application to graduate school summarizing the relevant skills and knowledge attained through their degree program used to assess outcome 4.

Women's Studies, Minor
Coordinator: Susan Calhoun-Stuber, (719) 549-2979

Mission
The Women's Studies program exists to offer students a different perspective for understanding their disciplines, themselves, and others. Based on feminist theory, this perspective incorporates issues of race, ethnicity, class, sexuality, and other dimensions of human diversity.

Specific Requirements for the Women's Studies Minor
Coordinator: Susan Calhoun-Stuber, (719) 549-2979

Mission
The Women's Studies program exists to offer students a different perspective for understanding their disciplines, themselves, and others. Based on feminist theory, this perspective incorporates issues of race, ethnicity, class, sexuality, and other dimensions of human diversity.

Grades below a C will not be accepted in classes counting toward the minor.

#### Elective Courses
Select 6 credits in Women's Studies Electives
Total Credits: 21

#### Cross Listing

Most Women's Studies courses are cross-listed, meaning that the courses can be found in the course listings of both the Women's Studies program and one or more other academic departments. This is indicated above, for example WS 428 Women & Work (3 c.h.) /HIST 428 Women & Work (3 c.h.), indicating that the course is listed as a Women's Studies course, a History course, and a Sociology course. Students can take the courses by enrolling in a Women's Studies section (call number) or in another department's call number. To encourage breadth in their Women's Studies Minor, students are required to choose electives in different cross-listed disciplines. Students registering for a course for the minor should enroll in the Women's Studies section (call number). A course taken for the Senior Capstone Experience cannot be cross-listed.

#### Senior Capstone Experience

(WS 485 Capstone (3 c.h.), WS 490 Special Projects (1-3 c.h.), or WS 492 Research (1-3 c.h.))

The Senior Capstone Experience allows the student to bring together women's studies disciplinary knowledge with:

1. the major;
2. some other disciplinary perspective; or
3. a practical problem relevant to women's life experiences.

The expectation is that in taking WS 490 Special Projects (1-3 c.h.) the student will apply women's studies in a community-based setting. WS 492 Research (1-3 c.h.), can also be approved for the Senior Capstone Experience, but only with the condition that the student presents the research in a public forum to meet the practical application component.

#### Senior Capstone Experience Prerequisites

The Senior Capstone Experience will be open to students who have declared a WS Minor and have completed all the core requirements, i.e., WS 100 Introduction to Women's Studies (3 c.h.), WS 301 Theories of
Intersectionality (3 c.h.) and either WS 306 La Chicana (3 c.h.)/CS 306 La Chicana (3 c.h.) OR WS 308 Global Feminisms (3 c.h.).

**Advising**

Student should contact the Women's Studies Coordinator by calling (719) 549-2979 or (719) 549-2143.

**Student Learning Outcomes**

Students will be able to:

- Demonstrate a working knowledge of women's participation in, contribution to, and transformation of areas of social life including culture, society, politics, economics, and religion.
- Demonstrate a working knowledge of institutionalized discrimination and violence based on gender.
- Demonstrate a critical understanding of gender from national and global perspectives.
- Demonstrate and apply the basic concepts, theories and methods in gender studies in national and global contexts.

**Outcome Assessment Activities**

An annual review of student capstone projects is conducted to evaluate the program's goals and student learning outcomes.

---

**Cannabis Studies, Minor**

**Mission**

The Cannabis Studies Minor is a 22 credit program of study designed for students seeking to complement their major program of study in Social Work, Sociology, History, Political Science or other programs. This minor is open to all students. The Cannabis Studies Minor supports the mission of the university by providing courses focused on cannabis and its social, legal, historical, political, and health-related impact on society. More specifically, this minor endorses our commitment to our role as a regional comprehensive university dedicated to providing leadership in civic responsibility through excellence in teaching and research.

**Advising**

Student should contact the College of Humanities and Social Sciences Dean's office by calling (719) 549-2863.

**Elective Courses**

Select 9 credits from the following (or other elective courses as approved):

- BIOL 201 Botany 2
- CRIM 359 Community Corrections 3
- POLSC 323 Criminal Law and Procedure 3

**Total Credits** 22

1 Note: Many of these electives have prerequisites that would satisfy general education requirements.

**Student Learning Outcomes**

Students will be able to:

- Students will identify the legal and social ramifications/impacts of cannabis on society.
- Students will explain local, state, and federal policies regarding cannabis.
- Students will apply knowledge gained from cannabis studies to internships in health, social, legal, or nonprofit settings, as appropriate.

**Outcome Assessment Activities**

The curriculum of the Cannabis Studies Minor delivers a strong base of knowledge relating to cannabis. As part of a Hispanic Serving Institution, there is an emphasis on understanding and appreciating the impact cannabis has had on the Chicano/Chicana community and other regional populations of the Southwestern United States.

Student learning is measured through the completion of required course components. Faculty teaching the minor area courses will evaluate each project, paper, or exam submitted by students, paying close attention to the students' ability. The results of these assessment activities are used to improve program offerings and enhance student learning.

---

**Chicano/a Studies, Minor**

The Chicano/a studies minor complements majors and careers in law, sociology, social work, languages, education, government, business and other disciplines. Courses offer unique undergraduate preparation for those who seek entrance to graduate studies in law, humanities or the social sciences.

Students who plan to live and work in the American Southwest or aspire to careers that involve relations in the American continents are likely to be well served by Chicano/a Studies courses. The interdisciplinary approach emphasizes history and cultural studies, and selected courses provide the student with in-depth knowledge of specific aspects of the Chicano/a community.

**Program Goals**

- To provide individual courses as well as a minor to fulfill the unique role and mission of Colorado State University-Pueblo.
- To offer an individually designed minor in support of students' majors.
General Requirements

- Students must earn a C or better in all courses applicable to the minor.

Electives

Select 9 credits

Total Credits 24

Electives may be selected from Chicano/a Studies courses, several of which are cross-listed with other departments, or by approval of the Chicano/a studies coordinator, from courses in such areas as Spanish, history, psychology, sociology, and social work, among others.

Performance Criteria

Upon completion of the minor students are to submit a copy of their capstone project to the coordinator and two individuals chosen by the dean to review their capstone project to see if it fits the goals and SLOs of the program. A total of 80% of the students should have met the outcomes and goals of the program. Papers will be assessed every spring.

Student Learning Outcomes

Students will be able to:

- Critically examine the social, historical, and cultural relevance of Chicanos within the United States and the US/Mexico borderlands.
- Analyze the complexities of Chicano identity.
- Evaluate the contributions of women within Chicano history.
- Examine and interpret how Chicanos have impacted the culture, politics, and history of Southern Colorado.

Student learning outcomes will be included in the academic catalog, the website, and the syllabus for the capstone course.

Outcomes Assessment Activities

- An annual review of student's capstone projects is conducted to evaluate the programs goals and student learning outcomes.
- The program is developing a means of measuring student’s progress in core courses.

Diversity Studies, Certificate

The Diversity Studies Certificate Program is a 15-credit hour certificate program housed in the College of Humanities and Social Science (CHASS) under the directorship of the Chicano Studies and/or Women’s Studies Coordinator. This certificate allows student to prepare for the cultural and social diversity of the world in which they will live and work.

Students will also learn the process and value of social justice, equality, cultural awareness, and the history of exclusion and inclusion while implementing the proper frameworks for behaving toward others in regards to race, ethnicity, class, gender, etc.

Upon completion of this certificate, students will have developed application based training alongside theoretical awareness, and practical knowledge to thrive in diverse environments. They will be better prepared to address their respective community's needs, and to assume leadership roles in their field of specialization with consideration to issues involving diversity and cultural awareness.

Requirements for Admission to the Program

Enrolled students at CSU-Pueblo may apply to enter the certificate program at any point up to their third year, and complete it during their remaining time at CSU-Pueblo.

Non-degree students could also apply for the program after passing one of the required admission courses (see below) and other lower division courses that would adequately prepare them for upper-division coursework.

Specific Requirements for the Diversity Studies Certificate

Students are required to complete 15 credits for the certificate program. Up to 3 credits could be counted dually. Students would choose courses under the direction of an adviser.

Military Science Outcomes

- After completing ROTC, Second Lieutenants will have demonstrated proficiency in six areas: Live Honorably and Build Trust; Develop, Lead, and Inspire; Demonstrate Intellectual, Military, and Physical Competence; Think Critically and Creatively; Make Sound and Timely Decisions; Communicate and Interact Effectively, and Pursue Excellence and Continue to Grow.

- The Student will graduate with a Bachelor’s degree, commission as a Second Lieutenant into the United States Army, and commit to serving eight years. The eight years will either be four years in the Active Army and four years in the Individual Ready Reserve or six years in the National Guard/Army Reserve and two years in the Individual Ready Reserve.

The Basic Course

The focus for these lower division courses (MSL 100/200 courses) is to lay a foundation for more advanced instruction in the skills needed to be a successful leader. Students may participate even if they do not plan on receiving a commission in order to gain experience in leadership and management.

This phase is open to all qualified students (generally freshmen and sophomores). Students should be aware that physical training is required for successful course completion.

There is no military obligation for participation in the Basic Course unless a student is receiving an Army ROTC Scholarship.

The Advanced Course

The Advanced Course (MSL 300/400 level courses) prepares students (juniors and seniors) who have successfully completed the basic course requirements with the skills and knowledge necessary to be commissioned as a Second Lieutenant in the Army. The focus of the Advanced Course continues to build on leadership skills and abilities.

Students participating in the Advanced Course have a contractual obligation to complete the program and enter the Army upon graduation.

Students must have a minimum of four semesters remaining in their coursework before graduation to participate in the Advanced Course, and they must be in a full-time status (12 credit hours per semester, including ROTC) during each of those semesters.

Entry into the Advanced Course

Credit for the Basic Course for entry into the Advanced Course may be achieved in a number of ways. The normal progression is to successfully complete all four classes (MSL 101 Leadership and Personal Development (3 c.h.), MSL 102 Introduction to Tactical Leadership (3 c.h.), MSL 201 Innovative Team Leadership (3 c.h.), MSL 202 Foundations of Tactical Leadership (3 c.h.)) with a grade of “C” or better. Students can also enter the course laterally by receiving credit for one of the following:

- Prior enlisted service in the Army, Air Force, Navy or Marines.
- Participation of a minimum of three years in a JROTC program.
- At least one year as a service academy cadet.

Advanced Camp

Students participating in the Advance Course will be required to attend the MSL 303 Advanced Camp (6 c.h.) which is conducted annually at
Additional Requirements

- Military History

A minor in Military Science is available for students participating in the Army ROTC Program. Students must achieve a minimum of 30 credit hours by graduation, which includes credit for all Advanced Course classes (to include graduation from Advanced Camp) and the Professional Military Education (PME) requirements. Students may be granted waivers for requirements of the MSL 101 Leadership and Personal Development (3 c.h.) - MSL 202 Foundations of Tactical Leadership (3 c.h.) courses for prior military service by the Assistant Professor of Military Science. More information about the minor is available through the College of Humanities and Social Sciences and the Military Science Minor.

**Professional Military Education (PME) Requirements**

To receive a commission as a Second Lieutenant in the U.S. Army and to graduate with a Minor in Military Science students must also complete a course in the following area to receive credit for their Professional Military Education (PME) requirements. Further information on this requirement will be provided to the students during contracting into the Army ROTC program.

- Initiate a security clearance investigation within 60 days from signing a ROTC contract to meet pre-commissioning requirements.
- Must pass the Combat Water Survival Test.

**Scholarship Information**

The Army ROTC Scholarship Program provides merit-based financial assistance for the education and training of highly motivated men and women who desire to pursue careers as commissioned officers in the U.S. Army after graduation with a bachelor's degree. Four, three- and two-year scholarships are available to qualified candidates. The scholarship covers tuition and mandatory fees, $1200 annual book allowance, and provides the student with a monthly, tax-free stipend of $420 per month for up to ten months per year (depending on academic status). For more information pertaining to scholarships and enrollment eligibility, please contact Mr. Don Caughey at (719) 255-3475 or dcaughey@uccs.edu.

**Military Science and Leadership Student Learning Outcomes**

- Students will demonstrate proficiency in small unit leadership by applying the 23 leadership dimensions.

- Meet or exceed the standard of the Army Physical Fitness Test (APFT) and make a commitment to optimal health and physical well being as a way of life. Students must also meet and adhere to the Army height/weight standards and authorized body fat percentages.

- Demonstrate the ability to lead alongside with the seven Army values of loyalty, duty, respect, selfless-service, honor, integrity, and personal courage.

- Demonstrate the understanding of customs and courtesies of the U.S. Army and Army's role in supporting the orders of superiors culminating with the Commander in Chief of the U.S. Army.

- All students will demonstrate various understanding of leadership and management skills in correlation to their academic year progression.

- In their junior year students will attend the Cadet Leader Course) to be developed, assessed, and compared to all Army ROTC cadets in the nation.

**Outcomes Assessment Activities**

Student success is measured through a variety of methods that include classroom work, Army Physical Fitness Test (APFT), Army Height and Weight Standards, Leadership Evaluations, complete and pass Cadet Leader Course.

- Students must pass or exceed the (APFT) each semester, as they progress higher in the MSL courses they must pass the (APFT) consistently and should progressively achieve a higher score.

- Parallel with (APFT) students must pass the Army Height and Weight standards.

- In their junior (MSL 301 Adaptive Tactical Leadership (3 c.h.)/MSL 302 Leadership in Changing Environments (3 c.h.)) year students are placed in leadership positions where they are evaluated in their leadership skills to include the 23 leadership dimensions and the seven Army values.

- After completion of MSL 302 Leadership in Changing Environments (3 c.h.) (spring semester) students must attend and complete the Cadet Leader Course. It is a 29 day fully immersed assessment process that covers everything that was learned and evaluated since the cadet's
freshman year. Students are subjected to high stress scenarios and placed in critical leadership roles that will further develop and assess an individual's ability to lead and serve as an officer in the United States Army.

Non Profit Administration, Minor
Adviser: Leticia Steffen, CHASS Associate Dean

Mission
The nonprofit administration minor is a 24-credit multi-disciplinary program designed for students wanting to pursue careers in nonprofit organizations that include the arts, human services, recreation, chambers of commerce, civic efforts, and health care. The nonprofit administration minor supports the mission of the university by promoting civic responsibility and encouraging innovation.

Three student learning outcomes are directly related to the mission of the nonprofit administration minor:

1. identify basic components in nonprofit organizations;
2. develop a strategic plan for a new nonprofit organization;
3. apply knowledge of nonprofit organizations within an internship setting.

A variety of suggested electives allows student to focus their coursework toward the type of nonprofit career they desire. Elective courses allow for student choice. An internship in a nonprofit organization is also required and can be coordinated with the student's major area of study.

Elective Courses

The following courses are suggested electives. Students are encouraged to identify courses that will assist in their specific nonprofit career goals. Students are required to earn 9 credits, but can choose additional electives. The required 9 credits can fall within the same content area or across disciplines; however, students may only use 6 credits from their major. No general education or other minor courses can be double-counted. Some courses may require prerequisites.

<td>Technical and Scientific Report Writing</td>
<td>3</td>
</tr>
<tr>
<td>MCCNM 210</td>
<td>Intro to Integrated Communication</td>
<td>3</td>
</tr>
</tbody>
</table>

Student Learning Outcomes

- Students will be able to identify the basic components in any nonprofit organization.
- Students will develop a strategic plan for a new nonprofit organization.
- Students will apply knowledge on nonprofit organization in an internship setting.

Outcomes Assessment Activities

Student learning is measured through the development and design of a strategic plan for a new nonprofit organization and through the completion of an internship with a nonprofit organization. Faculty teaching the minor area courses will evaluate each strategic plan developed by students, paying close attention to the student's ability to convey the necessary components of a nonprofit organization. Internship supervisors evaluate students based on their ability to apply what they've learned in their courses into an actual nonprofit setting. Students evaluate how well their courses prepared them for their nonprofit internships. The results of these assessment activities are used to improve program offerings and enhance student learning.

Veteran Studies, Minor

Mission

The Veteran's Studies minor at Colorado State University-Pueblo exists to meet the needs of students who wish to pursue a career working with the veteran population in any field, such as nursing, healthcare, public administration, marketing and business, and counseling, and to develop an appreciation and understanding of the context of military experience. The minor also serves veteran students who wish to place their own personal experiences into a broader context.

Specific Requirements for the Veteran Studies Minor

Minors must complete a total of 21 credit hours, divided into three categories. Only grades of C or better count towards completion of the minor requirements.

Internships, research, special topics, and independent studies.  

1 With consent of advisor

Note: Only one history, political science, psychology, or social work course taken for the Veteran Studies Minor can count toward the disciplinary major or minor.

Student Learning Outcomes

At the completion of this program, graduates will be able to:

- Identify major historical and contemporary trends in Veterans Studies;
- Evaluate theoretical perspectives in understanding the Veteran experience; and
- Act ethically and responsibly, both individually and with others, demonstrating an awareness and respect for Veterans.

Art Department

Department Chair: Aaron Alexander
Faculty: Avi?a, Hansen, Hansen, Peters, Zimmerman

The art curriculum is designed to aid and promote exploration of art-making processes and to increase the student’s understanding of art and its relationship to society. The art major prepares the student to be a practicing artist, to enter graduate school for further professional education or to enter the job market in art-related careers. Students also may select art courses as a means of achieving a greater sense of personal creativity and accomplishment. Students, faculty, and invited professional artists display works in the CSU-Pueblo Art Gallery. An active visiting artist program provides contact with successful regional and national professionals.

The major in art leads to the degrees of Bachelor of Arts (BA) or Bachelor of Fine Arts (BFA). A minor in art is also available.

The department aims to provide art facilities, a creatively active faculty, and an engaging curriculum in a variety of emphasis areas. While at CSU-Pueblo, students mature as artists and integrate their knowledge in broad ways to fulfill their creative and professional lives.

General Program Requirements

- The art faculty firmly believes that a quality undergraduate art program must be built from the strong foundation of basic concepts and techniques provided by the required ART CORE courses. Art history, drawing and design combined with an introduction to the basic art processes, provide the necessary background of information and skills for individual artistic growth and maturity. A strong grounding in the fundamentals of art, as provided in the ART CORE, indicates the department’s insistence upon respect for and commitment to the academic discipline of art as a professional career.
- Art majors must complete the required courses known as the ART CORE, before proceeding into the beginning courses.
- No grade lower than a C will count toward either an art major or minor.
- BFA candidates must maintain a 3.0 in the art major.
- Students are required to take 30 hours of major courses in residency.

Co-Curricular Requirements

The faculty supports and encourages the involvement of art majors and minors in the Art Club and related activities specific to each studio.

- Art, Bachelor of Arts (p. 209)
- Art, Bachelor of Arts: Art Education K-12 Emphasis (p. 210)
- Art, Bachelor of Arts: Art History Emphasis (p. 211)
- Art, Bachelor of Fine Arts (p. 212)
- Art, Minor (p. 213)

World Language Requirements for the BA Degree Art Major

Students seeking the degree of Bachelor of Arts must complete one of the three options listed below:

1. Completion of the second level of a world language (course number 102)
    - Students may test out of the course
2. Completion of WL 100 Intro to Comparative Linguistics (3 c.h.), and ANTHR 106 Language, Thought and Culture (3 c.h.)/ENG 106 Language, Thought and Culture (3 c.h.)
3. Completion of the second level of American Sign Language.

International students for whom English is a second language may substitute two terms of English courses (excluding ENG 101 Composition I (3 c.h.) and ENG 102 Composition II (3 c.h.)) for the world language requirement.

Total Credits 37-40

1. Music students may take PSYCH 151 Human Development (3 c.h.) or PSYCH 251 Childhood and Adolescence (3 c.h.).
2. Music Education students may complete MUS 103 Music and Computer Technology I (1 c.h.) and MUS 306 Technology for Music Educators (2 c.h.) for ED 280 Educational Media and Technology (3 c.h.).
3. English/Language Arts student must also complete RDG 410 Teaching Reading (3 c.h.).
4. Physical Education students may complete EXHP 465 Adapted Physical Education (3 c.h.) or ED 412 Teaching Diverse Learners (3 c.h.).
5. GPA of 2.6 required

In addition to requirements for the major and general education, students must complete unless otherwise specified by departmental requirements either

A. any minor degree program listed in the catalog other than their major;
B. 18 hours of credit outside their major (courses must have a different prefix than their major).

Music and Social Work majors are exempt from this requirement. Students may not use the same credits to satisfy requirements for both the major and minor degrees. Students may not use credits taken to satisfy general education to count toward their required 18 hours.

### General Education

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

---

### Department of Art Student Learning Outcomes and Assessment Activities

1. Students will apply discipline-specific competencies for success in their emphasis area.
   - Outcome Assessment Activity: ART 410 Senior Career Orientation (1 c.h.) with exit survey
2. Students will distinguish the role of art in a global society.
   - Outcome Assessment Activity: Senior portfolio with exit survey and art history rubric to measure quality of written expression
3. Students will employ creative skills associated with interdisciplinary learning.
   - Outcome Assessment Activity: ART 410 Senior Career Orientation (1 c.h.) with exit survey
4. Students will make use of intellectual and practical skills for lifelong learning.
   - Outcome Assessment Activity: Internships with employee surveys
5. Students will create original work suitable for entry into a juried exhibition.
   - Outcome Assessment Activity: Annual juried art show and any non-juried student on-campus shows
6. Art education students will be able to apply the knowledge and skills needed to help children learn to create and appreciate art.
   - Outcome Assessment Activity: PLACE test in addition to other BA measurements

#### World Language Requirements for the BA Degree Art Major

Students seeking the degree of Bachelor of Arts must complete one of the three options listed below:

1. Completion of the second level of a world language (course number 102)
   - Students may test out of the course
2. Completion of WL 100 Intro to Comparative Linguistics (3 c.h.), and ANTHR 106 Language, Thought and Culture (3 c.h.)/ENG 106 Language, Thought and Culture (3 c.h.)
3. Completion of the second level of American Sign Language.
International students for whom English is a second language may substitute two terms of English courses (excluding ENG 101 Composition I (3 c.h.) and ENG 102 Composition II (3 c.h.)) for the world language requirement. Completion of a world language course above 102 with a grade of C or better will satisfy the requirement.

In addition to requirements for the major and general education, students must complete unless otherwise specified by departmental requirements either

A. any minor degree program listed in the catalog other than their major;
B. 18 hours of credit outside their major (courses must have a different prefix than their major).

Music and Social Work majors are exempt from this requirement. Students may not use the same credits to satisfy requirements for both the major and minor degrees. Students may not use credits taken to satisfy general education to count toward their required 18 hours.

**General Education**

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

**Department of Art Student Learning Outcomes and Assessment Activities**

1. Students will apply discipline-specific competencies for success in their emphasis area.
   - **Outcome Assessment Activity:** ART 410 Senior Career Orientation (1 c.h.) with exit survey

2. Students will distinguish the role of art in a global society.
   - **Outcome Assessment Activity:** Senior portfolio with exit survey and art history rubric to measure quality of written expression

3. Students will employ creative skills associated with interdisciplinary learning.
   - **Outcome Assessment Activity:** ART 410 Senior Career Orientation (1 c.h.) with exit survey

4. Students will make use of intellectual and practical skills for lifelong learning.
   - **Outcome Assessment Activity:** Internships with employee surveys

5. Students will create original work suitable for entry into a juried exhibition.
   - **Outcome Assessment Activity:** Annual juried art show and any non-juried student on-campus shows

6. Art education students will be able to apply the knowledge and skills needed to help children learn to create and appreciate art.
   - **Outcome Assessment Activity:** PLACE test in addition to other BA measurements

**English/World Languages Department**

Department Chair: Juan Morales, Alegria Ribadeneira
Department Director: Douglas Eskew
Faculty: Arnegard, Brown, Furrh, Hopkins Bowers, Hopkins Bowers, Le?n, Montoya, Picicci, Van Winkle
Lecturers: Basnet, Hawthorne, Heedt, Iberri-Shea, Johnston, Little, Lobato, Ruggiero, Saphara, Williams

**English Program**

The major in English leads to a Bachelor of Arts (BA) degree and provides graduates with an understanding of language and literature as a basis for aesthetic, ethical, social, and academic ways of thinking, creating, and researching. The goal of the program is to develop general communication and learning skills and an understanding of the value of ongoing critical reading, thinking, and writing. Critical, analytical, and composition skills, which provide excellent preparation for professional careers in teaching, writing, editing and publishing, business, media, public service, law, and the arts are emphasized.

**World Languages Program**

The World Languages Program offers a Bachelor of Arts in Spanish (BA) intended to prepare students for the many careers where educated bilingual speakers are highly valued, for admission to graduate school, and for public school teaching and certification.

Minors in Italian, and Spanish complement a wide variety of majors in other disciplines to enhance the students’ ability to compete for jobs where knowledge of a world language is desirable.

Courses in French, German, American Sign Language, and Comparative Linguistics (listed under WL) are offered as permitted by enrollment. Student exchanges with foreign universities and other study-abroad programs are encouraged.

**NOTE:** Majors or minors who fail to complete a course with a grade of C or better are required to repeat the course with a satisfactory grade before proceeding to more advanced offerings.

**Placement in the Spanish Course Sequence**

1. Students who have taken no Spanish in high school or at another institution of higher learning begin with SPN 101 Beginning Spanish I (3 c.h.).
2. Students, who have taken Spanish in high school, but not at another institution of higher learning, must take a placement exam to determine their proper placement.

3. Heritage Spanish speakers (that is, students who speak Spanish at home to a greater or lesser extent), students with significant Spanish immersion experience, and students who have taken Spanish courses at other institutions of higher learning must meet with a Spanish adviser in order to determine correct placement. The adviser will place the student based on any of the following or a combination thereof: an oral interview, a placement exam, a written composition.

English, Master of Arts
Program Director: Cynthia Taylor

The Department of English and World Languages offers a general program of study leading to a Master of Arts (M.A.) in English.

Admission Requirements
General requirements for admission to graduate school at CSU-Pueblo are specified in the Colorado State University-Pueblo Catalog. For English, requirements include a minimum of 3.0 undergraduate grade point average on a 4.0 scale and a Bachelor’s degree in English or a related field, with advanced coursework in British and American literature. The Graduate Record Examination is recommended, but not required. Because of necessary enrollment limitations, admission will be competitive; deferred admission is possible.

1. Fill out a copy of the CSU-Pueblo Application for Graduate Admission. This is a two-page form available from the Office of Admissions and on-line. If you need help getting a copy, e-mail to the address given below.

2. Order official copies of all transcripts and send to the Graduate coordinator at the postal address below.

3. Write an application statement that gives a detailed account of your background and qualifications and your purpose in seeking the M.A. in English, both practical and intellectual. The Graduate Committee in English understands that students who apply to our graduate program share our dedication and passion for literature and language. In this application statement, we ask that candidates focus on their intellectual life, professional history, and scholarly background in order to demonstrate their potential for success in a rigorous graduate program.

4. Also submit a writing sample of at least 10 pages, such as a paper written for previous English course or another analytic or argumentative essay. If you wish to submit creative work for your writing sample, it should be accompanied by a 5-page commentary.

5. Solicit three letters of recommendation from references able to evaluate your preparation and likelihood of success in graduate study in English. For those who have recently been undergraduate students, former professors are ideal referees. For those long past their undergraduate studies, recommendations from supervisors, colleagues, and others familiar with your work and intellectual abilities can serve as well. If you have been out of school for awhile, but have old letters of recommendations on hand, you may submit them, but please be sure to include at least one current letter. You may collect the letters and submit them with your other application materials, or, if your references prefer, you may have them sent directly to the address below.

6. Prepare a check for the application fee of $35 made out to Colorado State University-Pueblo and enclose it with your other application materials.

7. Send, or have sent, all these materials (the application form, the check for $35, the application statement, the writing sample, the three letters of recommendation, and the official transcripts) to:

   Graduate Coordinator
   Department of English and World Languages
   Colorado State University-Pueblo
   2200 Bonforte Blvd.
   Pueblo, CO 81001-4901

If you have any questions, please fee free to phone (719-549-2143) or send an email to: joann.pisciotta@csubpueblo.edu.

Financial aid in the form of student loans and perhaps some need-based grants may be available. You may apply for it only after your admission to the program is official, but you may inquire about the application process, eligibility, etc. at any time by contacting Financial Aid at (719) 549-2753 or on-line at: http://www.csubpueblo.edu/FinancialAid.

We accept applications once a year, for fall admission to the program. Please submit your application materials as early as possible—no later than April 1.

Graduation Requirements
Students must maintain an overall grade-point average of 3.00 or higher in courses taken after admission to the degree program. A minimum of 24 credits must be earned at Colorado State University-Pueblo, 21 of which must be earned after admission to the graduate program. Courses from other institutions must be approved by the Graduate Coordinator and officially transferred and appear on the transcript.

### Program Goals

The general goals of the English M.A. program are to prepare students for success and advancement in careers in teaching, writing, and scholarship, and to develop their knowledge and skills in the discipline of English studies to professional levels in the following areas:

- The in-depth study of literature.
- Aspects of literary history and cultural studies.
- Literary criticism and theories of reading and interpretation.
- Theories of writing and rhetoric.
- Practical writing skills in a range of professional and creative genres.
- Research techniques for and understanding of the discipline of English studies.
- Pedagogical theories and techniques for various aspects and levels of English studies.

### Expected Student Learning Outcomes

- Demonstrates professional level of competency in the study of literature.
- Incorporates theories and strategies of literary and rhetorical criticism at a professional level.
- Reveals professional-level writing skills appropriate to the genre(s) of the work.
- Employs research strategies for English studies in a professional manner.
- Manifests professional understanding of pedagogical theories and strategies appropriate to English.
- Speaks in informed and articulate ways about a range of theory, research, and resources relevant to literature, language, rhetoric, and composition studies.

### Additional SLOs for Students Writing a Creative Thesis:

- Produces writing competitive at a publishable level, which reflects an understanding of the creative writing genres, the business of writing, and the drafting and revision process for individual and collections of works.
- Demonstrates a working vocabulary for critical analysis through theoretical venues as well as in-depth study of terminology and form within creative works to develop strong critiquing skills in the workshop.

---

### English, Graduate Certificate

The English Program offers an 18-credit graduate certificate in English designed to enable students who have earned a Master's degree in a discipline other than English to teach college-level courses in English, i.e. in concurrent enrollment programs such as the Senior to Sophomore Program or at community colleges and universities.

### English 3+2 Program, Joint Bachelor of Arts/Master of Arts

One feature of the English MA program is the 3+2 plan, which is designed to give the opportunity to qualified advanced-level undergraduate students to simultaneously pursue both the Baccalaureate (BS) and Master of Arts (MA) degrees. With this plan, students move quickly toward expanding their scholarly/creative horizons based on the student's abilities and personal motivation.

### Admission Requirements

The BA/MA program is unique. It allows qualified students to earn both a BA degree in English and an MA concurrently. With this plan, students move quickly toward expanding their scholarly/creative horizons based on the student’s abilities and personal motivation. Students in the 3+2 plan are expected to successfully complete the requirements for both the BA and MA degrees in five years, thus shortening the normal time to receive both degrees from six years to five years. They must apply and be admitted into the English MA program by the Spring semester of their junior year (preferred) or by the start of the fall semester of the fall semester of their senior year and meet the course requirements listed below. Students applying to the 3+2 plan must have a minimum 3.0 overall GPA and a minimum 3.5 in their English coursework.

The application for admission to the 3+2 plan must include:

1. A CSU-Pueblo transcript.
2. Three letters of recommendation from CSU-Pueblo faculty.
3. A statement of scholarly/creative interests.
4. A ten-page writing sample which demonstrates the candidate’s ability to conduct literary research and apply literary theory, or a ten-page creative writing sample accompanied by a self-analysis demonstrating the candidate’s ability to analyze his or her own work critically.

Before being admitted to the 3+2 program in English, students are expected to have completed 75 credits, including at least twelve upper-level credits in English.
General Requirements

Students in the joint BA/MA program must complete:

- The requirements for the BA in English.
- The requirements for the MA in English.
- Students may take up to 12 graduate credits in “stacked” (400/500) courses, with the permission of the English Graduate Studies Coordinator and the instructor in the course.

BA Required Courses

A total of 46 credits in English beyond ENG 101 Composition I (3 c.h.) and ENG 102 Composition II (3 c.h.) (WL 100 Intro to Comparative Linguistics (3 c.h.) and ENG 106 Language, Thought and Culture (3 c.h.) may be counted, but not double counted for World Language), distributed as follows:

The following graduate linguistics courses could be used to satisfy the undergraduate linguistics elective requirement: ENG 521 Language, Literacy, & Learning (3 c.h.), ENG 522 Phonology & Morphology For ESL/EFL (3 c.h.), ENG 523 Syntax for TESL/TEFL (3 c.h.), ENG 524 Teaching ESL/EFL (3 c.h.), ENG 553 Language in the USA (3 c.h.), ENG 560 Language Acquisition & Linguistics (3 c.h.).

Student Learning Outcomes

Upon completion of the B.A. in English program, students will:

- Demonstrate knowledge of significant traditions, historical and cultural contexts, and current issues in literature and language studies.
- Conduct, analyze, evaluate, and integrate academic research.
- Apply strategies of critical theory.
- Analyze literature and synthesize ideas with clarity, accuracy, and coherence in speech and writing.
- Use a range of English syntactic structures effectively.
- Construct a convincing argument using a range of rhetorical strategies in speech and writing.

Outcomes Assessment Activities

Assessment of the English program is the responsibility of all English Program faculty. The English Program’s annual reports evaluating the
program and proposing any needed changes are compiled from the following information:

- A central file of course syllabi with representative assignments is maintained by the department for inspection by the committee and other qualified persons.
- Faculty advisers monitor each student’s progress toward completing major requirements listed in the catalog.
- All English majors take a senior-year seminar (ENG 493 Senior Seminar (3 c.h.)) emphasizing professional standards and synthesizing the writing and analytical skills students have acquired in other English classes. All students in ENG 493 Senior Seminar (3 c.h.) write a senior research paper, one copy of which is submitted to the department chairperson for dissemination for review. In order to pass ENG 493 Senior Seminar (3 c.h.), students must demonstrate satisfactory levels of achievement in meeting the program goals.
- English Program faculty review the papers from ENG 493 Senior Seminar (3 c.h.) on an annual basis and prepare an analysis of what they reveal about the program’s success.
- The English Program administers a student-satisfaction questionnaire to all senior English majors each year. Similar questionnaires are sent to recent graduates and representative employers on a periodic basis.
- The English Program faculty consider the English curricula at leading comparable institutions and apprise the department of innovations worthy of consideration.

**English, Bachelor of Arts**

**Requirements for the English Major**

- Specific requirements for the English major are listed below. Students should consult with an adviser in English before registration.
- Students must complete, with a grade of C or better, all courses counting toward the major or minors.
- Students must fulfill the University language requirements for the BA degree, first year world language (6-8 credit hours) OR ENG 106 Language, Thought and Culture (3 c.h.) and WL 100 Intro to Comparative Linguistics (3 c.h.) OR ASL 101 Beginning American Sign Language I (3 c.h.) and ASL 102 Beginning American Sign Language II (3 c.h.). For International students, ENG 101 Composition I (3 c.h.) and ENG 102 Composition II (3 c.h.) fulfill the World Language Requirement.
- For teaching endorsement requirements, see the Teacher Education Program section.

**Co-Curricular Requirements**

The English faculty supports and encourages English majors’ involvement in student organizations and participation in tutoring activities in the community and on campus.

**English Major**

- Faculty advisers meet individually with each of their students on a regular basis to help plan schedules and discuss educational and career goals. Advisers maintain an accurate and up-to-date record of each student’s progress towards completion of the requirements for the major.
- All English majors will participate in a senior-year seminar in which all of the writing and analytical skills acquired in other English classes will be synthesized. Students in the class will be expected to complete a senior research project.

### Specific Requirements for the Bachelor of Arts in English

A total of 46 credits in English beyond ENG 101 Composition I (3 c.h.) and ENG 102 Composition II (3 c.h.) (WL 100 Intro to Comparative Linguistics (3 c.h.) and ENG 106 Language, Thought and Culture (3 c.h.) may be counted, but not double counted for World Language), distributed as follows:

| Elective Courses | | |
| Select at least 12 credits of English electives | | 12 |
| **Total Credits** | | 46 |

1. Selected with the approval of the major adviser, two of which must comprise a sequence of American or British literature at the 200 level (i.e., ENG 210 American Literature I (3 c.h.) and ENG 212 American Literature II (3 c.h.) or ENG 221 Masterpieces of Literature I (3 c.h.) and ENG 222 Masterpieces of Literature II (3 c.h.) or ENG 231 Literature of England I (3 c.h.) and ENG 232 Literature of England II (3 c.h.)), while the third must be at the 300 level or above.

2. Beyond ENG 101 Composition I (3 c.h.) and ENG 102 Composition II (3 c.h.).

3. WL 100 Intro to Comparative Linguistics (3 c.h.) and ENG 106 Language, Thought and Culture (3 c.h.) may be counted, but not double counted for World Language.

4. Selected with the approval of the major adviser (General Education and World Language requirements may not be double counted).

**General Education**

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.
Student Learning Outcomes
Upon completion of the B.A. in English program, students will:

- Demonstrate knowledge of significant traditions, historical and cultural contexts, and current issues in literature and language studies.
- Conduct, analyze, evaluate, and integrate academic research.
- Apply strategies of critical theory.
- Analyze literature and synthesize ideas with clarity, accuracy, and coherence in speech and writing.
- Use a range of English syntactic structures effectively.
- Construct a convincing argument using a range of rhetorical strategies in speech and writing.

Outcomes Assessment Activities
Assessment of the English program is the responsibility of all English Program faculty. The English Program’s annual reports evaluating the program and proposing any needed changes are compiled from the following information:

- A central file of course syllabi with representative assignments is maintained by the department for inspection by the committee and other qualified persons.
- Faculty advisers monitor each student’s progress toward completing major requirements listed in the catalog.
- All English majors take a senior-year seminar (ENG 493 Senior Seminar (3 c.h.)) emphasizing professional standards and synthesizing the writing and analytical skills students have acquired in other English classes. All students in ENG 493 Senior Seminar (3 c.h.) write a senior research paper, one copy of which is submitted to the department chairperson for dissemination for review. In order to pass ENG 493 Senior Seminar (3 c.h.), students must demonstrate satisfactory levels of achievement in meeting the program goals.
- English Program faculty review the papers from ENG 493 Senior Seminar (3 c.h.) on an annual basis and prepare an analysis of what they reveal about the program’s success.
- The English Program administers a student-satisfaction questionnaire to all senior English majors each year. Similar questionnaires are sent to recent graduates and representative employers on a periodic basis.
- The English Program faculty consider the English curricula at leading comparable institutions and apprise the department of innovations worthy of consideration.

English, Bachelor of Arts: Creative Writing Emphasis
Requirements for the English Major

- Specific requirements for the English major are listed below. Students should consult with an adviser in English before registration.
- Students must complete, with a grade of C or better, all courses counting toward the major or minors.
- Students must fulfill the University language requirements for the BA degree, first year world language (6-8 credit hours) OR ENG 106 LANGUAGE, THOUGHT AND CULTURE (3 c.h.) and WL 100 INTRO TO COMPARATIVE LINGUISTICS (3 c.h.) OR ASL 101 BEGINNING AMERICAN SIGN LANGUAGE I (3 c.h.) and ASL 102 BEGINNING AMERICAN SIGN LANGUAGE II (3 c.h.). For International students, ENG 101 COMPOSITION I (3 c.h.) and ENG 102 COMPOSITION II (3 c.h.) fulfill the World Language Requirement.
- For teaching endorsement requirements, see the Teacher Education Program section.

Co-Curricular Requirements

General Education
The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Student Learning Outcomes

Upon completion of the B.A. in English program, students will:

- Demonstrate knowledge of significant traditions, historical and cultural contexts, and current issues in literature and language studies.
- Conduct, analyze, evaluate, and integrate academic research.
- Apply strategies of critical theory.
- Analyze literature and synthesize ideas with clarity, accuracy, and coherence in speech and writing.
- Use a range of English syntactic structures effectively.
- Construct a convincing argument using a range of rhetorical strategies in speech and writing.

Students completing the B.A. in English program and a creative writing emphasis will also:

- Demonstrate a working vocabulary for critical analysis through theoretical venues as well as in-depth study of terminology and form within creative works to develop strong critiquing skills in the workshop environment.
- Produce writing competitive at a publishable level, which reflects an understanding of the creative writing genres, the business of writing, and the drafting and revision process for individual and collections of works.

Outcomes Assessment Activities
Assessment of the English program is the responsibility of all English Program faculty. The English Program’s annual reports evaluating the program and proposing any needed changes are compiled from the following information:

- A central file of course syllabi with representative assignments is maintained by the department for inspection by the committee and other qualified persons.
- Faculty advisers monitor each student’s progress toward completing major requirements listed in the catalog.
- All English majors take a senior-year seminar (ENG 493 Senior Seminar (3 c.h.)) emphasizing professional standards and synthesizing the writing and analytical skills students have acquired in other English classes. All students in ENG 493 Senior Seminar (3 c.h.) write a senior research paper, one copy of which is submitted to the department chairperson for dissemination for review. In order to pass ENG 493 Senior Seminar (3 c.h.), students must demonstrate satisfactory levels of achievement in meeting the program goals.
- English Program faculty review the papers from ENG 493 Senior Seminar (3 c.h.) on an annual basis and prepare an analysis of what they reveal about the program’s success.
- The English Program administers a student-satisfaction questionnaire to all senior English majors each year. Similar questionnaires are sent to recent graduates and representative employers on a periodic basis.
- The English Program faculty consider the English curricula at leading comparable institutions and apprise the department of innovations worthy of consideration.

English, Bachelor of Arts: Secondary Teaching Endorsement

Specific Requirements for the Bachelor of Arts in English with Secondary Teaching Endorsement

- Faculty advisers meet individually with each of their students on a regular basis to help plan schedules and discuss educational and career goals. Advisers maintain an accurate and up-to-date record of each student’s progress towards completion of the requirements for the major.
- All English majors will participate in a senior-year seminar in which all of the writing and analytical skills acquired in other English classes will be synthesized. Students in the class will be expected to complete a senior research project.

Students completing a major in English with Secondary Teaching Endorsement are required to complete a minor in education and meet all other requirements outlined by the Teacher Education Program.

A total of 45 credits in English beyond ENG 101 Composition I (3 c.h.) and ENG 102 Composition II (3 c.h.) (more than one course in Literary Theory may be counted, but not double counted for World Language), distributed as follows:

### General Education

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

### Student Learning Outcomes for Spanish Majors

Spanish Majors will achieve a level of proficiency in Spanish communication skills (listening, speaking, reading, and writing) and in the understanding of Hispanic cultures sufficient to allow them to function effectively in careers in teaching, business, the media, government, the arts, etc.

These outcomes will be achieved by showing proficiency in the 5 C’s:

1. **Communication**: The communication standard stresses the use of Spanish for communication in “real life” situations. It emphasizes “what students can do with language” rather than “what they know about language.” Students are asked to communicate in oral and written form, to interpret oral and written messages, to show cultural understanding when they communicate, and to present oral and written information to various audiences for a variety of purposes.

2. **Cultures**: Cultural understanding is an important part of Spanish language education. Experiencing other cultures develops a better understanding and appreciation of the relationship between languages and other cultures, as well as the student’s native culture. Students become better able to understand other people’s points of view, ways of life, and contributions to the world.

3. **Connections**: Spanish-language instruction must be connected with other subject areas. Content from other subject areas is integrated with Spanish-language instruction through lessons or courses that are developed around themes common to other subject areas.

4. **Comparisons**: Students are encouraged to compare and contrast Spanish language and cultures with their own. They discover patterns, make predictions, and analyze similarities and differences across languages and cultures. Students often come to understand their native language and culture better through such comparisons.

5. **Communities**: Extending learning experiences from the Spanish-language classroom to the home and multilingual and multicultural community emphasizes living in a global society. Activities may include: field trips; use of e-mail and the Internet; participation in clubs, exchange or study-abroad programs, and cultural activities; school-to-work opportunities; and opportunities to hear speakers of Spanish at the University and in the classroom.

### Outcomes Assessment Activities

Assessment of the world languages program is the responsibility of the World Languages Program Assessment Committee, consisting of the Program Director for World Languages and three other faculty members. The committee’s annual reports evaluating the program and proposing any needed changes are compiled from the following information:

- A central file of course syllabi with representative assignments is maintained by the department for inspection by the committee and other qualified persons.
- Faculty advisers monitor each student’s progress towards completing major requirements and meeting the program goals listed in the catalog. Advisers report any problems or deficiencies in the program encountered by the students to the program assessment committee through the associate chair.
- All Spanish majors produce a senior assessment portfolio emphasizing professional standards and sharpening the proficiency skills students have acquired in their Spanish courses. Students work in conjunction with an adviser to complete the project and submit it to the Program Assessment Committee for review.
- Oral and written exit exams evaluate proficiency in listening, speaking, reading, and writing as well as understanding of Hispanic culture.
• The Program Assessment Committee reviews the senior portfolios and the results of the exit exam on an annual basis and prepares an analysis of what is revealed about the program’s success.
• The Program Assessment Committee administers a student-satisfaction questionnaire to all senior world languages majors and minors each year. A similar questionnaire is sent to recent graduates on a periodic basis.
• The Program Assessment Committee monitors the world languages curricula at leading comparable institutions and apprises the department of innovations worthy of consideration.

World Languages-Spanish, Bachelor of Arts: K-12 Teaching Endorsement

Specific Requirements for B.A. in World Languages - Spanish with K-12 Teaching Endorsement

In addition to the courses listed below, Spanish majors must also meet the following requirements:

1. A senior assessment portfolio.
2. A minor in Education and completion of all requirements of the Teacher Education Program for K-12 Spanish licensure.
3. Completion of the oral and written proficiency exams and of the graduating-senior survey.
4. At least one upper-division SPN course must emphasize Latin America, one Spain.

Students completing a major in World Language-Spanish with an emphasis in K-12 are required to complete a minor in education and meet all other requirements outlined by the Teacher Education Program.

Study abroad is strongly encouraged.

- The Program Assessment Committee monitors the world languages curricula at leading comparable institutions and apprises the department of innovations worthy of consideration.

### Communication & Rhetoric, Minor

Program Coordinator: Kevin Van Winkle

The Communication & Rhetoric minor at CSU-Pueblo is designed for students interested in developing effective written and verbal communication skills. It provides a course of study that emphasizes both a theoretical understanding and practical application of communication that prepares students technically, professionally, and personally to successfully navigate a variety of challenges.

### Communication & Rhetoric Program Goals

1. To provide individual courses as well as an academic minor in Communication & Rhetoric that foster students’ abilities to describe, analyze, critique, explore, create and produce ideas and content in various contexts.
2. To cultivate students’ abilities to construct and respond to messages effectively utilizing various modes of communication.
3. To develop students’ understanding of demographics and cultures and how these factors influence the communication context.
4. To prepare students to communicate in professional contexts as well as in more informal ones.
5. To train students to better communicate their academic, personal, and civic knowledge.

### Specific Requirements for the Communication & Rhetoric Minor

The Communication & Rhetoric minor consists of 18 credits, comprised of required and elective courses. Six credits must be earned at the 300-400 level. Acceptance of transfer courses is contingent upon approval of the program director. No more than three credits of an independent study can count toward the minor. All students must complete the 18 credits with a grade of C or better in all required and elective courses.

Expected Student Learning Outcomes

1. Produce and deliver content and messaging appropriate in a variety of contexts.
2. Work in small groups to facilitate collaboration with others.
3. Create artifacts that reflect critical cultural awareness.
4. Communicate contextually relevant knowledge.

Outcomes Assessment Activities for the Communication & Rhetoric Program

Faculty teaching in the minor will evaluate pre-determined assignments/artifacts to determine if students are meeting the program objectives. The results of assessment activities will be used to make changes to courses and/or curriculum to improve students’ mastery of outcomes.

Creative Writing, Minor

The Creative Writing Minor is designed for students interested in pursuing an MFA in creative writing or students who wish to continue their creative activity after graduation. Since MFA degrees specialize in poetry, playwriting, creative nonfiction, or fiction, students will complete 21 credits of coursework concentrating on one genre while also establishing knowledge of the creative writing workshop, the drafting/revision process, and the business of writing.

Student Learning Outcomes

• Students will demonstrate a working vocabulary for critical analysis through theoretical venues as well as in-depth study of terminology and form within creative works to develop strong critiquing skills in the workshop environment.

Outcome Assessment Activities

The Coordinator of the Creative Writing minor reviews student portfolios to evaluate student performance levels in conjunction with Program Goals, tracks student placement in graduate programs, and records student and former student publications, reporting the result annually.

Minor requirements are 20 or more semester credit hours of course work in English numbered 106 or above, of which 12 must be upper division and one must be ENG 201 Introduction to Literary Study (3 c.h.). Courses must be chosen in consultation with an adviser in English. Students must complete with a grade of C or better all courses counting toward the major or minors.

Italian, Minor
Student Learning Outcomes for Minors in Spanish and Italian

Students minoring in Italian and Spanish will be required to demonstrate a level of proficiency sufficient to converse comfortably on everyday topics, to attain intermediate levels of proficiency in writing and reading the target language, and to understand and appreciate the target language cultures.

Outcomes Assessment Activities

Assessment of the world languages program is the responsibility of the World Languages Program Assessment Committee, consisting of the Program Director for World Languages and three other faculty members. The committee's annual reports evaluating the program and proposing any needed changes are compiled from the following information:

- A central file of course syllabi with representative assignments is maintained by the department for inspection by the committee and other qualified persons.
- Faculty advisers monitor each student's progress towards completing major requirements and meeting the program goals listed in the catalog. Advisers report any problems or deficiencies in the program encountered by the students to the program assessment committee through the associate chair.
- All Spanish majors produce a senior assessment portfolio emphasizing professional standards and sharpening the proficiency skills students have acquired in their Spanish courses. Students work in conjunction with an adviser to complete the project and submit it to the Program Assessment Committee for review.
- Oral and written exit exams evaluate proficiency in listening, speaking, reading, and writing as well as understanding of Hispanic culture.
- The Program Assessment Committee reviews the senior portfolios and the results of the exit exam on an annual basis and prepares an analysis of what is revealed about the program's success.
- The Program Assessment Committee administers a student-satisfaction questionnaire to all senior world languages majors and minors each year. A similar questionnaire is sent to recent graduates on a periodic basis.
- The Program Assessment Committee monitors the world languages curricula at leading comparable institutions and apprises the department of innovations worthy of consideration.

History/Bachelor of Arts

The major in history leads to the degree of Bachelor of Arts (BA) or Bachelor of Science (BS) and prepares students for careers in teaching, law, government, and private enterprise, as well as entry into graduate programs.

General Requirements

- No grade below C is acceptable in the major or minor.
- Students are expected to complete HIST 493 Seminar (3 c.h.) in their final year. Class size in HIST 493 Seminar (3 c.h.) is limited. A grade of D+ or lower in HIST 493 Seminar (3 c.h.) will, after the third attempt in either course, result in the student being prevented from enrolling in the course again. The student may be eligible for reconsideration on a one-time basis, with approval by the student's adviser. If repeated registration, after the third attempt, is permitted, subsequent failure to achieve a grade of C will make the student ineligible for readmission to those courses.
- Students must take HIST 493 Seminar (3 c.h.) in residence. No courses will be accepted in transfer to substitute for this course.

Requirements for the Bachelor of Arts Degree in History

Students must complete the "Core Requirements for the History Major" as outlined above, plus 21 hours of history electives, of which at least 6 hours must be from non US history courses (as determined by the student's advisor), and of which at least 15 hours must be upper level. A minimum of two semesters of college level world language is required for the BA degree in History; more is recommended. The BA degree in History is appropriate for students planning to attend graduate or law school, among other careers.

Total Credits | 36

1 At least 6 hours must be from non US history courses (as determined by the student’s advisor), and at least 15 hours must be upper level.

### General Education

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

### Program Goals

- To provide students with a general knowledge of history and historical methodology;
- To prepare students, through training in communication skills and in research methods, to gain knowledge of a given area of history;
- To prepare students to continue personal study and learning about specific subject areas in the discipline on an independent basis;
- To prepare students to engage in critical thinking; and
- To introduce students to the theoretical frameworks that serve as the foundation of historical scholarship.

### Expected Student Outcomes for the History Program

On completion of the Bachelor’s degree, history majors at CSU-Pueblo will:

- Demonstrate literacy—analytical reading and effective writing skills—in general, and for historical content;
- Demonstrate understanding of the history of historical writing, and demonstrate the ability to apply the principles and theories that support historical writing;
- Demonstrate knowledge of specific times and locations studied, and knowledge of the complexities of the past and the diversity of human cultures in those times and places;
- Apply the concepts of historical thinking, for example, in evaluating change over time; and
- Demonstrate skills in historical research, including historical analysis and interpretation.

### Outcomes Assessment Activities for the History Program

Portfolio reviews serve as the core, formal assessment tool for the History Program. Student portfolios contain papers written for HIST 493 Seminar (3 c.h.). Portfolio papers are reviewed on the basis of the student learning outcomes.

### History, Bachelor of Science: General Emphasis

The major in history leads to the degree of Bachelor of Arts (BA) or Bachelor of Science (BS) and prepares students for careers in teaching, law, government, and private enterprise, as well as entry into graduate programs.

### General Requirements

- No grade below C is acceptable in the major or minor.
- Students are expected to complete HIST 493 Seminar (3 c.h.) in their final year. Class size in HIST 493 Seminar (3 c.h.) is limited. ### Outcomes Assessment Activities for the History Program

Portfolio reviews serve as the core, formal assessment tool for the History Program. Student portfolios contain papers written for HIST 493 Seminar (3 c.h.). Portfolio papers are reviewed on the basis of the student learning outcomes.

### Political Science, Bachelor of Arts

The major in political science leads to the degrees of Bachelor of Arts (BA) and Bachelor of Science (BS). The political science curriculum focuses heavily on the development of analytical and communication skills—along with comprehensive knowledge of public policy, politics, current events, and history—and as such prepares undergraduates for a wide range of public, private, and non-profit sectors. Courses in political science also serve to complement the liberal arts core at CSU-Pueblo and to prepare students for acceptance into graduate programs leading to professional degree Programs.

### General Requirements

- Students in the major must complete a minimum of 39 semester credit hours in political science, including 21 hours in the political science core. Students are required to earn a grade of C or better in all political science courses.
- Students in the minor must complete a minimum of 21 semester credit hours in political science, including 9 semester credit hours in the political science core. Students are required to earn a grade of C or better in all political science courses.
- A maximum of six credit hours of POLSC 480 Practicum in Politics and Public Service (1-6 c.h.) may be applied towards the 39 hours required for the major, or three credit hours towards the 21 hours required for the minor.
- Depending on individual interests and goals, students are encouraged to take one year of world language, courses in statistics, and PHIL 204 Critical Reasoning (3 c.h.).

- POLSC 306 Peace Studies  
- POLSC 460 U.S. Foreign and Security Policy

Comparative Politics - Select one of the following:  
- POLSC 440 Nationalism and Ethnic Conflict  
- POLSC 445 Economic Development  
- POLSC 450 Democracy and Dictatorship  
- POLSC 455 States, Citizens and Human Rights

Public Policy/Public Administrations - Select one of the following:  
- POLSC 330 Introduction to Public Admin.  
- POLSC 340 Public Policy

Elective Courses
Select two political science electives  
- Total Credits 39

1 You may take any lower or upper division political science classes that were not taken to meet the above requirements.

General Education
The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Program Goals
To prepare students majoring in the discipline to:
- Demonstrate a basic understanding of historical, philosophical and empirical foundations of political science;
- Demonstrate a general command of knowledge about the American political system, global studies, the history of political thought, and standard political science research approaches; and
- Demonstrate an ability to continue personal study and learning on an independent basis about specific subjects in the discipline.

To prepare students minoring in the discipline to:
- Demonstrate a basic understanding of the nature of the discipline, and
- Demonstrate a general knowledge and understanding of the American political system and of global studies.

Expected Student Outcomes for the Political Science Program

Knowledge Outcome:
(KO1) Students should have factual knowledge of many aspects of politics and government that are central objects of study in each of the subfields of political science (American politics, comparative politics, international relations, and political theory).

(KO2) Students should be able to explain core debates (or scholarly theories and perspectives) in the subfields of political science.

Writing Outcome:
(WO1) Students should be able to write papers on topics in political science that (a) exhibit clear prose and correct grammar and (b) present a central argument in a clear and coherent structure or fashion.

Critical Thinking Outcome:
(CTO1) Students should be able to identify and critique the assumptions, logic, and evidence in both scholarly and lay political arguments.

(CTO2) Students should be able to use empirical observations and analytical reasoning to articulate and defend compelling, non-fallacious arguments.

Outcomes Assessment Activities for the Political Science Program
The faculty of the Political Science program use a variety of methods for evaluating the student learning outcomes. These include an assessment of each student learning outcome in the political science senior seminar and a completed student exit survey in the senior seminar.

Political Science, Bachelor of Science: General Emphasis
The major in political science leads to the degrees of Bachelor of Arts (BA) and Bachelor of Science (BS). The political science curriculum focuses heavily on the development of analytical and communication skills – along with comprehensive knowledge of public policy, politics, current events, and history – and as such prepares undergraduates for a wide range of in the private, public, and non-profit sectors. Courses in political science also serve to complement the liberal arts core at CSU-Pueblo and to prepare students for acceptance into graduate programs leading to professional degree Programs.

General Requirements
- Students in the major must complete a minimum of 39 semester credit hours in political science, including 21 hours in the political science core. Students are required to earn a grade of C or better in all political science courses.
- Students in the minor must complete a minimum of 21 semester credit hours in political science, including 9 semester credit hours in the political science core. Students are required to earn a grade of C or better in all political science courses.
- A maximum of six credit hours of POLSC 480 Practicum in Politics and Public Service (1-6 c.h.) may be applied towards the 39 hours required for the major, or three credit hours towards the 21 hours required for the minor.
- Depending on individual interests and goals, students are encouraged to take one year of world language, courses in statistics, and PHIL 204 Critical Reasoning (3 c.h.).

To prepare students minoring in the discipline to:

- Demonstrate a basic understanding of the nature of the discipline, and
- Demonstrate a general knowledge and understanding of the American political system and of global studies.

To prepare students majoring in the discipline to:

Program Goals

Component. Please see the General Education Requirement section under Academic Policies for more information.

General Education

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Student Learning Outcomes for the Political Science Program

Knowledge Outcome:

(KO1) Students should have factual knowledge of many aspects of politics and government that are central objects of study in each of the subfields in political science (American politics, comparative politics, international relations, and political theory).

(KO2) Students should be able to explain core debates (or scholarly theories and perspectives) in the subfields of political science.

Writing Outcome:

(WO1) Students should be able to write papers on topics in political science that (a) exhibit clear prose and correct grammar and (b) present a central argument in a clear and coherent structure or fashion.

Critical Thinking Outcome:

(CTO1) Students should be able to identify and critique the assumptions, logic, and evidence in both scholarly and lay political arguments.

(CTO2) Students should be able to use empirical observations and analytical reasoning to articulate and defend compelling, non-fallacious arguments.

Outcomes Assessment Activities for the Political Science Program

The faculty of the Political Science program use a variety of methods for evaluating the student learning outcomes. These include an assessment of each student learning outcome in the political science senior seminar and a completed student exit survey in the senior seminar.

Political Science, Bachelor of Arts: Secondary Education Emphasis

The major in political science leads to the degrees of Bachelor of Arts (BA) and Bachelor of Science (BS). The political science curriculum focuses heavily on the development of analytical and communication skills — along with comprehensive knowledge of public policy, politics, current events, and history — and as such prepares undergraduates for a wide range of in the private, public, and non-profit sectors. Courses in political science also serve to complement the liberal arts core at CSU-Pueblo and to prepare students for acceptance into graduate programs leading to professional degree Programs.

General Requirements

- Students in the major must complete a minimum of 39 semester credit hours in political science, including 21 hours in the political science core. Students are required to earn a grade of C or better in all political science courses.
- Students in the minor must complete a minimum of 21 semester credit hours in political science, including 9 semester credit hours in the political science core. Students are required to earn a grade of C or better in all political science courses.
- A maximum of six credit hours of POLSC 480 Practicum in Politics and Public Service (1-6 c.h.) may be applied towards the 39 hours

General Education

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Program Goals

To prepare students majoring in the discipline to:

- Demonstrate a basic understanding of historical, philosophical and empirical foundations of political science;
- Demonstrate a general command of knowledge about the American political system, global studies, the history of political thought, and standard political science research approaches; and
- Demonstrate an ability to continue personal study and learning on an independent basis about specific subjects in the discipline.

To prepare students minoring in the discipline to:

- Demonstrate a basic understanding of the nature of the discipline, and
- Demonstrate a general knowledge and understanding of the American political system and of global studies.

Elective Courses

Homeland Security, Minor
Center for the Study of Homeland Security
The Political Science Program administers the Center for the Study of Homeland Security, which now offers a certificate in Homeland Security Studies and a Minor in Homeland Security for degree-seeking students.

The minor in Homeland Security provides students with an opportunity for in-depth study of the political and public policy issues involved in the homeland security field of governance and industry.

To complete the minor, students are required to complete a total of 18 credit hours of coursework.

Specific Requirements for the Minor in Homeland Security

</tbody>
</table>

All students pursuing the minor earn the Certificate in Homeland Security Studies.

Students have the option to replace one current 300 level Homeland Security class with an elective 300 level course for the minor. Any elective chosen must be approved prior to the student’s enrollment in the course. Approval is given through student consultation with the Director of the Center for Homeland Security.

Only one course taken for the Homeland Security Certificate can count toward the political science minor.
Student Learning Outcomes for the Homeland Security Program

**Knowledge:** Students will be able to demonstrate knowledge of intelligence and counter-intelligence concepts; legal and constitutional principles pertaining to homeland and national security policy; strategic planning interfaces between national, state, and local governments; conceptual aspects of terrorism and counter-terrorism; and understand basic inter-agency communication needs, methods, and processes.

**Writing:** Students will be able to construct and present coherent, objective, and well reasoned arguments or discussions pertaining to topics on homeland security.

**Critical Thinking:** Students will be able to: recognize issues that are pertinent to homeland security; question issue validity; develop logically sound arguments pertaining to said issues; and evaluate sources of evidence pertaining to the issue (including contrary and supporting evidence).

**Communication:** Students will be able to construct, compose, and deliver professional reports, research, and briefings.

Outcomes Assessment Activities for the Homeland Security Program

The Director of the Homeland Security program establishes and maintains a portfolio for each student with a declared minor in Homeland Security. Portfolios include student's major papers and observations of research presentations for the Terrorism course and other pertinent information including transcripts. This portfolio, in conjunction with results from an annual in-class observation of student performance in a minor level course, form the basis of evaluating expected student learning outcomes.

Legal Studies, Minor

The minor in Legal Studies provides students with a basic understanding of the American judicial and legal system, as well as courses designed to enhance critical thinking and analytic skill, and improve research practices, and communication skills, both oral and written.

- Only one History class taken for the minor can count toward the History major or minor.
- Only one Political Science class taken for the minor can count toward the Political Science major or minor.
- Only one Philosophy class taken for the minor can count toward the Philosophy minor.

### Philosophy, Minor

**Expected Student Outcomes**

- Students will be able to recognize, analyze, and logically evaluate arguments encountered in sources ranging from philosophical and academic texts to the popular media.
- Students will be able to construct and present clear, well-reasoned defenses of theses both verbally and in writing.
- Students will be able to recognize and assess the relevance of philosophical ideas and methods in the historical interplay of philosophy and culture.
- Students will be able to apply philosophical methods to conduct ethical, metaphysical, and epistemological analyses.

Outcomes Assessment Activities

The coordinator of the Philosophy Program maintains a portfolio for each student with a declared minor in philosophy. Portfolios include a student’s major papers written for the History of Philosophy courses, transcripts, and other pertinent information. Student portfolios, in conjunction with indirect measures such as the results from the annual survey of minors, form the basis for evaluating expected outcomes.

**General Requirements**

Students who wish to minor in philosophy must complete a minimum of 18 credit hours of approved philosophy courses with grades of C or better.

Communication: Students will be able to construct, compose, and deliver professional reports, research, and briefings.

Outcomes Assessment Activities for the Homeland Security Program

The Director of the Homeland Security program establishes and maintains a portfolio for each student with a declared minor in Homeland Security. Portfolios include student's major papers and observations of research presentations for the Terrorism course and other pertinent information including transcripts. This portfolio, in conjunction with results from an annual in-class observation of student performance in a minor level course, form the basis of evaluating expected student learning outcomes.

This certificate is for degree-seeking students as well as law enforcement, emergency response personnel, and military. Recipients of the certificate will gain a deeper understanding of current security issues and the governmental decision-making process and the certificate will be valuable in hiring and promotion decisions in numerous career fields.

Mass Communications Department and Center for New Media

Department Chair: Sam Lovato

Faculty: Cowden, Ebersole, Gula, Viall

Station Manager: Jenna Mangino

The Mass Communications Department and Center for New Media supports the mission of the University by offering an applied major that integrates technological innovation with a traditional humanities and social sciences curriculum. Students are prepared for careers in the media and related disciplines while also being given the ethical and aesthetic foundations to make those careers meaningful.

The 42 credit major in Mass Communications leads to the degrees of Bachelor of Arts (BA) and Bachelor of Science (BS). Candidates for the Bachelor of Arts degree must satisfy the world language requirement while candidates for the Bachelor of Science degree must complete MATH 156 Introduction to Statistics (3 c.h.). A degree in Mass Communications leads to careers in print and online journalism reporting and editing for news, features and sports; advertising copywriting, design and sales; digital video and audio production for radio, television, and the Internet; interactive multi-media application for the Internet; and strategic public relations for government, nonprofits, and business.

An 18 credit core is the foundation of the major with emphasis areas that require 15 additional credit hours and applied coursework that requires 9 additional credit hours.
The TODAY online news website and magazine are published as laboratory tools of the Mass Communications Department to serve the students, faculty and staff of CSU-Pueblo in addition to the Pueblo community. Editorial and management positions are awarded each semester after review of all applications from qualified students. The newspaper is funded through advertising revenue. The newspaper’s adviser is a member of the Mass Communications faculty. Prerequisites: MCCNM 201 Introduction to Journalism (3 c.h.) and declared major or minor in Mass Communications.

KTSC-FM is licensed to CSU-Pueblo as an educational radio station by the Federal Communications Commission. Operated by the Mass Communications Department, the 8,000-watt station serves the surrounding region. Advanced Mass Communications students are involved in daily programming, production, and news. Prerequisites: MCCNM 101 Media and Society (3 c.h.) and MCCNM 140 Radio Station Operation (1 c.h.) and declared major or minor in Mass Communications.

KTSC-TV, a full-power television station affiliated with Rocky Mountain Public Broadcasting and CPB, provides laboratory training and on-campus opportunities for television students in the KTSC Studio. Prerequisites: MCCNM 101 Media and Society (3 c.h.) and MCCNM 245 Digital Media Production (3 c.h.) and declared major or minor in Mass Communications.

Department Mission

The mission of the Mass Communications Department and Center for New Media is to offer a pragmatic and professionally oriented program designed to prepare majors for successful careers in the media and related areas and to prepare students for graduate study.

Department Goals

1. Offer a marketable and professionally credible program.
   • Provide a comprehensive foundation of media-oriented theory and practice.
   • Emphasize writing as strategic and professional communication.
   • Emphasize personal ethics and professional ethics codes.
   • Ensure curriculum meets standards of the professions represented.

2. Provide a student-centered experience for learning and advising.
   • Create a proactive student-faculty advising experience.
   • Create a collaborative department culture.
   • Recognize student accomplishments and outstanding performance.

3. Create an applied learning environment with cutting-edge technology.
   • Provide media laboratory opportunities for all Mass Communication majors.
   • Offer a full range of internships at the junior and senior level.
   • Provide technology for pedagogical and professional purposes.
   • Create course content that is interactive, applied, and project-oriented.

4. Maintain a reputation for excellence.
   • Maintain alumni relationships through an online database, guest speakers, and professional networking.
   • Conduct graduating senior surveys every semester and alum surveys every five years.
   • Serve as mentors and role models for current students and alumni.

Mass Communications and Center for New Media, Bachelor of Arts: Electronic Media Emphasis

General Requirements

• Majors are required to complete a 42 credit curriculum which includes:
  • 18 credit Core
  • 15 credit Emphasis area
  • 9 credits of Applied coursework

• Successful Mass Communications majors will demonstrate sufficient knowledge, comprehension and analytical skills by the ability to evaluate specific communication events in the proper context of their emphasis area.

• Students majoring in Mass Communications must achieve a C grade or better in all MCCNM courses, both required and elective, to be eligible for graduation. Students who earn below a C in MCCNM courses will be required to repeat them to achieve the 2.0 requirement for graduation in the major.

• Each faculty member will keep, in the department’s central file, a set of course outlines or syllabi that list the objectives and skills achieved during the term. This central pool of materials describes the detailed expectations and accountability elements for the MCCNM major on a course-by-course basis.

• Consistent with general CSU-Pueblo policy, no student enrolled in MCCNM courses may accumulate unexcused absences, or arrive late for scheduled classes without faculty consultation.

• The Mass Communications department believes that grades are valid quantitative indicators of student performance. Students’ GPAs in the major or minor will be used by emphasis area advisers for both formative and summary evaluations of majors and minors.

• While it is necessary for Mass Communications majors and minors to meet the minimum GPA standards set by the department and the University, it is expected that graduates will exceed these standards.

• MCCNM 101 Media and Society (3 c.h.), does not fulfill a social science general education requirement for Mass Communications majors.

Note: Prerequisites may exist with some courses and Media Lab is required of all majors.

Co-curricular Requirements

The thrust of the Mass Communications Department and Center for New Media is pragmatic; therefore, all majors must enroll in a minimum of one 2 or 3 credit lab. Faculty have discretion in curriculum, programming and enrollment of all media labs.

- TODAY online newspaper and print magazine (print and online editorial, photography, audio/video, advertising)
- KTSC-FM on-campus radio station (studio and field production, programming, promotion, talent)
- KTSC-TV/RMPBS on-campus television station (studio production)

Students may earn a maximum of 9 credits in media labs.

Students desiring internships must have a 3.0 grade point average in their Mass Communications courses. Internships are not required, are most often reserved for majors, and are at the discretion of the faculty adviser. Students may earn a maximum of 9 hours of internship credit.

General Education

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Student Learning Outcomes

(Based on Department Goal 1: Offer a marketable and professionally credible program.)

1. Students will display critical thinking skills, conveying complex ideas related to current issues and ethical expectations of mass media and related disciplines.
2. Students will write with clarity and organization utilizing the proper format, writing mechanics and audience focus, in a manner that is professionally competitive for an entry-level position in the discipline.
3. Students will demonstrate technological expertise related to the specific emphasis area that is professionally competitive for an entry-level position in their discipline.
4. Students will demonstrate command of subject, organization of thoughts, and skill at interpersonal communication in front of an audience.

Outcomes Assessment Activities

Student success is measured through a variety of methods that include classroom writing samples, portfolios of student work, professional internship evaluations, exit interviews, student employment upon graduation, and alumni feedback.

Each graduating senior creates an academic portfolio of all salient work or projects completed while in the department. Department faculty review and evaluate a selection of portfolios to assess student learning.

The Mass Communications Department and Center for New Media requires that the academic portfolio demonstrate a pattern of sustained academic growth and development of the major and minor, appropriate to the student’s emphasis area.

The academic portfolio should reflect the quality and level of intellectual and scholarly work undertaken by the student while in the department, relative to the qualitative, quantitative, ethical, legal and aesthetic dimensions of the field. The appropriateness of the content is dictated by the student’s emphasis area and is prescribed by the individual’s adviser.

Mass Communications and Center for New Media, Bachelor of Science: Electronic Media Emphasis
General Requirements

- Majors are required to complete a 42 credit curriculum which includes:
  - 18 credit Core
  - 15 credit Emphasis area
  - 9 credits of Applied coursework

- Successful Mass Communications majors will demonstrate sufficient knowledge, comprehension and analytical skills by the ability to evaluate specific communication events in the proper context of their emphasis area.

- Students majoring in Mass Communications must achieve a C grade or better in all MCCNM courses, both required and elective, to be eligible for graduation. Students who earn below a C in MCCNM courses will be required to repeat them to achieve the 2.0 requirement for graduation in the major.

- Each faculty member will keep, in the department’s central file, a set of course outlines or syllabi that list the objectives and skills achieved during the term. This central pool of materials describes the detailed expectations and accountability elements for the MCCNM major on a course-by-course basis.

- Consistent with general CSU-Pueblo policy, no student enrolled in MCCNM courses may accumulate unexcused absences, or arrive late for scheduled classes without faculty consultation.

- The Mass Communications department believes that grades are valid quantitative indicators of student performance. Students’ GPAs in the major or minor will be used by emphasis area advisers for both formative and summary evaluations of majors and minors.

- While it is necessary for Mass Communications majors and minors to meet the minimum GPA standards set by the department and the University, it is expected that graduates will exceed these standards.

- MCCNM 101 Media and Society (3 c.h.), does not fulfill a social science general education requirement for Mass Communications majors.

- KTSC-TV/RMPBS on-campus television station (studio production)

Students may earn a maximum of 9 credits in media labs.

Students desiring internships must have a 3.0 grade point average in their Mass Communications courses. Internships are not required, are most often reserved for majors, and are at the discretion of the faculty adviser. Students may earn a maximum of 9 hours of internship credit.

General Education

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Student Learning Outcomes

(Based on Department Goal 1: Offer a marketable and professionally credible program.)

1. Students will display critical thinking skills, conveying complex ideas related to current issues and ethical expectations of mass media and related disciplines.
2. Students will write with clarity and organization utilizing the proper format, writing mechanics and audience focus, in a manner that is professionally competitive for an entry-level position in the discipline.
3. Students will demonstrate technological expertise related to the specific emphasis area that is professionally competitive for an entry-level position in their discipline.
4. Students will demonstrate command of subject, organization of thoughts, and skill at interpersonal communication in front of an audience.

Outcomes Assessment Activities

Student success is measured through a variety of methods that include classroom writing samples, portfolios of student work, professional internship evaluations, exit interviews, student employment upon graduation, and alumni feedback.

Each graduating senior creates an academic portfolio of all salient work or projects completed while in the department. Department faculty review and evaluate a selection of portfolios to assess student learning.
The Mass Communications Department and Center for New Media requires that the academic portfolio demonstrate a pattern of sustained academic growth and development of the major and minor, appropriate to the student’s emphasis area.

The academic portfolio should reflect the quality and level of intellectual and scholarly work undertaken by the student while in the department, relative to the qualitative, quantitative, ethical, legal and aesthetic dimensions of the field. The appropriateness of the content is dictated by the student’s emphasis area and is prescribed by the individual’s adviser.

**Mass Communications and Center for New Media, Bachelor of Science: Journalism Emphasis**

### General Requirements
- Majors are required to complete a 42 credit curriculum which includes:
  - 18 credit Core
  - 15 credit Emphasis area
  - 9 credits of Applied coursework
- Successful Mass Communications majors will demonstrate sufficient knowledge, comprehension and analytical skills by the ability to evaluate specific communication events in the proper context of their emphasis area.
- Students majoring in Mass Communications must achieve a C grade or better in all MCCNM courses, both required and elective, to be eligible for graduation. Students who earn below a C in MCCNM courses will be required to repeat them to achieve the 2.0 requirement for graduation in the major.
- Each faculty member will keep, in the department’s central file, a set of course outlines or syllabi that list the objectives and skills achieved during the term. This central pool of materials describes the detailed expectations and accountability elements for the MCCNM major on a course-by-course basis.
- Consistent with general CSU-Pueblo policy, no student enrolled in MCCNM courses may accumulate unexcused absences, or arrive late for scheduled classes without faculty consultation.
- The Mass Communications department believes that grades are valid quantitative indicators of student performance. Students’ GPAs in the major or minor will be used by emphasis area advisers for both formative and summary evaluations of majors and minors.
- While it is necessary for Mass Communications majors and minors to meet the minimum GPA standards set by the department and the University, it is expected that graduates will exceed these standards.
- MCCNM 101 Media and Society (3 c.h.), does not fulfill a social science general education requirement for Mass Communications majors.

Note: Prerequisites may exist with some courses and Media Lab is required of all majors.

#### Co-curricular Requirements

The thrust of the Mass Communications Department and Center for New Media is pragmatic; therefore, all majors must enroll in a minimum of one 2 or 3 credit lab. Faculty have discretion in curriculum, programming and enrollment of all media labs.

- TODAY online newspaper and print magazine (print and online editorial, photography, audio/video, advertising)
- KTSC-FM on-campus radio station (studio and field production, programming, promotion, talent)
- KTSC-TV/RMPBS on-campus television station (studio production)

Students may earn a maximum of 9 credits in media labs.

Students desiring internships must have a 3.0 grade point average in their Mass Communications courses. Internships are not required, are most often reserved for majors, and are at the discretion of the faculty adviser. Students may earn a maximum of 9 hours of internship credit.
General Education
The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Mass Communications and Center for New Media, Minor

Specific Requirements for the Mass Communications and Center for New Media Minor

Students desiring a minor in Mass Communications must complete 21 credit hours approved by their minor area adviser and MUST include MCCNM 101 Media and Society (3 c.h.). The minor may not include more than 3 credits of media lab and must include at least 6 hours of upper division Mass Communications coursework. Students must earn a C or better in all Mass Communications courses.

Music Department
Department Chair: Dana Ihm
Department Director: Alan Mills
Faculty: Chi, Metchkov, Volk

Lecturers: Eickelman, Turner
Artists-In-Residence: De Luca, Eastin, Eberhardt, Hsu, Van Gilder

The Music Department of Colorado State University-Pueblo seeks to promote excellence in musicianship and to equip students for a career in music. The major in music leads to a degree of Bachelor of Arts (BA).

Mission, Goals and Objectives
The mission of the Department of Music at Colorado State University-Pueblo is to prepare undergraduate students to function professionally in their chosen field of music within the larger context of a liberal education, to provide artistic enrichment for the community, and to serve as an artistic resource.

The goals of the Department of Music are:

- To prepare students to function professionally in their field of music,
- To provide appropriate musical experiences for students in the liberal arts program,
- To prepare students to pursue advanced study in their respective areas,
- To encourage all students the development of musical sensitivity and an understanding of the aesthetic process, and
- To provide for the University and community the enrichment afforded by a variety of musical experiences.

The objectives of the Department of Music used to accomplish the goals outlined above include:

- To offer courses and related experiences of an appropriate nature and quality and of sufficient breadth to allow the student adequate opportunity to acquire the necessary knowledge and skills;
- To offer and encourage student participation in a variety of ensembles and other instructional opportunities, allowing for varying musical tastes, experiences, and abilities;
- To challenge each music student to progress beyond the minimum requirements of a degree program, and to provide opportunities for growth beyond classroom instruction;
- To present music in a manner that promotes it as an art form; and
- To offer and promote quality performance and instruction, and to serve as an artistic resource.
Degree in Music

The general Bachelor of Arts in Music provides a broad base for a number of careers in music such as private studio teaching, and is intended as preparation for advanced graduate study.

The Bachelor of Arts in Music: Music Performance emphasis is appropriate for those students who plan to perform, teach privately, or pursue further study at the graduate level.

The Bachelor of Arts in Music: Music Education emphasis is a professional degree and provides the essential training, knowledge and skills necessary for a teaching career in choral, instrumental, or general music. The degree leads to K-12 music teacher licensure in choral, instrumental, and general music.

The University also offers the traditional liberal arts Minor in Music suited for students in majors other than Music desiring a foundational curriculum in Music. The Minor in Audio Production is open to students in all majors (including Music) who have a strong background in music fundamentals (basic performance, musical notation and theory). The Minor in Composition/Music Theory, Minor in Jazz Studies, and the Minor in Organ Performance Studies are primarily intended as concentration areas of study for students in BA-Music (General or Performance Emphasis) majors, but are open to students in any major satisfying course prerequisites.

Master of Education/Music Emphasis

Refer to Department of Education requirements for admission to the Master of Education degree program. Interested persons should read the full program description in the Master of Education section of this catalog and contact the Music Department for specific questions.

Additional Information

The Department of Music Student Handbook is intended as a supplement to the University Catalog and is binding in all matters relating to the Department of Music at Colorado State University-Pueblo. A copy of the handbook may be found on the University Department of Music website, and printed copies are located in the Music Office (A/M 175) and in all music faculty offices.

The Colorado State University-Pueblo Department of Music is an accredited member of the National Association of Schools of Music.

Music, Bachelor of Arts: General Emphasis

Requirements

GPA

Students are required to complete all major and minor courses with a grade of C or better and to maintain a cumulative GPA of 2.5 or better.

Performance Skills

The attainment of an appropriate level of performance skills is required in order to function successfully as a musician. The minimum Performance Standards, which appear on the music department’s web site and in the music department student handbook, provide representative examples of music literature and repertoire and must be successfully completed for each of the musical areas of performance concentration.

Admission to Upper Division

All music majors must qualify for admission to Upper Division (junior-level) study leading to the specific degree by successfully completing the Junior Qualifying Exam at the end of their sophomore year. In addition, all music majors will be required to pass MUS 229 Piano Proficiency Completion (1 c.h.) before performing an upper level recital, student teaching, or graduating. See the Department of Music Student Handbook for specific information regarding these evaluations.

Standards

Knowledge of specific subject areas, as recommended by the National Association of Schools of Music in music education, music theory, music history, music technology, and music performance will be measured through outcomes-testing.

Ensemble Registration and Requirements

The real-life performance experience provided by CSU-Pueblo ensembles is paramount to the professional training of our Music majors. University ensembles are also the ‘public face’ of the Department of Music and student participation is essential to our collective success.

At minimum, Music majors and scholarship recipients are required to participate in two ensembles every semester in residence. Applied Music registration and registration in upper division Music courses will not be permitted without the requisite ensemble registration.

Ensemble Registration Specific to the Major

General BA Music majors are to select an ensemble experience tailored toward their long-term professional goals, with a minimum of 6 hours of primary ensemble and 2 semesters of secondary ensemble credit required. A minimum of 2 semesters of Primary ensemble and 1 semester of Secondary ensemble must be earned at the upper division level (during the Junior or Senior year).

Music Education majors are to pursue a breadth of ensemble experiences, including Marching Band as this is an area all Music Education graduates are certified to teach. Music Education majors complete a minimum of 6 semesters of Primary Ensemble, with at least 2 semesters earned at the upper division level. Wind and Percussion Music Education majors are required to participate in Marching Band for two semesters, during the fall semester of their freshman and sophomore years (or first two years enrolled in the major). Music Education majors in other instrumental areas or voice are required to participate in Marching Band for one semester on a secondary instrument following an audition or successful completion of a related techniques class. All Music
Education majors are required to participate in at least one instrumental ensemble and one vocal ensemble during their CSU-Pueblo tenure.

Performance majors are to pursue an ensemble experience focused on their specific instrument, with a minimum of 8 Primary and 2 Secondary ensembles required (with a minimum of 4 Primary ensembles and 1 Secondary ensemble earned at the upper division level).

**Ensemble Registration Specific to a Student’s Principal Instrument and Scholarship Status**

Wind and Percussion instrumental principals are required to participate in Marching Band for two semesters, during the fall semester of their freshman and sophomore years (or first two years enrolled in the major) as well as Wind Ensemble every semester they are registered for applied music. Voice principals are required to participate in Concert and Chamber choirs every semester in residence. String principals are required to participate in Orchestra and Chamber Music every semester they are registered for applied music. Percussion principals are required to participate in Percussion Ensemble every semester they are registered for applied music. Guitar principals are required to participate in at least one Guitar Ensemble every semester they are registered for applied music.

Applied instructors have a vested interest in the ensemble selection of their students and additional instrumental areas may have additional ensemble requirements. Students should consult their applied instructors for specific ensemble requirements of their applied studio. Participation in excess of three ensembles in any given semester is at the discretion of the applied instructor.

Music scholarship recipients, regardless of major, are required to participate in a minimum of two ensembles each semester. Wind and Percussion Scholarship recipients are required to participate in Marching Band during the fall semester of their freshman and sophomore years (or first two years of receiving a Music scholarship).

Exceptions to ensemble policies must be approved by the Chair of Music in consultation with ensemble directors. Ensemble assignments for all students are at the direction and discretion of the Music faculty and may require an audition.

**Specific Requirements for the Bachelor of Arts in Music**

General Education: 35

NOTE: must also complete the World Language Requirement. Because of the unique use of world languages in musical contexts (vocal repertoire in particular), students earning the Bachelor of Arts degree in Music may, in consultation with their advisor, complete the BA degree World Language Requirement with two 101-level World Language courses, chosen from Italian, German, French and Spanish.

NOTE: must include MUS 118 Music Appreciation (3 c.h.). In addition, all students must participate in appropriate Primary and Secondary ensembles as assigned each semester, except when Student Teaching.

Upon completion of the Bachelor of Arts degree in Music, students will:

- Read, analyze, and perform music with fluency in at least one performance medium and in a variety of performance styles;
- Use the piano proficiently as an instrument for independent study of music theory, analysis of scores, and preparation of compositions or arrangements, as appropriate to the common tasks of a professional musician;
- Demonstrate proficiency in aural recognition and analysis of music, and in singing musical lines at sight, as appropriate to the common tasks of a professional musician;
- Recognize and describe representative selections of music from all the significant style periods and genres of western art music; and
- Create arrangements and original compositions utilizing the recognized ranges and idioms of orchestral and band instruments and of vocal ensembles.

### Outcomes Assessment Activities

Department faculty hear all music majors perform prepared solos at least three times per semester, with both formative and summative assessments recorded at significant points, such as final juries and the Junior Qualifying Exam at the end of the sophomore year. In addition, every primary and secondary ensemble performs at least one concert per semester. From the accumulated success of these performances, the faculty can determine and assess:

- Attainment of performing skills as students progress through the curriculum;
- Effectiveness of recruiting and retention in each instrumental area and vocal range; and
- Degree of knowledgeable application of the concepts of music theory and history to the sensitive performance of a wide range of repertoire.

Every music major must pass an exam over the first two years’ work before being allowed to continue in the 300-level courses of the music degree. This Junior Qualifying Exam holds students accountable for long-term learning in the discipline, but it also reveals patterns of effective or ineffective instruction across the department for program assessment purposes. Every music major must also complete a satisfactory demonstration of piano proficiency before graduation.

Students graduating in the emphasis areas of Performance or Music Education are required to present recitals appropriate to their degree program and (for Music Education) to pass the national standardized PLACE test.

### Music, Bachelor of Arts: Music Education Emphasis

#### Requirements

**GPA**

Students are required to complete all major and minor courses with a grade of C or better and to maintain a cumulative GPA of 2.5 or better.

**Performance Skills**

The attainment of an appropriate level of performance skills is required in order to function successfully as a musician. The minimum Performance Standards, which appear on the music department’s web site and in the music department student handbook, provide representative examples of music literature and repertoire and must be successfully completed for each of the musical areas of performance concentration.

#### Admission to Upper Division

All music majors must qualify for admission to Upper Division (junior-level) study leading to the specific degree by successfully completing the Junior Qualifying Exam at the end of their sophomore year. In addition, all music majors will be required to pass MUS 229 Piano Proficiency Completion (1 c.h.) before performing an upper level recital, student teaching, or graduating. See the Department of Music Student Handbook for specific information regarding these evaluations.

### General Education

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

### Expected Student Outcomes

Upon completion of the Bachelor of Arts degree in Music, students will:

- Read, analyze, and perform music with fluency in at least one performance medium and in a variety of performance styles;
- Use the piano proficiently as an instrument for independent study of music theory, analysis of scores, and preparation of compositions or arrangements, as appropriate to the common tasks of a professional musician;
- Demonstrate proficiency in aural recognition and analysis of music, and in singing musical lines at sight, as appropriate to the common tasks of a professional musician;
- Recognize and describe representative selections of music from all the significant style periods and genres of western art music; and
- Create arrangements and original compositions utilizing the recognized ranges and idioms of orchestral and band instruments and of vocal ensembles.

Guitar principals are required to participate in at least one Guitar Ensemble every semester they are registered for applied music.

Applied instructors have a vested interest in the ensemble selection of their students and additional instrumental areas may have additional ensemble requirements. Students should consult their applied instructors for specific ensemble requirements of their applied studio. Participation in excess of three ensembles in any given semester is at the discretion of the applied instructor.

Music scholarship recipients, regardless of major, are required to participate in a minimum of two ensembles each semester. Wind and Percussion Scholarship recipients are required to participate in Marching Band during the fall semester of their freshman and sophomore years (or first two years of receiving a Music scholarship).

Exceptions to ensemble policies must be approved by the Chair of Music in consultation with ensemble directors. Ensemble assignments for all students are at the direction and discretion of the Music faculty and may require an audition.

ED 412 Teaching Diverse Learners 1 3
The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

**Expected Student Outcomes**

Upon completion of the Bachelor of Arts degree in Music, students will:

- Read, analyze, and perform music with fluency in at least one performance medium and in a variety of performance styles;
- Use the piano proficiently as an instrument for independent study of music theory, analysis of scores, and preparation of compositions or arrangements, as appropriate to the common tasks of a professional musician;
- Demonstrate proficiency in aural recognition and analysis of music, and in singing musical lines at sight, as appropriate to the common tasks of a professional musician;
- Recognize and describe representative selections of music from all the significant style periods and genres of western art music; and
- Create arrangements and original compositions utilizing the recognized ranges and idioms of orchestral and band instruments and of vocal ensembles.

In addition, students in the Performance Emphasis program will:

- Conduct large and small ensembles in their primary performance medium;
- Prepare and present in public a wide selection of repertoire representative of the highest standard of performance technique and style appropriate to young professional artists; and
- In conjunction with recital performances, prepare scholarly program notes on the repertoire being presented and work closely with administrative staff to complete the copy and format of professional publicity documents.

In addition, students in the Music Education Emphasis program will:

- Conduct large and small ensembles in their primary performance medium;
- Demonstrate through field experiences and student teaching the necessary skills and dispositions for teaching music in a variety of public school settings;
- Articulate in written documents addressed to the general audience (such as parents, school board members, or community at large) a well-grounded philosophy of music education; and
- Create instructional plans, long-range curriculum outlines, and assessments for music education at elementary and secondary levels, following Colorado Academic Standards and incorporating recognized best practices in music pedagogy.

**Outcomes Assessment Activities**

Department faculty hear all music majors perform prepared solos at least three times per semester, with both formative and summative assessments recorded at significant points, such as final juries and the Junior Qualifying Exam at the end of the sophomore year. In addition, every primary and secondary ensemble performs at least one concert per semester. From the accumulated success of these performances, the faculty can determine and assess:

- Attainment of performing skills as students progress through the curriculum;
-...
• Effectiveness of recruiting and retention in each instrumental area and vocal range; and
• Degree of knowledgeable application of the concepts of music theory and history to the sensitive performance of a wide range of repertoire.

Every music major must pass an exam over the first two years’ work before being allowed to continue in the 300-level courses of the music degree. This Junior Qualifying Exam holds students accountable for long-term learning in the discipline, but it also reveals patterns of effective or ineffective instruction across the department for program assessment purposes. Every music major must also complete a satisfactory demonstration of piano proficiency before graduation.

Students graduating in the emphasis areas of Performance or Music Education are required to present recitals appropriate to their degree program and (for Music Education) to pass the national standardized PLACE test.

Music, Bachelor of Arts: Music Performance Emphasis

Requirements

GPA
Students are required to complete all major and minor courses with a grade of C or better and to maintain a cumulative GPA of 2.5 or better.

Performance Skills
The attainment of an appropriate level of performance skills is required in order to function successfully as a musician. The minimum Performance Standards, which appear on the music department’s web site and in the music department student handbook, provide representative examples of music literature and repertoire and must be successfully completed for each of the musical areas of performance concentration.

Admission to Upper Division
All music majors must qualify for admission to Upper Division (junior-level) study leading to the specific degree by successfully completing the Junior Qualifying Exam at the end of their sophomore year. In addition, all music majors will be required to pass MUS 229 Piano Proficiency Completion (1 c.h.) before performing an upper level recital, student teaching, or graduating. See the Department of Music Student Handbook for specific information regarding these evaluations.

Standards
Knowledge of specific subject areas, as recommended by the National Association of Schools of Music in music education, music theory, music history, music technology, and music performance will be measured through outcomes-testing.

Ensemble Registration and Requirements
The real-life performance experience provided by CSU-Pueblo ensembles is paramount to the professional training of our Music majors. University ensembles are also the ‘public face’ of the Department of Music and student participation is essential to our collective success.

At minimum, Music majors and scholarship recipients are required to participate in two ensembles every semester in residence. Applied Music registration and registration in upper division Music courses will not be permitted without the requisite ensemble registration.

Ensemble Registration Specific to the Major
General BA Music majors are to select an ensemble experience tailored toward their long-term professional goals, with a minimum of 6 hours of primary ensemble and 2 semesters of secondary ensemble credit required. A minimum of 2 semesters of Primary ensemble and 1 semester of Secondary ensemble must be earned at the upper division level (during the Junior or Senior year).

Music Education majors are to pursue a breadth of ensemble experiences, including Marching Band as this is an area all Music Education graduates are certified to teach. Music Education majors complete a minimum of 6 semesters of Primary Ensemble, with at least 2 semesters earned at the upper division level. Wind and Percussion Music Education majors are required to participate in Marching Band for two semesters, during the fall semester of their freshman and sophomore years (or first two years enrolled in the major). Music Education majors in other instrumental areas or voice are required to participate in Marching Band for one semester on a secondary instrument following an audition or successful completion of a related techniques class. All Music Education majors are required to participate in at least one instrumental ensemble and one vocal ensemble during their CSU-Pueblo tenure.

Performance majors are to pursue an ensemble experience focused on their specific instrument, with a minimum of 8 Primary and 2 Secondary ensembles required (with a minimum of 4 Primary ensembles and 1 Secondary ensemble earned at the upper division level).

Ensemble Registration Specific to a Student’s Principal Instrument and Scholarship Status
Wind and Percussion instrumental principals are required to participate in Marching Band for two semesters, during the fall semester of their freshman and sophomore years (or first two years enrolled in the major) as well as Wind Ensemble every semester they are registered for applied music. Voice principals are required to participate in Concert and Chamber choirs every semester in residence. String principals are required to participate in Orchestra and Chamber Music every semester they are registered for applied music. Percussion principals are required to participate in Percussion Ensemble every semester they are registered for applied music. Guitar principals are required to participate in at least one Guitar Ensemble every semester they are registered for applied music.

Applied instructors have a vested interest in the ensemble selection of their students and additional instrumental areas may have additional ensemble requirements. Students should consult their applied instructors for specific ensemble requirements of their applied studio. Participation in excess of three ensembles in any given semester is at the discretion of the applied instructor.

Music scholarship recipients, regardless of major, are required to participate in a minimum of two ensembles each semester. Wind and Percussion Scholarship recipients are required to participate in Marching Band during the fall semester of their freshman and sophomore years (or first two years of receiving a Music scholarship).

Exceptions to ensemble policies must be approved by the Chair of Music in consultation with ensemble directors. Ensemble assignments for all
students are at the direction and discretion of the Music faculty and may require an audition.

**Specific Requirements for the Bachelor of Arts in Music**

General Education: 35

**NOTE:** must also complete the World Language Requirement. Because of the unique use of world languages in musical contexts (vocal repertoire in particular), students earning the Bachelor of Arts degree in Music may, in consultation with their advisor, complete the BA degree World Language Requirement with two 101-level World Language courses, chosen from Italian, German, French and Spanish.

**NOTE:** must include MUS 118 Music Appreciation (3 c.h.). In addition, all students must participate in appropriate Primary and Secondary ensembles as assigned each semester, except when Student Teaching.

General Education

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Expected Student Outcomes

Upon completion of the Bachelor of Arts degree in Music, students will:

- Recognize and describe representative selections of music from all the significant style periods and genres of western art music; and
- Create arrangements and original compositions utilizing the recognized ranges and idioms of orchestral and band instruments and of vocal ensembles.

In addition, students in the Performance Emphasis program will:

- Conduct large and small ensembles in their primary performance medium;
- Prepare and present in public a wide selection of repertoire representative of the highest standard of performance technique and style appropriate to young professional artists; and
- In conjunction with recital performances, prepare scholarly program notes on the repertoire being presented and work closely with administrative staff to complete the copy and format of professional publicity documents.

Outcomes Assessment Activities

Department faculty hear all music majors perform prepared solos at least three times per semester, with both formative and summative assessments recorded at significant points, such as final juries and the Junior Qualifying Exam at the end of the sophomore year. In addition, every primary and secondary ensemble performs at least one concert per semester. From the accumulated success of these performances, the faculty can determine and assess:

- Attainment of performing skills as students progress through the curriculum;
- Effectiveness of recruiting and retention in each instrumental area and vocal range; and
- Degree of knowledgeable application of the concepts of music theory and history to the sensitive performance of a wide range of repertoire.

Every music major must pass an exam over the first two years’ work before being allowed to continue in the 300-level courses of the music degree. This Junior Qualifying Exam holds students accountable for long-term learning in the discipline, but it also reveals patterns of effective or ineffective instruction across the department for program assessment purposes. Every music major must also complete a satisfactory demonstration of piano proficiency before graduation.

Students graduating in the emphasis areas of Performance or Music Education are required to present recitals appropriate to their degree program and (for Music Education) to pass the national standardized PLACE test.

Composition/Music Theory, Minor

Minors in Music

Music majors completing minors in Music Technology, Composition/ Theory, Jazz Studies, or Organ Performance must complete a minimum of 18 hours beyond required courses of the BA-Music (General Emphasis) degree, to include required hours in the minor and any electives beyond major and minor degree requirements. These hours fulfill the College of Humanities and Social Sciences (CHASS) graduation requirements that 18 hours must be taken in a minor or in courses outside the major discipline.
Specific Requirements for Minor in Composition/ Music Theory

Course | Title | Credits
--- | --- | ---
Required Core Courses | | 
MUS 180 | Introduction to Composition (four semesters, 1 hour each: 1-1-1-1) | 4
MUS 438 | Composition Recital | 2
MUS 350 | Theory V - Composition and Analysis | 2
Select one of the following: | | 
MUS 351 | Counterpoint | 2
MUS 352 | 19th Century Styles | 2
MUS 353 | 20th Century Styles | 2
Electives | | 
Select 8 credits from the following: | | 
MUS 113 | Vocal Techniques and Diction | 1
MUS 180 | Introduction to Composition (additional semesters beyond core) | 1-4
MUS 223 | Percussion Techniques | 1
MUS 233 | Woodwind Techniques | 1
MUS 243 | String Techniques | 1
MUS 253 | Brass Techniques | 1
MUS 359 | Advanced Conducting | 2
Advanced Music Theory courses (not taken for core) | 2-6
Total Credits | 18

Jazz Studies, Minor

Minors in Music

Music majors completing minors in Music Technology, Composition/ Theory, Jazz Studies, or Organ Performance must complete a minimum of 18 hours beyond required courses of the BA-Music (General Emphasis) degree, to include required hours in the minor and any electives beyond major and minor degree requirements. These hours fulfill the College of Humanities and Social Sciences (CHASS) graduation requirements that 18 hours must be taken in a minor or in courses outside the major discipline.

Specific Requirements for Minor in Jazz Studies

Course | Title | Credits
--- | --- | ---
Required Core Courses | | 
MUS 120 | History of Jazz | 2
MUS 285 | Cultural History of Popular Music | 2
MUS 152 | Jazz Improvisation I | 2
MUS 252 | Jazz Improvisation II | 2
MUS 180 | Introduction to Composition (Jazz Composition/ Arranging - credits 1-1) | 2
MUS 439 | Recital: Jazz Studies | 2
Ensemble Participation | | 
Select 6 credits from the following: | | 
MUS 208/408 | Vocal Jazz Ensemble | 0.5,1
MUS 236/436 | Guitar Ensemble, Jazz | 0.5,1

Music and Audio Production, Minor

Minors in Music

Music majors completing minors in Music Technology, Composition/ Theory, Jazz Studies, or Organ Performance must complete a minimum of 18 hours beyond required courses of the BA-Music (General Emphasis) degree, to include required hours in the minor and any electives beyond major and minor degree requirements. These hours fulfill the College of Humanities and Social Sciences (CHASS) graduation requirements that 18 hours must be taken in a minor or in courses outside the major discipline.

Specific Requirements for Minor in Music and Audio Production

Course | Title | Credits
--- | --- | ---
Required Core Courses | | 
MUS 110 | Music and Audio Production I | 2
MUS 285 | Cultural History of Popular Music | 2
MCCNM 101 | Media and Society | 3
MCCNM 220 | Introduction to Electronic Media | 3
MUS 310 | Audio Production II: Pro Tools | 2
Electives | | 
Select a minimum of 6 credits from the following: | | 
MUS 103 | Music and Computer Technology I | 1
MUS 203 | Electronic Music | 2
MUS 303 | Music and Computer Technology II | 1
MCCNM 245 | Digital Media Production | 3
MCCNM 318 | Regulation of Electronic Media | 3
MUS 410 | Audio Production Lab | 1
MUS 420 | Film Scoring | 2
Total Credits | 18

1 Coursework must include at least one offering from Mass Communications and Center for New Media (MCCNM) and one offering from Music (MUS). Courses numbered 300 and above require successful completion of the required core. Additional elective courses may be approved for students in consultation with the Department of Music.

2 This course requires knowledge of basic music notation, harmony, and performance.

Music, Minor

Minors in Music

Music majors completing minors in Music Technology, Composition/ Theory, Jazz Studies, or Organ Performance must complete a minimum of 18 hours beyond required courses of the BA-Music (General Emphasis) degree, to include required hours in the minor and any electives beyond major and minor degree requirements. These hours fulfill the College of Humanities and Social Sciences (CHASS) graduation requirements that 18 hours must be taken in a minor or in courses outside the major discipline.

The music internships will provide opportunities for professional, firsthand experience of music making in traditional church music programs. Internship opportunities coordinated with local churches will include work with adult choirs (1 credit hour), handbell choirs (1 credit hour), as well as service organ playing (1 credit hour).

Piano Pedagogy, Minor

Minors in Music

Music majors completing minors in Music Technology, Composition/Theory, Jazz Studies, or Organ Performance must complete a minimum of 18 hours beyond required courses of the BA-Music (General Emphasis) degree, to include required hours in the minor and any electives beyond major and minor degree requirements. These hours fulfill the College of Humanities and Social Sciences (CHASS) graduation requirements that 18 hours must be taken in a minor or in courses outside the major discipline.

The University does not transcript certificates, so records of the Performance Certificate within the Music Education Emphasis and the issuance of the certificate are administered by the Music Department.

Psychology Department

Department Chair: Krista Bridgmon

Department Chair: Krista Bridgmon

Faculty: Brett-Green, Walker, Yescavage, Zimmerman

Lecturers: Yanke

Psychology is a field of inquiry which is called the science of behavior and answers questions about how and why organisms behave as they do. The field of psychology is enormous with many sub fields. Some areas pertain to animals, while others are focused on the behavior of humans. Still other areas focus on, abnormal behavior or complex social and emotional behavior while the cognitive area focuses on how people perceive, learn, remember, and think.
Psychology is a discipline based on theoretical perspectives and information gained through research. Therefore, the psychology major is based on understanding theory as well as learning the methods of inquiry, evaluation, and drawing appropriate conclusions. These skills are useful for problem solving in many applied settings.

Career/Employment for Psychology Majors

Psychology is a diverse field with hundreds of career paths. Some specialties, like caring for mentally ill people, are familiar to most of us. Others, like studying how we know and remember things, are less well known.

Across the nation, psychology is the second most popular undergraduate major, even though many of those who choose psychology as a major may not be interested in psychology as a career. About 10 percent of psychology majors pursue graduate training and at CSU-Pueblo there is excellent preparation available for students wishing to apply to graduate programs in psychology.

For those students who do not wish to become professional psychologists, many jobs are available. Psychology is a valuable major for a Liberal Arts degree. Jobs are found in various sectors of society and psychology graduates are most often employed as interviewers, counselors, mental health workers, human service practitioners, personnel analysts, probation officers, and writers. Employers find that psychology graduates possess strong people skills and psychology majors also value these skills themselves.

Psychology majors cite courses in the principles of human behavior as especially important to life after college. Additional insight gained from these courses into what motivates people to perform at their peak helps them, whether they are functioning as parents at home, coaching athletics, or managers on the job.

Training in the scientific method - the requirement to do thorough, objective research, analyze data logically, and put forth the findings with clarity - stands psychology majors in good stead as they pursue future careers.

- Psychology, Bachelor of Arts (p. 256)
- Psychology, Bachelor of Science (p. 257)
- Psychology, Minor (p. 259)

Psychology, Bachelor of Arts

The bachelor's degree program in psychology at CSU-Pueblo offers a curriculum which provides the student with an overview of the major areas within psychology, along with the opportunity to select courses which fit their personal interests. Through psychology courses at CSU-Pueblo, a student can enhance their career opportunities and/or gain an academic grounding for professional and graduate training. Students who seek careers as professional psychologists should consider studies at the graduate level. Students are encouraged to take advantage of many opportunities in the psychology department including field placements and both laboratory and field-based research. There is a local chapter of Psi Chi, the National Honor Society in Psychology, which encourages students to maintain excellence in scholarship. Students are encouraged to participate in both Psi Chi and the Psychology Club.

Major Requirements

A total of 42 hours in psychology is required for the major. Psychology majors should consult a faculty adviser who will assist in selecting psychology courses to complete the major.

Students must complete all of the major degree requirements. In addition, students must complete the world language requirements as stated in the Academic Policies section of the University catalog beyond their general education courses. This requirement includes completion of the second level of a world language, or completion of WL 100 Intro to Comparative Linguistics (3 c.h.) and ANTHR 106 Language, Thought and Culture (3 c.h.)/ENG 106 Language, Thought and Culture (3 c.h.), or completion of the first and second level of American Sign Language.

In addition to requirements for the major and general education, students must complete unless otherwise specified by departmental requirements either

A. any minor degree program listed in the catalog other than their major;
B. 18 hours of credit outside their major (courses must have a different prefix than their major).

Music and Social Work majors are exempt from this requirement. Students may not use the same credits to satisfy requirements for both the major and minor degrees. Students may not use credits taken to satisfy general education to count toward their required 18 hours.

Psychology majors will be required to complete a minor to fulfill the CHASS requirements of 18 credits outside of the major beyond their major requirements and the general education requirements. Please note: PSYCH courses cannot be included in this total.

Prerequisites

Students should be aware that there are prerequisites to some courses. For instance, it is important to note that 2 years of high-school algebra (or equivalent) is the prerequisite for PSYCH 207 Quantitative Research Methods I (3 c.h.) & PSYCH 209 Quantitative Research II (3 c.h.). Successful completion of PSYCH 207 Quantitative Research Methods I (3 c.h.) is the prerequisite for PSYCH 209 Quantitative Research II (3 c.h.). PSYCH 401 History and Systems of Psychology (3 c.h.) should not be taken until the senior year, preferably in the last semester before graduation.

Note

• A maximum of 6 credit hours of field experience and/or independent study may be applied towards the required 42 total hours in psychology.
• Students may take PSYCH 491 Special Topics (1-3 c.h.) an unlimited number of times; however, only six credits may count toward the psychology major.

General Education

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

General Education requirements are to be taken outside of the major. Therefore, students who major in psychology may not use psychology courses for general education.

Upper Division Requirement

Psychology majors must take a minimum of 24 credits of upper-division coursework in psychology.

GPA

A minimum grade of C is required in all psychology courses counting toward the psychology major.

Transfer Students

Students transferring from another institution and seeking a degree in Psychology must complete 21 hours of Psychology courses at Colorado State University-Pueblo with a minimum grade of C in all psychology courses. Of these 21 hours, a minimum of 12 must be upper-division credit.

Expected Student Outcomes

• Identify the major concepts and historical trends in psychology and evaluate theoretical perspectives.
• Apply basic research methods and ethical values in psychology, including design, data analysis using SPSS, and interpretation of results.
• Communicate effectively verbally and in writing including APA style.
• Students will act ethically and responsibly—both individually and with others—demonstrating an awareness of and respect for diversity.
• Implement psychological knowledge, skills and values in occupational pursuits in a variety of settings that meet personal goals and societal needs.

These expected learning outcomes apply for both the BA and the BS degrees in psychology.

Outcome Assessment Activities

• The presentation of an empirically-based research project immediately following PSYCH 209 Quantitative Research II (3 c.h.)/PSYCH 209L Quantitative Research Methods Lab II (1 c.h.). Each student presentation will be evaluated with the use of the Research Presentation Evaluation Form by psychology faculty.
• The use of counseling skills in a clinical field experience. Each student will be evaluated by the field experience agency and the psychology field coordinator with the use of the Field Experience Evaluation Form.
• An alumni survey is conducted every 5-7 years to assess the relevance of psychology courses in career development.

Psychology, Bachelor of Science

The bachelor’s degree program in psychology at CSU-Pueblo offers a curriculum which provides the student with an overview of the major areas within psychology, along with the opportunity to select courses which fit their personal interests. Through psychology courses at CSU-Pueblo, a student can enhance their career opportunities and/or gain an academic grounding for professional and graduate training. Students who seek careers as professional psychologists should consider studies at the graduate level. Students are encouraged to take advantage of many opportunities in the psychology department including field
placements and both laboratory and field-based research. There is a local chapter of Psi Chi, the National Honor Society in Psychology, which encourages students to maintain excellence in scholarship. Students are encouraged to participate in both Psi Chi and the Psychology Club.

Social Work Department

Department Chair: Arlene Reilly-Sandoval
Faculty: Frounfelker, Langer, Richmond, Rodriguez

The profession of social work is dedicated to helping individuals, families, groups, neighborhoods and communities meet basic human needs within the context of culture and society. Fundamental to social work practice is the enhancement of social functioning from a person-in-environment perspective. Particular attention is given to populations at risk, services that have been developed to meet client needs, and societal change to achieve a more humane and just society.

The Department of Social Work has been continuously accredited by the Council on Social Work Education (CSWE) since 1982. Students who earn a BSW degree from Colorado State University-Pueblo may be eligible for advanced standing in a social work graduate program. However, requirements for advanced standing vary with each graduate social work program.

Mission Statement

"As part of Colorado State University-Pueblo, a regional comprehensive university, the social work program prepares students for beginning generalist practice with diverse client populations across systems of all sizes, including individuals, families, groups, organizations, and communities.

- Social Work, Bachelor of Social Work (p. 261)
- Social Work, Masters of Social Work (p. 259)

Social Work, Masters of Social Work

Department Chair: Dr. Arlene Reilly-Sandoval
Graduate Coordinator: Dr. Carol Langer
Faculty: Dr. Carol Langer, Dr. Mario Rodriguez

Colorado State University-Pueblo is planning to offer a Master of Social Work degree, subject to Council on Social Work Education approval anticipated in Fall, 2019. For information please contact the Social Work department.

The Department of Social Work offers a Master of Social Work (MSW), with a generalist perspective. The program is designed to prepare students for advanced roles as practitioners to practice holistically in diverse and complex settings. Graduate programs are delivered in traditional classroom, hybrid, and online format. In order to register in graduate social work courses, students must be admitted to the Social Work program for the Foundation or Concentration/Advanced years. The program adheres to a set of professional standards for academic and behavioral performance, including the NASW Code of Ethics. They are posted on our website.

Mission

The Master’s in Social Work at Colorado State University-Pueblo is designed to meet the needs of diverse constituencies in southeastern Colorado. As an advanced generalist program the curriculum includes a strong focus on intervention at multiple levels, advanced policy analysis, and research skills. The mission of the MSW Program at Colorado State University-Pueblo is to prepare competent advanced
social work practitioners with the knowledge, skills, values, and cognitive and affective processes required to serve diverse client populations in systems of all sizes.

Program objectives emerge from the mission statement and coordinate with the Accreditation Standards required by the Council on Social Work Education. Our objectives are to:

1. Prepare advanced social work practitioners with the ethical consciousness, cultural competence, and desire to be lifelong learners who give back to the profession of social work and enhance the global community in which we live;

2. Provide students with the necessary advanced skills in engagement, assessment, intervention, and evaluation in order to competently serve diverse client populations at all levels of social work practice and across the lifespan utilizing the ecological perspective as a foundation; and

3. Prepare students to engage in policy practice, to advocate for social and economic justice, to serve diverse client systems of all sizes ethically and compassionately, and to engage in research in its many forms in order to better serve individuals, families, groups, organizations, and communities.

**Admission Requirements**

The Master of Social Work students must be admitted to CSU-Pueblo graduate studies program before applying to the Master of Social Work program. Students enrolled in the Master of Social Work curriculum must have prior acceptance into the social work program as Foundation, Concentration, or Advanced Standing candidates. Applications are available on our website. For questions, please contact the Department Chair.

**Generalist Year Admission Standards**

- A bachelor’s degree from a university accredited by a nationally recognized accrediting agency by the Department of Education, with at least 18 credits of liberal arts studies;
- A course in human biology;
- A course in statistics;
- A research course;
- A GPA of 3.0 or higher on a 4.0 scale, or a 2.5 GPA on a 4.0 scale with a “B” grade or higher in one course in Human Behavior in the Social Environment at the graduate level;
- 3 Letters of recommendation, one from a professor, one from academic advisor, one from employer or field supervisor;
- A 3-page statement of the role you expect your graduate studies to play in your professional and personal development. Be sure to state your employment history and goals, as well as your personal motivation. Note your strengths and needs as a graduate student of social work. Please address diversity in your statement. Diversity can be defined as the sum of a person’s characteristics and experiences. Characteristics can include race, ethnicity, gender, sexual orientation, disability, socioeconomic status, spiritual or religious beliefs, age, and other characteristics. Experiences can include personal life experiences, such as career history, personal challenges, exposure to different cultures, working with other cultures, and/or speaking another language. Even if you have had minimal contact with people from diverse backgrounds, please describe how you believe diversity relates to social work practice; and,
- Payment of the application fee of $35

The MAT or GRE is not required for admission.

**Specialized Year Admission Standards**

- A Bachelor of Social Work degree from a CSWE accredited program or recognized through its International Social Work Degree Recognition and Evaluation Services;
- A course in human biology;
- A course in statistics;
- A research course;
- A GPA of 3.0 or higher on a 4.0 scale;
- 120 hours of volunteer or paid work experience in human services field (above and beyond field hours) in a 6-month period during the last 5 calendar years;
- Most recent field evaluation;
- 3 Letters of recommendation, one from a professor, one from academic advisor, one from employer or field supervisor (BSW students from CSU-Pueblo may not use a current social work professor as a reference. You may substitute an additional educational reference in place of the academic advisor’s recommendation);
- A 3-page statement of the role you expect your graduate studies to play in your professional and personal development. Be sure to state your employment history and goals, as well as your personal motivation. Note your strengths and needs as a graduate student of social work. Please address diversity in your statement. Diversity can be defined as the sum of a person’s characteristics and experiences. Characteristics can include race, ethnicity, gender, sexual orientation, disability, socioeconomic status, spiritual or religious beliefs, age, and other characteristics. Experiences can include personal life experiences, such as career history, personal challenges, exposure to different cultures, working with other cultures, and/or speaking another language. Even if you have had minimal contact with people from diverse backgrounds, please describe how you believe diversity relates to social work practice; and,
- Payment of the application fee of $35

The MAT or GRE is not required for admission.

Social Work, Bachelor of Social Work

Admission into the Social Work Program

The social work major is a professional program and as such requires two additional admission processes following admission into the University. The first is admission into the social work program and the second is admission into the field practicum. Social work majors should be accepted into the program prior to enrolling in required 300 and 400 level social work courses.

Application forms are available in the BSW Student Handbook, on the website, or from the social work department administrative assistant on the Pueblo campus. Completed application forms are to be submitted by November 1st for the upcoming spring semester, by April 1st for the upcoming summer and fall semester. Applications for admission are accepted any time during the year, but no later than the deadlines noted for each term. Faculty review applications and a decision is made regarding admission into the program. The Department Chair will notify each student in writing of his/her status:

1. admission into the program,
2. conditional admission into the program or
3. denial of admission into the program.

Reasons for conditional admission into the program will be identified in the letter, as well as corrective actions that must be taken. Students who are conditionally admitted will have their progress followed by the Department Standards and Academic Progress Committee. This committee will also receive referrals from instructors within the department and from the department chair. Such referrals may include issues of academic or behavioral nature. (See the department student handbook for a complete description of this committee and its functions.) When the requirements for admission into the program have been satisfied, the student’s status will be revised from conditional acceptance to admission into the program. If for some reason a student is not admitted to the program, the reasons for this decision will be identified in the letter to the student, along with necessary corrective actions. Reapplication may be made once corrective action has been taken.

Admission into the Social Work Field Practicum

The Field Practicum

Social work majors are required to apply for admission into the field practicum. All social work courses must be completed prior to entering field. Orientation meetings are scheduled by the Field Coordinator each fall and spring semester for all students planning to enroll in the field practicum during the following summer session or fall semester, and the orientations are mandatory for students wishing to enter field. Application forms for admission into the practicum are distributed at this meeting and information on the admission process and placement is provided. Students unable to attend are required to meet with the Field Coordinator to obtain the forms and receive pertinent information to proceed with the practicum placement process.
Completed applications must be completed on Tevera before the time of your interview with the Field Coordinator. The application will be reviewed and the student will be notified of acceptance into the field practicum by the Field Coordinator. Late submission of the application may delay both placement into the practicum and graduation since most field practicum agencies require background checks and/or drug and alcohol testing. **Students need to be aware that a criminal history may affect eligibility for placement based on agency policy, not University policy or the Department of Social Work policies.**

The Field Coordinator is required to make a reasonable effort to assist a student in securing a placement. The social work student, however, not the University, is ultimately responsible for being eligible and retaining a placement under the direction of the Field Coordinator. Students unable to obtain acceptance into an approved placement after three attempts, or successfully complete a practicum, will not be awarded the BSW degree and are advised to change to a major in which they can meet degree requirements.

Students are required to complete a minimum of 448 clock hours of professionally supervised field work in an approved community social service agency.

Students are required to complete a minimum of 448 clock hours of professionally supervised field work in an approved community social service agency.

**Retention in the Social Work Major**

Students may be denied acceptance or withdrawn from the major or field placement for either academic or behavioral reasons.

**Academic Requirements**

Students must maintain specific academic standards for admission into the major, continuation in the program, and field practicum for graduation. By University policy, students are required to maintain a minimum cumulative grade point average of 2.0 for graduation. In the social work major, a minimum GPA of 2.5 is required (professional foundation and professional practice courses). All courses designated with a SW prefix and the non-social work foundation courses must be completed with grades no lower than a C. If an individual does not take any social work courses for one calendar year, the individual must reapply for admission to the major.

**Behavioral Requirements**

Behaviors which may result in non-acceptance into the major, field practicum, or withdrawal from the social work major may include, but are not limited to, the following:

1. Serious or repeated violation of the **NASW Code of Ethics and Standards of Practice;**
2. Violation of CSU-Pueblo’s academic dishonesty policy or Student Code of Conduct;
3. Unprofessional social work conduct;
4. Demonstrated unwillingness or inability to use supervision;
5. Personal problems that seriously and consistently interfere with the conscious and professional use of self in a helping relationship;
6. Inability to accept appropriate evaluation from superiors or to modify one’s professional behaviors as requested;
7. Inappropriate or disruptive behavior toward colleagues, faculty, staff or peers; and/or

8. Consistent failure to demonstrate interpersonal skills necessary to form effective professional relationships.

See student handbook for more information.

**Requirements for the Social Work Major**

**General Education Foundation Courses**

**General Education: 35 credit hours**

As a base for professional intervention, social work practice requires mastery of knowledge and skills commonly taught in the liberal arts. Students planning to major in social work should select general education courses that develop proficiency in verbal and written communication, competency in problem solving, and promote critical and analytical thinking. Courses that incorporate human growth and behavior, diversity, and the interaction of individuals, groups, neighborhoods, communities and society, within the context of social, economic, political, and governmental systems, provide a substantive base for majors. Students should complete the University’s general education requirements prior to enrollment in upper division social work courses.

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

**Professional Foundation Courses: 34 credit hours**

Specified courses: 21

Basic social work courses: 13

**Other Related Requirements**

**No academic credit is awarded for life experiences in this program.**

Transfer students may be required to submit a copy of course descriptions and/or course syllabi for review to determine acceptance of credits for social work and related courses.

There are no test out exams for social work courses. SW 301 Professional Writing in Social Work (3 c.h.) may be waived with an appropriate score on the waiver exam and an additional appropriate upper division social work class may be taken in its place.

Independent study courses with SW prefix may not be substituted for required courses.

**Social Work Foundation Courses**

A grade of C or above must be earned in all courses required by the major.

Total Credits  21

Courses in the social work curriculum are provided in the areas of human behavior and the social environment, social welfare policy and services, social research, social work practice and field practicum. Learning takes place in the classroom and in approved agency settings under supervision. Some courses in the major must be taken in sequence because knowledge in higher level courses is built on the mastery of information in previous courses.

**Electives**

A minimum of 120 semester credit hours are required for the BSW degree. At least 40 hours must be taken in upper division (300-400 level) courses. Social work is exempt from obtaining a minor or 18 credits outside the major. Students may use elective courses to achieve the total credit hours required. Social work faculty advisers can assist in the selection of electives.

**Program Goals and Objectives**

1. Provide BSW students with a range of skills, attitudes, and knowledge grounded in social work values and ethics.

   **Objectives**
   - Students will apply social work values and ethics to social work practice with diverse systems.

2. Develop culturally competent professionals who can intervene appropriately in systems of all sizes with emphasis on regional populations.

   **Objectives**
   - Students will develop culturally competent knowledge, values and skills for beginning level social work practice with diverse systems.
   - Students will demonstrate the ability to practice with diverse populations in a multicultural environment including Chicanos, Mexicans, and American Indians.

3. Develop the ability of BSW students to advocate for social and economic justice with systems of all sizes.

   **Objectives**
   - Students will identify factors which impact the attainment of social and economic justice for diverse systems.
   - Students will select and apply appropriate intervention methods to develop and enhance social and economic justice across diverse systems.

4. Engage BSW students in a process of practice-informed research and research-informed practice.

   **Objectives**
   - Students will use critical thinking skills to develop knowledge and understanding of research relevant to beginning social work practice with diverse systems.
   - Students will interpret, evaluate and implement relevant research, linking theory to practice, as they engage in beginning level social work practice with diverse systems.

**Student Learning Outcomes**

Upon completion of the Baccalaureate Social Work Program, students will

- Demonstrate ethical and professional behavior;
- Engage diversity and difference in practice;
- Advance human rights and social, economic and environmental justice;
- Engage is practice-informed research and research-informed practice;
- Engage in policy practice;
- Engage with individuals, families, groups, organizations, and communities;
- Assess individuals, families, groups, organizations, and communities;
- Intervene with individuals, families, groups, organizations, and communities; and
- Evaluate practice with individuals, families, groups, organizations, and communities.

**Outcomes Assessment Activities**

The faculty of the Department of Social Work uses a variety of methods for evaluating the student learning outcomes. These include a senior field placement consisting of 448 clock hours under the supervision of a task/field supervisor and with a faculty liaison. An assessment of the field experience completed by the field supervisor is a direct measure. During the field seminar, students will complete the Social Work Education Assessment Project (SWEAP) test, which is a standardized knowledge-based assessment. Embedded assessment measures include presentations, papers, projects, and conducting individual and group practice sessions. In addition, employer and alumni surveys are
systematically administered as part of assessment. The results of these assessment activities are used to improve the program and student learning.

**Sociology/Criminology/Anthropology Department**

Department Chair: S. Calhoun-Stuber

Department Chair: Susan Calhoun-Stuber

Faculty: Gomme, Hackett, McGettigan, Messer, Reynolds-Stenson, Schlosser

Lecturers: Johnson

**Mission Statement**

The Department of Sociology, Criminology, Anthropology and Social Science is committed to the principles of a liberal education. Our central objective is to teach and communicate the sociological and anthropological ways of viewing the world. The programs in sociology, criminology, anthropology, and social science are intended to increase the student’s knowledge of social organization and social relationships and to assist students in developing skills in the processing, integration and utilization of knowledge, rather than its simple transfer. Our curriculum reflects the long-standing interest of our disciplines in examining the human condition and understanding stability and change in social life. The department prepares students to work in a wide variety of occupations or to pursue professional or graduate studies. Our mission is to produce graduates who are motivated and equipped to make meaningful contributions to the enhancement of the human condition.

The department’s mission relates to the mission of the College of Humanities and Social Sciences in the following ways:

a. the department programs provide classroom environments that stimulate critical thinking and assist students to further develop critical thinking skills;

b. social action and responsibility, personal morality and accountability, and professional ethics are focused on throughout the curriculum in classes that examine the interplay between individual agency and social influence;

c. the broad disciplines within the department are committed to producing motivated and socially aware graduates equipped to make meaningful contributions within a diverse community and increasingly interdependent world.

**Women's Studies**

Coordinator: Susan Calhoun-Stuber, (719) 549-2979

**Mission**

The Women's Studies program exists to offer students a different perspective for understanding their disciplines, themselves, and others. Based on feminist theory, this perspective incorporates issues of race, ethnicity, class, sexuality, and other dimensions of human diversity.

- Anthropology, Minor (p. 269)
- Criminology, Bachelor of Arts (p. 267)
- Criminology, Bachelor of Science (p. 268)
- Sociology, Bachelor of Arts (p. 264)
- Sociology, Bachelor of Science (p. 265)

**Sociology, Bachelor of Arts**

Sociology examines human society with an emphasis on social structure, social interaction, and social change. From the analysis of passing encounters between strangers on the street to the investigation of broad-based global social movements, sociology examines the subtle, yet complex, ways individual lives interact and intersect with the collective experience of others. One of the sociology program’s special emphases is understanding social inequalities and their implication for social justice. Comparative, cross-national, and cross-cultural perspectives are also offered in many courses.

The analytic frameworks sociologists employ encourage students to think about complex situations in a new way by showing how the social environment influences people's life options, advantages and disadvantages. Sociologists are interested not only in understanding social issues and social organization, but also in resolving social problems and improving social conditions for human populations. With sociological knowledge we become more aware of ourselves, of other people, and of the world we all live in.

To study sociology, a student needs to acquire information (what we know), methodology (how we know), and theory (how we explain). A major in sociology will require students to develop background and strength in each of these domains. The insights gained from a sociological perspective include the ability to perceive the structures and patterns upon which everyday life rests, to understand the interaction between individual agency and social forces, to interpret events from diverse perspectives, and to examine existing social arrangements critically.

The sociology major prepares students to work in education, research, government, business, human services, community organizing, program development, policy analysis, youth services, criminal justice, crime and violence prevention, and victim services. Sociology also prepares students for graduate studies in sociology or related social sciences, for applied research careers, or for professional degree programs in law, social work, public administration and other fields.

The major is organized to provide a firm foundation in theory and research methods while allowing students to tailor their major to their specific subject interests.

A sociology major leads to either a Bachelor of Arts (BA) or a Bachelor of Science (BS) degree.

**Major Requirements**

- Completion of 36 credit hours of sociology coursework is required for the major. All sociology majors will work with a faculty advisor who will assist in the selection of courses to complete academic requirements.
- A minimum grade of C is required in all sociology courses counting toward either the sociology major or the sociology minor.

General Education
The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Student Learning Outcomes
The student learning outcomes apply for both the BS and BA degrees in Sociology.

• Students will be able to comprehend and criticize the major theoretical perspectives that inform modern sociological thought. Specifically, students will be able to:
  a. show what these perspectives have in common and how they differ and
  b. critique these different perspectives in terms of their explanatory strengths and weaknesses for purposes of understanding what each reveals and obscures about the subjects of sociological inquiry.

• Students will learn to apply a range of research methods in conjunction with sociological theory in order to explain and analyze complex social relations and organization. Specifically, students will be able to demonstrate that they can
  a. identify, define, and give examples of various methods used in sociological research on contemporary societies, and
  b. recognize and interpret research methodologies used in sociological literature.

• Students will learn to apply social analysis to substantive social issues and problems, including such areas as race, gender, power, inequality, and globalization. Specifically, they will be able to apply sociological theories and methods in these substantive areas in order to understand social problems and inform social policy.

• Students will be able to engage in critical thinking about various aspects of social life and organization.

General Education

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Student Learning Outcomes

The student learning outcomes apply for both the BS and BA degrees in Sociology.

- Students will be able to comprehend and criticize the major theoretical perspectives that inform modern sociological thought. Specifically, students will be able to:
a. show what these perspectives have in common and how they differ and
b. critique these different perspectives in terms of their explanatory strengths and weaknesses for purposes of understanding what each reveals and obscures about the subjects of sociological inquiry.

- Students will learn to apply a range of research methods in conjunction with sociological theory in order to explain and analyze complex social relations and organization. Specifically, students will be able to demonstrate that they can
  a. identify, define, and give examples of various methods used in sociological research on contemporary societies, and
  b. recognize and interpret research methodologies used in sociological literature.

- Students will learn to apply social analysis to substantive social issues and problems, including such areas as race, gender, power, inequality, and globalization. Specifically, they will be able to apply sociological theories and methods in these substantive areas in order to understand social problems and inform social policy.

- Students will be able to engage in critical thinking about various aspects of social life and organization.

Criminology, Bachelor of Arts

Criminology examines the making of laws, the nature and extent of crime and criminality, and efforts to control crime. The criminology program provides students with a strong foundation in sociological theory and research to foster a comprehensive and contextual understanding of crime and justice in society and the capacity to think critically and creatively about what does and doesn’t work in current crime control efforts. The organizations and institutions developed to respond to crime, in particular the criminal justice system, will be examined along with the related concepts of law and justice. Courses focus on the social construction or definitions of crime, the causes of crime and delinquency, and on the origin, nature, and consequences of societal reactions to criminal offending, including practices in both public and private justice agencies. Students pursuing careers in traditional criminal justice fields, such as policing, probation & parole, corrections and reintegration, will develop a strong foundation to work and effect social change in these fields. Criminology majors interested in careers in legal advocacy, community activism and social research will have the skills and knowledge enabling them to become transformational leaders in their profession.

The criminology curriculum emphasizes the importance of research-based knowledge, theoretically informed practice, critical analysis and ethical decision-making. Students are strongly encouraged to engage in experiential learning through courses and in the internship program with placements in criminal justice, juvenile justice, victim advocacy, and community-based agencies.

The criminology major prepares students for careers in the adult and juvenile justice systems – including law enforcement and criminal investigation, the courts, probation and parole, corrections, non-profit community based agencies, and victim services – or for graduate and professional programs in criminology, criminal justice, sociology, law, or legal and justice studies.

Students must complete all the major degree requirements. In addition, students must complete the world language requirement as specified in the Academic Policies section of the University Catalog. This requirement includes completion of the second level of a world language or completion of WL 100 Intro to Comparative Linguistics (3 c.h.) and ANTHR 106 Language, Thought and Culture (3 c.h.)/ENG 106 Language, Thought and Culture (3 c.h.), or completion of the second level of American Sign Language.

Major Requirements

- Completion of 36 credit hours of criminology coursework is required for the major. All criminology majors will work with a faculty advisor who will assist in the selection of courses to complete academic requirements.
  - A minimum grade of C is required in all courses counting toward the criminology major.

Criminology, Bachelor of Science

Criminology examines the making of laws, the nature and extent of crime and criminality, and efforts to control crime. The criminology program provides students with a strong foundation in sociological theory and research to foster a comprehensive and contextual understanding of crime and justice in society and the capacity to think critically and creatively about what does and doesn’t work in current crime control efforts. The organizations and institutions developed to respond to crime, in particular the criminal justice system, will be examined along with the related concepts of law and justice. Courses focus on the social construction or definitions of crime, the causes of crime and delinquency, and on the origin, nature, and consequences of societal reactions to criminal offending, including practices in both public and private justice agencies. Students pursuing careers in traditional criminal justice fields, such as policing, probation & parole, corrections and reintegration, will develop a strong foundation to work and effect social change in these fields. Criminology majors interested in careers in legal advocacy, community activism and social research will have the skills and knowledge enabling them to become transformational leaders in their profession.

The criminology curriculum emphasizes the importance of research-based knowledge, theoretically informed practice, critical analysis and ethical decision-making. Students are strongly encouraged to engage in experiential learning through courses and in the internship program with placements in criminal justice, juvenile justice, victim advocacy, and community-based agencies.

The criminology major prepares students for careers in the adult and juvenile justice systems – including law enforcement and criminal investigation, the courts, probation and parole, corrections, non-profit community based agencies, and victim services – or for graduate and professional programs in criminology, criminal justice, sociology, law, or legal and justice studies.

Students must complete all the major degree requirements. In addition, students must complete the world language requirement as specified in the Academic Policies section of the University Catalog. This requirement includes completion of the second level of a world language or completion of WL 100 Intro to Comparative Linguistics (3 c.h.) and ANTHR 106 Language, Thought and Culture (3 c.h.)/ENG 106 Language, Thought and Culture (3 c.h.), or completion of the second level of American Sign Language.

Major Requirements

- Completion of 36 credit hours of criminology coursework is required for the major. All criminology majors will work with a faculty advisor who will assist in the selection of courses to complete academic requirements.
- A minimum grade of C is required in all courses counting toward the criminology major.

Criminology Electives
A total of 27 credit hours of criminology electives are required for the major, including a minimum of 18 credit hours of upper-division electives. Electives accepted toward the major can include a maximum of 6.0 credit hours of anthropology and/or sociology. These courses must be approved by a criminology faculty advisor.

Students will be able to comprehend and criticize the major theoretical perspectives that inform modern criminological thought. Specifically, students will be able to:

a. show what these perspectives have in common and how they differ and

b. critique these different perspectives in terms of their explanatory strengths and weaknesses for purposes of understanding what each reveals and obscures about the subjects of criminological inquiry.

Students will learn to apply a range of research methods in conjunction with criminological theory in order to explain and analyze complex social relations and organization, including crime, victimization, social control, law enforcement, courts, corrections, and victim services. Specifically, students will be able to demonstrate that they can:

a. identify, define, and give examples of various methods used in criminological research on issues related to crime, law and justice, and

b. recognize and interpret research methodologies used in criminological literature.

Students will learn to apply social analysis to substantive criminal justice issues and diverse social concerns relevant to law, crime, and justice in contemporary society, including such areas as race, gender, power, inequality, and globalization. Specifically, they will be able to apply criminological theories and methods in these substantive areas in order to understand social problems impacting crime and to inform relevant policy and practice decisions, including crime-specific policy.

Students will be able to engage in critical thinking about various aspects of social life and organization, with emphasis on deviance, crime, social control, and community and government organizations and institutions that respond to criminal victimization and offending behavior.

Anthropology, Minor
Anthropology is the study of human societies and cultures across space and time. The Anthropology minor provides students with an informed understanding of the diversity evident in human societies and the concepts by which anthropologists explain these dynamics. The program emphasizes a holistic approach to exploring key questions about human diversity in the past and present, and future and challenges student understanding with the numerous links between the systems of biology and culture. The program prepares students to understand anthropological methods and theories and to apply them to life experiences.

Program Mission
The Anthropology program complements the mission of the Department and the College by focusing on the analysis of the relationship among world cultures, societies, and the features and consequences of human evolution. The mission of the Anthropology minor is to provide a comprehensive and rigorous course of study for students seeking to understand the human cultural and biological experience, as well as to prepare students interested in pursuing graduate work in anthropology or professional degrees in related fields such as, sociology, psychology, criminology, history, business, education, and medicine.

Students pursuing the Anthropology minor will have the opportunity to experience Anthropology's dominant sub disciplines: biological anthropology, cultural anthropology, archaeology and linguistics. Studying in one or more of the four introductory level courses provides

General Education
The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Student Learning Outcomes
Upon completion of a BA or BS degree in Criminology:
a solid grounding in the anthropological perspective, while upper level coursework emphasize more in-depth exploration of a range of topics within the sub disciplines based on historical and theoretical foundations. Upper level electives also provide opportunities for independent study and directed research, which allow students the ability to chart their own course within the minor according to their academic interests.

Anthropology, by nature, is comparative and integrative. Through the variety of courses concerning human evolution, world prehistory, cultural and biological diversity of contemporary humans, students will be taught to question and examine the significance of ethnocentric beliefs, attitudes, and prejudices and to understand the biological and cultural diversity that characterizes the human species. The program also provides students with the necessary intellectual tools of critical reasoning, and oral and written communication skills, designed to prepare them for life and work in our multi-cultural world.

**Program Goals and Objectives**

- Provide students with background in the concepts and bodies of knowledge used and produced by anthropologists so students will learn the basic core concepts of anthropology and cite factual evidence to support their arguments on major topics under debate in the discipline.
- Provide students with training on the application of anthropological theory and method, enabling students to demonstrate knowledge of history and contemporary trends in anthropological theory, and the ability to apply theoretical approaches to concrete problems.
- Prepare students to apply anthropological concepts to real world problems and effectively communicate results and to increase students’ abilities to think and write critically about anthropological concepts.

**Specific Requirements for the Anthropology Minor**

The minor consists of 18 semester credit hours of anthropology courses; ANTHR 100 Cultural Anthropology (3 c.h.) is required, and six credit hours of anthropology courses must be upper division. Elective courses may be based on student interest. No grades below C are accepted toward the minor.

<table>

<td>9</td>
<td></td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>18</td>
</tr>
</tbody>
</table>

**Student Learning Outcomes**

Upon completion of the Anthropology minor, the student should achieve the following:

- An understanding and appreciation of human biological, archaeological, linguistic, and cultural diversity.
- An understanding of the three main anthropological approaches to the study of humanity: cross-cultural comparison, holism, and evolutionary theory, and the uses of each.
- An ability to understand, describe, and critically assess anthropological/archaeological theories, principles, concepts, and research methods.

• An ability to understand, describe, and critically assess the role of culture and social structures in shaping society and individual lives.
• An ability to critically write and verbally present ideas, critiques, and research within the discipline.

**Outcomes Assessment Activities**

Assessment of the Anthropology minor is the responsibility of the program faculty.

Anthropology minors’ performance on each of the program’s student learning outcomes will be assessed on a 2-3 cycle. Assessment results will be used to identify program strengths and to discern areas needing improvement to enhance student performance in relation to the student learning outcomes.

**Sociology, Minor**

**Specific Requirements for the Sociology Minor**

Minors in sociology require a minimum of 20 semester hours, of which six hours must be upper division. SOC 101 is required. No grades below C are accepted toward the minor.

<table>

COLLEGE OF SCIENCE AND MATHEMATICS

Dr. David Lehmpuhl, Dean

Mission

The College of Science and Mathematics (CSM) offers quality, competitive Bachelor’s and Master’s degree programs that prepare graduates for success in professional and graduate programs and for careers in the biological and physical sciences and mathematics. The College also supports a strong general education program by providing core curricula in science and mathematics, for students pursuing careers in the health and environmental sciences, engineering, technology, and teacher education. The CSM provides advanced learning opportunities for students via faculty mentored research projects and internships that promote the discovery of new information and the application of new knowledge. The CSM supports the community, region and related professions through outreach including initiatives that enhance economic development, scientific literacy, and K-12 education.

The College offers BS degree programs in biology, wildlife and natural resources, chemistry, mathematics, and physics, and a BA in mathematics. The BS in chemistry is certified by the American Chemical Society (ACS). The College also offers graduate programs in natural sciences with MS degrees in biochemistry, biology, and chemistry that can be obtained separately or along with the Bachelor’s degree in a combined five-year, 3+2 program.

Departments of biology, chemistry, and mathematics/physics provide versatile major programs with select emphasis areas and minors characterized by appropriate solid fundamental science and mathematics curricula, coupled with specialized and often interdisciplinary courses. Emphasis areas within major programs and minors provide preparation for future careers in areas as diverse as medicine, pharmacy, teaching (certification for elementary and secondary), environmental health and technology, computational mathematics, bioinformatics, and many others.

In addition to offering a modern and career-oriented curriculum, academic programs provide opportunities for faculty-directed undergraduate and master-level research, and internships with local companies, government laboratories and agencies. These experiences are critical to applied student learning and significantly enhance the success of graduates in gaining employment and acceptance into graduate and professional programs at the regional, state and national levels.

Academic programs in the College are housed in three buildings, totaling over 149,000 gross square feet including a technology enhanced infrastructure to deliver state-of-the-art instruction in both lecture and laboratory environments. Programs incorporate use of an impressive collection of advanced instrumentation, equipment, and software in the curriculum, providing graduates advanced skills and a competitive edge within respective professions in our modern and technologically advanced society.

Biology Department

Department Chair: Moussa M. Diawara
The major in biology leads to a Bachelor of Science (BS) Degree. The biology major is sufficiently flexible for students to prepare for a wide variety of professional careers. Carefully supervised career planning is a fundamental strength of the program.

The student majoring in biology may plan to enter the workplace upon graduation or continue study in graduate or professional school. Biomedical Sciences emphasis encompasses prep for pre-professional programs including: pre-chiropractic, pre-optometry, pre-physical therapy, pre-occupational therapy, pre-pharmacy, pre-physician assistant, pre-podiatric medicine, pre-veterinary medicine, pre-dentistry, pre-medicine or pre-osteopathic medicine. Frequently, pre-professional study involves a combination of majors or a major and minor. For example, many pre-medical students choose a double major in biology and chemistry. Each of the pre-professional programs has an adviser who can provide detailed and current information about the undergraduate work which the student should pursue to provide the foundation necessary for later entry into a professional school. The student should contact the specialized adviser as early as possible. A list of advisers is available in the departmental office (LS 210).

Biology majors also may seek teacher certification at the secondary level. Interested students may obtain a written description of specific degree requirements from the appropriate education and biology advisers. Biology students who are considering attending graduate school should take one year of a world language and should plan to take the Graduate Record Examination during the senior year.

The biology department offers several emphasis areas:

- Basic Biology
- Biomedical Science
  - Pre-Chiropractic
  - Pre-Dental
  - Pre-Medical (Including Osteopathic, Podiatric and Optometric)
  - Pre-Medical Laboratory Science
  - Pre-Occupational Therapy
  - Pre-Pharmacy
  - Pre-Physical Therapy
  - Pre-Physician Assistant
  - Pre-Veterinary Medicine
- Environmental Biosciences
- Cellular and Molecular Biosciences (Including Forensics & Bioinformatics)
- Biology/Chemistry Double Major
- Biology Secondary Certification

**Department Goals**

- To develop in students a broad-based theoretical foundation supplemented by laboratory and field experience that allow individual observations, interpretations and applications; and
- To allow those students seeking a minor in biology to supplement and strengthen the major field of study.

### Elementary Teaching

See Liberal Studies with Science Emphasis

### Institutional and General Education

Please refer to the General Education Requirements in the Academic Policies section of this catalog or refer to your individual department’s curriculum sheet.

### Experiential Opportunities

There are many opportunities to participate in experiences that will complement and reinforce a student’s academic experience. The activities may be either on- or off-campus and may be used to develop leadership and interpersonal skills. The faculty of the biology department actively encourages student participation in such activities.

### Wildlife and Natural Resources Program

Faculty: Caprioglio, Diawara, Gabaldón, Garcia-Costas, Martinez, Ramos, Sandmeier, Smith, Steel, Vanden Heuvel

The major of wildlife and natural resources leads to a Bachelor of Science (BS) Degree. In addition, supporting courses and general education courses in biology are available to meet a wide range of interests, backgrounds and needs. The Wildlife and Natural Resources Program emphasizes an understanding of fish and wildlife ecology and management with practical skills obtained during laboratory and field exercises. Graduates are prepared for positions with state and federal agencies, tribal departments, and conservation organizations or higher academic degrees. Carefully supervised career planning is provided to all students.

The wildlife and natural resources program offers Aquatic and Terrestrial emphasis areas, with curriculum for each meeting the certification requirements of the American Fisheries Society (AFS) or The Wildlife Society (TWS), respectively.

### Graduate Programs in Natural Sciences

The College of Science and Mathematics offers Master of Science degrees in three disciplines within the Natural Sciences:

- Biology MS,
- Chemistry MS, and
- Biochemistry MS

Students completing any of these degrees will develop advanced skills in the general discipline of choice and will apply these skills in the completion of a thesis research project or internship. GRE scores of at least 300 (verbal and quantitative) based on the current GRE exam are required for regular admission to GPNS programs.

- Biology 3+2 Plan, Joint Bachelor of Science/Master of Science (p. 274)
- Biology, Bachelor of Science: Basic Biology Emphasis (p. 275)
- Biology, Bachelor of Science: Biology Secondary Certification Emphasis (p. 277)
• Biology, Bachelor of Science: Biology/Chemistry Double Major Emphasis (p. 276)
• Biology, Bachelor of Science: Biomedical Sciences Emphasis (p. 278)
• Biology, Bachelor of Science: Cellular and Molecular Biosciences Emphasis (p. 279)
• Biology, Bachelor of Science: Environmental Biosciences Emphasis (p. 280)
• Biology, Master of Science (p. 273)
• General Biology, Minor (p. 284)
• Professional Biology, Minor (p. 284)
• Wildlife and Natural Resources, Bachelor of Science: Aquatic Emphasis (p. 281)
• Wildlife and Natural Resources, Bachelor of Science: Terrestrial Emphasis (p. 283)

**Biology, Master of Science**

Program Director: Claire Ramos

The graduate program leading to the degree of Master of Science in Biology prepares students to apply basic scientific principles to the practical biological problems encountered in business, industry, government, and education. Graduates from the program will be able to apply the techniques of scientific research to real-world biological problems. Course work may include several important areas relevant to biology, including biotechnology, bio-fuels, statistics, environmental, molecular, and cellular biology. A unique feature of the program is its 3+2 plan which is described in the Biology 3+2 Plan (p. 274) description. The 3+2 plan allows a student to simultaneously receive a BS and an MS degree in five years. The Master of Science in Biology requires 30 or 32 semester credit hours of approved graduate course work for, respectively, the thesis (30) or the non-thesis option (32).

**Degree Requirements**

The course of study requires eight semester credits of work common to all students. Additionally, each student must select an emphasis area with a core of three to four semester credits. Twelve to seventeen credits in elective courses are also required, depending on which option is chosen. The thesis option requires successful completion of six semester credits of thesis research (BIOL 599 Thesis Research (1-6 c.h.)) and an approved thesis. The non-thesis option requires successful completion of four semester credits of Internship Seminar. The program of study for each student must be approved by a graduate committee and the Program Director. Thesis option students are required to defend their research results before a thesis defense committee. A non-thesis option student must complete a comprehensive exam, submit a formal written report based on an internship, and defend their internship work before their graduate committee. Program requirements are summarized as follows:

**Plan A (thesis option)**

</tr>
</tbody>
</table>

**Elective Courses**

Elective courses are selected from courses listed below: (others may be added, with permission as new courses are added, or from other areas of study, for example biochemistry).
Expected Student Learning Outcomes

Upon completion of the MS in Biology, students will have achieved the following goals:

- **Mastery of the Scientific Method** - Independent development and mastery of problem solving skills including experimental design, execution, critical analysis, and interpretation of the results of original scientific experimentation (thesis) or experiential learning (internship).

- **Dissemination of Scientific Products** - Persuasive communication and defense of significant results of original scientific investigation presented in both written and oral format at a graduate peer-professional level.

- **Utilization of the Literature** - Critical evaluation of an independently accessed comprehensive body of scientific literature which is project relevant and foundational in supporting and explaining research findings in both written and oral format.

- **Development of a Relevant Knowledge Base** - Development of intrinsically held fundamental field-specific knowledge which will be applied to explain and defend research findings at a level of mastery expected by peer-professionals.

- **Professionalism and Self Responsibility** - Maintain a consistent professional work ethic of independently taking the initiative and motivation to produce tangible products of a quality commensurate with peer-standards in graduate or professional schools or in the career field being pursued.

### Outcomes Assessment Activities

The faculty of the GPNS will use a variety of methods for evaluating student learning outcomes. Students completing this degree program will give a public research seminar (BIOL 593 Seminar (1 c.h.)) that will be evaluated by cognizant GPNS faculty members. A research thesis or internship project will be designed, conducted, and publically presented in writing and orally prior to defense and evaluation by the student’s Graduate Advisory Committee.

### Biology 3+2 Plan, Joint Bachelor of Science/Master of Science

A feature of the Biology MS program is the 3+2 plan which gives qualified advanced-level undergraduate students the opportunity to simultaneously pursue both the Baccalaureate (BS) and Master of Science (MS) degrees. With this plan, students are moved quickly toward expanding their academic and scientific horizons based on the student’s abilities and personal motivation. Students in the 3+2 plan are expected to successfully complete the requirements for both the BS and MS degrees by the end of their fifth year in college. Students are simultaneously awarded both the BS and MS degrees in five years, thus shortening the normal time to receive both degrees from six years to five years. They must apply and be admitted into the Biology MS program by the Spring semester of their junior year (preferred) or by the start of the Fall semester of the senior year and meet the course requirements listed below. Students applying to the 3+2 plan must have a minimum 3.0 overall GPA and a minimum 3.25 GPA in their biology coursework.

The application file for admission to the 3+2 plan must include:

1. A completed Biology MS application form;
2. A CSU-Pueblo transcript;
3. Two letters of recommendation from CSU-Pueblo faculty;
4. A statement of research interests; and
5. Satisfactory combined GRE scores above 300 (students may be admitted into the 3+2 program before taking the GRE; however, they must submit satisfactory GRE scores by the last day of finals at the end of their first semester in the 3+2 Biology MS program to remain in the program).

### Biology 3+2 Plan (BS/MS)

One feature of the Biology MS program is the 3+2 plan, which is designed to give the opportunity to qualified advanced-level undergraduate...
students to simultaneously pursue both the Baccalaureate (BS) and Master of Science (MS) degrees. Talented students are thus quickly moved toward expanding their academic and scientific horizons based on an individual student's abilities and motivation.

Specific requirements for the 3+2 program are included in the Biology MS description of the College of Science and Mathematics, undergraduate programs section of this catalog.

Before being admitted to the 3+2 plan, students are expected to have completed or be enrolled in the following course work.

**Basic Biology Emphasis**

**General Requirements**

- Students majoring in biology must receive a grade of C or better (2.000) in all core biology courses.
- Students graduating with a BS in biology must have at least a cumulative GPA of 2.000 in the major area. A cumulative GPA of 2.600 in the major area is required for admission to the teacher education program.
- Transfer students are required to earn a minimum of 15 semester credit hours in approved Biology upper division courses from CSU-Pueblo, including BIOL 493 Seminar (1 c.h.), for graduation with a BS degree in Biology.
- A maximum of 6 semester credit hours of approved upper division CHEM courses may be applied towards approved upper division biology electives.
- A maximum of 6 semester credit hours of approved upper division WANR courses may be applied towards approved upper division biology electives.
- Graduates are encouraged to complete a minor outside the biology department.

General Education

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Expected Student Outcomes

• Students will develop a broad-based knowledge of concepts and terminology in molecular, cellular, organismal, and ecological biology.
• Students will develop applied scientific skills through field and laboratory experience and data analysis.
• Students will develop skills in reading and interpreting the scientific literature and in presenting a synthesis of it accurately in oral and written form.
• Students will demonstrate critical thinking and problem solving skills using experimental design and the scientific method.

Outcomes Assessment Activities

Assessment of students’ improvement in intellectual skills, knowledge and capacities from entrance to graduation will be accomplished through the use of several tools. Exams and course assignments will be used as one measure of the student’s proficiency in writing skills, acquisition of knowledge, communication, problem solving and laboratory skills.

All majors will take a Senior Seminar that requires scientific literature interpretation along with oral and written presentations evaluated by peers and department faculty. Seniors will also take the Biology Major Field Test, which measures Colorado State University-Pueblo students’ content knowledge and analytical skills against national norms.

**Biomedical Sciences Emphasis**

This emphasis includes pre-professional programs: Chiropractic, Dental, Medical, Medical Laboratory Science, Occupational Therapy, Pharmacy, Physical Therapy, Physician Assistant, and Veterinary Medicine.

See Basic Biology Emphasis above and consult with academic adviser for other requirements. Electives vary with professional area.
Students seeking to major in Nutrition can complete five terms of coursework at CSU-Pueblo. Articulation agreements are in place for transfer to undergraduate programs in Nutrition.

General Requirements

Expected Student Outcomes

- Students will develop a broad-based knowledge of concepts and terminology in molecular, cellular, organismal, and ecological biology.
- Students will develop applied scientific skills though field and laboratory experience and data analysis.
- Students will develop skills in reading and interpreting the scientific literature and in presenting a synthesis of it accurately in oral and written form.
- Students will demonstrate critical thinking and problem solving skills using experimental design and the scientific method.

Outcomes Assessment Activities

Assessment of students’ improvement in intellectual skills, knowledge and capacities from entrance to graduation will be accomplished through the use of several tools. Exams and course assignments will be used as one measure of the student’s proficiency in writing skills, acquisition of knowledge, communication, problem solving and laboratory skills. All majors will take a Senior Seminar that requires scientific literature interpretation along with oral and written presentations evaluated by peers and department faculty. Seniors will also take the Biology Major Field Test, which measures Colorado State University-Pueblo students’ content knowledge and analytical skills against national norms.

Institutional and General Education

COMR 103
Sequence B:
MATH 221
MATH 156 & 302L
CHEM 302 & 301L
CHEM 122 & 121L

Required Support Courses
Select at least two Ecology/Environmental courses from the following:
BIOL 443 Limnology & Limnology Lab
& 443L
& 453 Ecology & Ecology Field Studies
& 453L
& 454 Behavioral Ecology
BIOL 461 Applied Geospatial Technology (GIS/GPS)
& 462 Environmental Policy & Management
& 465 Environmental Toxicology
BIOL 486 Field Botany
Select at least one Taxonomy course from the following:
BIOL 479 Ichthyology & Ichthyology Laboratory
& 479L
& 481L Entomology and Entomology Lab
& 482 Herpetology & Herpetology Lab
& 482L
& 483L Mammalogy & Mammalogy Lab
& 483L
& 484L Ornithology & Ornithology Lab
& 484L
& 485L Plant Taxonomy & Plant Taxonomy Lab

Expected Student Outcomes
• Students will develop a broad-based knowledge of concepts and terminology in molecular, cellular, organismal, and ecological biology.
• Students will develop applied scientific skills through field and laboratory experience and data analysis.
• Students will develop skills in reading and interpreting the scientific literature and in presenting a synthesis of it accurately in oral and written form.
• Students will demonstrate critical thinking and problem solving skills using experimental design and the scientific method.

Outcomes Assessment Activities
Assessment of students’ improvement in intellectual skills, knowledge and capacities from entrance to graduation will be accomplished through the use of several tools. Exams and course assignments will be used as one measure of the student’s proficiency in writing skills, acquisition of knowledge, communication, problem solving and laboratory skills. All majors will take a Senior Seminar that requires scientific literature interpretation along with oral and written presentations evaluated by peers and department faculty. Seniors will also take the Biology Major Field Test, which measures Colorado State University-Pueblo students’ content knowledge and analytical skills against national norms.

Wildlife and Natural Resources, Bachelor of Science: Aquatic Emphasis

Wildlife and Natural Resources Program
Faculty: Caprioglio, Diawara, Gabaldón, García-Costas, Martinez, Ramos, Sandmeier, Smith, Steel, Vanden Heuvel

The major of wildlife and natural resources leads to a Bachelor of Science (BS) Degree. In addition, supporting courses and general education courses in biology are available to meet a wide range of interests, backgrounds and needs. The Wildlife and Natural Resources Program emphasizes an understanding of fish and wildlife ecology and management with practical skills obtained during laboratory and field exercises. Graduates are prepared for positions with state and federal agencies, tribal departments, and conservation organizations or higher academic degrees. Carefully supervised career planning is provided to all students.

The wildlife and natural resources program offers Aquatic and Terrestrial emphasis areas, with curriculum for each meeting the certification
requirements of the American Fisheries Society (AFS) or The Wildlife Society (TWS), respectively.

**General Requirements**

- Students majoring in wildlife and natural resources must receive a grade of C or better (2.000) in all core biology and wildlife and natural resources courses.

- Students graduating with a BS in wildlife and natural resources must have at least a cumulative GPA of 2.000 in the major area.

- Transfer students are required to earn a minimum of 15 semester credit hours in approved biology and wildlife and natural resources upper division courses from CSU-Pueblo, including BIOL 493 Seminar (1 c.h.), for graduation with a BS degree in wildlife and natural resources.

- Students are strongly encouraged to complete an internship or temporary employment in a natural resources discipline prior to graduation.

Select 10 credits in Advisor-Approved Upper Division Electives 10

**Institutional and General Education**

Select 21 credits 21

**Total Credits** 120

**General Education**

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

**Program Goals**

- To provide students with the necessary background to successfully pursue graduate study towards a professional career in wildlife and natural resources;
- To prepare students upon graduation to enter field positions in government or private industry; and,
- To supply students with the necessary coursework to obtain professional certification as associate fishery or wildlife biologists

**Expected Student Outcomes**

- Students will know the knowledge, ecology and natural history of flora and fauna in southern Colorado and the desert southwest.
- Students will know the principles and concepts of fish and wildlife science and how they are used to make informed decisions on difficult management decisions.
- Students will use contemporary tools and techniques for studying fish and wildlife, habitat, and ecosystem processes.
- Students will be familiar with laws, policies, regulations and administrative processes that dictate how wildlife and natural resources are held in trust for the public.
- Students will develop communication and interpersonal skills to enhance their working relations with co-workers, other wildlife professionals, the public and non-governmental organizations, landowners, hunters and anglers, and other natural resources interests.
• Students will develop skills in reading and interpreting the scientific literature and in presenting a synthesis of it accurately in oral and written form.
• Students will demonstrate critical thinking and problem solving skills using experimental design and the scientific process.

Outcomes Assessment Activities
Assessment of students’ improvement in intellectual skills, knowledge and capacities from entrance to graduation will be accomplished through the use of several tools. Exams and course assignments will be used as one measure of the student’s proficiency in writing skills, acquisition of knowledge, communication, problem solving, and laboratory and field skills. All majors will take a Senior Seminar requiring scientific literature interpretation along with oral and written presentations evaluated by peers and department faculty. Students performing at a high academic level will be strongly encouraged to take the Graduate Record Examination (GRE) to prepare for graduate study.

Wildlife and Natural Resources, Bachelor of Science: Terrestrial Emphasis

Wildlife and Natural Resources Program
Faculty: Caprioglio, Diawara, Gabaldón, García-Costas, Martinez, Ramos, Sandmeier, Smith, Steel, Vanden Heuvel

The major of wildlife and natural resources leads to a Bachelor of Science (BS) Degree. In addition, supporting courses and general education courses in biology are available to meet a wide range of interests, backgrounds and needs. The Wildlife and Natural Resources Program emphasizes an understanding of fish and wildlife ecology and management with practical skills obtained during laboratory and field exercises. Graduates are prepared for positions with state and federal agencies, tribal departments, and conservation organizations or higher academic degrees. Carefully supervised career planning is provided to all students.

The wildlife and natural resources program offers Aquatic and Terrestrial emphasis areas, with curriculum for each meeting the certification requirements of the American Fisheries Society (AFS) or The Wildlife Society (TWS), respectively.

General Requirements
• Students majoring in wildlife and natural resources must receive a grade of C or better (2.000) in all core biology and wildlife and natural resources courses.
• Students graduating with a BS in wildlife and natural resources must have at least a cumulative GPA of 2.000 in the major area.
• Transfer students are required to earn a minimum of 15 semester credit hours in approved biology and wildlife and natural resources upper division courses from CSU-Pueblo, including BIOL 493 Seminar (1 c.h.), for graduation with a BS degree in wildlife and natural resources.
• Students are strongly encouraged to complete an internship or temporary employment in a natural resources discipline prior to graduation.

Chemistry Department

Department Chair: David Dillon
Faculty: Bonetti, Cranswick, Druelinger, Farrer, Kinney, Proctor, Velasco

The major in chemistry leads to a Bachelor of Science (BS) Degree and the chemistry curriculum is certified by the American Chemical Society.

The chemistry department provides intellectual and professional training for students in the field of chemistry and in support of the American Chemical Society charter “to encourage in the broadest and most liberal manner the advancement of chemistry in all its branches; the promotion of research in chemical science and industry, the improvement of the qualifications and usefulness of chemists through high standards of education to promote scientific interests and inquiry.”

Chemistry is a foundation science for many professions. Graduates with degrees in chemistry find employment in such diverse areas as biotechnology, health sciences, forensic science, agricultural and environmental fields, transportation industries, the semi-conductor industry, teaching and research.

Consequently, the chemistry department provides students with a number of diverse programs to assure each student versatility and a sound education in the fundamental areas of modern chemistry.

In addition to curricula for students who wish to pursue chemistry as a profession, programs can be designed for pre-professional areas including pre-pharmacy, pre-medicine, pre-dentistry and pre-veterinary medicine.

A core curriculum for the major exists and many emphasis areas are open to students to combine other interests with a major in chemistry. For example, while medical schools do not mandate any particular major for entering students, biology and chemistry have been the leading majors of students entering medical school. The requirements for a pre-medicine/chemistry major are the same as for the chemistry major emphasis.

Additionally, the student must complete specific courses required by the medical schools to which they are applying. It is recommended that pre-medical and other pre-professional students coordinate the program with the appropriate pre-professional adviser, as well as the chemistry adviser, to assure that specific course requirements are completed.

Graduate Programs in Natural Sciences

The College of Science and Mathematics offers Master of Science degrees in three disciplines within the Natural Sciences: Biology MS, Chemistry MS, and Biochemistry MS. Students completing any of these degrees will develop advanced skills in the general discipline of choice and will apply these skills in the completion of a thesis research project or internship. GRE scores of at least 300 (verbal and quantitative) based on the current GRE exam are required for regular admission to GPNS programs.

Pre-Professional

Students ultimately seeking professional degrees such as Pharmacy, PharmD, MD, DVM, D0, DDS, and DC, may opt to complete a bachelors, or minor, in chemistry as preparation for future professional studies.

A solid understanding of the chemistry and analysis of biomolecules, pharmaceuticals, etc. serves as an excellent foundation for professional programs in the health sciences. Selection of the Biochemistry or Double Major Emphasis is recommended for pre-professional students completing the BS in chemistry. Pre-professional students must work closely with academic advisers to ensure completion of specific curricular requirements needed for admission into specific professional programs.

Co-Curricular Requirements

Students should experience co-curricular activities which enhance, broaden and reinforce the academic experience; therefore, the faculty support and encourage students to participate in science-related, as well as in general activities such as:

1. Science or chemistry clubs
2. Student government
3. Scientific meetings, seminars, symposia, field trips, tours, etc.
4. Internships
5. Research

• Biochemistry 3+2 Plan, Joint Bachelor of Science/Master of Science (p. 288)
• Biochemistry, Master of Science (p. 285)

• Chemistry, Master of Science (p. 287)
• Chemistry, Minor (p. 297)

Biochemistry, Master of Science

Program Director: Richard Farrer

In addition to a minimum undergraduate GPA of 3.000 admission into the Biochemistry (MS) program requires a minimum score of 300 on the GRE and submission of three letters of recommendation.

The graduate degree program outlined leads to the degree of Master of Science in Biochemistry. The degree program prepares graduates for professional employment or for further advanced studies at the interface of chemistry and biology, and in molecular biosciences, including biochemistry and biotechnology.

Course work for this degree option includes several important classes at the intersection of the biological and chemical sciences, including advanced topics in cellular biology, biochemistry, and laboratory techniques. This program also offers a 3+2 plan, described elsewhere, which allows students to simultaneously complete requirements for a BS and MS degree in five years.
Biochemistry, Master of Science

The Master of Science in Biochemistry requires 30 semester credit hours of approved graduate course work in the thesis option.

Degree Requirements

The course of study requires 5 semester credits of course work common to all students, and 6 credits of thesis research. Each student must complete 4 core courses (13 semester credits). Students are required to complete 6 additional credit hours of approved graduate level electives in Biology, Chemistry, Math, or Engineering as outlined in the graduation plan developed with the student’s adviser and graduate committee and approved by the program director. The signed graduation plan may be completed at any time, but is a requirement for successful completion of CHEM 510 Foundations in Graduate Studies (3 c.h.). Students are required to defend their research results before their graduate committee.

Each student must pass a total of three qualifying exams one each in biochemistry and biology (molecular and cellular biology) and one of four other areas of selected chemistry content (analytical, inorganic, organic, or physical chemistry). Qualifier examinations are scheduled during the week preceding the beginning of classes each term or in consultation with the program director or department chair. If an examination is failed, the requirement may be satisfied by completing the designated undergraduate coursework in the appropriate subdiscipline, as specified by the program director or department chair, with a minimum grade of “B”. Students enrolling into the 3+2 program will be exempt from the requirement to pass qualifying exams if they have completed courses approved by the program director or department chair, with a minimum grade of “B” or better. Students enrolled in the 3+2 program required to pass qualifying exams will schedule the exams in consultation with the Program Director.

Biochemistry program requirements are summarized as follows:

(thesis option only)

Course | Title | Credits
--- | --- | ---
CHEM 510 | Foundations in Graduate Studies | 3
CHEM 589 | Thesis Defense | 1
CHEM 593 | Seminar | 1
CHEM 599 | Thesis Research | 6

Core Courses

CHEM 512 | Biochemistry II | 3
BIOL 512 | Cellular Biology | 3
BIOL 540 & 540L | Advanced Biotechniques and Advanced Biotechniques Lab | 4
CHEM 531 | Advanced Physical Chemistry | 3

Elective Courses

Select 6 credits | | 6

Total Credits | | 30

1 Students may enroll for a total of 6 credit hours of CHEM 599 Thesis Research (1-6 c.h.).

2 Labs are not required.

Elective Courses

Elective courses may be selected from the following courses or others may be added with permission of the graduate committee.

Expected Student Learning Outcomes

Upon completion of the Biochemistry MS or BS/MS as part of the Graduate Programs in Natural Sciences (GPNS), students will:

- Be able to understand and evaluate the scientific literature and use it in their courses and their research.
- Be able to effectively communicate scientific research, both their own and information from the research literature, in written and oral fashions.
- Develop and master the scientific problem solving skills required to define and solve basic or applied original scientific questions using the scientific method.
- Actively engage in research/internships and discourse with the faculty in the Chemistry Department and other STEM disciplines.
- Disseminate, in collaboration with faculty, the products of the Biochemistry-MS program within the CSU-Pueblo community and with communities outside of the University in activities using their professional expertise.

Outcomes Assessment Activities

The faculty will use a variety of methods for evaluating student learning outcomes. These include required student enrollment in CHEM 510 Foundations in Graduate Studies (3 c.h.), which involves faculty directed instruction and practice in searching, evaluating, and discussing scientific literature, instruction in experimental design, and dissemination of scientific research results. Students completing this degree program will give a public research seminar (CHEM 593 Seminar (1 c.h.)) that will be evaluated by cognizant GPNS faculty members. A written research thesis will be publically presented and defended by students to demonstrate proficiency in their area of study and this will be evaluated by the student’s Graduate Advisory Committee. Students will collaborate with faculty to present the results of their thesis research within the greater Southern Colorado region, give seminars/posters on campus or at appropriate scientific meetings, publish the results of their research in peer reviewed scientific journals, or disseminate information through other appropriate mediums.
Chemistry, Master of Science

Program Director: Richard Farrer

In addition to a minimum undergraduate GPA of 3.000 admission into the Chemistry (MS) program requires a minimum score of 300 on the GRE and submission of three letters of recommendation.

The graduate program leading to the degree of Master of Science in Chemistry prepares students to apply fundamental chemistry principles to more advanced questions encountered in industry, government, business, and education. Graduates from this program will be able to apply techniques of scientific research in the chemical sciences to real-world problems.

Course work may include several important areas in the chemical and natural sciences, including advanced instrumental techniques, and environmental concerns. This program also offers a 3+2 plan described elsewhere, which allows students to simultaneously complete requirements for a BS and MS degree in five years.

The Master of Science in Chemistry requires 30 or 32 semester credit hours of approved graduate course work in either the thesis or non-thesis (internship) option, respectively.

Degree Requirements

The course of study requires five semester credits of course work common to all students. Each student must complete three of the five core courses (9 semester credits). Students are required to complete 10-12 additional credit hours of approved graduate level electives in Chemistry, Biology, Math, or Engineering as outlined in the graduation plan developed with the student’s adviser and graduate committee, and approved by the Program Director. The signed graduation plan may be completed at any time, but is a requirement for successful completion of CHEM 510 Foundations in Graduate Studies (3 c.h.).

Thesis option students are required to defend their research results before their graduate committee. Non-thesis option students must take a written comprehensive examination over courses taken in their program of study. A non-thesis option student must submit a formal written report based on an internship and defend their internship and work before their graduate committee.

Each student must pass qualifying exams in three of five areas of selected chemistry content (analytical, biological, inorganic, organic, or physical chemistry). Students will have two opportunities to pass each area exam. Qualifier examinations are scheduled during the week preceding the beginning of classes each term or in consultation with the program director or department chair. If an examination is failed, the requirement may be satisfied by completing the designated undergraduate coursework in the appropriate subdiscipline, as specified by the program director or department chair, with a minimum grade of “B”. Students enrolling into the 3+2 program will be exempt from the requirement to pass qualifying exams if they have completed courses at CSU-Pueblo in analytical, biological, inorganic, organic, or physical chemistry with a grade of “B” or better. Students enrolled in the 3+2 program required to pass qualifying exams will schedule the exams in consultation with the Program Director.

Chemistry program requirements are summarized as follows:

Core Courses

Select three of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>

CHEM 525  Environmental Chemistry 3
CHEM 529  Advanced Analytical Chemistry 3
CHEM 531  Advanced Physical Chemistry 3
CHEM 550  Industrial Chemistry 2
CHEM 591  Special Topics 1-4
CHEM 592  Research 1-3
CHEM 595  Independent Study 1-4

Expected Student Learning Outcomes

Upon completion of the Chemistry MS or BS/MS as part of the Graduate Programs in Natural Sciences (GPNS), students will:

1. Be able to understand and evaluate the scientific literature and use it in their courses and their research.
2. Be able to effectively communicate scientific research, both their own and information from the research literature, in written and oral fashions.
3. Develop and master the scientific problem solving skills required to define and solve basic or applied original scientific questions using the scientific method.
4. Actively engage in research/internships and discourse with the faculty in the Chemistry Department and other STEM disciplines.
5. Disseminate, in collaboration with faculty, the products of the Chemistry-MS program within the CSU-Pueblo community and with communities outside of the University in activities using their professional expertise.

Outcomes Assessment Activities

The faculty will use a variety of methods for evaluating student learning outcomes. These include required student enrollment in CHEM 510 Foundations in Graduate Studies (3 c.h.), which involves faculty directed instruction and practice in searching, evaluating, and discussing scientific literature, instruction in experimental design, and dissemination of scientific research results. Students completing this degree program will give a public research seminar (CHEM 593 Seminar (1 c.h.)) that will be evaluated by cognizant GPNS faculty members. A written research thesis or internship report will be publically presented and defended by students to demonstrate proficiency in their area of study and these will be evaluated by the student’s Graduate Advisory Committee. Students will collaborate with faculty to present the results of their thesis research or internship project within the greater Southern Colorado region, give seminars/posters on campus or at appropriate scientific meetings, publish the results of their research in peer reviewed scientific journals, or disseminate information through other appropriate mediums.

Biochemistry 3+2 Plan, Joint Bachelor of Science/Master of Science

A feature of the Biochemistry MS program is the 3+2 plan. This plan gives qualified undergraduate students the opportunity to simultaneously pursue both the Baccalaureate (BS) and Master of Science (MS) degrees. Talented students are thus quickly moved toward expanding their academic and scientific horizons based on individual student’s abilities and motivation.

Students in the 3+2 program are expected to successfully complete the requirements for both the BS and MS degree in five academic years. This is shorter than the typical six years that are necessary to complete BS and MS programs independently. Students must apply to the 3+2 program during the Spring semester of their junior year or the Fall semester of their senior year and meet the course requirements listed below. Students applying to the 3+2 program must have a minimum 3.0 overall GPA and a minimum 3.25 GPA in their chemistry and biology courses.

The application file for admission to the Biochemistry MS 3+2 plan must include:

1. A completed Biochemistry MS application form;
2. A CSU-Pueblo Transcript;
3. Three letters of recommendation from CSU-Pueblo faculty; and
4. Combined GRE scores above 300 (students may be admitted into the 3+2 program before taking the GRE; however, they must submit satisfactory GRE scores by the last day of finals at the end of their first semester in the 3+2 Biochemistry MS program to remain in the program).

Biochemistry 3+2 Plan (BS/MS)

One unique feature of our Biochemistry MS program is the 3+2 plan, which is designed to give the opportunity to qualified advanced-level undergraduate students to simultaneously pursue both the Baccalaureate (BS) and Master of Science (MS) degrees. Talented students are thus quickly moved toward expanding their academic and scientific horizons based on individual student’s abilities and motivation.

Specific requirements for the 3+2 program are included in the Biochemistry MS description of the College of Science and Mathematics, undergraduate programs section of this catalog. Students are encouraged to enter the program as early as the fall of the junior year but not later than the fall of the senior year.

Prior to being admitted to the Biochemistry MS 3+2 plan, students must have completed or be in the process of taking the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 121 &amp; 121L</td>
<td>General Chemistry I and General Chemistry Lab I</td>
<td>5</td>
</tr>
<tr>
<td>CHEM 122 &amp; 122L</td>
<td>General Chemistry II and General Chemistry Lab II</td>
<td>5</td>
</tr>
<tr>
<td>CHEM 301 &amp; 301L</td>
<td>Organic Chemistry I and Organic Chemistry Lab I</td>
<td>5</td>
</tr>
<tr>
<td>CHEM 302 &amp; 302L</td>
<td>Organic Chemistry II and Organic Chemistry Lab II</td>
<td>5</td>
</tr>
<tr>
<td>BIOL 301 &amp; 301L</td>
<td>General Microbiology and General Microbiology Lab</td>
<td>5</td>
</tr>
<tr>
<td>BIOL 351</td>
<td>Molecular Biology and Genetics</td>
<td>2</td>
</tr>
<tr>
<td>MATH 224 or MATH 156</td>
<td>Calculus and Analytic Geometry II or Introduction to Statistics</td>
<td>5</td>
</tr>
<tr>
<td>Select one of the following:</td>
<td></td>
<td>4-5</td>
</tr>
<tr>
<td>PHYS 202 &amp; 202L</td>
<td>Principles Of Physics II and Principles Of Physics II Lab</td>
<td>4</td>
</tr>
<tr>
<td>PHYS 222 &amp; 222L</td>
<td>General Physics II and General Physics II Lab</td>
<td>5</td>
</tr>
</tbody>
</table>

All other requirements, including core courses, for the 3+2 plan are the same as for the regular Biochemistry MS program plan. Stacked courses taken by the 3+2 plan students as 400 level courses may be acceptable.
as electives to meet the minimum program course load requirements with the permission of the specific course instructor and Biochemistry MS Program Director. It is expected that students take any 400/500 level courses at the 500 level once they are enrolled in the 3+2 program plan.

Additional information about the Biochemistry MS program and its requirements is found in the Graduate Programs in Natural Sciences section listed in the Graduate Programs in Natural Sciences section listed in the Graduate Programs section of the catalog.

Chemistry 3+2 Plan, Joint Bachelor of Science/Master of Science

A feature of the Chemistry MS program is the 3+2 plan. This plan gives qualified undergraduate students the opportunity to simultaneously pursue both the Baccalaureate (BS) and Master of Science (MS) degrees. Talented students are thus quickly moved toward expanding their academic and scientific horizons based on individual student’s abilities and motivation.

Students in the 3+2 program are expected to successfully complete the requirements for both the BS and MS degree in five academic years. This is shorter than the typical six years that are necessary to complete BS and MS programs independently. Students must apply to the 3+2 program during the Spring semester of their junior year or the Fall semester of their senior year and meet the course requirements listed below. Students applying to the 3+2 program must have a minimum 3.0 overall GPA and a minimum 3.25 GPA in their chemistry courses.

The application file for admission to the Chemistry MS 3+2 plan must include:

1. A completed Chemistry MS application form;
2. A CSU-Pueblo Transcript;
3. Three letters of recommendation from CSU-Pueblo faculty; and
4. Combined GRE scores above 300 (students may be admitted into the 3+2 program before taking the GRE; however, they must submit satisfactory GRE scores by the last day of finals at the end of their first semester in the 3+2 Chemistry MS program to remain in the program).

Chemistry 3+2 Plan (BS/MS)

One unique feature of the Chemistry MS program is the 3+2 plan, which is designed to give the opportunity to qualified advanced-level undergraduate students to simultaneously pursue both the Baccalaureate (BS) and Master of Science (MS) degrees. Talented students are thus quickly moved toward expanding their academic and scientific horizons based on individual student’s abilities and motivation. Students are encouraged to enter the program as early as the fall of the junior year but not later than the fall of the senior year.

Specific requirements for the 3+2 program are included in the Chemistry MS description of the College of Science and Mathematics, undergraduate programs section of this catalog. Students must meet the requirements of both degrees.

Prior to being admitted to the Chemistry MS 3+2 plan, students must have completed or be in the process of taking the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 121 &amp; 121L</td>

</tr>
</tbody>
</table>

Select one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 221 &amp; 221L</td>
<td>General Physics I and General Physics I Lab</td>
<td>5</td>
</tr>
<tr>
<td>PHYS 222 &amp; 222L</td>
<td>General Physics II and General Physics II Lab</td>
<td>5</td>
</tr>
<tr>
<td>MATH 224</td>
<td>Calculus and Analytic Geometry II</td>
<td>5</td>
</tr>
</tbody>
</table>

All other requirements, including core courses, for the 3+2 plan are the same as for the regular Chemistry MS program plan. Stacked courses taken by the 3+2 plan students as 400 level courses may be acceptable as electives to meet the minimum program course load requirements with the permission of the specific course instructor and Chemistry MS Program Director. It is expected that students take any 400/500 level courses at the 500 level once they are enrolled in the 3+2 program plan. Students admitted under the 3+2 plan may chose either the thesis or non-thesis (internship) program option.

Additional information about the Chemistry MS program and its requirements is found in the Graduate Programs in Natural Sciences section listed in the Graduate Programs section of the catalog.

Chemistry, Bachelor of Science: ACS Certified Emphasis

General Requirements

- Students majoring or minoring in chemistry are required to have a cumulative GPA of 2.00 or better in their chemistry courses. In addition, students majoring or minoring in chemistry must receive a grade of “C” or better in all core chemistry courses. Students minoring in chemistry are required to earn a grade of “C” or better in all of the chemistry courses applying to the minor.
- Proficiency in physics, math and computer science is essential for understanding and applying chemical principles; therefore, graduates must complete approved math and physics courses with an overall GPA of 2.00 or better.
- Transfer students are required to earn a minimum of 20 semester credit hours in approved chemistry courses from CSU-Pueblo for graduation with a BS degree in chemistry. Transfer students wishing to minor in chemistry must earn a minimum of 10 of the 20 credit hours required at CSU-Pueblo.
- Students will be required to take an exit examination during the senior year, covering the undergraduate chemistry curriculum.

Specific Requirements

The following common core is required for all of the chemistry emphasis areas for the Bachelor of Science Degree:
ACS Certified Emphasis

**Institutional and General Education**

Please refer to the General Education Requirements in the Academic Policies section of this catalog or refer to your individual department’s curriculum sheet.

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

### Program Goals

- To prepare graduates in the discipline of chemistry to become productive members of the profession whether they go on to industry, post-graduate education or other areas.
- To prepare students in the verbal, written and quantitative skills that are prerequisites to advanced study or careers in chemistry.
- To prepare students in the theoretical principals of chemistry as well as in the laboratory approach to problem solving.
- To maintain approval of the chemistry curriculum as defined by the American Chemical Society, Committee on Professional Training.
- To provide the opportunity for a variety of educational programs through the following:
  a. Basic Chemistry
  b. ACS Certified Curriculum
  c. Biochemistry
  d. Environmental Chemistry
  e. Chemistry/Teacher Certification
  f. Double Major
  g. Chemistry Minor

### Expected Student Outcomes

Chemistry graduates are expected to:

- Understand the concept of and be able to apply the scientific method to problem solution;
- Understand classifications of chemical compounds, general reaction types and quantitative aspects of stoichiometry as applied to chemical reactions;
- Apply basic knowledge of related fields such as mathematics and physics to problem solving, methods of analysis and use of numerical data in the chemical sciences;
- Demonstrate a knowledge of basic laboratory skills, methods and equipment used in chemistry for observation and analysis of chemical systems;
- Read, think and write critically and review current literature in the chemical sciences; and
- Exhibit a comprehensive knowledge of the fundamental theories, concepts and skills necessary in the chemical sciences.

### Outcomes Assessment Activities

- Assessment of chemistry majors occurs through examination of GPA in required courses. Majors are required to maintain a 2.000 GPA in major and minor courses as well as in other required courses.
- Students are required to complete American Chemical Society national standard exams when given during the course of the chemistry degree curriculum. Scores are compared to national averages to determine if students exhibit a comprehensive knowledge of the fundamental theories and concepts necessary in the chemical sciences disciplinary areas.
- Students are required to take an exit examination during the senior year. The ETS Major Field Achievement Test (MFAT) covers the undergraduate chemistry curriculum. Scores are compared to national averages to determine if students exhibit a comprehensive...
knowledge of the fundamental theories and concepts necessary in the chemical sciences overall.

Chemistry, Bachelor of Science: Basic Chemistry Emphasis

General Requirements

- Students majoring or minoring in chemistry are required to have a cumulative GPA of 2.000 or better in their chemistry courses. In addition, students majoring or minoring in chemistry must receive a grade of "C" or better in all core chemistry courses. Students minoring in chemistry are required to earn a grade of "C" or better in all of the chemistry courses applying to the minor.
- Proficiency in physics, math and computer science is essential for understanding and applying chemical principles; therefore, graduates must complete approved math and physics courses with an overall GPA of 2.000 or better.
- Transfer students are required to earn a minimum of 20 semester credit hours in approved chemistry courses from CSU-Pueblo for graduation with a BS degree in chemistry. Transfer students wishing to minor in chemistry must earn a minimum of 10 of the 20 credit hours required at CSU-Pueblo.
- Students will be required to take an exit examination during the senior year, covering the undergraduate chemistry curriculum.

Chemistry, Bachelor of Science: Biochemistry Emphasis

General Requirements

- Students majoring or minoring in chemistry are required to have a cumulative GPA of 2.000 or better in their chemistry courses. In addition, students majoring or minoring in chemistry must receive a grade of "C" or better in all core chemistry courses. Students minoring in chemistry are required to earn a grade of "C" or better in all of the chemistry courses applying to the minor.
- Proficiency in physics, math and computer science is essential for understanding and applying chemical principles; therefore, graduates must complete approved math and physics courses with an overall GPA of 2.000 or better.
- Transfer students are required to earn a minimum of 20 semester credit hours in approved chemistry courses from CSU-Pueblo for graduation with a BS degree in chemistry. Transfer students wishing to minor in chemistry must earn a minimum of 10 of the 20 credit hours required at CSU-Pueblo.
- Students will be required to take an exit examination during the senior year, covering the undergraduate chemistry curriculum.

Specific Requirements

The following common core is required for all of the chemistry emphasis areas for the Bachelor of Science Degree:

<table>

</table>

All emphasis areas for the chemistry major also require completion of the following institutional and general education requirements.

Institutional and General Education

Please refer to the General Education Requirements in the Academic Policies section of this catalog or refer to your individual department’s curriculum sheet.

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Expected Student Outcomes

Chemistry graduates are expected to:

- Understand the concept of and be able to apply the scientific method to problem solution;
- Understand classifications of chemical compounds, general reaction types and quantitative aspects of stoichiometry as applied to chemical reactions;
- Apply basic knowledge of related fields such as mathematics and physics to problem solving, methods of analysis and use of numerical data in the chemical sciences;
- Demonstrate a knowledge of basic laboratory skills, methods and equipment used in chemistry for observation and analysis of chemical systems;
- Read, think and write critically and review current literature in the chemical sciences; and
- Exhibit a comprehensive knowledge of the fundamental theories, concepts and skills necessary in the chemical sciences.

Outcomes Assessment Activities

- Assessment of chemistry majors occurs through examination of GPA in required courses. Majors are required to maintain a 2.000 GPA in major and minor courses as well as in other required courses.
- Students are required to complete American Chemical Society national standard exams when given during the course of the chemistry degree curriculum. Scores are compared to national averages to determine if students exhibit a comprehensive knowledge of the fundamental theories and concepts necessary in the chemical sciences disciplinary areas.
- Students are required to take an exit examination during the senior year. The ETS Major Field Achievement Test (MFAT) covers the undergraduate chemistry curriculum. Scores are compared to national averages to determine if students exhibit a comprehensive knowledge of the fundamental theories and concepts necessary in the chemical sciences overall.

Chemistry, Bachelor of Science: Double Major Emphasis

General Requirements

- Students majoring or minoring in chemistry are required to have a cumulative GPA of 2.000 or better in their chemistry courses. In addition, students majoring or minorining in chemistry must receive a grade of "C" of better in all core chemistry courses. Students majoring in chemistry are required to earn a grade of "C" or better in all of the chemistry courses applying to the minor.
- Proficiency in physics, math and computer science is essential for understanding and applying chemical principles; therefore, graduates must complete approved math and physics courses with an overall GPA of 2.000 or better.
- Transfer students are required to earn a minimum of 20 semester credit hours in approved chemistry courses from CSU-Pueblo for graduation with a BS degree in chemistry. Transfer students wishing to minor in chemistry must earn a minimum of 10 of the 20 credit hours required at CSU-Pueblo.
- Students will be required to take an exit examination during the senior year, covering the undergraduate chemistry curriculum.

Total Credits 123-125

Program Goals

• To prepare graduates in the discipline of chemistry to become productive members of the profession whether they go on to industry, post-graduate education or other areas.
• To prepare students in the verbal, written and quantitative skills that are prerequisites to advanced study or careers in chemistry.

• To prepare students in the theoretical principals of chemistry as well as in the laboratory approach to problem solving.
• To maintain approval of the chemistry curriculum as defined by the American Chemical Society, Committee on Professional Training.
• To provide the opportunity for a variety of educational programs through the following:
  a. Basic Chemistry
  b. ACS Certified Curriculum
  c. Biochemistry
  d. Environmental Chemistry
  e. Chemistry/Teacher Certification
  f. Double Major
  g. Chemistry Minor

Expected Student Outcomes
Chemistry graduates are expected to:

• Understand the concept of and be able to apply the scientific method to problem solution;
• Understand classifications of chemical compounds, general reaction types and quantitative aspects of stoichiometry as applied to chemical reactions;
• Apply basic knowledge of related fields such as mathematics and physics to problem solving, methods of analysis and use of numerical data in the chemical sciences;
• Demonstrate a knowledge of basic laboratory skills, methods and equipment used in chemistry for observation and analysis of chemical systems;
• Read, think and write critically and review current literature in the chemical sciences; and
• Exhibit a comprehensive knowledge of the fundamental theories, concepts and skills necessary in the chemical sciences.

Outcomes Assessment Activities

• Assessment of chemistry majors occurs through examination of GPA in required courses. Majors are required to maintain a 2.000 GPA in major and minor courses as well as in other required courses.
• Students are required to complete American Chemical Society national standard exams when given during the course of the chemistry degree curriculum. Scores are compared to national averages to determine if students exhibit a comprehensive knowledge of the fundamental theories and concepts necessary in the chemical sciences disciplinary areas.
• Students are required to take an exit examination during the senior year. The ETS Major Field Achievement Test (MFAT) covers the undergraduate chemistry curriculum. Scores are compared to national averages to determine if students exhibit a comprehensive knowledge of the fundamental theories and concepts necessary in the chemical sciences overall.

Chemistry, Bachelor of Science: Environmental Chemistry Emphasis

General Requirements

• Students majoring or minoring in chemistry are required to have a cumulative GPA of 2.000 or better in their chemistry courses. In addition, students majoring or minoring in chemistry must receive
a grade of “C” or better in all core chemistry courses. Students minoring in chemistry are required to earn a grade of “C” or better in all of the chemistry courses applying to the minor.

• Proficiency in physics, math and computer science is essential for understanding and applying chemical principles; therefore, graduates must complete approved math and physics courses with an overall GPA of 2.00 or better.

• Transfer students are required to earn a minimum of 20 semester credit hours in approved chemistry courses from CSU-Pueblo for graduation with a BS degree in chemistry. Transfer students wishing to minor in chemistry must earn a minimum of 10 of the 20 credit hours required at CSU-Pueblo.

• Students will be required to take an exit examination during the senior year, covering the undergraduate chemistry curriculum.

Mathematics and Physics Department

Department Chair: Paul Chacon
Faculty: Brown, Funk-Neubauer, Grollimund, Hurst, Kreminski, Louisell, Lundberg, Nichols, Poritz, W Kulati Arthanayakam, Zizza

Lecturers: Bremer, Hurley, Pickering, Sargeant, Spangler, Watkins

Mathematics Program
The program’s mission is to foster students’ development in quantitative and analytical reasoning skills, powerful mathematical problem-solving strategies, effective techniques for the communication of results and the capacity for lifelong independent learning. The major in mathematics leads to either a Bachelor of Arts (BA) or a Bachelor of Science (BS) degree. The program’s flexible curriculum prepares students for diverse professional careers and for graduate studies. Faculty advisers work directly with majors and minors to design individual programs of study. Students who are potential majors or minors should consult with a faculty adviser as early as possible. Appointments with a faculty adviser can be made anytime by calling the department office.

Co-Curricular Requirements
Students have the opportunity to broaden and reinforce the academic experience through participation in a variety of co-curricular activities. All students are encouraged to join the CSU-Pueblo Math Club. Many students serve as tutors in the Math Learning Center.

Physics/Physical Science Program
The major in physics leads to a Bachelor of Science (BS) Degree. In addition, supporting courses and general education courses in physics and astronomy are available for students with a wide spectrum of interests, backgrounds and needs. Physics majors must consult with a program adviser as early as possible and must file a departmentally approved plan of study by the beginning of the junior year. A degree plan may be designed based on the student's interests through consultation with the advisor and the department chair.

The Bachelor of Science Degree in physics is offered with several emphasis areas:

For the Physics emphasis the recommended sequences of courses presume that the student is ready to begin MATH 126 Calculus and Analytic Geometry I (5 c.h.) in the first term of the freshman year. If not, MATH 124 Pre-calculus Math (5 c.h.) should be taken in the fall and MATH 126 Calculus and Analytic Geometry I (5 c.h.) in the spring of the freshman year concurrently with PHYS 221 General Physics I (4 c.h.). Otherwise it may not be possible to complete the requirements for a physics degree within four years. Students, especially transfers, who do not strictly adhere to the plan of study, may find that the term of attendance at CSU-Pueblo will be extended beyond four years.

Physics Secondary Certification Emphasis
This emphasis provides students with the knowledge and skills necessary to obtain Colorado Department of Education certification as science teachers with an emphasis in physics.

Students completing a major in Physics with an emphasis in Secondary Certification are required to complete a minor in education and meet all other requirements outlined by the Teacher Education Program.

Physical Science Secondary Certification Emphasis
This emphasis provides students with the knowledge and skills necessary to obtain Colorado Department of Education certification as science teachers with an emphasis in physics and chemistry.

Students completing a major in Physics with an emphasis in Secondary Certification are required to complete a minor in education and meet all other requirements outlined by the Teacher Education Program.

Double Majors
A Math and Physics double major is also available. See Math Program for details.

A double major with Chemistry, Biology, or Engineering, for example, is possible. Please consult your advisor and the department chair.

Minors
A minor is available in physics, and is an especially attractive addition to majors in chemistry, engineering or mathematics. See the course requirements below.

Co-Curricular Requirements
The program faculty believes that students should have co-curricular experiences that complement and reinforce their academic experiences. Therefore, the faculty encourages students to join and participate in events sponsored by the department and the Society of Physics Students (SPS), Sigma Pi Sigma initiations, physics expositions, picnics, graduation dinners, potluck dinners, etc. to foster a spirit of camaraderie.

• Computational Mathematics, Minor (p. 307)
• Math/Physics Double Major (p. 302)
• Mathematics, Bachelor of Art (p. 298)
• Mathematics, Bachelor of Art: Secondary Certification Emphasis (p. 300)
• Mathematics, Bachelor of Science (p. 299)
• Mathematics, Minor (p. 307)
• Physics, Bachelor of Science: Physical Science Secondary Certification Emphasis (p. 303)
• Physics, Bachelor of Science: Physics Emphasis (p. 302)
• Physics, Bachelor of Science: Physics Secondary Certification Emphasis (p. 305)
• Physics, Minor (p. 307)

Mathematics, Bachelor of Art
General Requirements

• All mathematics majors must complete the mathematics core curriculum: MATH 126 Calculus and Analytic Geometry I (5 c.h.), MATH 224 Calculus and Analytic Geometry II (5 c.h.), MATH 307 Introduction to Linear Algebra (4 c.h.), MATH 325 Intermediate Calculus (4 c.h.), MATH 350 Probability (3 c.h.), MATH 421 Introduction to Analysis (4 c.h.), and MATH 427 Abstract Algebra (4 c.h.). Majors are expected to complete core courses numbered above MATH 325 Intermediate Calculus (4 c.h.) at CSU-Pueblo.
• All majors must complete a physics course numbered 200 or above.
• Mathematics majors and minors must complete the mathematics courses in their program with grades of C or better.
• MATH 337 Differential Equations I (3 c.h.) is a required elective for all mathematics majors not pursuing secondary education endorsement.

• All majors are required to complete an approved two-term sequence in a laboratory science (CHEM 121 General Chemistry I (4 c.h.)/CHEM 121L General Chemistry Lab I (1 c.h.) and CHEM 122 General Chemistry II (4 c.h.)/CHEM 122L General Chemistry Lab II (1 c.h.), or PHYS 221 General Physics I (4 c.h.)/PHYS 221L General Physics I Lab (1 c.h.) and PHYS 222 General Physics II (4 c.h.)/PHYS 222L General Physics II Lab (1 c.h.)).

• Mathematics majors must demonstrate proficiency in “an approved” computer language. It is strongly recommended that students complete this requirement within the first 60 credit hours.

Institutional and General Education
Please refer to the General Education Requirements in the Academic Policies section of this catalog or refer to the individual department’s curriculum sheet.

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Other Requirements

Select 10 credits in a Laboratory Science Sequence | 10
Select 4 credits in Computer Programming              | 4

General Education

General Education credits | 24

Electives

Select 41 credits | 41

Total Credits | 120

1 Excluding MATH 360 Elementary Mathematics Concepts I (3 c.h.), MATH 361 Elementary Mathematics Concepts II (3 c.h.), MATH 477 Methods for Teaching Secondary Math (4 c.h.).

Program Goals

• Educate students to effectively use quantitative and analytical methods and the language of mathematics.

• Prepare students for professional careers and graduate studies in areas requiring advanced analytical skills, including actuarial science, computer science, engineering, operations research, biomathematics, cryptography, finance, pure and applied mathematics and teaching.

• Promote a scholarly attitude of mind that enables students to effectively use mathematics with the ability to think critically, synthesize their knowledge and move to higher levels of independent thinking.

Expected Student Outcomes

Upon successful completion of the mathematics major, students will:

• Learn, understand and apply mathematics from the core mathematical disciplines of calculus, abstract algebra, analysis, modeling, differential equations, geometry, probability, and statistics.

• Formulate and solve problems using mathematical tools, while working alone or in groups on routine problems, non-routine and open-ended problems, problems involving applications to other fields, problems involving real-world data, and abstract problems within mathematics.

• Create, analyze and apply mathematical abstraction to real problems by understanding and producing formal mathematical arguments with an appreciation for the mathematical standards of rigor, elegance, and beauty.

• Learn independently, locate and use appropriate sources of technical material, and make use of modern computational tools.

• Produce convincing, precise verbal and written communications of technical material.

Outcomes Assessment Activities

• Faculty advisers meet individually with students on a regular basis to help with schedule planning and to discuss the student’s progress toward educational and career goals. Advisers maintain a record of each student’s performance in his/her program of study.

• During the senior year, each major takes the Mathematics Field Achievement Test. This test measures a student’s achievement level in comparison with students throughout the country.

Mathematics, Bachelor of Science

General Requirements

• All mathematics majors must complete the mathematics core curriculum: MATH 126 Calculus and Analytic Geometry I (5 c.h.), MATH 224 Calculus and Analytic Geometry II (5 c.h.), MATH 307 Introduction to Linear Algebra (4 c.h.), MATH 325 Intermediate Calculus (4 c.h.), MATH 350 Probability (3 c.h.), MATH 421 Introduction to Analysis (4 c.h.), and MATH 427 Abstract Algebra (4 c.h.). Majors are expected to complete core courses numbered above MATH 325 Intermediate Calculus (4 c.h.) at CSU-Pueblo.

• All majors must complete a physics course numbered 200 or above.

• Mathematics majors and minors must complete the mathematics courses in their program with grades of C or better.

• MATH 337 Differential Equations I (3 c.h.) is a required elective for all mathematics majors not pursuing secondary education endorsement.

• All majors are required to complete an approved two-term sequence in a laboratory science (CHEM 121 General Chemistry I (4 c.h.)/CHEM 121L General Chemistry Lab I (1 c.h.) and CHEM 122 General Chemistry II (4 c.h.)/CHEM 122L General Chemistry Lab (1 c.h.)).
II (1 c.h.), or PHYS 221 General Physics I (4 c.h.)/PHYS 221L General Physics I Lab (1 c.h.) and PHYS 222 General Physics II (4 c.h.)/PHYS 222L General Physics II Lab (1 c.h.).

- Mathematics majors must demonstrate proficiency in "an approved" computer language. It is strongly recommended that students complete this requirement within the first 60 credit hours.

Minimum credits to graduate                               120

General Education

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Physics, Bachelor of Science: Physics Emphasis

General Requirements

- Students graduating with a BS in physics must have at least a 2.000 grade-point average in physics courses and no more than four credits in physics with grades of D.
- Students graduating with a minor in physics must have at least a 2.000 grade-point average in physics.
- A 2.500 grade-point average in the major area is required for admission to the teacher education program.
- At least 12 physics credits applied to the major (seven for minor) must be earned at CSU-Pueblo with a C or better average.
- Students must have earned a C or better grade in lower-division prerequisite courses before being admitted to upper-division courses in physics.
- In all but the teaching emphasis areas, students must demonstrate knowledge of computer programming.
- In all but the teaching emphasis areas, majors are required to take the senior research course, in which students become involved in a theoretical or experimental research problem relating to physics under the supervision of a department faculty member.
- A fundamental understanding of chemistry and its lab techniques is required of all majors.

Institutional and General Education

Please refer to the General Education Requirements in the Academic Policies section of this catalog or refer to your individual department’s curriculum sheet.

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

</tbody>
</table>
Expected Student Outcomes

Upon successful completion of the physics major, students will be able to:

- Think critically and logically and use the scientific method in their future investigations.
- Understand and apply knowledge of various subfields of physics at the undergraduate level and make a successful transition to technical fields, including engineering, teaching, business, and graduate studies.
- Effectively communicate their results orally and in writing.
- Learn independently, locate and use appropriate sources of technical material and make use of modern scientific and computational tools.

Outcomes Assessment Activities

The Physics Program faculty will assess the skills, capacities, and knowledge of its majors as follows:

- The student must complete a senior research project including a formal presentation of results both in writing and orally to at least two members of the physics faculty (except for those in the teaching emphasis areas).
- The student must take the Physics Major Field Achievement Test offered by The Educational Testing Services (ETS) or another departmentally approved exam covering the sub-fields in physics at some point during his/her senior year (except for those in the teaching emphasis areas).
- By maintaining a portfolio for each student which contains college grades, records of special skills acquired, senior research project results, Field Achievement Test results and a record of co-curricular activities. The portfolio will remain on file in the department and will be added to as additional information is obtained from student or employer.

The program faculty believes that improvement in the skills, capacities, and knowledge of its minors can be assessed through required course work. The course grade will be a measure of the student’s grasp of the basics in each discipline.

Physics, Bachelor of Science: Physical Science Secondary Certification Emphasis

General Requirements

- Students graduating with a BS in physics must have at least a 2.000 grade-point average in physics courses and no more than four credits in physics with grades of D.
- Students graduating with a minor in physics must have at least a 2.000 grade-point average in physics.
- A 2.500 grade-point average in the major area is required for admission to the teacher education program.
- At least 12 physics credits applied to the major (seven for minor) must be earned at CSU-Pueblo with a C or better average.
- Students must have earned a C or better grade in lower-division prerequisite courses before being admitted to upper-division courses in physics.
- In all but the teaching emphasis areas, students must demonstrate knowledge of computer programming.
- In all but the teaching emphasis areas, majors are required to take the senior research course, in which students become involved in a theoretical or experimental research problem relating to physics under the supervision of a department faculty member.
- A fundamental understanding of chemistry and its lab techniques is required of all majors.

Institutional and General Education

Please refer to the General Education Requirements in the Academic Policies section of this catalog or refer to your individual department’s curriculum sheet.

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

### Total Credits

37-40

---

1 Music students may take PSYCH 151 Human Development (3 c.h.) or PSYCH 251 Childhood and Adolescence (3 c.h.).
Expected Student Outcomes

Upon successful completion of the physics major, students will be able to:

- Think critically and logically and use the scientific method in their future investigations.
- Understand and apply knowledge of various subfields of physics at the undergraduate level and make a successful transition to technical fields, including engineering, teaching, business, and graduate studies.
- Effectively communicate their results orally and in writing.
- Learn independently, locate and use appropriate sources of technical material and make use of modern scientific and computational tools.

Outcomes Assessment Activities

The Physics Program faculty will assess the skills, capacities, and knowledge of its majors as follows:

- The student must complete a senior research project including a formal presentation of results both in writing and orally to at least two members of the physics faculty (except for those in the teaching emphasis areas).
- The student must take the Physics Major Field Achievement Test offered by The Educational Testing Services (ETS) or another departmentally approved exam covering the sub-fields in physics at some point during his/her senior year (except for those in the teaching emphasis areas).
- By maintaining a portfolio for each student which contains college grades, records of special skills acquired, senior research project results, Field Achievement Test results and a record of co-curricular activities. The portfolio will remain on file in the department and will be added to as additional information is obtained from student or employer.

The program faculty believes that improvement in the skills, capacities, and knowledge of its minors can be assessed through required course work. The course grade will be a measure of the student’s grasp of the basics in each discipline.

Physics, Bachelor of Science: Physics Secondary Certification Emphasis

General Requirements

- Students graduating with a minor in physics must have at least a 2.000 grade-point average in physics.
- A 2.500 grade-point average in the major area is required for admission to the teacher education program.
- At least 12 physics credits applied to the major (seven for minor) must be earned at CSU-Pueblo with a C or better average.
- Students must have earned a C or better grade in lower-division prerequisite courses before being admitted to upper-division courses in physics.
- In all but the teaching emphasis areas, students must demonstrate knowledge of computer programming.
- In all but the teaching emphasis areas, majors are required to take the senior research course, in which students become involved in a theoretical or experimental research problem relating to physics under the supervision of a department faculty member.
- A fundamental understanding of chemistry and its lab techniques is required of all majors.

Institutional and General Education

Please refer to the General Education Requirements in the Academic Policies section of this catalog or refer to your individual department’s curriculum sheet.

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Select one of the following:

- PSYCH 151 Human Development 3 credits
- PSYCH 251 Childhood and Adolescence 3 credits
- PSYCH 342 Educational Psychology 3 credits
- ED 202 Foundations of Education 3 credits
- ED 280 Educational Media and Technology 3 credits
- ED 301 Frameworks of Teaching (Admission to Education is completed in this course) 4 credits
- RDG 435 Content Area Literacy 4 credits
- ED 412 Teaching Diverse Learners 3 credits
- ED 485 Capstone Seminar in Education 1 credit
- ED 488 Student Teaching Secondary 12 credits
- or ED 489 Student Teaching K-12 1 credit

Total Credits 37-40

1. Music students may take PSYCH 151 Human Development (3 c.h.) or PSYCH 251 Childhood and Adolescence (3 c.h.).
2. Education students must complete MUS 103 Music and Computer Technology I (1 c.h.) and MUS 306 Technology for Music Educators (2 c.h.) for ED 280 Educational Media and Technology (3 c.h.).
3. English/Language Arts student must also complete RDG 410 Teaching Reading (3 c.h.).
4. Physical Education students may complete EXHP 465 Adapted Physical Education (3 c.h.) or ED 412 Teaching Diverse Learners (3 c.h.).
5. GPA of 2.6 required

Expected Student Outcomes

Upon successful completion of the physics major, students will be able to:

- Think critically and logically and use the scientific method in their future investigations.
- Understand and apply knowledge of various subfields of physics at the undergraduate level and make a successful transition to technical fields, including engineering, teaching, business, and graduate studies.
- Effectively communicate their results orally and in writing.
- Learn independently, locate and use appropriate sources of technical material and make use of modern scientific and computational tools.

Outcomes Assessment Activities

The Physics Program faculty will assess the skills, capacities, and knowledge of its majors as follows:

- The student must complete a senior research project including a formal presentation of results both in writing and orally to at least two members of the physics faculty (except for those in the teaching emphasis areas).
- The student must take the Physics Major Field Achievement Test offered by The Educational Testing Services (ETS) or another departmentally approved exam covering the sub-fields in physics
at some point during his/her senior year (except for those in the teaching emphasis areas).

- By maintaining a portfolio for each student which contains college grades, records of special skills acquired, senior research project results, Field Achievement Test results and a record of co-curricular activities. The portfolio will remain on file in the department and will be added to as additional information is obtained from student or employer.

The program faculty believes that improvement in the skills, capacities, and knowledge of its minors can be assessed through required course work. The course grade will be a measure of the student’s grasp of the basics in each discipline.

1. Two of these must be taken at CSU-Pueblo.
2. Excluding MATH 360 Elementary Mathematics Concepts I (3 c.h.), MATH 361 Elementary Mathematics Concepts II (3 c.h.), MATH 362 Problem Solving for K-6 Teachers (3 c.h.) & MATH 477 Methods for Teaching Secondary Math (4 c.h.).
THE HASAN SCHOOL OF BUSINESS

Dr. Bruce C. Raymond, Dean

Faculty: Ahmadian, Brennan, Cho, Choi, Correa-Martinez, Duncan, Fowler, Gilbreath, Goss, Hassan, Holman, Huang, Huff, Kwon, Long, Mejias, Radigan, Shah, Wakefield, Whited, Wright

Lecturers: Martinez, Wink

Accreditation

The business majors (BSBA) of the Hasan School of Business are accredited by AACSB International – The Association to Advance Collegiate Schools of Business. AACSB is a not-for-profit corporation of educational institutions, corporations and other organizations devoted to the promotion and improvement of higher education in business administration and management. Organized in 1916, AACSB International is the premier accrediting agency for bachelor’s, master’s and doctoral degree programs in business administration and accounting.

Mission

The mission of the Hasan School of Business at Colorado State University-Pueblo is to provide quality undergraduate and graduate business education for a diverse student population through our strong professional focus on contemporary business practices. Our educational programs prepare our students to assume team member and leadership roles in business by:

- Developing their skills in communication and critical thinking, and
- Instilling in them awareness of the global economy and ethical behavior.

The intellectual pursuits of our faculty focus primarily on applied scholarship and instructional development. Our outreach activities – developed in partnership with the community – serve to enhance the quality of life and economic well-being in southeastern Colorado.

Learning Outcomes Assessment

The Hasan School of Business is committed to continuous improvement through a rigorous assessment program focused on measuring learning outcomes and implementing measures to enhance students’ chances of success. Within each individual course, faculty members utilize a variety of assessment techniques, including: student presentations, projects, peer evaluations, examinations, and student surveys.

Undergraduate Majors

The Hasan School of Business offers undergraduate majors in accounting, business management, computer information systems, and economics. There are a variety of emphasis areas associated with the above majors (see Page 220). Graduates will be able to successfully compete for appropriate entry-level positions in private firms, nonprofit organizations or government. The accounting major prepares graduates for professional careers in accounting. The knowledge and skills acquired in the business management major can be used in a number of areas including human resource and operations management. The business management major with an emphasis in agribusiness prepares graduates to succeed in the specialized area of business and agriculture. The business management major with an emphasis in marketing prepares the graduate to successfully promote and sell goods and services. The business management major with an emphasis in sports industry management is a collaborative curricular effort with the Exercise Science and Health Promotion Department. Students seeking this major will have specialized managerial skills in the sports management and outdoor recreation industry. The business management major with an emphasis in organization risk and security management is a collaborative effort with Political Science Department. Students seeking this major will have specialized management skills in crisis and disaster management. The Computer Information Systems major prepares graduates for successful careers in the information technology (IT) fields. The CIS major with a cyber security emphasis prepares students for risk assessment and security design. The CIS major with a data analytics emphasis prepares students to store, manage, and analyze business data. The CIS major with a software development emphasis prepares students for software analysis, design, and implementation. Economics and Economics with a Finance emphasis majors are particularly well prepared to enter graduate programs in business, in addition to assuming entry-level positions in business firms, nonprofit organizations or government, as well as, positions in banking, financial analysis, and related financial services industries.

NOTE: Students planning to take professional certification exams in any field are encouraged to consult with their faculty adviser to understand any additional requirements.

Co-Curricular Opportunities

Co-curricular activities are encouraged for all Hasan School of Business students. Included are internships, student clubs, and seminar programs. A current list of clubs is available in the Hasan School of Business or on the CSU-Pueblo web site.

Advising

All pre-business students, business majors, and CIS majors are advised in the Hasan School of Business. Students are required to meet with an HSB adviser each term to plan their course schedules for the upcoming term. In addition, consulting with an adviser is necessary in declaring a business major, applying for an internship and filing a graduation planning sheet.

- Accounting, Bachelor of Science in Business Administration (p. 317)

- Business Administration, Master of Business Administration: Healthcare Administration Emphasis (p. 312)
All MBA students are required to take the Graduate Management Admissions Test (GMAT). An admission formula of 200 times the undergraduate GPA (4.000 system) plus the GMAT score will constitute a scaled admission score for each applicant. Students will be required to have at least a 1000 score on the admission formula and at least 400 on the GMAT examination. Students can alternately choose to take the GRE in lieu of the GMAT. The minimum score on the GRE is a 150 in Verbal Reasoning and a 150 in the Quantitative Reasoning Score. If undergraduate GPA is less than a 3.0, a higher score will be required for full admission to the MBA program.

Options to satisfy GMAT requirement:

All MBA students are required to either take the Graduate Management Admissions Test (GMAT) or qualify to waive the GMAT requirement based on the options provided in the following sections.

**Option I:** Complete the GMAT with a minimum score of 400 and satisfy the qualification score of 1,000 calculated as 200 * Undergraduate cumulative GPA + GMAT score.

**Option II:** Take the GRE with a minimum GMAT score equivalent of 400 and a minimum undergraduate GPA of 3.0.

GMAT equivalent Score calculated as \[-2080.75 + (GRE Verbal * 6.38) + (GRE Quant * 10.62)\] must be at least 400.

Admissions Index Score calculated as GMAT equivalent score + 200 * Undergraduate cumulative GPA, must be equal to or greater than 1,000.

**Option III:** If you have earned a graduate degree (equivalent to a U.S. Master’s or PhD) from a regionally accredited institution with cumulative GPA of 3.0 higher.

If your degree is from outside of the U.S., you will have to provide an official evaluation from any approved evaluation company that proves your master’s is equivalent to a U.S. master’s degree from a regionally accredited institution.

OR

Current admission and enrollment in a graduate dual-degree program at select partner institutions, currently including MBA admission at Chungnam National University, Korea.

**Option IV:** Five (5) or more years of full-time substantive mid-level managerial work experience and/or military service with increasing levels of responsibility AND an undergraduate cumulative GPA of 3.0 or higher.

**Option V:** Ten (10) or more years of full-time substantive mid-level managerial work experience and/or military service with increasing levels of responsibility AND an undergraduate GPA of 2.75 or higher.

All petitioners will need to provide one letter of reference from a supervisor who can verify your work experience and increasing scope of responsibility.

GMAT writing score must be 4.5 or higher to waive BUSAD 510 Academic Writing for MBA Students (1 c.h.). GRE writing score must be a minimum of 3.5 to waive BUSAD 510 Academic Writing for MBA Students (1 c.h.).
MBA Standards

A student who earns two "C" or lower grades in graduate-level courses is placed on probation. If a third "C" or lower grade is earned, the student is automatically dismissed from the program.

The MBA degree will be conferred upon students who successfully complete a minimum of 36 hours of approved course work with a minimum GPA of 3.000. The curriculum includes the following 30 credits which are taken by all MBA students.

In addition, the following MBA courses must be completed:

Approved Graduate Electives 6

Total Credits 36

All graduate courses for the MBA are listed in the appropriate department sections of accounting (ACCTG), business administration (BUSAD), computer information systems (CIS), economics (ECON), finance (FIN), management (MGMT), and marketing (MKTG).

Independent Studies will not be substituted for core or required courses. They may count only as electives.

Dual Degree MBA-Chungnam National University

Colorado State University-Pueblo is planning to offer a Dual Degree MBA-Chungnam degree, subject to Higher Learning Commission approval anticipated in 2018-2019.

Students enrolled as MBA students at Chungnam National University (CNU) in South Korea may enroll in a dual degree MBA at Colorado State University-Pueblo.

ONLY admitted dual degree MBA students from CNU will be allowed to transfer 18 credits from CNU into the CSU-Pueblo MBA program to complete 36 credit hour requirement. This policy supersedes the existing 9 credit rule. This exclusion will only apply to students from Chungnam who are admitted into the dual degree program.

Admission requirements for the Chungnam Dual Degree MBA Program will be the same as the admission requirements for all CSU-Pueblo MBA students as listed in the catalog, beginning on Page 82.

Joint BSBA/MBA, BS-CIS/MBA, and BS-CM/MBA Programs

Specific requirements for the joint BSBA/MBA, BS-CIS/MBA and the BS-CM/MBA plans are included in the Hasan School of Business undergraduate programs section of this catalog.

Learning Outcomes Assessment

The Hasan School of Business is committed to continuous improvement through a rigorous assessment program focused on measuring learning outcomes and implementing measures to enhance students' chances of success. Within each individual course, faculty members utilize a variety of assessment techniques including student presentations, projects, peer evaluations, examinations, and student surveys.

Learning Goals for the MBA Program

The Hasan School of Business faculty works diligently to provide graduates with a high-quality education that prepares them for advancement in business. Our program prepares students through achievement of four primary learning goals.

1. Expression of Thoughts and Ideas
   • Our graduate students will be able to communicate effectively.

2. Decision Making and Problem Solving
   • Our graduate students will be able to analyze problems, identify relevant issues, and craft solutions.

3. Decision Making in a Global Business Environment
   • Our graduate students will be able to develop solutions for global business issues.

4. Ethical Analysis
   • Our graduate students will be able to evaluate ethical situations and offer appropriate recommendations.

Assurance of Learning

The use of direct measures of student performance in the Hasan School of Business provides a relevant set of performance data. Reviewed by faculty, discipline groups, the School's Assurance of Learning Committee, and administrators, results of these measures are used to make program improvements. In addition to course grades, direct measures of student performance in the Hasan School of Business include:

• The Educational Testing Service (ETS) Major Field Test in Business. This test, administered nationwide, assesses what students have learned primarily in courses common to all business majors. Results are compared with those of other business students enrolled at selected peer institutions, as well as nationally.

• Course-Embedded Measures. Exams, papers, presentations, and projects are course-embedded measures that can be used to assess student performance related to our MBA learning goals.

The Hasan School of Business compiles information to assess the success of MBA graduates. Information is obtained from the CSU-Pueblo Alumni Office, the Career Center, and other sources.

Business Administration, Master of Business Administration: Cybersecurity Emphasis
All MBA students are required to take the Graduate Management Admissions Test (GMAT). An admission formula of 200 times the undergraduate GPA (4.000 system) plus the GMAT score will constitute a scaled admission score for each applicant. Students will be required to have at least a 1000 score on the admission formula and at least 400 on the GMAT examination. Students can alternately choose to take the GRE in lieu of the GMAT. The minimum score on the GRE is a 150 in Verbal Reasoning and a 150 in the Quantitative Reasoning Score. If undergraduate GPA is less than a 3.0, a higher score will be required for full admission to the MBA program.

Options to satisfy GMAT requirement:

All MBA students are required to either take the Graduate Management Admissions Test (GMAT) or qualify to waive the GMAT requirement based on the options provided in the following sections.

Option I: Complete the GMAT with a minimum score of 400 and satisfy the qualification score of 1,000 calculated as 200 * Undergraduate cumulative GPA + GMAT score.

Option II: Take the GRE with a minimum GMAT score equivalent of 400 and a minimum undergraduate GPA of 3.0.

GMAT equivalent Score calculated as [-2080.75 + (GRE Verbal * 6.38) + (GRE Quant * 10.62)] must be at least 400.

Admissions Index Score calculated as GMAT equivalent score + 200 * Undergraduate cumulative GPA, must be equal to or greater than 1,000.

Option III: If you have earned a graduate degree (equivalent to a U.S. Master’s or PhD) from a regionally accredited institution with cumulative GPA of 3.0 higher.

If your degree is from outside of the U.S., you will have to provide an official evaluation from any approved evaluation company that proves your master’s is equivalent to a U.S. master’s degree from a regionally accredited institution.

OR

Current admission and enrollment in a graduate dual-degree program at select partner institutions, currently including MBA admission at Chungnam National University, Korea.

Option IV: Five (5) or more years of full-time substantive mid-level managerial work experience and/or military service with increasing levels of responsibility AND an undergraduate cumulative GPA of 3.0 or higher.

Option V: Ten (10) or more years of full-time substantive mid-level managerial work experience and/or military service with increasing levels of responsibility AND an undergraduate GPA of 2.75 or higher.

All petitioners will need to provide one letter of reference from a supervisor who can verify your work experience and increasing scope of responsibility.

GMAT writing score must be 4.5 or higher to waive BUSAD 510 ACADEMIC WRITING FOR MBA STUDENTS (1 c.h.). GRE writing score must be a minimum of 3.5 to waive BUSAD 510 ACADEMIC WRITING FOR MBA STUDENTS (1 c.h.).

MBA Standards

A student who earns two “C” or lower grades in graduate-level courses is placed on probation. If a third “C” or lower grade is earned, the student is automatically dismissed from the program.

The MBA degree will be conferred upon students who successfully complete a minimum of 36 hours of approved course work with a minimum GPA of 3.0. The curriculum includes the following 30 credits which are taken by all MBA students.

Business Administration 3+2 Program, Integrated Bachelor of Science in Business Administration/
Master of Business Administration

Admission Requirements
The BSBA/MBA program is unique. It allows qualified students to earn both a BSBA and an MBA concurrently.

Students are required to take the Graduate Management Admissions Test (GMAT). An admission index formula of 200 times the undergraduate GPA (4.000 system) plus the GMAT score is used as an admission score. The undergraduate GPA must be based on a minimum of 90 semester hours of course work including MGMT 201 Principles of Management (3 c.h.), FIN 330 Principles of Finance (3 c.h.), and MKTG 340 Principles of Marketing (3 c.h.). Students must have a minimum GPA of 3.5 and a GMAT of at least 450 (i.e., an index of 1150) to be admitted to the program. Students may also take the GRE and must receive a minimum of 152 on the Verbal Reasoning and a 152 on the Quantitative Reasoning to be admitted to the program.

Options to satisfy GMAT requirement:

All MBA students are required to either take the Graduate Management Admissions Test (GMAT) or qualify to waive the GMAT requirement based on the options provided in the following sections.

Option I: Complete the GMAT with a minimum score of 400 and satisfy the qualification score of 1,150 calculated as 200 * Undergraduate cumulative GPA + GMAT score.

Option II: Take the GRE with a minimum GMAT score equivalent of 400 and a minimum undergraduate GPA of 3.0.

GMAT equivalent Score calculated as [2080.75 + (GRE Verbal * 6.38) + (GRE Quant * 10.62)] must be at least 400.

Admissions Index Score calculated as GMAT equivalent score + 200 * Undergraduate cumulative GPA, must be equal to or greater than 1,150.

Option III: If you have earned a graduate degree (equivalent to a U.S. Master’s or PhD) from a regionally accredited institution with cumulative GPA of 3.0 higher.

If your degree is from outside of the U.S., you will have to provide an official evaluation from any approved evaluation company that proves your master’s is equivalent to a U.S. master's degree from a regionally accredited institution.

OR

Current admission and enrollment in a graduate dual-degree program at select partner institutions, currently including MBA admission at Chungnam National University, Korea.

Option IV: Five (5) or more years of full-time substantive mid-level managerial work experience and/or military service with increasing levels of responsibility AND an undergraduate cumulative GPA of 3.0 or higher.
Option V: Ten (10) or more years of full-time substantive mid-level managerial work experience and/or military service with increasing levels of responsibility AND an undergraduate GPA of 2.75 or higher.

All petitioners will need to provide one letter of reference from a supervisor who can verify your work experience and increasing scope of responsibility.

GMAT writing score must be 4.5 or higher to waive BUSAD 592 Research (1-6 c.h.). GRE writing score must be a minimum of 3.5 to waive BUSAD 592 Research (1-6 c.h.).

Prior to enrolling in the first 500-level course, students are expected to have completed a significant portion of the requirements for their undergraduate major and must have submitted an acceptable GMAT or GRE.

NOTE: Students are strongly encouraged to complete an internship prior to enrolling in graduate-level courses.

General Requirements

Students in the integrated BSBA/MBA program must complete:

• The Undergraduate Business Core (excluding BUSAD 302 Ethics in Business (3 c.h.), MGMT 301 Organizational Behavior (3 c.h.), MGMT 311 Operations and Quality Management (3 c.h.), and MGMT 485 Strategic Management (3 c.h.));
• BUSAD 493 Senior Seminar (1 c.h.);
• A major within the Hasan School of Business; and
• All remaining specified MBA courses.

In addition, students must satisfy all GPA requirements for the BSBA and the MBA (see the MBA listing under the Graduate Programs section of the catalog).

Business Administration 3+2 Program, Integrated Construction Management, Bachelor of Science/Master of Business Administration

Admission Requirements

The BS-CM/MBA program is unique. It allows qualified students to earn both a BS degree in Construction Management and an MBA concurrently.

Students are required to take the Graduate Management Admissions Test (GMAT). An admission index formula of 200 times the undergraduate GPA (4.000 system) plus the GMAT score is used as an admission score. The undergraduate GPA must be based on a minimum of 90 semester hours of course work, including MGMT 201 Principles of Management (3 c.h.), FIN 330 Principles of Finance (3 c.h.), and MKTG 340 Principles of Marketing (3 c.h.). Students must have a minimum GPA of 3.5 and a GMAT of at least 450 (i.e., an index of 1,150) to be admitted to the program. Students may also take the GRE and receive a 152 on the Verbal Reasoning and a 152 on the Quantitative Reasoning to be admitted to the program.

Options to satisfy GMAT requirement:

All MBA students are required to either take the Graduate Management Admissions Test (GMAT) or qualify to waive the GMAT requirement based on the options provided in the following sections.

Option I: Complete the GMAT with a minimum score of 400 and satisfy the qualification score of 1,150 calculated as 200 * Undergraduate cumulative GPA + GMAT score.

Option II: Take the GRE with a minimum GMAT score equivalent of 400 and a minimum undergraduate GPA of 3.0.

GMAT equivalent Score calculated as \[
2080.75 + (\text{GRE Verbal} \times 6.38) + (\text{GRE Quant} \times 10.62)\]
must be at least 400.

Admissions Index Score calculated as GMAT equivalent score + 200 * Undergraduate cumulative GPA, must be equal to or greater than 1,150.

Option III: If you have earned a graduate degree (equivalent to a U.S. Master’s or PhD) from a regionally accredited institution with cumulative GPA of 3.0 higher.

If your degree is from outside of the U.S., you will have to provide an official evaluation from any approved evaluation company that proves your master’s is equivalent to a U.S. master’s degree from a regionally accredited institution.

OR

Current admission and enrollment in a graduate dual-degree program at select partner institutions, currently including MBA admission at Chungnam National University, Korea.

Option IV: Five (5) or more years of full-time substantive mid-level managerial work experience and/or military service with increasing levels of responsibility AND an undergraduate cumulative GPA of 3.0 or higher.

Option V: Ten (10) or more years of full-time substantive mid-level managerial work experience and/or military service with increasing levels of responsibility AND an undergraduate GPA of 2.75 or higher.

All petitioners will need to provide one letter of reference from a supervisor who can verify your work experience and increasing scope of responsibility.

GMAT writing score must be 4.5 or higher to waive BUSAD 592 Research (1-6 c.h.). GRE writing score must be a minimum of 3.5 to waive BUSAD 592 Research (1-6 c.h.).

Prior to enrolling in the first 500-level course, students are expected to have completed a significant portion of the requirements for their undergraduate major and must have submitted an acceptable GMAT.

NOTE: Students are strongly encouraged to complete an internship prior to enrolling in graduate-level courses.

General Requirements

Students in the integrated BS-CM/MBA program must complete:

- ACCTG 201 Principles of Financial Accounting (3 c.h.), ECON 202 Principles of Microeconomics (3 c.h.), FIN 330 Principles of Finance (3 c.h.) and MKTG 340 Principles of Marketing (3 c.h.);
- The CM Required Course Core (excluding BUSAD 302 Ethics in Business (3 c.h.), replaced by BUSAD 502 Business Ethics and Environment (3 c.h.));
- The CM major within the College of Education, Engineering and Professional Studies and;
- All remaining specified MBA courses.

In order to minimize additional credits being required BS-CM/MBA students must take the graduate courses MGMT 520 Management of Organizational Behavior (3 c.h.), MGMT 511 Production/Operations Management (3 c.h.), and MGMT 585 Management Policy and Strategy (3 c.h.) in place of the 9 credits of Technical and Management Electives. If CM majors take different undergraduate courses, they will still be required to take the needed MBA courses to complete both degrees.

In addition, students must satisfy all GPA requirements for the BS in CM and the MBA (see the MBA listing under the Graduate Programs section of the catalog).

Special Projects and Internships will not be substituted for required CM major courses. Independent Studies will not be substituted for required MBA courses.

Business Administration 3+2 Program, Non-Integrated BS, BA/MBA

The BS, BA/MBA program is unique. It allows qualified students to earn both a Bachelor's degree, and an MBA concurrently.

A student can use up to 12 credits of elective from his/her respective major for MBA courses once he/she has been admitted into the program.

A student who earns two "C" or lower grades in graduate-level courses is placed on probation. If a third "C" or lower grade is earned, the student is automatically dismissed from the program.

Students who complete part of the integrated degree plan but decide to opt out of the MBA program and continue towards earning only the undergraduate degree can use the MBA courses toward the undergraduate degree but cannot later use them to pursue the MBA degree.

Students from all disciplines would be eligible to participate in a non-integrated BS, BA/MBA opportunity. The requirements for admission are, the students must have completed 90 credits or more in their respective major, and have a cumulative GPA of 3.5 or higher. The students must also take the following required leveling courses:

- ACCTG 201 Principles of Financial Accounting (3 c.h.), BUSAD 265 Inferential Statistics and Problem Solving (3 c.h.) or MATH 156 Introduction to Statistics (3 c.h.), ECON 202 Principles of Microeconomics (3 c.h.), FIN 330 Principles of Finance (3 c.h.), MGMT 201 Principles of Management (3 c.h.) and MKTG 340 Principles of Marketing (3 c.h.) and the GPA of those courses must also have a 3.5 or higher before admission to graduate program.
- All students participating in this program will be required to take the GMAT and get a 450 or higher before being admitted into the program.

The MBA degree will be conferred upon students who successfully complete a minimum of 36 hours of approved course work with a minimum GPA of 3.000. The curriculum includes the following 36 credits which are taken by all MBA students.

In addition to the MBA core, each student must complete two approved electives: 6

Accounting, Bachelor of Science in Business Administration

Faculty: Eriksen, Wink, Wright

The major in accounting leads to the Bachelor of Science in Business Administration (BSBA). The primary objective is to provide an academic program that covers the conceptual basis of accounting as well as the application of accounting doctrine in current accounting practice. The programs of study are functional in that they provide the broad base of knowledge required by the accounting profession.

General Requirements for Business Majors

(Accounting, Business Management and Economics)

All undergraduate business majors (accounting, business management and economics) take the Business Core. The Core prepares business majors with general business knowledge and skills. The Core also provides students with an understanding of and appreciation for the
intellectual discipline needed for successful completion of a business major.

These courses provide students with the common body of knowledge needed for imaginative and responsible citizenship and leadership roles in business and society, domestically and globally. The Business Core is designed to provide students with the opportunity to integrate their educational experiences in business within a specific discipline and across disciplines.

An overall GPA of 2.000 is required in General Education Skills Component courses. The Hasan School of Business prerequisite course requirement is a D, so that a student may progress to the next course. All business majors are required to earn a C or better in Business Core courses and in 300/400-level major courses to fulfill degree requirements. In addition, students must have completed the 100/200-level Business Core courses prior to enrolling in 300/400-level business courses. Additional prerequisites for Business Core courses and major courses are specified in the Course Descriptions section of the catalog. Business Core courses are listed alphabetically by prefix. Academic Planning Sheets are available in HSB.

Independent Studies, Directed Studies, Internships, and Special Projects will not be substituted for core or required courses. They may count as electives.

Majors and Emphasis Areas
(Specific course requirements are detailed later.)

Select one:
- Accounting: 24
- Business Management: 24
- Business Management/Agribusiness: 27
- Business Management/Information Technology: 37
- Business Management/Marketing: 24
- Business Management/Sports Industry Management: 39
- Economics: 24
- Economics/Finance: 24

Business majors may take a second major in a business discipline that is not related to their first major discipline, provided that the additional 300/400-level credits associated with the second major are in addition to the credits needed to complete the first major (i.e., if the first major is 120 credits and the second major is 24 credits, then the total credits to complete the first major and the second major will be a minimum of 144). For example, a student earning the BSBA in business management could also major in accounting or economics.

Business majors may take a minor in a business discipline that is not related to their major discipline, provided that the additional 300/400-level credits associated with the minor are in addition to the credits needed to complete their major (i.e., if the major is 120 credits and the additional credits in the minor are 9 credits, then the total credits to complete the major and the minor will be a minimum of 129). For example, a student earning the BSBA in business management could also minor in accounting or economics.

### Graduation Requirements for Business Majors

(Accounting, Business Management, and Economics)

Students must satisfy the University general education requirements, the general institutional requirements, and have at least 120 total credit hours with a cumulative GPA of 2.000 to graduate.

An overall GPA of 2.000 is required in General Education Skills Component courses. The Hasan School of Business prerequisite course requirement is a D, so that a student may progress to the next course. All business majors are required to earn a C or better in Business Core courses and 300/400-level major courses to fulfill degree requirements.

### Credit Policy

To earn a BSBA from CSU-Pueblo, students must complete no fewer than 30 semester hours in business at the 3/400 level in residence at CSU-Pueblo. "In residence" courses will include Business or CIS courses.
offered through CSU-Pueblo Extended Studies Programs. Students who complete junior- and senior-level courses at other colleges or universities with grades of C- or better, and wish to apply the credits earned toward their degree, must request approval through the Dean or Faculty Chair. Courses taken without such approval will not be counted toward the fulfillment of degree requirements.

Only the Dean or the Faculty Chair may waive any portion of these requirements and only upon written petition by a student who has demonstrated extraordinary ability.

Transfer Students
Undergraduate transfer work from other institutions is evaluated first by the Registrar’s Office, but final degree determination is made by the Hasan School of Business. The School of Business reserves the right to disallow any credit that is not appropriate degree credit as determined by the School.

Summary of Graduation Requirements
(Accounting, Business Management, and Economics)

General Education: 36
Business Core: 45
Major: 24-39
Open Electives: 0-15

TOTAL (minimum credits): 120

Outcomes Assessment Activities
Assurance of Learning
The use of direct measures of student performance in the Hasan School of Business provides a relevant set of performance data. Reviewed by faculty, discipline groups, the School’s Assurance of Learning Committee, and administrators, results of these measures are used to make program improvements. In addition to course grades, direct measures of student performance in the school of Business include:

- The Educational Testing Service (ETS) Major Field Test in Business. This test, administered nationwide, assesses what students have learned in courses common to all business majors. Results are compared with those of other business students enrolled at selected peer institutions, as well as nationally. In the Hasan School of Business, the Major Field Test is given to students in the BUSAD 493 Senior Seminar (1 c.h.) capstone course in their senior year.
- Course-Embedded Measures. Exams, papers, presentations, and projects include course-embedded measures that can be used to assess student performance.

The Hasan School of Business compiles information to assess the success of graduates. Information is obtained from the CSU-Pueblo Alumni Office, the Career Center, and other sources.

Business Management, Bachelor of Science in Business Administration

Faculty: Ahmadian, Brennan, Choi, Correa-Martinez, Fowler, Gilbreath, Goss, Holman, Kwon, Shah, Wakefield

The major in business management leads to the Bachelor of Science in Business Administration (BSBA) and provides students with the theoretical and conceptual basis of business as well as application skills to assume leadership roles in industry, government and education.

The undergraduate business management major permits students to select one area as an emphasis. The knowledge and skills acquired with the major in business management can be used in a number of areas, such as human resource and operations management. The business management major with an agribusiness emphasis prepares students for careers in the specialized agriculture/business sector. The business management major with an information technology emphasis prepares students for careers in managing technology in modern organizations.

The business management major with a specialization in marketing prepares the graduate to successfully promote and sell goods and services.

General Requirements for Business Majors
(Accounting, Business Management and Economics)

All undergraduate business majors (accounting, business management and economics) take the Business Core. The Core prepares business majors with general business knowledge and skills. The Core also provides students with an understanding of and appreciation for the intellectual discipline needed for successful completion of a business major.

These courses provide students with the common body of knowledge needed for imaginative and responsible citizenship and leadership roles in business and society, domestically and globally. • Economics: 24
• Economics/Finance: 24

Business majors may take a second major in a business discipline that is not related to their first major discipline, provided that the additional 300/400-level credits associated with the second major are in addition to the credits needed to complete the first major (i.e., if the first major is 120 credits and the second major is 24 credits, then the total credits to complete the first major and the second major will be a minimum of 144). For example, a student earning the BSBA in business management could also major in accounting or economics.

Business majors may take a minor in a business discipline that is not related to their major discipline, provided that the additional 300/400-level credits associated with the minor are in addition to the credits needed to complete their major (i.e., if the major is 120 credits and the additional credits in the minor are 9 credits, then the total credits to complete the major and the minor will be a minimum of 129). For example, a student earning the BSBA in business management could also minor in accounting or economics.

### Requirements for the Business Management Major with Agribusiness Emphasis

**Note:** Courses with AREC prefix are online courses through Colorado State University - Fort Collins, in the Agriculture and Resource Economics major. These courses can be taken simultaneously through CSU-Pueblo and CSU-Fort Collins to complete the degree.

Students are not limited to the suggested AREC electives, and can choose other upper-division options available at CSU-Fort Collins during any given semester.

### General Education

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

### Graduation Requirements for Business Majors

(Accounting, Business Management, and Economics)

Students must satisfy the University general education requirements, the general institutional requirements, and have at least 120 total credit hours with a cumulative GPA of 2.000 to graduate.

An overall GPA of 2.000 is required in General Education Skills Component courses. The Hasan School of Business prerequisite course requirement is a D, so that a student may progress to the next course. All business majors are required to earn a C or better in Business Core courses and 300/400-level major courses to fulfill degree requirements.

### Credit Policy

To earn a BSBA from CSU-Pueblo, students must complete no fewer than 30 semester hours in business at the 3/400 level in residence at CSU-Pueblo. “In residence” courses will include Business or CIS courses offered through CSU-Pueblo Extended Studies Programs. Students who complete junior- and senior-level courses at other colleges or universities with grades of C- or better, and wish to apply the credits earned toward their degree, must request approval through the Dean or Faculty Chair. Courses taken without such approval will not be counted toward the fulfillment of degree requirements.

Only the Dean or the Faculty Chair may waive any portion of these requirements and only upon written petition by a student who has demonstrated extraordinary ability.

### Transfer Students

Undergraduate transfer work from other institutions is evaluated first by the Registrar’s Office, but final degree determination is made by the Hasan School of Business. The School of Business reserves the right to disallow any credit that is not appropriate degree credit as determined by the School.

### Outcomes Assessment Activities

#### Assurance of Learning

The use of direct measures of student performance in the Hasan School of Business provides a relevant set of performance data. Reviewed by faculty, discipline groups, the School’s Assurance of Learning Committee, and administrators, results of these measures are used to make program improvements. In addition to course grades, direct measures of student performance in the school of Business include:

- The Educational Testing Service (ETS) Major Field Test in Business. This test, administered nationwide, assesses what students have
learned in courses common to all business majors. Results are compared with those of other business students enrolled at selected peer institutions, as well as nationally. In the Hasan School of Business, the Major Field Test is given to students in the BUSAD 493 Senior Seminar (1 c.h.) capstone course in their senior year.

- Course-Embedded Measures. Exams, papers, presentations, and projects include course-embedded measures that can be used to assess student performance.

The Hasan School of Business compiles information to assess the success of graduates. Information is obtained from the CSU-Pueblo Alumni Office, the Career Center, and other sources.

**Learning Goals for the Business Undergraduate Program**

The Hasan School of Business faculty works diligently to provide undergraduates with a high-quality education that prepares them for entry into business or into a graduate program. Our programs prepare students through achievement of five primary learning goals.

1. **Communication**
   - Our students will be able to communicate effectively.

2. **Problem Solving**
   - Our students will be able to analyze problems and develop solutions.

3. **Global Awareness**
   - Our students will be able to apply global business concepts.

4. **Ethical Awareness**
   - Our students will be able to recommend ethical alternatives and appropriate actions.

5. **Team Skills**
   - Our students will be able to demonstrate effective team skills.

**Business Management, Bachelor of Science in Business Administration: Information Technology Emphasis**

Faculty: Ahmadian, Brennan, Choi, Correa-Martinez, Fowler, Gilbreath, Goss, Holman, Kwon, Shah, Wakefield

The major in business management leads to the Bachelor of Science in Business Administration (BSBA) and provides students with the theoretical and conceptual basis of business as well as application skills to assume leadership roles in industry, government and education.

The undergraduate business management major permits students to select one area as an emphasis. The knowledge and skills acquired with the major in business management can be used in a number of areas, such as human resource and operations management. The business management major with an agribusiness emphasis prepares students for careers in the specialized agriculture/business sector. The business management major with an information technology emphasis prepares students for careers in managing technology in modern organizations.

The business management major with a specialization in marketing prepares the graduate to successfully promote and sell goods and services.

**General Requirements for Business Majors**

(Accounting, Business Management and Economics)

All undergraduate business majors (accounting, business management and economics) take the **Business Core**. The Core prepares business majors with general business knowledge and skills. The Core also provides students with an understanding of and appreciation for the intellectual discipline needed for successful completion of a business major.

These courses provide students with the common body of knowledge needed for imaginative and responsible citizenship and leadership roles in business and society, domestically and globally. The Business Core is designed to provide students with the opportunity to integrate their educational experiences in business within a specific discipline and across disciplines.

An overall GPA of 2.000 is required in General Education Skills Component courses. The Hasan School of Business prerequisite course requirement is a D, so that a student may progress to the next course. All business majors are required to earn a C or better in Business Core courses and in 300/400-level major courses to fulfill degree requirements. In addition, students must have completed the 100/200-level Business Core courses prior to enrolling in 300/400-level business courses. Additional prerequisites for Business Core courses and major courses are specified in the **Course Descriptions** section of the catalog. Business Core courses are listed alphabetically by prefix. Academic Planning Sheets are available in HSB.

Independent Studies, Directed Studies, Internships, and Special Projects will not be substituted for core or required courses. They may count as electives.

BUS/CIS/POLSC Elective 3

**General Education**

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

**Graduation Requirements for Business Majors**

*(Accounting, Business Management, and Economics)*

Students must satisfy the University general education requirements, the general institutional requirements, and have at least 120 total credit hours with a cumulative GPA of 2.00 to graduate.

An overall GPA of 2.00 is required in General Education Skills Component courses. The Hasan School of Business prerequisite course requirement is a D, so that a student may progress to the next course. All business majors are required to earn a C or better in Business Core courses and 300/400-level major courses to fulfill degree requirements.

**Credit Policy**

To earn a BSBA from CSU-Pueblo, students must complete no fewer than 30 semester hours in business at the 3/400 level in residence at CSU-Pueblo. "In residence" courses will include Business or CIS courses offered through CSU-Pueblo Extended Studies Programs. Students who complete junior- and senior-level courses at other colleges or universities with grades of C- or better, and wish to apply the credits earned toward their degree, must request approval through the Dean or Faculty Chair. Courses taken without such approval will not be counted toward the fulfillment of degree requirements.

Only the Dean or the Faculty Chair may waive any portion of these requirements and only upon written petition by a student who has demonstrated extraordinary ability.

**Transfer Students**

Undergraduate transfer work from other institutions is evaluated first by the Registrar’s Office, but final degree determination is made by the Hasan School of Business. The School of Business reserves the right to disallow any credit that is not appropriate degree credit as determined by the School.

**Summary of Graduation Requirements**

*(Accounting, Business Management, and Economics)*

General Education: 36
Business Core: 46
Major: 24-39
Open Electives: 0-15

**TOTAL (minimum credits): 120**

---

**Majors and Emphasis Areas**

*(Specific course requirements are detailed later.)*

Select one:

- Accounting: 24
- Business Management: 24
- Business Management/Agriculture: 27
- Business Management/Information Technology: 37
- Business Management/Marketing: 24
- Business Management/Management of Industry: 39
- Business Management/Organizational Risk and Security Management: 39
- Economics: 24
- Economics/Finance: 24

Business majors may take a second major in a business discipline that is **not related** to their first major discipline, provided that the additional 300/400-level credits associated with the second major are in addition to the credits needed to complete the first major (i.e., if the first major is 120 credits and the second major is 24 credits, then the total credits to complete the first major and the second major will be a minimum of 144). For example, a student earning the BSBA in business management could also major in accounting or economics.

Business majors may take a minor in a business discipline that is **not related** to their major discipline, provided that the additional 300/400-level credits associated with the minor are in addition to the credits needed to complete their major (i.e., if the major is 120 credits and the additional credits in the minor are 9 credits, then the total credits to complete the major and the minor will be a minimum of 129). For example, a student earning the BSBA in business management could also minor in accounting or economics.

Outcomes Assessment Activities

Assurance of Learning
The use of direct measures of student performance in the Hasan School of Business provides a relevant set of performance data. Reviewed by faculty, discipline groups, the School’s Assurance of Learning Committee, and administrators, results of these measures are used to make program improvements. In addition to course grades, direct measures of student performance in the School of Business include:

- **The Educational Testing Service (ETS) Major Field Test in Business.** This test, administered nationwide, assesses what students have learned in courses common to all business majors. Results are compared with those of other business students enrolled at selected peer institutions, as well as nationally. In the Hasan School of Business, the Major Field Test is given to students in the BUSAD 493 Senior Seminar (1 c.h.) capstone course in their senior year.
- **Course-Embedded Measures.** Exams, papers, presentations, and projects include course-embedded measures that can be used to assess student performance.

The Hasan School of Business compiles information to assess the success of graduates. Information is obtained from the CSU-Pueblo Alumni Office, the Career Center, and other sources.

Learning Goals for the Business Undergraduate Program
The Hasan School of Business faculty works diligently to provide undergraduates with a high-quality education that prepares them for entry into business or into a graduate program. Our programs prepare students through achievement of five primary learning goals.

1. **Communication**
   - Our students will be able to communicate effectively.

2. **Problem Solving**
   - Our students will be able to analyze problems and develop solutions.

3. **Global Awareness**
   - Our students will be able to apply global business concepts.

4. **Ethical Awareness**
   - Our students will be able to recommend ethical alternatives and appropriate actions.

5. **Team Skills**
   - Our students will be able to demonstrate effective team skills.

Business Management, Bachelor of Science in Business Administration: Sports Industry Management Emphasis

Faculty:  Ahmadian, Brennan, Choi, Correa-Martinez, Fowler, Gilbreath, Goss, Holman, Kwon, Shah, Wakefield

The major in business management leads to the Bachelor of Science in Business Administration (BSBA) and provides students with the theoretical and conceptual basis of business as well as application skills to assume leadership roles in industry, government and education.

The undergraduate business management major permits students to select one area as an emphasis. The knowledge and skills acquired with the major in business management can be used in a number of areas, such as human resource and operations management. The business management major with an agribusiness emphasis prepares students for careers in the specialized agriculture/business sector. The business management major with an information technology emphasis prepares students for careers in managing technology in modern organizations.

The business management major with a specialization in marketing prepares the graduate to successfully promote and sell goods and services.

General Requirements for Business Majors
(Accounting, Business Management and Economics)

All undergraduate business majors (accounting, business management and economics) take the **Business Core.** The Core prepares business majors with general business knowledge and skills. The Core also provides students with an understanding of and appreciation for the intellectual discipline needed for successful completion of a business major.

These courses provide students with the common body of knowledge needed for imaginative and responsible citizenship and leadership roles in business and society, domestically and globally. The Business Core is designed to provide students with the opportunity to integrate their educational experiences in business within a specific discipline and across disciplines.

An overall GPA of 2.000 is required in General Education Skills Component courses. The Hasan School of Business prerequisite course requirement is a D, so that a student may progress to the next course. All business majors are required to earn a C or better in Business Core courses and in 300/400-level major courses to fulfill degree requirements. In addition, students must have completed the 100/200-level Business Core courses prior to enrolling in 300/400-level business courses.

Additional prerequisites for Business Core courses and major courses are specified in the **Course Descriptions** section of the catalog. Business Core courses are listed alphabetically by prefix. Academic Planning Sheets are available in HSB.

Independent Studies, Directed Studies, Internships, and Special Projects will not be substituted for core or required courses. They may count as electives.

General Education
The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Graduation Requirements for Business Majors
(Accounting, Business Management, and Economics)

Students must satisfy the University general education requirements, the general institutional requirements, and have at least 120 total credit hours with a cumulative GPA of 2.000 to graduate.

An overall GPA of 2.000 is required in General Education Skills Component courses. The Hasan School of Business prerequisite course requirement is a D, so that a student may progress to the next course. All business majors are required to earn a C or better in Business Core courses and 300/400-level major courses to fulfill degree requirements.

Credit Policy
To earn a BSBA from CSU-Pueblo, students must complete no fewer than 30 semester hours in business at the 3/400 level in residence at CSU-Pueblo. “In residence” courses will include Business or CIS courses offered through CSU-Pueblo Extended Studies Programs. Students who complete junior- and senior-level courses at other colleges or universities with grades of C- or better, and wish to apply the credits earned toward their degree, must request approval through the Dean or Faculty Chair. Courses taken without such approval will not be counted toward the fulfillment of degree requirements.

Only the Dean or the Faculty Chair may waive any portion of these requirements and only upon written petition by a student who has demonstrated extraordinary ability.

Transfer Students
Undergraduate transfer work from other institutions is evaluated first by the Registrar’s Office, but final degree determination is made by the Hasan School of Business. The School of Business reserves the right to disallow any credit that is not appropriate degree credit as determined by the School.

1. **Communication**
   - Our students will be able to communicate effectively.

2. **Problem Solving**
   - Our students will be able to analyze problems and develop solutions.

3. **Global Awareness**
   - Our students will be able to apply global business concepts.

4. **Ethical Awareness**
   - Our students will be able to recommend ethical alternatives and appropriate actions.

5. **Team Skills**
   - Our students will be able to demonstrate effective team skills.

Computer Information Systems, Bachelor of Science

Faculty: Cho, Huang, Huff, Long, Martinez, Mejias

The Bachelor of Science (BS) degree in Computer Information Systems (CIS) prepares graduates for successful careers in the information technology (IT) fields such as cyber security, data analytics, and software development. Students complete a comprehensive, relevant, computer information systems curriculum that delivers high-demand knowledge, skills, and abilities in: software and web application development, system analysis and design, network design and administration, database design and development, operating systems, and IT security.

General Requirements

- Students majoring in computer information systems must maintain grades of C or higher in all CIS courses. In addition, all required CIS prerequisites must be completed with a grade of C or higher.
- Students must complete at least 120 semester hours in an approved program of study, including 52 hours in the major.
- Students must complete a minimum of 21 credits of CIS upper-division course work. At least 16 of these upper-division CIS credits must be taken in residence.
- Students must complete a course planning worksheet and participate in the advisement process with a CIS faculty adviser.

Specific Requirements

CIS majors complete a total of 120 credits. These credits include 36 credit hours of general education, 52 credits in CIS major courses, 10 credits of quantitative analysis, 9 credits of required related non CIS courses and 13 credits of electives. CIS majors are encouraged to complete a minor in Business Administration or another Business-related minor. The minor may be completed within the 13 elective credits. The general elective courses must include the specific courses listed below.

**TOTAL (minimum credits): 120**

1. Must include COMR 103 Speaking and Listening (3 c.h.) or equivalent; ECON 201 Principles of Macroeconomics (3 c.h.) and ECON 202 Principles of Microeconomics (3 c.h.), and MATH 121 College Algebra (4 c.h.).

**CIS Minor**

Non-CIS majors who wish to minor in CIS have several options. They may build their own minor based on the completion of seven core courses and a minimum of nine credits of 3/400 upper-division CIS courses.

**Program Objectives**

The program seeks to develop a deeper understanding of the role of information systems within organizations and the processes that support technology-enabled business development.

At the conclusion of the CIS program, students will demonstrate the ability to:

1. Analyze, design, implement, and maintain an information system.
2. Communicate clearly and effectively in writing and speaking.
3. Work effectively as a team member for a common purpose.
4. Identify ethical issues and provide alternatives or solutions.

**Outcomes Assessment Activities**

The CIS program primarily uses a direct-assessment approach. Artifacts of student work pertinent to a particular learning outcome are collected. These artifacts are then evaluated by faculty external to the course in which the artifact was collected to determine students’ level of mastery. Each learning outcome has been separated into sub-skills, or “measurable objectives”, that are components of the overall learning objectives. Students’ level of mastery is assessed using rubrics which have been developed for this purpose. To ensure inter-rater reliability, we implement processes whereby raters meet before and after artifacts are assessed. In addition, for follow-up (loop-closing) activities on subsequent artifact evaluation, the same raters are utilized when possible, for consistency and reliability.

The CIS program includes a senior capstone project course required of all majors. This course requires students to apply the communication, problem solving, and technical skills they have learned during the completion of the CIS program. Each team of students is assigned a live project in the Pueblo community (or sometimes surrounding areas). The team is evaluated on not only the final IT product they develop, but the process they follow in completing the project.

Finally, the CIS program meets annually with the CIS Industrial Advisory Committee to get feedback on the effectiveness of the CIS curriculum in meeting the needs of the IT industry along the Colorado Front Range. The CIS program also requires CIS graduates to complete a survey to
determine the effectiveness of the program and curriculum in preparing them for jobs in IT.

Computer Information Systems, Bachelor of Science: Cyber Security Emphasis

General Requirements

- Students majoring in computer information systems must maintain grades of C or higher in all CIS courses. In addition, all required CIS prerequisites must be completed with a grade of C or higher.
- Students must complete at least 120 semester hours in an approved program of study, including 52 hours in the major.
- Students must complete a minimum of 21 credits of CIS upper-division course work. At least 16 of these upper-division CIS credits must be taken in residence.
- Students must complete a course planning worksheet and participate in the advisement process with a CIS faculty adviser.

Specific Requirements

CIS majors complete a total of 120 credits. These credits include 36 credit hours of general education, 52 credits in CIS major courses, 10 credits of quantitative analysis, 9 credits of required related non CIS courses and 13 credits of electives. CIS majors are encouraged to complete a minor in Business Administration or another Business-related minor. The minor may be completed within the 13 elective credits. The general elective courses must include the specific courses listed below.

General Education

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

Please refer to the General Education Requirements in the Undergraduate Programs section of this catalog. In meeting CSU-Pueblo’s general education requirement, CIS majors must include the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMR 103</td>
<td>Speaking and Listening (or equivalent)</td>
<td>3</td>

</tr>
<tr>
<td>ECON 202</td>
<td>Principles of Microeconomics</td>
<td>3</td>
</tr>
<tr>
<td>MATH 121</td>
<td>College Algebra</td>
<td>4</td>
</tr>
</tbody>
</table>

Special Projects and Internships will not be substituted for required CIS Major courses. They may count only as electives. CIS majors who do not claim any emphasis area need to choose 12 credits from the following upper division electives.

Business Environment

In addition to the requirement to complete (BUSD 265 Inferential Statistics and Problem Solving (3 c.h.), BUSD 270 Business Communications (3 c.h.), BUSD 360 Advanced Business Statistics (3 c.h.), ECON 201 Principles of Macroeconomics (3 c.h.), ECON 202 Principles of Microeconomics (3 c.h.), MGMT 201 Principles of Management (3 c.h.), MGMT 368 Project Management (3 c.h.), MATH 121 College Algebra (4 c.h.) and MATH 220 Quantitative Analysis for Business (4 c.h.), CIS majors are strongly encouraged to complete a minor in Business Administration.

Summary of Graduation Requirements (CIS)

General Education: 36
Quantitative Analysis Requirement: 10
Required Related: 9
Open Electives: 13
Major: 52

TOTAL (minimum credits): 120

1 Must include COMR 103 Speaking and Listening (3 c.h.) or equivalent; ECON 201 Principles of Macroeconomics (3 c.h.) and ECON 202 Principles of Microeconomics (3 c.h.), and MATH 121 College Algebra (4 c.h.).

CIS Minor
Non-CIS majors who wish to minor in CIS have several options. They may build their own minor based on the completion of seven core courses and a minimum of nine credits of 3/400 upper-division CIS courses.

Program Objectives
The program seeks to develop a deeper understanding of the role of information systems within organizations and the processes that support technology-enabled business development.

At the conclusion of the CIS program, students will demonstrate the ability to:

1. Analyze, design, implement, and maintain an information system.
2. Communicate clearly and effectively in writing and speaking.
3. Work effectively as a team member for a common purpose.
4. Identify ethical issues and provide alternatives or solutions.

Computer Information Systems, Bachelor of Science: Data Analytics Emphasis

General Requirements
- Students majoring in computer information systems must maintain grades of C or higher in all CIS courses. In addition, all required CIS prerequisites must be completed with a grade of C or higher.
- Students must complete at least 120 semester hours in an approved program of study, including 52 hours in the major.
- Students must complete a minimum of 21 credits of CIS upper-division course work. At least 16 of these upper-division CIS credits must be taken in residence.
- Students must complete a course planning worksheet and participate in the advisement process with a CIS faculty adviser.

Specific Requirements
CIS majors complete a total of 120 credits. These credits include 36 credit hours of general education, 52 credits in CIS major courses, 10 credits of quantitative analysis, 9 credits of required related non CIS courses and 13 credits of electives. CIS majors are encouraged to complete a minor in Business Administration or another Business-related minor. The minor may be completed within the 13 elective credits. The general elective courses must include the specific courses listed below.

TOTAL (minimum credits): 120

1 Must include COMR 103 Speaking and Listening (3 c.h.) or equivalent; ECON 201 Principles of Macroeconomics (3 c.h.) and ECON 202 Principles of Microeconomics (3 c.h.), and MATH 121 College Algebra (4 c.h.).

CIS Minor
Non-CIS majors who wish to minor in CIS have several options. They may build their own minor based on the completion of seven core courses and a minimum of nine credits of 3/400 upper-division CIS courses.

Program Objectives
The program seeks to develop a deeper understanding of the role of information systems within organizations and the processes that support technology-enabled business development.

At the conclusion of the CIS program, students will demonstrate the ability to:
1. Analyze, design, implement, and maintain an information system.
2. Communicate clearly and effectively in writing and speaking.
3. Work effectively as a team member for a common purpose.
4. Identify ethical issues and provide alternatives or solutions.

Outcomes Assessment Activities
The CIS program primarily uses a direct-assessment approach. Artifacts of student work pertinent to a particular learning outcome are collected. These artifacts are then evaluated by faculty external to the course in which the artifact was collected to determine students’ level of mastery. Each learning outcome has been separated into sub-skills, or “measurable objectives”, that are components of the overall learning objectives. Students’ level of mastery is assessed using rubrics which have been developed for this purpose. To ensure inter-rater reliability, we implement processes whereby raters meet before and after artifacts are assessed. In addition, for follow-up (loop-closing) activities on subsequent artifact evaluation, the same raters are utilized when possible, for consistency and reliability.

The CIS program includes a senior capstone project course required of all majors. This course requires students to apply the communication, problem solving, and technical skills they have learned during the completion of the CIS program. Each team of students is assigned a live project in the Pueblo community (or sometimes surrounding areas). The team is evaluated on not only the final IT product they develop, but the process they follow in completing the project.

Finally, the CIS program meets annually with the CIS Industrial Advisory Committee to get feedback on the effectiveness of the CIS curriculum in meeting the needs of the IT industry along the Colorado Front Range. The CIS program also requires CIS graduates to complete a survey to determine the effectiveness of the program and curriculum in preparing them for jobs in IT.

Computer Information Systems, Bachelor of Science: Software Development Emphasis

General Requirements

• Students majoring in computer information systems must maintain grades of C or higher in all CIS courses. In addition, all required CIS prerequisites must be completed with a grade of C or higher.
• Students must complete at least 120 semester hours in an approved program of study, including 52 hours in the major.
• Students must complete a minimum of 21 credits of CIS upper-division course work. At least 16 of these upper-division CIS credits must be taken in residence.
• Students must complete a course planning worksheet and participate in the advisement process with a CIS faculty adviser.

Specific Requirements
CIS majors complete a total of 120 credits. These credits include 36 credit hours of general education, 52 credits in CIS major courses, 10 credits of quantitative analysis, 9 credits of required related non-CIS courses and 13 credits of electives. CIS majors are encouraged to complete a minor in Business Administration or another Business-related minor. The minor may be completed within the 13 elective credits. The general elective courses must include the specific courses listed below.

Economics, Bachelor of Science in Business Administration
Faculty: Duncan, Hassan, Regassa, Whited

The major in economics leads to the Bachelor of Science in Business Administration (BSBA) and provides students with the theoretical and conceptual basis of economics. Economics majors are particularly well prepared to enter graduate programs in business in addition to assuming entry-level positions in business firms, nonprofit organizations or government. The major in economics also prepares the graduate for positions in banking, financial analysis, and related financial services industries.

General Requirements for Business Majors
(Accounting, Business Management and Economics)

All undergraduate business majors (accounting, business management and economics) take the Business Core. The Core prepares business majors with general business knowledge and skills. The Core also provides students with an understanding of and appreciation for the intellectual discipline needed for successful completion of a business major.

These courses provide students with the common body of knowledge needed for imaginative and responsible citizenship and leadership roles in business and society, domestically and globally. The Business Core is designed to provide students with the opportunity to integrate their educational experiences in business within a specific discipline and across disciplines.

An overall GPA of 2.000 is required in General Education Skills Component courses. The Hasan School of Business prerequisite course requirement is a D, so that a student may progress to the next course. All business majors are required to earn a C or better in Business Core courses and in 300/400-level major courses to fulfill degree requirements. In addition, students must have completed the 100/200-level Business Core courses prior to enrolling in 300/400-level business courses. Additional prerequisites for Business Core courses and major courses are specified in the Course Descriptions section of the catalog. Business Core courses are listed alphabetically by prefix. Academic Planning Sheets are available in HSB.

Independent Studies, Directed Studies, Internships, and Special Projects will not be substituted for core or required courses. They may count as electives.

Majors and Emphasis Areas
(Specific course requirements are detailed later.)

Select one:

- Accounting: 24
- Business Management: 24
- Business Management/Agribusiness: 27
- Business Management/Information Technology: 37
- Business Management/Marketing: 24
- Business Management/Sports Industry Management: 39
- Economics: 24
- Economics/Finance: 24

Business majors may take a second major in a business discipline that is not related to their first major discipline, provided that the additional 300/400-level credits associated with the second major are in addition to the credits needed to complete the first major (i.e., if the first major is 120 credits and the second major is 24 credits, then the total credits to complete the first major and the second major will be a minimum of 144). For example, a student earning the BSBA in business management could also major in accounting or economics.

Business majors may take a minor in a business discipline that is not related to their major discipline, provided that the additional 300/400-level credits associated with the minor are in addition to the credits needed to complete their major (i.e., if the major is 120 credits and the additional credits in the minor are 9 credits, then the total credits
to complete the major and the minor will be a minimum of 129). For example, a student earning the BSBA in business management could also minor in accounting or economics.

### Graduation Requirements for Business Majors

(Accounting, Business Management, and Economics)

Students must satisfy the University general education requirements, the general institutional requirements, and have at least 120 total credit hours with a cumulative GPA of 2.000 to graduate.

An overall GPA of 2.000 is required in General Education Skills Component courses. The Hasan School of Business prerequisite course requirement is a D, so that a student may progress to the next course. All business majors are required to earn a C or better in Business Core courses and 300/400-level major courses to fulfill degree requirements.

### Credit Policy

To earn a BSBA from CSU-Pueblo, students must complete no fewer than 30 semester hours in business at the 3/400 level in residence at CSU-Pueblo. "In residence" courses will include Business or CIS courses offered through CSU-Pueblo Extended Studies Programs. Students who complete junior- and senior-level courses at other colleges or universities with grades of C- or better, and wish to apply the credits earned toward their degree, must request approval through the Dean or Faculty Chair. Courses taken without such approval will not be counted toward the fulfillment of degree requirements.

Only the Dean or the Faculty Chair may waive any portion of these requirements and only upon written petition by a student who has demonstrated extraordinary ability.

### Transfer Students

Undergraduate transfer work from other institutions is evaluated first by the Registrar’s Office, but final degree determination is made by the Hasan School of Business. The School of Business reserves the right to disallow any credit that is not appropriate degree credit as determined by the School.

### Summary of Graduation Requirements

(Accounting, Business Management, and Economics)

- General Education: 36
- Business Core: 45
- Major: 24-39
- Open Electives: 0-15

TOTAL (minimum credits): 120

ECON 201 Principles of Macroeconomics (3 c.h.) and ECON 202 Principles of Microeconomics (3 c.h.) are counted in General Education.

### Outcomes Assessment Activities

#### Assurance of Learning

The use of direct measures of student performance in the Hasan School of Business provides a relevant set of performance data. Reviewed by faculty, discipline groups, the School’s Assurance of Learning Committee, and administrators, results of these measures are used to make program improvements. In addition to course grades, direct measures of student performance in the school of Business include:

- **The Educational Testing Service (ETS) Major Field Test in Business.** This test, administered nationwide, assesses what students have learned in courses common to all business majors. Results are compared with those of other business students enrolled at selected peer institutions, as well as nationally. In the Hasan School of Business, the Major Field Test is given to students in the BUSAD 493 Senior Seminar (1 c.h.) capstone course in their senior year.
- **Course-Embedded Measures.** Exams, papers, presentations, and projects include course-embedded measures that can be used to assess student performance.

The Hasan School of Business compiles information to assess the success of graduates. Information is obtained from the CSU-Pueblo Alumni Office, the Career Center, and other sources.

### Economics, Bachelor of Science in Business Administration: Finance Emphasis

Faculty: Duncan, Hassan, Regassa, Whiteld

The major in economics leads to the Bachelor of Science in Business Administration (BSBA) and provides students with the theoretical and conceptual basis of economics. Economics majors are particularly well prepared to enter graduate programs in business in addition to assuming entry-level positions in business firms, nonprofit organizations or government. The major in economics also prepares the graduate for positions in banking, financial analysis, and related financial services industries.

### General Requirements for Business Majors

(Accounting, Business Management and Economics)

All undergraduate business majors (accounting, business management and economics) take the Business Core. The Core prepares business majors with general business knowledge and skills. The Core also provides students with an understanding of and appreciation for the intellectual discipline needed for successful completion of a business major.

These courses provide students with the common body of knowledge needed for imaginative and responsible citizenship and leadership roles in business and society, domestically and globally. The Business Core is designed to provide students with the opportunity to integrate their
educational experiences in business within a specific discipline and across disciplines.

An overall GPA of 2.000 is required in General Education Skills Component courses. The Hasan School of Business prerequisite course requirement is a D, so that a student may progress to the next course. All business majors are required to earn a C or better in Business Core courses and in 300/400-level major courses to fulfill degree requirements. In addition, students must have completed the 100/200-level Business Core courses prior to enrolling in 300/400-level business courses. Additional prerequisites for Business Core courses and major courses are specified in the Course Descriptions section of the catalog. Business Core courses are listed alphabetically by prefix. Academic Planning Sheets are available in HSB.

Independent Studies, Directed Studies, Internships, and Special Projects will not be substituted for core or required courses. They may count as electives.

### Majors and Emphasis Areas

(Specific course requirements are detailed later.)

**Select one:**

- Accounting: 24
- Business Management: 24
- Business Management/Agribusiness: 27
- Business Management/Information Technology: 37
- Business Management/Marketing: 24
- Business Management/Sports Industry Management: 39
- Economics: 24
- Economics/Finance: 24

Business majors may take a second major in a business discipline that is not related to their first major discipline, provided that the additional 300/400-level credits associated with the second major are in addition to the credits needed to complete the first major (i.e., if the first major is 120 credits and the second major is 24 credits, then the total credits to complete the first major and the second major will be a minimum of 144). For example, a student earning the BSBA in business management could also major in accounting or economics.

Business majors may take a minor in a business discipline that is not related to their major discipline, provided that the additional 300/400-level credits associated with the minor are in addition to the credits needed to complete their major (i.e., if the major is 120 credits and the additional credits in the minor are 9 credits, then the total credits to complete the major and the minor will be a minimum of 129). For example, a student earning the BSBA in business management could also minor in accounting or economics.

### General Education

The general education requirement for graduation includes a total of 35 semester credits in two categories: Skills Component and Knowledge Component. Please see the General Education Requirement section under Academic Policies for more information.

### Graduation Requirements for Business Majors

(Accounting, Business Management, and Economics)

Students must satisfy the University general education requirements, the general institutional requirements, and have at least 120 total credit hours with a cumulative GPA of 2.000 to graduate.

An overall GPA of 2.000 is required in General Education Skills Component courses. The Hasan School of Business prerequisite course requirement is a D, so that a student may progress to the next course. All business majors are required to earn a C or better in Business Core courses and 300/400-level major courses to fulfill degree requirements.

### Credit Policy

To earn a BSBA from CSU-Pueblo, students must complete no fewer than 30 semester hours in business at the 3/400 level in residence at CSU-Pueblo. “In residence” courses will include Business or CIS courses offered through CSU-Pueblo Extended Studies Programs. Students who complete junior- and senior-level courses at other colleges or universities with grades of C- or better, and wish to apply the credits earned toward their degree, must request approval through the Dean or Faculty Chair.
Courses taken without such approval will not be counted toward the fulfillment of degree requirements.

Only the Dean or the Faculty Chair may waive any portion of these requirements and only upon written petition by a student who has demonstrated extraordinary ability.

Transfer Students
Undergraduate transfer work from other institutions is evaluated first by the Registrar’s Office, but final degree determination is made by the Hasan School of Business. The School of Business reserves the right to disallow any credit that is not appropriate degree credit as determined by the School.

Outcomes Assessment Activities
Assurance of Learning
The use of direct measures of student performance in the Hasan School of Business provides a relevant set of performance data. Reviewed by faculty, discipline groups, the School’s Assurance of Learning Committee, and administrators, results of these measures are used to make program improvements. In addition to course grades, direct measures of student performance in the school of Business include:

- The Educational Testing Service (ETS) Major Field Test in Business. This test, administered nationwide, assesses what students have learned in courses common to all business majors. Results are compared with those of other business students enrolled at selected peer institutions, as well as nationally. In the Hasan School of Business, the Major Field Test is given to students in the BUSAD 493 Senior Seminar (1 c.h.) capstone course in their senior year.

- Course-Embedded Measures. Exams, papers, presentations, and projects include course-embedded measures that can be used to assess student performance.

The Hasan School of Business compiles information to assess the success of graduates. Information is obtained from the CSU-Pueblo Alumni Office, the Career Center, and other sources.

COURSE DESCRIPTION INFORMATION

Colorado State University-Pueblo does not offer all the courses listed in this catalog every semester or every year.

Each semester the University creates an on-line course offering module listing a detailed schedule of courses offered and the times and places of instruction. Courses listed in the on-line course offering module are subject to change.

Explanatory Notes

Numbering of Courses
Course numbering is based on the content level of material presented in courses.

Courses numbered:
000-099 - Remedial; do not count toward graduation or student level
100-299 - Freshmen/Sophomore level (lower division)
300-499 - Junior/Senior level (upper division)
500-699 - Graduate level
900-999 - Post-master’s

Variable Credit Courses
(1-3 VAR) indicates variable credit; the minimum and maximum credit limitations. An example:
494 Field Experience (1-5 VAR)
Off-campus individual experience providing transition from classroom instruction to on-the-job experience. Supervised by instructor and job supervisor. Prerequisite: senior standing and permission of instructor.

Cross-listed Courses
Courses in which students may earn credit under either (but not both) of two prefixes (e.g., SOC or HIST) for the same offering.

Corequisite
A requirement which must be taken concurrently with another course of instruction.

Prerequisite
A requirement which must be fulfilled before a student can enroll in a particular course.

Minimum Grade for Prerequisite
The University policy for prerequisite grades is a C; however, the department has the authority to override individual course requirements.

Repeatable
Some specified courses may be repeated for credit. These courses are designated by the word Repeatable in the Course Description section of this catalog. The number after the word Repeatable indicates the maximum number of credits that may be used toward degree requirements.

General Education Courses
E - Written Communication (English Composition)
M - Quantitative Reasoning (Mathematics)
H - Humanities
SS - Social Science
HS - History
ST - Natural and Physical Science
GT - Guaranteed transfer to Colorado two-year and four-year institutions

Cross Cultural Requirement
CC - Course meets Cross-Cultural requirement

Cancellation of Courses
The University reserves the right to cancel courses not selected by an adequate number of students or not suitably staffed by qualified faculty.

Keys to Symbols
Course descriptions include a variety of symbols conveying essential information. The following standard course description with explanation of symbols serves as a model:
MUS 127 Functional Piano I: Beginning 1(0-2)
For students with no piano experience. Introduces fundamentals, with emphasis on providing skills necessary for successful completion of the Proficiency Exam. May be repeated. (F,S) Repeatable (2)

MUS - course prefix
127 - course number
Functional Piano I: Beginning - course title
1(0-2) - number of credits (clock hours in lecture per week – clock hours in laboratory demonstration or studio experiences per week)
“For students” - explanation of course content
(F,S) - taught fall, spring
Repeatable (2) - course may be repeated and counted toward graduation for a maximum of 2 credits

Note: Not all of the above information may be noted in each course. Additional symbols include:
F - Taught fall semester
S - Taught spring semester
SS - Taught summer session
* - Offered upon demand
O - Taught odd numbered years
E - Taught even numbered years
VAR - Variable credit course
L - Suffix indicating lab course
Course Prefixes
Courses of instruction are identified by the following approved prefixes:

- ACCTG - Accounting
- AIM - Automotive Industry Management
- ANTHR - Anthropology
- AREC - Agribusiness
- ART - Art
- ASL - American Sign Language
- AT - Athletic Training
- BIOL - Biology
- BUSAD - Business Administration
- CBASE - Communities to Build Active STEM Engagement
- CET - Civil Engineering Technology
- CHEM - Chemistry
- CIS - Computer Information Systems
- CLDE - Culturally and Linguistically Diverse Education
- CM - Construction Management
- COMR - Communication & Rhetoric
- CONED - Continuing Education
- CR - Continuous Registration
- CRIM - Criminology
- CS - Chicano Studies
- CTL - Center for Teaching and Learning
- DS - Diversity Studies
- ECE - Early Childhood Education
- ECON - Economics
- ED - Education
- EE - Electrical Engineering
- EN - Engineering
- ENG - English
- ESL - English as a Second Language
- EXHP - Exercise Science and Health Promotion
- FIN - Finance
- FRN - French
- GEOG - Geography
- GEOL - Geology
- GER - German
- HIST - History
- HONOR - Honors
- INTL - International Studies
- ITL - Italian
- MATH - Mathematics
- MCCNM - Mass Communications/Center New Media
- ME - Mechanical Engineering
- MGMT - Management
- MKTG - Marketing
- MSL - Military Science and Leadership
- MUS - Music
- NPA - Non-Profit Administration
- NSE - National Student Exchange
- NSG - Nursing
- PHIL - Philosophy
- PHYS - Physics
- PLP - President's Leadership Program
- POLSC - Political Science
- PSYCH - Psychology
- RDG - Reading

Accounting (ACCTG)

ACCTG 201 Principles of Financial Accounting 3(3-0)
Introduction to accounting as the language of business. Emphasis on reasoning and logic of external reporting model. May include computer-based applications. Prerequisite: MATH 109 or MATH 121 or MATH 156 or BUSAD 265. (*)

ACCTG 202 Principles of Managerial Accounting 3(3-0)
Managerial uses of accounting information, including cost-based, decision making, differential accounting, and responsibility accounting. May include computer-based applications. Prerequisite: ACCTG 201. (*)

ACCTG 301 Intermediate Accounting I 3(3-0)
Conceptual framework, accounting cycle, financial statements, time value of money, revenue recognition, and accounting for cash, receivables, inventory, and long-term assets. Prerequisite: ACCTG 202 and junior standing. (F)

ACCTG 302 Intermediate Accounting II 3(3-0)
Investments, liabilities, bonds, leases, income taxes, pensions, employee benefit plans, shareholder equity, earnings per share, accounting changes and errors, and the statement of cash flows. Prerequisite: ACCTG 301. (S)

ACCTG 311 Federal Income Tax 3(3-0)
Federal income tax as applied to income recognition, exclusions from income and property transactions of individuals. Introduction to tax research resources and techniques. Prerequisite: ACCTG 202. (F)

ACCTG 320 Cost Accounting 3(3-0)
Accounting procedures applicable to industries with emphasis on job order process costs, standard cost and profit planning including differential costs, internal profit and price policies, and capital budgeting. Prerequisite: ACCTG 202 and junior standing. (S)

ACCTG 330 Accounting Information Systems 3(3-0)
The study of design and implementation of accounting information systems. Attention directed to the traditional accounting model and its relationship to computerized accounting information systems. Prerequisite: ACCTG 201. (F)

ACCTG 401 Advanced Financial Accounting 3(3-0)
Application of fundamental theory to partnerships, international operations, consolidated statements, and business combinations; introduction to government. Prerequisite: ACCTG 302. (S)

ACCTG 404 CPA Law 3(3-0)
Business law as found in the Regulation section of the Uniform CPA examination. Prerequisite: Senior standing, accounting major. (F)

ACCTG 410 Auditing 3(3-0)
A study of the systematic process by which external financial statements and other management assertions are verified and reported upon by independent, internal, and governmental auditors. Prerequisite: ACCTG 302 and 330. (F)

ACCTG 411 Corporate, Estate and Gift Tax 3(3-0)
Taxation of corporations, partnerships, estates/trusts. Analysis of mergers and dissolution of corporations. Introduction to estate/gift taxes and international taxation. Prerequisite: ACCTG 311. (*)

ACCTG 412 Advanced Auditing 3(3-0)
Study of auditing and attestation services in the public accounting environment with special emphasis on auditing methodologies and research. Prerequisite: ACCTG 410 or instructor permission. (S)

ACCTG 415 Accounting Ethics 3(3-0)
Accounting Ethics focuses on teaching students the standards of right and wrong, using various real-life corporate failures. Students apply ethical standards to solve problems. Prerequisite: ACCTG 410. (S)

ACCTG 491 Special Topics (1-3 V)
Special Topics. (*) Repeatable (6).

ACCTG 495 Independent Study (1-3 V)
Independent Study. Prerequisite: Senior standing and accounting major and adviser permission. (*) Repeatable (6).

ACCTG 498 Internship (1-6 V)
Supervised field work in selected business, social and governmental organizations; supplemented by written reports. Prerequisite: Junior or senior standing in School of Business and permission of internship coordinator. (*) Repeatable (6).

ACCTG 501 Fundamentals of Accounting 1.5(1.5-0)
This class, as an MBA leveling course, provides a basic understanding of financial reporting accounting, including the accounting cycle, financial statement preparation, and internal controls. Prerequisite: Admission to MBA. (*)

ACCTG 505 Principles of Financial Accounting 3(3-0)
Introduction to accounting as the language of business. Emphasis on reasoning and logic of external reporting model. May include computer-based applications. (*)

ACCTG 510 Managerial Accounting 3(3-0)
Accounting concepts and methods utilized in managerial planning, budgeting, controlling, and evaluating to optimize decision making. Prerequisite: Admission to MBA or permission of MBA Director. (*)

ACCTG 511 Tax Planning and Research 3(3-0)
Advanced study of tax research methodology, IRS and professional guidelines on tax positions, appreciation of research skills, planning techniques to individual, corporate, partnership cases. Prerequisite: ACCTG 311. (*)

ACCTG 520 Advanced Cost Management Systems 3(3-0)
Cost systems supporting new management philosophies, JIT, total quality management, continuous improvement, process reengineering. Activity-based costing, target costs, cost of quality. Prerequisite: ACCTG 320 and admission to MBA or permission of MBA Director. (*)

ACCTG 591 Special Topics 3(3-0)
Critical review and discussion of relevant accounting topics. (*) Repeatable (6).

ACCTG 595 Independent Study (1-3 V)
Individual study of a subject determined by the instructor and student with permission of the director. Prerequisite: Admission to MBA or permission of MBA Director. (*) Repeatable (6).
American Sign Language (ASL)

ASL 101  Beginning American Sign Language I 3(3-0)
Development of skills for communicative interaction with and among the deaf by means of hand symbolization and cultural understanding. (F) (Gen Ed: H) (CC)

ASL 102  Beginning American Sign Language II 3(3-0)
Continuation of the development of skills for communicative interaction with and among the deaf by means of hand symbolization and cultural understanding. Prerequisite: ASL 101 or permission of instructor. (S) (Gen Ed: H) (CC)

ASL 201  Intermediate American Sign Language I 3(3-0)
Development of intermediate skills for communicative interaction with and among the deaf by means of hand symbolization and cultural understanding. Prerequisite: ASL 102. (*) (Gen Ed: H) (CC)

ASL 202  Intermediate American Sign Language II 3(3-0)
Development of intermediate to advanced skills for communicative interaction with and among the deaf by means of hand symbolization and cultural understanding. Prerequisite: ASL 102. (*) (Gen Ed: H) (CC)

Anthropology (ANTHR)

ANTHR 100  Cultural Anthropology 3(3-0)
Introduction to the concepts by which anthropology understands particular lifestyles, and to the constructs by which it accounts for similarities and differences among lifestyles. (F, S) (Gen Ed: SS, GT-SS3) (CC)

ANTHR 101  Biological Anthropology 3(3-0)
The course examines humans as biological organisms from an evolutionary perspective. Other primates and the significance of genetic diversity in modern human populations are discussed. Corequisite: ANTHR 101L (*)

ANTHR 101L  Biological Anthropology Lab 1(0-2)
The lab will reinforce and extend student understanding of biological anthropological concepts. Corequisite: ANTHR 101. (*)

ANTHR 105  (PSYCH 105, SOC 105, WS 105)  Understanding Human Diversity 3(3-0)
Americans live in a complex and diverse society. This course examines the nature, impact and strategies for dealing with diversity in personal and social contexts. (*)

ANTHR 106  (ENG 106)  Language, Thought and Culture 3(3-0)
Cross-cultural introduction to language processes in human society. (*) (Gen Ed: SS) (CC)

ANTHR 201  World Prehistory I 3(3-0)
An examination of the human lineage focusing on major cultural events from Miocene apes to the Mesolithic. (*)

ANTHR 202  World Prehistory II 3(3-0)
An examination of major cultural events from the Neolithic to early civilizations. (*)

ANTHR 212  (CRIM 212)  The Forensics of Bones 3(3-0)
Familiarize students with the basic procedures used by forensic anthropologists to obtain evidence in criminal investigations. (*)

ANTHR 291  Special Topics 1-3 V
Special Topics. (*) Repeatable (99).

ANTHR 301  Introduction to Archaeology 3(3-0)
This course describes how modern archaeologists acquire and interpret archaeological evidence. (*)

ANTHR 314  (SOC 314)  Religion, Culture and Society 3(3-0)
Cross-cultural concepts and practices of the supernatural. A holistic analysis to the role of religion in cultures and society. Prerequisite: ANTHR 100 or SOC 101. (*)

ANTHR 315  (SOC 315)  Health, Culture, and Society 3(3-0)
Cross-cultural concepts and approaches to health are studied. A holistic analysis of medicine as a cultural system as opposed to a biological one. Prerequisite: ANTHR 100 or SOC 101. (*)

ANTHR 316  (SOC 316)  Age, Culture and Society 3(3-0)
Cross-cultural concepts and approaches to age are studied. A holistic analysis of the life course focusing on societal and cultural perceptions. Prerequisite: ANTHR 100 or SOC 101. (*)

ANTHR 321  (CRIM 321, SOC 321)  Cross-Cultural Perspective on Crime 3(3-0)
An examination of crime in non-western societies with a comparison to crime and punishment in modern American society. Prerequisite: ANTHR 100 or SOC 101 or CRIM 101. (*)

ANTHR 341  Archaeology of Ancient N. America 3(3-0)
A review of the diversity of North American prehistoric cultures. (*)

ANTHR 357  (CRIM 357, SOC 357)  Immigration 3(3-1)
Examines migration processes, with a particular focus on immigration to the United States. Migration patterns are analyzed considering social, political, and historical context, including structural global patterns. (*)

ANTHR 491  Special Topics 1-3 V
Special Topics. (*) Repeatable (99).

ANTHR 492  Research 1-3 V
Qualitative and quantitative methods and designs in anthropological research. Prerequisite: Junior or senior standing and permission of instructor. (*) Repeatable (3).

ANTHR 493  Seminar 2-4 V
Seminar. (*)

ANTHR 494  Field Experience 1-12 V
Practical experience in an agency setting. Prerequisite: Junior or senior standing and permission of instructor. (*) Repeatable (99).

ANTHR 495  Independent Study 1-3 V
Directed study for students interested in specific areas of anthropological concern. Prerequisite: Permission of instructor. (*) Repeatable (99).

Art (ART)

ART 100  Visual Dynamics 3(3-0)
Appreciation and understanding of visual experiences and techniques reflecting the cultural dynamics of creativity. (F, S, SS) (Gen Ed: H, GT-AH1) (CC)

ART 110  Art Career Orientation 1(1-0)
Guided development of individual job objectives. (F)

ART 115  Two-Dimensional Design 3(1-4)
The foundation of visual form, emphasizing two-dimensional design and color theory. (F, SS)

ART 116  Three-Dimensional Design 3(1-4)
The foundation of visual form, emphasizing three dimensional design. (F, S)

ART 141  Drawing I 3(1-4)
Development of perception and technical skills in rendering. (F, S)
ART 211 History of Art I 3(3-0)
A survey of world art from prehistory to ca. 1300 CE. Introduces issues related to visual design, historical context, and interpretation of works of art. (F) (Gen Ed: H, GT-AH1) (CC)

ART 212 History of Art II 3(3-0)
A survey of world art from ca. 1300 CE to contemporary times. Introduces issues related to visual design, historical context and interpretation of works of art. (S) (Gen Ed: H, GT-AH1) (CC)

ART 233 Sculpture I 3(1-4)
Basic problems in sculpture relating specific concerns of visual form and process. Prerequisite: ART 116 or permission of instructor. (F, S)

ART 234 Painting I 3(1-4)
Introduction to painting in oil and acrylic where the control of space will be approached through the use of color. Prerequisite: ART 115 and ART 141 or permission of instructor. (F, S, SS)

ART 242 Drawing II 3(1-4)
Continued development of perception and technical skills in rendering, utilizing the human figure. Detail investigation of the skeleton and muscle forms are explored. Prerequisite: ART 141. (F, S)

ART 247 Ceramics I 3(1-4)
Essential skills in ceramic processes; emphasis on form and function as related to students’ needs and creative intent. (F, S, SS)

ART 270 Printmaking I 3(1-4)
Introduction to multiple image production utilizing relief printing including woodcut, linocut and collagraph. Introduction to shop techniques, safety procedures and history of the medium. Prerequisite: Art core or permission of instructor. (F, S)

ART 274 Digital Art I 3(1-4)
This course is an introduction to two-dimensional Digital Art. The student will learn to create original imagery through the use of art-oriented software. (F)

ART 276 Photography I 3(1-4)
Photography as an art form and as an adjunct to other art media. Prerequisite: Art core or permission of instructor. (F, S)

ART 281 Graphic Design I 3(1-4)
A basic treatment of graphic processes and techniques related to advertising design and visual communication. Prerequisite: ART 115 and ART 141 or permission of instructor. (S)

ART 291 Special Topics 1-5 V
Special Topics. (F, S, SS) Repeatable (99).

ART 301 Late Twentieth-Century Aesthetics 3(3-0)
This course introduces the classic writings in ancient and modern philosophy theory and criticism informing American and European art of the late twentieth century. (SS)

ART 310 Portfolio Review 1(1-0)
Art majors must present a portfolio of their artwork or art history research prospectus for the art faculty to evaluate. Prerequisite: Art core classes. (F)

ART 311 Ancient Art 3(3-0)
A study of the visual arts of the major civilizations of the ancient Mediterranean world, including Egypt, Greece and Rome. Prerequisite: ART 211. (*)

ART 312 Medieval Art 3(3-0)
A study of the art and architecture produced in Europe during the Middle Ages from ca. 325 to 1300 CE. Prerequisite: ART 211. (*)

ART 313 Renaissance Art 3(3-0)
A study of art and architecture in Italy and the Netherlands from ca. 1300 to 1600 CE. Prerequisite: ART 212. (*)

ART 314 Baroque and Rococo Art 3(3-0)
A study of art in Europe from ca. 1600 to 1785. Examines the diverse art forms in Italy, Spain, England, Holland and France. Prerequisite: ART 212. (*)

ART 315 Nineteenth-Century Art 3(3-0)
A study of art produced during the nineteenth-century in Europe and the Americas, with emphasis on France and the United States. Prerequisite: ART 212. (*)

ART 333 Sculpture II: Site Art 3(1-4)
Creating sculptural elements whose form and content are a response to its site and context. Prerequisite: ART 233 or permission of instructor. (F, S) Repeatable (9).

ART 334 Painting II 3(1-4)
Techniques in oil and acrylic emphasizing the application of materials to subject matter and composition. Prerequisite: ART 234. (F, S, SS)

ART 342 Drawing III 3(1-4)
Advanced course in pursuit of increased skills of perception and artistic anatomy. Prerequisite: ART 242. (F, S, SS) Repeatable (9).

ART 347 Ceramics II 3(1-4)
In-depth development of specific ceramic techniques; skills and personalization of style. Students will load and fire all the kilns as well as mix glazes. Prerequisite: ART 247 or permission of instructor. (F, S, SS) Repeatable (9).

ART 370 Printmaking II 3(1-4)
Introduction to traditional and non-traditional methods of Intaglio printing including line etch, aquatint, dry point, resist methods, photo processes and color printing. Prerequisite: ART 270. (F, S) Repeatable (9).

ART 374 Digital Art II 3(1-4)
Introduction to time-based Digital Art. The student will learn the creative potential of the art of the moving image through digital video oriented software. Prerequisite: ART 274. (S)

ART 376 Photography II 3(1-4)
Photography as an art form and an adjunct to other art media. Prerequisite: ART 276. (S)

ART 381 Graphic Design II 3(1-4)
Intermediate graphic design techniques including typography, pre-press and client relations. Prerequisite: ART 281 or permission of instructor. (F)

ART 382 Illustration 2(0-4)
Images rendered in varying techniques to express ideas related to commercial application. Prerequisite: ART 381 or permission of instructor. (F, S, SS)

ART 383 Exhibition Design 2(0-4)
Communication and design principles applied to the display of objects. Special attention to museum and gallery installations. Prerequisite: Permission of instructor. (F, S, SS)

ART 397 Studio Series 1(3 V)
Advanced studio offerings for students who have completed all other course offerings in a specific discipline. Scheduled concurrently with lower-division studios. Prerequisite: Permission of instructor. (F, S, SS) Repeatable (9).
ART 410 Senior Career Orientation 1(1-0)
Formal presentation of student's portfolio or art history research to
the art faculty. Senior exhibition, artist's statement, resumes and job
placement interviews. Prerequisite: Senior standing. (S)

ART 411 Twentieth-Century Art 3(3-0)
A survey of major developments in the visual arts, art theory, and
criticism during the twentieth century. Prerequisite: ART 212. (F)

ART 412 Contemporary Art 1(3 V)
A study of selected recent developments in the visual arts. Reading,
viewing, and discussion of new developments in media, art theory and
criticism. Prerequisite: ART 411. (*)

ART 413 Native American Art 3(3-0)
A study of art and visual design in Native North American cultures from
prehistory to contemporary times. Prerequisite: ART 212. (*)

ART 414 Asian Art 3(3-0)
A survey of art from major cultures of Asia and the Far East from ancient
to contemporary times. Prerequisite: ART 211. (*)

ART 415 Latin American Art 3(3-0)
A survey of art of Latin America from ancient to the contemporary times.
Includes Chicano art. Prerequisite: ART 212. (*)

ART 433 Advanced Site Art 3(1-4)
Advanced projects in Site Art that involve the presentation and creation of
site specific sculptural forms. Prerequisite: ART 333 or permission of
instructor. (F, S) Repeatable (9).

ART 434 Painting III 3(1-4)
Advanced painting with an emphasis on individual development. Focus
pertains to formal, pictorial and technical problems met in developed
personal imagery. Prerequisite: ART 334. (F, S, SS) Repeatable (9).

ART 442 Drawing IV 3(1-4)
Emphasis on development of individual skills of perception and
exploration of new techniques and materials. Prerequisite: ART 342. (F,
S, SS) Repeatable (9).

ART 447 Advanced Ceramics 3(1-4)
This course explores advanced theories and techniques involved in
working with clay: forming, firing, glazing, kiln design and construction.
Prerequisite: ART 347 or permission of instructor. (F, S, SS) Repeatable (9).

ART 470 Printmaking III 3(1-4)
Introduction to lithography printing using stones, aluminum plates and
photo processes in black and white and multiple color techniques.
Prerequisite: ART 370. (F, S) Repeatable (9).

ART 474 Digital Art III 3(1-4)
In this course the student will learn to further develop the potential of
Digital Art through the exploration of internet art, video and sound art.
Prerequisite: ART 374. (F) Repeatable (9).

ART 476 Photography III 3(1-4)
Students are encouraged to pursue specific areas of interest, and
advance their personal imagery while continuing study of postmodern
themes in contemporary photography. Prerequisite: ART 376. (F, S)
Repeatable (9).

ART 481 Advanced Graphic Design I 3(1-4)
Using advanced principles, this workshop operates as a professional
studio with designers, an art director, production manager, copywriter,
computer manager, etc., producing posters, logos and brochures.
Prerequisite: ART 281 and 381 or permission of instructor. (S) Repeatable
(9).

ART 491 Special Topics 1(5 V)
Special Topics. (F, S, SS) Repeatable (99).

ART 494 Field Experience 1(5 V)
Off-campus individual experience providing transition from classroom
instruction to on-the-job experience. Prerequisite: Senior standing and
permission of instructor. (F, S, SS)

ART 495 Independent Study 1(5 V)
Individual tutorial experience. Prerequisite: Junior or senior standing and
permission of instructor. (F, S, SS)

ART 496 Cooperative Education Placement 1(4 V)
Cooperative Education Placement. Prerequisite: Permission of instructor.
(F, S, SS)

ART 497 Studio Series 1(3 V)
Advanced sections of studio offerings. Prerequisite: ART 397 or
permission of instructor. (F, S, SS) Repeatable (99).

ART 500 Workshop 1(5 V)
Using materials and techniques based on advanced concepts and ideas.
Prerequisite: Permission of instructor and graduate standing. (F, S, SS)
Repeatable (99).

ART 511 Twentieth-Century Art 1(3 V)
Graduate study of artists, their biographies and art, politics and culture,
from the middle of the nineteenth through the end of the twentieth
century. Prerequisite: Permission of instructor. (F, S, SS) Repeatable (99).

ART 512 Contemporary Art 3(3-0)
Advanced study in contemporary art and associated criticism, aesthetics
and the philosophy of art through the end of the twentieth century.
Prerequisite: ART 212 or permission of instructor. (*)

ART 533 Graduate Level Sculpture/Public Art 3(0-6)
Graduate level work in sculpture/public art including explorations in
content, context, critique and techniques. Prerequisite: Three semesters
of undergraduate sculpture or permission of instructor. (F) Repeatable
(99).

ART 534 Graduate Painting 3(1.5-3)
Explore principles, theories, and techniques in contemporary painting:
content/imagery, materials and paint handling, work in a series,
exhibition, historical research, aesthetic discussion and critiques.
Prerequisite: Admission to graduate Teacher Education program, ART 242
and ART 434. (F, S) Repeatable (99).

ART 542 Graduate Drawing 3(1-4)
Professional drawing practices utilizing quality papers and display
presentation. Prerequisite: ART 412. (*)

ART 547 Ceramics 1(3 V)
Graduate level work in clay including explorations in ceramic content,
context, critique and techniques (forming, firing and glazing).
Prerequisite: Three semesters of undergraduate ceramics or permission
of instructor. (F, S, SS) Repeatable (99).

ART 570 Graduate Printmaking 3(0-6)
Graduate students will develop their personal, creative approach to image
making through innovative exploration of relief, intaglio or lithography.
Prerequisite: ART 470. (*)

ART 574 Graduate Digital Art 3(1.5-3)
Explore principles, theories, and techniques in contemporary digital
art: content/imagery, work in a series, exhibition, historical research,
aesthetic discussion and critiques. Prerequisite: Admission to graduate
Teacher Education program and ART 334 and ART 242 and ART 474 (or
equivalents of all courses). (F, S) Repeatable (99).
ART 576 Graduate Photography 3(1.5-3)
Explore principles, theories, and techniques in contemporary photography: content/imagery, programs, appropriate media output, work in a series, exhibition, historical research, aesthetic discussion and critiques. Prerequisite: Admission to graduate Teacher Education program and Art 374 and Art 476 (or equivalents of all courses), or permission of instructor. (F, S) Repeatable (99).

ART 591 Special Topics 1-3 V
Special Topics. Prerequisite: Permission of instructor and graduate standing. (F, S, SS) Repeatable (99).

ART 597 Studio Series 1-3 V
Graduate level studies. Prerequisite: Permission of instructor. (F, S, SS) Repeatable (99).

Athletic Training (AT)

AT 101 Introduction to Athletic Training 2(2-0)
Introduction to the profession and overview of the fundamentals of athletic training. (F, S)

AT 232 First Aid 2(1-1)
Knowledge and skills in current first-aid and CPR procedures for the Lay Responder. First-aid and CPR certification will be earned in this class. (F, S, SS)

AT 233 Emergency Care in Athletic Training 1(1-1)
CPR/AED training for the Professional Rescuer. Also, covers other emergency care skills used by athletic trainers. Prerequisite: AT 232 with a grade of B or better. (F, S, SS)

AT 234 Emergency Care 2(1-2)
Study of emergency care of injuries/illnesses, including the assessment of vital signs, splinting and emergency transport. Overview of injuries/illnesses associated with sudden death. Prerequisite: AT 232 and AT 260. Corequisite: N/A (F, S)

AT 260 Injury/Illness Care and Prevention 3(2-2)
Study of prevention and care of injuries and illnesses commonly sustained in an active population. (F, S)

AT 279 Practicum in Athletic Training I 2(0-4)
Instruction, practice and evaluation of assigned NATA psychomotor competencies and clinical proficiencies. Prerequisite: AT 232 with a grade of B or better and AT 260. (F, S)

AT 291 Special Topics 1-5 V
Special Topics. (F, S) Repeatable (99).

AT 301 (N/A) Physical Assessment 3(2-2)
Study of physical assessments including bone/soft tissue palpations, vital signs, goniometry, manual muscle testing, neurological testing, postural assessment, functional movement screening and documentation of results. Prerequisite: BIOL 223 and 223L and BIOL 224 and 224L. Corequisite: N/A (F, S)

AT 323 Functional Exercise Training 2(1-2)
Course applications include exercise program design, aspects of functional training, and components of various types of exercise regimens as related to injury prevention and recovery. Prerequisite: EXHP 364. (S)

AT 330 Lower Extremity Evaluation 3(2-2)
An in-depth study of assessment techniques and protocols applicable to injuries to the upper extremities. Prerequisite: AT 279 with a grade of B or better and BIOL 223 and 223L and approval of program director. (F)

AT 331 Upper Extremity Evaluation 3(2-2)
An in-depth study of assessment techniques and protocols applicable to injuries to the upper extremities. Prerequisite: AT 279 with a grade of B or better and BIOL 223 and 223L and approval of program director. (S)

AT 332 Head, Neck, and Spine Evaluation 3(2-2)
An in-depth study of assessment techniques and protocols applicable to injuries to the head, neck, and spine. Prerequisite: AT 330 and AT 331. (F)

AT 339 Clinical Pathology and Assessment 3(2-2)
Study of differential signs and symptoms produced by systemic diseases affecting physical activity in individuals to enable the athletic trainer in making sound clinical decisions. Prerequisite: AT 330 and approval of program director. (S)

AT 379 Practicum in Athletic Training II 1(0-2)
Continued instruction, practice and evaluation of clinical proficiencies, and clinical experience. Prerequisite: AT 279 a with a grade of B or better and approval of the program director. (F)

AT 389 Practicum in Athletic Training III 1(0-2)
Continued instruction, practice and evaluation of clinical proficiencies, and clinical experience. Prerequisite: AT 379 with a grade of B or better. (S)

AT 400 Workshop 1(1-5 V)
Learning experiences in athletic training offered in large block of time not corresponding to the weekly meeting times of the regular course offerings. Prerequisite: Approval of the program director. (*) Repeatable (99).

AT 419 Clinical Experience I 3(3-0)
Initial supervised experience in the clinical setting by a clinical preceptor. Prerequisite: Acceptance into clinical portion of program and approval of the program director. Corequisite: AT 379. (F, S)

AT 420 Clinical Experience II 3(3-0)
Supervised experience in the clinical setting by a clinical preceptor. Prerequisite: AT 379 and 419 with a grade of B or better. Corequisite: AT 389. (S)

AT 421 Clinical Experience II 3(3-0)
Supervised experience in the clinical setting by a clinical preceptor. Prerequisite: AT 420. Corequisite: AT 479. (F)

AT 422 Clinical Experience IV 3(3-0)
Supervised experience in the clinical setting by a clinical preceptor. Prerequisite: AT 479 and AT 421 with a grade of B or better. Corequisite: AT 489. (S)

AT 430 Therapeutic Modalities 3(2-2)
Study of theories and application of modalities used in the athletic training setting for the treatment of injuries. Prerequisite: AT 279 with a grade of B or better and approval of program director. (F)

AT 431 Therapeutic Exercise 3(2-2)
Study of current rehabilitation theories and application in the athletic training setting. Prerequisite: AT 430 and approval of the program director. (F)

AT 443 Administration in Athletic Training 3(3-0)
An examination of current topics in athletic training including legal liability, athletic training administration issues, and budgetary concerns. Prerequisite: Approval by program director. (S)

AT 479 Practicum in Athletic Training IV 1(0-2)
Continued instruction, practice and evaluation of clinical proficiencies, and clinical experience. Prerequisite: AT 389 with a grade of B or better. (F)

<td>Foundations of Athletic Training</td>
<td>3(2-2)</td>
<td>Study of select clinical skills of the athletic trainer, including taping/wrapping, goniometry, manual muscle testing, environmental concerns, record keeping, vital signs and immediate care of injuries/illnesses. Prerequisite: Acceptance into the MSAT Program. Corequisite: N/A (SS)</td>
</tr>
<tr>
<td>AT 502</td>
<td>Anatomy of Injury/Illness</td>
<td>4(2-4)</td>
<td>The study of the anatomical aspects of injuries and illnesses. The human integumentary, musculoskeletal, nervous, cardiovascular, respiratory, endocrine and digestive systems will be studied related to injury and illness. Prerequisite: Acceptance into the MSAT Program. Corequisite: N/A (SS)</td>
</tr>
<tr>
<td>AT 503</td>
<td>Fundamentals of Public Health</td>
<td>1(1-0)</td>
<td>Foundations of public health as it relates to athletic training, includes the history and current structure of public health, essential services, and national and professional organizations of public health society. Prerequisite: Acceptance to MSAT program. Corequisite: N/A (SS)</td>
</tr>
<tr>
<td>AT 504</td>
<td>Concepts of Ther Interventions</td>
<td>1(1-0)</td>
<td>Instruction on the concepts for the use of therapeutic modalities and rehabilitation in the management of injuries, including the application of select therapeutic modalities and rehabilitation skills. Prerequisite: Acceptance into MSAT Program. Corequisite: N/A (SS)</td>
</tr>
<tr>
<td>AT 510</td>
<td>Clinical Integration I</td>
<td>2(2-0)</td>
<td>The clinical integration of knowledge and skills of athletic training in various clinical settings, under the direction of an assigned clinical preceptor. Prerequisite: Acceptance into the MSAT Program. (F)</td>
</tr>
<tr>
<td>AT 511</td>
<td>Assessment and Management I</td>
<td>5(3-4)</td>
<td>Study of pathomechanics, assessment, and therapeutic intervention of the lower extremity. Use of evidence based assessment and intervention techniques for sound clinical decision making based on patient's needs. Prerequisite: AT 501 and AT 504. Corequisite: N/A (F)</td>
</tr>
<tr>
<td>AT 513</td>
<td>Professionalism and Ethics</td>
<td>1(1-0)</td>
<td>Study of the professional and ethical behaviors of the certified athletic trainer. (F)</td>
</tr>
<tr>
<td>AT 514</td>
<td>Research Design</td>
<td>3(3-0)</td>
<td>Study of the research process and evidence based practice in athletic training. Course will consist of evaluation of available research evidence quality and interpret statistical data and relevance. (F)</td>
</tr>
<tr>
<td>AT 520</td>
<td>Clinical Integration II</td>
<td>3(3-0)</td>
<td>The clinical integration of knowledge and skills of athletic training in the clinical environment, under the direction of a clinical preceptor. Prerequisite: AT 510. (S)</td>
</tr>
<tr>
<td>AT 521</td>
<td>Assessment and Management II</td>
<td>5(3-4)</td>
<td>Study of pathomechanics, assessment, and therapeutic intervention of the upper extremity. Use of evidence based assessment and intervention techniques for sound clinical decision making based on patient's needs. Prerequisite: AT 511. Corequisite: N/A (S)</td>
</tr>
<tr>
<td>AT 522</td>
<td>General Medical and Pharmacology</td>
<td>5(3-4)</td>
<td>Study of general medical conditions and pharmacological topics related to active patients under the care of the athletic trainer, resulting in the ability to make sound decisions related to management and referral. Prerequisite: Acceptance into the MSAT Program. (S)</td>
</tr>
<tr>
<td>AT 530</td>
<td>Clinical Integration III</td>
<td>2(2-0)</td>
<td>A general medical specific clinical integration. Students will be responsible for obtaining a family practice or internal medicine physician to serve as their clinical preceptor. Must be approved by the program director. Prerequisite: AT 520. (SS)</td>
</tr>
<tr>
<td>AT 531</td>
<td>Assessment and Management III</td>
<td>3(2-2)</td>
<td>Study of pathomechanics, assessment, and therapeutic intervention of the head, neck and spine. Use of evidence based assessment and intervention techniques for sound clinical decision making based on patient's needs. Prerequisite: AT 521. Corequisite: N/A (SS)</td>
</tr>
<tr>
<td>AT 532</td>
<td>Psychology and Social Aspects</td>
<td>2(2-0)</td>
<td>The study, recognition and appropriate intervention of disorders affecting socio-cultural, mental, emotional and physical behaviors of those under the care of the athletic trainer. (SS)</td>
</tr>
<tr>
<td>AT 533</td>
<td>Fundamentals of Epidemiology</td>
<td>1(1-0)</td>
<td>Understanding of health risk and injury. Topics include history of epidemiology and population health, epidemiological study design and population health data tracking in the US as it relates to athletic training. (SS)</td>
</tr>
<tr>
<td>AT 540</td>
<td>Clinical Integration IV</td>
<td>4(4-0)</td>
<td>The clinical integration of knowledge and skills of athletic training in the clinical environment, under the direction of a clinical preceptor. Prerequisite: AT 530. (F)</td>
</tr>
<tr>
<td>AT 542</td>
<td>Administration in Athletic Training</td>
<td>3(3-0)</td>
<td>Study of planning, coordinating and supervising administrative components of athletic training, including those pertaining to health care, financial, personnel, facilities management and public relations. (F)</td>
</tr>
<tr>
<td>AT 545</td>
<td>Applied Research Statistics in AT</td>
<td>3(3-0)</td>
<td>Introduces the statistical analyses common in athletic training research. Focus will be on quantitative statistical methods for conducting experimental and correlational research. Prerequisite: AT 514. (F)</td>
</tr>
<tr>
<td>AT 550</td>
<td>Clinical Integration V</td>
<td>5(5-0)</td>
<td>The clinical integration of knowledge and skills of athletic training in the clinical setting under the direction of a clinical preceptor. This is a full immersion clinical experience. Prerequisite: AT 540. (S)</td>
</tr>
<tr>
<td>AT 551</td>
<td>BOC Test Prep</td>
<td>1(1-0)</td>
<td>This course involves assessment of the student's current status of preparation for the BOC exam. Guidance for reviewing the knowledge and skills content of NAT educational competencies and study plan development. Prerequisite: Enrolled in last semester of the MSAT Program. (S)</td>
</tr>

</table>
Automotive Industry Management (AIM)

AIM 105 AIM and College Life 1(1-0)
Introduction to the industry from viewpoint of history, social impact, and future growth. Provide student exposure to AIM program policies and procedures, campus resources and college life. (F, S)

AIM 115 Automotive Engine Design, Operation and Repair 5(3-4)
Design, operation and repair techniques of current and future automotive engines. (F)

AIM 125 Automotive Suspension and Brake Systems 3(3-0)
Design and theory of front and rear automotive suspensions, steering, and brake systems. (F)

AIM 125L Automotive Suspension and Brake Systems Lab 1(0-2)
Automotive Suspension and Brake Systems Lab. Corequisite: AIM 125. (F)

AIM 155 Automotive Parts Operations 4(4-0)
Study of automotive industry management theory and styles of store operations including customer service skills, associate interaction, managerial responsibilities. Product and parts catalog knowledge/ advertising. (F)

AIM 165 Automotive Power Trains and Drive Lines 3(3-0)
Design and theory of standard and automatic transmissions, clutches, drive lines, differentials, and transaxles. Corequisite: AIM 165L. (S)

AIM 165L Automotive Power Trains and Drive Lines Lab 1(0-2)
Automotive Power Trains and Drive Lines Lab. Corequisite: AIM 165. (S)

AIM 235 Automotive Engine Performance 3(3-0)
Design and theory of automotive fuel systems, fuel injection, and supercharging; functions and design of automotive emissions systems. Prerequisite: AIM 115 and AIM 245 and 245L. Corequisite: AIM 235L. (S)

AIM 235L Automotive Engine Performance Lab 1(0-2)
Automotive Fuel Systems and Exhaust Emissions Systems Lab. Corequisite: AIM 235. (S)

AIM 245 Automotive Electrical Systems I 3(3-0)
Design and theory of operation of automotive electrical circuits; ignition, starting, charging, and accessory circuits, with study of diagnostic equipment used to diagnose system malfunctions. (F)

AIM 245L Automotive Electrical Systems Laboratory I 1(0-2)
Automotive Electrical Systems Laboratory I. Corequisite: AIM 245. (F)

AIM 255 Automotive Electrical Systems II 3(3-0)
Design and operational theory of solid state ignition systems and computer-controlled systems including engine, braking, transmission, emission, and comfort systems. Prerequisite: AIM 245 and 245L Corequisite: AIM 255L (S)

AIM 255L Automotive Electrical Systems II Lab 1(0-2)
Automotive Electrical Systems II Lab. Corequisite: AIM 255. (S)

AIM 265 Automotive Parts Management Systems 4(3-2)
Introduce students to aftermarket store operations, inventory and distribution management. Emphasis is on hands-on store operations, business contacts, job placement and internship. Prerequisite: AIM 105 and AIM 155. (S)

AIM 296 Cooperative Education Placement 1(5-V)
Supervised industrial field work. Prerequisite: AIM major. (F, S)

AIM 305 Regulatory, Enviro, Health Issues 3(3-0)
A study of automotive regulatory issues to include, OSHA, SDS, RTK, health and environmental issues. (F)

AIM 325 Fuels and Lubricant Production, Marketing and Conservation 3(3-0)
Petroleum industry; basic production processes, marketing techniques, alternate fuel sources, and conservation techniques. (F)

AIM 335 Automotive Shop Practices 5(2-6)
Diagnosis of electrical, fuel, engine, brake and transmission systems; study of service management and service writer duties. Prerequisite: AIM 125 and 125L and AIM 165 and 165L and AIM 235 and 235L and AIM 255 and 255L and AIM 345. (S)

AIM 345 Advanced Automotive Systems 5(3-4)
Theory and lab experience on new concepts in automotive electrical, fuel and suspension systems. Prerequisite: AIM 125 and 125L and AIM 165 and 165L and AIM 235 and 235L and AIM 255 and 255L. (F)

AIM 405 Personal Selling Methods and Techniques 4(3-2)
Research, preparation and presentation methods and techniques for selling in the automotive milieu. (F)

AIM 425 Automotive Financial Management 5(4-2)
Introduction to dealership operations, financial management and analysis of OEM. Emphasis to develop experience through job placement and internship. Prerequisite: AIM 155 and AIM 265. (S)

AIM 490 Special Projects 1(5-V)
Special interest area. (*) Repeatable (10).

AIM 491 Special Topics 1(5-V)
Special Topics. (F, S) Repeatable (10).

AIM 495 Independent Study 1(4-V)
Directed, independent study of topics agreed upon by the student and instructor. (F, S, SS) Repeatable (10).

AIM 496 Cooperative Education Placement 1(5-V)
Supervised industrial field work. Prerequisite: Junior or senior standing and AIM major. (F, S) Repeatable (10).

Biology (BIOL)

BIOL 100 Principles of Biology 3(3-0)
Introduction to basic principles common to all facets of biology. Topics include a brief history of biology, the scientific method, the diversity of life, cell structure and reproduction, and metabolism. Corequisite: BIOL 100L. (F, S) (Gen Ed: ST, GT-SC2)

BIOL 100L Principles of Biology Lab 1(0-2)
To expose the student to problem-solving skills emphasizing the importance of observation and data accumulation. Corequisite: BIOL 100. (F, S) (Gen Ed: ST, GT-SC1)

BIOL 112 Nutrition 3(3-0)
Analysis of personal dietary habits and behavior in relation to basic human nutritional needs and food composition. (F, S)
BIOL 121 Environmental Conservation 3(3-0)
Historical review of humankind’s interrelationship with and impact on the natural environment. Basic principles of ecology and current issues relating to the use of natural resources and environmental problems. Corequisite: BIOL 121L. (F, S, SS) (Gen Ed: ST, GT-SC2)

BIOL 121L Environmental Conservation Lab 1(0-2)
Field studies to accompany BIOL 121. Corequisite: BIOL 121. (F, S, SS) (Gen Ed: ST, GT-SC1)

BIOL 171 First Year Seminar 1(1-0)
Biology majors entering the program are provided guidance on studying and skills specific to science. Biological career diversity and planning for degree completion are discussed. (F, S)

BIOL 181 College Biology I/Organismal Bio 3(3-0)
Biological diversity and structure-function relationships, evolution and ecology. Prerequisite: Math placement at college algebra or higher. BIOL 100/100L is recommended. Corequisite: BIOL 181L. (F, S) (Gen Ed: ST, GT-SC2)

BIOL 181L College Biology I/Organismal Bio Lab 1(0-2)
College Biology I/Organismal Bio Lab. Corequisite: BIOL 181L. (F, S) (Gen Ed: ST, GT-SC1)

BIOL 182 College Biology II/Cellular Biology 3(3-0)
Continuation of BIOL 181. Basic cell structure and function, reproduction and heredity. Prerequisite: BIOL 181 and 181L and CHEM 121 and 121L. Corequisite: BIOL 182L. (F, S) (Gen Ed: ST, GT-SC2)

BIOL 182L College Biology II/Cellular Bio Lab 1(0-2)
College Biology II/Cellular Bio Lab. Prerequisite: BIOL 181 and 181L and CHEM 121 and 121L. Corequisite: BIOL 182L. (F, S) (Gen Ed: ST, GT-SC1)

BIOL 183 College Biology I Recitation 1(1-0)
Critical thinking for College Biology I topics. Corequisite: BIOL 181L. (F, S)

BIOL 184 College Biology II Recitation 1(1-0)
Critical thinking for College Biology II topics. Corequisite: BIOL 182L. (F, S)

BIOL 201 Botany 2(2-0)
Forms, basic structures, relationships, life histories and evolutionary trends of representatives of the major autotrophic plant groups. Prerequisite: BIOL 181 and 181L and BIOL 182 and 182L. Corequisite: BIOL 201L. (S) (Gen Ed: ST, GT-SC2)

BIOL 201L Botany Laboratory 2(0-4)
Botany Laboratory. Prerequisite: BIOL 181 and 181L and BIOL 182 and 182L. Corequisite: BIOL 201. (S) (Gen Ed: ST, GT-SC1)

BIOL 202 Zoology 2(2-0)
Study of structure, function, evolution, biodiversity, behavior, and ecology of vertebrates and invertebrates, including protozoans and human parasites. Prerequisite: BIOL 181 and 181L and BIOL 182 and 182L. Corequisite: BIOL 202L. (F) (Gen Ed: ST)

BIOL 202L Zoology Laboratory 2(0-4)
Zoology Laboratory. Prerequisite: BIOL 181 and 181L and BIOL 182 and 182L. Corequisite: BIOL 202L. (F) (Gen Ed: ST)

BIOL 203 Zoology Recitation 1(1-0)
Recitation to accompany BIOL 202. Corequisite: BIOL 202 and 202L. (F)

BIOL 206 Introduction to Microbiology 3(3-0)
For students of nursing and allied health. Applied aspects of medical microbiology. Prerequisite: BIOL 100 and 100L or BIOL 223 and 223L; and CHEM 111 and 111L. Corequisite: BIOL 206L. (F)

BIOL 206L Introduction to Microbiology Lab 1(0-3)
Introduction to Microbiology Lab. Corequisite: BIOL 206. (F)
| Course Code | Course Title                                      | Credits | Description                                                                                                                                                                                                 | Prerequisites                                                                 || Corequisite                                                                 |
|------------|--------------------------------------------------|---------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------|------------------------------------------------------------------------------|
| BIOL 350   | Mendelian and Population Genetics 2(2-0)         |         | Survey of basic Mendelian genetics, genetic mapping and population genetics. Prerequisite: BIOL 182 and 182L and MATH 121. MATH 156 is strongly recommended. (F, S)                                                      |                                                                               |                                                                               |
| BIOL 351   | Molecular Biology and Genetics 2(2-0)             |         | Study of the molecular flow of genetic information, gene regulation and cancer genetics. Prerequisite: BIOL 350 and CHEM 122 and 122L. (F, S)                                                                 |                                                                               |                                                                               |
| BIOL 351L  | Advanced Genetics and Molecular Biology Laboratory 2(0-4) |       | Molecular biology investigations of gene regulation and recombinant DNA. Prerequisite: BIOL 350 and CHEM 122 and 122L. Corequisite: BIOL 351. (S)                                                                 |                                                                               |                                                                               |
| BIOL 352   | Evolutionary Biology and Ecology 3(3-0)          |         | Historical view of the theory of evolution with emphasis on the relationship between organisms and the environment, and the mechanisms and forces that produce evolutionary change. Prerequisite: BIOL 181 and 181L and BIOL 182 and 182L. BIOL 350 recommended. (F, S) |                                                                               |                                                                               |
| BIOL 378   | Laboratory in Teaching Biology 1(0-2)            |         | Laboratory preparation, safety, instruction and methods under the guidance and supervision on an instructor. Prerequisite: Approval of instructor. (F, S) Repeatable (99).                                           |                                                                               |                                                                               |
| BIOL 392   | Research 1(3-3 V)                                |         | Faculty directed research project for undergraduate student. May be repeated for a maximum of 3 credits, total. Prerequisite: Approval of department chair. (F, S, SS) Repeatable (3).                                            |                                                                               |                                                                               |
| BIOL 394   | Field Experience 1(1-4 V)                        |         | Volunteer work experience under program director, program coordinator, and faculty supervisor. (F, S, SS) Repeatable (99).                                                                                   |                                                                               |                                                                               |
| BIOL 402   | Immunology 3(3-0)                                |         | Humoral and cell-mediated immunity including immune disorders and theories of immunological techniques. Prerequisite: BIOL 301 and 301L.                                                                       |                                                                               |                                                                               |
| BIOL 403   | Virology 3(3-0)                                  |         | Molecular aspects of viral infection of bacteria, plants, and animals including viral replication, host range, host defenses, antiviral drugs, and viral ecology. Prerequisite: BIOL 301 or BIOL 351. Corequisite: BIOL 403L. (F, E) |                                                                               |                                                                               |
| BIOL 403L  | Virology Lab 1(0-2)                              |         | Virology Lab. Prerequisite: BIOL 301 or BIOL 351. Corequisite: BIOL 403. (F, E)                                                                                                                         |                                                                               |                                                                               |
| BIOL 412   | Cellular Biology 3(3-0)                          |         | Structural and functional organization of the cell, life cycles of cells, intracellular digestion, protein synthesis and cell death. Prerequisite: CHEM 301 and 301L and BIOL 301 and 301L and BIOL 351. CHEM 302 and 302L is strongly recommended. Corequisite: BIOL 412L. (S) |                                                                               |                                                                               |
| BIOL 412L  | Cellular Biology Lab 1(0-3)                      |         | Cellular Biology Lab. Prerequisite: CHEM 301 and 301L and BIOL 301 and 301L, and BIOL 351. Corequisite: BIOL 412. (S)                                                                                       |                                                                               |                                                                               |
| BIOL 413   | Plant Physiology 2(2-0)                          |         | Thorough examination of general physiology and function of plant body systems. Prerequisite: BIOL 201 and 201L and CHEM 301 and 301L. Corequisite: BIOL 413L. (S, O)                                                                 |                                                                               |                                                                               |
| BIOL 413L  | Plant Physiology Lab 2(0-4)                      |         | Plant Physiology Lab. Prerequisite: BIOL 201 and 201L and CHEM 301 and 301L. Corequisite: BIOL 413L. (S, O)                                                                                                   |                                                                               |                                                                               |
| BIOL 414   | Vertebrate Physiology 3(3-0)                     |         | General physiology and the functions of animal and human body systems. Prerequisite: BIOL 202 and CHEM 301 and 301L. CHEM 302 and 302L and MATH 156 are strongly recommended. Corequisite: BIOL 414L. (F) |                                                                               |                                                                               |
| BIOL 414L  | Vertebrate Physiology Lab 1(0-2)                 |         | Vertebrate Physiology Lab. Corequisite: BIOL 414. (F)                                                                                                                                                    |                                                                               |                                                                               |
| BIOL 421   | Histology 2(2-0)                                 |         | A microscopic study of vertebrate tissues and organs. Prerequisite: BIOL 182 and 182L and CHEM 122 and 122L. Corequisite: BIOL 421L. (S, O)                                                                     |                                                                               |                                                                               |
| BIOL 421L  | Histology Lab 2(0-4)                             |         | Histology Lab. Corequisite: BIOL 421. (S, O)                                                                                                                                                             |                                                                               |                                                                               |
| BIOL 422   | Neurobiology 3(3-0)                              |         | Fundamentals of neuroscience, cellular and molecular signaling in the nervous system, electrophysiological properties of neurons, sensory and motor systems, and cellular mechanisms of cognition. Prerequisite: BIOL 351. (S, E) |                                                                               |                                                                               |
| BIOL 432   | Developmental Biology 2(2-0)                     |         | Theory and principles of the development of representative vertebrate and invertebrate animals, with particular emphasis on the frog, chick, and Drosophila. Prerequisite: BIOL 351. Corequisite: BIOL 432L. (*) |                                                                               |                                                                               |
| BIOL 432L  | Developmental Biology Lab 2(0-4)                 |         | Developmental Biology Lab. Corequisite: BIOL 432. (*)                                                                                                                                                     |                                                                               |                                                                               |
| BIOL 440   | Advanced Biotechniques 2(2-0)                    |         | Advanced laboratory-based class covering important cellular/molecular techniques and instruments. Topics include Flow cytometry, Advanced Microscopy, Molecular Cloning, CRISPR, Western Blots, and Quantitative PCR. Prerequisite: BIOL 351 and BIOL 301. Corequisite: BIOL 440L. (F, O) |                                                                               |                                                                               |
| BIOL 440L  | Advanced Biotechniques Lab 2(0-2)                |         | Advanced laboratory-based class covering important cellular/molecular techniques and instruments. Topics include Flow cytometry, Advanced Microscopy, Molecular Cloning, CRISPR, Western Blots, and Quantitative PCR. Prerequisite: BIOL 351 and BIOL 301. Corequisite: BIOL 440L. (F, O) |                                                                               |                                                                               |
| BIOL 441   | Freshwater Invertebrate Zoology 2(2-0)           |         | Classification, phylogeny, systematics, morphology, physiology, and natural history of freshwater invertebrates inclusive of insects. Prerequisite: BIOL 202 and 202L. Corequisite: BIOL 441L. (S, O) |                                                                               |                                                                               |
| BIOL 441L  | Freshwater Invertebrate Zoology Lab 2(0-4)       |         | Freshwater Invertebrate Zoology Lab. Corequisite: BIOL 441L. (S, O)                                                                                                                                 |                                                                               |                                                                               |
| BIOL 443   | Limnology 2(2-0)                                 |         | Biology, chemistry and physics of lakes and rivers. Prerequisite: BIOL 201 and 201L and BIOL 202 and 202L. Corequisite: BIOL 443L. (S, E)                                                                      |                                                                               |                                                                               |
| BIOL 443L  | Limnology Lab 2(0-4)                             |         | Limnology Lab. Corequisite: BIOL 443L. (S, E)                                                                                                                                                            |                                                                               |                                                                               |
| BIOL 452   | Advanced Microscopy 2(2-0)                       |         | Theory and application of microscopy to the biological sciences. Includes preparation of cells and tissues for examination, scope, operation, and image analysis. Prerequisite: BIOL 301 and 301L or permission of instructor. Corequisite: BIOL 452L. (*) |                                                                               |                                                                               |
| BIOL 452L  | Advanced Microscopy Lab 2(0-4)                   |         | Advanced Microscopy Lab. Corequisite: BIOL 452. (*)                                                                                                                                                       |                                                                               |                                                                               |
| BIOL 453   | Ecology 2(2-0)                                   |         | Interrelationships among organisms and their environment, employing quantitative methods and conceptual models. Prerequisite: BIOL 352 and MATH 221 or MATH 126. Corequisite: BIOL 453L. (F, E) |                                                                               |                                                                               |
BIOL 453L Ecology Field Studies 2(2-0)
Ecology Field Studies. Corequisite: BIOL 453. (F, E)

BIOL 454 Behavioral Ecology 3(3-0)
Evolution and adaptive significance of animal behaviors with a focus on current research. Prerequisite: BIOL 352 or permission of instructor. (F, O)

BIOL 461 Applied Geospatial Technology (GIS/GPS) 3(3-0)
Theory and practice of using Geographic Information Systems (GIS) and Global Positioning Systems (GPS) for geographic data analysis, and to georeference data. (F, O)

BIOL 462 Environmental Policy & Management 3(3-0)
Scientific basis of environmental regulations applied to air/water quality, solid waste, and hazardous waste; technologies and procedures used by generators to achieve compliance. Prerequisite: BIOL 352. (S, O)

BIOL 465 Environmental Toxicology 3(3-0)
Basic principles of toxicology, interaction of xenobiotics with living organisms and the environment, and the impact of pollutants on the ecosystem. Prerequisite: BIOL 181 and 181L and BIOL 182 and 182L. CHEM 302 and 302L is strongly recommended. (F, E)

BIOL 473 Med. Tech. Clinical Rotation I 12(5-14)
Coursework and clinical training in an affiliated medical laboratory sciences facility. Specific course of study determined by facility. Prerequisite: Consent of instructor. (*)

BIOL 474 Med. Tech. Clinical Rotation II 12(5-14)
Coursework and clinical training in an affiliated medical laboratory sciences facility. Specific course of study determined by facility. Prerequisite: Consent of instructor. (*)

BIOL 475 Med. Tech. Clinical Rotation III 6(3-6)
Coursework and clinical training in an affiliated medical laboratory sciences facility. Specific course of study determined by facility. Prerequisite: Consent of instructor. (*)

BIOL 479 Ichthyology 2(2-0)
The morphology, taxonomy and ecology of fishes; an introduction to fishery biology and aquaculture. Field trips are an integral part of the course. Prerequisite: BIOL 202 and 202L. Corequisite: BIOL 479L. (F, O)

BIOL 479L Ichthyology Laboratory 1(0-2)
Ichthyology Laboratory. Corequisite: BIOL 479. (F, O)

BIOL 481 Entomology 2(2-0)

BIOL 481L Entomology Lab 1(0-2)
Entomology Lab. Corequisite: BIOL 481. (F, O)

BIOL 482 Herpetology 2(2-0)
Diversity, anatomy, physiology, evolution, and ecology of reptiles of amphibians. Emphasis will be placed on novel evolutionary adaptations within the major taxa. Prerequisite: BIOL 202 and 202L. Corequisite: BIOL 482L. (*)

BIOL 482L Herpetology Lab 1(0-1)
Herpetology Lab. Prerequisite: BIOL 202 and 202L. Corequisite: BIOL 482. (*)

BIOL 483 Mammalogy 2(2-0)
Evolution, classification and biology of mammals; practice in identifying and preparing specimens. Prerequisite: BIOL 202 and 202L. Corequisite: BIOL 483L. (S, E)

BIOL 483L Mammalogy Lab 1(0-2)
Mammalogy Lab. Corequisite: BIOL 483. (S, E)

BIOL 484 Ornithology 2(2-0)
Classification, life history, laboratory and field identification of birds. Prerequisite: BIOL 202 and 202L. Corequisite: BIOL 484L. (S, O)

BIOL 484L Ornithology Lab 1(0-2)
Ornithology Lab. Corequisite: BIOL 484. (S, O)

BIOL 485 Plant Taxonomy 2(2-0)
Identification of the common vascular plant families of Colorado with an emphasis on the flowering plants; study of their systematic relationships. Prerequisite: BIOL 201 and 201L. Corequisite: BIOL 485L. (F)

BIOL 485L Plant Taxonomy Lab 2(0-4)
Plant Taxonomy Lab. Corequisite: BIOL 485. (F)

BIOL 486 Field Botany 3(3-0)
Principles and applications of field techniques used in vegetation assessment, surveys, and vegetation monitoring. Prerequisite: BIOL 201 and 201L. (*)

BIOL 491 Special Topics 1-4 V
Special Topics. (F, S, SS) Repeatable (99).

BIOL 492 Research 1-3 V
Faculty directed research project for undergraduate student. Prerequisite: Approval of department chair. (F, S, SS) Repeatable (3).

BIOL 493 Seminar 1(1-0)
Seminar for majors and minors concerning unique, current, or unusual topics in biology. Speakers may include guests, faculty, or students. Required of majors. Prerequisite: Senior standing and completion of all biology core courses. (F, S)

BIOL 494 Field Experience 1-4 V
Volunteer work experience under program director, program coordinator and faculty supervisor. (F, S, SS) Repeatable (99).

BIOL 495 Independent Study 1-4 V
Prerequisite: junior standing, biology major, permission of instructor and department. Prerequisite: Junior standing and biology major and permission of instructor and department. (F, S, SS) Repeatable (99).

BIOL 498 Internship 5-15 V
Work experience in the Biology discipline under the combined supervision of the selected organization and a faculty member. Prerequisite: Permission of department chair. (F, S, SS) Repeatable (99).

BIOL 502 Immunology 3(3-0)
Humoral and cell-mediated immunity including immune disorders and theories of immunological techniques. Prerequisite: BIOL 301 and 301L. (S)

BIOL 503 Virology 3(3-0)
Molecular aspects of viral infection of bacteria, plants, and animals including viral replication, host range, host defenses, antiviral drugs, and viral ecology. Prerequisite: BIOL 301 or BIOL 351. Corequisite: BIOL 503L. (F, E)

BIOL 503L Virology Lab 1(0-2)
Virology Lab. Prerequisite: BIOL 301 or BIOL 351. Corequisite: BIOL 503. (F, E)

BIOL 510 Foundations in Graduate Studies 3(3-0)
Laboratory safety. Effective sourcing, use, and interpretation of the literature. Scientific methodology, writing, and review of research ethics. Development of a thesis or internship plan. Prerequisite: Admission to MS program. (F)
Biology (BIOL)

BIOL 512 Cellular Biology 3(3-0)
Structural and functional organization of the cell, life cycles of cells, intracellular digestion, protein synthesis and cell death. Prerequisite: CHEM 301 and 301L and BIOL 301 and 301L, and BIOL 351. CHEM 302 and 302L is strongly recommended. Corequisite: BIOL 512L. (S)

BIOL 512L Cellular Biology Lab 1(0-3)
Cellular Biology Lab. Corequisite: BIOL 512. (S)

BIOL 513 Plant Physiology 2(2-0)
Thorough examination of general physiology and function of plant body systems. Prerequisite: BIOL 201 and 201L and CHEM 301 and 301L. Corequisite: BIOL 513L. (S, O)

BIOL 513L Plant Physiology Lab 2(0-4)
Plant Physiology Lab. Prerequisite: BIOL 201 and 201L and CHEM 301 and 301L. Corequisite: BIOL 513. (S, O)

BIOL 514 Vertebrate Physiology 3(3-0)
General physiology and the functions of animal and human body systems. Prerequisite: BIOL 202 and CHEM 301 and 301L. CHEM 302 and 302L and MATH 156 are strongly recommended. Corequisite: BIOL 514L. (F)

BIOL 514L Vertebrate Physiology Lab 1(0-1)
Vertebrate Physiology Lab. Prerequisite: BIOL 202 and CHEM 301 and 301L. CHEM 302 and 302L and MATH 156 are strongly recommended. Corequisite: BIOL 514. (F)

BIOL 521 Histology 2(2-0)
A microscopic study of vertebrate tissues and organs. Prerequisite: BIOL 182 and 182L and CHEM 122 and 122L. Corequisite: BIOL 521L. (S, O)

BIOL 521L Histology Lab 2(0-4)
Histology Lab. Corequisite: BIOL 521. (S, O)

BIOL 522 Neurobiology 3(3-0)
Fundamentals of neuroscience, cellular and molecular signaling in the nervous system, electrophysiological properties of neurons, sensory and motor systems, and cellular mechanisms of cognition. Prerequisite: BIOL 351. (S, E)

BIOL 532 Developmental Biology 2(2-0)
Theory and development of the representative vertebrate and invertebrate animals, with particular emphasis on the frog, chick, and Drosophila. Prerequisite: BIOL 351. Corequisite: BIOL 532L. (*)

BIOL 532L Developmental Biology Lab 2(0-4)
Developmental Biology Lab. Corequisite: BIOL 532. (*)

BIOL 540 Advanced Biotechniques 2(2-0)
Advanced laboratory-based class covering important cellular/molecular techniques and instruments. Topics include Flow cytometry, Advanced Microscopy, Molecular Cloning, CRISPR, Western Blots, and Quantitative PCR. Prerequisite: BIOL 351 and BIOL 301. Corequisite: BIOL 540L. (F, O)

BIOL 540L Advanced Biotechniques Lab 2(0-2)
Advanced laboratory-based class covering important cellular/molecular techniques and instruments. Topics include Flow cytometry, Advanced Microscopy, Molecular Cloning, CRISPR, Western Blots, and Quantitative PCR. Prerequisite: BIOL 351 and BIOL 301. Corequisite: BIOL 540. (F, O)

BIOL 541 Freshwater Invertebrate Zoology 2(2-0)
Classification, phylogeny, systematics, morphology, physiology, and natural history of freshwater invertebrates inclusive of insects. Prerequisite: BIOL 202 and 202L. Corequisite: BIOL 541L. (S, O)

BIOL 541L Freshwater Invertebrate Zoology Lab 2(0-4)
Freshwater Invertebrate Zoology Lab. Corequisite: BIOL 541. (S, O)

BIOL 543 Limnology 2(2-0)
Biological, chemical, and physical processes of lakes and rivers. Prerequisite: BIOL 201 and 201L and BIOL 202 and 202L. Corequisite: BIOL 543L. (S, E)

BIOL 543L Limnology Lab 2(0-4)
Limnology Lab. Corequisite: BIOL 543. (S, E)

BIOL 552 Advanced Microscopy 2(2-0)
Theory and application of microscopy to the biological sciences. Includes preparation of cells and tissues for examination, scope operation, and image analysis. Corequisite: BIOL 552L. (*)

BIOL 552L Advanced Microscopy Lab 2(0-4)
Advanced Microscopy Lab. Corequisite: BIOL 552. (*)

BIOL 553 Ecology 2(2-0)
Interrelationships among organisms and their environment, employing quantitative methods and conceptual models. Prerequisite: BIOL 352 and MATH 221. Corequisite: BIOL 553L. (F, E)

BIOL 553L Ecology Field Studies 2(0-4)
Ecology Field Studies. Corequisite: BIOL 553. (F, E)

BIOL 554 Behavioral Ecology 3(3-0)
Evolution and adaptive significance of animal behaviors with a focus on current research. Prerequisite: BIOL 352 or permission of instructor. (F, O)

BIOL 561 Applied Geospatial Technology (GIS/GPS) 3(3-0)
Theory and practice of using Geographic Information Systems (GIS) and Global Positioning Systems (GPS) for geographic data analysis, and to georeference data. (F, O)

BIOL 562 Environmental Policy & Management 3(3-0)
Scientific basis of environmental regulations applied to air/water quality, solid waste, and hazardous waste; technologies and procedures used by generators to achieve compliance. Prerequisite: BIOL 352. Corequisite: NA. (S, O)

BIOL 565 Environmental Toxicology 3(3-0)
Basic principles of toxicology, interaction of the xenobiotics with living organisms and the environment, and the impact of pollutants on the ecosystem. Prerequisite: BIOL 182 and 182L. CHEM 302 is strongly recommended. (F, E)

BIOL 578 Practicum in Laboratory Instruction 1(0-2)
Laboratory preparation, instruction, and methods under the guidance and supervision of a professor. Prerequisite: Graduate standing or permission of department chair. (F, S) Repeatable (4).

BIOL 579 Ichthyology 2(2-0)
The morphology, taxonomy and ecology of fishes; an introduction to fishery biology and aquaculture. Field trips are an integral part of the course. Prerequisite: BIOL 202 and 202L. Corequisite: BIOL 579L. (F, O)

BIOL 579L Ichthyology Laboratory 1(0-2)
Ichthyology Laboratory. Corequisite: BIOL 579. (F, O)

BIOL 581 Entomology 2(2-0)

BIOL 581L Entomology Lab 1(0-2)
Entomology Lab. Corequisite: BIOL 581. (F, O)

BIOL 582 Herpetology 2(2-0)
Diversity, anatomy, physiology, evolution, and ecology of reptiles and amphibians. Emphasis will be placed on novel evolutionary adaptations within the major taxa. Prerequisite: BIOL 202 and 202L. Corequisite: BIOL 582L. (*)
BIOL 582L Herpetology Lab 1(0-1)
Herpetology Lab. Prerequisite: BIOL 202 and 202L. Corequisite: BIOL 582. (*)

BIOL 583 Mammalogy 2(2-0)
Evolution, classification and biology of mammals; practice in identifying and preparing specimens. Prerequisite: BIOL 202 and 202L. Corequisite: BIOL 583L. (S, E)

BIOL 583L Mammalogy Lab 1(0-2)
Mammalogy Lab. Corequisite: BIOL 583. (S, E)

BIOL 584 Ornithology 2(2-0)
Classification, life history, laboratory and field identification of birds. Prerequisite: BIOL 202 and 202L. Corequisite: BIOL 584L. (S, O)

BIOL 584L Ornithology Lab 1(0-2)
Ornithology Lab. Corequisite: BIOL 584. (S, O)

BIOL 585 Plant Taxonomy 2(2-0)
Identification of common vascular plant families of Colorado with an emphasis on the flowering plants; study of their systematic relationships. Prerequisite: BIOL 201 and 201L. Corequisite: BIOL 585L. (F)

BIOL 585L Plant Taxonomy Lab 2(0-4)
Plant Taxonomy Lab. Corequisite: BIOL 585. (F)

BIOL 586 Field Botany 3(3-0)
Principles and applications of field techniques used in vegetation assessment, surveys, and vegetation monitoring. Prerequisite: Graduate standing. (*)

BIOL 588 Internship Seminar 1(1-0)
Graduate internship presentation and examination for completion of MS degree option within the Graduate Programs in Natural Sciences. Prerequisite: Graduate standing. (F, S, SS)

BIOL 589 Thesis Defense 1(1-0)
Thesis presentation for completion of MS degree option within the Graduate Programs in Natural Sciences. Prerequisite: Graduate standing. (F, S, SS)

BIOL 591 Special Topics 1-4 V
Special Topics. (F, S, SS) Repeatable (99).

BIOL 592 Research 1-6 V
Faculty directed research project for graduate students. Prerequisite: Graduate standing and approval of department chair or program director. (F, S, SS) Repeatable (99).

BIOL 593 Seminar 1(1-0)
An interdisciplinary seminar on topics appropriate to the application of natural sciences. Prerequisite: BIOL 510. (*)

BIOL 595 Independent Study 1-4 V
Prerequisite: Graduate standing, biology major, permission of instructor and department. Prerequisite: Graduate standing and biology major and permission of instructor and department. (F, S, SS)

BIOL 598 Internship 1-4 V
Volunteer or paid work experience under the combined supervision of the selected organization and a faculty member. Prerequisite: Graduate standing. (F, S, SS)

BIOL 599 Thesis Research 1-6 V
Continued enrollment is dependent upon satisfactory progress in thesis work. Prerequisite: Graduate standing and approval of department chair. (F, S, SS) Repeatable (6).

Business Administration (BUSAD)

BUSAD 101 Business-Careers and Opportunities 1(1-0)
Introduction to the world of business that will provide insights on careers, business disciplines, and the world of business. (F, S)

BUSAD 102 Introduction to Personal Finance 1(1-0)
This introductory course serves as a vehicle to deliver fundamental personal financial management skills to students, providing the tools necessary to make good financial decisions. (*)

BUSAD 211 Introduction to Study Abroad 1(1-0)
Course designed to inform students about the study abroad process in order to maximize their international learning experience. (*)

BUSAD 250 Business Law 3(3-0)
Explores the legal environment of business. Topics include contracts, torts, agency, ethical and criminal implications of business actions, and property laws. Prerequisite: ENG 101 and 102 and BUSAD 101. (F, S)

BUSAD 265 Inferential Statistics and Problem Solving 3(3-0)
Statistical methods in business, sampling, parameter estimation, hypothesis testing, correlation, multiple regression and chi square tests. Use of problem solving methods. Prerequisite: MATH 121. (F, S)

BUSAD 270 Business Communications 3(3-0)
Means of extending management capabilities through effective internal and external communications, including data organization and presentation. Prerequisite: ENG 101 and 102. (F, S)

BUSAD 302 Ethics in Business 3(3-0)
Examination of issues addressing ethical, legal, social and environmental responsibilities of businesses toward government, customers, employees, and the general public. Prerequisite: BUSAD 270. (F, S)

BUSAD 360 Advanced Business Statistics 3(3-0)
Development of advanced statistical techniques to support business decision-making. Topics include advanced multiple regression analysis, analysis of variance and nonparametric techniques. Prerequisite: BUSAD 265. (F, S)

BUSAD 475 International Business 3(3-0)
Opportunities and problems of multinational firms including environmental factors and formulation of strategies and policies for all functional areas of business. Prerequisite: FIN 330 and MKTG 301 and MGMT 340. (F, S)

BUSAD 480 Business Consulting 3(3-0)
Integrating prior studies in business into a realistic approach to assist in solving problems faced by selected firms and organizations in the community. Prerequisite: BUSAD 360 and FIN 330 and MKTG 301 and MGMT 311 and MKTG 340. (*)

BUSAD 490 Special Projects 1-6 V
Special Projects. (*) Repeatable (6).

BUSAD 491 Special Topics 1-3 V
Special Topics. Prerequisite: Permission of instructor. (*) Repeatable (6).

BUSAD 493 Senior Seminar 1(1-0)
Designed to help majors draw connections among the business disciplines. The course provides an in-depth examination of contemporary issues in the business environment. Prerequisite: Senior standing. (F, S)

BUSAD 495 Independent Study 1-3 V
Independent Study. Prerequisite: Senior standing and permission of department chair. (*) Repeatable (6).
BUSDAD 498 Internship (1-6 V)
Supervised field work in selected business, social and governmental organizations; supplemented by written reports. Prerequisite: Junior or senior standing in the School of Business and permission of internship coordinator. (*) Repeatable (6).

BUSDAD 501 Fundamentals of Statistics 3(3-0)
This class prepares students to solve business problems using statistics and business research methods using statistical estimation, hypothesis testing, and advanced statistical methods. Prerequisite: Admission to MBA. (*)

BUSDAD 502 Business Ethics and Environment 3(3-0)
The impact of continued social, political, economic, technological, and legal pressures upon ethical business issues and managerial decision making. Prerequisite: Admission to MBA or permission of MBA Director. (*)

BUSDAD 505 Inferential Statistics and Problem Solving 3(3-0)
Statistical methods in business, sampling, parameter estimation, hypothesis testing, correlation, multiple regression and chi square tests. Use of problem solving methods. (*)

BUSDAD 510 Academic Writing for MBA Students 1(1-0)
This course is designed to help prepare students for the rigors of academic writing at the graduate and professional levels. (F)

BUSDAD 545 Advanced Quantitative Analysis for Business 3(3-0)
This class prepares students to solve business problems using advanced quantitative methods and business modeling techniques. Prerequisite: Admission to MBA. (*)

BUSDAD 575 International Business 3(3-0)
The objective of this course is to familiarize students with the dynamics and complexity of managing business across the globe. Prerequisite: Admission to MBA or permission of MBA Director. (*)

BUSDAD 580 Business Research Methodology 3(3-0)
Fundamentals of qualitative and quantitative research design including development of hypothesis and assessment techniques in preparation for undertaking research projects. Prerequisite: Admission to MBA or permission of MBA Director. (*)

BUSDAD 591 Special Topics 3(3-0)
Special Topics. Prerequisite: Admission to MBA or permission of MBA Director. (*) Repeatable (6).

BUSDAD 592 Research (1-6 V)
The student will work under the close supervision of a graduate faculty member in basic or applied research resulting in a thesis or report of high academic quality. (*)

BUSDAD 595 Independent Study (1-3 V)
Individual study of a subject determined by the instructor and student with permission of the director. Prerequisite: Admission to MBA or permission of MBA Director. (*) Repeatable (6).

Center for Teaching and Learning (CTL)

CTL 191 Special Topics (1-3 V)
Topics course covering a range of interdisciplinary issues. (*) Repeatable (99).

CTL 291 Special Topics (1-3 V)
Topics course covering a range of interdisciplinary issues. (*) Repeatable (99).

CTL 391 Special Topics (1-3 V)
Topics course covering a range of interdisciplinary issues. (*) Repeatable (99).

CTL 491 Special Topics (1-3 V)
Topics course covering a range of interdisciplinary issues. (*) Repeatable (99).

CTL 493 Seminar (1-3 V)
In depth analysis of specific topics, themes, or issues. (*) Repeatable (99).

CTL 494 Field Experience (1-3 V)
Field Experience in educational or professional setting. (*) Repeatable (99).

CTL 495 Independent Study (1-3 V)
Independent study of issue or theme related to educational or professional topic. (*) Repeatable (99).

CTL 591 Special Topics (1-3 V)
Topics course covering a range of interdisciplinary issues. (*) Repeatable (99).

CTL 593 Seminar (1-3 V)
In depth analysis of specific topics, themes, or issues. (*) Repeatable (99).

CTL 594 Field Experience (1-3 V)
Field Experience in educational or professional setting. (*) Repeatable (99).

CTL 595 Independent Study (1-3 V)
Independent study of issue or theme related to educational or professional topic. (*) Repeatable (99).

Chemistry (CHEM)

CHEM 101 Chemistry and Society 3(3-0)
Chemistry related to the everyday world. Drugs, food, pollution, pesticides, consumer products, energy, and home health. Principally for non-science majors. (S) (Gen Ed: ST, GT-SC1)

CHEM 101L Chemistry and Society Lab 1(0-2)
Laboratory is optional. Experiments to exemplify the logical steps of problem solving and explore the physical and chemical world. Prerequisite: Pre or corequisite: CHEM 101. (S) (Gen Ed: ST, GT-SC1)

CHEM 111 Principles of Chemistry 3(3-0)
Fundamental laws, theories and principles of chemical reactions. Credit not applicable for chemistry majors or minors. Prerequisite: MATH 099 or equivalent math placement score or permission of instructor. (F; S) (Gen Ed: ST, GT-SC2)

CHEM 111L Principles of Chemistry Lab 1(0-2)
Experiments using common chemical equipment and techniques to aid the student in learning what occurs in the chemical laboratory. Prerequisite: Pre or corequisite: CHEM 111. (F; S) (Gen Ed: ST, GT-SC1)

CHEM 121 General Chemistry I 4(4-0)
For science, engineering and pre-professional curricula. Atomic theory, chemical bonding, periodic properties, states of matter, oxidation-reduction, stoichiometry, thermochemistry, inorganic nomenclature. Prerequisite: One year of high school chemistry or equivalent and MATH 121 or equivalent math placement score. (F; S) (Gen Ed: ST, GT-SC2)

CHEM 121L General Chemistry Lab I 1(0-2)
General Chemistry Lab I. Prerequisite: Pre or corequisite: CHEM 121. (F; S) (Gen Ed: ST, GT-SC1)
CHEM 122 General Chemistry II 4(4-0)
Continuation of CHEM 121. Thermodynamics, kinetics, equilibria, nuclear chemistry, electrochemistry, acids and bases, solutions, descriptive inorganic chemistry. Prerequisite: CHEM 121. (F, S) (Gen Ed: ST, GT-SC2)

CHEM 122L General Chemistry Lab II 1(0-2)
Lab component to CHEM 122. Prerequisite: CHEM 121L. Pre or corequisite: CHEM 122. (F, S) (Gen Ed: ST, GT-SC1)

CHEM 125 Environmental Science 3(3-0)
An overview of terrestrial and aquatic environments, the atmosphere, energy, climate change, and natural resources. Emphasis is placed on sustainability needs and challenges. (F) (Gen Ed: ST, GT-SC2)

CHEM 125L Environmental Science Laboratory 1(0-2)
Lab course to accompany CHEM 125. Prerequisite: Pre or corequisite: CHEM 125. (F) (Gen Ed: ST, GT-SC1)

CHEM 150 (PHYS 150) Elementary Concepts in Phys & Chem 4(3-2)
Hands-on standards-based approach to understanding basic concepts of physics and chemistry. Integrated lecture, lab and discussion periods. Recommended: enrollment in the Teacher Education Program. (S)

CHEM 160 Introduction to Forensic Science 3(3-0)

CHEM 160L Intro to Forensic Science Lab 1(0-2)
Overview of Forensic Science Laboratory. Evidence handling and collection. Microscopy techniques. Arson analysis. Fingerprints. DNA fingerprinting. Prerequisite: Pre or corequisite: CHEM 160. (F, S, SS) (Gen Ed: ST, GT-SC1)

CHEM 170 Academic Orientation 0.5(0.5-0)
Chemistry majors entering the program are introduced to principles of academic communication and professionalism relevant to freshman year. Chemistry careers, study skills, and academic advisement are also included. (F, S)

CHEM 211 Introduction to Organic Chemistry 3(3-0)
Survey of organic chemistry structural, reactivity and functional groups are presented in context of relevance to society. Prerequisite: CHEM 111. (F)

CHEM 211L Intro to Organic Chemistry Lab 1(0-2)
Survey of organic chemistry laboratory course. Basic organic laboratory techniques and skills, both micro and macro scale are presented. Prerequisite: Pre or corequisite: CHEM 211. (F)

CHEM 221 Inorganic Chemistry 3(3-0)
Basic principles of inorganic chemistry. The main properties, reaction chemistry, and descriptive chemistry of inorganic elements and compounds. Prerequisite: CHEM 122. Corequisite: CHEM 221L. (F)

CHEM 221L Inorganic Chemistry Lab 1(0-3)
Inorganic laboratory techniques, inorganic qualitative analysis, synthesis and characterization. Corequisite: CHEM 221. (F)

CHEM 260 Forensic Chemistry I 3(3-0)
Investigation of comparative/visual forensic analysis techniques. Topics include fingerprinting, bloodstain pattern analysis, fiber comparisons, and firearms analysis. Prerequisite: CHEM 111 or CHEM 121 and CHEM 160. (S)

CHEM 260L Forensic Chemistry I Laboratory 1(0-3)
Development of laboratory skills for comparative/visual forensic analysis. Topics include fingerprinting, bloodstain pattern analysis, fiber comparisons, and firearms analysis. A more in-depth examination of CHEM 160L topics. Prerequisite: CHEM 111 or CHEM 121 and CHEM 160 and CHEM 160L. Pre or corequisite: CHEM 260. (S)

CHEM 291 Special Topics 1-5 V
Special Topics. Prerequisite: Permission of instructor. (*) Repeatable (99).

CHEM 292 Research 1-3 V
Faculty directed research project for undergraduate first or second-year student. May be repeated for a maximum of 3 credits total. Prerequisite: Permission of instructor. (F, S, SS) Repeatable (3).

CHEM 301 Organic Chemistry I 3(3-0)
For majors and pre-professional students requiring a strong background in organic chemistry. Organic reactions and mechanisms as related to molecular structure. Prerequisite: CHEM 122. (F, S)

CHEM 301L Organic Chemistry Lab I 2(0-6)
Organic Chemistry Lab I. Prerequisite: CHEM 122L. Pre or corequisite: CHEM 301. (F, S)

CHEM 302 Organic Chemistry II 3(3-0)
Continuation of CHEM 301. Prerequisite: CHEM 301. (F, S)

CHEM 302L Organic Chemistry Lab II 2(0-6)
Organic Chemistry Lab II. Prerequisite: CHEM 301L. Pre or corequisite: CHEM 302. (F, S)

CHEM 311 Biochemistry Survey 3(3-0)
Survey of biochemistry. For pre-health professional students. Intermediary metabolism is taught at an intermediate level and in the context of human nutrition and clinical applications. Prerequisite: CHEM 301. Pre or corequisite: CHEM 302. (F)

CHEM 317 Quantitative Analysis 3(3-0)
Volumetric and gravimetric analysis integrated with instrumental analysis, both optical and electrometric methods. Prerequisite: CHEM 122. (F)

CHEM 317L Quantitative Analysis Lab 2(0-6)
Quantitative Analysis Lab. Prerequisite: Pre or corequisite: CHEM 317. (F)

CHEM 321 Physical Chemistry I 3(3-0)
Chemical thermodynamics, chemical dynamics (kinetics), chemical structure and statistical mechanics. Prerequisite: CHEM 322. (S)

CHEM 322 Physical Chemistry II 3(3-0)
Quantum mechanics, spectroscopy, chemical structure, and statistical mechanics. Prerequisite: CHEM 122 and MATH 126. Corequisite: Pre and corequisite: MATH 224 and PHYS 201 or PHYS 221. (F)

CHEM 323 Experimental Physical Chemistry 2(0-4)
Laboratory techniques in thermodynamics, chemical equilibria, phase phenomena, kinetics, and spectroscopy. Prerequisite: CHEM 322. Pre or corequisite: CHEM 321 or permission of instructor. (S)

CHEM 370 Academic Enrichment 0.5(0.5-0)
Chemistry majors in the third year of the program and above review principles of academic communication, professionalism, as well as academic progress and skills in relation to industrial/academic career preparation. Prerequisite: CHEM 170 or permission from the department chair. (F, S)

CHEM 378 Practicum in Laboratory Instruction 1(0-2)
Laboratory preparation, instruction, safety, and methods under the guidance of an instructor. Prerequisite: Permission of instructor. (F, S) Repeatable (2).
CHEM 389 Scientific Literature Review 1(1-0)
Surveys of both print and web-based chemical and biochemical literature. Prerequisite: CHEM 302. (F, S) Repeatable (2).

CHEM 401 Advanced Organic Chemistry 3(3-0)
Topics of advanced organic chemistry, including organic reactions, mechanisms, natural products, and spectroscopy. Prerequisite: CHEM 302 or permission of instructor. (*)

CHEM 401L Advanced Organic Chemistry Lab 2(0-4)
Laboratory course to accompany CHEM 401. Molecular structure determination by chemical and instrumental methods. Prerequisite: CHEM 302 and 302L or permission of instructor. Corequisite: CHEM 401. (*)

CHEM 402 Spectroscopy 3(3-0)
An advanced study of topics of spectroscopy focusing on the structure determination of compounds. Emphasis on IR, NMR, MS, and UV-VIS spectroscopies. Prerequisite: CHEM 302 or equivalent. (*)

CHEM 403 Polymer Chemistry 3(3-0)
Study of synthetic polymers including synthesis, mechanisms of formation, structure of elucidation, reactivity, properties, and industrial application. Biopolymers also will be considered. Prerequisite: CHEM 302 and 302L. (*)

CHEM 411 Biochemistry I 3(3-0)
Chemistry of constituents of living matter, including proteins, carbohydrates, nucleic acids and lipids. An introduction to enzymes and coenzymes. Prerequisite: CHEM 302 or permission of instructor. (F)

CHEM 412 Biochemistry II 3(3-0)
Continuation of CHEM 411. Intermediary metabolism of carbohydrates, lipids, and amino acids. Bioenergetics. Prerequisite: CHEM 411 or CHEM 511 or permission of instructor (S)

CHEM 412L Biochemistry II Lab 2(0-6)
Biochemistry II Lab. Prerequisite: CHEM 302. Pre or corequisite: CHEM 412. (*)

CHEM 413 Molecular Basis of Disease 3(3-0)
This advanced seminar course explores the molecular nature of disease and engages students in the study of diseases using current topical biochemical literature. Prerequisite: CHEM 411 or CHEM 511 or permission of instructor. (*)

CHEM 419 Instrumental Analysis 3(3-0)
Instrumental techniques in chemical separations, electrochemistry, atomic, and molecular spectroscopy. Prerequisite: CHEM 317 and CHEM 322 or permission of instructor. (S)

CHEM 419L Instrumental Analysis Lab 2(0-6)
Instrumental Analysis Lab. Prerequisite: CHEM 317 and CHEM 322 or permission of instructor. Pre or corequisite: CHEM 419. (S)

CHEM 421 Advanced Inorganic Chemistry 3(3-0)
Structure and bonding, coordination theory, periodic relations, equilibrium, kinetics, thermodynamics, descriptive chemistry. Prerequisite: CHEM 221 and CHEM 322 or permission of instructor. (S)

CHEM 425 Environmental Chemistry 3(3-0)
Chemical process in air, water and soil. Air, water analysis and treatment, pollution. Prerequisite: CHEM 321 or permission of instructor. (*)

CHEM 425L Environmental Chemistry Lab 2(0-4)
Laboratory course to accompany CHEM 425. Explores sampling and laboratory techniques utilized in the analysis of environmental samples or to address environmental issues. Prerequisite: Pre or corequisite: CHEM 425. (*)

CHEM 431 Advanced Physical Chemistry 3(3-0)
Emphasizes latest developments in applied physical chemistry, including advanced theory, and instrumental and computational applications. Prerequisite: CHEM 321 and CHEM 322 or permission of instructor. (F, O)

CHEM 460 Forensic Chemistry II 2(2-0)
Investigation of identification techniques for forensic analysis. Topics include arson, biological fluid and drug identification, and DNA analysis. Prerequisite: CHEM 260 and CHEM 260L and CHEM 302 and CHEM 302L or permission of instructor. (F)

CHEM 460L Forensic Chemistry II Lab 2(0-4)
The laboratory will accompany CHEM 460, Forensic Chemistry II lecture. Prerequisite: CHEM 260 and CHEM 260L and CHEM 302 and CHEM 302L or permission of instructor. Pre or corequisite: CHEM 460. (F)

CHEM 491 Special Topics 1(-5 V)
Special Topics. Prerequisite: Permission of instructor. (*) Repeatable (99).

CHEM 492 Research 1(-3 V)
Faculty directed research project for undergraduate student. Prerequisite: Permission of instructor. (F, S, SS) Repeatable (4).

CHEM 493 Seminar 1(1-0)
Presentation of a formal presentation on chemical research or a current topic in the chemical literature using software-based delivery methods. Prerequisite: CHEM 370. (F) Repeatable (2).

CHEM 495 Independent Study 1(-7 V)
Independent Study. Prerequisite: Permission of instructor. (*) Repeatable (99).

CHEM 498 Internship 1(-6 V)
Work experience in the chemistry discipline under the combined supervision of the selected organization and a faculty member. Prerequisite: Permission of instructor. (F, S, SS) Repeatable (99).

CHEM 501 Advanced Organic Chemistry 3(3-0)
Topics of advanced organic chemistry including organic reactions, mechanisms, natural products, spectroscopy, and industrial applications. Prerequisite: CHEM 302 or permission of instructor. (*)

CHEM 501L Advanced Organic Chemistry Lab 2(0-4)
Molecular structure determination by chemical and instrumental methods. Advanced synthetic techniques. Prerequisite: CHEM 302 and 302L or permission of instructor. Corequisite: CHEM 501 (*)

CHEM 502 Spectroscopy 3(3-0)
An advanced study of topics of spectroscopy focusing on the structure determination of compounds. Emphasis on IR, NMR, MS, and UV-VIS spectroscopies. Prerequisite: CHEM 302 or equivalent. (*)

CHEM 503 Polymer Chemistry 3(3-0)
Study of synthetic polymers including synthesis, mechanisms of formation, structure elucidation, reactivity, properties, and industrial application. Biopolymers also will be considered. Prerequisite: CHEM 302 or permission of instructor. (*)

CHEM 505 Foundations in Graduate Studies 3(3-0)
Laboratory safety. Effective sourcing, use, and interpretation of the literature. Scientific methodology, writing, and review of research ethics. Development of a thesis or internship plan. Prerequisite: Graduate standing. (F)

CHEM 510 Special Topics 1(-99 V)
An advanced study of a topic in the chemical literature using software-based delivery methods. Prerequisite: CHEM 370. (F, SS) Repeatable (99).

CHEM 511 Biochemistry I 3(3-0)
Chemistry of constituents of living matter, including proteins, carbohydrates, nucleic acid and lipids. An introduction to enzymes and coenzymes. Prerequisite: CHEM 302 or permission of instructor. (F)
CHEM 512 Biochemistry II 3(3-0)
Intermediate metabolism of carbohydrates, lipids and amino acids. Bioenergetics. Prerequisite: CHEM 411 or CHEM 511 or permission of instructor. (S)

CHEM 512L Biochemistry II Lab 2(0-6)
Biochemistry II Lab. Prerequisite: CHEM 302. Pre or corequisite: CHEM 512. (*)

CHEM 513 Molecular Basis of Disease 3(3-0)
This advanced seminar course explores the molecular nature of disease and engages students in the study of diseases using current topical biochemical literature. Prerequisite: CHEM 411 or CHEM 511 or permission of instructor. (*)

CHEM 519 Instrumental Analysis 3(3-0)
Instrumental techniques in chemical separations, electro-chemistry, atomic, and molecular spectroscopy. Prerequisite: CHEM 317 and CHEM 322 or permission of instructor. (S)

CHEM 519L Instrumental Analysis Lab 2(0-6)
Instrumental Analysis Lab. Prerequisite: CHEM 317 and CHEM 322 or permission of instructor. Pre or corequisite: CHEM 519. (S)

CHEM 521 Advanced Inorganic Chemistry 3(3-0)
Structure and bonding, coordination theory, periodic relations, equilibrium, kinetics, thermodynamics, descriptive chemistry, industrial applications. Prerequisite: CHEM 221 and CHEM 322 or permission of instructor. (S)

CHEM 525 Environmental Chemistry 3(3-0)
Chemical processes in the air, water and soil. Air, water soil analysis and treatment. Special emphasis upon the problems and effects of industrial and other pollution. Prerequisite: CHEM 321 or permission of instructor. (*)

CHEM 525L Environmental Chemistry Lab 2(0-4)
Laboratory course to accompany CHEM 525. Explores sampling and laboratory techniques utilized in the analysis of environmental samples or to address environmental issues. Prerequisite: Pre or corequisite: CHEM 525. (*)

CHEM 529 Advanced Analytical Chemistry 3(3-0)
Emphasizes latest developments in applied analytical chemistry, including advanced theory, wet chemical methods, and the design and application of advanced instrumentation. Prerequisite: CHEM 419 and CHEM 419L and CHEM 321 or permission of instructor. (S, E)

CHEM 531 Advanced Physical Chemistry 3(3-0)
Emphasizes latest developments in applied physical chemistry, including advanced theory, and instrumental and computational applications. Prerequisite: CHEM 321 and CHEM 322 or permission of instructor. (F, O)

CHEM 550 Industrial Chemistry 2(2-0)
The economic importance and special characteristics of the chemical industry. Feedstocks, intermediates and products of the chemical industry including thermoplastics, thermosetting plastics, paints and coatings, elastomers, fibers, surfactants, pharmaceuticals, agricultural chemicals, paper, acids, etc. Market demands, price and cost factors, scale, research, process chemistry and process control, product development. Case studies illustrating above topics. (*)

CHEM 560 Forensic Chemistry II 2(2-0)
Investigation of identification techniques for forensic analysis. Topics include arson, biological fluid and drug identification, and DNA analysis. Prerequisite: CHEM 260 and CHEM 260L and CHEM 302 and CHEM 302L or permission of instructor. Corequisite: CHEM 560L. (F)

CHEM 560L Forensic Chemistry II Laboratory 2(0-4)
The laboratory will accompany CHEM 560, Forensic Chemistry II lecture. Prerequisite: CHEM 260 and CHEM 260L and CHEM 302 and CHEM 302L or permission of instructor. Pre or corequisite: CHEM 560. (F)

CHEM 578 Practicum in Laboratory Instruction 1(0-2)
Laboratory preparation, instruction and methods under the guidance and supervision of an instructor. May be repeated for a maximum of four credits. Prerequisite: Graduate standing or permission of instructor. (F, S, SS) Repeatable (4).

CHEM 580 Graduate Writing in the Sciences 1(1-0)
This one-credit course is designed to help prepare students for the rigors of academic writing at the graduate and professional levels. (*)

CHEM 588 Internship Defense 1(1-0)
Graduate internship presentation, satisfactory report, and examination for completion of MS degree option within the Graduate Programs in Natural Sciences. Prerequisite: Graduate standing and permission of instructor. (F, S, SS)

CHEM 589 Thesis Defense 1(1-0)
Thesis presentation and satisfactory written thesis for completion of MS degree option within the Graduate Programs in Natural Sciences. Prerequisite: Graduate standing and permission of instructor. (F, S, SS)

CHEM 591 Special Topics (1-4 V)
Special Topics. Prerequisite: Permission of instructor. (*) Repeatable (99).

CHEM 592 Research 1(1-6 V)
Faculty directed research project for graduate students. Prerequisite: Graduate standing and permission of instructor. (F, S, SS) Repeatable (99).

CHEM 593 Seminar 1(1-0)
An interdisciplinary seminar on topics appropriate to the application of natural sciences. Prerequisite: CHEM 510 and graduate standing. (*)

CHEM 595 Independent Study 1(1-4 V)
Independent Study. Prerequisite: Permission of instructor. (*) Repeatable (99).

CHEM 598 Internship 1(1-4 V)
Volunteer or paid work experience under the combined supervision of the selected organization and a faculty member. Prerequisite: Graduate standing and permission of instructor. (F, S, SS) Repeatable (99).

CHEM 599 Thesis Research 1(1-6 V)
Thesis Research. Prerequisite: Permission of instructor. (*) Repeatable (99).

Chicano Studies (CS)

CS 101 Introduction to Chicano Studies 3(3-0)
Overview of the historical, political and socio-cultural experience of the Chicano. (F, S, SS) (Gen Ed: HS, GT-HI1) (CC)

CS 136 (HIST 136) The Southwest United States 3(3-0)
This course traces the culture and historical development of the southwestern United States, including cultural contributions of the American Indian and Hispanic peoples. (F, S) (Gen Ed: HS, GT-HI1) (CC)

CS 220 (ENG 220) Survey of Chicano Literature 3(3-0)
Survey of outstanding contemporary Chicano works. Literature deals with Chicano themes, including analysis of folklore and myth. (*) (Gen Ed: H, GT-AH2) (CC)

CS 230 (SW 230) Chicano: Social and Psychological Study 3(3-0)
Social and psychological forces faced in the Chicano community. (F) (Gen Ed: SS, GT-SS3) (CC)
Introduction to the field of Civil Engineering Technology: review career opportunities, study the engineering design process, explore issues of professional ethics, and do team projects. (F)

Civil Engineering Technology (CET)

CET 101 Intro to Civil Engineering Technology  2(1-2)
Introduction to the field of Civil Engineering Technology: review career opportunities, study the engineering design process, explore issues of professional ethics, and do team projects. (F)

CET 102 Surveying I 3(0-6)
Beginning course in plane surveying; covers proper chaining techniques, care and use of engineering levels, differential leveling, traversing, and construction surveying. (F)

CET 103 Surveying II 3(0-6)
Introduction to land, topographic, and construction surveying. Prerequisite: CET 102, or permission of instructor. Corequisite: CET 116. (S)

CET 115 Civil Drafting I 3(0-6)
An introduction to basic drafting. AutoCAD and Structural Detail drafting. Corequisite: CET 102. (F)

CET 116 Civil Drafting II 3(0-6)
An introduction to maps, traverses, contours, plans and profiles, cut and fills. An introduction to architectural plans, elevations and section. Prerequisite: CET 115. Corequisite: CET 103. (S)

CET 202 Statics 3(3-0)
Basic concepts and application of static forces, resultants, equilibrium, friction, frames, trusses, free body diagrams, and centroids. Prerequisite: MATH 122 or MATH 124. (F)

CET 206 Strength of Materials 4(3-2)
A study of the response of materials to loads with attention to stresses, strains, elastic and plastic responses to loading. Experiments demonstrate those principles. Prerequisite: CET 202. (S)

CET 207 Construction Materials and Methods 3(3-0)
Properties, uses and methods of assembly of building materials as they apply to the construction industry. (F)

CET 208 Concrete and Asphalt Materials 3(2-2)
Study of Portland cement concrete and bituminous pavements. Manufacturing, mix design, placing and finishing of these materials. The laboratory includes ASTM testing of these materials. (S)

CET 222 Dynamics 3(3-0)
A study of the basic equations of motion, kinematics, kinetics, momentum, potential energy, work, and highway dynamics. Prerequisite: CET 202. (S)

CET 226 Engineering Problem Solving 2(1-2)
An introduction to computer programming to solve engineering problems that apply to the complete spectrum of civil engineering technology courses. Prerequisite: CIS 101 and 104 and MATH 121. (F)

CET 303 Construction Management 3(3-0)
Job specifications, contractor, organization, bonding, contracts, insurance and labor relations. Prerequisite: CET 207. (S)

CET 304 Building Cost Estimating 3(3-0)
Estimating related to building construction industry. Quantity take-off, labor and material costs, records and assembling a general contractor’s bid. (*)

CET 305 Heavy/Highway Cost Estimating 3(3-0)
Estimating relating to heavy and highway construction. Covers heavy equipment selection and use, project scheduling and production rates. Prerequisite: Junior standing or permission of instructor. (F)

CET 312 Route Surveying 3(2-2)
Highway and route surveys, horizontal and vertical curves, grades, slope staking, and earthwork. Prerequisite: CET 103 and MATH 124. (*)

CET 315 Soil Mechanics Technology 3(2-2)
Basic principles of soil mechanics and foundation design as they apply to design and construction. ATSM field tests will be done in the laboratory. Prerequisite: CET 206. (S)
CET 316 Structural Analysis 3(3-0)
Introduction to the analysis of statically determinate and indeterminate structures. Prerequisite: CET 206 and MATH 126 and, PHYS 201 and 201L. (F)

CET 317 Hydraulics 3(2-2)
Study of non-compressible fluids including the flow of water in pipes and open channels. Laboratory involves measuring static pressure, head losses, and flow rates. Prerequisite: CET 202, MATH 126, PHYS 201/L. (F)

CET 372 Traffic Analysis and Control 3(2-2)
Introduction to traffic engineering including traffic system characteristics, traffic studies, capacity analysis, and traffic control. Laboratory activities include traffic data collection and analysis. (S)

CET 401 Land Surveying 3(3-0)
Boundary control, property descriptions, deeds, subdivisions, emphasizing the legal aspects of land law and surveying. (*)

CET 404 Structural Steel Design 3(3-0)
Structural steel design of beams, columns, girders and trusses to AISC standards. Prerequisite: CET 316. (S)

CET 405 Reinforced Concrete Design 3(3-0)
Design of reinforced concrete beams, columns, girders and floor systems to conform to current ACI code. Prerequisite: CET 316. (F)

CET 412 Hydrology 3(3-0)
Hydrologic cycle including precipitation, streamflow, ground-water runoff and the preparation of hydro graphs and frequency analysis. Prerequisite: CET 317. (S)

CET 414 Bridge Design 3(3-0)
Design of bridge slabs, beams, abutments, wingwalls, piers, and footings. Prerequisite: CET 316. (*)

CET 415 Water and Sewer System Design 3(3-0)
Fundamental principles of water supply and sewage design. Prerequisite: CET 317 and CHEM 111. (F)

CET 437 LEED Lab 3(2-2)
Actively pursue certification for campus building or facility, including working on prerequisites, credits and supporting documentation. Prerequisite: Sophomore standing. (F, S)

CET 455 Senior Project Seminar 1(1-0)
Students formulate a proposal for their senior project and make written and oral presentations of the proposal. Speakers from industry present real-world examples. (F)

CET 456 Senior Project 3(1-4)
Practical realistic projects relating to CET discipline are selected for design, analysis, and execution. Students prepare reports and make oral presentations. Prerequisite: CET 455. (S)

CET 473 Highway Design 3(3-0)
A study of highway planning and design. Prerequisite: MATH 126 and CET 208 and CET 315 and CET 372. (F)

CET 475 Engineer-In-Training Preparation 3(3-0)
This course is designed as preparation for the state Engineer-In-Training examination. Subjects include general engineering and civil engineering topics. (S)

CET 491 Special Topics 1-3 V
Special Topics. Prerequisite: Permission of instructor. (*) Repeatable (99).

CET 495 Independent Study 1-3 V
Directed study for students interested in specific areas of CET. Prerequisite: Junior standing in CET and permission of instructor. (F, S) Repeatable (99).

CET 496 Cooperative Education Placement 1-4 V
Industrial cooperative education work experience under the direction of a field supervisor and faculty member. (F, S, SS) Repeatable (99).

Communication & Rhetoric (COMR)

COMR 103 Speaking and Listening 3(3-0)
Introduces principles of speaking and listening with emphasis on exposition and its application to public speaking. (F, S, SS) (Gen Ed: H)

COMR 115 Forensics Activity I 3(3-0)
On- and off-campus activities including intercollegiate forensic competition, programs for students and public. Communication skill and experience development. (*)

COMR 204 (ENG 204) Introduction to Rhetoric 3(3-0)
Provides an introduction to the rhetorical tradition in relationship to the needs of various cultural, technological, and professional contexts. (*)

COMR 205 (ENG 205) Introduction to User Experience 3(3-0)
Course introduces the techniques and principles for measuring and improving the user's experience with digital documents, such as web pages and mobile applications. Prerequisite: NA. (S)

COMR 212 Argumentation 3(3-0)
Argumentation focuses on the methods advocates employ to make rational decisions and to win assent to others' statements. Particular emphasis on the nature and skills of reasoned discourse. (*)

COMR 221 Interpersonal Communication 3(3-0)
The principles and skills of speaking applied to informal speaking situations. Topics covered include openness, genuineness, and talking appropriately to people. (*)

COMR 260 Language Acquisition and Linguistics 3(3-0)
Normal processes of development of language in children, growth of language, including structure, comprehension, use of oral and written language, other symbolic behavior. (F)

COMR 291 Special Topics 1-3 V
Special Topics. (*) Repeatable (99).

COMR 295 Independent Study 1-3 V
Independent Study. Prerequisite: Permission of instructor. (*) Repeatable (99).

COMR 312 Persuasion 2-3 V
Examination of the principles and theories of persuasion and their application to persuasive settings. Emphasis on using language to secure belief and action. (*)

COMR 335 (ENG 335, WS 335) Gender and Communication 3(3-0)
This course examines the ways that gender affects communication behaviors and helps develop an awareness of the processes that affect gender socialization and stereotyping. (*)

COMR 345 (ENG 345) Intercultural Communication 3(3-0)
The purpose of this course is to explore Intercultural Communication with the intent to better understand and appreciate cultural differences. (*)

COMR 350 Communicating in Professions 3(3-0)
Introduces the basics of professional communication in the workplace. The course attends to both theory and practice in interpersonal, small group, organizational and intercultural communication. Prerequisite: Junior or senior standing. (F)

COMR 376 (ENG 376) User Experience Design 3(3-0)
Course familiarizes students with the commonly accepted principles of design that influence how digital texts look and act. Prerequisite: COMR 205 or ENG 205 (F)
COMR 377  (ENG 377)  Usability and User Experience  3(3-0)
Course familiarizes students with the methods, techniques, and tools for collecting the data used to measure User Experience, specifically usability testing. Prerequisite: COMR 205 or ENG 205 (S)

COMR 491 Special Topics  (1-3 V)
Special Topics. Prerequisite: Permission of instructor. (*) Repeatable (99).

COMR 493 Seminar 3(3-0)
This course will synthesize skills learned in the minor exposing students to theories and practices of communication training and development with an applied focus. Prerequisite: Junior or senior standing. (S)

COMR 495 Independent Study  (1-3 V)
Independent Study. Prerequisite: Permission of instructor. (*) Repeatable (99).

COMR 583 Contemporary Cultural Communication  3(3-0)
The purpose of this course is to explore Intercultural Communication with the intent to better understand and appreciate cultural differences. (*)

Communities to Build Active STEM Engagement (CBASE)

CBASE 291 Special Topics  0.5(1-3)
Provides students with a support network to learn, develop, and receive feedback on their scientific growth throughout the CBASE program. (*) Repeatable (99).

CBASE 491 Special Topics  0.5(1-3)
Provides students with a support network to learn, develop, and receive feedback on their scientific growth throughout the CBASE program. (*) Repeatable (99).

Computer Information Systems (CIS)

CIS 100 Introduction to Word  1(1-0)
A competency-based course, topics include: file management, formatting, fonts, editing, reports, footnotes, desktop publishing, clip art, styles, outlines, tables, and mail merge. (F, S, SS)

CIS 101 CIS Careers & Opportunities  1(1-0)
This course touches the various fields and career opportunities in Computer Information Systems. (F, S)

CIS 103 Introduction to PowerPoint  1(1-0)
An introduction to PowerPoint which includes presentation templates, charts, object embedding, slide shows and other details in enhancing communications via presentation software. (F, S, SS)

CIS 104 Introduction to Excel Spreadsheets  1(1-0)
Includes worksheet design, text and formula manipulation, charts, lists, pivot tables, ranges, lookup tables, data analysis, functions, and macros. (F, S, SS)

CIS 105 Introduction to Access DBMS  1(1-0)
Course includes relational database design, table creation, data manipulation, queries, forms, reports, web access, and interface design. (F, S, SS)

CIS 150 Computer, Ethics, and Society  3(3-0)
Survey of computer information systems, history of computers, data representation, operating & software systems, networks, the internet, ethical usage of computers and their impact upon society. (F, S)

CIS 171 Introduction to Java Programming  4(3-2)
An introduction to computer programming, design and testing using the Java object-oriented programming language. Topics include language constructs, functions, file handling, inheritance and UML. (F, S, SS)

CIS 185 PC Architecture  3(2-1)
In depth study of personal computer hardware, peripherals, and interfaces. Course examines processors, disk drives, buses, video cards, memory and diagnostic software. (F, S)

CIS 240 Systems Analysis and Design  3(3-0)
Practical methods for analyzing business problems and designing contemporary information systems solutions using various methodologies, techniques, skills, and tools. Prerequisite: CIS 171. (F)

CIS 271 Advanced Program Design with Java  4(3-2)
Continuation of CIS 171, includes advanced Java programming constructs such as data structures, multi-threading, collections, database connectivity, remote objects and GUI’s. Prerequisite: CIS 171. (S)

CIS 289 Network Concepts  3(2-2)
Fundamental hardware, software, and data communication concepts necessary to understand computer networks. (F)

CIS 290 Special Projects  1(5 V)
Individual projects designed to extend student knowledge beyond offerings in the current curriculum. Examples include program, database, Web site or network research or development. Prerequisite: Sophomore standing and permission of instructor. (F, S, SS) Repeatable (3).

CIS 291 Special Topics  1(5 V)
Study of new and emerging topics and technologies in the computing field. Prerequisite: Sophomore standing. (*) Repeatable (3).

CIS 298 Internship  1(5 V)
IT-related industrial work experience under the direction of a field supervisor and faculty member. (F, S, SS) Repeatable (6).

CIS 311 Introduction to Web Development  3(3-0)
An introduction to web site design and implementation using HTML, JavaScript, XML and other state of the art web development tools and languages. Prerequisite: CIS 171. (F)

CIS 315 Linux Fundamentals  3(3-0)
Explore Linux features, covering command language, file system, mail, and editing. Shell language tools include pipes, filters and I/O redirection. Prerequisite: CIS 171. (S)

CIS 350 Database Management  3(3-0)
Design, implementation and use of database management systems; comparison of available software packages; concepts of query languages and security considerations. Laboratory assignments utilize a relational database system. Prerequisite: CIS 240 or permission of instructor. (F)

CIS 356 iOS Application Development  3(3-0)
Development of iOS applications using a Swift language for iOS devices. Prerequisite: CIS 271. (F, E)

CIS 359 Advanced Programming with C#  3(3-0)
Design and develop desktop and web-based applications using C# and .NET. Emphasis on advanced programming concepts and technique. Prerequisite: CIS 171. (S)

CIS 365 Management Information Systems  3(3-0)
Introduction to application and management of IT in functional business areas (marketing, finance, accounting, etc.). Includes IT strategy, business intelligence, e-commerce, and enterprise information systems. Prerequisite: CIS 103 and CIS 104 and and MGMT 201. (*) Repeatable (99).
CIS 383 E-Commerce 3(3-0)
This course focuses on key issues including e-commerce strategy, business models, technology infrastructure, security and payment systems, e-marketing, and ethical behavior. Prerequisite: MGMT 201 and junior standing. (*)

CIS 386 Android Application Development 3(3-0)
Development of Android applications using advanced Java programming concepts for the Android devices. Prerequisite: CIS 271. (F, O)

CIS 401 Network Systems Administration 3(2-2)
Introduces the necessary knowledge and skills to install, configure, and manage network operating systems, preparing students to be system administrators in a networking environment. Prerequisite: CIS 289. (F)

CIS 410 Data Analytics with Python 3(3-0)
Using Python programming language as a tool to solve the problems in Data Analytics such as data visualization, natural language processing, database handling, and machine learning. Prerequisite: CIS 171. (*)

CIS 411 Internet Server-Side Programming 3(3-0)
Server-based web programming and scripting. Includes database access methods, open source tools, and web application construction from the server side. Prerequisite: CIS 311 and CIS 350. (S)

CIS 432 Senior Professional Project 6(3-6)
Student Teams design and implement database, network, web and other computer-based projects in the local community. Modern analysis, design and modeling techniques are emphasized. Prerequisite: All required CIS classes and MGMT 368. Corequisite: Graduating semester or consent of instructor. (S)

CIS 450 Advanced Data Analytics 3(3-0)
Emphasis on cutting-edge applications, tools, techniques, and trends in Data Analytics such as data visualization, interactive dashboard, Artificial Intelligence, Machine Learning, and Big Data architecture. Prerequisite: CIS 350, or permission of instructor. (S)

CIS 460 Cyber Security & Defense 3(2-2)
Students will understand the impact of cyber threats and attacks to organizations and critical IT resources. Topics include defense-in-depth safeguards and threat vulnerability asset (TVA) analysis. Prerequisite: CIS 289 or permission of instructor. (S)

CIS 461 IT Security Risk Management 3(3-0)
Overview of cyber security, cyber threats, information assurance (IA), assessment of information security risk, security risk strategies and mitigation, disaster recovery planning, cyber security law. (S)

CIS 462 Computer Forensics 3(2-2)
Focus on the detection, isolation and response to information security breaches and attacks. Provides a detailed examination of the entire computer forensic process. Prerequisite: CIS 289. (F)

CIS 490 Special Projects 1-5 V
Individual projects designed to extend student knowledge beyond offerings in the current curriculum. Examples include program, database, Web site or network research or development. Prerequisite: Permission of instructor. (F, S, SS) Repeatable (6).

CIS 491 Special Topics 1-5 V
Study of new and emerging topics and technologies in the computing field. May be repeated for credit. Prerequisite: Junior or senior standing. (F, S, SS) Repeatable (9).

CIS 493 Senior Seminar 1(1-0)
Seminar concerning appropriate career topics in computer information systems. Speakers may include guests, faculty or students. Student outcomes will be assessed. Required of majors. Prerequisite: All required CIS classes. Corequisite: CIS 432. (F)

CIS 498 Internship 1-5 V
IT-related industrial work experience under the direction of a field supervisor and faculty member. Prerequisite: Junior or senior standing. (F, S, SS) Repeatable (6).

CIS 510 Data Analytics with Python 3(3-0)
Using Python programming language as a tool to solve the problems in Data Analytics such as data visualization, natural language processing, database handling, and machine learning. Prerequisite: CIS 171 or consent of instructor. (*)

CIS 532 Professional Project 6(3-6)
Student teams design and implement database, network, web and other computer-based projects in the local community. Modern analysis, design and modeling techniques are emphasized. Prerequisite: All required CIS classes and MGMT 368. (F, S)

CIS 550 Advanced Data Analytics 3(3-0)
Emphasis on cutting-edge applications, tools, techniques, and trends in Data Analytics such as data visualization, interactive dashboard, Artificial Intelligence, Machine Learning, and Big Data architecture. Prerequisite: CIS 240 or CIS 350 or permission of instructor. (S)

CIS 560 Cyber Security and Defense 3(2-2)
Students will understand the impact of cyber threats and attacks to organizations and critical IT resources. Topics include defense-in-depth safeguards and threat vulnerability asset (TVA) analysis. Prerequisite: CIS 289 or consent of instructor. (F, S)

CIS 561 IT Security Management 3(3-0)
Students learn to assess, design, develop, and implement information security programs for organizations. Covers ongoing management of security programs. Prerequisite: Any Introduction to Management course. (S)

CIS 562 Computer Forensics 3(2-2)
Students will learn computer forensics, business continuity planning, incident response, 3rd party contractual agreements with response agencies, Case Law and detection, and isolation response to info security. Prerequisite: Consent of instructor. (F)

CIS 565 Management Information Systems 3(3-0)
Principles, methodologies, practices and management of information systems in business organizations, topics include: IT strategy, IT project management, e-commerce, and enterprise information systems. Prerequisite: Admission to MBA or permission of MBA Director. (*)

CIS 583 E-Commerce 3(3-0)
This course focuses on key issues including e-commerce strategy, business models, technology infrastructure, security and payment systems, e-marketing, and ethical behavior. Prerequisite: Admission to MBA or permission of MBA Director. (*)

CIS 591 Special Topics 1-5 V
Study of new and emerging topics and technologies in the computing field. Prerequisite: Graduate student standing and instructor permission. (F, S, SS)
Construction Management (CM)

CM 101  Intro to Construction Management  2(1-2)
Identify and understand the relationships among participants in the construction process and its history. Including risks, construction processes, construction law, regulations and construction project delivery. (F)

CM 231  Statics and Structures  4(4-0)
An introduction to statics, strength of materials, and theory of structures, its applications to building construction and the use of trigonometry in solution of statics problems. MATH 121. Pre or corequisite: PHYS 201, 201L. Corequisite: Pre or corequisite: PHYS 201/201L. (F)

CM 320  Soils in Construction  3(2-2)
A study of soil as a construction material; including investigation, testing, classification, engineering properties and modification techniques, excavations, fills, slope stability, and pavement subgrades. Prerequisite: CM 231. (S)

CM 330  Wood Structural Systems  3(2-2)
A study of production and properties of wood, design methods for wood structural elements and fasteners, and production and erection methods of wood structures. Prerequisite: CM 231. (F)

CM 341  Concrete and Steel Structures  4(3-2)
A study of concrete and steel structures including design elements and construction methods for simple structural systems, joints, connections, fasteners, and concrete formwork. Prerequisite: CM 231. (S)

CM 351  Construction Planning & Scheduling  3(2-2)
Principles and techniques of planning and scheduling for construction projects. Topics include bar charts, Critical Path Method, precedence networks and cost-time takeoffs. Prerequisite: CET 304 or CET 305. (S)

CM 391  Special Topics  1-3 V
Special Topics. (*) Repeatable (99).

CM 445  Construction Safety  2(2-0)
The study of safe construction techniques, workers compensation insurance, OSHA regulations and requirements, cost of accidents, and ethical conduct regarding safety. Prerequisite: CET 207. (S)

CM 451  Mechanical & Electrical Systems  4(4-0)
The study of mechanical and electrical systems associated with building construction: climate control systems, water and waste water systems, electric power and electronic communication systems. Prerequisite: PHYS 201 and CET 207. (F)

CM 461  Construction Law  3(3-0)
Legal documents and operation in construction management including business ownership and organization, business development through bidding and negotiations, contracts, communication during construction, insurance and accounting. Prerequisite: CET 303. (F)

CM 465  Construction Accounting & Finance  3(3-0)
Construction project analysis/financial control including, cash flow analysis and management, overhead cost and break even analysis, time value of money, banking, and bonding. Prerequisite: ACCTG 201. (S)

CM 475  Senior Project  3(1-4)
An exercise in construction project analysis, cost estimating, scheduling, and the preparation and professional presentation of a project bid package for an organization. Prerequisite: Senior standing in CM and must be within 2 semesters of graduation. (S)

CM 491  Special Topics  1-3 V
Special Topics. (*) Repeatable (99).

CM 495  Independent Study  1-3 V
Directed study for students interested in a specific area of CM. (F, S) Repeatable (2).

Criminology (CRIM)

CRIM 101  Introduction to Criminology  3(3-0)
This class will address the historical, theoretical and methodological foundations for understanding crime and criminology; various types of crime, & responses to crime by police, the courts and correctional institutions. (*)

CRIM 203 (SOC 203)  The Criminal Justice System  3(3-0)
This course examines the origin, nature, and use of criminal law; policing, court adjudication, sentencing; crime victims; jails and prisons; community based corrections; criminal justice policy; justice and inequity. (*)

CRIM 205 (SOC 205)  Research Methods  3(3-0)
Introduces methods of research and investigation in sociology, criminology, and the social sciences. Prerequisite: SOC 101 or CRIM 101. (F, S)

CRIM 212 (ANTHR 212)  The Forensics of Bones  3(3-0)
Familiarize students with the basic procedures used by forensic anthropologists to obtain evidence in criminal investigations. (*)

CRIM 261 (SOC 261)  Cannabis and Society  3(3-0)
The purpose of this course is to explore the complicated relationship between cannabis and society. The past, present and future of cannabis will be discussed. Examination of how cannabis has sparked various social changes. (*)

CRIM 291  Special Topics  1-3 V
Special Topics. (*) Repeatable (99).

CRIM 303 (SOC 303)  Crime and Deviance  3(3-0)
The nature and causes of crime as well as of behavior defined as socially deviant, including violent, corporate, political crimes; sexual, cultural, political deviance. Prerequisite: SOC 101 or SOC 203 or CRIM 101 or CRIM 203. (*)

CRIM 304 (SOC 304)  Race and Crime  3(3-0)
Explores historical and contemporary intersecting issues of race and crime in the United States. Theoretical grounding and factual information provide the foundation for the course. Prerequisite: SOC 101 or SOC 155. (*)

CRIM 305 (WS 305, SOC 305)  Women and Crime  3(3-0)
Explores historical and contemporary intersecting issues of sex, gender, and crime in the United States, focusing on girls’ and women’s experiences as crime victims, offenders, and workers in the criminal justice system. Prerequisite: ANTHR 100 or CRIM 101 or SOC 101 or WS 100. (*)

CRIM 306 (SOC 306)  Delinquency and Juvenile Justice  3(3-0)
Theory and history of delinquency; relationship to family, peer groups, schools, gangs, drugs, young offenders legislation, juvenile courts and police response, youth corrections. (*)

CRIM 310  Criminological Theory  3(3-0)
Examination of major theoretical explanations of crime and their policy implications. Prerequisite: CRIM 101. (*)
CRIM 321 (ANTHR 321, SOC 321) Cross-Cultural Perspective on Crime 3(3-0)
An examination of crime in non-western societies with a comparison to crime and punishment in modern American society. Prerequisite: ANTHR 100 OR SOC 101 OR CRIM 101. (*)

CRIM 353 Penology 3(3-0)
The history and role of corrections; correctional practice, relationship to law, prison society, working in prisons, special needs of prisoners, capital punishment, administration, privatization. Prerequisite: SOC 101 or CRIM 101 or SOC 203 or CRIM 203. (*)

CRIM 357 (ANTHR 357, SOC 357) Immigration 3(3-1)
Examines migration processes, with a particular focus on immigration to the United States. Migration patterns are analyzed considering social, political, and historical context, including structural global patterns. (*)

CRIM 359 Community Corrections 3(3-0)
The development and practice of probation, parole, diversion, statutory release, electronic monitoring, halfway houses, privatization. Prerequisite: SOC 203 or CRIM 101 or CRIM 203. (*)

CRIM 361 (SOC 361) Cannabis Policy 3(3-0)
The purpose of this course will be to explore the fast-evolving realm of cannabis policy, focusing primarily on the United States. (*)

CRIM 374 (SOC 374) Crime in Film 3(3-0)
Employ theoretical perspectives to better understand motivations of Hollywood criminals and the peculiar aspects of a society with an insatiable appetite for crime as "entertainment". (*)

CRIM 376 (Sociology) Crime & Society in Science Fiction 3(3-0)
This course focuses on sociological understandings of crime and other social phenomena. Through science fiction literature, movies, and TV, the class explores how current social realities are reflected in science fiction. (*)

CRIM 401 Crime and Justice Studies 3(3-0)
Crime and justice studies. Each has a subtitle; no subtitle may be repeated for credit. Prerequisite: Junior or senior standing or permission of the instructor (*) Repeatable (6).

CRIM 405 (SOC 405) Law and Society 3(3-0)
The origins and functions of law; the social organization of legal institutions and decisions; the relationship of law to morality, justice and social change. (*)

CRIM 407 (WS 407) Family Violence 3(3-0)
The extent, seriousness, and impact of major forms of family violence, including child maltreatment, dating and partner violence, stalking, and mistreatment of elders. Gender, race and social class implications are examined. (*)

CRIM 409 Victimology 3(3-0)
Study of victims with a focus on victims of officially defined crime. Examination of social changes impacting cultural views and the societal response to victims as well as the costs and consequences of victimization. Prerequisite: SOC 101 or SOC 203 or CRIM 101 or CRIM 203. (*)

CRIM 410 Structural and Elite Crime 3(3-0)
Examination of crimes and social injuries perpetrated by organizational structures that do physical or economic harm to the environment, their employees, and their customers. (*)

CRIM 411 Police and Society 3(3-0)
The history and role of police; including patrol officers, detectives, specialty units, police discretion, women in policing, community policing, private policing, corruption, brutality, accountability. Prerequisite: SOC 101 or SOC 203 or CRIM 101 or CRIM 203. (*)

CRIM 413 Patterns of Homicide 3(3-0)
Examines the rates, types, patterns, and explanation of homicide in the United States and selected other countries. Prerequisite: SOC 203 or CRIM 203 or CRIM 101. (*)

CRIM 414 Serial Murder 3(3-0)
Examines serial murder in historical and contemporary contexts and assesses current control strategies including forensic science and profiling. Prerequisite: SOC 101 or SOC 203 or CRIM 101 or CRIM 203. (*)

CRIM 415 Forensic Criminology 3(3-0)
Course introduces students to variable aspects of Medicolegal Death Investigation. Students will learn about investigating deaths caused by homicide, suicide, accidents, and natural causes. (*)

CRIM 417 Forensics & Homicide Investigations 3(3-0)
Examines police investigations of homicide and presents a critical analysis of the role of forensic science in the identification of suspects. Prerequisite: SOC 101 and SOC 203 or CRIM 101 or CRIM 203. (*)

CRIM 418 (SOC 418) Crime, Drugs and Social Policy 3(3-0)
This course examines the ways in which crime and drug policy is formulated, articulated, implemented, and evaluated. Prerequisite: SOC 101 or CRIM 101. (*)

CRIM 422 Terrorism and Mass Murder 3(3-0)
Examines mass murder, genocide, and terrorism around the world and assesses current control initiatives. Prerequisite: SOC 101 or CRIM 101. (*)

CRIM 424 Organized Crime 3(3-0)
This course examines how organized crime is defined and structured, its causes, its historical roots, its different manifestations and control efforts, both domestically and internationally. Prerequisite: SOC 101 or SOC 203 or CRIM 101 or CRIM 203. (*)

CRIM 425 Gangs in Contemporary America 3(3-0)
Trends, organizational characteristics, processes, and causative factors associated with gangs in contemporary American society. (*)

CRIM 426 (SOC 426) Collective Violence and Rioting 3(3-0)
An overview of episodes of collective behavior in society focusing on racial violence and prison riots, including examination of causes, history, and control efforts. Prerequisite: SOC 101 or CRIM 101. (SS)

CRIM 453 Inside-Out Prisoner Exchange 3(3-0)
Seminar occurs in a correctional facility. Students and incarcerated men or women together examine topics such as crime, justice, freedom, and inequality to learn from others' perspectives and re-think current understanding. Prerequisite: Junior or senior standing. Permission of the instructor. (F, S)

CRIM 455 (WS 455) Hate Crimes 3(3-0)
Examines assumptions about race, ethnicity, gender, sexuality, religion, nationality and other factors that are used to justify the bias behind hate crimes; examines social/legal definitions, causal factors & consequences. (*)

CRIM 492 Research 1-3 V
Independent research project. Prerequisite: Junior or senior standing and permission of instructor. (*) Repeatable (99).
CRIM 494 Field Experience (1-12 V)
Practical on-the-job experience in an agency setting. Prerequisite: Junior or senior standing and permission of instructor. (*) Repeatable (99).

CRIM 495 Independent Study (1-3 V)
Independent Study. Prerequisite: Previous coursework in criminology and permission of instructor. (*) Repeatable (99).

Culturally and Linguistically Diverse Education (CLDE)

CLDE 400 Workshop (1-3 V)
Development of classroom materials and curriculum in linguistically diverse education. (*) Repeatable (99).

CLDE 401 Teaching English Language Learners 3(3-0)
Methods and techniques of teaching English to children of linguistically diverse backgrounds; K-6 and 7-12 focus. Field experience required. Prerequisite: Admission to Teacher Education Program. (SS)

CLDE 403 Content Instruction for EL Learners 3(3-0)
Methods and techniques for teaching content area subjects to students of linguistically different backgrounds; K-6 and 7-12 focus. Field experience required. Prerequisite: Admission to Education. (F)

CLDE 420 Literacy for Eng Lang Learners 3(3-0)
Methods and techniques of teaching Literacy to K-12 English Language Learners. Field experience required. Prerequisite: Admission to Teacher Education and either RDG 410 or RDG 435. (SS)

CLDE 460 Assess & Admin of Ling Div Ed 3(3-0)
Study of state, federal, and local laws and policies concerning CLDE programs; language proficiency instruments used by teachers for assessment and placement of LDE students. Prerequisite: Admission to Education. (SS)

CLDE 481 Practicum with English Learners (1-6 V)
Supervised practicum and seminar. Prerequisite: Admission to Education or graduate standing. (F, S, SS) Repeatable (99).

CLDE 494 Field Experience (1-6 V)
Field Experience in an educational setting related to culturally and linguistically diverse education. (*) Repeatable (99).

CLDE 495 Independent Study (1-2 V)
For the student specializing in culturally and linguistically diverse education. (F, S) Repeatable (99).

CLDE 500 Workshop (1-3 V)
Practical in development of classroom materials/curriculum in linguistically diverse education. Prerequisite: Graduate standing. (*) Repeatable (99).

CLDE 501 Teaching English Language Learners 3(3-0)
Methods and techniques of teaching English to children of linguistically diverse backgrounds; K-6 and 7-12 focus. Field experience required. Prerequisite: Admission to Education or graduate standing. (SS)

CLDE 503 Content Instruction for EL Learners 3(3-0)
Methods and techniques for teaching content area subjects to students of linguistically different backgrounds; K-6 and 7-12 focus. Field experience required. Prerequisite: Admission to Education or graduate standing. (F)

CLDE 520 Literacy for Eng Lang Learners 3(3-0)
Methods and techniques of teaching Literacy to K-12 English Language Learners. Field experience required. Prerequisite: Admission to Teacher Education or graduate standing, and RDG 410 or RDG 435. (SS)

CLDE 560 Ling Div Assess & Admin 3(3-0)
Study of state, federal, and local laws and policies concerning CLDE programs; language proficiency instruments used by teachers for assessment and placement of LDE students. Prerequisite: Admission to Education or graduate standing. (SS)

CLDE 581 Practicum with English Learners 1-6 V
Supervised practicum and seminar. Prerequisite: Admission to Education or graduate standing. (F, S, SS) Repeatable (99).

CLDE 594 Field Experience (1-6 V)
Field Experience in an educational setting related to culturally and linguistically diverse education. (*) Repeatable (99).

CLDE 595 Independent Study (1-2 V)
For the student specializing in culturally and linguistically diverse education. Prerequisite: Graduate standing. (*) Repeatable (99).

Diversity Studies (DS)

DS 485 Capstone 3(3-0)
Students will develop a project in which they will develop and execute a research assignment related to ethnicity, gender, or diversity. Prerequisite: Senior level standing and permission of instructor. (*)

Early Childhood Education (ECE)

ECE 101 Introduction to Early Childhood Ed 3(3-0)
Provides an introduction to the profession of Early Childhood Education. (*)

ECE 102 Intro to ECE Lab Techniques 3(2-2)
Field work in a child care setting (60 hours). The supervised placement provides the student with the opportunity to observe children, practice appropriate interactions, and develop effective management techniques. Prerequisite: ECE 101. (*)

ECE 103 Guidance Strat for Young Children 3(3-0)
Explores guidance theories, applications, goals, and techniques, as well as factors that influence behavioral expectations of children. Prerequisite: ECE 102. (*)

ECE 111 Infant & Toddler Theory & Practice 3(3-0)
Presents an overview of theories, applications (including observations), and issues pertinent to infant and toddler development in group and/or family settings. (*)

ECE 205 Nutrition, Health and Safety 3(3-0)
Focuses on nutrition, health and safety as a key factor for optimal growth and development of young children. (*)

ECE 241 Admin: Human Relations for ECE 3(3-0)
Focuses on the human relations component of an early childhood professional's responsibilities. Prerequisite: ECE 103 and PSYCH 151. (*)

ECE 294 Field Experience (1-12 V)
Field experience in an Early Childhood Education setting. (F, S, SS) Repeatable (99).

ECE 350 Programs for ECE 3(3-0)
Explores the different programs available for children in the ECE age range, both in and out of a school setting. Includes 30 hours of field work. Prerequisite: Admission to Education. (F)
ECE 355 Play & Creative Expression in ECE 3(3-0)
Focuses on principles and methods for using meaningful play and creative arts experiences across the early childhood curriculum to enhance the development of basic skills. Prerequisite: Admission to Education. (SS)

ECE 420 Involving Diverse Families in ECE 3(3-0)
Explores the theoretical foundations and practical applications of family diversity and parent involvement in early childhood education. Prerequisite: Admission to Education. (SS)

ECE 425 Intro to EC Spec Ed 3(3-0)
Explores educating young children with disabilities or special needs in the early childhood setting. Includes 30 hours of field work. Prerequisite: Admission to Education. (S)

ECE 430 Teaching Young CLD Children 3(3-0)
Explores the research and best practices of teaching young children with culturally and linguistically diverse backgrounds (Birth-3rd grade). Includes 30 hours of field work. Prerequisite: Admission to Education. (S)

ECE 440 Effective Instr in Early Literacy 3(3-0)
Explores the development of reading, writing, listening, speaking, and doing in ECE including a review of current research on environmental factors that enhance or reduce language literacy acquisition and development. Prerequisite: Admission to Education. (F)

ECE 460 Managing ECE Classrooms 2(2-0)
Explores components of effective classroom management procedures with young children in groups. Topics include theoretical perspectives, rules and organization, pro-social behavior, and effective pedagogical decisions. Prerequisite: Admission to Education. (SS)

ECE 461 Teaching ECE Social Studies 2(2-0)
This course teaches teachers of young children the subject area of social studies in the K-3 curriculum. Content knowledge and teaching strategies will be the focus of the course. Includes 30 hours of field work. Prerequisite: Admission to Education. (F)

ECE 462 Teaching ECE Reading 3(3-0)
This course encompasses how to teach reading in the K-3 curriculum. Content knowledge and teaching strategies will be the focus of the course. Requires 30 hours of field experience. Prerequisite: Admission to Education. (F)

ECE 463 Teaching ECE Math 2(2-0)
This course encompasses mathematics in the K-3 curriculum. Content knowledge and teaching strategies will be the focus of the course. Thirty hours of field experience are required. Prerequisite: Admission to Education. (S)

ECE 464 Teaching ECE Science 2(2-0)
This course teaches teachers of young children the subject area of science in the K-3 curriculum. Content knowledge and teaching strategies will be the focus of the course. Includes 30 hours of field work. Prerequisite: Admission to Education. (S)

ECE 485 Capstone in ECE 1(1-0)
Explores substantive issues facing new ECE teachers including job search skills, meeting the needs of at-risk students, creating equitable learning environments, and methods of inquiry in education. Prerequisite: Admission to Education. Corequisite: ECE 486. (F, S)

ECE 486 Student Teaching in ECE 6.12 V
Student Teaching at the K-3 level. Application must be submitted on or before date in the Teacher Education Handbook prior to the semester in which student teaching will commence. Prerequisite: Approved application for student teaching. Corequisite: ECE 485. (F, S)

ECE 493 Seminar 3(3-0)
Seminar in Early Childhood Education (for non-licensure ECE majors). Focuses on the steps in designing high-quality projects/internships in ECE. Taken immediately preceding the expected internship term. Prerequisite: Admission to Education. (F, S)

ECE 494 Field Experience 1(1-0 V)
Upper division field experience in an Early Childhood Education setting. (*) Repeatable (99).

ECE 498 Internship 9(9-0)
Internship in an Early Childhood Education setting (for non-licensure ECE majors) including completion of a major project and presentation of results. Prerequisite: Admission to Education and ECE 493. (F, S)

ECE 520 Adv Mthds Involving Div Fam in ECE 3(3-0)
An advanced exploration of the theoretical foundations and practical applications of family diversity and parent involvement in early childhood education. Prerequisite: Admission to Education or M.Ed. program. (SS)

ECE 525 Practices in EC Special Education 3(3-0)
An advanced exploration of educating young children with disabilities or special needs in the early childhood setting. Includes 30 hours of field work. Prerequisite: Admission to Education or M.Ed. program. (S)

ECE 530 Adv Mthds of Tchg CLD Children 3(3-0)
An advanced exploration of the research and best practices of teaching young children with culturally and linguistically diverse backgrounds (Birth-3rd grade). Includes 30 hours of field work. Prerequisite: Admission to Education or M.Ed. program. (S)

ECE 540 Adv Mthds of Effect Inst Early Lit 3(3-0)
An advanced exploration of the development of reading, writing, listening, speaking, and doing in ECE including factors that enhance or reduce language literacy acquisition and development. Prerequisite: Admission to Education or M.Ed. program. (F)

ECE 550 Adv Exploration of Programs for ECE 3(3-0)
An advanced exploration of the different programs available for children in the ECE age range, both in and out of a school setting. Includes 30 hours of field work. Prerequisite: Admission to Education or M.Ed. program. (F)

ECE 555 Advanced Play & Creativity in ECE 3(3-0)
Focuses on developing advanced principles and methods for using meaningful play and creative arts experiences across the early childhood curriculum to enhance the development of basic skills. Prerequisite: Admission to Education or M.Ed. Program. (SS)

ECE 560 Adv Management of ECE Classrooms 2(2-0)
An advanced exploration of effective classroom management procedures with young children in groups. Includes theoretical perspectives, rules and organization, pro-social behavior, and effective pedagogical decisions. Prerequisite: Admission to Education or M.Ed. program. (SS)

ECE 561 Adv Mthds of Tchg ECE Soc Stud 2(2-0)
An advanced exploration of how to teach young children the subject area of social studies in the K-3 curriculum. Content knowledge and teaching strategies will be the focus of the course. Includes 30 hours of field work. Prerequisite: Admission to Education or M.Ed. program. (F)

ECE 562 Adv Mthds of Tchg ECE Lang Arts 2(2-0)
An advanced exploration of the methods of teaching language arts in the K-3 curriculum with a focus on reading. Content knowledge and teaching strategies will be the focus of the course. Includes 30 hours of field work. Prerequisite: Admission to Education or M.Ed. program. (F)
ECE 563  Adv Mthds of Tchg ECE Math  2(2-0)
An advanced exploration of how to teach young children the subject area of mathematics in the K-3 curriculum. Content knowledge and teaching strategies will be the focus of the course. Includes 30 hours of field work. Prerequisite: Admission to Education or M.Ed. program. (S)

ECE 564  Adv Mthds of Tchg ECE Science  2(2-0)
An advanced exploration of how to teach young children the subject area of science in the K-3 curriculum. Content knowledge and teaching strategies will be the focus of the course. Includes 30 hours of field work. Prerequisite: Admission to Education or M.Ed. program. (S)

Economics (ECON)

ECON 201 Principles of Macroeconomics  3(3-0)
Applications oriented approach to understanding the economy including monetary policy, deficits and surpluses, international issues; fundamental differences between liberal and conservative economic policies. (F, S) (Gen Ed: SS, GT-SS1)

ECON 202 Principles of Microeconomics  3(3-0)
Illustrates how firms make price, wage and profit maximizing decisions. Other topics include market performance, market failure, environmental issues and government intervention. (F, S) (Gen Ed: SS, GT-SS1)

ECON 301 Intermediate Macroeconomics  3(3-0)
In-depth study of macroeconomic models including classical, Keynesian, monetarist, new classical and new Keynesian systems. Evaluates applications of monetary and fiscal policies in different models. Prerequisite: ECON 201. (F)

ECON 302 Intermediate Microeconomics  3(3-0)
In-depth study of microeconomic theories of production and consumption. Emphasis on strategic behavior and decision making under uncertain conditions. Prerequisite: ECON 202. (S)

ECON 308 Economics For Managers  3(3-0)
Advanced study of economic concepts for managerial decision-making. Topics covered include demand estimation and elasticity, cost estimation, macroeconomic indicators, and the Federal Reserve system. Prerequisite: ECON 201 and ECON 202. (F, S)

ECON 310 Money and Banking  3(3-0)
Topics include behavior of interest rates, money supply process and theory of central banking, determinants of exchange rates and current issues of international financial system. Prerequisite: ECON 201. (*)

ECON 320 Geography of the World Economy  3(3-0)
Students explore geographic dimensions of economic activities to better understand world regions, locational advantages, and geopolitical dynamics in an increasingly interconnected global economy. (*)

ECON 325 Real Estate Economics  3(3-0)
Explore the role of Real Estate in the U.S. economy. Examine the economic factors in the market, including property valuation, investment analysis methods, mortgage lending & investment strategies for wealth accumulation. Prerequisite: Econ 201 & 202. (F)

ECON 420 Regional Economic Analysis  3(3-0)
Applies regional economic concepts to real-world projects. Develops skills in accessing a community’s trade area, trade relations between communities and sources of local employment growth. Prerequisite: ECON 201. (*)

ECON 475 International Economics  3(3-0)
International trade and finance theory. Topics include trade protectionism, regional alliances, role of international organizations, economic development, exchange rate determination and balance of payments. Prerequisite: ECON 201 and ECON 202. (*)

ECON 490 Special Projects  1-6 V
Special Projects. (*) Repeatable (6).

ECON 491 Special Topics  1-3 V
Special Topics. Prerequisite: Permission of instructor. (*) Repeatable (6).

ECON 495 Independent Study  1-3 V
Independent Study. Prerequisite: Senior standing in School of Business and permission of department chair. (*) Repeatable (6).

ECON 498 Internship  1-6 V
Supervised field work in selected business, social, and governmental organizations; supplemented by written reports. Prerequisite: Junior or senior standing in School of Business and permission of internship coordinator. (*) Repeatable (6).

ECON 501 Fundamentals of Economics  1.5(1.5-0)
This class prepares students to understand the market economy and forces that affect prices of goods and services, prices of resources and profit maximizing decisions. Prerequisite: Admission to MBA. (*)

ECON 505 Principles of Microeconomics  3(3-0)
Applications oriented approach to understanding the economy including monetary policy, deficits and surpluses, international issues; fundamental differences between liberal and conservative economic policies. (*)

ECON 510 Economics for Managers  3(3-0)
Provides the macro- and micro-economic understanding managers will use throughout their careers. Topics include demand estimation, pricing, decisions under uncertainty, domestic monetary policy, international economics. Prerequisite: Admission to MBA or permission of MBA Director. (*)

ECON 591 Special Topics  3(3-0)
Special Topics. Prerequisite: Admission to MBA or permission of MBA Director. (*) Repeatable (6).

ECON 595 Independent Study  1-3 V
Individual study of a subject determined by the instructor and student with permission of the director. Prerequisite: Admission to MBA or permission of MBA Director. (*) Repeatable (6).

Education (ED)

ED 102 Teaching as a Career  1(1-1)
Orientation to teaching and teacher education. Class sessions and classroom observation required. Not required for teacher certification. (F, S)

ED 202 Foundations of Education  3(3-0)
Historical, philosophical and sociological dimensions of education including legal and financial challenges associated with the institution of education. (F, S, SS)

ED 210 Human Growth and Development for Educators  3(3-0)
Physical, mental, social and emotional growth of the individual; provides teachers with needed perspectives on elementary and secondary school students. (F, S, SS)

ED 280 Educational Media and Technology  3(3-0)
Prepares teachers to use technology for instruction, assessment, management, and research. (F, S, SS)
ED 301 Frameworks of Teaching 4(4-0)
Includes approaches to designing learner-centered classroom communities through applications of standards-based instruction, effective planning and assessment, and classroom management; 30 hours of field experience. Prerequisite: Completion of 45 credit hours and 2.6 cumulative GPA. (F, S)

ED 325 Early Field Experience with the Atypical Learner 1-3 V
Development and implementation of principles in teaching atypical learners in a tutorial situation. Prerequisite: Admission to Teacher Education Program. (*) Repeatable (99).

ED 351 Children's Literature 3(3-0)
Classic and contemporary children's literature with emphasis on selection and evaluation. Prerequisite: ENG 102. (*) Repeatable (99).

ED 380 Integrated Methods in Elementary 3(3-0)
Prepares elementary teachers to integrate the expressive arts and physical education into the elementary curriculum; 30 hours of field experience. Prerequisite: Acceptance into the Teacher Education Program. (F, S)

ED 400 Workshop 1-3 V
Designed for special activity-oriented experiences to be conducted in short sessions. Each workshop has a subtitle and no subtitle may be repeated for credit. Prerequisite: Acceptance to the Teacher Education Program or permission of instructor. (*) Repeatable (99).

ED 406 Behavioral Support 3(3-0)
Prepares teachers to implement individual, classroom-wide and school-wide behavioral supports and interventions. Field experience required. Prerequisite: Admission to Teacher Education. (SS)

ED 407 Levels of Support I 3(3-0)
Prepares teachers to teach students with special needs in inclusive environments, with emphasis on literacy, math, and academic interventions. Requires field experience. Prerequisite: Admission to Teacher Education. (SS)

ED 408 Levels of Support II 3(3-0)
Addresses effective instruction for secondary students, including transition planning. Requires field experience. Beginning reading course strongly recommended as a prerequisite. Prerequisite: Admission to Teacher Education. (F)

ED 409 Levels of Support III 3(3-0)
Focuses on instructional programs for K-12 students with severe learning and behavioral challenges. Requires field experience. Prerequisite: Admission to Teacher Education. (S)

ED 410 Collaboration in Education 3(3-0)
Supports skills at co-teaching, teaming, and collaboration with teachers, families, paraeducators, and others to strengthen student achievement. Requires field experience. Prerequisite: Admission to Teacher Education. (S)

ED 412 Teaching Diverse Learners 3(3-0)
Focuses on legislation for special education, nature of exceptionalities, and meeting the needs of K-12 students, including second language learners; 30 hours field experiences. Prerequisite: Acceptance into the Teacher Education Program. (F, S)

ED 413 Teaching Elementary Social Studies 2(2-0)
Methods of teaching social studies in the elementary school. Prerequisite: Acceptance into the Teacher Education Program. (F, S)

ED 414 Teaching Elementary Science and Health 2(1.5-1.5)
Methods of teaching health and science in the elementary school. Part of elementary field experience block. Prerequisite: Acceptance into the Teacher Education Program. (F, S)

ED 417 Teaching Mathematics in Elementary School 2(1.5-1.5)
Scope and sequence of elementary school mathematics are examined along with instructional methods that address the developmental differences of children; 30 hours of field experiences. Prerequisite: MATH 361 and acceptance into the Teacher Education Program. (F, S)

ED 421 Classroom Integration of Internet 2(2-0)
Methods to effectively and legally integrate the Internet into the classroom as a communication and instructional tool. Prerequisite: ED 280 and admission to Education. (F, S)

ED 423 Teaching and Managing Technology 3(3-0)
Strategies, processes, and procedures for managing technology in K-12, including efficient use of emerging pedagogies. Prerequisite: ED 280 and admission to Education. (F, S)

ED 427 Productivity Tools for Classroom 1(1-0)
Applications of Microsoft Office as a productivity tool, including integration of use in classroom. Field experience required. Prerequisite: ED 280 and admission to Education. (F, S)

ED 428 Integration of Educational Software 1(1-0)
Familiarity with and criteria for selecting evaluating, and using quality educational software. Field experience required. Prerequisite: ED 280 and admission to Education. (F, S)

ED 429 Literacy & Technology 3(3-0)
Methods for using technology to assess and teach literacy. Prerequisite: ED 280 and admission to Education. (F, S)

ED 431 Diverse Learners & Technology 3(3-0)
Strategies for using technology to enhance learning for all students, with emphasis on the relationship between technology and equity. Field experience required. Prerequisite: ED 280 and admission to Education. (F, S)

ED 432 Hardware & Networking for Educators 3(3-0)
Pedagogical and practical considerations in using networking and hardware in schools. Prerequisite: ED 280. (SS)

ED 433 Instructional Theory & Tech Design 3(3-0)
Instructional system design theories and models and their adaptation to plan and use technology effectively in the classroom. Field experience required. Prerequisite: ED 280 and admission to Education. (F, S)

ED 434 Multimedia Design 3(3-0)
Methods and tools for creating multimedia learning objects for K-12 classrooms. Field experience required. Prerequisite: ED 280 and admission to Education. (SS)

ED 435 Classroom Management 3(2-3)
Includes general teaching methods and strategies, learning theories applied to teaching discipline, curriculum educational measurement and evaluation, school organization and school law applicable to classroom teachers. Field experience required. Prerequisite: Acceptance into the Teacher Education Program. (F, S)

ED 436 Technology & Assessment Tools 3(3-0)
Prepares teachers to use technology in assessment practices in the classroom. Prerequisite: Admission to Teacher Education. (SS)
ED 444 Teaching Secondary Science 4(3-2)
Focuses on teaching methods, materials, and assessment strategies necessary to prepare students to teach in secondary standards-based science classrooms; 60 hours of field experience. Prerequisite: Acceptance into the Teacher Education Program. (F)

ED 445 Assessment & Data Driven Instruction 3(3-0)
Prepares teachers to select, administer, and interpret formal and informal assessments to improve instruction. Requires field experience. Prerequisite: Acceptance into the Teacher Education Program. (F)

ED 446 Teaching K-12 Art 4(3-2)
Focuses on art curriculum, methods, and assessment to prepare art educators to successfully teach in K-12 standards-based art classrooms; 60 hours of field experience. Prerequisite: Acceptance into the Teacher Education Program. (F)

ED 447 Teaching English in Secondary Schools 4(3-2)
Familiarizes students with Colorado foreign language standards, standards-based lesson and unit planning, and authentic assessment; 60 hours of field experiences. Prerequisite: Acceptance into the Teacher Education Program. (F)

ED 448 Teaching Foreign Language (K-12) 4(3-2)
Familiarizes students with Colorado foreign language standards, standards-based lesson and unit planning, and authentic assessment; 60 hours of field experiences. Prerequisite: Acceptance into the Teacher Education Program. (F)

ED 451 Teaching Secondary Social Studies 4(3-2)
Familiarizes students with the Colorado content standards, including standards-based lesson and unit planning strategies and authentic assessment; 60 hours of field experiences. Prerequisite: Acceptance into the Teacher Education Program. (F)

ED 452 Teaching Secondary Business 4(3-2)
Prepares teachers to teach all areas of the business curriculum in secondary schools; 60 hours of field experiences. Prerequisite: Admission to Teacher Education. (*)

ED 481 Practicum & Seminar in Education 3(6 V)
Supervised practicum and seminar in second teaching or endorsement area. Prerequisite: Admission to Education. (F, S, SS) Repeatable (99).

ED 485 Capstone Seminar in Education 1(1-0)
Explores substantive issues facing teacher, including meeting the needs of at-risk students; creating inclusive, equitable learning communities, and methods of effective inquiry in education. Prerequisite: Admission to Teacher Education. Corequisite: ED 487 or 488 or 489. (F, S)

ED 487 Student Teaching Elementary 6(12 V)
Elementary level. Application must be submitted on or before date in the Teacher Education Handbook prior to the semester in which student teaching will commence. Prerequisite: Approved application for student teaching. Corequisite: ED 485. (F, S)

ED 488 Student Teaching Secondary 6(12 V)
Secondary level. Application must be submitted on or before date in the Teacher Education Handbook prior to the semester in which student teaching will commence. Prerequisite: Approved application for student teaching. Corequisite: ED 485. (F, S)

ED 489 Student Teaching K-12 6(12 V)
K-12 level. Application must be submitted on or before date in the Teacher Education Handbook prior to the semester in which student teaching will commence. Prerequisite: Approved application for student teaching. Corequisite: ED 485. (F, S)

ED 491 Special Topics 1(3 V)
Special Topics. (*) Repeatable (99).

ED 494 Field Experience 1(3,5,10 V)
Field experience in an educational setting. Not applicable to teacher certification. (*) Repeatable (99).

ED 495 Independent Study 1(3 V)
Independent Study (*) Repeatable (99).

ED 500 Workshop 0.5(1,1.5,2,2.5,3 V)
Activity-oriented experiences for teachers. Each has a subtitle; no subtitle may be repeated for credit. Does not count for M.Ed. credit. Prerequisite: Graduate standing. (*) Repeatable (99).

ED 501 Graduate Topics in Education 0.5(1,1.5,2,2.5,3 V)
Graduate topics in education. Each has a subtitle; no subtitle may be repeated for credit. Counts for M.Ed. credit with approval of Program Director. Prerequisite: Graduate standing. (F, S, SS) Repeatable (99).

ED 502 Teacher As Change Agent 3(3-0)
Introduces strategies for professional growth including interpretation of research and professional collaboration. Prerequisite: Admission to MEd Program. (F, S)

ED 503 Teacher as Researcher 3(3-0)
Develops skills at conducting and applying action research strategies to improve teaching and learning. Prerequisite: ED 502. (F, S)

ED 504 Leading Change in America's Schools 3(3-0)
Builds teachers’ skills in leading school change. Prerequisite: ED 502. (F, S)

ED 505 Education Across Cultures 2(2-0)
Analysis of multiculturalism and how the educational process can be adapted to children of diverse cultural backgrounds. Prerequisite: Graduate standing. (*)

ED 506 Behavioral Support 3(3-0)
Prepares teachers to implement individual, classroom-wide and school-wide behavioral supports and interventions. Field experience required. Prerequisite: Admission to Graduate Program or Teacher in Residency Program or admission to Teacher Education. (SS)

ED 507 Levels of Support I 3(3-0)
Prepares teachers to teach students with special needs in inclusive environments, with emphasis on literacy, math, and academic interventions. Requires field experience. Prerequisite: Admission to M.Ed. Program or Teacher in Residency Program, or Teacher Education Program. (SS)

ED 508 Levels Of Support II 3(3-0)
Addresses effective instruction for secondary students, including transition planning. Requires field experience. Prerequisite: Admission to M.Ed. Program or Teacher in Residency Program, or Teacher Education Program. (F)

ED 509 Levels Of Support III 3(3-0)
Focuses on instructional programs for K-12 students with severe learning and behavioral challenges. Requires field experience. Prerequisite: Admission to Graduate Program or Teacher in Residency Program, or admission to Teacher Education. (S)

ED 510 Collaboration in Education 3(3-0)
Supports skills at co-teaching, teaming, and collaboration with teachers, families, paraprofessionals, and others to strengthen student achievement. Requires field experience. Prerequisite: Admission to Graduate Program or Teacher in Residency Program, or admission to Teacher Education. (S)
ED 512 Teaching Diverse Learners 3(3-0)
Focuses on legislation for special education, nature of exceptionalities, and meeting the needs of K-12 students, including second language learners; 30 hours field experiences. Prerequisite: Graduate standing. (F, S)

ED 514 Teaching K-6 Math 2(2-0)
Focuses on teaching methods, materials, and assessment strategies in math in the elementary school; 30 hours of field experiences. Prerequisite: MATH 361 and graduate standing. (*)

ED 520 Educational Media and Technology 3(3-0)
Prepares teachers to use technology for instruction, assessment, management, and research. Prerequisite: Graduate standing. (F, S, SS)

ED 521 Classroom Integration of Internet 2(2-0)
Methods to effectively and legally integrate the Internet into the classroom as a communication and instructional tool. Prerequisite: ED 280/520, admission to Education, completion of a teaching program, or instructor approval, graduate standing. (F, S)

ED 522 Issues in Education 2(2-0)
Contemporary problems in education, their historical development and philosophical implications. Prerequisite: Graduate standing. (*) Repeatable (99).

ED 523 Teaching and Managing Technology 3(3-0)
Strategies, processes, and procedures for managing technology in K-12, including efficient use of emerging pedagogies. Prerequisite: ED 280/520, admission to Education, completion of a teaching program, or instructor approval, graduate standing. (F, S)

ED 524 Advanced Techniques of Teaching Elementary Social Studies 2(2-0)
Analysis of techniques for conceptual approaches to teaching socialization skills, critical thinking and inquiry skills; and helping children develop healthy attitudes and values. Prerequisite: Graduate standing. (*)

ED 525 Advanced Techniques of Teaching Elementary Science and Health 2(2-0)
Emphasis on the newest concepts, techniques and materials for teaching elementary school science and health. Prerequisite: Graduate standing. (*)

ED 526 School Health Curriculum 2(2-0)
Training (by grade level) in the use of by 'Growing Healthy' - the Primary Grades Health Curriculum Project and the School Health Curriculum Project. This is lateral spread training only, by agreement with the Rocky Mountain Regional Training Center. Prerequisite: Graduate standing. (*)

ED 527 Productivity Tools for Classroom 1(1-0)
Applications of Microsoft Office as a productivity tool, including integration of use in classroom. Field experience required. Prerequisite: ED 280/520, admission to Education, completion of a teaching program, or instructor approval, graduate standing. (F, S)

ED 528 Integration of Educational Software 1(1-0)
Familiarity with and criteria for selecting evaluating, and using quality educational software. Field experience required. Prerequisite: ED 280/520, admission to Education, completion of a teaching program, or instructor approval, graduate standing. (F, S)

ED 529 Literacy & Technology 3(3-0)
Methods for using technology to assess and teach literacy. Field experience required. Prerequisite: ED 280/520, admission to Education, completion of a teaching program, or instructor approval, graduate standing. (F, S)

ED 530 Instructional Programming 2(2-0)
Principles of curriculum design, educational goals, instructional objectives, and developing long- middle- and short-range plans. For elementary and secondary teachers. Prerequisite: Graduate standing. (*)

ED 531 Diverse Learners & Technology 3(3-0)
Strategies for using technology to enhance learning for all students, with emphasis on the relationship between technology and equity. Field experience required. Prerequisite: ED 280/520, admission to Education, completion of a teaching program, or instructor permission, graduate standing. (F, S)

ED 532 Hardware & Networking For Educators 3(3-0)
Pedagogical and practical considerations in using networking and hardware in schools. Prerequisite: ED 280/520, graduate standing. (SS)

ED 533 Instructional Theory & Tech Design 3(3-0)
Instructional system design theories and models and their adaptation to plan and use technology effectively in the classroom. Field experience required. Prerequisite: ED 280/520, admission to Education, completion of a teaching program, or instructor permission, graduate standing. (F, S)

ED 534 Multimedia Design 3(3-0)
Methods and tools for creating multimedia learning objects for K-12 classrooms. Field experience required. Prerequisite: ED 280/520, admission to Education, completion of a teaching program, or instructor approval, graduate standing. (SS)

ED 536 Technology & Assessment Tools 3(3-0)
Prepares teachers to use technology in assessment practices in the classroom. Prerequisite: Admission to Graduate Program or Teacher in Residency Program, or admission to Teacher Education. (SS)

ED 542 Contemporary Techniques of Classroom Management 2(2-0)
What research and professional practice say about organizing students, space, information, and resources; motivating, goal setting, communicating, and problem solving with student; and handling disruption and behavior problems. (*)

ED 544 Teaching Secondary Science 3(3-0)
Focuses on teaching methods, materials, and assessment strategies necessary to prepare students to teach in secondary standards-based science classrooms. Prerequisite: Graduate standing. (F)

ED 545 Assessment & Data Driven Instruction 3(3-0)
Prepares teachers to select, administer, and interpret formal and informal assessments to improve instruction. Requires field experience. Prerequisite: Admission to Graduate Program or Teacher in Residency Program, or admission to Teacher Education. (F)

ED 546 Teaching K-12 Art 3(3-0)
Focuses on Art curriculum, methods, and assessment to prepare art educators to successfully teach in K-12 standards-based art classrooms. Prerequisite: Graduate standing. (F)

ED 547 Teaching English in Secondary Schools 3(3-0)
Familiarizes students with Colorado Language Arts Standards, standards-based lesson and unit planning and authentic assessment. Prerequisite: Graduate standing. (F)

ED 548 Teaching Foreign Language 3(3-0)
Familiarizes students with Colorado Foreign Language Standards, standards-based lesson and unit planning and authentic assessment. Prerequisite: Graduate standing. (F)

ED 550 K-12 Music Methods 3(3-0)
Familiarization with the Colorado Music Content Standards. Standards based lesson and unit planning and strategies for general, instrumental, and vocal music will be emphasized. Prerequisite: Graduate standing. (F)
ED 551 Teaching Secondary Social Studies 3(3-0)
Familiarizes students with Colorado Social Studies Content Standards, standards-based lesson and unit planning strategies and authentic assessment. Prerequisite: Graduate standing. (F)

ED 552 Teaching Secondary Business 3(3-0)
Prepares teachers to teach all areas of the business curriculum in secondary schools. Prerequisite: Admission to Teacher in Residency Program or admission to Teacher Education and graduate standing. (*)

ED 555 Foundations of Learning Disorders 3(3-0)
Exceptionalities: emphasis on high-incidence handicaps. Includes recent legislation and identification, referral, staffing and placement procedures. Major intervention strategies examined. Prerequisite: Graduate standing. (*)

ED 560 Professional Development in Curriculum and Instruction 4(4-0)
Stresses skill-building in classroom instruction, including curriculum development and student assessment. Current innovations in public education are also addressed. Prerequisite: Graduate standing. (*)

ED 570 The Technology Coordinator 3(3-0)
Examination of the roles of the technology coordinator in a K-12 educational setting. ED 532 is strongly recommended as a prerequisite. Prerequisite: Graduate standing and ED 280 or 520. (*)

ED 571 Distance Learning 3(3-0)
Provides information needed to be knowledgeable distance educators and instructional developers for K-12 distance learners. Prerequisite: ED 533. (*)

ED 574 Early Childhood Space Exploration 3(3-0)
Designed to provide tools necessary to teach space concepts through inquiry-based learning to young children. Prerequisite: Completion of a teaching program. (*)

ED 575 Lunar/Mars Exploration 3(3-0)
Participants will investigate how to establish and maintain humans on our moon or Mars and how to integrate these concepts into the classroom. Prerequisite: Completion of a teaching program. (*)

ED 576 Rocketry and Exploration 3(3-0)
Participants will examine the technological advances that are being developed for human exploration of the solar system. Prerequisite: Completion of a teaching program. (*)

ED 577 Astronomy for the Classroom 3(3-0)
Participants will investigate topics such as motions of the heavens, astronomical research tools, stars, and constellations, 3D exploration of comets, auroras, and planets. Prerequisite: Completion of a teaching program. (*)

ED 578 Long Term Space Travel 3(3-0)
Participants will investigate answers to how humans can expand beyond home to maximize the benefits from space exploration. Prerequisite: Completion of a teaching program. (*)

ED 579 Earth Systems Science 3(3-0)
Participants will investigate answers to how humans can expand beyond home to maximize the benefits from space exploration. Prerequisite: Completion of a teaching program. (*)

ED 580 Integrated Methods 3(3-0)
Prepares elementary teachers to teach Social Studies, with emphasis on integration of the expressive arts and PE. Prerequisite: Graduate standing. (*)

ED 581 Practicum & Seminar in Education 1-6 V
Supervised practicum and seminar in second teaching or endorsement area. Prerequisite: Admission to Education or graduate standing. (F, S, SS) Repeatable (99).

ED 591 Special Topics 1-3 V
Special Topics. Prerequisite: Graduate standing. (*) Repeatable (99).

ED 592 Research 1-3 V
Research. Prerequisite: Graduate standing and permission of graduate adviser. (*) Repeatable (99).

ED 593 Seminar 1-6 V
Seminar. Prerequisite: Graduate standing. (*) Repeatable (99).

ED 594 Field Experience 1-3 V
Field experience in an educational setting. Prerequisite: Graduate standing. (F, S, SS) Repeatable (99).

ED 595 Independent Study 1-3 V
Independent Study. Prerequisite: Graduate standing and permission of graduate adviser. (*) Repeatable (99).

ED 599 Thesis Research 1-6 V
Thesis Research. (*) Repeatable (99).

Engineering (EN)

EN 101 Introduction to Engineering 2(2-0)
Introduction to engineering curriculum and careers. Problem solving and creativity. Spreadsheets, word processing and other computer skills. (F, S)

EN 103 Problem Solving for Engineers 3(2-2)
Writing computer programs to solve real-world problems in engineering and science. Prerequisite: MATH 121. (F, S)

EN 107 Engineering Graphics 2(1-2)
Introduction to the preparation of engineering drawings using freehand sketching and computer graphics software. (F, S)

EN 109 Introduction to Sustainability 2(2-0)
Interdisciplinary foundation for sustainability including systems theory, humans and the environments, and the social and economic dimensions of sustainability. (F)

EN 211 Engineering Mechanics I 3(3-0)
Introduction to the relationship between forces and moments acting on an object that is in equilibrium (statics). Prerequisite: PHYS 221. Pre or corequisite: MATH 207. (F)

EN 212 Engineering Mechanics II 3(3-0)
Introduction to the relationship between forces and moments acting on rigid objects and the motion of objects (dynamics). Prerequisite: EN 211. (S)

EN 215 Introduction to Industrial and Systems Engineering 3(3-0)
Engineering viewpoints of the principles of organization for production and the operations applicable to accomplishing organizational responsibilities. (F)

EN 231 Circuit Analysis I 4(4-0)
Circuit concepts, conventions and network equations. Initial conditions and classical methods of obtaining transient and steady-state solutions. MATH 224. Pre or corequisite: PHYS 222 and MATH 207. Corequisite: EN 231L. Pre or corequisite: PHYS 222 and MATH 207. (F)

EN 231L Circuit Analysis I Lab 1(0-2)
Observation and analysis of electrical circuits involving resistance, inductance and capacitance. Corequisite: EN 231. (F)
EN 232 Circuit Analysis II 4(4-0)
Continuation of EN 231 including waveform synthesis, network theorems, Fourier series, pole-zero diagrams and two-port network theory. Introduction to Laplace transforms. Prerequisite: EN 231. (*)

EN 260 Basic Electronics 3(3-0)
Characteristics, operation, and basic circuits of solid-state devices. Operational amplifiers with typical applications are also introduced. Prerequisite: EN 231. (S)

EN 263 Electromechanical Devices 3(3-0)
DC and AC motors and generators, transformers, stepper motors, servomotors and various sensors: theory, device characteristics, applications and controls. EN 103 and EN 231. Pre or corequisite: EN 212 and EN 260. Corequisite: Pre or corequisite: EN 212 and EN 260 (S)

EN 275 Stochastic Systems 4(4-0)
Noncalculus probability modeling and statistical analysis of systems containing elements of uncertainty. Prerequisite: MATH 121. (F)

EN 286 Group Dynamics for Teams 3(3-0)
Group Dynamics applied to teams. Team development, basic team processes, conflict management, decision making, leadership, problem solving, and impacts of diversity and culture on teams. (S)

EN 291 Special Topics 1-5 V
Selected topics in engineering. (*) Repeatable (99).

EN 292 Research 1-6 V
Research closely supervised by a faculty member with regular meetings. (*) Repeatable (99).

EN 295 Independent Study 1-5 V
Intensive study directed by a faculty member. (*) Repeatable (99).

EN 296 Cooperative Education Placement 1-5 V
Work experience under direction of a field supervisor and a faculty member. Prerequisite: Freshman or sophomore standing. (F, S) Repeatable (99).

EN 298 Internship 1-6 V
Field work in a company or organization, with written reports. (*) Repeatable (99).

EN 301 Fluid Mechanics 4(4-0)
Introduction to the relationship between the forces applied to a fluid, the motion of the fluid, and the mechanical properties of the fluid. Prerequisite: EN 212. (*)

EN 321 Thermodynamics 3(3-0)
Introduction to energy equations and flows, entropy, kinetic theory and statistical mechanics, second law of thermodynamics, heat engines and heat transfer. Prerequisite: PHYS 221. (F)

EN 324 Materials Science and Engineering 3(3-0)
Fundamentals of chemical structure and atomic bonding, material properties, deformations under force, stress-strain relationships, selection of materials. Prerequisite: PHYS 221 and high school chemistry. Corequisite: EN 324L. (S)

EN 324L Materials Science and Engineering Lab 1(0-2)
Measurements of material properties and stress-strain relationships. Prerequisite: EN 211. Corequisite: EN 324. (S)

EN 343 Engineering Economy 3(3-0)
Modeling, analysis and decision making involving time value of money, depreciation, income taxes and replacement analysis. Prerequisite: MATH 121. (F)

EN 351 Heat Transfer 3(3-0)
Steady and unsteady conduction of heat. Convection heat transfer in boundary layer and duct flows. Forced and free convection. Thermal radiation. Prerequisite: EN 321. (*)

EN 360 Control Systems I 2(2-0)
Linear analog control systems theory is introduced. Open and closed-loop systems are examined, and performance characteristics are analyzed. Prerequisite: EN 260 and MATH 337. Corequisite: EN 360L. (F)

EN 360L Control Systems I Lab 1(0-2)
Control Systems I Lab. Corequisite: EN 360. (F)

EN 361 Digital Electronics 3(3-0)
Introduction to digital technology emphasizing practical microprocessors. Number systems and codes, truth tables, Boolean functions, combinational and sequential logic, registers, counters, memory devices, and microprocessors. Prerequisite: EN 260. Corequisite: EN 361L (F)

EN 361L Digital Electronics Lab 1(0-2)
Digital Electronics Lab. Corequisite: EN 361. (F)

EN 362 Introduction to Mechatronics 2(2-0)
Elements of a mechatronics system: signal conditioning, sensors, actuators, microcontrollers, and software. Prerequisite: EN 263. Corequisite: EN 362L. (F)

EN 362L Mechatronics Lab 1(0-2)
Mechatronics Lab. Corequisite: EN 362. (F)

EN 363 Virtual Machine Design 2(2-0)
Computer aided design of machines including mechanical components: shaft systems, power transmission, and motion generation. Prerequisite: EN 324. Corequisite: EN 363L. (S)

EN 363L Virtual Machine Design Lab 1(0-2)
Virtual Machine Design Lab. Corequisite: EN 363. (S)

EN 375 Stochastic Systems Engineering 3(3-0)
Probability modeling and statistical analysis of engineering systems containing elements of uncertainty. Prerequisite: MATH 126. (F)

EN 420 Simulation Experiments 4(3-2)
Design and statistical analysis of experiments using discrete event simulation models. Prerequisite: EN 375. (S)

EN 430 Project Planning and Control 3(3-0)
Engineering project management including project selection, organization, planning, and budgeting. Project evaluation, tracking and control, and scheduling and resource allocation, including PERT and CPM. Prerequisite: EN 375. (F)

EN 435 Microprocessor Control Systems 3(2-2)
Components of a microprocessor control system, digital processing, survey of state-of-the-art microprocessor control systems. Prerequisite: EN 360. (*)

EN 439 Time and Motion Studies 2(1-2)
Principles and techniques of methods analysis and work measurement, human performance in human-machine systems. Prerequisite: Pre or corequisite: EN 215 and EN 375. (F)

EN 440 Safety Engineering 3(3-0)
Occupational safety and health in different industrial environments. Theories of accident causation, governmental regulation, mechanical, electrical and environmental hazards, protective equipment, hazard analysis, safety programs design and administration, systems safety, etc. Prerequisite: EN 343 and 439. (F)
EN 441 Engineering of Manufacturing Processes 3(3-0)
Materials and processes for manufacturing including machining, casting, and forming processes: design, modeling and control. Prerequisite: EN 212. Corequisite: EN 441L. (S)

EN 441L Engineering & Manufacturing Proc Lab 1(0-2)
Engineering & Manufacturing Proc Lab. Corequisite: EN 441. (S)

EN 442 Manufacturing Processes II 3(3-0)
Materials and processes for manufacturing including sheet metal forming, welding, machining and advanced manufacturing processes. Prerequisite: EN 342. (*)

EN 443 Quality Control and Reliability 3(3-0)
Principles and methods of quality control and improvement. Quality management strategy: design and implementation of quality programs in organizations, problem solving techniques, quality improvement tools, etc. Statistical quality control: control charts, process capability evaluation, acceptance sampling procedures, etc. Prerequisite: EN 275 or EN 375. (S)

EN 460 Control Systems II 2(2-0)
Advanced control systems analysis, including microprocessor-based control systems analysis, A/D and D/A converters, Z transforms, and stepper motors. Prerequisite: EN 360. Corequisite: EN 361 and EN 460L. (S)

EN 460L Control Systems II Lab 1(0-2)
Control Systems II Lab. Corequisite: EN 460. (S)

EN 462 Industrial Robotics 2(2-0)
Basic robotics principles; robot interfacing; robot controls and programming. Laboratory exercises use various robots to meet specific industrial tasks. Prerequisite: EN 460 and EN 473. Corequisite: EN 462L. (S)

EN 462L Industrial Robotics Lab 1(0-2)
Industrial Robotics Lab. Corequisite: EN 462. (S)

EN 471 Operations Research 3(3-0)
Techniques for analysis and solution of problems in industrial and management systems. Linear programming, duality theory, sensitivity analysis, and network analysis techniques. Prerequisite: MATH 207 and 224. (F)

EN 473 Computer Integrated Manufacturing 2(2-0)
Engineering design, modeling and applications in production: automation, flowlines, robotics, numerical control, and computer usage in manufacturing. Prerequisite: EN 103 and 231 and 231L and 441 and MATH 207. Corequisite: EN 473L. (F)

EN 473L Computer Integrated Mfg Lab 1(0-2)
Computer Integrated Mfg Lab. Corequisite: EN 473. (F)

EN 475 Facility Planning and Design 3(3-0)
Application of industrial and systems engineering techniques to problems related to an organization's physical resources. Facilities planning and plant layout, material handling, site selection and facilities location. Prerequisite: EN 439. Pre or corequisite: EN 471. (F)

EN 477 Operations Planning and Control 3(3-0)
Techniques for analysis and management of manufacturing operations and production with emphasis on inventory systems and forecasting. Prerequisite: EN 471. (S)

EN 486 Senior Seminar 2(2-0)
Steps in the engineering design process including creativity, technical analysis, and presentations. Prepare for senior project. Prerequisite: Permission of instructor. (F, S)

EN 487 Engineering Design 3(3-0)
Application of engineering principles to a design project. Prerequisite: EN 486. (S)

EN 488 Industrial Engineering Design 3(3-0)
Application of engineering principles to a design project. Prerequisite: EN 486. (S)

EN 489 Senior Capstone in Sustainability 1(1-0)
Application of knowledge gained in the sustainability minor to a project in sustainability. Prerequisite: EN 109 and CHEM 125. (S)

EN 491 Special Topics 1(1-0 V)
Special Topics. Prerequisite: Junior standing. (*) Repeatable (99).

EN 492 Research 1(1-6 V)
Faculty directed research project. Prerequisite: Junior or senior standing. (*) Repeatable (99).

EN 495 Independent Study 1(1-5 V)
Independent Study. Prerequisite: Junior standing. (*) Repeatable (99).

EN 496 Cooperative Education Placement 1(1-5 V)
Work experience under the direction of a field supervisor and a faculty member. Prerequisite: Junior or senior standing. (F, S) Repeatable (99).

EN 498 Internship 1(1-6 V)
Field work in a company or organization, with written reports. Prerequisite: Junior or senior standing. (*) Repeatable (99).

EN 503 Ergonomics 3(3-0)
Theory and practice of human performance measurement and human factors engineering. Study of human sensory, perceptual mental, psychomotor, and other characteristics applied to the design of human-machine systems for performance effectiveness, productivity and safety. Prerequisite: EN 540. (S)

EN 504 Scheduling and Sequencing 3(3-0)
Theory of deterministic scheduling and sequencing with stochastic extensions. An introduction to the complexity of computations in systems varying from single machine to job shop. Prerequisite: EN 571. (S)

EN 507 Virtual Reality 3(3-0)
Principles, practical aspects, and applications of virtual reality systems and components such as 3D interfaces, displays (3D, visual, haptic, auditory), position tracking, and virtual environments. (F)

EN 511 Structural Engineering 3(3-0)
Design and analysis of wood, steel and concrete structures in railroad application. Prerequisite: EN 211 and EN 212. (F)

EN 513 Artificial Intelligence 3(3-0)
Topics in artificial intelligence including predicate calculus, search strategies, and machine learning with applications. (F)

EN 520 Simulation Experiments 4(3-2)
Design and statistical analysis of experiments using discrete event simulation models. Prerequisite: EN 375. (S)

EN 530 Project Planning and Control 3(3-0)
Engineering project management including project selection, organization, planning, and budgeting. Project evaluation, tracking and control, and scheduling and resource allocation, including PERT and CPM. (F)

EN 531 Railroad Power Systems 3(3-0)
Comprehensive analysis and design of electric power systems for railroads including power supplies, AC/DC and linear motors, third rails, catenaries, and substations/distribution systems. Prerequisite: EN 231 and EN 231L and EN 263 and EN 360. (S)
EN 539 Time and Motion Studies  2(1-2)
Principles and techniques of methods analysis and work measurement, human performance in human-machine systems. Introduction to research in selected topics. Corequisite: EN 375. (F)

EN 540 Safety Engineering  3(3-0)
Occupational safety and health. Theories of accident causation, governmental regulation, protective equipment, hazard analysis, safety programs design and administration. Introduction to research in selected topics. Prerequisite: EN 375. (F)

EN 541 Engineering of Manufacturing Processes  3(3-0)
Materials and processes for manufacturing including machining, casting, and forming processes: design, modeling and control. Introduction to research in selected topics. Prerequisite: Permission of instructor. Corequisite: EN 541L. (S)

EN 541L Engineering & Manufacturing Proc Lab  1(0-2)
Engineering & Manufacturing Proc Lab. Corequisite: EN 541. (S)

EN 543 Quality Control and Reliability  3(3-0)
Design and implementation of quality programs, quality improvement tools, control charts, process capability evaluation, acceptance sampling procedures. Introduction to research in selected topics. Prerequisite: EN 275 or EN 375. (S)

EN 544 Advanced Engineering Economics  3(3-0)
Advanced topics in engineering economy featuring income tax consideration, treatment of inflation, risk and uncertainty models, cost-effectiveness concepts, and project comparison methods. Prerequisite: EN 343, or permission of instructor. (S)

EN 551 Fleet Management  3(3-0)
Fleet management business and economics, risk analysis, information systems, vehicle planning and control, productivity, safety, and environmental compliance. Prerequisite: EN 343 and EN 375 and EN 471 and EN 530. Pre or corequisite: EN 577. (F)

EN 552 Vehicle Dynamics  3(3-0)
Fundamental dynamic considerations in designing ground vehicles and vehicle control systems. Rail systems as an example of modeling dynamic systems at various levels of abstraction. Prerequisite: EN 211 and EN 212 and EN 231 and EN 263. (F)

EN 556 (MATH 556) Design and Analysis of Experiments  3(3-0)
Foundations of experimental design, outline efficient methods to implement experiments, develop statistical methods to sort signal from noise, and analyze information derived from the experiment. Prerequisite: MATH 256 and MATH 356. (SS)

EN 560 Control Systems II  2(2-0)
Advanced control systems analysis, including microprocessor-based control systems analysis, A/D and D/A convertors, Z transforms, and stepper motors. Introduction to research in selected topics. Prerequisite: EN 360 and 361. (S)

EN 560L Control Systems II Lab  1(0-2)
Control Systems II Lab. Corequisite: EN 560. (S)

EN 561 Advanced Controls  3(3-0)
State-spaced based analysis/design of linear control systems are introduced in both continuous- and discrete-time domains. Nonlinear systems and the linearization method are covered. Prerequisite: EN 360. (F)

EN 562 Industrial Robotics  2(2-0)
Basic robotics principles; robot interfacing; robot controls and programming. Laboratory exercises use various robots to meet specific industrial tasks. Introduction to research in selected topics. Prerequisite: Permission of instructor. Corequisite: EN 562L. (S)

EN 562L Industrial Robotics Lab  1(0-2)
Industrial Robotics Lab. Corequisite: EN 562. (S)

EN 563 Intelligent Robotics  3(3-0)
Theoretical and practical aspects of advanced robotic topics such as trajectory generation, path planning and control, decision logic, advanced sensors, autonomous mobile robots, and humanoids. Prerequisite: Graduate standing. (S)

EN 565 Stochastic Systems Engineering  3(3-0)
Analysis and design of systems containing elements of uncertainty in demand and performance capability. Time varying measures and approximations are emphasized. Additional work required of graduate students. Prerequisite: MATH 256 and 356. (*)

EN 571 Operations Research  3(3-0)
Techniques for analysis and solution of problems in industrial and management systems. Linear programming, duality theory, sensitivity analysis, and network analysis techniques. Prerequisite: MATH 224 and graduate standing. (F)

EN 573 Computer Integrated Manufacturing  2(2-0)
Engineering design, modeling and applications for production automation, flowlines, robotics, numerical control, and computer usage in manufacturing. Introduction to research in selected topics. Prerequisite: EN 541. Corequisite: EN 573L. (F)

EN 573L Computer Integrated Mfg Lab  1(0-2)
Computer Integrated Mfg Lab. Corequisite: EN 573. (F)

EN 575 Facilities Planning and Design  3(3-0)
Application of industrial and systems engineering techniques to problems related to an organization's physical resources. Facilities planning, plant layout, material handling, site selection and location. Corequisite: EN 571. (F)

EN 577 Operations Planning and Control  3(3-0)
Techniques for analysis and management of manufacturing operations and production with emphasis on inventory systems and forecasting. Prerequisite: EN 571 or permission of instructor. (S)

EN 588 Graduate Projects  3(3-0)
Application of graduate industrial engineering principles to a capstone design project. Prerequisite: EN 520 and EN571 and EN575 and EN577. (*) Repeatable (99).

EN 590 Special Projects  1-3 V
Individual project selected, outlined and pursued by student. May be repeated. Prerequisite: Graduate standing and adviser approval. (*) Repeatable (99).

EN 591 Special Topics  1-3 V
Selected topics in industrial and systems engineering. Heuristic design, reliability, industrial ergonomics, multi-criteria decision analysis, analytical facility location and site selection models. Not every topic offered each year. Prerequisite: Permission of instructor. (S) Repeatable (99).

EN 593 Graduate Seminar  2(2-0)
Seminar for students entering the systems engineering program. Philosophical, methodological and ethical issues in systems engineering are discussed. Prerequisite: Permission of instructor. (F)
EN 595 Independent Study (1-5 V)
Independent Study. Prerequisite: Graduate standing. (*) Repeatable (99).

EN 598 Internship (1-6 V)
Field work in a company or organization, with written reports. (*) Repeatable (99).

EN 599 Thesis Research (1-9 V)
Preparation of thesis to meet degree requirements. Arranged with major adviser. May be repeated. Prerequisite: Graduate standing and adviser approval. (F, S) Repeatable (6).

English (ENG)

ENG 99 Foundational Practices in Writing 3(3-0)
Reading and writing assignments introducing argumentation, analysis, and synthesis. Practice in essay writing stressing thesis construction, organization, and development. Does not count toward graduation. (F, S)

ENG 100 English as a Second Language 3(12-0)
Intensive practice in English Language skills with an emphasis on writing for non-native speakers of English. (*) Repeatable (12).

ENG 101 Composition I 3(3-0)
Emphasis on critical thinking, reading, and writing clear and coherent essays that reflect an understanding of the writing process, rhetorical analysis, argumentation, and academic discourse. Prerequisite: ENG 099, or ACT verbal score of at least 18, or SAT verbal score of at least 440, or an Accuplacer test score of at least 95. (F, S, SS) (Gen Ed: E, GT-CO1)

ENG 102 Composition II 3(3-0)
Sequential course providing continued engagement with critical thinking, reading, argumentation, and using rhetorical techniques in academic writing. Emphasis on research strategies. Prerequisite: ENG 101. (F, S, SS) (Gen Ed: E, GT-CO2)

ENG 106 (ANTHR 106) Language, Thought and Culture 3(3-0)
Cross-cultural introduction to language processes in human society. (*) (Gen Ed: SS) (CC)

ENG 111 Intro to American Academic Discourse 3(3-0)
Practical introduction to American academic discourse and culture for international students, stressing oral and written discussion skills. (*)

ENG 114 Introduction to Creative Writing 3(3-0)
An introduction to poetry, fiction, and creative non-fiction writing, stressing honest and clear writing and heightened critical thinking skills within a workshop setting. (F, S) (Gen Ed: H, GT-AH1) (CC)

ENG 115 Introduction to Technical Writing 3(3-0)
Course builds upon critical thinking, reading, and writing learned in ENG 101, with specific focus on the genre of technical communication and research. Prerequisite: ENG 101. (F, S, SS)

ENG 116 Introduction to Business Writing 3(3-0)
Course builds upon critical thinking, reading, and writing learned in ENG 101, with specific focus on the genre of professional communication and research. Prerequisite: ENG 101. (F, S, SS)

ENG 117 Intro. Scientific/Medical Writing 3(3-0)
Course builds upon critical thinking, reading, and writing learned in ENG 101, with specific focus on the genre of scientific and medical communication and research. Prerequisite: ENG 101. (F, S, SS)

ENG 130 Introduction to Literature 3(3-0)
Introduction to the three major literary genres: fiction, poetry, and drama. The main emphasis is on close reading and textual analysis. (*) (Gen Ed: H, GT-AH2)

ENG 161 Careers for English Majors 1(1-0)
Identifies career options and presents employment opportunities for English majors. (*)

ENG 201 Introduction to Literary Study 3(3-0)
Introduction to literary genres, major periods and writers, close reading and textual analysis, modern literary criticism, and research methods. Prerequisite: ENG 102. (*)

ENG 204 (COMR 204) Introduction to Rhetoric 3(3-0)
Provides an introduction to the rhetorical tradition in relationship to the needs of various cultural, technological, and professional contexts. (*)

ENG 205 (COMR 205) Introduction to User Experience 3(3-0)
Course introduces the techniques and principles for measuring and improving the user’s experience with digital documents, such as web pages and mobile applications. Prerequisite: NA. (S)

ENG 210 American Literature I 3(3-0)
Literature and literary history of America to 1865. Prerequisite: ENG 102. (*)

ENG 212 American Literature II 3(3-0)
Literature and literary history of America from 1865 to the present. Prerequisite: ENG 102. (*)

ENG 214 Special Topics 1-3 V
(*)(Repeatable (99).

ENG 218 Survey of Chicano Literature 3(3-0)
Survey of outstanding contemporary Chicano works. Literature deals with Chicano themes, including analysis of folklore and myth. (*) (Gen Ed: H, GT-AH2) (CC)

ENG 221 Masterpieces of Literature I 3(3-0)
Significant writings in world literature from the ancients through the Renaissance and their backgrounds. Prerequisite: ENG 102. (Gen Ed: H, GT-AH2)

ENG 222 Masterpieces of Literature II 3(3-0)
Significant writings in world literature from the seventeenth century to the present and their backgrounds. Prerequisite: ENG 102. (Gen Ed: H, GT-AH2)

ENG 223 Literature of England I 3(3-0)
Literature and literary history of England from the Anglo-Saxon Period through the 18th Century. Prerequisite: ENG 102. (*)

ENG 224 Literature of England II 3(3-0)
Literature and literary history of England in the Romantic, Victorian and Modern Periods. Prerequisite: ENG 102. (*)

ENG 230 Survey of Chicano Literature 3(3-0)
Survey of outstanding contemporary Chicano works. Literature deals with Chicano themes, including analysis of folklore and myth. (*) (Gen Ed: H, GT-AH2)

ENG 241 (WS 241) Women In Literature 3(3-0)
Intensive study of literature written by women, in historical, cultural, and critical contexts. Prerequisite: ENG 102. (*)

ENG 291 (WS 291) Introduction to User Experience 3(3-0)
Intensive study of literature written by women, in historical, cultural, and critical contexts. Prerequisite: ENG 102. (*)

ENG 301 Special Topics 1-3 V
Special Topics. (*) Repeatable (99).

ENG 302 Grant Writing 3(3-0)
Examines the strategies involved in professional grant writing. Students will produce and submit grant proposals in response to actual request for proposals. Prerequisite: ENG 101 and ENG 102. (*)

ENG 303 Advanced Composition 3(3-0)
Advanced persuasive writing, including rhetoric and grammar. Prerequisite: ENG 102. (*)

<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 304</td>
<td>Advanced Rhetorical Study 3(3-0)</td>
<td></td>
<td>Acquaints students with a range of classical and contemporary theories for writing persuasive prose. Research and critical analysis are supplemented by readings of contemporary essays. Prerequisite: ENG 204. (*)</td>
</tr>
<tr>
<td>ENG 305</td>
<td>Technical and Scientific Report Writing 3(3-0)</td>
<td></td>
<td>Emphasis on discrete professional formats and styles in writing manuals, proposals, government contracts and reports. For upperclassmen in technical and professional fields. Prerequisite: ENG 102. (*)</td>
</tr>
<tr>
<td>ENG 306</td>
<td>Visual Rhetoric 3(3-0)</td>
<td></td>
<td>Rhetorical analysis through visual modes of communication; creation and manipulation of visual messages for a variety of audiences, purposes, situations. Prerequisite: ENG 204. (*)</td>
</tr>
<tr>
<td>ENG 307</td>
<td>Poetry 3(3-0)</td>
<td></td>
<td>Poetry as a genre; prosody and techniques of fixed-form and free verse; poetic traditions from ancient to contemporary; poetic theory and criticism. Prerequisite: ENG 201. (*)</td>
</tr>
<tr>
<td>ENG 308</td>
<td>Fiction 3(3-0)</td>
<td></td>
<td>Prose fiction as a genre, including the modern short story and representative novels from 1700 to the present. Prerequisite: ENG 201. (*)</td>
</tr>
<tr>
<td>ENG 309</td>
<td>Drama 3(3-0)</td>
<td></td>
<td>Drama as a literary genre; representative works from the ancient, medieval, Renaissance, modern, and contemporary traditions; historical, theatrical, and critical contexts. Prerequisite: ENG 201. (*)</td>
</tr>
<tr>
<td>ENG 310</td>
<td>Advanced Literary Forms &amp; Genres 3(3-0)</td>
<td></td>
<td>Analyzes published writers, creative writing, and craft through writing based on the study and theory of a specified genre or form. Prerequisite: ENG 201. (*) Repeatable (99).</td>
</tr>
<tr>
<td>ENG 315</td>
<td>Creative Writing: Poetry 3(3-0)</td>
<td></td>
<td>Introduction to writing poetry. A studio workshop for students to grow in their appreciation of poetic processes. Prerequisite: ENG 114. (*)</td>
</tr>
<tr>
<td>ENG 316</td>
<td>Creative Writing: Fiction 3(3-0)</td>
<td></td>
<td>Introduction to creating character, situation, and overall structure, emphasis on imaginative and real-life portrayal. Prerequisite: ENG 114. (*)</td>
</tr>
<tr>
<td>ENG 317</td>
<td>Creative Nonfiction 3(3-0)</td>
<td></td>
<td>Introduction to writing the reflective essay. Prerequisite: ENG 114. (*)</td>
</tr>
<tr>
<td>ENG 318</td>
<td>Creative Writing: Drama 3(3-0)</td>
<td></td>
<td>Introduction to playwriting. Composition of a one-act play and development of creative and critical thinking through the study of major playwrights. Prerequisite: ENG 114. (*)</td>
</tr>
<tr>
<td>ENG 319</td>
<td>Professional Editing 3(3-0)</td>
<td></td>
<td>Acquaints students with current practices in editing/publication. Students will learn to make texts readable and conform to conventions of editing in a variety of disciplines. Prerequisite: ENG 102. (*)</td>
</tr>
<tr>
<td>ENG 320</td>
<td>Literature of Enlightenment 3(3-0)</td>
<td></td>
<td>Literature of Enlightenment and Revolution traces though political, philosophical and literary tracts the cultivation of democratic ideals and the emergence of modern democracies. Prerequisite: ENG 201. (*)</td>
</tr>
<tr>
<td>ENG 321</td>
<td>American Romanticism 3(3-0)</td>
<td></td>
<td>A study of the major figures in the development of American Romanticism. Prerequisite: ENG 201. (*)</td>
</tr>
<tr>
<td>ENG 322</td>
<td>American Literary Realism, 1870-1910 3(3-0)</td>
<td></td>
<td>A study of the development of Realism and Naturalism in American literature during the late 19th century and the early 20th century. Prerequisite: ENG 201. (*)</td>
</tr>
<tr>
<td>ENG 323</td>
<td>Modern American Literature 3(3-0)</td>
<td></td>
<td>A study of major writers' themes, and developments in American literature from the 1910s to the 1960s. Prerequisite: ENG 201. (*)</td>
</tr>
<tr>
<td>ENG 324</td>
<td>American Cinema/American Culture 3(3-0)</td>
<td></td>
<td>From early twentieth century to date, a survey of profoundly influential, selected American films, their aesthetic, cultural and technological impacts. (*)</td>
</tr>
<tr>
<td>ENG 325</td>
<td>Nature Writing in the West 3(3-0)</td>
<td></td>
<td>Studies in writings about the western landscape and environment by American nature writers; intensive practice in nature writing. Prerequisite: ENG 102. (*)</td>
</tr>
<tr>
<td>ENG 326</td>
<td>Writing for the WEB 3(3-0)</td>
<td></td>
<td>Writing for the World Wide Web and intranets, including rhetorical approaches, elements of design, and organizing informative sites for education, government, business, and the arts. Prerequisite: ENG 102. (*)</td>
</tr>
<tr>
<td>ENG 328</td>
<td>Contemporary American Lit 3(3-0)</td>
<td></td>
<td>Advanced study of a focused topic in contemporary American literature (genre, theme, or set of related texts), in historical, cultural, and critical contexts. Prerequisite: ENG 201. (*)</td>
</tr>
<tr>
<td>ENG 331</td>
<td>Development of the Novel 3(3-0)</td>
<td></td>
<td>Emphasis on social problems and European influences, focus on trends coming to full development in the 20th century. Includes recent works. Prerequisite: ENG 201. (*)</td>
</tr>
<tr>
<td>ENG 335</td>
<td>(COMR 335, WS 335) Gender and Communication 3(3-0)</td>
<td></td>
<td>This course examines the ways that gender affects communication behaviors and helps develop an awareness of the processes that affect gender socialization and stereotyping. Prerequisite: ENG 102. (*)</td>
</tr>
<tr>
<td>ENG 345</td>
<td>Intercultural Communication 3(3-0)</td>
<td></td>
<td>Creates cultural awareness and critical-thinking through the study of literary, political, and cultural voices within the United States. Provides foundation for multicultural studies across disciplines. Prerequisite: ENG 101 and ENG 102. (*)</td>
</tr>
<tr>
<td>ENG 352</td>
<td>English Syntax and Usage 3(3-0)</td>
<td></td>
<td>English usage and language systems, emphasis on forms and functions of language analysis. (*)</td>
</tr>
<tr>
<td>ENG 354</td>
<td>Women Writers of Science Fiction 3(3-0)</td>
<td></td>
<td>Classic and contemporary science fiction written by women. (*)</td>
</tr>
<tr>
<td>ENG 355</td>
<td>Women Writers of Detective Fiction 3(3-0)</td>
<td></td>
<td>Survey detective fiction by women from Agatha Christie to the present. (*)</td>
</tr>
<tr>
<td>ENG 370</td>
<td>Rediscovering the Fairy Tale 3(3-0)</td>
<td></td>
<td>The Fairy Tale: Its history, psychological basis, relationship to mythology, and transformations in poetry, film, music, and visual art. (*)</td>
</tr>
<tr>
<td>ENG 371</td>
<td>Medieval English Literature 3(3-0)</td>
<td></td>
<td>Advanced study of a focused topic in medieval literature, (genre, theme, or set of related texts), in historical, cultural, and critical contexts. Prerequisite: ENG 201. (*)</td>
</tr>
<tr>
<td>ENG 372</td>
<td>Early Modern English Literature 3(3-0)</td>
<td></td>
<td>Advanced study of a focused topic in early modern English literature, (genre, theme, or set of related texts), in historical, cultural, and critical contexts. Prerequisite: ENG 201. (*)</td>
</tr>
<tr>
<td>ENG 373</td>
<td>Restoration &amp; 18th-C. English Lit 3(3-0)</td>
<td></td>
<td>Advanced study of a focused topic in Restoration and 18th-century English literature, (genre, theme, set of related texts), in historical, cultural, and critical contexts. Prerequisite: ENG 201. (*)</td>
</tr>

<tr>
<td>EXHP 105L</td>
<td>Snow Sports 1(0-2)</td>
<td>Beginning fundamental snowboarding and skiing. Students choose level 1-3 skiing and/or boarding lesson at Colorado ski resort. Emphasis on safety, equipment, clothing and trip planning. (S)</td>
<td></td>
</tr>
</tbody>
</table>
**Exercise Science and Health Promotion (EXHP)**

**EXHP 106L** Martial Arts and Self-Defense 1(0-2)
Overview of the history, philosophy and techniques of martial arts and self-defense. Includes skill development of physical techniques. (*)

**EXHP 108L** Yoga 1(0-2)
This course will focus on key concepts in basic yoga resulting in development of valuable life skills related to creating healthy lifestyles. (*)

**EXHP 109L** Volleyball 1(0-2)
An introduction to the fundamental skills, rules and strategies used in power volleyball. (*)

**EXHP 110L** Weight Training 1(0-2)
An introduction to basic strength evaluation, fundamental machine and free weight techniques and safety concepts in the weight room. (F, S)

**EXHP 111L** Commitment to Academic Excellence 1(1-0)
Supports the academic progress of the Student-Athlete toward intellectual development and adjustment to college life academically, athletically and socially. Various resources will be presented. (F, S)

**EXHP 118L** Jogging 1(0-2)
An introduction to walking/jogging/running techniques, training programs, fitness assessment, appropriate footwear and safety considerations. (*)

**EXHP 119L** Walking for Fitness 1(0-2)
The introduction and development of skills, safety, understanding of body functions and basic conditioning related to aerobic fitness through walking. (*)

**EXHP 120L** Aerobics 1(0-2)
Introduction and participation in the techniques used in rhythmic aerobic dance. Students are able to select from a variety of formats including but not limited to floor aerobics, step aerobics and aqua-aerobics. (*)

**EXHP 121L** Aerobics Instructor Training 1(0-2)
Study in leading a safe and effective aerobic exercise activity including working with diverse groups. Students receive background to sit for a national certification exam. (*)

**EXHP 122L** Military Physical Training 1(0-2)
Introduction to physical fitness and training. Students participate in practical training and learn the basics of fitness, nutrition and flexibility. (F, S)

**EXHP 123L** Zumba 1(0-2)
ZUMBA® is a non-competitive fitness dance program which teaches students to perform steps such as the salsa, merengue, cha-cha, samba, tango, reggaeton, and calypso. (F, S)

**EXHP 124L** Tai Chi 1(0-2)
Complete form of Tai Chi postures based on Yang/Sun Style will be practiced. Mandarin terminology, health philosophy and Taijiquan will be defined and discussed. (*)

**EXHP 143L** Folk, Square, and Ballroom Dance 1(0-2)
Overview of the music and dance techniques used in Folk, Square and Ballroom dancing. (*)

**EXHP 146L** Beginning Swimming 1(0-2)
Introduces the knowledge and skill necessary to handle the body with ease in the water and covers basic mechanical, physiological, and psychological concepts. (*)

**EXHP 162L** Personal Health Lab 1(0-2)
Optional experiential lab studies to augment EXHP 162. (F, S, SS) (Gen Ed: ST)

**EXHP 174L** Tennis 1(0-2)
An introduction to the fundamental skills, rules and strategies used in the game of tennis. (*)

**EXHP 175L** Racquetball 1(0-2)
An introduction to the fundamental skills, rules and strategies used in the game of racquetball. (*)

**EXHP 176L** Life Guard Training 2(1-2)
American Red Cross lifeguard certification course that prepares successful candidates to be certified in Lifeguarding, First Aid, and CPR. A swimming pre-test must be passed the first day of class. (*)

**EXHP 187L** Intercollegiate Sports I 2(0-4)
Participation in an intercollegiate sports program. Course registration is limited to freshman competing in a varsity sport program offered by CSU-Pueblo. (F, S)

**EXHP 201** Drugs and Healthy Lifestyles 3(3-0)
An overview of the impact of drug abuse in today’s society along with prevention information and treatment programs available. (F)

**EXHP 205L** Snow Sports II 1(0-2)
For students with experience in snow sports including skiing and/or snowboarding. Emphasis on safety and techniques of telemark skiing, cross country skiing, and snowshoeing. Prerequisite: Ski or snowboard experience. (S)

**EXHP 208L** Yoga II 1(0-2)
For students with prior experience in yoga. Emphasis on creating balance in both strength and flexibility through the performance of a variety of postures. Prerequisite: EXHP 108L or instructor permission. (F, S)

**EXHP 211** Commitment to Service 1(1-0)
Life skills for Sophomore Student-Athletes to enhance their experience by engaging the student in service to his or her campus and surrounding communities. (F, S)

**EXHP 222** Behavior Facilitation 3(3-0)
Study the influence of social and behavioral systems on health. Emphasis on the fundamentals of self-directed behavior change, health dysfunctions, and stress management. (F, S)

**EXHP 233** History and Principles of Physical Education and Recreation 2(2-0)
Study of the history, philosophy and perspectives of physical education and recreation, and their influence upon contemporary American society. (F)

**EXHP 243** Methods of Rhythmic Activities 2(2-0)
Fundamentals of folk, square and social dance; emphasis on the teaching techniques involved in basic dance styles and rhythms. (S)

**EXHP 245** Motor Learning and Development 3(3-0)
Applied analysis of motor learning and motor development principles and theories throughout the human life span. (S)

**EXHP 246L** Methods of Swimming 1(0.5-1.5)
Instruction in methods of teaching techniques, stroke analysis, class organization, pool safety, and pool maintenance. Practice teaching assignments with practical and written final exams. (F)

**EXHP 276L** Water Safety Instructor Certification 2(1-2)
Water safety instruction certification may be earned in this course. Prerequisite: EXHP 176L or instructor permission. (*)
EXHP 287L Intercollegiate Sports II 2(0-4) Participation in an intercollegiate sports program. Course registration is limited to sophomore student-athletes competing in a varsity sport program offered at CSU-Pueblo. (F, S)

EXHP 291 Special Topics 1(1-5 V) Special Topics. (F, S) Repeatable (99).

EXHP 301 Dartfish Training 1(1-0) In-depth instruction on the Dartfish software including developing video books, movement analysis, tagging, the use of hardware, and using Dartfish in coaching. (F, S)

EXHP 310L Adv Methods Strength & Conditioning 2(1-2) Integration of the science and application of strength and conditioning methods. Emphasis on learning to perform and teach advanced strength, power, and functional movement techniques. Prerequisite: EXHP 110L or instructor permission. (S)

EXHP 320 NSCA Test Preparation 3(3-0) This course is designed to prepare students to take the National Strength and Conditioning Association Certified Personal Trainer or Strength and Conditioning Specialist certification exams. Prerequisite: BIOL 223 and 223L and EXHP 344 and 344L. (S)

EXHP 343 Research and Statistics 3(3-0) Introduction to the use of measurement and research. Emphasis on reviewing and interpreting professional literature, interpreting basic statistics and understanding the concepts underlying successful evaluation. Prerequisite: MATH 121 or permission of instructor. (F, S, SS)

EXHP 344 Exercise Physiology 3(3-0) Physiologic control of the human body during acute exercise, and adaptations to regular exercise stress. Emphasis on relationships among health, fitness, and exercise. Prerequisite: BIOL 223 and 223L and EXHP 343. (F, S)

EXHP 344L Exercise Physiology Lab 1(0-2) Extension of course lecture which provides practical experience in laboratory experiments which address exercise and exercise theory. Prerequisite: BIOL 223 and 223L and MATH 121 and EXHP 343. Corequisite: EXHP 344. (F, S)

EXHP 345 Methods of Physical Activities & Games I 2(2-0) Teaching procedures, skills and techniques of physical activities and games (e.g. adventure education, soccer, basketball, team handball and lacrosse). (F)

EXHP 346 Methods Physical Activities & Games II 2(2-0) Teaching procedures, skills and techniques of physical activities and games (e.g. volleyball, football, hockey, track/field and softball). (S)

EXHP 347 Methods of Fitness Instruction 1(1-0) Emphasis on teaching procedures for lifetime fitness activity (e.g. weight training, aerobics, plyometrics, exercise balls, jump rope, HR monitors, cardio kickboxing, and pedometers). Prerequisite: EXHPR PE K-12 emphasis or instructor permission. (F, S)

EXHP 348 Methods of Individual and Dual Sports 3(3-0) Basic skills and techniques of tennis, racquetball, badminton and golf; emphasis on teaching procedures in these activities. (F)

EXHP 351 Methods of Teaching Elem Physical ED 3(3-0) Study of effective teaching for elementary children including; maximizing student learning, student and self-assessment, utilization of resources, planning, implementation and revision. 30 hours field experience. Prerequisite: Acceptance into Teacher Education Program. Pre or corequisite: EXHP 478. (F)

EXHP 364 Kinesiology 3(3-0) Integration of fundamentals of anatomical and structural components of human movement with the study of fundamental body movements and the primary muscles involved in those movements. Prerequisite: BIOL 223 and 223L. (F, S)

EXHP 400 Workshop 1(5 V) Learning experience in physical education offered in large blocks of time not corresponding to the weekly meeting times of the regular course offerings. Prerequisite: Approval of program chair. (*) Repeatable (99).

EXHP 432 Applied Sport & Exercise Psychology 3(3-0) The course is designed to acquaint the student with the direct application of psychological theories and techniques for the enhancement of both sport and exercise. Prerequisite: EXHP 343. PSYCH 205 is strongly recommended. (S)

EXHP 436 Exercise Assessment 3(3-0) Methods used to assess exercise clients and prescribe effective exercise programs in order to achieve optimal health. Referral for at risk clients will be discussed. Prerequisite: EXHP 344 and 344L. (F, S)

EXHP 440 Biomechanics 3(3-0) Course reviews application of basic physics and anatomy for analysis of complex human movement focusing on improving movement efficiency and reducing the potential for injury. Prerequisite: BIOL 223 and 223L and EXHP 364 and MATH 121. (*)

EXHP 461 Managing Programs in EXHPR 3(3-0) Organizational and administrative functions used in a modern management approach to programs in Physical Education, Health Promotion, Athletics, Fitness, and Recreation. Corequisite: Senior standing. (S)

EXHP 464 Adapted Physical Education 3(3-0) Programs for diverse populations in physical education; emphasis on environments, diseases and injuries which cause individuals to require special attention. Prerequisite: Non-teacher education minors only. BIOL 223 and 223L. (S, O)

EXHP 465 Adapted Physical Education 3(3-0) Programs for diverse populations in physical education; emphasis on environments, diseases and injuries which cause individuals to require special attention. Prerequisite: Admission to Teacher Education Program and BIOL 223 and 223L. (S, O)

EXHP 469 Coaching/Officiating Track & Field 2(2-0) Techniques and strategies of coaching and officiating track and field. (*)

EXHP 470 Methods of Coaching 3(3-0) Study of the science and art of coaching. Understanding of the physical, mental, and emotional demands of coaching. Required course for coaching certification in Colorado. (F)

EXHP 471 Coaching & Officiating Football 2(2-0) Techniques and strategy of coaching and officiating football (*)

EXHP 472 Coaching and Officiating Basketball 2(2-0) Techniques and strategy of coaching and officiating basketball. (*)

EXHP 475 Coaching and Officiating Volleyball 2(2-0) Techniques and strategy of coaching and officiating volleyball. (*)

EXHP 478 Methods of Secondary Physical Education 3(2-2) Study of effective teaching with emphasis on teaching methods, student learning time, classroom management and program planning. 30 hours field experience. Prerequisite: Admission to Teacher Education Program. Pre or corequisite: EXHP 351. (F)
EXHP 482 Coaching and Officiating Wrestling 2(2-0)
Techniques and strategy of coaching and officiating wrestling. (*)

EXHP 483 Coaching and Officiating Baseball 2(2-0)
Techniques and strategy of coaching and officiating baseball. (*)

EXHP 484 Coaching And Officiating Soccer 2(2-0)
Techniques and strategies of coaching and officiating soccer. (*)

EXHP 491 Special Topics 1-5 V
Permission of instructor. (*) Repeatable (99).

EXHP 492 Research 1-6 V
Research project conducted in collaboration with a faculty member. Prerequisite: Approval of a faculty member. (F, S, SS) Repeatable (6).

EXHP 494 Field Experience 1-6 V
Learning experience to be conducted in the professional work environment and supervised by faculty. Prerequisite: Approval of the field experience coordinator. (*) Repeatable (9).

EXHP 495 Independent Study 1-5 V
Independent Study. Prerequisite: Approval of the department chair. (*) Repeatable (99).

EXHP 498 Internship 12(0-36)
450 hours of supervised experience with approved professionals in select health promotion settings including the completion of a major application project and other various assignments. Prerequisite: Senior standing and completion of all other degree requirements and 2.50 GPA in the major and internship coordinator approval. (*)

EXHP 500 Workshop 1-5 V
Graduate learning experience in physical education offered in large blocks of time not corresponding to the weekly meeting times of the regular course offerings. Prerequisite: Approval of program chair. (*)

EXHP 501 Advanced Dartfish Training 1(1-0)
Advanced instruction on the Dartfish software including developing video books, movement analysis, tagging, the use of hardware, and using Dartfish in coaching. (F, S)

EXHP 522 Methods of Elementary Physical Education 3(3-0)
Advanced study of effective teaching for elementary children including: maximizing student learning, student self-assessment, utilization of resources, planning, implementation and revision. Prerequisite: Graduate standing or permission from instructor. (*)

EXHP 529 Curriculum in Physical Education 2(2-0)
The advanced study of physical education curriculum models, planning, and evaluation. Prerequisite: Graduate standing or permission from instructor. (SS)

EXHP 532 Applied Sport & Exercise Psychology 3(3-0)
This course will explore advanced application of psychological theories and techniques for the enhancement of both sport and exercise. (*)

EXHP 536 Community Health 3(2-2)
Advanced study of the aspects of community and public health, functions of health services, and application of community health theory. Prerequisite: Graduate status. (F)

EXHP 549 Facilitation of Adventure Education 3(3-0)
Planning and implementing adventure activities that provide challenge, choice, and opportunities for personal and group growth. Emphasis on program development, facilitation techniques. Prerequisite: Graduate status or permission from instructor. (SS)

EXHP 562 Contemporary Issues In Hpe 3(3-0)
Advanced study of current health topics affecting schools including human sexuality, violence, modification of disease risks, and drug use/abuse. Emphasis on teaching decision making. Prerequisite: graduate standing or permission from instructor (*)

EXHP 565 Adapted Physical Education 3(3-0)
Advanced study of programs for diverse populations in physical education; emphasis on environments, diseases and injuries which cause individuals to require special attention. Prerequisite: Graduate standing or permission of instructor. (S, O)

EXHP 570 Methods of Coaching 3(3-0)
Advanced study of the science of coaching. Understanding of the physical, mental, and emotional demands of coaching. Required course for coaching certification in Colorado. Prerequisite: Graduate status. (F)

EXHP 578 Methods of Secondary School PE 3(3-0)
Advanced study of effective teaching in secondary schools with emphasis on teaching methods, student learning, classroom management and program planning. Prerequisite: Graduate standing or permission of instructor. (F)

EXHP 585 Methods in Health Promotion 3(2-2)
Advanced planning and implementation skills for a variety of educational methods, strategies and components of health promotion. Focus on educational methods and student learning. Prerequisite: Graduate standing or permission of instructor (F)

EXHP 591 Special Topics 1-5 V
Graduate level study or activity designed to increase understanding in areas not covered by regular offerings of the department. Prerequisite: Approval of program chair. (*)

EXHP 592 Research 1-6 V
Graduate level research project conducted in collaboration with a faculty member. Prerequisite: Approval of a faculty member. (F, S, SS) Repeatable (6).

EXHP 594 Field Experience 1-6 V
Graduate level field experience project completed in coordination with a faculty member. Prerequisite: Faculty permission. (F, S, SS) Repeatable (6).

EXHP 595 Independent Study 1-6 V
Graduate level independent study completed in coordination with a faculty member. Prerequisite: Faculty permission. (F, S, SS) Repeatable (99).

Continuing Education (CONED)

CONED 100 Workshop
Activity-orientated experience for professional in a variety of fields. Each has a subtitle. Can be used for Continuing Education Units (CEU). Will not receive academic credit. (*)

CONED 201 Professional Development
Activity-orientated experience for professional in a variety of fields. Each has a subtitle. Can be used for Continuing Education Units (CEU). Will not receive academic credit. (*)

CONED 401 Professional Development
Activity-orientated experience for professional in a variety of fields, designed for higher level. Each has a subtitle. Can be used for Continuing Education Units (CEU). Will not receive academic credit. (*)
**Finance (FIN)**

**FIN 330 Principles of Finance 3(3-0)**
Principles of finance involved in problems confronting business organizations. Prerequisite: ACCTG 201 and ECON 201 and ECON 202 and BUSAD 265 or MATH 156. (F, S)

**FIN 331 Managerial Finance: Policy, Planning and Control 3(3-0)**
Financial management, planning, policy formulation and financial decision making. Prerequisite: FIN 330. (*)

**FIN 333 Investment Analysis 3(3-0)**
Analysis and forecasting of security markets, industry and company studies, portfolio selection and management. Prerequisite: FIN 330. (*)

**FIN 335 Real Estate Finance 3(3-0)**
Principles of real estate financing with emphasis on residential markets, economics, governmental and location factors, financing, and real estate transactions. Prerequisite: FIN 330. (*)

**FIN 430 Financial Institution and Markets 3(3-0)**
The role of financial institutions, instruments and markets; structure of interest rates; the Federal Reserve and monetary policy; and the structure, regulation, portfolio and risk management of financial institutions. Prerequisite: FIN 330. (*)

**FIN 431 Financial Policy Analysis 3(3-0)**
Analysis of financial policies in various organizations. Emphasis on managerial problems in long-range planning, decision making under uncertainty, risk measurement and applications of capital markets. Prerequisite: FIN 330. (*)

**FIN 470 Entrepreneurial Finance 3(3-0)**
This course focuses on how to apply financial tools and techniques to the planning, funding, operation, and valuation of an entrepreneurial venture. Prerequisite: FIN 330. (*)

**FIN 475 International Finance 3(3-0)**
Illustrate theories and the current issues of international finance. Topics include the determination of exchange rates, intervention and international monetary systems. Prerequisite: FIN 330. (*)

**FIN 490 Special Projects 1-6 V**
Special Projects. (*) Repeatable (6).

**FIN 491 Special Topics 1-3 V**
Special Topics. Prerequisite: FIN 330. (*) Repeatable (99).

**FIN 495 Independent Study 1-3 V**
Independent Study. Prerequisite: FIN 330 and permission of the department chair. (*) Repeatable (6).

**FIN 498 Internship 1-6 V**
Supervised field work in selected business, social and governmental organizations; supplemented by written reports. Prerequisite: Junior or senior standing in School of Business and permission of internship coordinator. (*) Repeatable (6).

**FIN 501 Fundamentals of Finance 1.5(1.5-0)**
This class prepares students in basic concepts of managerial finance, including goals, financial analysis, cash flows, time value, risk/return, stocks/bonds, and investment decisions. Prerequisite: Admission to MBA. (*)

**FIN 505 Principles of Finance 3(3-0)**
Principles of finance involved in problems confronting business organizations. Prerequisite: ACCTG 505 or equivalent, ECON 505 or equivalent. (*)

**FIN 530 Financial Management 3(3-0)**
Theory and application of investment, financing and dividend decisions to maximize stockholder wealth. Use of analytical cases to solve financial problems facing business firms. Prerequisite: Admission to MBA or permission of MBA Director. (*)

**FIN 575 International Financial Management 3(3-0)**
Financial theory and practice as applied to the financial management of multinational corporations. Prerequisite: FIN 530 and admission to MBA or permission of MBA Director. (*)

**FIN 591 Special Topics 3(3-0)**
Special Topics. Prerequisite: Admission to MBA or permission of MBA Director. (*) Repeatable (6).

**FIN 595 Independent Study 1-3 V**
Individual study of a subject determined by the instructor and student with permission of the director. Prerequisite: Admission to MBA or permission of MBA Director. (*) Repeatable (6).

**French (FRN)**

**FRN 101 Beginning French I 3(3-0)**
Development of skills in speaking, listening, reading, writing, and cultural understanding. (F, S) (Gen Ed: H) (CC)

**FRN 102 Beginning French II 3(3-0)**
Continuation of the development of skills in speaking, listening, reading, writing, and cultural understanding. Prerequisite: FRN 101 or equivalent. (F, S) (Gen Ed: H) (CC)

**FRN 201 Intermediate French I 3(3-0)**
Development of intermediate-level skills in speaking, listening, reading, writing, and cultural understanding. Prerequisite: FRN 102 or equivalent. (F) (Gen Ed: H, GT-AH4) (CC)

**FRN 202 Intermediate French II 3(3-0)**
Continued development of intermediate-level skills in speaking, listening, reading, writing, and cultural understanding. Prerequisite: FRN 201 or equivalent. (S) (Gen Ed: H, GT-AH4) (CC)

**FRN 287 Intensive French Study Abroad 1-9 V**
Study of French in an immersion setting abroad, preparing the student for fluency through the study of grammar, civilization and culture, at an approved institution. Prerequisite: FRN 102 and permission of instructor. (*) Repeatable (9).

**FRN 294 Field Experience 1-7 V**
Continued improvement of language proficiency through experiential learning. Students participate in an immersive target-language environment at home or abroad. Prerequisite: FRN 201 and permission of instructor. (*) Repeatable (7).

**FRN 301 Advanced French Grammar 3(3-0)**
A concentrated study of French grammar in addition to practice in writing, reading, speaking, and listening. Prerequisite: FRN 202, or equivalent. (*)
FRN 303 French Phonetics and Diction 3(2-2)
French pronunciation: theory, correction and practice of diction and intonation. Phonetic transcription and practical exercises. Prerequisite: FRN 202, or permission of instructor. (*)

FRN 312 Conv & Comp: Europe 3(3-0)
Focus on improving linguistic proficiency within the context of French-speaking countries and regions in Europe. (Culture, History, Literature, Art, Gastronomy, Current Events, etc). Prerequisite: FRN 202. (*)

FRN 313 Conv & Comp: Africa & Caribbean 3(3-0)
Focus on improving linguistic proficiency within the context of Francophone cultures in Africa and the Caribbean. (Culture, History, Literature, Art, Gastronomy, Current Events, etc). Prerequisite: FRN 202. (*)

FRN 314 Conv & Comp: North America 3(3-0)
Focus on improving linguistic proficiency within the context of Francophone cultures in the U.S. and Canada. (Culture, History, Literature, Art, Gastronomy, Current Events, etc). Prerequisite: FRN 202. (*)

FRN 341 French through Literature 3(3-0)
Focus on improving linguistic proficiency (reading, writing, listening and speaking) through the study of literary works from France and the Francophone World. Prerequisite: FRN 202, or permission of instructor. (*)

FRN 351 French through Film 3(3-0)
Focus on improving linguistic proficiency within the context of the French and Francophone World. Prerequisite: FRN 202. (*)

FRN 381 French Civ: France 3(3-0)
Focus on improving linguistic proficiency through the study of French history. Students will engage with literary, historic and filmic texts. Prerequisite: FRN 202, or permission of instructor. (*)

FRN 382 French Civ: Francophone World 3(3-0)
Focus on improving linguistic proficiency through study of history and contemporary events affecting the francophone world. Students will engage with literary, historic and filmic texts. Prerequisite: FRN 202, or permission of instructor. (*)

FRN 387 Intensive French Study Abroad 1-12 V
Study of French in an immersion setting abroad preparing the student to become fluent in the language through the study of grammar, civilization and culture. Prerequisite: Permission of instruction and FRN 201. (*) Repeatable (99).

FRN 391 Special Topics 3(3-0)
Special Topics. Prerequisite: FRN 202. (*) Repeatable (9).

FRN 394 Field Experience 1-7 V
Continued improvement of language proficiency through experiential learning. Students participate in an immersive target-language environment at home or abroad. Prerequisite: FRN 202 and permission of instructor. (*) Repeatable (7).

FRN 494 Field Experience 1-7 V
Continued improvement of language proficiency through experiential learning. Students participate in an immersive target-language environment at home or abroad. Prerequisite: Two years college French. (*) Repeatable (99).

FRN 495 Independent Study 1-3 V
Specific themes which address particular problems of literature or civilization. May be repeated for credit with approval of major adviser. (*) Repeatable (99).

Geography (GEOG)

GEOG 101 Physical Geography 3(3-0)
Three Earth spheres: the hydrosphere (oceanography, hydrologic cycle); the atmosphere (meteorology and climatology); the lithosphere (geology, internal/external processes) are emphasized and examined. (F, S, SS)

GEOG 102 Cultural Geography 3(3-0)
Emphasis on cultural regions, cultural diffusion, and cultural landscape. Major themes are culture, population, agriculture, language and religion, ethnicity, urbanization, industry, and political geography. (F, S, SS)

GEOG 103 World Regional Geography 3(3-0)
The interconnectivity and interrelationship of the world regions by stressing physical, economic development, agricultural, cultural and population characteristics. Strengthening of one’s mental world map. (F, S) (Gen Ed: SS, GT-SS2) (CC)

GEOG 491 Special Topics 3(3-0)
Devoted to special topics in Geography (human, physical, and regional). Prerequisite: Jr. or Sr. standing with adequate preparation and permission of instructor. (F, S, SS) Repeatable (99).

Geology (GEOL)

GEOL 101 Earth Science 3(3-0)
Four earth spheres: the hydrosphere (oceanography, hydrologic cycle); the atmosphere (meteorology and climatology); the lithosphere (geology, internal and external processes); and space are emphasized. Corequisite: GEOL 101L. (F, S) (Gen Ed: ST, GT-SCI)

GEOL 101L Earth Science Lab 1(0-2)
Lab to accompany GEOL 101 lecture. Corequisite: GEOL 101. (F, S) (Gen Ed: ST, GT-SCI)

GEOL 114 Oceanography 3(3-0)
Study of world oceans and their role in the Earth system, including chemical, physical, geological, meteorological and biological aspects of the sea. Corequisite: GEOL 114L. (S) (Gen Ed: ST, GT-SCI)

GEOL 114L Oceanography Lab 1(0-2)
Lab to accompany GEOL 114 lecture. Corequisite: GEOL 114. (S) (Gen Ed: ST, GT-SCI)

German (GER)

GER 101 Beginning German I 3(3-0)
Development of skills in speaking, listening, reading, writing, and cultural understanding. (F, S) (Gen Ed: H) (CC)

GER 102 Beginning German II 3(3-0)
Continuation of the development of skills in speaking, listening, reading, writing, and cultural understanding. Prerequisite: GER 101 or equivalent. (F, S) (Gen Ed: H) (CC)

GER 201 Intermediate German I 3(3-0)
Development of intermediate-level skills in speaking, listening, reading, writing, and cultural understanding. Prerequisite: GER 102 or equivalent. (F) (Gen Ed: H, GT-AH4) (CC)

GER 202 Intermediate German II 3(3-0)
Continued development of intermediate-level skills in speaking, listening, reading, writing, and cultural understanding. Prerequisite: GER 201 or equivalent. (S) (Gen Ed: H, GT-AH4) (CC)
GER 301 Advanced German Grammar 3(3-0)
A concentrated study of German grammar in addition to practice in writing, reading, speaking, and listening. Prerequisite: GER 202 or equivalent. (*)

GER 303 Conv And Comp: German 3(3-0)
Focus on improving linguistic proficiency within the context of German culture. Prerequisite: GER 202 or equivalent. (*)

GER 381 German Civilization I 3(3-0)
German geography, culture and history from the beginning to the present. Prerequisite: GER 202 or permission of instructor. (*)

GER 382 German Civilization II 3(3-0)
German Civilization II. Prerequisite: GER 202 or permission of instructor. (*)

Health Science (HS)

HS 101 Introduction to Health Professions 2(2-0)
Introduction to health professions, education requirements, required certifications, accreditation and employment opportunities. (F, S, SS)

HS 230 Foundations of Public Health 3(3-0)
Overview of key public health concepts, history, and how the core areas of public health help to promote population health. Employs active learning through individual activities, discussions, and field experiences. Prerequisite: HS 101. (F)

HS 235 Health Communication 3(3-0)
Examination of the effects of the media, mass, social, and participatory, in promoting and impeding the achievement of public health goals. Students will develop the skills to design, implement and evaluate health campaigns. (S)

HS 320 Evaluation of Public Health Issues 3(3-0)
Critical examination of the social determinants of health, current issues in the US health system, and legal, administrative, and ethical considerations in public health and their impact on individuals and communities. (F)

HS 330 Epidemiology and Disease Prevention 3(3-0)
Overview of principles of epidemiology and lifestyle-disease pathophysiology. Examines the use and broad application of epidemiologic concepts in public health to identify risk factors and resolve health issues in society. Prerequisite: HS 230. (F)

HS 430 Public Health Program Planning 3(3-0)
Assessment and planning methods for public health. Activities include gathering health related data, conducting needs assessments and reviewing or developing evidenced based, city, county and state level program plans. Prerequisite: HS 230. (F)

HS 435 Public Health Program Evaluation 3(3-0)
Practical applications for the development of skills in public health program implementation and evaluation methods within a variety of settings including community, school/workplace and online. Prerequisite: HS 230, HS 430. (S)

HS 492 Research (1-6 V)
Research project conducted in collaboration with a faculty member. Prerequisite: Approval of a faculty member. (F, S, SS) Repeatable (6).

HS 494 Field Experience (1-6 V)
Supervised experiential learning activities to be conducted in the actual professional environment. Project and work experiences must represent the Health Sciences field. Prerequisite: Approval of the field experience coordinator and completion of the field experience agreement. (F, S, SS) Repeatable (12).

HS 498 Internship 12(0-36)
450 hours of supervised experience with approved mentors in select public health settings. Activities include the completion of a major project, shadow hours and other assignments. Prerequisite: Senior standing; completion of all other degree requirements; 2.50 GPA in the major, coordinator approval and completion of internship agreement form. (F, S, SS)

History (HIST)

HIST 110 World History to 1500 3(3-0)
Emergence of agricultural civilizations; political, economic, and social developments; growth of empires, trade, impact of geography, climate, disease; contact between Eurasia, Africa, Australasia, the Americas. (F, S) (Gen Ed: HS, GT-HI1) (CC)

HIST 111 World History since 1500 3(3-0)
Columbian Exchange; growth of global empires, commerce, and international rivalries and cooperation; industrialization, spreading revolutions, the information age, and the emergence of the modern world. (F, S) (Gen Ed: HS, GT-HI1) (CC)

HIST 136 (CS 136) The Southwest United States 3(3-0)
This course traces the culture and historical development of the southwestern United States, including cultural contributions of the American Indian and Hispanic peoples. (F, S) (Gen Ed: HS, GT-HI1) (CC)

HIST 201 U.S. History I 3(3-0)
United States history from founding of North American colonies to 1877 Reconstruction era. (F, S) (Gen Ed: HS, GT-HI1)

HIST 202 U.S. History II 3(3-0)
United States from 1877 Reconstruction era to contemporary era. (F, S) (Gen Ed: HS, GT-HI1)

HIST 291 Independent Study (1-3 V)
An individualized program of study designed by ranked, full-time History professor for a promising student. Prerequisite: Permission of instructor. (*)

HIST 295 Special Topics (1-3 V)
Special Topics. Prerequisite: Permission of instructor. (*)

HIST 301 America to 1787 3(3-0)
History of America during the colonial and Revolutionary eras. (F, E)

HIST 302 America, 1787-1877 3(3-0)
History of the United States during the early national and Civil War eras. (S, O)

HIST 303 America, 1877-1945 3(3-0)
History of United States from the Gilded Age to 1945. (F, O)
HIST 304 America, 1945-Present 3(3-0)
History of the United States from 1945 to the present. (S, E)

HIST 311 U.S. & Them: America in the World 3(3-0)
From colonies to superpower, Americans’ changing relationships with the world’s other peoples, official and unofficial; war and peace, trade and embargo, policy and politics. (S, O)

HIST 312 Colorado History 3(3-0)
History, government and economic factors important to the settlement and development of Colorado. (S, E)

HIST 330 Ancient Greece 3(3-0)
History of Greece from the Bronze Age to the Fourth Century B.C.E., emphasizing political, social, intellectual and cultural developments. (S, E)

HIST 333 Roman Republic 3(3-0)
History of the Roman Republic emphasizing the origin and expansion of Rome and its effect on political, social, intellectual and cultural developments. (F, E)

HIST 334 Roman Empire 3(3-0)
History of the Roman Empire emphasizing political, social, economic and cultural developments. (S, O)

HIST 346 (CS 346) History of Mexico 3(3-0)
This course surveys the major political, economic, social and cultural developments of Mexico from pre-Columbian times to the present. (S, E)

HIST 352 Europe-Emergence, Empire, Evolution 3(3-0)
Survey of European history from late antiquity to the present; medieval period, Renaissance, Reformation, Enlightenment, Revolutions; modernity, extreme ideologies, World Wars, decolonization, steps to unification. (S, E)

HIST 362 History of Russia 3(3-0)
Cultural and political development of Russian and Soviet history from 800 to the present; emphasis on impact of the Bolshevik Revolution on history. (F, O)

HIST 368 Blood, Tears & Glory: War & History 3(3-0)
How and why societies go to war, fight wars, and deal with the consequences. Provides a global view of military history emphasizing culture and combat. (F, E)

HIST 372 History Of Modern China 3(3-0)
Cultural and political developments in modern China; emphasis on the interplay between Chinese tradition and western challenges. (F, E)

HIST 395 Independent Study 1-3 V
An individualized program of study designed by a ranked full-time Historian for a History major or minor. Prerequisite: History major or minor and permission of instructor. (*)

HIST 410 Creation of the US Constitution 3(3-0)
Explores writing and ratification of U.S. Constitution. (S, O)

HIST 413 American West 3(3-0)
Role of the individual and the group in the development of the frontier into the 20th century. (F, O)

HIST 414 The American Civil War 3(3-0)
Social, cultural, and political developments that caused the sectional crisis, secession, and war. War coverage includes military strategy, politics, diplomacy, and emancipation. (S, E)

HIST 415 Civil Rights 3(3-0)
Survey from Reconstruction to Black Lives Matter; particular focus on judicial, presidential, legislative, and grassroots efforts to promote change. (F, O)

HIST 428 (SOC 428, WS 428) Women & Work 3(3-0)
Examines historical and contemporary issues for women of various economic, social, and ethnic groups, especially in the US; examines gender ideologies about paid, unpaid work. Prerequisite: Junior or senior standing or permission of instructor. (*)

HIST 432 Religion and Politics in US History 3(3-0)
Explores the intersection of religion & politics in US history. Emphasis on 1st Amendment, particularly church and state. Will discuss meaning of the 1st amendment, evolution, school prayer, rise of the religious right, KKK. (F, O)

HIST 445 Topics in the History of Empires 3(3-0)
Comparative study of empires with in-depth analysis of specific topics and themes. Variable Content. (F, O) Repeatable (9).

HIST 489 (CS 489) Borderlands 3(3-0)
History of the Mexican cession to the United States from its Indian and Hispanic origins to the present. (S, O)

HIST 491 Special Topics 1-3 V
Special Topics. (*) Repeatable (99).

HIST 493 Seminar 3(3-0)
Seminar devoted to special topics and issues in history; emphasis on research paper. (S)

HIST 495 Independent Study 1-3 V
An individualized program of study designed by a ranked full-time Historian for a History major or minor. Prerequisite: History major or minor and permission of instructor. (*)

HIST 498 Internship 3-6 V
For advanced students. Practical experience through internship with museums, libraries with historical collections, and other community organizations. Recommended: history major or minor with junior or senior status. Prerequisite: Departmental permission. (*) Repeatable (6).

HIST 591 Special Topics 1-3 V
Special Topics. (*)

HIST 595 Independent Study 1-3 V
An individualized program of study designed by a ranked Historian and approved by the Graduate Director. Prerequisite: Permission of Graduate Director. (*) Repeatable (6).

Honors (HONOR)

HONOR 101 Foundations of Knowledge 1(1-0)
The Role of the University and the History of Ideas." Students learn how diverse disciplines approach problems of data collection and epistemology. Prerequisite: Director's permission. Corequisite: HONOR 101L. (F)

HONOR 101L Foundations of Knowledge Lab 1(0-1)
Lab sections capped at 25 students are small group recitations of the lecture material from 101 each week. Corequisite: HONOR 101. (F)

HONOR 201 Art and Science of Human Experience 2(2-0)
Students are challenged to examine academic and professional approaches to evaluating human experience from the perspectives of art, humanities, social, behavioral, natural and applied sciences. Prerequisite: HONOR 101. (F, S)

HONOR 210 Honors Life Science and Technology 3(3-0)
A thematic, interdisciplinary, small-group seminar dealing with the aesthetic, cultural, historical, sociological and scientific aspects of life science and technology. (*
HONOR 220 Honors Health Issues 3(3-0)
A thematic, interdisciplinary small-group seminar dealing with the aesthetic, cultural, historical, sociological, scientific and technological aspects of health issues. (*)

HONOR 230 Honors International & Economic Issues 3(3-0)
A thematic, interdisciplinary, small-group seminar dealing with aesthetic, cultural, historical, sociological, scientific and technological aspects of international and economic issues. Prerequisite: Three hours previous honors work. (*)

HONOR 240 Honors Physical Science 3(3-0)
A thematic, interdisciplinary, small-group seminar dealing with the aesthetic, cultural, historical, sociological, scientific and technological aspects of physical science. (*)

HONOR 250 Honors Literary Themes 3(3-0)
A thematic, interdisciplinary, small-group seminar dealing with the aesthetic, cultural, historical, sociological and scientific aspects of literary themes. (*)

HONOR 291 Special Topics-Honors (1-3 V)
Special Topics-Honors. (*) Repeatable (12).

HONOR 310 Honors Group Project (1-3 V)
A cooperative learning experience project culminating in a presentation or similar product. Prerequisite: 3 hours of previous Honors work. (*) Repeatable (9).

HONOR 380 Honors Service-Learning (1-2 V)
Students will work with a community-based organization to "learn by doing" in an area relevant to their major to enhance learning and build civic responsibility. Prerequisite: HONOR 201. (*) Repeatable (2).

HONOR 481 Senior Honors Thesis (1-3 V)
University Honors Program students enroll in this course to receive capstone credit. Senior seminar classes, capstone projects or other appropriate work is arranged by departments. Prerequisite: HONOR 310 and 380. (*) Repeatable (3).

HONOR 491 Special Topics-Honors (1-3 V)
Special Topics-Honors. (*) Repeatable (12).

**Humanities and Social Sciences (HSS)**

HSS 499 Senior Capstone 3(1-2)
In this course, students will complete and submit a portfolio, which is required for graduation from this degree program. Prerequisites: Senior standing, permission of instructor. Prerequisite: Senior standing; permission of instructor. (*)

**Italian (ITL)**

ITL 101 Beginning Italian I 3(3-0)
Development of skills in speaking, listening, reading, writing, and cultural understanding. (F, S) (Gen Ed: H) (CC)

ITL 102 Beginning Italian II 3(3-0)
Continuation of the development of skills in speaking, listening, reading, writing, and cultural understanding. Prerequisite: ITL 101 or equivalent. (F, S) (Gen Ed: H) (CC)

ITL 201 Intermediate Italian I 3(3-0)
Development of intermediate-level skills in speaking, listening, reading, writing, and cultural understanding. Prerequisite: ITL 102 or equivalent. (F) (Gen Ed: H, GT-AH4) (CC)

ITL 202 Intermediate Italian II 3(3-0)
Continued development of intermediate-level skills in speaking, listening, reading, writing, and cultural understanding. Prerequisite: ITL 201 or equivalent. (S) (Gen Ed: H, GT-AH4) (CC)

ITL 287 Intensive Italian Study Abroad (1-9 V)
Study of Italian in an immersion setting abroad, preparing the student for fluency through the study of grammar, civilization and culture, at an approved institution. Prerequisite: ITL 102 and permission of instructor. (*) Repeatable (9).

ITL 294 Field Experience (1-7 V)
Continued improvement of language proficiency through experiential learning. Students participate in an immersive target-language environment at home or abroad. Prerequisite: ITL 201 and permission of instructor. (*) Repeatable (7).

ITL 301 Advanced Italian Grammar 3(3-0)
A concentrated study of Italian grammar in addition to practice in writing, reading, speaking, and listening. Prerequisite: ITL 202 or equivalent. (*)

ITL 312 Conv and Comp: Italian 3(3-0)
Focus on improving linguistic proficiency within the context of Italian culture. (Culture, History, Literature, Art, Gastronomy, Current Events, etc). Prerequisite: ITL 202 or equivalent. (*)

ITL 341 Italian through Literature 3(3-0)
Focus on improving linguistic proficiency (reading, writing, listening and speaking) through the study of Italy’s rich literary legacy. Prerequisite: ITL 202. (*)

ITL 351 Italian through Film 3(3-0)
Focus on improving linguistic proficiency (reading, writing, listening and speaking) through the study of Italian cinema. Prerequisite: ITL 202. (*)

ITL 381 Italian Civilization 3(3-0)
Focus on improving linguistic proficiency through the study of Italian geography, culture and history from the Roman Empire to the present. Prerequisite: ITL 202 or permission of instructor. (*)

ITL 387 Intensive Italian Study Abroad (1-12 V)
Study of Italian in an immersion setting abroad preparing the student to become fluent in the language through the study of grammar, civilization and culture. Prerequisite: Permission of instructor and ITL 201. (*) Repeatable (99).

ITL 391 Special Topics 3(3-0)
Special Topics. Prerequisite: ITL 202. (*) Repeatable (9).

ITL 394 Field Experience (1-7 V)
Continued improvement of language proficiency through experiential learning. Students participate in an immersive target-language environment at home or abroad. Prerequisite: ITL 202 and permission of instructor. (*) Repeatable (7).

ITL 494 Field Experience (1-7 V)
Continued improvement of language proficiency through experiential learning. Students participate in an immersive target-language environment at home or abroad. Prerequisite: 2 years of college Italian. (*) Repeatable (99).

ITL 495 Independent Study (1-3 V)
May be repeated for credit with approval of major adviser. (*) Repeatable (99).
Library Archival Studies (LAS)

LAS 250 Academic Publishing 1(1-0)
Introduction to the practices of the academic publishing industry, including products and formats, subscription models, professional ethics, the open access movement, and the industry's relationship with libraries. (F) Repeatable (99).

LAS 291 Special Topics 1(1-0)
Special topics in library and archival studies. (F, S) Repeatable (99).

LAS 450 Library Publishing 1(1-0)
This course provides students with meaningful experience in: 1) conducting and coordinating peer-review and editing of original research; and 2) disseminating and preserving original research according to best practices. Prerequisite: Permission of instructor. (S) Repeatable (99).

LAS 491 Special Topics 1(1-0)
Special topics in library and archival studies. Prerequisite: Permission of instructor. (F, S) Repeatable (99).

Management (MGMT)

MGMT 201 Principles of Management 3(3-0)
Managerial process of planning, organizing, leading, decision-making, and controlling. Modern management techniques will be emphasized. (F, S, SS)

MGMT 224 Intro Agribusiness Entrepreneurship 3(3-0)
Introductory exposure to entrepreneurship for agribusinesses through presentations by industry professionals. Prerequisite: Econ 202. (*)

MGMT 301 Organizational Behavior 3(3-0)
Team-work, individual and group behavior, motivation, work design, communication, decision-making, leadership, and organizational culture. Prerequisite: MGMT 201. (F, S, SS)

MGMT 305 Agri and Res Enterprise Analysis 3(3-0)
Use of records in agricultural and resource enterprise management; analytical methods, budgets, and planning techniques for improved decision making. Prerequisite: CIS 100 and CIS 103 and CIS 104, and ECON 202. (*)

MGMT 311 Operations and Quality Management 3(3-0)
Managerial perspective of the operations and quality functions, use of analytical tools to solve operations and quality problems. Prerequisite: BUSAD 265 or MATH 156. (F, S)

MGMT 318 Human Resource Management 3(3-0)
An examination of the human resource functions of planning, selection and recruitment, compensation, training and development, employee and labor relations, and safety and health. Prerequisite: MGMT 201. (*)

MGMT 342 Water Law, Policy, and Institutions 3(3-0)
Legal water issues within the context of historical, social and economic development with an emphasis on the southwestern United States. (*)

MGMT 362 Purchasing and Materials Management 3(3-0)
Strategies and tactical methods, opportunities and problems associated with the flow of materials in an organization will be covered. Prerequisite: MGMT 311. (*)

MGMT 368 Project Management 3(3-0)
Project planning, control, management and evaluation. Use of project planning software. Prerequisite: MGMT 201 and junior standing. (F, S)

MGMT 375 Agricultural Law 3(3-0)
Laws, regulations, case decisions affecting ranching and farming in the Rocky Mountain area. (*)

MGMT 408 Agricultural Finance 3(3-0)
Monetary affairs of agribusiness and agricultural production emphasizing credit institutions and procurement, investment, and management. Prerequisite: AREC 305. (*)

MGMT 410 Labor Management Relations 3(3-0)
Federal and state legislation and executive orders governing the employer-employee relationship; legal rights of organizations and collective bargaining. Prerequisite: MGMT 318. (*)

MGMT 414 Entrepreneurship 3(3-0)
In-depth analysis of the various environment, management, accounting, finance, and legal considerations required for business plan development by an entrepreneur or small business owner. Prerequisite: MKTG 340. (*)

MGMT 460 Operations Strategy 3(3-0)
Examination of recent developments in the strategy of operations in the manufacturing and service sectors involving technological policy, new process development, and new product introduction. Prerequisite: MGMT 311. (*)

MGMT 468 Quality Management 3(3-0)
Concepts and techniques of quality improvement processes. Defining quality in customer satisfaction terms and improving quality of products and service through modern techniques. Prerequisite: MGMT 311. (*)

MGMT 471 Organization Theory and Design 3(3-0)
Evaluation of organizational design structures, measurement of system performance, and problems in design of adaptive systems. Prerequisite: Senior standing in HSB and permission of advisor. (*)

MGMT 475 International Management 3(3-0)
An analysis of management opportunities and challenges in the global environment and the evaluation and formulation of strategies of firms operating and expanding internationally. Prerequisite: FIN 330 and MGMT 301, and MKTG 340. (F, S, SS)

MGMT 478 Agricultural Policy 3(3-0)
Formulation and administration of public policies affecting agricultural industries and rural areas in the United States. Prerequisite: ECON 202. (*)

MGMT 485 Strategic Management 3(3-0)
Integration of the business core disciplines to explore ways that strategy is formed in contemporary business organizations. Case method used extensively. Prerequisite: BUSAD 360 and FIN 330 and MGMT 301 and MGMT 311, and MKTG 340. (F, S, SS)

MGMT 488 Sports Industry Management 3(3-0)
Development of the sports industry; present state, and future trends in the field through the lenses of recreation, amateur and professional sport. Prerequisite: MKTG 340. (S) Repeatable (99).

MGMT 490 Special Projects 1(1-6 V)
Special Projects. (*) Repeatable (6).

MGMT 491 Special Topics 1(1-3 V)
Special Topics. Prerequisite: Permission of instructor. (*) Repeatable (6).

MGMT 495 Independent Study 1(1-3 V)
Independent Study. Prerequisite: Senior standing in School of Business and permission of department chair. (*) Repeatable (6).

MGMT 498 Internship 1(1-6 V)
Supervised field work in selected business, social and governmental organizations; supplemented by written reports. Prerequisite: Junior or senior standing in School of Business and permission of internship coordinator. (*) Repeatable (6).
MGMT 501 Fundamentals of Management 3(3-0)
This class familiarizes students with the managerial process and multiple specific topics related to the managerial function. Prerequisite: Admission to MBA. (*)

MGMT 505 Principles of Management 3(3-0)
Managerial process of planning, organizing, leading, decision-making, and controlling. Modern management techniques will be emphasized. (*)

MGMT 511 Production/Operations Management 3(3-0)
Managerial perspective of operations functions, understanding of analytical tools to solve operations problems, applied operations issues, and develop decision-making skills. Prerequisite: Admission to MBA or permission of MBA Director. (*)

MGMT 520 Management of Organizational Behavior 3(3-0)
Ideas and concepts for increasing effectiveness in organizations. Major topics include personality, motivation, leadership, communication, group dynamics, change and conflict, and contingencies of work unit design. Prerequisite: Admission to MBA or permission of MBA Director. (*)

MGMT 521 Theories of Organizational Design 3(3-0)
Identification of external environments faced by organizations and theories of organizational design that enable organizations to operate more effectively within their respective environments. Prerequisite: Admission to MBA or permission of MBA Director. (*)

MGMT 540 Managing Human Resources 3(3-0)
A survey course covering the major areas of the management of human behavior in work organizations. Consideration given to aspects of strategic human resource management. (F)

MGMT 555 Wealth Building Enterprises 3(3-0)
Review of relevant contemporary literature, personal success definition, lifetime objectives and strategies to achieve those objectives. Seminar style. Emphasis on entrepreneurship. Prerequisite: Acceptance into MBA program or permission of instructor. (SS)

MGMT 575 International Management 3(3-0)
An advanced analysis of management opportunities and challenges in the global environment and the evaluation and formulation of strategies of firms operating and expanding internationally. Prerequisite: MGMT 520 and BUSAD 502. (F, S, SS)

MGMT 585 Management Policy and Strategy 3(3-0)
Critical analysis of the policy/strategy field. This course integrates the business core disciplines to explore ways that strategy is formed in contemporary business organizations. Case Method used extensively. Prerequisite: Admission to MBA or permission of MBA Director and completion of core courses. (*)

MGMT 591 Special Topics 3(3-0)
Special Topics. (*) Repeatable (6).

MGMT 595 Independent Study (1-3 V)
Individual study of a subject determined by the instructor and student with permission of the director. Prerequisite: Admission to MBA or permission of MBA Director. (*) Repeatable (6).

Marketing (MKTG)

MKTG 340 Principles of Marketing 3(3-0)
Analytical survey of problems encountered in distributing goods and services from a marketing-management approach with emphasis on the role of the consumer and the social responsibility of the marketer. (F, S)

MKTG 341 Sales Force Management 3(3-0)
Managing a sales force including recruiting, selection, training, compensation, supervision, stimulation and sales planning. Computer simulation used to do forecasting, budgeting, territory allocation, sales analysis and control. Prerequisite: MKTG 340. (*)

MKTG 342 Promotional Strategy 3(3-0)
Principles, concepts and problems involved in development and management of advertising, personal selling, public relations and sales promotion programs, activities in the global economy. Prerequisite: MKTG 340. (*)

MKTG 345 Retail Management 3(3-0)
Issues in buying, maintaining inventory, designing store layouts, promoting, providing services and general merchandising of products for improving retail profitability. Prerequisite: MKTG 340. (*)

MKTG 348 Consumer Behavior 3(3-0)
Survey of contributions of behavioral sciences to understanding and prediction of consumer behavior in the decision-making process. Prerequisite: MKTG 340. (*)

MKTG 388 Sports Industry Marketing 3(3-0)
Introduce the various aspects of sports marketing, concentrating on the basic principles of sales, sponsorship, fan development, promotion, advertising and merchandising. Prerequisite: MKTG 340. (F) Repeatable (99).

MKTG 410 Social Media and E-Marketing 3(3-0)
Detailed consideration of social media platforms and electronic marketing strategies. Planning executing, and monitoring online campaigns executed. Electronic Marketing theory discussed. Prerequisite: MKTG 340. (*)

MKTG 440 Marketing Research 3(3-0)
Fundamental techniques. Practical experience in research methodology: planning an investigation, questionnaires, sampling, interpretation of results, report preparation. Prerequisite: MKTG 340 and BUSAD 265. (*)

MKTG 441 Marketing Strategies 3(3-0)
Detailed consideration of process of formulating and implementing strategies in marketing. Major emphasis on markets, channels of distribution, and product analysis. Prerequisite: BUSAD 360 and MKTG 340 (*)

MKTG 475 International Marketing 3(3-0)
Effects of culture, political and legal structures on marketing. Planning for international products, services, promotion, pricing, distribution and impact of trade groups. Prerequisite: MKTG 340. (*)

MKTG 490 Special Projects (1-6 V)
Special Projects. Prerequisite: MKTG 340 and permission of instructor. (*) Repeatable (6).

MKTG 491 Special Topics (1-3 V)
Special Topics. Prerequisite: MKTG 340 and permission of instructor. (*) Repeatable (6).

MKTG 495 Independent Study (1-3 V)
Independent Study. Prerequisite: MKTG 340 and permission of instructor. (*) Repeatable (6).

MKTG 498 Internship (1-6 V)
Supervised field work in selected business, social and governmental organizations; supplemented by written reports. Prerequisite: MKTG 340 and junior or senior standing in School of Business, and permission of internship coordinator. (*) Repeatable (6).
MKTG 501  Fundamentals of Marketing  1.5(1.5-0)
This class prepares students in the conception, promotion, pricing and
distribution of ideas, goods, and services from a marketing perspective.
Prerequisite: Admission to MBA. (*)

MKTG 505  Principles of Marketing  3(3-0)
Analytical survey of problems encountered in distributing goods and
services from a marketing-management approach with emphasis on
the role of the consumer and the social responsibility of the marketer. (*)

MKTG 540  Marketing Management  3(3-0)
Emphasizes an understanding of market behavior, coordination and
implementation of the marketing mix with other managerial decisions,
and the integration of theory through use of cases. Prerequisite:
Admission to MBA or permission of MBA Director. (*)

MKTG 561  Advertising and Promotion Research  3(3-0)
Advertising and promotion research examines the effectiveness of
alternative creative and channel strategies. Corequisite: MKTG 540. (S)

MKTG 575  International Marketing  3(3-0)
An advanced analysis of marketing opportunities and challenges in the
global environment and the evaluation and formulation of strategies of
firms operating and expanding internationally. Prerequisite: MKTG 540. (F,
S, SS)

MKTG 591  Special Topics  3(3-0)
Special Topics. (*) Repeatable (6).

MKTG 595  Independent Study  (1-3 V)
Individual study of a subject determined by the instructor and student
with permission of the director. Prerequisite: Admission to MBA or
permission of MBA Director. (F, S, SS) Repeatable (6).

Mass Communications and Center for New Media (MCCNM)

MCCNM 101  Media and Society  3(3-0)
Survey course that examines the historical, sociological, economic,
technological, and ethical foundations of mediated communication from
a social scientific perspective. (F, S, SS) (Gen Ed: SS, GT-SS3)

MCCNM 140  Radio Station Operation  1(1-0)
An introduction to radio station operation. Students gain practical
experience operating KTSC 89.5, Colorado State University-Pueblo's 8,000
watt radio station. Prerequisite: MCCNM 101. (F, S)

MCCNM 201  Introduction to Journalism  3(3-0)
Instruction in basic journalism concepts including news writing style,
news values, the public's right to know, objectivity, fairness and accuracy.
Required for majors and minors. Prerequisite: ENG 101 and 102. (F, S)

MCCNM 210  Intro to Integrated Communication  3(3-0)
Fundamental principles of Integrated Marketing Communication,
including advertising, public relations, sales promotion, and direct
response, as applied to non-profit, government, and for profit
organizations. Prerequisite: MCCNM 101. (F, S, SS)

MCCNM 211  Digital Publishing  3(1-4)
Introduction to publishing and design principles on a desktop computing
environment, preparing students for publication design and editing
careers. (F, S, SS)

MCCNM 220  Introduction to Electronic Media  3(3-0)
The course focuses upon the history, background, and technologies of
the electronic media. Prerequisite: MCCNM 101. (F, S)

MCCNM 222  Broadcast News Writing  3(3-0)
Preparation of copy for radio/television news reports, interviews and
commentary. (*)

MCCNM 232  Website Design  3(2-2)
Introduction to the creation and design of WWW pages, software
applications, protocols and standards for implementing and managing
WWW sites. (F, S, SS)

MCCNM 233  Script Writing  3(2-2)
Techniques, styles, formats, treatments, outlines, and scenarios for script
forms used in the electronic media are covered with emphasis upon
preparing scripts for production. (S)

MCCNM 235 (WS 235)  Women and Media  3(3-0)
The historical and cultural implications of the mass media's portrayal
of women and the extent of their media participation from colonial to
contemporary times. (*)

MCCNM 245  Digital Media Production  3(3-0)
Concepts, skills and technology needed for recording and production of
digital audio and video communication. Prerequisite: MCCNM 101. (F, S)

MCCNM 246  Advanced Digital Media Production  3(2-2)
The theory and practice of location digital video production using the
single-camera approach to news and other non-fiction formats.
Prerequisite: MCCNM 245. (*)

MCCNM 250  Advertising Copywriting  3(3-0)
Copy writing essentials and formats for print, broadcast and direct
mail advertising. Emphasis is on developing writing techniques for
advertising. (S)

MCCNM 252  Digital Media Post Production  3(2-2)
The theory and practice of digital post processing using computer software.
SS)

MCCNM 282  Digital Media Production  3(2-2)
The theory and practice of digital post production using nonlinear editing.
Students will use their production skills in a variety of community based
projects. Prerequisite: MCCNM 246. (*)

MCCNM 301  Editorial Writing  3(3-0)
Study of editorial page management and policy, with emphasis on
preparation of editorials, columns and critical reviews. Prerequisite:
MCCNM 201. (*)

MCCNM 302  Advertising Copywriting  3(3-0)
Copy writing essentials and formats for print, broadcast and direct
mail advertising. Emphasis is on developing writing techniques for
practical application in both retail and product advertising. Prerequisite:
MCCNM 210 and MCCNM 211. (F)

MCCNM 305  News and Feature Writing  3(3-0)
Course covers the principles and practices, skills and ethics of
professional general assignment news reporting and feature writing,
including in-depth interviewing. Prerequisite: MCCNM 201. (S)

MCCNM 312  Publication Editing and Design  3(3-0)
News and features evaluation, copy editing, headline writing, basic page
and overall publication design principles, photo and illustration editing,
and use of desktop publishing software. Prerequisite: MCCNM 211 and
305. (S)

MCCNM 317  Advertising Strategy  3(3-0)
Seminar emphasizing tactics and strategies of advertising planning,
utilizing media techniques, marketing posture and creative media buying.
Prerequisite: MCCNM 210. (*)

MCCNM 318  Regulation of Electronic Media  3(3-0)
The historical and legal structures of radio, television, cable, and new
technologies of mass communications are explored with emphasis upon
inventors, innovation, and social development. Prerequisite: MCCNM 101
and 220. (F, S)
MCCNM 320 Media Programming 3(3-0)
Program types used on broadcast stations; analysis of network structure and local station programs; ethical requirements in programming. Prerequisite: MCCNM 101 and 220. (F)

MCCNM 321 Public Relations Case Problems 3(3-0)
Emphasis on analyzing public relations scenarios involving non-profit, private sector and government organizations and their impact on such publics as employees, consumers, voters, and volunteers. Prerequisite: MCCNM 210. (F)

MCCNM 330 (WS 330) Gender and Film 3(3-0)
A discussion course which examines gender roles in theatrical and documentary film while considering the perspective of producers, actors and spectators and salient film theories. Prerequisite: Upper division standing in MCCNM or Women’s Studies. (*)

MCCNM 333 U2: Mediated Discourse & Invention 3(3-0)
A survey of the history, background, influence, work, and music of U2, coupled with the opportunity to examine the band’s mediated communication efforts and creativity. Prerequisite: MCCNM 101. (S)

MCCNM 336 Interactive Media 3(3-0)
An overview of interactive media systems and the computer applications used to create interactive media content. Prerequisite: MCCNM 101. (F)

MCCNM 338 Global Communications 3(3-0)
A discussion of the cross border flow of information and cultural products, emphasis placed on major movements, investors, and global activities involved in international communication. Prerequisite: MCCNM 220. (F)

MCCNM 350 Advanced Media Lab 2-3 V
Advanced laboratory courses for media that include the TODAY online and print news operation, advertising, KTSC-FM radio, and KTSC-RMPBS television production. Prerequisite: MCCNM major or minor or junior or senior standing, or permission of instructor. (F, S, SS) Repeatable (9).

MCCNM 370 Non-profit Organizations and Communication 3(3-0)
A seminar course using cooperative teaching that integrates theory and practice to examine the basic elements of nonprofit organizations from economic, political, and social perspectives. Prerequisite: Sophomore standing. (S)

MCCNM 402 Photojournalism 4(3-2)
Practical course in pictorial reporting; emphasis on spot news feature, picture stories and photographic essays. Prerequisite: MCCNM 260 or permission of instructor. (*)

MCCNM 411 Media Law and Ethics 3(3-0)
Ethical and legal factors of mass communications related to the structure and substance of laws at federal, state and local levels, including freedoms, restraints and contemporary issues. Prerequisite: Junior or senior standing. (F, S)

MCCNM 415 Theories of Mass Communication 3(3-0)
Application of information theories to mass communication problems. Nature of the communication process in groups and between mass media and audiences. Contribution of theoretical concepts to solving specific problems. Prerequisite: Senior standing or permission of instructor. (*)

MCCNM 422 Writing for Public Relations 3(3-0)
A specialized course in persuasive writing techniques in different formats. Emphasis is on print and electronic news releases, public service announcements, brochures, news-letters, speeches, and proclamations. Prerequisite: MCCNM 201 and 210. (S)

MCCNM 425 Audience Research Methodology 3(3-0)
Research methods to define and describe various publics contained within the mass audience. Emphasis on sampling, survey methods, data collection and analysis. (F, S)

MCCNM 430 Integrated Communications Campaigns 3(3-0)
The course examines the organization, structure, components and preparation of an integrated communication campaign focusing on advertising, public relations, sales promotion and direct response. Prerequisite: MCCNM 302 and MCCNM 425. (F)

MCCNM 432 Video Documentary 3(2-2)
Advanced production course about non-fiction formats. The course combines theory, history, and production aesthetics specific to television documentary with opportunity to produce a TV documentary. Prerequisite: MCCNM 245. (*)

MCCNM 440 (ENG 440) Magazine Writing 3(3-0)
Instruction and practice in writing nonfiction magazine articles, with emphasis on story research and market selection. Prerequisite: MCCNM 305. (*)

MCCNM 445 Reporting Public Affairs 3(3-0)
Instruction and practice in reporting important issues in areas such as crime, courts, local and state government. Prerequisite: MCCNM 305. (S)

MCCNM 470 Healthcare Communications 3(3-0)
A specialized integrated communication course to develop deeper understanding of the healthcare industry and how integrated communications helps healthcare organizations achieve their objectives. Prerequisite: MCCNM 210. (S)

MCCNM 490 Special Projects 1-3 V
Individualized instruction within a special interest area, under supervision of a member of the department. Prerequisite: Junior or senior standing, or permission of instructor. (F, S, SS) Repeatable (6).

MCCNM 491 Special Topics 1-3 V
Special Topics. Prerequisite: Junior or senior standing, or permission of instructor. (F, S, SS) Repeatable (99).

MCCNM 493 Seminar 3(3-0)
Seminar devoted to special problems in mass media; emphasis on interrelationships of media, understanding media, and the role of criticism. Prerequisite: Senior standing. (F, S)

MCCNM 494 Field Experience 3(9 V)
A semester-long internship. Student performs the professional duties required by the cooperating commercial mass medium, business or public service agency. Prerequisite: Junior or senior standing and minimum of 30 hours in major, or permission of program chair and 3.0 major GPA. (F, S, SS) Repeatable (9).

MCCNM 495 Independent Study 1-3 V
Independent Study. Prerequisite: Junior or senior standing, or permission of instructor. (F, S, SS) Repeatable (6).

MCCNM 591 Special Topics 1-3 V
Special Topics. Prerequisite: Graduate standing. (*)

Mathematics (MATH)

MATH 91 Special Topics 1-4 V
Special topics are offered to students in areas where regular course offerings are not available. This course does not count toward graduation. Prerequisite: Satisfactory placement exam score. (*) Repeatable (99).
MATH 96 College Prep Math 1 3(3-0)
Operations with real numbers. Solving and graphing linear equations with applications. Polynomial addition, subtraction, multiplication and division. This course does not count toward graduation. Prerequisite: Satisfactory placement exam score. (F, S)

MATH 97 College Prep Math 2 3(3-0)
Factoring polynomials, solving polynomial equations. Rational expressions and equations with applications. Inequalities and absolute value. Quadratic functions with applications. This course does not count toward graduation. Prerequisite: Satisfactory placement exam score or MATH 096 or equivalent. (F, S)

MATH 98 Introductory Algebra 4(4-0)
Review of elementary algebraic operations including factoring and operations with fractions. Introduction to graphing, including graphs of lines. Solutions to linear and quadratic equations. This course does not count toward graduation. Prerequisite: Satisfactory placement exam score. (F, S)

MATH 99 Intermediate Algebra 4(4-0)
A course designed to broaden and deepen algebraic problem-solving skills. Topics include systems of equations, exponents, radicals, complex numbers, quadratic equations, factoring polynomials, function notation and graphs. (This course does not count toward graduation. Prerequisite: Satisfactory placement exam score or MATH 098 or equivalent. (F, S)

MATH 101 Introductory College Mathematics 3(3-0)
Solving systems of linear equations. Introduction to functions. Operations with radical expressions. Solving radical equations. Exponential and logarithmic functions with applications. Prerequisite: Satisfactory placement exam score or MATH 97 or equivalent. (F, S)

MATH 109 Mathematical Explorations 3(3-0)
Emphasis on quantitative reasoning and problem solving. Topics chosen from: logic, sets, algebra, linear programming, probability, statistics, number theory, geometry, voting theory and graph theory. Prerequisite: Satisfactory placement exam score or MATH 099 or Math 097. (F, S) (Gen Ed: M, GT-MA1)

MATH 118 SAI for College Algebra 2(2-0)
Student-centered instruction to review basic academic skills for students to be successful in MATH 119 College Algebra. Prerequisite: Satisfactory placement score (ACT 19-21) and first-time, full-time student status. Corequisite: Concurrent enrollment in MATH 119. (F)

MATH 119 College Algebra With SAI 4(4-0)
Applications of algebraic techniques to study polynomial, rational, exponential and logarithmic functions; functions concepts are emphasized and exploited to analyze and solve applied problems. Prerequisite: Satisfactory placement score (ACT 19-21) and first-time, full-time student status. Corequisite: Concurrent enrollment in MATH 118. (F) (Gen Ed: M)

MATH 120 Pre-Calculus Algebra 3(3-0)
Solutions of algebraic equations, graphs of rational functions, exponential and logarithmic functions. Prerequisite: Satisfactory placement exam score or Math 101 or equivalent. (F, S)

MATH 121 College Algebra 4(4-0)
Solutions of algebraic equations, graphs of rational functions, exponential and logarithmic functions, and systems of equations. Prerequisite: Satisfactory placement exam score or MATH 099 or equivalent. (F, S, SS) (Gen Ed: M, GT-MA1)

MATH 122 College Trigonometry 3(3-0)
Trigonometric and circular functions, identities, inverse functions, vectors, complex numbers. Prerequisite: MATH 121 or equivalent. (*)

MATH 124 Pre-calculus Math 5(5-0)
Polynomial, rational, exponential and logarithmic functions; solution of systems of equations; trigonometric, circular and certain special functions. Prerequisite: Satisfactory placement exam score or MATH 121 or MATH 120 (college algebra) or equivalent. (F, S) (Gen Ed: M, GT-MA1)

MATH 126 Calculus and Analytic Geometry I 5(5-0)
Introduction to limits, continuity, differentiation and integration with selected applications. Prerequisite: Satisfactory placement exam score or MATH 124 or equivalent. (F, S) (Gen Ed: M, GT-MA1)

MATH 156 Introduction to Statistics 3(3-0)
Introduction to data analysis. Binomial and normal models. Sample statistics, confidence intervals, hypothesis tests, linear regression and correlation, and chi-square tests. Prerequisite: Satisfactory placement exam score or MATH 099 or Math 101 or equivalent. (F, S) (Gen Ed: M, GT-MA1)

MATH 191 Special Topics (1-5 V)
Special topics suitable for entry level math students. Available in S/U grading. Prerequisite: Permission of instructor or approval of the department chair. (*) Repeatable (99).

MATH 207 Matrix and Vector Algebra with Applications 3(3-0)
Systems of equations, matrices, inverses, determinants, eigenvalues and eigenvectors, scalar and cross-product, selected applications. Prerequisite: MATH 124 (F, S)

MATH 220 Quantitative Analysis for Business 4(4-0)
An introduction to quantitative methods required for business studies, including linear programming, probability and statistics. Prerequisite: Satisfactory placement exam score or MATH 121 or Math 101 or equivalent. (F, S)

MATH 221 Applied Calc: An Intuitive Approach 4(4-0)
Non-rigorous introduction to calculus with emphasis on applications and modeling in the life sciences, social and behavioral sciences and business. Prerequisite: Satisfactory placement exam score or MATH 121 or MATH 120 (college algebra) or equivalent. (F, S) (Gen Ed: M, GT-MA1)

MATH 224 Calculus and Analytic Geometry II 5(5-0)
Differentiation and integration of transcendental functions, infinite sequences and series, parametric curves, and applications. Prerequisite: MATH 126. (F, S)

MATH 242 Introduction to Computation 4(3-2)
Computer programming and computation with applications. Loops, conditionals, data types and structures, I/O, functions debugging, testing, and documentation. Numerical, graphical, symbolic computation issues and projects. Prerequisite: MATH 126. (S)

MATH 291 Special Topics (1-5 V)
Special Topics. Prerequisite: Permission of instructor and approval of the department chair. (*) Repeatable (99).

MATH 295 Independent Study (1-5 V)
Independent Study. Prerequisite: Permission of instructor. (*) Repeatable (99).

MATH 307 Introduction to Linear Algebra 4(4-0)
A rigorous development of vector spaces and linear transformations. Prerequisite: MATH 224 and MATH 325 or 207. (F)

MATH 319 Number Theory 3(3-0)
Divisibility, prime numbers, linear congruences, multiplicative functions, cryptography, primitive roots, and quadratic residues. Prerequisite: MATH 224. (F)
MATH 320 Introductory Discrete Mathematics 3(3-0)
Introduction to discrete structures with emphasis on logic and proof. Topics selected from graph theory, boolean algebra, combinatorics, binary relations, set theory, functions and sequences. Prerequisite: A grade of C or better in MATH 224. (*)

MATH 325 Intermediate Calculus 4(4-0)
Continuation of MATH 224. Vector valued functions and multivariable calculus. Prerequisite: MATH 224 or permission of instructor. (F)

MATH 330 Introduction to Higher Geometry 3(3-0)
Euclidean, hyperbolic, finite, and transformation geometries, models, and constructions. Prerequisite: MATH 224 or permission of instructor. (S)

MATH 337 Differential Equations I 3(3-0)
First order differential equations, homogenous and non-homogenous linear differential equations, introduction to the Laplace transform, applications. Prerequisite: MATH 224 or equivalent. (F, S)

MATH 338 Differential Equations II 3(3-0)
Linear systems, existence and uniqueness of solutions, non-linear equations, series solutions, orthogonal sets of functions. Fourier series, boundary value problems, partial differential equations and applications. Prerequisite: MATH 337. MATH 325 is recommended. (F, *, O)

MATH 342 Introduction to Numerical Analysis 3(3-0)
Numerical solutions of polynomial, differential, integral, and other equations using the computer. Prerequisite: MATH 224 and a programming language, or permission of instructor. (*)

MATH 345 Algorithms and Data Structures 4(3-2)
An introduction to data structures, sorting, searching, recurrence relations and performance measures. Algorithms will be studied analytically and through computer implementation. Prerequisite: MATH 224 and MATH 242. (*)

MATH 350 Probability 3(3-0)
Introduction to probability theory and stochastic processes. Probability spaces, random variables and their distributions, exponential and Poisson processes, limit theorems and applications. Prerequisite: MATH 325. (F)

MATH 356 Statistics for Engineers and Scientists 3(3-0)
Calculus-based introduction to statistical methods. Sampling distributions, hypothesis testing, linear regression, design of experiments using ANOVA. Data analysis with Minitab. Prerequisite: MATH 350. (S)

MATH 360 Elementary Mathematics Concepts I 3(3-0)
Development of the real number system and related concepts, including sets, numeration systems, whole numbers, integers, number theory and algorithms. Recommended MATH 109. Prerequisite: Satisfactory placement score. (F)

MATH 361 Elementary Mathematics Concepts II 3(3-0)
Conceptual development of fractions, rational numbers, geometry, measurement, probability and statistics. Prerequisite: MATH 360 and satisfactory placement score. (S)

MATH 362 Problem Solving for K-6 Teachers 3(3-0)
This course focuses on the process of mathematical problem solving. Students will develop and implement useful heuristics, and reflect on problem solving strategies. Prerequisite: MATH 361 and satisfactory placement score. (F, S)

MATH 411 Introduction to Topology 3(3-0)
An introduction to topological spaces, homeomorphisms, topological properties, and separation axioms. Prerequisite: MATH 307 or MATH 320. (*)

MATH 421 Introduction to Analysis 4(4-0)
An introductory course in real analysis providing a rigorous development of the concepts of elementary calculus. Prerequisite: MATH 307 and three approved upper division MATH courses. (F)

MATH 425 Complex Variables 3(3-0)
An introduction to complex function theory. Complex numbers, sequences and series, the calculus of complex functions, analytic functions, and conformal mappings. Prerequisite: MATH 325. (*)

MATH 427 Abstract Algebra 4(4-0)
Introduction to groups, rings and fields and their elementary properties. Prerequisite: MATH 307 and three approved upper division MATH courses. (S)

MATH 445 Discrete Mathematics 3(3-0)
Topics selected from mathematical reasoning, combinatorial techniques, set theory, binary relations, functions and sequences, algorithm analysis, and discrete analysis. Prerequisite: MATH 307 and 307 and knowledge of a programming language. (*)

MATH 463 History of Mathematics 3(3-0)
Survey of the origins of important mathematical concepts and of the mathematicians responsible for these discoveries. Prerequisite: MATH 307 or MATH 320. (F, O)

MATH 477 Methods for Teaching Secondary Math 4(3-2)
Topics and issues in secondary mathematics education, including materials development, learning theories, instructional and assessment strategies, curriculum, planning and standards. Sixty hours field experience required. Prerequisite: Acceptance into Teacher Education Program and MATH 307 or MATH 320. (F, E)

MATH 480 Tutoring Practicum 1(1-2 V)
Participation in tutoring mathematics in the MLC under the guidance of the MLC Director. Prerequisite: MATH 224 and permission of MLC Director. (F, S, SS) Repeatable (2).

MATH 491 Special Topics 1-3 V
Special Topics. Prerequisite: Permission of instructor. (*) Repeatable (99).

MATH 492 Research 1-3 V
Research project selected by student and supervised by a regular mathematics faculty member. Prerequisite: Department approval. (*) Repeatable (99).

MATH 493 Seminar 1-3 V
Seminar. Prerequisite: Senior standing and permission of instructor. (*) Repeatable (99).

MATH 495 Independent Study 1-3 V
Independent Study. Prerequisite: Senior standing and permission of instructor. (*) Repeatable (99).

MATH 498 Internship 1-6 V
Work experience using the discipline of mathematics under the direction of the selected organization and a faculty member. Prerequisite: Junior or senior standing and permission of the department chair. (*) Repeatable (99).

MATH 501 Foundations of Mathematics 3(3-0)
Sets, logic, axioms, mappings and the various sub-systems of the reals for beginning graduate students. Prerequisite: Permission of instructor. (*)

MATH 507 Linear Algebra 3(3-0)
Vector spaces, linear transformations, matrix representation, canonical form. Prerequisite: Permission of instructor. (*)
MATH 521 Intermediate Analysis 3(3-0)
Point set theory, including the Bolzano-Weierstrass and the Heine-Borel theorems, theory of differentiation and Riemann integration, and sequences and series of functions. Prerequisite: Permission of instructor. (*)

MATH 527 Abstract Algebra 3(3-0)
Groups, rings, integral domains, quotient rings, ideals, fields, homomorphisms and related topics. Prerequisite: Permission of instructor. (*)

MATH 530 Advanced Geometry 3(3-0)
Foundations of geometry, geometric transformations, and applications. Prerequisite: Permission of instructor. (*)

MATH 550 Statistical Methods 3(3-0)
Statistical modeling as a framework for the analysis of experimental data. Emphasis on use of statistical software. Regression, ANOVA, variance components, and chi-square tests. Prerequisite: MATH 156 or equivalent within the last five years. (*)

MATH 556 (EN 556) Design and Analysis Of Experiments 3(3-0)
Foundations of experimental design, outline efficient methods to implement experiments, develop statistical methods to sort signal from noise, analysis of variance and response surface models. Prerequisite: Permission of instructor. (*)

MATH 577 Concepts in Secondary School Mathematics (1-4 V)
Problems of teaching secondary school mathematics; the slow learner, methods, gifted students, evaluation. Prerequisite: Permission of instructor. (*)

MATH 591 Special Topics (1-3 V)
Special Topics. (*) Repeatable (99).

MATH 595 Independent Study (1-2 V)
Independent Study. (*) Repeatable (99).

MATH 598 Graduate Internship (1-4 V)
Volunteer or paid work experience under the combined supervision of the selected organization and a faculty member. Prerequisite: Graduate standing. (*) Repeatable (99).

MATH 599 Thesis Research (1-6 V)
Thesis Research. Prerequisite: Graduate student status. (*) Repeatable (99).

Military Science and Leadership (MSL)

MSL 101 Leadership and Personal Development 3(2-2)
Introduces students to the personal challenges and competencies that are critical for effective leadership. Students learn skills that relate to leadership, officership and the Army. Field work required once a week. (F)

MSL 102 Introduction to Tactical Leadership 3(2-2)
Provides an overview of leadership fundamentals such as problem solving, listening skills and writing. Students explore dimensions of leadership in the context of classroom instruction and practical exercises. Field work required once a week. (S)

MSL 201 Innovative Team Leadership 3(2-2)
Explores the dimensions of creative tactical leadership strategies and styles by examining team dynamics and leadership theories. Students practice team building exercises during leadership labs. Field work required once a week. (F)

MSL 202 Foundations of Tactical Leadership 3(2-2)
Examines the challenges of leading tactical teams in the contemporary operating environment (COE). Highlights terrain analysis, operation orders and adaptive leadership. Field work required once a week. (S, E)

MSL 301 Adaptive Tactical Leadership 3(2-2)
Challenges students to study, practice and evaluate adaptive leadership skills in scenarios related to squad tactical operations. Students receive specific feedback on their leadership skills. Field work required once a week and physical training required three times per week. Prerequisite: ROTC Basic Course Credit. (F)

MSL 302 Leadership in Changing Environments 3(2-2)
Employs increasing leadership challenges to build skills in leading tactical operations at the platoon level. Students learn basics of stability operations and conduct military briefings. Field work required once a week. Physical training required three times/week. Prerequisite: ROTC Basic Course Credit. (S)

MSL 303 Advanced Camp 6(0-12)
Students are assigned to a unit, placed in leadership positions, and evaluated on how they work in that unit. Mandatory for Advanced Course ROTC students. Prerequisite: MSL 301 and MSL 302. (SS)

MSL 401 Developing Adaptive Leaders 3(2-2)
Develops proficiency in planning, executing and assessing complex operations by functioning as a staff; includes basics of risk management, ethical decision-making and military justice. Field work required once a week. Physical training required three times per week. Prerequisite: ROTC Basic Course Credit. (F)

MSL 402 Leadership in a Complex World 3(2-2)
Explores the dynamics of leading in complex situations of the current operating environment (COE). Includes advanced instruction in law of war and interaction with non-governmental organizations (NGOs). Field work once weekly. Physical training required three times per week. Prerequisite: ROTC Basic Course Credit. (S, E)

MSL 485 Special Studies in Leadership 1(1-0)
Course for students participating in the Army ROTC Advanced Course that want to pursue further studies in military leadership and group dynamics. May be repeated for credit. Prerequisite: By arrangement with the professor of Military Science only. (F, S) Repeatable (99).

Music (MUS)

MUS 100 Music Fundamentals I: Notation 2(2-0)
An overview of the basic elements and principles of music notation and their application to performance. (*)

MUS 101 Music Performance Symposium I [*0*]
Level one course in observation and critique of music performances, includes lectures, clinics, demonstrations, and performance preparation. Weekly critiques required for credit. (F, S) Repeatable (2).

MUS 103 Music and Computer Technology I 1(1-0)
Introduction to the use of computer technology in music, including digital audio, MIDI, composing, sequencing, performing, and printing, utilizing various software applications. Prerequisite: Permission of instructor. (F, S)

MUS 105 Music Fundamentals II: Foundations 2(2-0)
A study of the basic principles of music theory relating to musical composition. Prepares students for success in the Music Theory sequence. (*)
MUS 110 Music and Audio Production I 2(2-0)
Introduces principals of music and audio recording, editing, mixing and mastering using computer-based Digital Audio Workstation software. Prerequisite: Permission of instructor. (F, S)

MUS 113 Vocal Techniques and Diction 1(0-2)
Instruction in the fundamentals of singing from a pedagogical approach. Additional basic instruction in foreign language pronunciation. Primarily intended for students in Music Education. (F, S)

MUS 118 Music Appreciation 3(3-0)
Significant musical compositions, composers and historical eras; analysis and description of music forms and terms; includes women composers and multi-cultural issues. (F, S) (Gen Ed: H, GT-AH1) (CC)

MUS 120 History of Jazz 2(2-0)
Study of historical trends and developments in jazz, including significant performers, styles, composers, and compositions. (*)

MUS 125 Piano Class for Non-Majors 1(0-2)
An elective course for the piano beginner or intermediate player who wishes to increase personal skill at the keyboard. (F, S) Repeatable (2).

MUS 127 Functional Piano I: Beginning 1(0-2)
For students with no piano experience. Introduces fundamentals, with emphasis on providing skills necessary for successful completion of the Proficiency Exam. (F, S) Repeatable (2).

MUS 130 Guitar Class 1(0-2)
Basic instruction in guitar technique in a group setting. Application of both melodic and chordal (rhythmic) media. Primarily for the non-music major/minor. (*) Repeatable (99).

MUS 150 Music Theory I 3(3-0)
A comprehensive review of all music theory fundamentals leading to diatonic harmony and four-part writing based on 18th century “common practice”. Prerequisite: Successful completion of MUS 100 and 105 recommended (or satisfactory completion of theory placement examination). Corequisite: MUS 151. (F)

MUS 151 Aural Skills I 2(1-2)
Development of basic aural skills, including diatonic harmony, interval recognition, singing at sight, error detection, and rhythmic, melodic, and harmonic discriminatory listening. Corequisite: MUS 150. (F, S)

MUS 152 Jazz Improvisation I 2(2-0)
Introduction to theory and techniques of improvisation in various styles of jazz. Includes developing familiarity with various representative jazz artists. Prerequisite: Permission of instructor. (F) Repeatable (6).

MUS 160 Applied Violin, Non-Major 1(2-V)
Applied music study in various performance areas for the non-music major. Weekly lesson arranged with the instructor. Prerequisite: Permission of instructor. (F, S) Repeatable (99).

MUS 161 Applied Viola, Non-Major 1(2-V)
Applied music study in various performance areas for the non-music major. Weekly lesson arranged with the instructor. Prerequisite: Permission of instructor. (F, S) Repeatable (99).

MUS 162 Applied Cello, Non-Major 1(2-V)
Applied music study in various performance areas for the non-music major. Weekly lesson arranged with the instructor. Prerequisite: Permission of instructor. (F, S) Repeatable (99).

MUS 163 Applied Bass, Non-Major 1(2-V)
Applied music study in various performance areas for the non-music major. Weekly lesson arranged with the instructor. Prerequisite: Permission of instructor. (F, S) Repeatable (99).

MUS 164 Applied Flute, Non-Major 1(2-V)
Applied music study in various performance areas for the non-music major. Weekly lesson arranged with the instructor. Prerequisite: Permission of instructor. (F, S) Repeatable (99).

MUS 165 Applied Oboe, Non-Major 1(2-V)
Applied music study in various performance areas for the non-music major. Weekly lesson arranged with the instructor. Prerequisite: Permission of instructor. (F, S) Repeatable (99).

MUS 166 Applied Bassoon, Non-Major 1(2-V)
Applied music study in various performance areas for the non-music major. Weekly lesson arranged with the instructor. Prerequisite: Permission of instructor. (F, S) Repeatable (99).

MUS 167 Applied Clarinet, Non-Major 1(2-V)
Applied music study in various performance areas for the non-music major. Weekly lesson arranged with the instructor. Prerequisite: Permission of instructor. (F, S) Repeatable (99).

MUS 168 Applied Saxophone, Non-Major 1(2-V)
Applied music study in various performance areas for the non-music major. Weekly lesson arranged with the instructor. Prerequisite: Permission of instructor. (F, S) Repeatable (99).

MUS 169 Applied French Horn, Non-Major 1(2-V)
Applied music study in various performance areas for the non-music major. Weekly lesson arranged with the instructor. Prerequisite: Permission of instructor. (F, S) Repeatable (99).

MUS 170 Applied Trumpet, Non-Major 1(2-V)
Applied music study in various performance areas for the non-music major. Weekly lesson arranged with the instructor. Prerequisite: Permission of instructor. (F, S) Repeatable (99).

MUS 173 Applied Euphonium, Non-Major 1(2-V)
Applied music study in various performance areas for the non-music major. Weekly lesson arranged with the instructor. Prerequisite: Permission of instructor. (F, S) Repeatable (99).

MUS 174 Applied Tuba, Non-Major 1(2-V)
Applied music study in various performance areas for the non-music major. Weekly lesson arranged with the instructor. Prerequisite: Permission of instructor. (F, S) Repeatable (99).

MUS 175 Applied Percussion, Non-Major 1(2-V)
Applied music study in various performance areas for the non-music major. Weekly lesson arranged with the instructor. Prerequisite: Permission of instructor. (F, S) Repeatable (99).

MUS 176 Applied Piano, Non-Major 1(2-V)
Applied music study in various performance areas for the non-music major. Weekly lesson arranged with the instructor. Prerequisite: Permission of instructor. (F, S) Repeatable (99).

MUS 177 Applied Organ, Non-Major 1(2-V)
Applied music study in various performance areas for the non-music major. Weekly lesson arranged with the instructor. Prerequisite: Permission of instructor. (F, S) Repeatable (99).
MUS 178  Applied Classical Guitar, Non-Major  (1-2 V)
Applied music study in various performance areas for the non-music major. Weekly lesson arranged with the instructor. Prerequisite: Permission of instructor. (F, S) Repeatable (99).

MUS 179  Applied Jazz/Comm. Guitar Non-Maj  (1-2 V)
Applied music study in various performance areas for the non-music major. Weekly lesson arranged with the instructor. Prerequisite: Permission of instructor. (F, S) Repeatable (99).

MUS 180  Introduction to Composition  1(1-0)
Introductory course to the processes of musical composition, emphasizing chamber works and consideration of form. Prerequisite: MUS 150 and MUS 151, or permission of the instructor. (F, S, SS) Repeatable (99).

MUS 201  Music Performance Symposium II  ["0",
Level two course in observation and critique of music performances; includes lectures, clinics, demonstrations, and performance preparation. Weekly critiques required for credit. Prerequisite: MUS 101. (F, S) Repeatable (2).

MUS 202  Concert Choir  (0.5,1 V)
Rehearsal, study, and public performance of selected appropriate literature for the choral ensemble. Additional rehearsals and performances are required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 203  Electronic Music  2(1-2)
In-depth study of and experiences with a variety of electronic music hardware and software. Includes sound recording and engineering practices. (*) Repeatable (99).

MUS 204  Collaborative Music Ensemble  (0.5,1 V)
Ensemble specializing in small chamber works for piano, winds, strings, in various combinations. Prerequisite: Permission of instructor. (*) Repeatable (6).

MUS 207  University Band  (0.5,1 V)
Provides a Concert Band performing opportunity for students from all disciplines across campus. Prerequisite: Applied music study in various performance areas for the non-music major. Weekly lesson arranged with the instructor. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 208  Vocal Jazz Ensemble  (0.5,1 V)
Level two secondary music ensemble specializing in the rehearsal, study, and public performance of appropriate vocal jazz ensemble literature. Additional rehearsals and performance activities required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 209  Chamber Choir  (0.5,1 V)
Level two primary ensemble for vocal majors specializing in the rehearsal, study, and public performance of advanced choral literature. Additional rehearsals and performance activities required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 210  Music Theory II  3(3-0)
A continuation of MUS 150 with further development of diatonic harmony, four-part writing skills, diatonic modulation, and analysis of appropriate representative literature. Prerequisite: Successful completion of MUS 150. Corequisite: MUS 211. (S)

MUS 211  Aural Skills II  2(1-2)
Continuation of MUS 151. Continued development of aural skills, including diatonic harmony, interval recognition, singing at sight, error detection, and rhythm, melodic, and harmonic discriminatory listening. Prerequisite: Successful completion of MUS 151. Corequisite: MUS 210. (S)

MUS 212  Wind Ensemble  (0.5,1 V)
Rehearsal, study, and public performance of selected appropriate literature for the wind band. Additional rehearsals and performances are required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 214  Brass Ensemble  (0.5,1 V)
Level two music ensemble specializing in the rehearsal, study, and performance of appropriate literature for combinations of brass instruments. Additional rehearsals and performance activities required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 215  Mariachi Ensemble  (0.5,1 V)
Level two music ensemble specializing in the rehearsal, study, and performance of appropriate literature in the Mariachi style. Additional rehearsals and performance activities required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 216  Thunderwolves Drumline  (0.5,1 V)
Provides an indoor drumline ensemble option for students from across campus who desire to expand their performance knowledge of percussion and other appropriate instruments. Prerequisite: Director approval. (S) Repeatable (6).

MUS 221  Chamber Ensemble  (0.5,1 V)
Level two secondary ensemble specializing in the rehearsal, study, and performance of appropriate literature for combinations of string instruments. Additional rehearsals and performance activities required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 223  Percussion Techniques  1(0-2)
Instruction in the fundamentals of percussion instruments from a pedagogical approach, enabling students to effectively teach beginners. Primarily intended for students in Music Education. (F, S)

MUS 224  Percussion Ensemble  (0.5,1 V)
Level two ensemble specializing in the rehearsal, study, and performance of appropriate literature for percussion instruments. Additional rehearsals and performance activities are required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 227  Func. Piano II: Int/Proficiency  1(0-2)
Continuation of MUS 127. Emphasis on providing further skills necessary for successful completion of the Proficiency Exam. Prerequisite: Successful completion of MUS 127. (F, S) Repeatable (99).

MUS 229  Piano Proficiency Completion  1(0-1)
One-half hour private lesson per week in which to complete the preparation for and take the Piano Proficiency Exam. Prerequisite: Successful completion of MUS 127 and 227, or permission of the instructor. (F, S)

MUS 230  Marching Band  (0.5,1 V)
Provides functional music at home football games and select special occasions while serving as a laboratory of learning for future music educators. Prerequisite: Instructor permission. (F) Repeatable (6).

MUS 231  Pep Band  (0.5,1 V)
Provides functional music at various home athletic events and select special occasions while serving as a laboratory of learning for future music educators. (F, S) Repeatable (6).

MUS 232  Guitar Ensemble, Classical  (0.5,1 V)
Rehearsal, study, and public performance of selected appropriate classical guitar literature. Additional rehearsals and performance activities are required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).
MUS 233 Woodwind Techniques 1(0-2)
Instruction in the fundamentals of woodwind instruments from a pedagogical approach, enabling students to effectively teach beginners. Primarily intended for students in Music Education. (F, S)

MUS 234 Woodwind Ensemble (0.5,1 V)
Level two ensemble specializing in the rehearsal, study, and performance of appropriate literature for combinations of woodwind instruments. Additional rehearsals and performance activities required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 236 Guitar Ensemble, Jazz (0.5,1 V)
Rehearsal, study, and public performance of selected appropriate non-classical guitar literature. Additional rehearsals and performance activities are required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 240 Staging for Singers 1(0-1)
An elective course providing instruction in blocking and acting for singers in scenes from musical theater or opera. Prerequisite: Permission of instructor. (F, S) Repeatable (99).

MUS 242 Piano Ensemble (0.5,1 V)
Rehearsal, study, and public performance of selected appropriate piano ensemble literature. Additional rehearsals and performance activities are required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 243 String Techniques 1(0-2)
Instruction in the fundamentals of stringed instruments from a pedagogical approach, enabling students to effectively teach beginners. Primarily intended for students in Music Education. (F, S)

MUS 244 Orchestra (0.5,1 V)
Rehearsal, study, and public performance of selected appropriate literature for the full orchestra. Additional rehearsals and activities are required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 250 Music Theory III 3(3-0)

MUS 251 Aural Skills III 2(1-2)
Continuation of MUS 211. Continued development of aural skills, including non-diatonic harmony, interval recognition, singing at sight, error detection, and rhythmic, melodic, and harmonic discriminatory listening. Prerequisite: Successful completion of MUS 211. Corequisite: MUS 250. (F)

MUS 252 Jazz Improvisation II 2(2-0)
Continuation of instruction in theory and techniques of improvisation in various styles of jazz. Includes developing familiarity with various representative jazz artists. Prerequisite: Successful completion of MUS 152 or permission of instructor. (S) Repeatable (6).

MUS 253 Brass Techniques 1(0-2)
Instruction in the fundamentals of brass instruments from a pedagogical approach, enabling students to effectively teach beginners. Primarily intended for students in Music Education. (F, S)

MUS 254 Jazz Ensemble (0.5,1 V)
Rehearsal, study, and public performance of selected appropriate literature for the jazz ensemble. Additional rehearsals and performances are required. (F, S) Repeatable (6).

MUS 260 Applied Violin, Major 2(0-1)
In-depth applied study in various performance areas for the Freshman and Sophomore music major (may be repeated at Sophomore level). Prerequisite: Declared music major and permission of instructor. (F, S) Repeatable (8).

MUS 261 Applied Viola, Major 2(0-1)
In-depth applied study in various performance areas for the Freshman and Sophomore music major (may be repeated at Sophomore level). Prerequisite: Declared music major and permission of instructor. (F, S) Repeatable (8).

MUS 262 Applied Cello, Major 2(0-1)
In-depth applied study in various performance areas for the Freshman and Sophomore music major (may be repeated at Sophomore level). Prerequisite: Declared music major and permission of instructor. (F, S) Repeatable (8).

MUS 263 Applied Bass, Major 2(0-1)
In-depth applied study in various performance areas for the Freshman and Sophomore music major (may be repeated at Sophomore level). Prerequisite: Declared music major and permission of instructor. (F, S) Repeatable (8).

MUS 264 Applied Flute, Major 2(0-1)
In-depth applied study in various performance areas for the Freshman and Sophomore music major (may be repeated at Sophomore level). Prerequisite: Declared music major and permission of instructor. (F, S) Repeatable (8).

MUS 265 Applied Oboe, Major 2(0-1)
In-depth applied study in various performance areas for the Freshman and Sophomore music major (may be repeated at Sophomore level). Prerequisite: Declared music major and permission of instructor. (F, S) Repeatable (8).

MUS 266 Applied Bassoon, Major 2(0-1)
In-depth applied study in various performance areas for the Freshman and Sophomore music major (may be repeated at Sophomore level). Prerequisite: Declared music major and permission of instructor. (F, S) Repeatable (8).

MUS 267 Applied Clarinet, Major 2(0-1)
In-depth applied study in various performance areas for the Freshman and Sophomore music major (may be repeated at Sophomore level). Prerequisite: Declared music major and permission of instructor. (F, S) Repeatable (8).

MUS 268 Applied Saxophone, Major 2(0-1)
In-depth applied study in various performance areas for the Freshman and Sophomore music major (may be repeated at Sophomore level). Prerequisite: Declared music major and permission of instructor. (F, S) Repeatable (8).

MUS 269 Applied Voice, Major 2(0-1)
In-depth applied study in various performance areas for the Freshman and Sophomore music major (may be repeated at Sophomore level). Prerequisite: Declared music major and permission of instructor. (F, S) Repeatable (8).

MUS 270 Applied Trumpet, Major 2(0-1)
In-depth applied study in various performance areas for the Freshman and Sophomore music major (may be repeated at Sophomore level). Prerequisite: Declared music major and permission of instructor. (F, S) Repeatable (8).
MUS 271 Applied French Horn, Major 2(0-1)
In-depth applied study in various performance areas for the Freshman and Sophomore music major (may be repeated at Sophomore level). Prerequisite: Declared music major and permission of instructor. (F, S) Repeatable (8).

MUS 272 Applied Trombone, Major 2(0-1)
In-depth applied study in various performance areas for the Freshman and Sophomore music major (may be repeated at Sophomore level). Prerequisite: Declared music major and permission of instructor. (F, S) Repeatable (8).

MUS 273 Applied Euphonium, Major 2(0-1)
In-depth applied study in various performance areas for the Freshman and Sophomore music major (may be repeated at Sophomore level). Prerequisite: Declared music major and permission of instructor. (F, S) Repeatable (8).

MUS 274 Applied Tuba, Major 2(0-1)
In-depth applied study in various performance areas for the Freshman and Sophomore music major (may be repeated at Sophomore level). Prerequisite: Declared music major and permission of instructor. (F, S) Repeatable (8).

MUS 275 Applied Percussion, Major 2(0-1)
In-depth applied study in various performance areas for the Freshman and Sophomore music major (may be repeated at Sophomore level). Prerequisite: Declared music major and permission of instructor. (F, S) Repeatable (8).

MUS 276 Applied Piano, Major 2(0-1)
In-depth applied study in various performance areas for the Freshman and Sophomore music major (may be repeated at Sophomore level). Prerequisite: Declared music major and permission of instructor. (F, S) Repeatable (8).

MUS 277 Applied Organ, Major 2(0-1)
In-depth applied study in various performance areas for the Freshman and Sophomore music major (may be repeated at Sophomore level). Prerequisite: Declared music major and permission of instructor. (F, S) Repeatable (8).

MUS 278 Applied Classical Guitar, Major 2(0-1)
In-depth applied study in various performance areas for the Freshman and Sophomore music major (may be repeated at Sophomore level). Prerequisite: Declared music major and permission of instructor. (F, S) Repeatable (8).

MUS 279 Applied Jazz/Comm. Guitar Major 2(0-1)
In-depth applied study in various performance areas for the Freshman and Sophomore music major (may be repeated at Sophomore level). Prerequisite: Declared music major and permission of instructor. (F, S) Repeatable (8).

MUS 280 Music Theory IV 3(3-0)
A continuation of MUS 250. A harmonic study of the emergence of 20th century compositional techniques from chromatic functional harmonic schemes. Prerequisite: Successful completion of MUS 250. Corequisite: MUS 281. (S)

MUS 281 Aural Skills IV 2(1-2)
Continuation of MUS 251. Continued development of aural skills, including chromatic harmony, interval recognition, singing at sight, error detection, and rhythmic, melodic, and harmonic discriminatory listening. Prerequisite: Successful completion of MUS 251. Corequisite: MUS 280. (S)

MUS 283 Music Theory Workshop 3(3-0)
Offered in summer semesters for students to improve their music theory proficiency. Prerequisite: NA. (SS) Repeatable (12).

MUS 284 Aural Skills Workshop 2(2-0)
Offered in summer semesters for students to improve their aural skills proficiency. Corequisite: MUS 283. (S) Repeatable (8).

MUS 285 Cultural History of Popular Music 2(2-0)
A survey of the various styles of American popular music from approximately 1900 to the present including folk music, ragtime, blues, jazz, and rock. (F, S)

MUS 291 Special Topics 1-3 V
Special Topics. (*) Repeatable (99).

MUS 301 Music Performance Symposium III "0",
Level three course in observation and critique of music performances; includes lectures, clinics, demonstrations, and performance preparation. Weekly critiques required for credit. Prerequisite: MUS 201. (F, S) Repeatable (2).

MUS 303 Music and Computer Technology II 1(0-2)
Continued study in the use of computer technology in music, including digital audio, MIDI, composing, sequencing, performing, and printing, utilizing various software applications. Prerequisite: MUS 103. (F, S)

MUS 305 Music History I 3(3-0)
An in-depth study of music history and representative literature from Antiquity to the Classical period. Prerequisite: Successful completion of MUS 118 and 150 and 210. (F)

MUS 306 Technology for Music Educators 2(2-1)
Applies educational technology to the classroom and performance activities of music teachers, including instruction, communication, sound recording and editing. Prerequisite: MUS 103. (F, S)

MUS 310 Audio Production II: Pro Tools 2(2-0)
Advanced instruction in the use of Pro Tools for music mixing and mastering. Prerequisite: MUS 110 and MUS 303. (F, S)

MUS 323 Diction for Singers 2(2-0)
A course in reading pronunciation of Italian, French, German, Latin, and Spanish for singers. Utilizes the International Phonetic Alphabet. Primarily for vocal music students. (*)

MUS 326 Guitar Physiology and Technique 2(0-2)
Focus on advanced knowledge of the fretboard, harmony, sightreading, and arranging for guitar. Prerequisite: Successful completion of junior qualifying exam, or consent of the instructor. (*)

MUS 327 Guitar Ped II: Adv Sight Reading 2(0-2)
Focus on advanced sight reading skills for guitarists and the teaching of these skills. Prerequisite: Successful completion of junior qualifying exam, or consent of the instructor. (*)

MUS 337 Introduction to World Music 3(3-0)
A focus on various world music traditions and their integration into western and non-western contemporary styles. Includes significant musical compositions, composers/musicians, analysis, and multi-cultural issues. (F, S, SS)

MUS 339 Applied Music Composition 1(0-0.5)
Applied music study in composition. One half-hour lesson per week; time to be arranged with the instructor. Permission of instructor required. Prerequisite: MUS 280. (F, S) Repeatable (99).
MUS 340 General Music Methods 2(2-1)
Comprehensive study in materials, techniques, methods, and problem-solving techniques for the teacher of general music in the public schools. Requires 20 hours of field experience. Prerequisite: Admission to Teacher Education Program. (F, O)

MUS 345 Junior Lecture Recital 1(1-0)
Weekly one-hour meeting with instructor to complete lecture component of the Junior Lecture Recital. Prerequisite: 8 hours of Applied Music earned. Corequisite: Concurrent enrollment MUS 360-371 required. (F, S)

MUS 346 Piano Literature 2(2-0)
Survey of piano literature from the 18th-century to the present. (*)

MUS 347 Piano Pedagogy 2(2-0)
Introduction to the practices in teaching private and class piano. (*)

MUS 349 Junior Recital 2(0-1)
Weekly 1 hour lesson with instructor in preparation and completion of the Junior Recital. Requires 6 hours Applied Music earned. (F, S, SS) Repeatable (4).

MUS 350 Theory V - Composition and Analysis 2(2-0)
Analysis and application of compositional techniques in music from all style periods, including form, harmony, and style. Prerequisite: Successful completion of MUS 280. (*)

MUS 351 Counterpoint 2(2-0)
Intensive overview of the contrapuntal composition styles of the 16th and 18th centuries. Prerequisite: MUS 280. (S)

MUS 352 19th Century Styles 2(2-0)
Intensive overview of compositional approaches in 19th century music with emphasis on advances in harmony. Prerequisite: MUS 280. (S)

MUS 353 20th Century Styles 2(2-0)
Intensive overview of compositional approaches in 20th century music with emphasis on analytical systems for atonal music. Prerequisite: MUS 280. (S)

MUS 355 Music History II 3(3-0)
An in-depth study of music history and representative literature from the Classical period to the present. Prerequisite: Successful completion of MUS 305. (S)

MUS 357 Orchestration and Arranging 2(2-0)
Instruction and application in techniques of scoring music for various combinations of musical mediums. Includes scoring for strings, woodwinds, brasses, percussion, and voices. Prerequisite: Successful completion of MUS 150 and 151 and 210 and 211 and 250 and 251 and 280 and 281. (F)

MUS 358 Basic Conducting 2(2-0)
Instruction in the conducting of music, with an emphasis on building basic skills and techniques. Prerequisite: Successful completion of MUS 150 and 151 and 210 and 211 and 250 and 251 and 280 and 281 and 357. (S)

MUS 359 Advanced Conducting 2(0-1)
Continuing instruction in the conducting of music in the student’s choice of emphasis areas. Individualized instruction in the form of one private lesson per week. Prerequisite: Successful completion of MUS 358. (F)

MUS 360 Applied Violin, Major 2(0-1)
In-depth applied study in various performance areas for the Junior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 361 Applied Viola, Major 2(0-1)
In-depth applied study in various performance areas for the Junior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 362 Applied Cello, Major 2(0-1)
In-depth applied study in various performance areas for the Junior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 363 Applied Bass, Major 2(0-1)
In-depth applied study in various performance areas for the Junior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 364 Applied Flute, Major 2(0-1)
In-depth applied study in various performance areas for the Junior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 365 Applied Oboe, Major 2(0-1)
In-depth applied study in various performance areas for the Junior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 366 Applied Bassoon, Major 2(0-1)
In-depth applied study in various performance areas for the Junior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 367 Applied Clarinet, Major 2(0-1)
In-depth applied study in various performance areas for the Junior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 368 Applied Saxophone, Major 2(0-1)
In-depth applied study in various performance areas for the Junior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 369 Applied Voice, Major 2(0-1)
In-depth applied study in various performance areas for the Junior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 370 Applied Trumpet, Major 2(0-1)
In-depth applied study in various performance areas for the Junior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 371 Applied French Horn, Major 2(0-1)
In-depth applied study in various performance areas for the Junior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 372 Applied Trombone, Major 2(0-1)
In-depth applied study in various performance areas for the Junior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 373 Applied Euphonium, Major 2(0-1)
In-depth applied study in various performance areas for the Junior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 374 Applied Tuba, Major 2(0-1)
In-depth applied study in various performance areas for the Junior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

</tbody>
</table>
MUS 404 Collaborative Music Ensemble (0.5,1 V)
Ensemble specializing in small chamber works for piano, winds, strings, in various combinations. Prerequisite: Permission of instructor. (*) Repeatable (6).

MUS 407 University Band (0.5,1 V)
Provides a Concert Band performing opportunity for students from all disciplines across campus. Prerequisite: Director approval. (S) Repeatable (6).

MUS 408 Vocal Jazz Ensemble (0.5,1 V)
Level four secondary music ensemble specializing in the rehearsal, study, and public performance of appropriate vocal jazz ensemble literature. Additional rehearsals and performance activities required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 409 Chamber Choir (0.5,1 V)
Level four primary ensemble for vocal majors specializing in the rehearsal, study, and public performance of advanced choral literature. Additional rehearsals and performance activities required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 410 Audio Production Lab 1(0-1)
Offers advanced students the opportunity to participate in and direct live performance recording of CSU-Pueblo ensembles. Prerequisite: MUS 110 and 303. Pre or corequisite: MUS 310. (F, S)

MUS 412 Wind Ensemble (0.5,1 V)
Rehearsal, study, and public performance of selected appropriate literature for the wind band. Additional rehearsals and performances are required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 414 Brass Ensemble (0.5,1 V)
Level four music ensemble specializing in the rehearsal, study, and performance of appropriate literature for combinations of brass instruments. Additional rehearsals and performance activities required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 415 Mariachi Ensemble (0.5,1 V)
Level four music ensemble specializing in the rehearsal, study and performance of appropriate literature in the Mariachi style. Additional rehearsals and performance activities required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 416 Thunderwolves Drumline (0.5,1 V)
Provides an indoor drumline ensemble option for students from across campus who desire to expand their performance knowledge of percussion and other appropriate instruments. Prerequisite: Director approval. (S) Repeatable (6).

MUS 420 Film Scoring 2(2-0)
The principles and history of film music, writing music for film and other music media integrating Sibelius and Pro Tools software. Prerequisite: MUS 180 or permission of instructor. (F, S)

MUS 421 Chamber Ensemble (0.5,1 V)
Level four secondary ensemble specializing in the rehearsal, study, and performance of appropriate literature for combinations of string instruments. Additional rehearsals and performance activities required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 424 Percussion Ensemble (0.5,1 V)
Level four ensemble specializing in the rehearsal, study, and performance of appropriate literature for combinations of percussion instruments. Additional rehearsals and performance activities are required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 426 Advanced Piano Pedagogy 2(2-0)
Advanced study of practices and methods of piano instruction both in individual studio and group instruction. Prerequisite: MUS 346 (*)

MUS 427 Piano Pedagogy Practicum 2(2-0)
Practicum rotates experiences in Studio Management and Teaching Seminar, Class Piano Practicum, and Piano Pedagogy Practicum. Prerequisite: MUS 446 (*) Repeatable (6).

MUS 430 Marching Band (0.5,1 V)
Provides functional music at home football games and select special occasions while serving as a laboratory of learning for future music educators. Prerequisite: Instructor permission. (F) Repeatable (6).

MUS 431 Pep Band (0.5,1 V)
Provides functional music at various home athletic events and select special occasions while serving as a laboratory of learning for future music educators. (*) Repeatable (6).

MUS 432 Guitar Ensemble, Classical (0.5,1 V)
Rehearsal, study, and public performance of selected appropriate classical guitar literature. Additional rehearsals and performance activities are required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 434 Woodwind Ensemble (0.5,1 V)
Level four ensemble specializing in the rehearsal, study, and performance of appropriate literature for combinations of woodwind instruments. Additional rehearsals and performance activities required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 436 Guitar Ensemble, Jazz (0.5,1 V)
Rehearsal, study, and public performance of selected appropriate non-classical guitar literature. Additional rehearsals and performance activities are required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 438 Composition Recital 2(0-1)
In-depth applied study to composition leading to the performance of original works. Prerequisite: Permission of instructor. (F, S, SS)

MUS 439 Recital: Jazz Studies 2(0-1)
In-depth applied study in jazz studies leading to the performance of a solo or joint recital. Prerequisite: Permission of instructor. (F, S)

MUS 440 Choral Music Methods 2(2-1)
Comprehensive study in materials, techniques, methods, and problem-solving techniques for the teacher of choral music in the public schools. Requires 20 hours of field experience. Prerequisite: Successful completion of MUS 113 and 223 and 233 and 243 and 253 and admission to Teacher Education Program. (S, O)

MUS 441 Instrumental Music Methods 2(2-1)
Comprehensive study in materials, techniques, methods, and problem-solving techniques for the teacher of instrumental music in the public schools. Requires 20 hours of field experience. Prerequisite: Successful completion of MUS 113 and 223 and 233 and 243 and 253 and admission to Teacher Education Program. Corequisite: MUS 440. (S)

MUS 442 Piano Ensemble (0.5,1 V)
Rehearsal, study, and public performance of selected appropriate piano ensemble literature. Additional rehearsals and performance activities are required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 444 Orchestra (0.5,1 V)
Rehearsal, study, and public performance of selected appropriate literature for the full orchestra. Additional rehearsals and activities are required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).
MUS 445  Applied Violin, Major  2(0-1)
In-depth applied study in various performance areas for the Senior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 446  Applied Viola, Major  2(0-1)
In-depth applied study in various performance areas for the Senior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 447  Applied Cello, Major  2(0-1)
In-depth applied study in various performance areas for the Senior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 448  Applied Bass, Major  2(0-1)
In-depth applied study in various performance areas for the Senior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 449  Applied Flute, Major  2(0-1)
In-depth applied study in various performance areas for the Senior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 454  Jazz Ensemble  (0.5,1 V)
Rehearsal, study, and public performance of selected appropriate literature for the jazz ensemble. Additional rehearsals and performances are required. Prerequisite: Permission of instructor. (F, S) Repeatable (6).

MUS 455  Applied Oboe, Major  2(0-1)
In-depth applied study in various performance areas for the Senior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 456  Applied Bassoon, Major  2(0-1)
In-depth applied study in various performance areas for the Senior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 457  Applied Clarinet, Major  2(0-1)
In-depth applied study in various performance areas for the Senior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 458  Applied Saxophone, Major  2(0-1)
In-depth applied study in various performance areas for the Senior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 459  Applied Voice, Major  2(0-1)
In-depth applied study in various performance areas for the Senior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 460  Applied Trumpet, Major  2(0-1)
In-depth applied study in various performance areas for the Senior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 461  Applied French Horn, Major  2(0-1)
In-depth applied study in various performance areas for the Senior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 462  Applied Trombone, Major  2(0-1)
In-depth applied study in various performance areas for the Senior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 463  Applied Euphonium, Major  2(0-1)
In-depth applied study in various performance areas for the Senior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 464  Applied Tuba, Major  2(0-1)
In-depth applied study in various performance areas for the Senior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 465  Applied Percussion, Major  2(0-1)
In-depth applied study in various performance areas for the Senior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 466  Applied Piano, Major  2(0-1)
In-depth applied study in various performance areas for the Senior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 467  Applied Organ, Major  2(0-1)
In-depth applied study in various performance areas for the Senior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 468  Applied Classical Guitar, Major  2(0-1)
In-depth applied study in various performance areas for the Senior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 469  Applied Jazz/Comm. Guitar Major  2(0-1)
In-depth applied study in various performance areas for the Senior music major. Prerequisite: Admission to upper-class status and declared music major and permission of instructor. (F, S) Repeatable (4).

MUS 470  Senior Recital, Violin  2(0-1)
In-depth applied study in various performance areas for the Senior music major, leading to the performance of a solo or joint recital (see Music Student Handbook). Prerequisite: Admission to upper-class status and faculty approval and permission of instructor. (F, S)

MUS 471  Senior Recital, Viola  2(0-1)
In-depth applied study in various performance areas for the Senior music major, leading to the performance of a solo or joint recital (see Music Student Handbook). Prerequisite: Admission to upper-class status and faculty approval and permission of instructor. (F, S)

MUS 472  Senior Recital, Cello  2(0-1)
In-depth applied study in various performance areas for the Senior music major, leading to the performance of a solo or joint recital (see Music Student Handbook). Prerequisite: Admission to upper-class status and faculty approval and permission of instructor. (F, S)

MUS 473  Senior Recital, Bass  2(0-1)
In-depth applied study in various performance areas for the Senior music major, leading to the performance of a solo or joint recital (see Music Student Handbook). Prerequisite: Admission to upper-class status and faculty approval and permission of instructor. (F, S)

MUS 474  Senior Recital, Flute  2(0-1)
In-depth applied study in various performance areas for the Senior music major, leading to the performance of a solo or joint recital (see Music Student Handbook). Prerequisite: Admission to upper-class status and faculty approval and permission of instructor. (F, S)
MUS 475 Senior Recital, Oboe 2(0-1)
In-depth applied study in various performance areas for the Senior music major, leading to the performance of a solo or joint recital (see Music Student Handbook). Prerequisite: Admission to upper-class status and faculty approval and permission of instructor. (F, S)

MUS 476 Senior Recital, Bassoon 2(0-1)
In-depth applied study in various performance areas for the Senior music major, leading to the performance of a solo or joint recital (see Music Student Handbook). Prerequisite: Admission to upper-class status and faculty approval and permission of instructor. (F, S)

MUS 477 Senior Recital, Clarinet 2(0-1)
In-depth applied study in various performance areas for the Senior music major, leading to the performance of a solo or joint recital (see Music Student Handbook). Prerequisite: Admission to upper-class status and faculty approval and permission of instructor. (F, S)

MUS 478 Senior Recital, Saxophone 2(0-1)
In-depth applied study in various performance areas for the Senior music major, leading to the performance of a solo or joint recital (see Music Student Handbook). Prerequisite: Admission to upper-class status and faculty approval and permission of instructor. (F, S)

MUS 479 Senior Recital, Voice 2(0-1)
In-depth applied study in various performance areas for the Senior music major, leading to the performance of a solo or joint recital (see Music Student Handbook). Prerequisite: Admission to upper-class status and faculty approval and permission of instructor. (F, S)

MUS 480 Senior Recital, Trumpet 2(0-1)
In-depth applied study in various performance areas for the Senior music major, leading to the performance of a solo or joint recital (see Music Student Handbook). Prerequisite: Admission to upper-class status and faculty approval and permission of instructor. (F, S)

MUS 481 Senior Recital, French Horn 2(0-1)
In-depth applied study in various performance areas for the Senior music major, leading to the performance of a solo or joint recital (see Music Student Handbook). Prerequisite: Admission to upper-class status and faculty approval and permission of instructor. (F, S)

MUS 482 Senior Recital, Trombone 2(0-1)
In-depth applied study in various performance areas for the Senior music major, leading to the performance of a solo or joint recital (see Music Student Handbook). Prerequisite: Admission to upper-class status and faculty approval and permission of instructor. (F, S)

MUS 483 Senior Recital, Euphonium 2(0-1)
In-depth applied study in various performance areas for the Senior music major, leading to the performance of a solo or joint recital (see Music Student Handbook). Prerequisite: Admission to upper-class status and faculty approval and permission of instructor. (F, S)

MUS 484 Senior Recital, Tuba 2(0-1)
In-depth applied study in various performance areas for the Senior music major, leading to the performance of a solo or joint recital (see Music Student Handbook). Prerequisite: Admission to upper-class status and faculty approval and permission of instructor. (F, S)

MUS 485 Senior Recital, Percussion 2(0-1)
In-depth applied study in various performance areas for the Senior music major, leading to the performance of a solo or joint recital (see Music Student Handbook). Prerequisite: Admission to upper-class status and faculty approval and permission of instructor. (F, S)

MUS 486 Senior Recital, Piano 2(0-1)
In-depth applied study in various performance areas for the Senior music major, leading to the performance of a solo or joint recital (see Music Student Handbook). Prerequisite: Admission to upper-class status and faculty approval and permission of instructor. (F, S)

MUS 487 Senior Recital, Organ 2(0-1)
In-depth applied study in various performance areas for the Senior music major, leading to the performance of a solo or joint recital (see Music Student Handbook). Prerequisite: Admission to upper-class status and faculty approval and permission of instructor. (F, S)

MUS 488 Senior Recital, Classical Guitar 2(0-1)
In-depth applied study in various performance areas for the Senior music major, leading to the performance of a solo or joint recital (see Music Student Handbook). Prerequisite: Admission to upper-class status and faculty approval and permission of instructor. (F, S)

MUS 489 Senior Recital, Jazz Guitar 2(0-1)
In-depth applied study in various performance areas for the Senior music major, leading to the performance of a solo or joint recital (see Music Student Handbook). Prerequisite: Admission to upper-class status and faculty approval and permission of instructor. (F, S)

MUS 491 Special Topics (1-4 V)
Special Topics. Prerequisite: Permission of instructor. (F, S, SS) Repeatable (99).

MUS 495 Independent Study (1-4 V)
Independent Study. (*)

MUS 498 Internship 1(0-1)
Provides an infield, firsthand experience in traditional church music programs. Prerequisite: Permission of instructor. (F, S) Repeatable (3).

MUS 501 Special Methods in Music Education 3(3-0)
In-depth study of techniques and materials for teaching music in the elementary and middle school. Involvement in research and practical application of approved methods. Prerequisite: Graduate standing. (*) Repeatable (99).

MUS 502 Concert Choir (0.5,1 V)
Primary ensemble for vocal majors, specializing in the rehearsal, study, and public performance of advanced choral literature. Additional rehearsals and performance activities required. (Graduate level) Prerequisite: Instructor permission. (F, S) Repeatable (4).

MUS 504 Collaborative Music Ensemble (0.5,1 V)
Ensemble specializing in small chamber works for piano, winds, strings, in various combinations. Prerequisite: Permission of instructor. (*) Repeatable (2).

MUS 509 Chamber Choir (0.5,1 V)
Primary ensemble for vocal majors, specializing in the rehearsal, study, and public performance of advanced choral literature. Additional rehearsals and performance activities required. (Graduate level) Prerequisite: Permission of instructor. (F, S) Repeatable (4).

MUS 512 Wind Ensemble (0.5,1 V)
Rehearsal, study, and public performance of appropriate literature for the wind band. Additional rehearsals and performances are required. (Graduate level) Prerequisite: Instructor permission. (F, S) Repeatable (4).

MUS 513 Advanced Vocal Pedagogy 1(0-1)
Designed for the experienced vocal music teacher who seeks graduate-level pedagogical techniques to better guide and develop the adolescent voice. Prerequisite: Bachelor’s degree and teaching certificate, or approval of the Music Department Chair (SS)
MUS 520 Graduate Music Ensemble (0.5,1 V)
Secondary ensembles specializing in the rehearsal, study, and public performance of specific genres, i.e., jazz, chamber music. (Graduate level). Prerequisite: Permission of instructor. (*) Repeatable (4).

MUS 523 Advanced Percussion Pedagogy 1(0-1)
Designed for the experienced instrumental music teacher who seeks graduate-level pedagogical techniques to improve students’ achievement in playing instruments of the percussion family. Prerequisite: Bachelor’s degree and teaching certificate, or approval of the Music Department Chair. (SS)

MUS 529 Piano Proficiency Completion 1(0-0.5)
One-half hour private lesson per week to prepare for and complete the departmental Piano Proficiency Exam. Permission of instructor required. (F, S)

MUS 530 Marching Band (0.5,1 V)
Provides functional music at home football games and select special occasions while serving as a laboratory of learning for future music educators. Prerequisite: Instructor permission. (F) Repeatable (2).

MUS 531 Pep Band (0.5,1 V)
Provides functional music at various home athletic events and select special occasions while serving as a laboratory of learning for future music educators. (*) Repeatable (2).

MUS 533 Advanced String Pedagogy 1(0-1)
This course expands upon the basics of string pedagogy and literature. Includes discussion of problems and possible solutions in student playing techniques. Prerequisite: Bachelor’s degree and teaching certificate, or approval of the Music Department Chair. (*) Repeatable (2).

MUS 540 Kodaly Method for Elementary Music 3(3-0)
Graduate study in teaching music to young children. Students will create teaching aids and increase their own solfege proficiency. Primarily for teachers of general music. Prerequisite: Bachelor’s degree and teaching certificate, or approval of the Music Department Chair. (SS)

MUS 543 Advanced Woodwind Pedagogy 1(0-1)
Designed for the experienced instrumental music teacher who seeks advanced techniques in the teaching and playing of woodwind instruments. Prerequisite: Bachelor’s degree and teaching certificate, or approval of the Music Department Chair. (SS)

MUS 544 Orchestra (0.5,1 V)
Rehearsal, study, and public performance of selected appropriate literature for the full orchestra. Additional rehearsals and activities are required. Prerequisite: Instructor permission. (F, S) Repeatable (4).

MUS 545 Current Issues in Music Education 3(3-0)
History and philosophy of music education in public schools, with readings, discussions, and practical applications of content standards in instruction and assessment. Prerequisite: Bachelor’s degree and teaching certificate, or approval of the Music Department Chair. (SS)

MUS 550 Instrumental Conducting 2(2-0)
Graduate level instruction in instrumental conducting in a pedagogical setting with emphasis on selection of appropriate literature as well as technique. Prerequisite: Bachelor’s degree and teaching certificate, or approval of the Music Department Chair. (SS)

MUS 553 Advanced Brass Pedagogy 1(0-1)
Designed for the experienced instrumental music teacher who seeks graduate-level pedagogical techniques to improve students’ achievement in playing instruments of the brass family. Prerequisite: Bachelor’s degree and teaching certificate, or approval of the Music Department Chair. (SS)

MUS 559 Advanced Music Analysis 3(3-0)
Analytical study of selected varied compositions, primarily from the perspective of a school ensemble conductor. Includes instructional strategies and criteria for selecting appropriate quality literature. Prerequisite: Bachelor’s degree and teaching certificate, or approval of the Music Department Chair. (SS)

MUS 560 Choral Conducting 2(2-0)
Graduate level instruction in choral conducting in a pedagogical setting with emphasis on selection of appropriate literature as well as technique. Prerequisite: Bachelor’s degree and teaching certificate, or approval of the Music Department Chair. (SS)

MUS 565 Methods of Research in Music Education 3(3-0)
This course provides a broad foundation in research design and methodologies for graduate students in music education. Quantitative and qualitative analytical procedures are introduced. Prerequisite: Bachelor’s degree and teaching certificate, or approval of the Music Department Chair. (*)

MUS 570 Advanced Applied Music, Strings 2(0-1)
In-depth applied study in guitar or orchestral string performance areas for the highly advanced student. Prerequisite: Permission of instructor. (*) Repeatable (4).

MUS 571 Advanced Applied Music, Woodwinds 2(0-1)
In-depth applied study in woodwind performance areas for the highly advanced student. Prerequisite: Permission of instructor. (*) Repeatable (4).

MUS 572 Advanced Applied Music, Percussion 2(0-1)
In-depth applied study in percussion performance for the highly advanced student. Prerequisite: Permission of instructor. (*) Repeatable (4).

MUS 573 Advanced Applied Music, Brass 2(0-1)
In-depth applied study in brass performance areas for the highly advanced student. Prerequisite: Permission of instructor. (*) Repeatable (4).

MUS 574 Advanced Applied Music, Voice 2(0-1)
In-depth applied study in vocal performance for the highly advanced student. Prerequisite: Permission of instructor. (*) Repeatable (4).

MUS 579 Graduate Recital 2(0-1)
In-depth advanced study leading to the performance of a solo or joint recital. Prerequisite: Permission of instructor. (F, S)

MUS 580 Advanced General Music Methods 2(2-1)
Advanced, comprehensive study in materials, techniques, methods, and problem-solving techniques for the teacher of general music in the public schools. Requires 20 hours of field experience. Prerequisite: Admission to Teacher Education Program. (F)

MUS 581 Advanced Choral Methods 2(2-1)
Advanced, comprehensive study in materials, techniques, methods, and problem-solving techniques for the teacher of choral music in the public schools. Requires 20 hours of field experience. Prerequisite: Admission to Teacher Education Program. (S)

MUS 582 Advanced Instrumental Methods 2(2-1)
Advanced, comprehensive study in materials, techniques, methods, and problem-solving techniques for the teacher of choral music in the public schools. Requires 20 hours of field experience. Prerequisite: Admission to Teacher Education Program. (S)

MUS 591 Special Topics (1-3 V)
Special Topics. Prerequisite: Graduate standing. (*) Repeatable (99).
MUS 593 Seminar (1-3 V)
Practical application of current music techniques to secondary teaching. Prerequisite: Graduate standing. (*) Repeatable (99).

MUS 594 Field Experience 6(0-6)
Field experience in an educational setting. Prerequisite: Permission of instructor. (F, S, SS)

MUS 595 Independent Study (1-4 V)
Independent Study. Prerequisite: Permission of instructor. (F, S, SS) Repeatable (99).

Non-Profit Administration (NPA)

NPA 494 Field Experience 3(3-0)
This course is the required 3-credit field experience for the nonprofit minor. Prerequisite: Completion of core courses in nonprofit minor. (F, S, SS)

Nursing (NSG)

NSG 207 Nursing Pathophysiology 3(3-0)
Introduces basic disease processes of individual body systems. Incorporates nursing assessment/diagnosis with associated intersystem diseases utilizing evidence-based practice and patient-centered, safe care. Prerequisite: BIOL 223 and 223L and BIOL 224 and 224L. (F, S)

NSG 230 (WS 230) Women, Health and Society 3(3-0)
Introduction to women's health issues and a basic understanding of how women's health has been influenced historically, culturally and by socio-economic factors. (F, S)

NSG 231 Concepts for Professional Nursing 2(2-0)
Introduces nursing history, theory, and key concepts related to healthcare and professional integrity and leadership. (S, SS)

NSG 232 Fundamentals of Nursing Care 3(3-0)
Utilizes the nursing process to provide safe, patient-centered care. Emphasizes teamwork, collaboration, evidence-based practice, and quality improvement. (S, SS)

NSG 232L Fundamentals of Nursing Care Lab 3.5(0-7)
Application of NSG 232. Assists students to develop fundamental competencies to provide safe, evidenced-based, patient-centered care. (S, SS)

NSG 232S Fundamentals of Nursing Care Sim 0.5(0-1)
Application of NSG 232/232L. Assist students to develop fundamental competencies to provide safe, evidenced-based patient-centered care in a simulated environment Prerequisite: Follow nursing program catalog sequence. Corequisite: NSG 232, NSG 232L (S, SS)

NSG 291 Special Topics (1-4 V)
Topics and/or nursing skills for enrichment of required nursing courses, and which serve the interest of student, will be considered. (*) Repeatable (99).

NSG 295 Independent Study (1-6 V)
Independent Study. (*) Repeatable (99).

NSG 302 Health Promotion and Assessment 2(2-0)
Utilizes evidence-based practice to assess, analyze and promote health in diverse populations across the lifespan. (S, SS)

NSG 302L Health Promotion and Assessment Lab 1(0-2)
Fosters evidence-based practice and clinical judgment to develop comprehensive assessment skills across the lifespan. (S, SS)

NSG 305 Ethical Issues in Health Care 3(3-0)
Introduces evidence-based theories which influence ethical issues in health care. (*)

NSG 308 Pharmacology in Nursing Practice 3(3-0)
Applies pharmacokinetics, pharmacodynamics, and pharmacotherapeutics to patient-centered care. Focuses on safety, legal implications and evidence-based practice. (F, SS)

NSG 309 Professional Nursing Practice 4(4-0)
Introduces registered nurses to mission and philosophy of the nursing program, professional nursing practice and personal growth. Utilizes concepts of evidence-based, patient-centered care. (*)

NSG 311 Integration of QSEN for Nurses 3(3-0)
Apply QSEN skills, attitudes, knowledge to improve health care delivery. Identify concepts of quality improvement based on evidence. Survey teamwork/communication/collaboration and transitions of care. (*)

NSG 312 Caring for Childbearing Family 3(3-0)
Introduces safe, patient-centered care of the neonate and procreative family during the peri-natal period. Includes health promotion, high risk management, safety and human sexuality. (F, S)

NSG 312L Caring for Childbearing Family Lab 2.5(0-5)
Application of NSG 312. Provides evidence-based, patient-centered care to the neonate and family throughout the peri-natal period. (F, S)

NSG 312S NSG Care Childbearing Family Sim 0.5(0-1)
Application of NSG 312/312L. Provides evidence-based, patient-centered care to neonates and childbearing families based upon best practices, in a simulated environment Prerequisite: Follow nursing program catalog sequence. Corequisite: NSG 322, NSG 322L. (F, S)

NSG 322 Caring for Adults I 4(4-0)
Integrates assessment, pharmacology and pathophysiologic concepts utilizing evidence-based practice to provide safe, patient-centered care to adults with acute and chronic health concerns. (F, S)

NSG 322L Caring for Adults I Lab 3.5(0-7)
Application of NSG 322. Provides evidence-based, patient-centered care to adults and families based upon best practices. (F, S)

NSG 322S Caring for Adults I Simulation 0.5(0-1)
Application of NSG 322/322L. Provides evidence-based, patient-centered care to adults and families based upon best practices, in a simulated environment. Prerequisite: Follow Nursing program catalog sequence. Corequisite: NSG 322, NSG 322L. (F, S)

NSG 331 Healthy Aging 2(2-0)
Utilizes evidence-based practice theories to promote healthy aging and patient-centered care of older adults. (S, SS)

NSG 332 Caring for Children/Families 3(3-0)
Introduces patient-centered care of children, adolescents and their families. Emphasizes evidence-based practice related to health promotion, safety and disease management. (F, S)

NSG 332L Caring for Children/Families Lab 2.5(0-5)
Application of NSG 332. Provides evidence-based, patient-centered care of children, adolescents, and families. (F, S)

NSG 332S Caring for Children/Families Sim 0.5(0-1)
Application of NSG 332/332L. Provides evidence-based, patient-centered care to children, adolescents and their families based upon best practices, in a simulated environment. Prerequisite: Follow nursing program catalog sequence. Corequisite: NSG 332, NSG 332L. (F, S)
NSG 351 Evidence Based Nursing Practice 3(3-0)
Critically analyzes and applies nursing research to practice. Uses evidence-based practice to promote continuous quality improvement and patient-centered care. Prerequisite: MATH 156. (S)

NSG 371 Healthcare Informatics 2(2-0)
Introduces theory, infrastructure and ethical application of health informatics for the delivery of safe, effective, efficient, and quality patient-centered care. (S)

NSG 372 Clinical Practicum I 3(0-9)
Provides an opportunity for a concentrated clinical practicum with instructor approval. Prerequisite: NSG 308 and NSG 312 and NSG 322 and NSG 331 and NSG 332 and NSG 351 and NSG 371 and NSG 382. (A grade of B or better is required for prerequisite courses.) (SS) Repeatable (6).

NSG 382 Dynamics of Behavioral Health 3(3-0)
Introduces evidence-based concepts focusing on mental health promotion and disease specific patient-centered care. (F, S)

NSG 382L Dynamics of Behavioral Health Lab 2.5(0-5)
Application of NSG 382. Provides evidence-based, patient-centered care in behavioral health settings. (F, S)

NSG 382S Dynamics of Behavioral Health Sim 0.5(0-1)
Application of NSG 382/382L. Provides evidence-based, patient-centered behavioral health care based upon best practices, in a simulated environment. Prerequisite: Follow nursing program catalog sequence. Corequisite: NSG 382, NSG 382L. (F, S)

NSG 391 Special Topics 1-5 V
Special Topics. Prerequisite: Permission of instructor. (*) Repeatable (99).

NSG 408 Synthesis of Pharmacologic Concepts 2(2-0)
Synthesizes pharmacological concepts and prototype agents with focus on the physiological action, effect and utilization of selected drug groups in evidence-based practice. Pre or corequisite: NSG 420. (A grade of B or better is required for prerequisite courses.) Corequisite: Pre or corequisite: NSG 420. (A grade of B or better is required for prerequisite courses.) (S)

NSG 420 Caring For Adults II 4(4-0)
Integrates assessment, pharmacology and pathophysiology concepts using evidence-based practice to provide patient-centered care to adults with complex health concerns. (F, S)

NSG 420L Caring For Adults II Lab 3(0-6)
Application of NSG 420. Provides patient centered care to adults and families utilizing evidence-based practice. Emphasizes teamwork and collaboration for multiple patients. (F, S)

NSG 420S Caring for Adults II Simulation 1(0-2)
Application of NSG 420. Provides simulated patient centered care to adults and families utilizing evidence based practice. Emphasizes teamwork and collaboration for the care of multiple simulated patients. Prerequisite: Follow catalog nursing program sequence. Corequisite: NSG 420, NSG 420L. (F, S)

NSG 431 Gerontological Nursing 3(3-0)
Synthesize evidence-based practice theories and integrates concepts of healthy aging to promote patient-centered care of older adults by allied health professionals. (*)

NSG 442 Global Public Health 3(3-0)
Synthesizes theory, research, epidemiological public health principles into planning interventions to meet the multidimensional health needs of a diverse, global society. Prerequisite: NSG 351. Corequisite: NSG 442L. (F, SS)

NSG 442L Global Public Health Lab 2.5(0-5)
Application of NSG 442. Provides population-focused care in community health settings. (F, SS)

NSG 442S Global Public Health Simulation 0.5(0-1)
Application of NSG 420. Provides simulated patient centered care to adults and families utilizing evidence based practice. Emphasizes teamwork and collaboration for the care of multiple simulated patients. Prerequisite: Follow nursing program catalog sequence. Corequisite: NSG 442, NSG 442L. (F, S)

NSG 451 Nursing Leadership and Issues 3(3-0)
Analyzes management and leadership theories. Explores issues related to quality improvement, evidence-based practice, professional integrity/leadership and teamwork/collaboration. (F, S, SS)

NSG 452 Synthesis of Nursing Practice 4(4-0)
Prepares for transition into professional nursing practice. Integrates patient-centered care concepts for a variety of health needs across the lifespan. (S, SS)

NSG 452L Synthesis of Nursing Practice Lab 4(0-8)
Application of NSG 452. Manages multiple, complex patients in a variety of health care settings utilizing evidence-based practice. Emphasizes integrity, leadership, team work and collaboration. (S, SS)

NSG 452S Synthesis of Nursing Practice Sim 1(0-2)
Application of NSG. 452. Manages multiple, complex simulated patients in the simulation laboratory utilizing evidence-based practice. Emphasizes integrity, leadership, team work and collaboration. Prerequisite: Follow nursing program catalog sequence. Corequisite: NSG 452, NSG 452L. (S, SS)

NSG 453 Synthesis for RN's 4(4-0)
Transitions RN's into professional nursing practice. Integrates QSEN concepts for a variety of health needs across the lifespan. Prerequisite: NSG 309, NSG 311, NSG 351, NSG 371, NSG 442, NSG 451, RN status. Corequisite: NSG 453L. (F, S, SS)

NSG 453L Synthesis for RN's Lab 5(0-10)
Applies principles from NSG 453. Emphasizes advocacy, integrity, leadership, and patient centered care in a variety of health care and community settings. Prerequisite: RN Status. Corequisite: NSG 453. (F, S, SS)

NSG 472 Clinical Practicum II 3(0-9)
Provides an opportunity for a concentrated clinical specialty practicum with instructor approval. (S) Repeatable (6).

NSG 491 Special Topics 1-6 V
Special Topics. (*) Repeatable (99).

NSG 492 Research 2(2-0)
Faculty-directed research project for undergraduate student. Prerequisite: NSG 351 with a grade of B or better. (*)

NSG 495 Independent Study 1(1-0)
Independent Study. (*) Repeatable (99).

NSG 504 NSG Writing & Presentation Skills 1(1-0)
Prepare students for the rigors of academic writing at the graduate and professional levels. (F)

NSG 505 Biostatistics & Research 3(3-0)
Analyze nursing and healthcare research using the most common inferential statistical methodologies to identify accurate data results and evidence gaps. (F)
NSG 506 Roles and Issues 2(2-0)
Explores advanced practice nursing roles and competencies emphasizing clinical quality, safety and ethical issues. (F)

NSG 507 Advanced Practice Roles 2(2-0)
Introduces the core concepts of the advanced nursing practice role. (F)

NSG 508 Advanced Practice Theory 3(3-0)
Examines the theoretical basis of nursing which guides evidence-based advanced practice. Prerequisite: NSG 309, NSG 311, NSG 371, NSG 512, NSG 575, NSG 576, or approval of instructor. Corequisite: NSG 583L. (SS)

NSG 512 Research & Evidenced Based Practice 3(3-0)
Expands knowledge to determine the best evidence and quality improvement methods to reduce risk and improve patient outcomes in the advanced nursing practice role. (S)

NSG 548 Healthcare: Ethics, Law & Policy 3(3-0)
Evaluate ethical, legal and political concepts in healthcare delivery systems. (S)

NSG 550 Health Policy & Finance 3(3-0)
Analyze and utilize the historical, political, economic, and financial concepts in the development in one's practice and the advanced nursing practice role. (S)

NSG 551 Health Promotion 2(2-0)
Analyzes concepts of health promotion related to delivery of evidence-based patient-centered care in advanced nursing practice. (S, SS)

NSG 552 Advanced Pathophysiology 3(3-0)
Examines alterations in human psychosocial function in diverse populations across the lifespan using evidence-based practice principles. Corequisite: NSG 561. (F, SS)

NSG 561 Advanced Pharmacology 3(3-0)
Applies pharmacological concepts in the management of patients across the lifespan within the scope of evidence-based advanced nursing practice. Corequisite: NSG 552. (F, SS)

NSG 562 Advanced Assessment 2(2-0)
Enhances assessment skills across the lifespan within the scope of evidence-based advanced nursing practice. Corequisite: NSG 562L. (S)

NSG 562L Advanced Assessment Lab 1(0-2)
Demonstrates assessment skills across the lifespan within the scope of evidence-based advanced nursing practice. Corequisite: NSG 562. (S)

NSG 570 Advanced Evidenced Based Practice 3(3-0)
Utilizes analytical methods and disciplined inquiry to expand knowledge for implementation of a safe and quality evidence-based advanced nursing practice. (S)

NSG 571 Healthcare Informatics 2(2-0)
Analyzes theory, infrastructure and ethical application of health informatics for the delivery of quality advanced nursing practice. (F, SS)

NSG 575 Curriculum Development 3(3-0)
Focuses on roles, theories and processes of nursing curriculum development from an evidence-based practice foundation. (F)

NSG 576 Instructional Strategies 3(3-0)
Explores evidence-based practice learning theories and instructional strategies for teaching nursing in a variety of settings. (S)

NSG 577 Assessment & Evaluation 3(3-0)
Focuses on understanding and applying formal and informal assessment and evaluation strategies utilizing informatics in order to implement data-driven instruction. (SS)

NSG 583 Nurse Educator Seminar 1(1-0)
Synthesizes nurse educator theory and competencies into evidence-based teaching practices. Prerequisite: NSG 309, NSG 311, NSG 371, NSG 512, NSG 575, NSG 576, or approval of instructor. Corequisite: NSG 583L. (SS)

NSG 583L Nurse Educator Practicum 3(0-9)
Applies nurse educator theory and competencies in a variety of educational settings. Prerequisite: NSG 309, NSG 311, NSG 371, NSG 512, NSG 575, NSG 576, NSG 577 or approval of instructor. Corequisite: NSG 583. (SS)

NSG 587 Synthesis Experience 9(3-24)
Synthesizes theory into practice based on specialty competencies and advanced practice clinical requirements. This course may need to be repeated based on specialization. (F, S, SS)

NSG 590 Special Projects 1(3 V)
Individual project selected, outlined and pursued by student. Prerequisite: Graduate standing and advisor approval. (*) Repeatable (99).

NSG 591 Special Topics 1-6 V
Special Topics. (*) Repeatable (6).

NSG 593 Thesis Seminar 3(3-0)
Creates an advanced nursing practice research proposal as the first step in thesis development. (*)

NSG 595 Independent Study 1-6 V
Independent Study. (*) Repeatable (99).

NSG 599 Thesis Research 1-6 V
Preparation of thesis to meet degree requirements. Must be enrolled each semester in at least one credit hour if thesis is still in process. Prerequisite: NSG 593 and approval by thesis advisor. (*) Repeatable (99).

NSG 610 Diagnostic Reasoning 2(2-0)
Focuses on diagnostic reasoning and problem solving for the advanced practice nurse. (S, SS)

NSG 612L MS Acute Care Skills Lab 2(0-4)
Applies advanced practice nursing skills for the FNP and ACNP. (F)

NSG 613L Acute Care Skills Lab I 2(0-4)
Explore and practice simulated advanced practice nursing procedure skills for the Adult-Gerontology Acute Care and Family Nurse Practitioner. (S)

NSG 614L Acute Care Skills Lab II 1(0-2)
Demonstrate safe simulated advanced practice nursing procedure skills for the Adult-Gerontology Acute Care and Family Nurse Practitioner. Prerequisite: NSG 613L. (SS)

NSG 620 MS Adult/Gerontology Acute Care 2(2-0)
Examines the advanced practice nurse's role in patient-centered care of adult and geriatric populations with chronic health needs. Corequisite: NSG 620L. (F)

NSG 620L MS AGACNP Practicum I 4(0-12)
Explores the advanced practice nurse's role in patient-centered care of adult and geriatric populations. Corequisite: NSG 620. (F)

NSG 621 MS Adult/ Gerontology Acute Care II 4(4-0)
Examines the advanced practice nurse's role in patient-centered care of adult and geriatric population with acute health needs. Corequisite: NSG 621L. (S)

NSG 621L MS AGACNP Practicum II 4(0-12)
Applies the advanced practice nurse's role in patient-centered care of adult and geriatric populations. Corequisite: NSG 621. (S)
NSG 622 MS Adult/ Gero Acute Care III 4(4-0)  
Examines the advanced practice nurse's role in patient-centered care of adult and geriatric populations with emergent health needs. Corequisite: NSG 622L. (SS)

NSG 622L MS AGACNP Practicum III 4(0-12)  
Synthesizes the advanced practice nurse's role in patient-centered care of adult and geriatric populations. Corequisite: NSG 622. (SS)

NSG 631 MS Family I 2(2-0)  
Introduces primary care health management for the family across the lifespan. Prerequisite: NSG 610. Corequisite: NSG 620 & NSG 638L. (F)

NSG 632 MS Family II 2(2-0)  
Explores primary care management for families across the lifespan with acute health needs. Prerequisite: NSG 631 Corequisite: NSG 621 & NSG 638L. (S)

NSG 633 MS Family III 2(2-0)  
Explores primary care management for families across the lifespan with chronic health needs. Prerequisite: NSG 632 Corequisite: NSG 622 & NSG 638L. (SS)

NSG 636L FNP Practicum 1(1-13 V)  
Engages students in primary care management for the family across the lifespan. Corequisite: NSG 661 or 662 or 663 or 664 or 665 or completion of all 5. (F, S, SS) Repeatable (13).

NSG 638L MS Family Practicum 1(1-11 V)  
Engages students in primary care management for the family across the lifespan. Corequisite: NSG 631 or 632 or 633 or completion of all 3. (F, S, SS) Repeatable (11).

NSG 641 Adult/ Gerontology Acute Care I 3(3-0)  
Examines the advanced practice nurse's role in patient-centered care of adult and geriatric populations with chronic health needs. Prerequisite: NSG 610. Corequisite: NSG 641L. (SS)

NSG 641L AGACNP Practicum I 1(0-3)  
Explores the advanced practice nurse's role in patient-centered care of adult and geriatric populations. Corequisite: NSG 641. (SS)

NSG 642 Adult/ Gerontology Acute Care II 2(2-0)  
Examines the advanced practice nurse's role in patient-centered care of adult and geriatric population with decompensating chronic health needs. Prerequisite: NSG 641. Corequisite: NSG 642L. (F)

NSG 642L AGACNP Practicum II 3(0-9)  
Recognizes the advanced practice nurse's role in patient-centered care of adult and geriatric populations. Corequisite: NSG 642. (F)

NSG 643 Adult/Gerontology Acute Care III 2(2-0)  
Examines the advanced practice nurse's role in patient-centered care of adult and geriatric populations with chronic conditions focusing on health maintenance to prevent urgent events. Prerequisite: NSG 642. Corequisite: NSG 643L. (S)

NSG 643L AGACNP Practicum III 2(0-6)  
Applies the advanced practice nurse's role in patient-centered care of adult and geriatric populations. Corequisite: NSG 643. (S)

NSG 644 Adult/Gerontology Acute Care IV 2(2-0)  
Examines the advanced practice nurse's role in patient-centered care of adult and geriatric populations with a focus on chronic urgent/emergent health needs. Prerequisite: NSG 643. Corequisite: NSG 644L. (SS)

NSG 644L AGACNP Practicum IV 2(0-6)  
Analyzes the advanced practice nurse's role in patient-centered care of adult and geriatric populations. Corequisite: NSG 644. (SS)

NSG 645 Adult/Gerontology Acute Care V 1(1-0)  
Examines the advanced practice nurse's role in patient-centered care of adult and geriatric populations with emergent health needs. Prerequisite: NSG 644. Corequisite: NSG 645L. (F)

NSG 645L AGACNP Practicum V 2(0-6)  
Synthesizes the advanced practice nurse's role in patient-centered care of adult and geriatric populations. Corequisite: NSG 645. (F)

NSG 646L AGACNP Practicum MS 1(3 V)  
Synthesizes the advanced practice nurse's role in patient-centered care of adult and geriatric populations. Corequisite: NSG 643 & NSG 643L or NSG 644 & NSG 644L or NSG 645 & NSG 645L. (F, S, SS) Repeatable (3).

NSG 651 Psych Mental Health I 2(2-0)  
Applies theory and evidenced-based practice to the care of the psychiatric-mental health patient across the lifespan. Prerequisite: NSG 678 Corequisite: NSG 651L. (F)

NSG 651L PMH Practicum I 2(0-6)  
Explores the advanced practice nurse's role while providing evidenced-based patient-centered care of psychiatric-mental health patients across the lifespan. Corequisite: NSG 651. (F)

NSG 652 Psych Mental Health II 2(2-0)  
Analyzes the health care management of the psychiatric-mental health patient disorders across the lifespan utilizing evidence-based guidelines. Prerequisite: NSG 651 Corequisite: NSG 652L. (S)

NSG 652L PMH Practicum II 2(0-6)  
Applies the advanced practice nurse's role while providing evidenced-based patient-centered care for psychiatric-mental health patients across the lifespan. Prerequisite: NA. Corequisite: NSG 652. (S)

NSG 653 Psych Mental Health III 3(3-0)  
Analyses complex health care management of the psychiatric-mental health patient disorders across the lifespan utilizing evidence-based guidelines. Prerequisite: NSG 652 Corequisite: NSG 653L. (SS)

NSG 653L PMH Practicum III 3(0-9)  
Implements the advanced practice nurse's role while providing evidence-based patient-centered care for psychiatric-mental health patients across the lifespan. Corequisite: NSG 653. (SS)

NSG 654 Psych Mental Health IV 3(3-0)  
Synthesizes complex health care management of the psychiatric-mental health patient across the lifespan utilizing evidence-based guidelines. Prerequisite: NSG 653. Corequisite: NSG 654L. (F)

NSG 654L PMH Practicum IV 3(0-9)  
Synthesizes the advanced practice nurse's role while providing evidence-based patient-centered care for psychiatric-mental health patients across the lifespan. Prerequisite: NSG 653 & NSG 653L or NSG 654 & NSG 654L or NSG 655 & NSG 655L. (F, S, SS) Repeatable (3).

NSG 661 Family I 2(2-0)  
Introduces primary care health promotion and disease prevention management for the family across the lifespan. Prerequisite: NSG 610. Corequisite: NSG 641 & NSG 638L. (SS)
NSG 662 Family II 2(2-0)
Explores primary care management for families across the lifespan with common urgent and acute health needs. Prerequisite: NSG 661
Corequisite: NSG 642 & NSG 636L. (F)

NSG 663 Family III 2(2-0)
Explores primary care management for families across the lifespan for common post traumatic and chronic health needs. Prerequisite: NSG 662.
Corequisite: NSG 643 & NSG 638L. (S)

NSG 664 Family IV 1(1-0)
Explores primary care management for families across the lifespan with complex acute exacerbation of chronic health needs. Prerequisite: NSG 633. Corequisite: NSG 644 & NSG 636L. (SS)

NSG 665 Family V 1(1-0)
Synthesizes primary care management for families across the lifespan with urgent and emergent rural health needs. Prerequisite: NSG 664.
Corequisite: NSG 645 & NSG 636L. (F)

NSG 676 Theoretical Mental Health Models 2(2-0)
Explores theories and conceptual models which frame psychiatric-mental health interventions. (F, S)

NSG 677 Psychopharmacology 2(2-0)
Applies psychopharmacological concepts in the management of psychiatric-mental health patients across the lifespan. (F, S)

NSG 678 Psychiatric Assessment & Evaluation 2(2-0)
Analyzes techniques of assessment and evaluation utilizing standard diagnostic criteria. (SS)

NSG 679 Psychiatric Differential Diagnosis 2(2-0)
Focuses on diagnostic reasoning and problem solving for the psychiatric-mental health advanced practice nurse. (SS)

NSG 681 MS Psych Mental Health I 2(2-0)
Applies theory and evidenced-based practice to the care of the psychiatric-mental health patient across the lifespan. Prerequisite: NSG 678 Corequisite: NSG 681L. (F)

NSG 681L MS PMH Practicum I 4(0-12)
Explores the advanced practice nurse's role in patient-centered care of psychiatric-mental health patients across the lifespan. Corequisite: NSG 681. (F)

NSG 682 MS Psych Mental Health II 4(4-0)
Analyzes the health care management of the psychiatric-mental health patient across the lifespan utilizing evidence-based guidelines. Prerequisite: NSG 681 Corequisite: NSG 682L. (S)

NSG 682L MS PMH Practicum II 4(0-12)
Applies the advanced practice nurse's role to patient-centered care of psychiatric-mental health patients across the lifespan. Prerequisite: NSG 681 Corequisite: NSG 682. (S)

NSG 683 MS Psych Mental Health III 4(4-0)
Analyzes complex health care management of the psychiatric-mental health patient across the lifespan utilizing evidence-based guidelines. Prerequisite: NSG 682 Corequisite: NSG 683. (S)

NSG 683L MS PMH Practicum III 4(0-12)
Synthesizes the advanced practice nurse's role while providing patient-centered care for psychiatric-mental health patients across the lifespan. Prerequisite: NSG 682. Corequisite: NSG 683. (SS)

NSG 712 Research & Evidence Based Practice 3(3-0)
Expand knowledge to determine the best evidence and quality improvement methods to reduce risk and improve patient outcomes in the advanced nursing practice role. Prerequisite: NSG 505. (S)

NSG 714 Epidemiology 3(3-0)
Examine theoretical and philosophic foundations for illness patterns, injury, and high-risk behaviors in individuals, aggregates, and populations using evidence-based nursing practice to influence health outcomes. Prerequisite: NSG 505. (SS)

NSG 716 Health Care Business & Finance 4(3-3)
Introduces the dynamics of financial theory and strategic management for establishing an advanced nursing practice (DNP 45 hours clinical required). (F)

NSG 718 Organizational & Systems Leadership 4(3-3)
Integrates organizational and systems leadership knowledge and skills to influence communication, productivity, health outcomes and practice excellence (DNP 45 hours clinical required). (S)

NSG 748 Healthcare: Ethics, Law & Policy 4(3-3)
Evaluate ethical, legal and political concepts in healthcare delivery systems (DNP 45 hours clinical required). (S)

NSG 801 Doctor of Nursing Practice Seminar 1(1-0)
Formulate a framework for a Doctoral Inquiry project proposal. Prerequisite: NSG 505 and 712 and 716 and 748 or approval of instructor. (F, SS)

NSG 802 DNP Project Practicum I 3(2-3)
Develop and defend scholarly DNP project proposal DNP clinical hours required. Prerequisite: NSG 801. (F)

NSG 803 DNP Project Practicum II 3(1-6)
Develops the role of the DNP during clinical immersion while initiating a DNP project implementation in a designated multidisciplinary emphasis area. DNP clinical hours required. Prerequisite: NSG 802. (S)

NSG 804 DNP Project Practicum III 2(1-3)
Analyze DNP project findings to prepare project defense and maintain clinical immersion. DNP clinical hours required. Prerequisite: NSG 803. (SS)

NSG 805 DNP Project Practicum IV 3(1-6)
Defend DNP project and disseminates findings. DNP clinical hours required. Prerequisite: NSG 804. (F)

NSG 806L Final DNP Practicum AGACNP 6(0-18)
Integrate the DNP essentials into the advanced practice nursing role during an adult-gerontology acute care setting. Prerequisite: NSG 805. (F)

NSG 807L Final DNP Practicum AGACNP/FNP 10(0-30)
Integrate the DNP essentials into the advanced practice nursing role during an adult-gerontology acute care and family setting. Prerequisite: NSG 805. (S)

NSG 808L Final DNP Practicum PMHNP 6(0-18)
Integrate the DNP essentials into the advanced practice nursing role during a Psychiatric Mental Health clinical setting. Prerequisite: NSG 805. (S)

NSG 809L MS NSG DNP Project Practicum 1(1-16 V)
Develop, implement, analyze, defend and disseminate findings for a scholarly DNP clinical immersion change project. Develop the DNP role in a multidisciplinary clinical emphasis area. Prerequisite: NSG 801. (F, S, SS) Repeatable (16).

NSG 810L DNP Project Practicum 1(0-3)
Analyze, defend and disseminate findings for a scholarly DNP clinical immersion change project. Develop the DNP role in a multidisciplinary clinical emphasis area. Prerequisite: NSG 806L, or NSG 807L, or NSG 808L or NSG 809L. (F, S, SS) Repeatable (3).
Philosophy (PHIL)

PHIL 102 Philosophical Literature 3(3-0)
Philosophical literature that focuses on such questions as what is the nature of reality, how do we know what we know, and for what kind of life should we strive. (F, S) (Gen Ed: H, GT-AH3)

PHIL 120 Islam and Non-Western Religions 3(3-0)
A study of major world religions including Buddhism, Confucianism, Hinduism, Islam, Jainism, Sikhism, Shinto, Taoism, Zoroastrianism. (*) (Gen Ed: H, GT-AH3) (CC)

PHIL 201 Classics in Ethics 3(3-0)
The logic of objective norms and standards of 'good' vs. 'bad', 'right' vs. 'wrong' from major philosophers and classics of literature. Application to contemporary issues. (F, S) (Gen Ed: H, GT-AH3)

PHIL 204 Critical Reasoning 3(3-0)
Survey of the general principles of correct reasoning with emphasis on the role of language in the reasoning process. Major concern with induction and fallacy detection. (F, S) (Gen Ed: H, GT-AH3)

PHIL 205 Deductive Logic 3(3-0)
Study of the principles and methods used to distinguish valid from invalid patterns of deductive reasoning. Especially useful for students in computer- or mathematics related fields. (*) (Gen Ed: H, GT-AH3)

PHIL 280 The Ancients: Person, Polis, Cosmos 3(3-0)
Exploration of the ancient origins of Western philosophy with an emphasis on the Presocratics, theSophists, Socrates, Plato and Aristotle. (*)

PHIL 291 Special Topics 1-3 V
Students who have an area of special interest are encouraged to contact the department. Special topics and authors of philosophical interest. (*) Repeatable (12).

PHIL 295 Independent Study 1-3 V
Specialized study of select persons, ideas, schools, historical trends or problems in philosophy. Prerequisite: Permission of instructor. (*) Repeatable (9).

PHIL 380 The Moderns: Science, Self, State 3(3-0)
Exploration of intellectual revolutions in 16th - early 19th century Europe as represented in thinkers such as Hobbes, Descartes, Locke, Hume, Rousseau, and Kant. (*)

PHIL 480 Continental Thought 3(3-0)
European thought of the 19th and 20th centuries including existentialism, critical theory, and postmodernism; discussion of thinkers such as Nietzsche, Heidegger, Sartre, Adorno, and Foucault. (*)

PHIL 485 American Pragmatism and its Legacy 3(3-0)
An examination of pragmatism from its roots in transcendentalism and evolutionary thought to its zenith in Peirce, James, and Dewey, and its contemporary legacy. (*)

PHIL 491 Special Topics 1-3 V
Special topics and authors of philosophical interest. May be repeated for 12 credits maximum. More advanced than PHIL 291. Students who have an area of special interest are encouraged to contact the department. (*) Repeatable (12).

PHIL 495 Independent Study 1-3 V
Specialized study of select persons, ideas, schools, historical trends or problems in philosophy. Prerequisite: Permission of instructor. (*) Repeatable (9).

Physics/Physical Science (PHYS)

PHYS 110 Astronomy 3(3-0)
Solar system, including motions of the planets, eclipses, and satellite exploration; classification and evolution of stars; clusters, nebulae, galaxies and the expanding universe. Prerequisite: Pre or corequisite: satisfactory placement score or MATH 098. (F, S) (Gen Ed: ST, GT-SC2)

PHYS 110L Astronomy Lab 1(0-2)
Laboratory course to accompany PHYS 110. Prerequisite: Pre or corequisite: PHYS 110. (F, S) (Gen Ed: ST, GT-SC1)

PHYS 140 Light, Energy and the Atom 3(3-0)
A non-mathematical approach to light, energy sources, conservation, atoms, nuclei and nuclear radiation. Emphasis on phenomena encountered in everyday life or that affect public policy. Prerequisite: Pre or corequisite: satisfactory placement score or MATH 098. (F, S) (Gen Ed: ST, GT-SC2)

PHYS 140L Light, Energy and the Atom Lab 1(0-2)
Optional laboratory to accompany PHYS 140. Experiments in light, solar energy, atomic and nuclear physics with emphasis on qualitative understanding of observations. Prerequisite: Pre or corequisite: PHYS 140. (F, S) (Gen Ed: ST, GT-SC1)

PHYS 145 A Survey of Global Energy Resources 3(3-0)
Explore the ways we use energy, from when it comes and the science behind devices that produce it and transform it to its various forms. Prerequisite: MATH 099 or satisfactory placement exam score. (*) (Gen Ed: ST)

PHYS 145L A Survey of Energy Resources Lab 1(0-2)
The lab will reinforce and extend student understanding of energy concepts. Prerequisite: MATH 099 or satisfactory placement exam score. Corequisite: PHYS 145. (*) (Gen Ed: ST)

PHYS 150 (CHEM 150) Elementary Concepts in Phys & Chem 4(3-2)
Hands-on standards-based approach to understanding basic concepts of physics and chemistry. Integrated lecture, lab and discussion periods. Recommended: enrollment in the Teacher Education Program. (S)

PHYS 201 Principles of Physics I 3(3-0)
Motion, forces, conservation of energy and momentum, wave motion, sound and heat. For engineering technology, life sciences, and other interested students. Prerequisite: Satisfactory math placement exam score or MATH 121. Pre or corequisite: PHYS 201L. (F, S) (Gen Ed: ST, GT-SC2)

PHYS 201L Principles of Physics Lab I 1(0-2)
Principles of Physics Lab I. Prerequisite: Pre or corequisite: PHYS 201. (F, S) (Gen Ed: ST, GT-SC1)

PHYS 202 Principles Of Physics II 3(3-0)
Electrostatics, electromagnetism, light, atomic and nuclear physics. Prerequisite: Pre or corequisite: PHYS 201. (F, S) (Gen Ed: ST, GT-SC2)

PHYS 202L Principles Of Physics II Lab 1(0-2)
Principles Of Physics II Lab. Prerequisite: Pre or corequisite: PHYS 202. (F, S) (Gen Ed: ST, GT-SC1)

PHYS 221 General Physics I 4(4-0)
Newtonian mechanics, including linear and rotational dynamics, momentum, energy, gravitation, fluid mechanics, wave motion and thermodynamics. Uses the calculus and vector notation. For majors in physics, mathematics, geoscience, engineering and chemistry. Prerequisite: MATH 126. Pre or corequisite: PHYS 221L. (F, S) (Gen Ed: ST, GT-SC2)
**PHYS 221L  General Physics I Lab 1(0-2)**
General Physics I Lab. Prerequisite: Pre or corequisite: PHYS 221. (F, S) (Gen Ed: ST, GT-SC1)

**PHYS 222  General Physics II 4(4-0)**
Electrostatics, electromagnetism, elementary circuits, electrical oscillations, geometrical optics and the wave aspects of light. Prerequisite: PHYS 221. Corequisite: PHYS 222 and 222L. (F, S) (Gen Ed: ST, GT-SC2)

**PHYS 222L  General Physics II Lab 1(0-2)**
General Physics II Lab. Corequisite: PHYS 222. (F, S) (Gen Ed: ST, GT-SC1)

**PHYS 291  Special Topics 1(4-0)**
Special Topics. (*) Repeatable (99).

**PHYS 293  Seminar 1(1-0)**
The student attends at least 11 Physics Seminar presentations or other approved presentations and then presents a public seminar presentation on some approved physics-related topic. (*) Repeatable (99).

**PHYS 301  Analytical and Orbital Mechanics 4(4-0)**
Statics and dynamics of particles and rigid bodies. Conservation principles, minimum principles, accelerated coordinate systems, Lagrangian and Hamiltonian methods. Applications to astrodynamics and oscillations applications. Prerequisite: PHYS 221 and MATH 325 and MATH 337. (F, E)

**PHYS 321  Thermodynamics 3(3-0)**
Introduction to thermodynamic laws and principles, entropy, kinetic theory and statistical mechanics. Prerequisite: PHYS 221. (F, E)

**PHYS 322  Advanced Laboratory - Heat 1(0-2)**
Experiments in heat of combustion, heat transfer, thermal electromotive force, viscosity, and specific heat measurements. Prerequisite: Pre or corequisite: PHYS 321. (F, E)

**PHYS 323  General Physics III 4(4-0)**
Introduction to special relativity, kinetic theory, quantization, wave mechanics, atomic structure, nuclear physics and spectroscopy. Prerequisite: PHYS 222 and 222L and MATH 224. Pre or corequisite: PHYS 323L. (S)

**PHYS 323L  General Physics III Lab 1(0-2)**
General Physics III Lab. Prerequisite: Pre or corequisite: PHYS 323. (S)

**PHYS 341  Optics 3(3-0)**
Geometrical optics, interference, diffraction, polarization of light, optical properties of materials, optical sources including lasers, and holography. Prerequisite: PHYS 222 and 222L and MATH 325. (F, O)

**PHYS 342  Advanced Laboratory - Optics 1(0-2)**
Experiments in interference, diffraction, absorption, spectral characteristics and polarization of light. Prerequisite: Pre or corequisite: PHYS 341. (F, O)

**PHYS 431  Electricity and Magnetism 4(4-0)**
Mathematical treatment of electrostatics, currents, magnetism, electromagnetic induction, Maxwell’s equations and electrodynamics. Prerequisite: PHYS 222 and 222L, MATH 325 and 337. (S, E)

**PHYS 432  Advanced Laboratory - Electricity and Magnetism 1(0-2)**
Experiments in electrostatic constants, magnetic effects, capacitance, thermoelectric effects, magnetic properties, inductance, mutual inductance, and production, propagation and diffraction of microwaves. Prerequisite: Pre or corequisite: PHYS 431. (S, E)

**PHYS 441  Quantum Mechanics 4(4-0)**
Wave packets, operators, the Schroedinger equation, eigenstates, angular momentum, spin, magnetic moments, Heisenberg formulation. Prerequisite: PHYS 323 and 332L and MATH 325 and 337. (S, O)

**PHYS 480  Practicum in Laboratory Instruction 1(0-2)**
Participation in laboratory instruction under the guidance of a staff member. Includes instruction on laboratory safety. (F, S) Repeatable (2).

**PHYS 491  Special Topics 1(1-4 V)**
Special Topics. (*) Repeatable (99).

**PHYS 492  Research 1(0-2)**
Research. Prerequisite: Eight credits in upper-division physics courses. (F, S) Repeatable (99).

**PHYS 493  Seminar 1(1-0)**
Class members report on recently published work or on their own research in physics or applied physics. Prerequisite: Advanced standing with a major or minor in physics. (S, O) Repeatable (2).

**PHYS 495  Independent Study 1(1-6 V)**
Independent Study. Prerequisite: Junior or senior standing; permission of department chair. (*) Repeatable (99).

**PHYS 498  Internship 1(1-6 V)**
Work experience using the discipline of physics under the direction of the selected organization and a faculty member. Prerequisite: Junior or senior standing and permission of the department chair. (*) Repeatable (99).

**PHYS 499  Thesis Research 1(1-0)**
Students write a research paper describing their own research. Prerequisite: Senior standing in the department. (F, S) Repeatable (99).

**Political Science (POLSC)**

**POLSC 101  American National Politics 3(3-0)**
Basic processes in American politics. Principles and structure of national governments. (F, S) (Gen Ed: SS, GT-SS1)

**POLSC 102  State and Local Government 3(3-0)**
Behavioral aspects, government organization and inter-relationships of state and local politics, relations with federal government and other states. Special attention to Colorado government. (F)

**POLSC 201  International Relations 3(3-0)**
Introductory study of world affairs. Topics include: international economics, institutions, war, human rights, and the environment. Designed for students with no background in international relations. (F, S) (Gen Ed: SS, GT-SS1) (CC)

**POLSC 202  Comparative Politics 3(3-0)**
Studies politics, political systems, and governance in various countries, from the UK and France to Mexico and China. The course emphasizes comparative analysis and understanding. (S) (Gen Ed: SS) (CC)

**POLSC 230  War and Film 3(3-0)**
Exploration of the relationship between war, film, and political culture. Emphasizes portrayal of war through film and popular interpretation of historical events given this medium. (S, E)

**POLSC 231  Politics and Film 3(3-0)**
Exploration of the relationship between politics, film, and political culture. Emphasizes portrayal of politics through film and popular interpretation of historical events given this medium. (F, O)

**POLSC 250  Research Methods in Political Science 3(3-0)**
Introduction to the basic methods and tools of research in political science, including the scientific method, research design, data collection and qualitative and quantitative analysis. (F)
POLSC 270 Introduction to Homeland Security 3(3-0)
An overview of homeland security, key threats, challenges and potential responses. (F)

POLSC 271 Terrorism 3(3-0)
An examination of extremist groups and private violence in the context of monitoring, prevention, and responses. (S)

POLSC 272 Critical Incident Management 3(3-0)
The policies and practices of local first responders, inter-agency relationships, political violence and unconventional weapons. (S)

POLSC 291 Special Topics 1-3 V
Study of Political Events. Prerequisite: Permission of instructor. (*) Repeatable (99).

POLSC 305 International Conflict 3(3-0)
Introductory study of arguments related to the outbreak of violent international warfare. Emphasis on coercive bargaining, diplomacy, arms races, and contentious issues. Prerequisite: POLSC 201 or permission of instructor. (S, O)

POLSC 306 Peace Studies 3(3-0)
Introductory study of arguments related to violent conflict prevention, mitigation, and resolution. Emphasis on international law, peacekeeping, peace building, ethics, and non-violent organization. Prerequisite: POLSC 201 or permission of instructor. (F)

POLSC 321 American Constitutional Development 3(3-0)
Political context of the origin of the U.S. Constitution, Supreme Court procedures, court decisions defining uses and scope of the powers of the court, the Congress and the presidency. Prerequisite: POLSC 101 or permission of instructor. (F)

POLSC 322 American Constitutional Law 3(3-0)
Survey of American constitutional law; emphasis on Supreme Court decisions defining the extent and limits and of governmental authority and the rights and liberties of individual citizens. Prerequisite: POLSC 321 or permission of instructor. (S)

POLSC 323 Criminal Law and Procedure 3(3-0)
Content and characteristics of criminal law and procedures. Roles and functions of persons and agencies involved in judicial administration. Prerequisite: POLSC 101 or permission of instructor. (F)

POLSC 330 Introduction to Public Admin. 3(3-0)
Role of public bureaucracy in modern society. Principles and processes of public administration, personnel management and administrative responsibility. Prerequisite: POLSC 101 or permission of instructor. (F, E)

POLSC 340 Public Policy 3(3-0)
Introduces the process of formulation, implementation, and evaluation of public policy. Examines program development and execution in the context of political, economic, and institutional environments. Prerequisite: POLSC 101 or permission of instructor. (F, O)

POLSC 350 Political Attitudes and Behavior 3(3-0)
This course studies mass political attitudes, behavior, and psychology, including party identification and opinion formation. It also studies the effects of public opinion on democracy, and methods of survey research. (F)

POLSC 360 Media, Politics, and Power 3(3-0)
Assesses the role U.S. media plays in holding power accountable in the digital age. Topics include agenda setting and issue framing, the impact of media on public opinion, and how political actors shape media narratives. (S)

POLSC 370 Western Political Thought 3(3-0)
Systematic survey of political thought from beginnings in Ancient Near East to present. Emphasis on contributions relevant to contemporary political theory. Prerequisite: POLSC 101 or permission of instructor. (S)

POLSC 373 Intelligence and National Security 3(3-0)
Examines inter-agency relations as well as practical and political elements of domestic intelligence gathering. (S)

POLSC 374 Homeland Security and the Law 3(3-0)
Explores the legal and constitutional aspects of homeland security and homeland defense. (F, E)

POLSC 375 Threat and Strategic Planning 3(3-0)
Topics include the development of threat assessment and planning, public-private sector resource partnering and crisis communication. (S)

POLSC 376 Cyber Law 3(3-0)
Explore domestic and international law and policy governing cyber-related issues such as cybercrime, cyberwar, and the balance between civil liberties and national security in an electronic age. (F, O)

POLSC 395 Independent Study 1-3 V
Independent study involving specialized reading and research. Prerequisite: Permission of instructor. (*) Repeatable (6).

POLSC 405 The American Presidency 3(3-0)
Analysis of the powers and politics of the American presidency and those who have held the office. Presidential decision making, legislative and judicial relationships, elections. Prerequisite: POLSC 101 or permission of instructor. (S)

POLSC 411 The U.S. Congress 3(3-0)
Study of the U.S. Congress structure, law-making, politics and reforms. Prerequisite: POLSC 101 or permission of instructor. (F)

POLSC 430 War and Film 3(3-0)
Exploration of the relationship between war, film, and political culture. Emphasizes portrayal of war through film and popular interpretation of historical events given this medium. (S, E)

POLSC 431 Politics and Film 3(3-0)
Exploration of the relationship between politics, film, and political culture. Emphasizes portrayal of politics through film and popular interpretation of historical events given this medium. (F, O)

POLSC 440 Nationalism and Ethnic Conflict 3(3-0)
Ethno-nationalist conflict characterizes many of the world's most intractable and violent conflicts. This course studies ethno-nationalist conflict and identity formation in countries around the world. (S, E)

POLSC 445 Economic Development 3(3-0)
What explains economic development and inequality? How does political economics vary between rich and poor countries? The course studies the political economy of development in both developed and developing nations. (F, O)

POLSC 450 Democracy and Dictatorship 3(3-0)
How do dictators and one-party regimes stay in power? Why do some democracies fail? This course studies comparative dictatorship, comparative democracy, and regime change. (S, O)

POLSC 455 States, Citizens and Human Rights 3(3-0)
Some states respect human rights; others violate them. This course studies the politics of human rights and state-citizen relationships in countries around the world. (F, E)
POLSC 460 U.S. Foreign and Security Policy 3(3-0)
Investigate ongoing contemporary issues, and explore arguments related to strategic policy, political leadership, military development and application, and policy evolution. Prerequisite: POLSC 201 or permission of instructor. (F, E)

POLSC 480 Practicum in Politics and Public Service 1-6 V
For advanced students. Practical experience as interns in governmental agencies, political parties or legal offices. Prerequisite: Departmental permission. (*) Repeatable (12).

POLSC 491 Special Topics 1-3 V
Special topics in political science. Prerequisite: Lower division courses in political science are recommended. (*) Repeatable (99).

POLSC 492 Research 1-3 V
Original research with a faculty member resulting in a thesis. (*) Repeatable (6).

POLSC 493 Seminar 1-3 V
Application of research methods and materials. Emphasis on in-depth study of specific political topics. Involves writing and discussion of research papers at advanced level. Prerequisite: POLSC 250 and 370 or permission of instructor. (S)

POLSC 495 Independent Study 1-3 V
An individualized program of study designed by a ranked faculty member in the political science program and approved by the program coordinator. (*) Repeatable (99).

POLSC 591 Special Topics 1-3 V
Special topics in political science. Prerequisite: Permission of program coordinator. Corequisite: None (*) Repeatable (99).

POLSC 595 Independent Study 1-3 V
An individualized program of study designed by a ranked faculty member in the political science program and approved by the program coordinator. Prerequisite: Permission of program coordinator. Corequisite: None. (*) Repeatable (99).

President's Leadership Program (PLP)

PLP 160 Principles of Leadership 3(3-0)
Study of leadership theories and principles. The course emphasizes components of leadership, gender, ethnic diversity in leadership styles, organizational forms, and personal capacity for leadership. Prerequisite: Acceptance into President's Leadership Program. (F)

PLP 260 Leadership in Service Organizations 3(2-2)
Lecture/experiential course outlining leadership practices through service learning in community settings. Open to PLP students only. Prerequisite: PLP 160 and enrollment in PLP. (F)

PLP 360 Applied Leadership 3(3-0)
Leadership in action course applying needs assessments, analysis, strategy development, implementation and evaluation to a team project in private, public or nonprofit sector. PLP required. Prerequisite: PLP 260 and enrollment in PLP. (F)

PLP 460 Working with Experienced Leaders 3(1-4)
Lecture/practicum course assigning students to leader mentorship in public, private, or government sector. Leadership issues and challenges in a structured, but applied setting. Prerequisite: PLP 360 and enrollment in PLP. (F, S, SS)

PLP 489 Field Placement in Leadership 3(0-3)
A semester-long internship where students take on a supervised leadership role within an organization. Prerequisite: PLP 160 and PLP 260, and PLP 360. Corequisite: Student must be enrolled in President's Leadership Program. (F, S, SS)

PLP 491 Special Topics 1-3 V
Special topics are offered to students in areas where regular course offerings are not available. Prerequisite: Junior or senior standing and permission of instructor. (*)

Psychology (PSYCH)

PSYCH 100 General Psychology 3(3-0)
Overview of the field of psychology including learning, perception, motivation, emotion, heredity, personality, development, abnormal and psycho-therapy. (F, S, SS) (Gen Ed: SS, GT-SS3)

PSYCH 103 Introductory Psychology for Majors 3(3-0)
Explore psychology as a career in addition to an introduction to the basic skills required for conducting psychological research including APA writing style, journal article analysis, and basic statistics. (F, S)

PSYCH 105 (POLSC 105, SOC 105, WS 105) Understanding Human Diversity 3(3-0)
Americans live in a complex and diverse society. This course examines the nature, impact and strategies for dealing with diversity in personal and social contexts. (*) (*)

PSYCH 151 Human Development 3(3-0)
Survey of human development through life span. A multi-disciplinary approach to the study of both change and stability in physical, cognitive, social and personality development Review of relevant developmental theory and research. (F, S, SS) (Gen Ed: SS, GT-SS3)

PSYCH 205 Introduction to Sport Psychology 3(3-0)
An introduction to psychological theories and constructs affecting performance, coaching & development in sports and athletics. (F)

PSYCH 207 Quantitative Research Methods I 3(3-0)
Introduction to research development and use of quantitative methods. Prerequisite: PSYCH 100 and PSYCH 103 and Gen Ed Math. Corequisite: PSYCH 207L. (F, S)

PSYCH 207L Quantitative Research Methods Lab I 1(0-1)
Introduction to methods of psychological experimentation. Prerequisite: PSYCH 100 and PSYCH 103 and Gen Ed Math. Corequisite: PSYCH 207. (F, S)

PSYCH 209 Quantitative Research II 3(3-0)
Continuation of PSYCH 207. Focus on research development and quantitative methods. Prerequisite: PSYCH 100 and PSYCH 103 and PSYCH 207 and PSYCH 207L and Gen Ed Math. Corequisite: PSYCH 209L. (F, S)

PSYCH 209L Quantitative Research Methods Lab II 1(0-1)
Continuation of Quantitative Research Methods Lab I. Prerequisite: PSYCH 100 and PSYCH 103 and Gen Ed Math and PSYCH 207 and PSYCH 207L. Corequisite: PSYCH 209. (F, S)

PSYCH 211 (WS 211) Women and Society 3(3-0)
Statistical overview of the current status of women, followed by examination of theories concerning equality of the sexes. Prerequisite: PSYCH 100. (F)

PSYCH 212 (WS 212) Psychology of Diversity 3(3-0)
To raise awareness of social inequities, promote cultural competency & appreciation of differences. (*)
PSYCH 220 Drugs and Behavior 3(3-0)
Principles of drug action with attention to beneficial and harmful uses of drugs. (F, S)

PSYCH 222 Understanding Animal Behavior 3(3-0)
Basic comparative and ethological perspectives regarding animal behavior. Scientific techniques for observation of animal behavior may be demonstrated at the Pueblo Zoo. (F, S) (Gen Ed: SS, GT-SS3)

PSYCH 231 (SOC 231, WS 231) Marriage and Family Relationships 3(3-0)
Marriage and family from an institutional and relationship perspective: cross-cultural diversity, mate selection, marital dynamics, parenting, divorce, remarriage, emerging patterns. (F, S) (Gen Ed: SS)

PSYCH 241 Human Sexuality 3(3-0)
Psychological and biological aspects of human sexual behavior. Prerequisite: PSYCH 100 and sophomore standing. (*)

PSYCH 251 Childhood and Adolescence 3(3-0)
Physical, social, cognitive, and emotional growth of the individual from childhood through adolescence. Topics include intelligence, social development, self development, moral development, family relations. Prerequisite: PSYCH 100. (F, S) (Gen Ed: SS)

PSYCH 291 Special Topics 1-4 V
Special Topics. Prerequisite: Instructor permission. (*) Repeatable (6).

PSYCH 311 Theories Of Personality 3(3-0)
Major theories of personality and the methods of personality investigation. Prerequisite: PSYCH 100. (F, S)

PSYCH 315 Industrial/Organizational Psychology 3(3-0)
Application of the principles of psychology to the workplace, including personnel selection, motivation, group processes, leadership, job analysis, and organization. Prerequisite: PSYCH 100. (*)

PSYCH 331 Physiological Psychology 3(3-0)
Structure and function of the brain, nervous and endocrine systems; biological basis of sensation, perception, sleep and arousal, motivation, learning and memory, and drug action. Prerequisite: PSYCH 100. Corequisite: PSYCH 331L. (S)

PSYCH 331L Physiological Psychology Lab 1(0-2)
Physiological Psychology Lab. Prerequisite: PSYCH 331. (S)

PSYCH 334 Perception 3(3-0)
The senses and how they cooperate with the brain to provide awareness and knowledge of the world about us. Empirical findings and theoretical analysis of the processes of seeing, hearing, tasting, smelling and touching. Role of learning in normal and illusory perception is considered. Prerequisite: PSYCH 100. Corequisite: PSYCH 334L. (*)

PSYCH 334L Perception Lab 1(0-2)
Perception Lab. Prerequisite: PSYCH 100. Corequisite: PSYCH 334. (*)

PSYCH 336 Learning and Motivation 3(3-0)
Principles of learning and memory. Empirical findings and theoretical analyses of topics including conditioning, reinforcement and punishment. Research and application. Prerequisite: PSYCH 100 or permission of instructor. (*)

PSYCH 337 Memory and Cognition 3(3-0)
Theory and research on current topics in cognition, including attention, concept formation, imagery, memory, decision making, language acquisition, problem solving and text comprehension. Prerequisite: PSYCH 100. (F)

PSYCH 342 Educational Psychology 3(3-0)
The contribution of psychology theory, research and methods to our understanding of teaching and learning. Prerequisite: PSYCH 100 or 151. (*)

PSYCH 351 Psychology of the Exceptional Individual 3(3-0)
Survey of characteristics of those individuals considered significantly above or below the norm of the population. Emphasis on behavioral identification and modification of the home, school and social environment. Prerequisite: PSYCH 100. (*)

PSYCH 352 (SOC 352) Social Psychology 3(3-0)
General and applied psychological principles of the individual's interaction with a group. Prerequisite: PSYCH 100. (*)

PSYCH 362 Abnormal Psychology 3(3-0)
Etiology, diagnosis and therapy of maladaptive or abnormal behaviors and mental functioning. Prerequisite: PSYCH 100. (F, S)

PSYCH 401 History and Systems of Psychology 3(3-0)
The historical development of modern psychology from its roots in classical philosophy and the social, cultural, and political context within which psychological theory emerged. Prerequisite: PSYCH 100 and 209 and 209L. (F, S)

PSYCH 403 Emotional Intelligence 3(3-0)
This course examines scientific research from the fields of Affective Neuroscience, Personality and Positive Psychology regarding emotional intelligence, specifically emotional awareness, expressivity, motivation and regulation. Prerequisite: PSYCH 100. (*)

PSYCH 405 Positive Psychology 3(3-0)
This course examines the latest scientific research constituting positive psychology. Topics include: Well-Being, Gratitude, Empathy, Forgiveness, Hope, Resilience, and Humor. Prerequisite: PSYCH 100. (*)

PSYCH 463 Psychopathology of Childhood 3(3-0)
A survey of the unique conceptual models of etiology, assessment and therapy appropriate to the study of the psychological disorders of childhood. Prerequisite: PSYCH 100 and 362. (*)

PSYCH 464 Systems of Counseling and Psycho-Therapy 3(3-0)
Traditional and contemporary theories of counseling and psychotherapy through use of case studies and other selected materials. Prerequisite: PSYCH 100 and 311 and 362. Corequisite: PSYCH 464L or permission of instructor. (F)

PSYCH 464L Systems of Counseling & Psycho-therapy Lab 1(0-2)
Systems of Counseling & Psycho-therapy Lab. Prerequisite: PSYCH 100 and 311 and 362. Corequisite: PSYCH 464. (F)

PSYCH 465 Behavior Modification 3(3-0)
Advanced methods and techniques of behavior modification as practiced in various agencies and institutions. Prerequisite: PSYCH 100 and junior or senior standing. (*)

PSYCH 471 Clinical Psychology 3(3-0)
Survey of clinical psychology as a profession. Training requirements, opportunities, future directions, current research and ethical problems. Prerequisite: PSYCH 100 and 362 and junior or senior standing. (F)

PSYCH 475 Group Process 3(3-0)
Study and practice of basic group theory and approaches as they are applied in mental health. Basic group therapeutic techniques and procedures will be demonstrated in an experiential setting. Prerequisite: PSYCH 100 and 311 and 362 and, 464 and 464L and junior or senior standing. (S)

PSYCH 491 Special Topics 1-3 V
Special Topics. Prerequisite: Permission of instructor. (*) Repeatable (99).
**Reading (RDG)**

**RDG 99 Developmental Reading Skills 3(3-0)**
Students will apply strategies for improving comprehension, developing vocabulary, and increasing rate for reading college textbooks. (F, S)

**RDG 310 Current Approaches to Reading and Writing Instruction 3(3-0)**
Various approaches to teaching reading and writing including research findings and classroom application of the reading and writing process. Prerequisite: RDG 410 or 435. (F, S)

**RDG 360 Practicum 1(3 V)**
Work with small groups and individual pupils in the public school preparing materials and lessons under the supervision of a reading teacher. Applies to both elementary and secondary schools depending upon the instructor's assignment. Prerequisite: RDG 410 or 435. (F, S)

**RDG 410 Teaching Reading 3(3-0)**
Includes reading instruction, emphasizing methods and assessment strategies to meet K-6 Colorado content standards; 30 hours of field experience. Prerequisite: Admission to Education. (F, S)

**RDG 411 Teaching Elementary Language Arts 2(2-0)**
Focusses on language arts instruction for K-6 students; 30 hrs. field work required. Prerequisite: Admission to Education. (F, S)

**RDG 431 Developing Creative Centers 1(1-0)**
Involves planning, developing and implementing the use of learning centers in the classroom. Prerequisite: RDG 410 or 435. (S)

**RDG 435 Content Area Literacy 4(3-2)**
Focuses on skills and strategies to improve comprehension of textual material as well as writing in various content areas; 60 hours of field experience. Prerequisite: Admission to Education. (F, S)

**RDG 436 New Directions in Reading Comprehension 2(2-0)**
Exploration of and simulations of research-based strategies to increase students’ comprehension of reading in elementary and secondary classes. Prerequisite: RDG 410 or 435. (F, SS)

**RDG 437 Newspapers as a Teaching Resource 1(1-0)**
Strategies and procedures for using the newspaper as a supplementary resource in content area classrooms at all grade levels (K-12). (SS)

**RDG 442 Reading Across Cultures 2(2-0)**
Techniques of adapting reading instruction for the linguistically and culturally different child. Problems of many minority groups are analyzed. Prerequisite: RDG 410 or 435. (S)

**RDG 450 Diagnosis and Remediation of Reading Problems 3(2-3)**
Diagnostic and evaluation procedures used in detecting and remediating problems and individualized instruction. Appropriate for elementary and secondary teachers. Field experience required. Admission to teacher program required. Prerequisite: RDG 410 or RDG 435. (F, S)

**RDG 491 Special Topics 1(2 V)**
Special Topics. (*)

**RDG 495 Independent Study 1(2 V)**
Individual projects and problem-solving experiences designed to meet students' special needs. With instructor's permission, certain program requirements may be completed through independent study. (*)

**RDG 510 Foundations of Reading Instruction 3(3-0)**
Basic course for other graduate reading courses, including reading skills, sequence, materials, psychology of reading and relationship to other language arts. Prerequisite: Admission to Teacher Education or Teacher in Residence Program, or MEd Program. (*)

**RDG 511 Teaching Elementary Language Arts 2(2-0)**
Focusses on language arts instruction for K-6 students; 30 hrs. field work required. Prerequisite: Admission to Teacher Education or Teacher in Residence Program, or MEd Program. (F, S)

**RDG 531 Developing Creative Center 1(1-0)**
Students will investigate various types of learning centers and means of successful implementation in the classroom. Development of materials, lesson plans and record-keeping systems which will result in a complete reading center. Investigation into research on effectiveness of learning centers. Prerequisite: Graduate standing. (SS)

**RDG 535 Content Area Literacy 3(3-0)**
Focuses on skills and strategies to improve comprehension of textual material as well as writing in various content areas. Prerequisite: Admission to Teacher Education or Teacher in Residence Program or MEd Program. (*)

**RDG 536 New Direction in Reading Comprehension 2(2-0)**
Current research-based theory and practical classroom strategies and procedures for increasing comprehension of reading in elementary and secondary content area. Emphasis on open-ended, higher-order thinking skills. Prerequisite: Graduate standing. (*)

**RDG 537 Newspapers as a Teaching Resource 1(1-0)**
Strategies and procedures for using the newspaper as a supplementary resource in content area classrooms at all grade levels (K-12). Prerequisite: Graduate standing. (SS)

**RDG 542 Reading Across Cultures 2(2-0)**
Techniques of adapting reading instruction for the linguistically and culturally different child. Prerequisite: Graduate standing. (*)

**RDG 550 Diagnosis and Remediation of Reading Problems 3(2-3)**
Formal and informal diagnostic procedures for the classroom teacher including standardized testing, informal inventories, close, criterion-referenced testing and Reading Miscue Inventory. Prescriptions based on diagnosis; remediation strategies applied by students. Prerequisite: Admission to Teacher Education or Teacher in Residence Program or M.Ed. Program and one of the following RDG courses: 410 or 510 or 435 or 535. (*)
RDG 552 Psycholinguistic Views of Reading: Process to Pracatice 2(1-3)
Introduction to psycholinguistic perspectives through analysis of oral reading errors. Reading Miscue Manual as an instrument for investigating reader’s strengths and weaknesses. Strategies for remediating poor quality miscues. Prerequisite: Admission to Teacher Education or Teacher in Residence Program, or M.Ed. Program and one of the following RDG courses: 410 or 510 or 435 or 535. (*)

RDG 560 Practicum 2(0-6)
Work with small groups and individual pupils in the public school preparing materials and lessons under the supervision of a reading teacher. Applied to both elementary and secondary schools depending on the instructor’s assignment. Prerequisite: RDG 410 or 435, and graduate standing. (*)

RDG 591 Special Topics 1-2 V
Special Topics. Prerequisite: Graduate standing. (*)

RDG 595 Independent Study 1(0-2)
Independent Study. Prerequisite: Graduate standing. (*)

Recreation (REC)

REC 100L Wilderness Technical Skills 1(0-2)
Introduction to wilderness skills paramount for outdoor leadership competence. Students will learn and demonstrate technical skills. (F)

REC 102 Mountain Orientation 2(1-2)
An intensive one-week field experience in the Colorado mountains. Clothing and equipment selection, nutrition and rations planning, back country conservation and sanitation, navigation, and trail techniques. (*)

REC 103 Winter Orientation 2(1-2)
An intensive one-week ski tour experience in the Colorado mountains. Group dynamics, leadership, and expedition behavior. Travels hut to hut with some winter camping. (*)

REC 104 Desert Orientation 2(1-2)
An intensive one-week desert camping and backpacking experience, accompanied by nine lectures in preparation for the trip. Natural and cultural history, desert conservation, group dynamics. (*)

REC 105 Canyon Orientation 2(1-2)
Students will develop proficiency in canyon travel, group camping, and will explore the geology, geography, and ecology of the canyon country. (*)

REC 112L Rock Climbing 1(0-2)
An introduction to the basic understanding of rock climbing, equipment, Leave No Trace environmental ethics and rock climbing as an outdoor recreational activity. (S)

REC 113L Whitewater Boating 1(0-2)
Introduction class in which the following skills are taught: basic strokes, Eskimo rolling, how to read water, and clothing requirements. The class will include lecture, pool and river trip sessions. (*)

REC 114L Basic Mountaineering Techniques 1(0-2)
Students will learn necessary information and techniques including clothing, equipment, physical conditioning, stewardship, access, knot tying, and will participate in an incline climb. Prerequisite: REC 100L. (F)

REC 116L Camping 1(0-2)
A basic camping class designed to teach the fundamentals of self-sufficient tent camping. Emphasizes clothing, equipment selection, nutrition, and Leave No Trace guidelines. (*)

REC 117L Backpacking 1(0-2)
An introduction course to instruct the basics of traveling in the backcountry with everything one needs in their backpack. Clothing, equipment, orienteering, first aid, route and campsite selection will be emphasized during the trips that are required for this class. (F)

REC 118L Fly Fishing 1(0-2)
An introduction to the basic concepts of fly-fishing. This course includes classroom sessions and field experiences that promote the development and application of practical skills. (*)

REC 120L Introduction to Search and Rescue 1(0-2)
This course is an introduction to Search and Rescue. Topics include; Incident command systems, search philosophy, strategy, tactics, lost person behavior, equipment, travel and navigation. (*)

REC 240 Recreation Program Design 3(3-0)
Rationale supporting and methods of conducting recreation programs in a wide variety of public, private, voluntary and commercial recreation agencies. (F)

REC 249 Challenge Course Leadership 2(2-0)
This course is designed to teach knowledge, skills, and methods necessary to facilitate challenge course programs in a variety of settings for specific client groups. (F, S)

REC 250 Commercial Recreation and Tourism 3(3-0)
Designing for-profit recreation programs and facilities that are linked to tourism. Practical approach to programming in a commercial setting. (F)

REC 270 Outdoor Leadership I 2(1-2)
An introduction to the concepts of outdoor leadership including a field experience focused on the application of theoretical and practical concepts. Additional costs apply. Prerequisite: Pre or Corequisite: REC 100L. (F)

REC 280 Foundations of Therapeutic Recreation 3(3-0)
Prescribed recreational activities as clinical treatment modality for impaired clients. Services for developmentally delayed, law offenders, psychologically impaired, sensory impaired, physically disabled, disadvantaged or aging. (F)

REC 291 Special Topics 1-5 V
Undergraduate level of study designed to increase understanding in areas not covered by the department. (*) Repeatable (99).

REC 322 Wilderness First Aid 2(2-0)
Course teaches theory, knowledge, and skills needed for basic medical treatment and evacuation in the wilderness. Involves 3 days of medical training, scenarios and testing. (F)

REC 350 Leadership and Ethics 3(3-0)
Addresses leadership techniques and styles, leadership theory, group dynamics, and ethical considerations in recreation. Prerequisite: EXHP 101 and junior or senior level standing or permission of instructor. (S)

REC 360 Outdoor Education 3(3-0)
Concepts and methods of outdoor education and interpretation. Students learn to teach outdoor living skills and natural history using experiential methods in an outdoor setting. Prerequisite: EXHP 101 and junior or senior level standing or permission of instructor. (F)

REC 370 Outdoor Leadership II 2(1-2)
A practical application of the concepts and theory introduced in REC 270. Students will be required to plan and lead REC 104. Prerequisite: REC 104 and REC 240 and REC 270. (S)
REC 375 Research and Evaluation of Recreation 3(3-0)
Provides an overview of research designs and methodologies using recreation participation data, for needs assessment and program evaluation. Prerequisite: MATH 109 equivalent or higher and EXHP 101 or permission of instructor. (F)

REC 381 Environmental Interpretation 3(3-0)
History, philosophy, and techniques of interpreting our natural and cultural heritage to visitors in natural resource-based parks. Addresses public, private, and non-profit agencies. (*/F)

REC 388 Outdoor Leadership Practicum (1-3 V)
Involves selected practical experiential opportunities in outdoor leadership. Minimum of 50 contact hours per credit hour. Prerequisite: REC 270 and REC 370. (F, S, SS) Repeatable (3).

REC 389 Community/Commercial Rec Practicum 3(0-3)
Minimum of 150 hours of practical experience in a selected recreation agency. Prerequisite: REC 280 and REC 360. (F, S, SS)

REC 483 Sustainable Practices 3(3-0)
Sustainable, long-term strategies for ecological survival and environmental stabilization, discussed from the perspectives of ethics, economics, and political processes. Includes community research and service projects. Prerequisite: BIOL 121 and 121L. (*/F)

REC 484 Outdoor Resources and Management 2(2-0)
Examination of the outdoor recreation experience, the organization of resource-based recreation management and key outdoor recreation policy issues. Prerequisite: EXHP 101 and junior or senior standing or permission of instructor. (S)

REC 485 Recreation Facility Design/Management 3(3-0)
Presentation of basic elements of design and management of recreational facilities, taking into account the interaction between natural resources and man-made structures. Prerequisite: EXHP 101 and junior or senior level standing or permission of instructor. (F)

REC 489 Internship in Therapeutic Rec 12(0-36)
Supervised experience with approved professionals in select therapeutic recreation settings. Assures the normal responsibilities as an entry-level professional in therapeutic recreation. Prerequisite: Senior standing and completion of all degree requirements and 2.5 GPA in major and internship coordinator approval. (F, S, SS)

REC 491 Special Topics 1-5 V
Special Topics. (*/F) Repeatable (99).

REC 493 Seminar 2(2-0)
Advanced in-depth examinations of contemporary issues in leisure/recreation. Includes student-led discussions, in-depth term projects and comprehensive examinations. Interview and resume’ preparation are emphasized. Prerequisite: REC 388 or REC 389. (S)

REC 494 Field Experience 1-4 V
Learning experience to be conducted in an actual recreation environment facilitated by an on-site supervisor and an EXHPHR supervisor. Prerequisite: Approval of the field experience coordinator. (*/S) Repeatable (99).

REC 495 Independent Study 1-5 V
Independent Study. (*/F) Repeatable (99).

REC 498 Internship 1-12 V
Supervised experience with approved professionals in select recreation settings. Prerequisite: Senior standing and completion of all other degree requirements and 2.50 GPA in the major and internship coordinator approval. (F, S, SS)

REC 550 Leadership and Ethics 3(3-0)
Advanced study of leadership techniques and styles, leadership theory, group dynamics, and ethical considerations in recreation. Prerequisite: Graduate standing or permission of instructor. (S)

REC 560 Outdoor Education 3(3-0)
Advanced study of the concepts and methods of outdoor education and ethics. Students will assess outdoor living skills and ecological concepts using experiential methods. Prerequisite: Graduate standing or instructor permission. (F)

REC 569 Outdoor Leadership I 2(1-2)
Concepts of outdoor leadership including field experience focused on the application of theoretical and practical ideas and research. (F)

REC 570 Outdoor Leadership II 2(1-2)
Advanced practicum in outdoor leadership. Includes responsibilities in trip planning, management, evaluation, group facilitation and processing, and natural resource agency relations. Prerequisite: REC 569 and graduate standing or permission from the instructor. (S)

REC 584 Outdoor Resources and Management 3(3-0)
Advanced study of the outdoor recreation experience, the organization of resource-based recreation management and key outdoor recreation policy issues. Prerequisite: Graduate standing or permission of instructor. (S)

REC 591 Special Topics 1-5 V
Graduate level of study designed to increase understanding in areas not covered by the department. (*/F) Repeatable (99).

REC 594 Field Experience 1-6 V
Graduate level field experience project completed in coordination with a faculty member. Prerequisite: Faculty permission. (F, S, SS) Repeatable (6).

REC 595 Independent Study 1-6 V
Graduate level independent study completed in coordination with a faculty member. Prerequisite: Faculty permission. (F, S, SS) Repeatable (99).

Science (SCI)

SCI 500 Workshop 1-4 V
Science workshops designed specifically for professional development of science teachers. Workshops are subtitled and no subtitle may be repeated for credit (not for MSANS credit). Prerequisite: Graduate standing or permission of instructor. (*/F) Repeatable (99).

Social Science (SOCSC)

SOCSC 151 Society and Technology 3(3-0)
Role of technology as a prime factor in changing social and political institutions. Addresses technology as the systematic application of organized knowledge and material tools to the extension of human faculties. (*/F)

SOCSC 201 Introduction to Social Science 3(3-0)
Examines the different disciplines that make up the social sciences with particular emphasis on their interrelationships. Study of source materials as well as methods employed. (*/F)

SOCSC 209 African American Studies 3(3-0)
Overview of the historical, political, and socio-cultural experiences of African Americans. (*/F) (Gen Ed: SS) (CC)
SOCSC 301 Social Science Methods 3(3-0)
Examines the logic of research and major research methods used in the social sciences; explores their links to theory and their application in research projects. (*)

SOCSC 493 Seminar 3(3-0)
In-depth study of special topics in the social sciences. Emphasis on critical inquiry and holistic understanding of stability, change, and challenges within a global context. (*) Repeatable (99).

SOCSC 591 Special Topics 2(2-0)
Topics identified by subtitles taught. Prerequisite: Graduate standing. (*) Repeatable (99).

SOCSC 593 Seminar 2(2-0)
Various problems within the realm of social science, utilizing an integrated approach. For majors in broad area social science disciplines. Prerequisite: Graduate standing. (*) Repeatable (99).

**Social Work (SW)**

**SW 100 Introduction to Social Work 3(3-0)**
Introduction to the history and philosophy of the social work profession including the knowledge, values, ethics, roles and skills inherent in social work practice. (F, S)

**SW 201 Human Behavior and Social Environment I 3(3-0)**
Focus on the person in environment throughout the life span with an examination of the relationship between biological, psychological, social, spiritual and cultural systems. Corequisite: SW 100 and SOC 101, and/or PSYCH 100. (F)

**SW 202 Human Behavior and Social Environment II 3(3-0)**
Focus on the person in environment throughout the lifespan with an examination of the impact of larger social systems, including family, groups, communities and organizations. Corequisite: SW 201. (S)

**SW 205 Social Welfare in the United States 3(3-0)**
Examines the historical development of social work in the United States social welfare system. Critical thinking techniques will be used to analyze policy. (F, S) (Gen Ed: SS, GT-SS1)

**SW 210 Statistics for Social Worker 3(3-0)**
Introduction to qualitative and quantitative data analysis. Emphasis on descriptive and inferential statistics most utilized in evidence-based social work practice and research. (F, S)

**SW 222 Introduction to Community Practice 3(2-2)**
Application of the foundation of generalist practice skills. Requires 45 clock hours of volunteer work in an approved human service agency. (F, S)

**SW 225 Social Work Policies and Procedures 1(1-0)**
Provides fundamental knowledge for social work majors. Includes ethics, handbook, and standards. Corequisite: SW 100 and SW 201 and SW 202 and SW 205 and/or SW 222. (F, S, *)

**SW 230 (CS 230) Chicano: Social and Psychological Study 3(3-0)**
Social and psychological forces present in the Chicano community. (F) (Gen Ed: SS, GT-SS3) (CC)

**SW 290 Special Projects 1-5 V**
Special Projects. Prerequisite: Permission of instructor. (*) Repeatable (99).

**SW 301 Professional Writing in Social Work 3(3-0)**
Ethical and professional documentation for case records and publication in social work practice. Emphasis on current documentation practices and APA writing. Prerequisite: Acceptance into the Social Work Program. (F)

**SW 310 Social Work Theory 3(3-0)**
A comparative approach to explanatory and practice theories relating to social work and the helping professions. Prerequisite: Acceptance into the Social Work Program. (F)

**SW 320 Human Diversity in Practice 3(3-0)**
Critically examines the history, culture, strengths and barriers in social work practice with diverse groups. Identifies skills required for culturally competent practice with populations-at-risk. Prerequisite: Acceptance into the Social Work Program. Corequisite: CS 101 or SW/CS 230, and/or a Women's Studies course. (S)

**SW 322 Social Work Intervention I 3(3-0)**
Elements of generalist micro social work practice and theory. Skill development in assessment, intervention, and evaluation emphasized. Prerequisite: Acceptance into the Social Work Program. (F)

**SW 323 Social Work Intervention II 3(3-0)**
Generalist mezzo social work practice focusing on small groups and families. Includes assessment, intervention, evaluation, and practice theory. Prerequisite: Acceptance into the Social Work Program. (S)

**SW 324 Social Work Intervention III 3(3-0)**
Social work theories and interventions at the macro level; community and organization generalist practice. Prerequisite: Acceptance into the Social Work Program. (S)

**SW 325 (CS 325) Health in the Chicano Community 3(3-0)**
Health care traditions and current health care systems in the barrio. (S)

**SW 326 SW Practice with Older Adults 3(3-0)**
The biological, psychological, social, cultural and spiritual aspects of aging and the services affecting them. Prerequisite: Junior standing or consent from instructor. (*)

**SW 327 Child Welfare 3(3-0)**
The physical, behavioral, emotional signs of child abuse and neglect; laws designed to protect children, and services available to assist them. Prerequisite: Junior standing or consent of instructor. (*)

**SW 328 Spirituality and Social Work 3(3-0)**
Focus on spirituality as "making meaning" and its influence on the personal and professional aspects of social work education and practice. Prerequisite: None (S)

**SW 329 Rural Social Work 3(3-0)**
Examines rural practice, recognizing the integral values of this environment, with an ecological emphasis on clients and their connections in micro, mezzo, and macro systems. Required for IV-E stipend students. Prerequisite: Acceptance into the social work program. (S)

**SW 340 Reintegration for Military Families 3(3-0)**
Critically examines the history, culture, strengths, and barriers in social work practice with clients who have served in the military and their family members. Prerequisite: SW 100. (F)

**SW 341 Impact of Trauma in Social Work 3(3-0)**
Focus on the dimensions of "trauma," formulating client assessments based on research, and evaluating impact of trauma/secondary effects on oneself as a professional helper. Required for IV-E Stipend students. Prerequisite: none (S)

**SW 350 Social Welfare Policy 3(3-0)**
Theory and social work practice related to social policy, problem identification, policy formation, implementation, evaluation and analysis. Development of critical thinking skills for policy analysis. Prerequisite: Acceptance into the Social Work Program. Corequisite: Any ECON or POLSC course. (S)
SW 481 Field Seminar I 3(3-0)
Capstone course which integrates knowledge, values, skills, and theory with micro, mezzo, macro generalist social work practice with diverse populations in various agency settings. Prerequisite: Acceptance into the Social Work Program and field practicum. Corequisite: SW 488. (F)

SW 482 Field Seminar II 3(3-0)
Capstone course which integrates knowledge, values, skills, and theory with micro, mezzo, macro generalist social work practice with diverse populations in various agency settings. Prerequisite: SW 481 and SW 488. Corequisite: SW 489. (S)

SW 488 Field Placement I 5(0-16)
Sixteen clock hours per week Fall, 32 per week Spring or Summer I Block for 224 hours in approved agency supervised by professional social worker. Prerequisite: Acceptance into the Social Work Program and field practicum. Corequisite: SW 481. (F)

SW 489 Field Placement II 5(0-16)
Sixteen clock hours per week Spring, 32 per week Spring or Summer II Block for 224 hours in approved agency supervised by professional social worker. Prerequisite: SW 481 and SW 488. Corequisite: SW 482. (S)

SW 490 Special Projects 1-5 V
Special Projects. Prerequisite: Social work major, prior written permission of instructor of record. (*) Repeatable (99).

SW 491 Special Topics 1-3 V
Special Topics. (*) Repeatable (99).

SW 492 Research 3(3-0)
Theory and application of continuing social work research designs and methodologies (qualitative and quantitative) utilizing single subject design, needs assessment, and program evaluation. Prerequisite: Acceptance into the Social Work Program. Corequisite: SW 210 or MATH 156 or equivalent statistics course. (F, S)

SW 495 Independent Study 1-3 V
Independent Study. Prerequisite: Permission of instructor. (*) Repeatable (99).

SW 499 Senior Capstone 3(0-9)
This course is the required 3-credit culminating project. Prerequisite: SW 481 and SW 488. Corequisite: SW 482 and SW 489. (S)

SW 501 Holistic Human Behavior 3(3-0)
Understanding human behavior in the environment. Includes assessment models with emphasis on systems theory and developmental theories. Prerequisite: Admission to the MSW Foundation program. (F)

SW 502 Social Work Ethics 3(3-0)
Utilizes the NASW Code of Ethics and ethical decision-making models for ethical practice. Prerequisite: Admission to the MSW Foundation program. (F)

SW 520 Diversity in the Human Experience 3(3-0)
Explores diversity of humans and effects in social work practice. Prerequisite: Admission to the MSW Foundation program. (F)

SW 522 Intervention with Individuals 3(3-0)
Examines the theories and modalities of assessing and intervening with individuals. Prerequisite: Admission to the MSW Foundation program and SW 500 and SW 501 and SW 550, and SW 520. Corequisite: SW 523 and SW 581, and SW 588. (S)

SW 523 Intervention with Families/Groups 3(3-0)
Examines the theories and modalities of assessing and intervening with families and small groups. Prerequisite: Admission to the MSW Foundation program and SW 500 and SW 501 and SW 550, and SW 520. Corequisite: SW 522 and SW 581, and SW 588. (S)

SW 524 Intervention with Agency-Community 3(3-0)
Examines the theories and modalities of assessing and intervening with organizations and communities. Prerequisite: Admission to the MSW Foundation program and SW 522 and SW 523 and SW 581, and SW 588. Corequisite: SW 592 and SW 582, and SW 589. (SS)

SW 550 Social Welfare Policy & Practice 3(3-0)
Studies the history and development of social welfare in the United States Prerequisite: Admission to the MSW Foundation program. (F)

SW 581 Seminar I 1(1-0)
Integrative seminar addressing professional social work practice issues concurrent with Practicum I. Prerequisite: Admission to the MSW Foundation program and admission to field placement and SW 500 and SW 501 and SW 550, and SW 520. Corequisite: SW 522 and SW 523, and SW 588. (S)

SW 582 Seminar II 1(1-0)
Integrative seminar addressing professional social work practice issues concurrent with Practicum II Prerequisite: Admission to the MSW Foundation program and field placement and SW 581 and SW 588. Corequisite: SW 524 and SW 592, and SW 589. (SS)

SW 587 Foundations of Research 3(3-0)
Examines both quantitative and qualitative research methods for social work. Includes single subject design, experiments, and quasi-experiments. Prerequisite: Admission to the MSW Foundation program and SW 522 and SW 523 and SW 581, and SW 588. Corequisite: SW 524 and SW 582, and SW 589. (SS)

SW 588 Practicum I 4(0-14)
Placement in approved practice setting under MSW supervision for 224 clock hours. Prerequisite: Admission to the MSW Foundation program and admission to field placement and SW 500 and SW 501 and SW 550, and SW 520. Corequisite: SW 522 and SW 523, and SW 581. (S)

SW 589 Practicum II 4(0-14)
Placement in approved practice setting under MSW supervision for 216 clock hours. Prerequisite: Admission to the MSW Foundation program and field placement and SW 581 and SW 588. Corequisite: SW 524 and SW 592, and SW 582. (SS)

SW 622 Assess/Intervene with Individuals 3(3-0)
Assessment theories and therapeutic interventions in clinical practice with individuals; includes DSM. Prerequisite: Admission to the MSW Advanced Standing/Concentration program. Corequisite: SW 625 and SW 641 and SW 681 and SW 688. (F)

SW 623 Assess/Intervene Small Groups 3(3-0)
Assessment theories and interventions for clinical practice with small groups; includes DSM. Prerequisite: Admission to the MSW Advanced Standing/Concentration program and SW 622 and SW 625 and SW 641 and SW 681, and SW 688. Corequisite: SW 624 and SW 692 and SW 682 and SW 689. (S)

SW 624 Assess/Intervene Agency/Community 3(3-0)
Theories and models of assessment and intervention in macro environments. Prerequisite: Admission to the MSW Advanced Standing/Concentration program; and SW 622, SW 625, SW 641, SW 681, and SW 688. (S)

SW 625 Assess/Intervene with Child/Family 3(3-0)
Theories and models of assessment and intervention with children and families. Includes the DSM. Prerequisite: Admission to the MSW Advanced Standing/Concentration program. Corequisite: SW 622 and SW 641 and SW 681 and SW 688. (F)
SW 641 Understanding Trauma in Practice 3(3-0)
Examines the effects of trauma on clients and practitioners. Includes self-care. Prerequisite: Admission to the MSW Advanced Standing/Concentration program. Corequisite: SW 622 and SW 625 and SW 691 and SW 688. (F)

SW 642 Administration and Supervision 3(3-0)
Covers management models, budgeting, administrative functions and models of clinical and nonclinical supervision. Prerequisite: Admission to the MSW Advanced Standing/Concentration program; and SW 623 and SW 624 and SW 692 and SW 682, and SW 689. Corequisite: SW 650 and SW 693, and SW 699. (SS)

SW 650 Advanced Policy in a Diverse World 3(3-0)
Examines national and international social and public policies. Includes policy analysis and practice. Prerequisite: Admission to the MSW Advanced Standing/Concentration program and SW 623 and SW 624 and SW 692 and SW 682, and SW 689. Corequisite: SW 642 and SW 693, and SW 699. (SS)

SW 681 Seminar III 1(1-0)
Integrative seminar addressing professional social work practice issues concurrent with Practicum III. Prerequisite: Admission to the MSW Advanced Standing/Concentration program. Corequisite: SW 622 and SW 625 and SW 641, and SW 688. (F)

SW 682 Seminar IV 1(1-0)
Integrative seminar addressing professional social work practice issues concurrent with Practicum IV. Prerequisite: Admission to the MSW Advanced Standing/Concentration program and field placement and SW 622 and SW 625 and SW 641 and SW 681, and SW 688. Corequisite: SW 623 and SW 624 and SW 692 and SW 689. (S)

SW 685 Research I 3(3-0)
Covers single subject design and practice evaluation. Prerequisite: Admission to the MSW Advanced Standing/Concentration program and SW 622 and SW 625 and SW 641 and SW 681, and SW 688. (S)

SW 686 Research II 3(3-0)
Covers program evaluation. Includes a module on grants. Prerequisite: Admission to the MSW Advanced Standing/Concentration program and SW 623 and SW 624 and SW 692 and SW 682, and SW 689. Corequisite: SW 642 and SW 650, and SW 699. (S)

SW 687 Culminating Project 1(0-4)
Present poster of completed integrated, action research project in public setting. Prerequisite: Admission to the MSW Advanced Standing/Concentration program and SW 623 and SW 624 and SW 692 and SW 682, and SW 689. Corequisite: SW 642 and SW 650, and SW 693. (SS)

SW 688 Practicum III 4(0-26)
Placement in approved practice setting under MSW supervision for 320 clock hours. Prerequisite: Admission to the MSW Advanced Standing/Concentration program. Corequisite: SW 622 and SW 625 and SW 641, and SW 681. (F)

SW 689 Practicum IV 4(0-26)
Placement in approved practice setting under MSW supervision for 320 clock hours. Prerequisite: Admission to the MSW Advanced Standing/Concentration program and field placement and SW 622 and SW 625 and SW 641 and SW 681, and SW 688. Corequisite: SW 623 and SW 624 and SW 692 and SW 682. (S)

Sociology (SOC)

SOC 101 Introduction to Sociology 3(3-0)
The scientific study of patterns and processes of human social relations. (*) (Gen Ed: SS, GT-SS3)

SOC 105 (ANTHR 105, PSYC 105, WS 105) Understanding Human Diversity 3(3-0)
Americans live in a complex and diverse society. This course examines the nature, impact and strategies for dealing with diversity in personal and social contexts. (*)

SOC 201 Social Problems 3(3-0)
Sociological perspectives applied to an understanding of global and domestic social problem, including the environment, corporate control, economic and political inequalities, health care, and crime. (*) (Gen Ed: SS, GT-SS3)

SOC 203 (CRIM 203) The Criminal Justice System 3(3-0)
This course examines origin, nature, and utilization of criminal law; policing, court adjudication and sentencing; jails and prisons; community based corrections; criminal justice policy. (*)

SOC 205 (CRIM 205) Research Methods 3(3-0)
Introduces methods of research and investigation in sociology, criminology, and the social sciences. Prerequisite: SOC 101 or CRIM 101. (F, S)

SOC 231 (PSYC 231, WS 231) Marriage and Family Relationships 3(3-0)
Marriage and family from an institutional and relationship perspective; cross-cultural diversity, mate selection, marital dynamics, parenting, divorce, remarriage, emerging patterns. (*) (Gen Ed: SS)

SOC 248 Environmental Sociology 3(3-0)
We will use our sociological imaginations to explore the often puzzling relationships that humans all over the globe have developed with their environment. (*)

SOC 261 (CRIM 261) Cannabis and Society 3(3-0)
The purpose of this course is to explore the complicated relationship between cannabis and society. The past, present and future of cannabis will be discussed. Examination of how cannabis has sparked various social changes. (*)

SOC 291 Special Topics 1-3 V
Special Topics. (*) Repeatable (99).

SOC 302 Collective Behavior and Social Movements 3(3-0)
An analysis of elementary forms of spontaneous and unstructured behavior (panics, rumors), and complex forms of more structured group phenomena (riots, social movements.) Prerequisite: SOC 101 (S)

SOC 303 (CRIM 303) Crime and Deviance 3(3-0)
The nature and causes of crime as well as of behavior defined as socially deviant, including violent, corporate, political crimes; sexual, cultural, political deviance. Prerequisite: SOC 101 or SOC 203 or CRIM 101 or CRIM 203. (*)

SOC 304 (CRIM 304) Race and Crime 3(3-0)
Explores historical and contemporary intersecting issues of race and crime in the United States. Theoretical grounding and factual information provide the foundation for the course. Prerequisite: SOC 101 or SOC 155 or CRIM 101. (*)
SOC 305 (WS 305, CRIM 305) Women and Crime 3(3-0)
Explores historical and contemporary intersecting issues of sex, gender, and crime in the United States, focusing on girls' and women's experiences as crime victims, offenders, and workers in the criminal justice system. Prerequisite: ANTHR 100 or CRIM 101 or SOC 101 or WS 100. (*)

SOC 306 (CRIM 306) Delinquency and Juvenile Justice 3(3-0)
Theory and history of delinquency; relationship to family, peer groups, schools, gangs, drugs, young offenders legislation, juvenile courts and police response, youth corrections. (*)

SOC 308 Popular Culture 3(3-0)
Advertising, television, music, novels, and the news are among the topics to be investigated for their social significance. (*)

SOC 310 Social and Cultural Theory 3(3-0)
Examine from classical to contemporary theory in sociology and anthropology. Prerequisite: SOC 101 or ANTHR 100. (*)

SOC 314 (ANTHR 314) Religion, Culture and Society 3(3-0)
Cross-cultural concepts and practices of the supernatural are studied. A holistic analysis to the role of religion in cultures and society. Prerequisite: ANTHR 100 or SOC 101. (*)

SOC 315 (ANTHR 315) Health, Culture and Society 3(3-0)
Cross-cultural concepts and approaches to health are studied. A holistic analysis of medicine in a cultural system as opposed to a biological one. Prerequisite: ANTHR 100 or SOC 101. (*)

SOC 316 (ANTHR 316) Age, Culture and Society 3(3-0)
Cross-cultural concepts and approaches to age are studied. A holistic analysis of the life course focusing on societal and cultural perceptions. Prerequisite: ANTHR 100 or SOC 101. (*)

SOC 321 (CRIM 321, ANTHR 321) Cross-Cultural Perspective on Crime 3(3-0)
An examination of crime in non-western societies with a comparison to crime and punishment in modern American society. Prerequisite: ANTHR 100 OR SOC 101 OR CRIM 101. (*)

SOC 324 Race and Ethnic Relation 3(3-0)
Social, political and historical conditions under which segregation, racial/ethnic hierarchies and r/e conflict emerge, and the institutions through which boundaries and hierarchies are produced and reproduced in the U.S. (*)

SOC 325 (WS 325) Gender And Society 3(3-0)
Analysis of how gender as a social construct influences institutions, interaction & lived experience in a diverse society. The intersection of race, ethnicity, class & sexualities is viewed through the lens of gender & culture. Prerequisite: SOC 101 or WS 100. (*)

SOC 326 Social Stratification 3(3-0)
Inquire into inequalities of wealth, power, and the consequence for individuals and society. Prerequisite: SOC 101 or SOC 201. (*)

SOC 352 (PSYCH 352) Social Psychology 3(3-0)
General and applied psychological principles of the individual's interaction with a group. Prerequisite: PSYCH 100 or SOC 101. (*)

SOC 357 (ANTHR 357, CRIM 357) Immigration 3(3-1)
Examines migration processes, with a particular focus on immigration to the United States. Migration patterns are analyzed considering social, political, and historical context, including structural global patterns. (*)

SOC 358 Film and Society 3(3-0)
An in-depth look at the images of social life and social relationships contained in popular movies. (*)

SOC 361 (CRIM 361) Cannabis Policy 3(3-0)
The purpose of this course will be to explore the fast-evolving realm of cannabis policy, focusing primarily on the United States. (*)

SOC 374 (CRIM 374) Crime in Film 3(3-0)
Employ theoretical perspectives to better understand motivations of Hollywood criminals and the peculiar aspects of a society with an insatiable appetite for crime as "entertainment". (*)

SOC 376 (Criminology) Crime & Society in Science Fiction 3(3-0)
This course focuses on sociological understandings of crime and other social phenomena. Through science fiction literature, movies, and TV, the class explores how current social realities are reflected in science fiction. (*)

SOC 378 Rock 'n' Roll and Rebellion 3(3-0)
The course provides a social historical analysis of the development and impact of an important form of contemporary popular culture - rock 'n' roll music. (*)

SOC 404 Poverty and Inequality in the U.S. 3(3-0)
Poverty in the United States, its measurement and extent, perpetuating conditions, lifestyle and anti-poverty programs. (*)

SOC 405 (CRIM 405) Law and Society 3(3-0)
The origins and functions of law; the social organization of legal institutions and decisions; the relationship of law to morality, justice and social change. (*)

SOC 408 Science, Technology, and The Future 3(3-0)
Social and structural implications of science and technology as they affect society. (*)

SOC 418 (CRIM 418) Crime, Drugs and Social Policy 3(3-0)
This course examines the ways in which crime and drug policy is formulated, articulated, implemented, and evaluated. Prerequisite: SOC 101 or CRIM 101. (*)

SOC 426 (CRIM 426) Collective Violence and Rioting 3(3-0)
An overview of episodes of collective behavior in society focusing on racial violence and prison riots, including examination of causes, history, and control efforts. Prerequisite: SOC 101 or CRIM 101. (SS)

SOC 428 (HIST 428, WS 428) Women & Work 3(3-0)
Examines historical and contemporary issues for women of various economic, social, and ethnic groups, especially in the US; examines gender ideologies about paid, unpaid work. Prerequisite: Junior or senior standing or permission of instructor. (*)

SOC 432 Organization Theory 3(3-0)
Prevailing theoretical model of large organizations and suggested alternatives. (*)

SOC 435 The Interviewer's Craft 3(3-0)
Introduces the variety of qualitative methods used in the social sciences for conducting research studies, gathering data and interpreting and analyzing research findings with a focus on interviewing techniques. (*)

SOC 450 Soc of Mental Health and Suicide 3(3-0)
Examines the social conditions that influence mental health and suicide in the United States and the psychosocial processes that link social experiences to psychological health. Prerequisite: SOC 101 or SOC 352 or PSYCH 352. (*)

SOC 451 Culture/Deviance/Psychopathology 3(3-0)
Analysis of the relationship between culture and the causes and manifestations of deviance and psychopathology. Prerequisite: SOC 101 or ANTHR 100. (*)
SOC 452 Sociology of the Self 3(3-0)
Examination of the self and society within sociological theory. Prerequisite: SOC 101 or ANTHR 100 or SOC 352 or PSYCH 352. (*)

SOC 453 Inside-Out Prisoner Exchange 3(3-0)
Seminar occurs in a correctional facility. Students and incarcerated men or women together examine topics such as crime, justice, freedom, and inequality to learn from others’ perspectives and re-think current understanding. Prerequisite: Junior or senior standing and permission of the instructor. (F, S)

SOC 490 Special Projects 1-3 V
Projects identified by each faculty member in concert with his/her interests. Prerequisite: Sociology major and junior or senior. (*) Repeatable (99).

SOC 491 Special Topics 1-3 V
Special Topics. (*) Repeatable (99).

SOC 492 Research 1-3 V
Qualitative and quantitative methods and designs in sociological research. Prerequisite: Junior or senior standing and permission of instructor. (*)

SOC 494 Field Experience 1-12 V
Practical on-the-job experience in an agency setting. Prerequisite: Junior or senior standing and permission of instructor. (*) Repeatable (99).

SOC 495 Independent Study 1-10 V
Independent Study. Prerequisite: Previous work in sociology and permission of instructor. (*) Repeatable (99).

Spanish (SPN)

SPN 100 Intro to Conversational Spanish 3(3-0)
Basis skills for understanding and speaking Spanish. (*)

SPN 101 Beginning Spanish I 3(3-0)
Development of skills in speaking, listening, reading, writing; and cultural understanding. (F, S, SS) (Gen Ed: H) (CC)

SPN 102 Beginning Spanish II 3(3-0)
Continuation of the development of skills in speaking, listening, reading, writing, and cultural understanding. Prerequisite: SPN 101 or departmental placement test. (F, S, SS) (Gen Ed: H) (CC)

SPN 130 Intro to Spanish-Speaking Cultures 3(3-0)
Topics in the history, literatures, and art of selected Spanish-Speaking cultures, with an intro to basic Spanish. Taught in English and Spanish. (*) (Gen Ed: H, GT-AH1) (CC)

SPN 201 Intermediate Spanish I 3(3-0)
Development of intermediate-level skills in speaking, listening, reading, writing, and cultural understanding. Prerequisite: SPN 102 or departmental placement exam. (F, S) (Gen Ed: H, GT-AH4) (CC)

SPN 202 Intermediate Spanish II 3(3-0)
Continued development of intermediate-level skills in speaking, listening, reading, writing, and cultural understanding. Prerequisite: SPN 201 or departmental placement exam. (F, S) (Gen Ed: H, GT-AH4) (CC)

SPN 203 Intermediate Proficiency Building 3(3-0)
Solidification of intermediate-level skills in speaking, listening, reading, writing, and cultural understanding. Prerequisite: SPN 102 or departmental placement exam. (F, S)

SPN 287 Intensive Spanish Study Abroad 1-9 V
Study of Spanish in an immersion setting abroad, preparing the student for fluency through the study of grammar, civilization and culture, at an approved institution. Prerequisite: SPN 102 and permission of instructor. (*) Repeatable (9).

SPN 294 Field Experience 1-7 V
Continued improvement of language proficiency through experiential learning. Students participate in an immersive target-language environment at home or abroad. Prerequisite: SPN 201 and permission of instructor. (*) Repeatable (7).

SPN 301 Spanish Grammar in Context 3(3-0)
Practice of Spanish grammar in the context of writing, reading, speaking and listening. Prerequisite: SPN 202 and 203 or equivalent. (F, S)

SPN 303 Spanish Phonetics and Phonology 3(3-0)
Focus on improving linguistic proficiency through the study of the Spanish language sound system. Prerequisite: SPN 202 and 203, or equivalent. (*)

SPN 309 Intro to Hispanic Linguistics 3(3-0)
Focus on improving linguistic proficiency through the study of areas of inquiry including history of Spanish, first and second language acquisition, bilingualism, language variation, etc. Prerequisite: SPN 300 and 301. (*)

SPN 312 Conv & Comp: Mexico & Central Amer 3(3-0)
Focus on improving linguistic proficiency within the context of Mexican and Central American cultures. Prerequisite: SPN 202 and 203 or equivalent. (*)

SPN 313 Conv & Comp: South America 3(3-0)
Focus on improving linguistic proficiency within the context of South American cultures. Prerequisite: SPN 202 and 203 or equivalent. (*)

SPN 314 Conv & Comp: Caribbean 3(3-0)
Focus on improving linguistic proficiency with the context of Caribbean Hispanic cultures. Prerequisite: SPN 202 and 203 or equivalent. (*)

SPN 315 Conv & Comp: Spain 3(3-0)
Focus on improving linguistic proficiency within the context of Spanish cultures. Prerequisite: SPN 202 and 203 or equivalent. (*)

SPN 316 Conv & Comp: U.S. Latinx 3(3-0)
Focus on improving linguistic proficiency within the context of Hispanich/Latinx cultures in the United States. Prerequisite: SPN 202 and 203 or equivalent. (*)

SPN 331 Business: SPN Speaking World 3(3-0)
Focus on increasing linguistic proficiency through the study and exploration of the Hispanic business world. Prerequisite: SPN 202 and 203 or equivalent. (*)

SPN 332 Health/Wellbeing: SPN Speaking Wrld 3(3-0)
Focus on increasing linguistic proficiency through the study topics about health and wellbeing in the Spanish-speaking world. Prerequisite: SPN 202 and SPN 203 or equivalent. (*)

SPN 341 Intro to Translation/Interpretation 3(3-0)
Focus on increasing linguistic proficiency through the study and practice of translation and interpretation. Prerequisite: SPN 202 and SPN 203 or equivalent. (*)

SPN 370 Intro to Literature and Culture 3(3-0)
Focus on improving linguistic proficiency through the study of basic concepts necessary for analysis of literature, film, music, art, media, etc in the Spanish-Speaking World. Prerequisite: SPN 301 or permission of the instructor. (F, S)
SPN 387 Intensive Spanish Study Abroad (1-12 V)
Study of Spanish in an immersion setting abroad preparing the student to become fluent in the language through the study of grammar, civilization and culture. Prerequisite: SPN 202 and 203 or permission of instructor. (*) Repeatable (12).

SPN 391 Special Topics 3(3-0)
Special Topics. Prerequisite: SPN 202 and 203. (*) Repeatable (9).

SPN 394 Field Experience (1-7 V)
Continued improvement of language proficiency through experiential learning. Students participate in an immersive target-language environment at home or abroad. Prerequisite: SPN 203 and permission of instructor. (*) Repeatable (7).

SPN 412 Cultural Studies: Mexico/Central Am 3(3-0)
Focus on increasing linguistic proficiency through study of cultural products, values, and belief systems as they pertain to relationships of power in Mexico/Central America. Prerequisite: SPN 370 or equivalent. (*)

SPN 413 Cultural Studies: South America 3(3-0)
Focus on increasing linguistic proficiency through study of cultural products, values, and belief systems as they pertain to relationships of power in South America. Prerequisite: SPN 370 or equivalent. (*)

SPN 414 Cultural Studies: Caribbean 3(3-0)
Focus on increasing linguistic proficiency through study of cultural products, values, and belief systems as they pertain to relationships of power in the Spanish Caribbean. Prerequisite: SPN 370 or equivalent. (*)

SPN 415 Cultural Studies: Spain 3(3-0)
Focus on increasing linguistic proficiency through study of cultural products, values, and belief systems as they pertain to relationships of power in Spain. Prerequisite: SPN 370 or equivalent. (*)

SPN 416 Cultural Studies: U.S. Latinx 3(3-0)
Focus on increasing linguistic proficiency through study of cultural products, values, and belief systems as they pertain to relationships of power in US.A. Latinx culture. Prerequisite: SPN 370 or equivalent. (*)

SPN 417 Topics in Cultural Studies 3(3-0)
Focus on increasing linguistic proficiency through study of cultural products, values, and belief systems as they pertain to relationships of power throughout the Spanish-speaking world. Prerequisite: SPN 370 or equivalent. (*)

SPN 431 Topics in U.S. Latinx Literature 3(3-0)
Focus on increasing linguistic proficiency through study of selected works, themes, genres or periods in U.S. Latinx Literature. Taught in Spanish. Prerequisite: SPN 370 or equivalent. (*) Repeatable (6).

SPN 432 Topics in Latin American Literature 3(3-0)
Focus on increasing linguistic proficiency through study of selected works, themes, genres or periods in Latin American Literature. Prerequisite: SPN 370 or equivalent. (*) Repeatable (6).

SPN 433 Topics in Spanish Literature 3(3-0)
Focus on increasing linguistic proficiency through study of selected works, themes, genres or periods in Spanish literature. Prerequisite: SPN 370 or equivalent. (*) Repeatable (6).

SPN 434 Topics in Comparative Literature 3(3-0)
Focus on increasing linguistic proficiency through study of selected works, themes, genres or periods from the Spanish-speaking world. Prerequisite: SPN 370 or equivalent. (*) Repeatable (6).

SPN 461 The Mexican Revolution 3(3-0)
Focus on increasing linguistic proficiency through the critical study of selected texts of the Mexican Revolution and its historical context. Prerequisite: SPN 370 or permission of instructor. (*)

SPN 462 Representations of Migration 3(3-0)
Focus on increasing linguistic proficiency through the study of how migration is represented in the Spanish-speaking world through art, music, literature, film, media, etc. Prerequisite: SPN 370 or equivalent. (*)

SPN 481 Cinema of Spain 3(3-0)
Focus on increasing linguistic proficiency through the critical study of selected Spanish films and their historical context. Prerequisite: SPN 370. (*)

SPN 482 Cinema of Latin America 3(3-0)
Focus on increasing linguistic proficiency through the critical study of selected Latin American films and their historical context. Prerequisite: SPN 370. (*)

SPN 491 Special Topics 1(1-0)
Special Topics. Prerequisite: SPN 370 or permission of instructor. (*) Repeatable (99).

SPN 493 Senior Seminar 3(3-0)
In-depth analysis of specific topics, themes, authors, and works in the language literatures and cultures of the Spanish-speaking world. Prerequisite: SPN 370 or permission of instructor. (*)

SPN 494 Field Experience (1-7 V)
Continued improvement of language proficiency through experiential learning. Students participate in an immersive target-language environment at home or abroad. Prerequisite: SPN 301 or the equivalent and one of SPN 312-316 plus permission of the instructor. (F, S) Repeatable (99).

SPN 495 Independent Study (1-3 V)
Specific themes which address particular problems of literature or culture. May be repeated for credit with approval of major adviser. Prerequisite: SPN 301 or the equivalent and one of SPN 312-316 plus permission of the instructor. (F, S) Repeatable (99).

SPN 501 Spanish Grammar in Context 3(3-0)
Practice of Spanish Grammar in the context of writing, reading, speaking and listening. Prerequisite: Graduate Standing. Corequisite: NA. (*)

SPN 517 Topics in Cultural Studies 3(3-0)
Focus on increasing linguistic proficiency through study of cultural products, values, and belief systems as they pertain to relationships of power throughout the Spanish-speaking world. Prerequisite: Graduate Standing. (*)

SPN 534 Topics in Comparative Literature 3(3-0)
Focus on increasing linguistic proficiency through study of selected works, themes, genres or periods from the Spanish-speaking world. Prerequisite: Graduate Standing. (*)

SPN 591 Special Topics 1(1-0)
Prerequisite: graduate standing and permission of instructor. Prerequisite: Graduate standing and permission of instructor. (*) Repeatable (9).

University Studies (US)

US 101 Academic & Career Exploration 1(1-0)
Provides undeclared/declared students who are still deciding on their majors an opportunity to assess their abilities, interests and goals while investigating the University’s degree programs. (F)

US 151 Introduction to Academic Life 3(3-0)
To provide an opportunity for students to learn and adopt methods to be successful in college. Critical thinking, writing and time management are emphasized. (F, S)
US 255  Residence Hall Advising  1(1-0)
Will teach student development theory, history of residence life, communication skills and assertiveness training which will enhance the quality of student leaders and resident advisors. (S)

US 350  Orientation Leadership Training  3(3-0)
Course emphasis is to develop a student’s leadership and communication skills, enhance knowledge and understanding of University policies and procedures and campus resources and services. (S)

US 355  Becoming an Effective Tutor  3(2-2)
Concepts and techniques of effective tutoring, including issues such as communication, rapport, confidentiality, learning styles, disabilities, and general study skills. Limited hands-on experience required. (*)

Wildlife (WANR)

WANR 302  Principles of Wildlife Management  3(3-0)
History of conservation and natural resource use; ecological principles, and social/economic limits of conservation. Principles and practices of wildlife management. Prerequisite: BIOL 202 and 202L. (*)

WANR 303  Nat Resource Policy & Admin  3(3-0)
Principles and concepts of public land and resources policy, administrative decision making, and contemporary issues and problems. (*)

WANR 304  Human Dimensions in Nat Res Mgmt  3(3-0)
Science of incorporating human-natural resource relationships with traditional biological sciences information in decision-making processes. (*)

WANR 401  Fisheries Science  2(2-0)
Principles and concepts of studying structure and dynamics of fish populations. Topics include estimating abundance, mortality, sustainable harvest levels, appropriate regulations. Prerequisite: MATH 221 and BIOL 479 and 479L. Corequisite: WANR 401L. (*)

WANR 401L  Fisheries Science Lab  1(0-2)
Principles and concepts of studying structure and dynamics of fish populations. Topics include estimating abundance, mortality, sustainable harvest levels, appropriate regulations. Prerequisite: MATH 221 and BIOL 479 and 479L. Corequisite: WANR 401. (*)

WANR 402  Management of Endangered Species  3(3-0)
Problems and solutions of species endangerment. Political and biological aspects to endangered species. Proactive and reactive maintenance and restoration. Prerequisite: WANR 302. (*)

Women's Studies (WS)

WS 100  Introduction to Women's Studies  3(3-0)
An interdisciplinary course examining women's lives and roles through socio-economic, political, historical and biological perspectives. Introduces feminist theories and gender as a structure and process. (F, S) (Gen Ed: SS) (CC)

WS 105  ANTHR 105, PSYCH 105, WS 105  Understanding Human Diversity  3(3-0)
Americans live in a complex and diverse society. This course examines the nature, impact and strategies for dealing with diversity in personal and social contexts. (*)

WS 211  (PSYCH 211)  Women and Society  3(3-0)
Statistical overview of the current status of women, followed by examination of theories concerning equality of the sexes. (F)

WS 212  (PSYCH 212)  Psychology of Diversity  3(3-0)
To raise awareness of social inequities, promote cultural competency & appreciation of differences. (*)

WS 230  (NSG 230)  Women, Health and Society  3(3-0)
Introduction to women’s health issues and a basic understanding of how women’s health has been influenced historically, culturally and by socio-economic factors. (*)

WS 231  (PSYCH 231, SOC 231)  Marriage, Family and Relationships  3(3-0)
Marriage and family from an institutional and relationship perspective; cross-cultural diversity, mate selection, marital dynamics, parenting, divorce, remarriage, emerging patterns. (F, S, SS) (Gen Ed: SS)

WS 235  (MCCNM 235)  Women and Media  3(3-0)
The historical and cultural implications of the mass media’s portrayal of women and the extent of their media participation from colonial to contemporary times. (*)

WS 241  (ENG 241)  Women in Literature  3(3-0)
Intensive study of literature written by women, in historical, cultural, and critical contexts. Prerequisite: ENG 102. (*)

WS 291  Special Topics  (1-3 V)
Special Topics. (*) Repeatable (99).

WS 301  Theories of Intersectionality  3(3-0)
Examination of gender, sexuality, race, class, and other variables connecting theory to activism. Exploration of how multiple identities intersect to create a whole. (*)

WS 305  (SOC 305, CRIM 305)  Women and Crime  3(3-0)
Explores historical and contemporary intersecting issues of sex, gender, and crime in the United States, focusing on girls' and women's experiences as crime victims, offenders, and workers in the criminal justice system. Prerequisite: ANTHR 100 or CRIM 101 or SOC 101 or WS 100. (*)

WS 306  (CS 306)  La Chicana  3(3-0)
A social, cultural, and historical overview of the Chicana experience and contributions. (F, S)

WS 308  Global Feminisms  3(3-0)
Examination of the global dimensions of women’s organizing and policymaking, drawing on both historical and contemporary examples. Exploration of global debates regarding contemporary feminism. (*)

WS 325  (SOC 325)  Gender And Society  3(3-0)
Analysis of how gender as a social construct influences institutions, interaction & lived experience in a diverse society. The intersection of race, ethnicity, class & sexualities is viewed through the lens of gender & culture. Prerequisite: SOC 101 or WS 100. (*)

WS 330  (MCCNM 330)  Gender and Film  3(3-0)
A discussion course which examines gender roles in theatrical and documentary film while considering the perspective of producers, actors, and spectators and salient film theories. Prerequisite: Upper division standing in MCCNM or Women's Studies. (*)

WS 335  (ENG 335, COMR 335)  Gender and Communication  3(3-0)
This course examines the ways that gender affects communication behaviors and helps develop an awareness of the processes that affect gender socialization and stereotyping. (*)
WS 341 (CS 341) Chicana Writers 3(3-0)
Survey of Chicana writers from the early 1900’s to the present. Along with the literature, aspects of history, sociology and politics will be incorporated. (*)

WS 401 (CS 401) Third World Feminisms 3(3-0)
This course focuses on Third World women’s challenging views of global feminism and feminist representations of ‘other’ women. (*)

WS 407 (CRIM 407) Family Violence 3(3-0)
The extent, seriousness, and impact of major forms of family violence, including child maltreatment, dating and partner violence, stalking, and mistreatment of elders. Gender, race and social class implications are examined. (*)

WS 428 (HIST 428, SOC 428) Women & Work 3(3-0)
Examines historical and contemporary issues for women of various economic, social, and ethnic groups, especially in the US; examines gender ideologies about paid, unpaid work. Prerequisite: Junior or senior standing or permission of instructor. (*)

WS 455 (CRIM 455) Hate Crimes 3(3-0)
Examines assumptions about race, ethnicity, gender, sexuality, religion, nationality and other factors that are used to justify the bias behind hate crimes; examines social/legal definitions, causal factors & consequences. (*)

WS 485 Capstone 3(3-0)
Students will develop a project in which they will develop and execute a research assignment related to ethnicity, gender, or diversity. Prerequisite: Senior level standing and permission of the instructor. (*)

WS 490 Special Projects (1-3 V)
Allows one or more students to conceptualize, create, and complete a project relating to women’s studies, under supervision of faculty member(s) approved by WS program. Prerequisite: WS minor and junior or senior standing and approval of WS curriculum committee. (*) Repeatable (6).

WS 491 Special Topics (1-3 V)
Special Topics. Prerequisite: Junior or senior standing with adequate preparation or permission of instructor. (*) Repeatable (99).

WS 492 Research (1-3 V)
Research project selected by student and supervised by a faculty member with the approval of WS. May be repeated for a maximum of 6 credits. Prerequisite: WS minor and junior or senior standing and approval of WS curriculum committee. (*) Repeatable (6).

WS 494 Field Experience (2-6 V)
Application of the WS disciplinary framework to an off-campus volunteer work experience, under the supervision of a faculty member approved by WS. Prerequisite: WS minor and junior or senior standing and approval of WS curriculum committee. (*) Repeatable (6).

WS 495 Independent Study (1-3 V)
Independent Study. Prerequisite: Permission of instructor. (*)

WS 498 Internship (2-6 V)
Application of the WS disciplinary framework to a work experience, under the direction of the selected site and a faculty member approved by WS. Prerequisite: WS minor and junior or senior standing, and approval of WS curriculum committee. (*) Repeatable (6).

World Language (WL)

WL 100 Intro to Comparative Linguistics 3(3-0)
Basic concepts in linguistics; comparison of languages. (*) (Gen Ed: H) (CC)

WL 101 Intro to a Critical Wrld Language I 3(3-0)
Study of a world language not offered regularly. Different languages are offered when enrollment permits. (*) Repeatable (99).

WL 102 Intro to a Critical Wrld Language II 3(3-0)
Introduction to a Critical World Language II. Prerequisite: WL 101, or permission of instructor. (*) Repeatable (99).

WL 110 World Language for Travel 1(1-0)
Fundamental vocabulary for basic tourist communication. (*)

WL 291 Special Topics (1-3 V)
Special Topics. (*) Repeatable (99).

WL 294 Field Experience (1-7 V)
Continued improvement of language proficiency through experiential learning. Students participate in an immersive target-language environment at home or abroad. Prerequisite: Permission of instructor. (*) Repeatable (99).

WL 299 Field Experience (1-7 V)
Continued improvement of language proficiency through experiential learning. Students participate in an immersive target-language environment at home or abroad. Prerequisite: Permission of instructor. (*) Repeatable (99).

WL 394 Field Experience (1-7 V)
Continued improvement of language proficiency through experiential learning. Students participate in an immersive target-language environment at home or abroad. Prerequisite: Permission of instructor. (*) Repeatable (99).

WL 395 Independent Study (1-3 V)
Specific themes which address particular problems of culture or literature. May be repeated for credit with approval of major adviser. Prerequisite: Three years of college study of the language used for project. (*) Repeatable (99).

WL 591 Special Topics (1-3 V)
Special Topics. Prerequisite: Graduate standing and permission of instructor. (*) Repeatable (99).

WL 594 Field Experience (1-9 V)
Continued improvement of language proficiency through experiential learning. Students participate in an immersive target-language environment at home or abroad. Prerequisite: Graduate standing and permission of instructor. (*) Repeatable (9).

WL 595 Independent Study (1-3 V)
Independent Study. Prerequisite: Graduate standing and permission of instructor. (*) Repeatable (9).
FACULTY

Faculty (p. 428)
Lecturers (p. 431)
Artists-in-Residence (p. 432)
Emeritus (p. 432)

Faculty

A

Ahmadian, Ahmad (1985) Professor; BA, Tehran University; MBA, North Texas State University; Ph.D., North Texas State University

Alexander, Aaron (2018) Associate Professor / Department Chair

Allen, Beverly (2009) Professor / Department Chair; BA, University of Missouri-St. Louis; MA, University of Missouri-St. Louis; MSLS, University of Illinois at Urbana-Champaign

Ansaf, Bahaa (2016) Assistant Professor / BSE Director; BS, College of Engineering-Baghdad University; MS, College of Engineering-Baghdad University; Ph.D., College of Engineering-Baghdad University

Arnegard, Iver (2010) Associate Professor; BA, University of Montana; MFA, University of Alaska-Fairbanks; Ph.D., Ohio University

Aviña, Maya (1995) Professor; BA, Humboldt State University; MFA, University of California at Santa Barbara

B

Baca, Judy M. (1981) Associate Professor; BS, Colorado State University-Pueblo; MSW, Arizona State University

Bajah, Maureen (2011) Visiting Assistant Professor

Balek, Kathryn M. (2015) Assistant Professor; AA, North Iowa Area Community College; BA, University of Northern Iowa; MA, University of Missouri-Columbia

Bedoya-Valencia, Leonardo (2009) Associate Professor; BS, National University of Colombia, Mines School, Medellin; MS, National University of Colombia, Mines School, Medellin; Ph.D., Old Dominion University

Belpport, Susan (2009) Associate Professor; BSN, Colorado State University-Pueblo; MSN, Beth-El College of Nursing and Health Sciences at UCCS

Bencini, William K. (2010) Assistant Professor; AAS, John A. Logan Community College; BA, Monmouth College; MA, Northern Arizona University

Bonetti, Sandra J. (1991) Professor; BS, Georgia Institute of Technology; Ph.D., Georgia Institute of Technology

Bowen, Daniel (2014) Assistant Professor; BS, University of Tennessee; MS, University of Tennessee; Ph.D. University of Colorado-Colorado Springs

Brennan, Ian (2003) Professor; BA, University of Nottingham; MBA, University of Evansville; Ph.D., University of Texas-Arlington

Brett-Green, Barbara (2010) Associate Professor; BA, Rutgers University; MA, University of Colorado at Boulder; Ph.D., University of Colorado at Boulder

Bridgmon, Krista D. (2008) Associate Professor / Department Chair; BS, Northern Arizona University; MS, Northern Arizona University; M.Ed., Northern Arizona University; Ph.D., Northern Arizona University

Brown, Katherine (2016) Assistant Professor; BA, University of Louisville; MA, New Mexico State University; Ph.D., Arizona State University

Brown, William C. (2000) Associate Professor; BA, Wayne State University; MS, University of Colorado; Ph.D., University of Colorado

C

Caldwell, Heather (2018) Assistant Professor

Calhoun-Stuber, Susan (1994) Assistant Professor / Department Chair; BA, Knox College; MA, University of Denver; Ph.D., University of Denver

Carter, Colette (1994) Assistant Professor; BA, Incarnate Word College; MA, Catholic University; Ph.D., University of Washington

Chacon, Paul R. (1990) Professor / Department Chair; BS, University of British Columbia; Ph.D., University of Washington

Chi, Jacob (1997) Professor; BA, Siena Heights College; MA, School of Music, University of Michigan; Ph.D., Michigan State University

Cho, Joey J. (2008) Associate Professor; BCE, Chungbuk National University, Korea; MCE, Chungbuk National University, Korea; BS, Utah State University; MCS, Utah State University; Ph.D., Utah State University

Choi, Laee (2016) Assistant Professor; BS, Chungnam National University; MS, Michigan State University; Ph.D., University of Arizona

Clark, Roger (2002) Associate Professor; BS, University of Illinois; MS, University of Arizona; Ph.D., University of Pittsburgh

Coram, Cathy (2014) Assistant Professor; ADN, Otero Junior College; BSN, Colorado State University-Pueblo; MS, Colorado State University-Pueblo; Ph.D., University of Northern Colorado

Correa-Martinez, Yaneth C. (2009) Assistant Professor; BS, National University of Columbia; MS, National University of Columbia; ABD, Old Dominion University

Cowden, Kim (2016) Assistant Professor; BS, Minnesota State University Moorhead; MA, North Dakota State University; Ph.D., North Dakota State University

Cranswick, Matthew A. (2012) Associate Professor; BS, Oregon State University; Ph.D., University of Arizona

D

Dallam, George (1998) Professor; BS, University of Arizona; MS, University of Arizona; Ph.D., University of New Mexico

DePalma, Jude (1994) Professor / Department Chair; BSEE, University of Florida; MSEE, Purdue University; Ph.D., Colorado State University

DePalma, Ruth (1994) Associate Professor; BSN, John Hopkins University; MSN, University of Florida
Diawara, Moussa M. (1993) Professor / Department Chair; BS, Institute Polytechnique Rural de Katibougou, Mali, West Africa; MS, University of Georgia; Ph.D., University of Georgia

Dillon, David (1994) Assistant Professor / Department Chair; BS, East Texas State University; MS, East Texas State University; Ph.D., University of Wyoming

Drue linger, Melvin L. (1984) Professor; BS, Indiana University; Ph.D., University of Wisconsin

Duncan, Kevin C. (1994) Professor SSAB; BA, University of California at Riverside; Ph.D., University of Utah

Duong, Trung (2017) Assistant Professor

Ebersole, Samuel (1990) Professor; BA, Southern California College; MA, Regent University; Ph.D., Regent University

Edwards, Katie (2013) Visiting Assistant Professor

Espew, Douglas (2008) Associate Professor / Director of Writing; BA, University of Texas-Austin; MA, University of Texas-Austin; Ph.D., University of Texas-Austin

Farrer, Richard (2006) Associate Professor; BS, Aquinas College, Grand Rapids, Michigan; Ph.D., Boston College

Foust, Carol (2001) Professor / Department Chair; BS, University of New Mexico; MS, University of New Mexico; M.Ed., Lamar University; Ph.D., Texas A&M University

Fowler, Karen L. (2008) Professor; BS, Colorado State University-Pueblo; MBA, University of Wyoming; Ph.D., University of Nebraska-Lincoln

Frounfelker, Savra (2015) Assistant Professor; BA, Whittier College; MSW, California State University, Sacramento; Ph.D., University at Buffalo, School of Social Work

Funk-Neubauer, Darren (2007) Associate Professor; BS, University of Michigan- Dearborn; MA, University of Wisconsin-Madison; Ph.D., University of Wisconsin-Madison

Furh, Douglass (2011) Associate Professor; BA University of Texas; MA University of Nevada-Reno; Ph.D., University of Washington

Gabaldon, Annette (2004) Associate Professor; BS, New Mexico State University; Ph.D., University of California-Davis

Garcia Costas, Amaya (2018) Assistant Professor

Gaughan, Judy (2012) Associate Professor; BA, San Francisco State University; MA, University of California at Berkeley; Ph.D., University of California at Berkeley

Gilbreath, Brad (2008) Professor; BA, Baylor University; MBA, Baylor University; MS, Purdue University; Ph.D., New Mexico State University

Gomme, Ian (1995) Professor; BA, University of Waterloo; B.Ed., Queen's University; M.Ed., University of Toronto; MA, University of Guelph; Ed.D, University of Toronto

Goss, Justin R. (2013) Assistant Professor; BA, Long Beach State; MS, Montana State University; Ph.D., University of Texas at San Antonio

Grollmund, David (2017) Assistant Professor; BS, Central Michigan University; Ph.D., Central Michigan University

Gula, Joanne (2015) Assistant Professor; BA, Southern Connecticut State University; MA, Fairfield University; Ph.D., University of Massachusetts-Amherst

Hackett, Colleen (2015) Assistant Professor; Ph.D., University of Colorado, Boulder

Hansen, Richard (1993) Professor; BA, College of William and Mary; MLA, University of Colorado

Hansen, Victoria (1993) Professor; BA, College of William and Mary; MFA, Kansas State University

Harris, Matthew L. (2005) Professor; BA, Brigham Young University; MA, Brigham Young University; M.Phil., Syracuse University; Ph.D., Syracuse University

Hassan, Aun (2009) Associate Professor of Economics; BA, Punjab University, Pakistan; MA, Punjab University, Pakistan; Ph.D., Texas Tech University

Heintzelman, Jacinda (2013) Assistant Professor; BSN, Bloomsburg University of Pennsylvania; MSN, Walden University

Holman, Justin (2013) Assistant Professor; BA, Claremont McKenna College; Ph.D., University of Oregon

Hofhaus, Anne (2018) Assistant Professor

Hopkins Bowers, Heather (2016) Visiting Lecturer; BA, Kean University-Union; MA, Old Dominion University

Hopkins Bowers, Heather (2016) Visiting Lecturer

Huang, Kuang-Yuan (2017) Assistant Professor

Huff, Richard A. (1997) Associate Professor; BS, San Diego State University; MS, North Texas State University; Ph.D., University of North Texas

Hurst, Travis J. (2018) Assistant Professor; BS, University of Texas-Dallas; MSc, University of Pittsburgh; Ph.D., University of Pittsburgh

Ihm, Dana E. (2003) Professor; BA, Pittsburg State University; MM, Pittsburg State University; Ph.D., University of South Carolina

Imes, Claudia (2011) Visiting Assistant Professor

Islam, M.D. (2017) Assistant Professor; BSCE, Bangladesh University of Engineering and Technology; MS, University of Minho; Ph.D., University of New Mexico

Jackson-Howard, Carla (2012) Visiting Assistant Professor
Jaksic, Nebojsa I. (2000) Professor; BSEE, Belgrade University, Belgrade, Yugoslavia; MSE, Ph.D., Ohio State University; MSISE, Ph.D., Ohio State University

Johnson, Joel W. (2010) Associate Professor; BA, San Jose State University; MA, University of California, San Diego; Ph.D., University of California, San Diego

K

Kies-Bolkema, Bethany (2015) Assistant Professor; BS, University of Wisconsin-LaCrosse; MPH, University of Wisconsin-LaCrosse; Ph.D. Southern Illinois University

Kinney, Chad (2007) Professor; BA, University of California at San Diego; Ph.D., Colorado School of Mines

Knight, Lynn (2017) Assistant Professor; BS, University of South Florida; MS University of South Florida, Ph.D. University of South Florida

Kremsinski, Richard (2009) Professor

Kwon, He-Boong (2012) Associate Professor; BS, Republic of Korea Air Force Academy; MS, Florida Institute of Technology; Ph.D., Florida Institute of Technology; MBA, Pacific Lutheran University; Post-Doctoral Bridge Program, University of Toledo

L

Langer, Carol L. (2014) Professor; BA, Peru State College; MSW, University of Nebraska-Omaha; Ph.D., University of Nebraska-Lincoln

Le?n, Danillo (2017) Assistant Professor; MA, University of Missouri-Columbia; Ph.D., University of Missouri-Columbia

Liebel, Steven R. (2012) Associate Professor / Director Homeland Security; BA, Texas Tech University; MA, Texas Tech University; Ph.D., University of North Texas

Long, Yuan (Yoanna) (2006) Associate Professor; BS, China University of Geoscience; MS, East China Computer Institute; Ph.D., University of Nebraska-Lincoln

Louisell, James (1989) Professor; BS, University of Minnesota; Ph.D., University of Minnesota

Lovato, Sam (2003) Professor / Department Chair; BS, Colorado State University-Pueblo; MA, University of Northern Colorado

Lundberg, Bruce (1993) Professor; BS, Grand Canyon University; MA, Arizona State University; MA, Fuller Theological Seminary; Ph.D., Colorado State University

M

Martinez, Lee Anne (1992) Associate Professor; BA, University of California at Santa Barbara; MA, University of California at Santa Cruz; Ph.D., Cornell University

Massey, Margie (2000) Associate Professor; AGS, Pueblo Community College; BSBA, Colorado State University-Pueblo; MS, University of Wyoming; Ed.D, University of Wyoming

McClaran, Steve (2008) Professor; BS, University of Northern Colorado; MA, University of Northern Colorado; MS, Colorado State University; Ph.D., University of Wisconsin

McGettigan, Timothy (2000) Professor; BA, University of California, Santa Barbara; MA, Washington State University; Ph.D., Washington State University

Mejias, Roberto J. (2013) Associate Professor; BS, University of Arizona; MS, University of Arizona; Ph.D., University of Arizona

Messer, Chris (2008) Associate Professor; BA, Oklahoma State University; MA, Oklahoma State University; Ph.D., Oklahoma State University

Metchkov, Zahari (2010) Associate Professor; BM, Cleveland Institute of Music; MM, Cleveland Institute of Music; DMA, Cleveland Institute of Music

Mills, Alan W. (2008) Professor / Director of Bands; BA, University of Minnesota-Morris; M.M.E., University of Colorado; M.M., University of Arizona; Ph.D., Florida State University

Mincic, Michael A. (2005) Associate Professor / Department Chair; BSCET, Colorado State University-Pueblo; M.Ed., Colorado State University; Professional Surveyor-Cleveland and New Mexico

Montoya, Yvonne (2012) Associate Professor; BA, University of Colorado-Boulder; MA, University of Phoenix; Ph.D., Arizona State University

Morales, Juan (2006) Associate Professor / Chair; BA, Colorado State University-Pueblo; MFA, University of New Mexico

Murtagh, Leslie (2014) Visiting Assistant Professor

N

Nichols, Janet G. (1977) Associate Professor; BA, Adelphi University; MS, Lehigh University

Nichols, Eleanor (2007) Visiting Assistant Professor

O

O’Connor, John K. (2008) Associate Professor; BA, Middle Tennessee State University; MA, Northern Illinois University; Ph.D., Boston College

P

Persons, Lisa (2014) Visiting Assistant Professor

Peters, Caroline (2006) Professor; BFA, Northern Illinois University; MFA, University of Montana

Peters, Timothy W. (2000) Associate Professor; BA, Carleton College; MS, University of Michigan; Ed.D, University of Wyoming

Piazza, Jenny (1996) Associate Professor; BA, Park College; MA, Adams State College; Ed.D., Oklahoma State University

Piccici, Chris L. (2008) Associate Professor; BA, Gonzaga University; MA, University of Oregon; Ph.D., University of Oregon

Pickerill, Marie (2017) Assistant Professor; BS, Tulane University; BA Tulane University; MS University of Arizona; Ph.D., Oregon State University

Poritz, Jonathan (2007) Associate Professor of Mathematics; A.B., Harvard University; S.M., University of Chicago; Ph.D., University of Chicago
Proctor, Kristina G. (1989) Professor; BS, Colorado State University-Pueblo; Ph.D., Colorado State University

Radigan, Patrick (2015) Visiting Assistant Professor

Ramos, Claire V. (2013) Associate Professor; BA, Bowdoin College; Ph.D., Washington State University

Rees, Jonathan (1999) Professor; BA, University of Pennsylvania; MA, University of Wisconsin-Madison; Ph.D. University of Wisconsin-Madison

Reilly-Sandoval, Arlene (2016) Associate Professor / Chair; BA, University of Colorado-Colorado Springs; MSW, Colorado State University-Fort Collins; DSW, Capella University

Reynolds-Stenson, Heidi (2018) Assistant Professor

Ribadeneira, Alegria (2006) Associate Professor / Associate Chair; BA, Fort Lewis College; MA, University of Florida, Gainesville; Ph.D., University of Florida, Gainesville

Richmond, Pam (2009) Associate Professor; BA, Saint Joseph College; MSW, University of Wisconsin-Milwaukee; Ph.D., Ohio State University

Robbe, Cathi J. (1999) Associate Professor; BS, Colorado State University-Pueblo; MS, Capella University

Rochester, Christine (2000) Professor; BS, Indiana University of Pennsylvania; MS, Canisius College; Ed.D., University of Northern Colorado

Rodriguez, Mario (2014) Assistant Professor

Sandmeier, Franziska (2016) Assistant Professor; BA, University of California-Berkley; Ph.D., University of Nevada-Reno

Schippers, Betsy (2016) Assistant Professor; BA, Dordt College; MLIS, University of Western Ontario

Schlosser, Jennifer (2015) Assistant Professor; BS, Missouri State University; MA, University of Missouri; Ph.D., University of Missouri

Shah, Abhay (1988) Associate Dean - HSB; BA, St. Xavier's College (Calcutta University); MBA, University of Evansville; Ph.D., Oklahoma State University

Smith, Jeff (2006) Associate Professor; BA, University of Minnesota; BS, University of Minnesota; Ph.D., University of New Mexico School of Medicine

Sparks, Kevin (2015) Assistant Professor

Strickler, Paul (2018) Assistant Professor

Van Winkle, Kevin (2017) Assistant Professor; BA, University of Colorado at Colorado Springs; MA, Colorado State University; Ph.D., Texas Tech University

Van Winkle, Jennifer (2017) Visiting Assistant Professor

Vanden Heuvel, Brian D. (2004) Professor / Director CBASE; BS, Colorado State University; Ph.D., University of Texas at Austin

Velasco, Jonathan B. (2017) Assistant Professor; BS, University of Texas-Pan American; MS, University of Texas-Pan American; Ph.D., University of Nebraska-Lincoln

Viall, Elizabeth (2016) Assistant Professor; BA, Eastern Washington University; MA, University of Alabama; Ph.D., Indiana University

Volk, David (2013) Professor / Chair / Dir Ctr Hnr & Ldr; BM, Florida State University; MM, Florida State University; DMA, University of Georgia

W

W Kulati Arthanayakam, Thusitha P (2019) Visiting Assistant Professor

Wakefield, Michael (2000) Professor; BA, New Mexico State University; MBA, New Mexico State University; Ph.D., University of Nebraska-Lincoln

Walker, W. Richard (2015) Associate Professor; BA, Ohio State University; MS, Kansas State University; Ph.D., Kansas State University

Weller, Grant (2016) Associate Professor / Chair; BA, Pennsylvania State University; MA, University of North Dakota; Ph.D., Temple University

Whetzel, Nancy (2006) Visiting Assistant Professor

Whited, Hsin-hui (Lida) (2001) Professor; BS, Soochow University; MA, The Claremont Graduate School; Ph.D., The Claremont Graduate School

Wollega, Ebisa (2015) Assistant Professor; BS, Mekelle University; MS, University of Oklahoma; Ph.D., University of Oklahoma

Wolstein, Alexis (2019) Assistant Professor

Wright, Carl (2013) Professor; BS, Virginia State University; MBA, Virginia Commonwealth University; Ph.D., Jackson State University

Y

Yesacavage, Karen (1992) Professor; BS, Northwest Missouri State University; MA, University of North Carolina-Greensboro; Ph.D., University of North Carolina-Greensboro

Z

Zimmerman, Rachel (2018) Assistant Professor

Zimmerman, Carla (2017) Assistant Professor

Zizza, Frank (2009) Professor; BS, Queens College; CUNY Queens College; Ph.D., University of California, Berkeley

Lecturers

B

Basnet, Minu (2018) Lecturer

Bremer, Adrienne (2006) Lecturer, BS, University of Southern Mississippi, MS, University of Southern Mississippi

Brown, Paul (2011) Lecturer, BA, Earlham College, MS, Purdue University, MS, Washington University, St. Louis
C
Clark, Laura (2002) Visiting Lecturer, BS, Pennsylvania State University, MS, University of Arizona
Conroy, Colleen (2001) Visiting Clinical Instructor, BS, New Mexico State University, MSEd, Northwest Missouri State University
E
Eickelman, Diane (2004) Lecturer / Staff Accompanist
F
Fass, Louis (2016) Visiting Lecturer
H
Hanenberg, Shawna (2014) Visiting Lecturer, BS, North Dakota State, MS, University of Kansas
Hawthorne, James (1999) Visiting Lecturer, BA, University of Kansas, MA, State University of New York at Stony Brook
Heedt, Dorothy (2007) Visiting Lecturer, MA, Colorado State University-Pueblo
Huff, Elizabeth (2017) Lecturer
Hurley, Byron (2006) Lecturer, BS, South Dakota School of Mines and Technology, MS, University of Wyoming
I
Iberri-Shea, Daniel E. (2017) Visiting Lecturer, BS, Northern Arizona University, MA, Northern Arizona University
J
Johnson, Sarah (2011) Visiting Lecturer
Johnston, Tatiana (2007) Visiting Lecturer, BA, DeVry University, MBA, DeVry University
L
Little, Constance (2006) Visiting Lecturer, BA, Western State College, MA, Colorado State University
Lobato, Matthew (2015) Lecturer, BA, Colorado State University, MA Universidad de Alcala
M
Maal, Diana (2008) Lecturer, BS, Texas A&M University, MS, University of Colorado-Colorado Springs
Marley, Karen (2010) Visiting Lecturer, BA, West Chester University, MA, West Chester University, MA, University of Phoenix
Martinez, Wayne (1997) Visiting Lecturer, BS, Colorado State University-Pueblo, MBA, Colorado State University-Pueblo
P
Pickering, Duane (1997) Lecturer, BA, Adams State College, MA, Adams State College
R
Ruggiero, Anthony (2016) Visiting Lecturer
S
Saphara, Jason (2002) Lecturer, BA, Colorado State University-Pueblo, MA, Kansas State University
Sargeant, William (2009) Lecturer, BA, Elmira College, Mathematics; BA, Elmira College;
Spangler, Julie (2006) Visiting Lecturer, BS, Ph.D., Colorado State University, MS, Colorado State University, Ph.D., Colorado State University
T
Turner, Aaron (2002) Visiting Lecturer, BS, Colorado State University-Pueblo, MM, University of North Texas
W
Watkins, Tamara (1992) Lecturer, BA, Colorado School of Mines, MSANS, Colorado State University-Pueblo
Williams, Maureen (2016) Lecturer, BA, McGill University, MA, University of Connecticut
Wink, Geri (2004) Visiting Lecturer, BBA, Sam Houston State University, MBA, Sam Houston State University
Y
Yanke, Ryan (2017) Visiting Lecturer
Artists-in-Residence
D
De Luca, Mike (2006) Artist-in-Residence, BA Colorado State University-Pueblo, MA, University of Colorado
E
Eberhardt, Allan R. (1991) Artist-in-Residence, BA, University of New Mexico, Graduate USAF NCO Academy
H
Hsu, Timothy (2015) Artist-in-Residence, BM, University of Central Oklahoma, MM, Peabody Conservatory
V
Van Gilder, Ryan (2014) Artist In Residence, BM, Universiss of Iowa, MM, University of Colorado, DMA, University of Colorado
Emeritus
A
Abrahamson, Gayle (1985-2008) AA, BA, MAR, MA, Professor Emeritus of Library Services
Aguilar, Kay M. (1964-1999) BS, MA, Ed.D., Professor Emerita of Exercise Science and Health Promotion

Aichele, Ronald G. (1972-2006) BA, MA, Ph.D., Professor Emeritus of Philosophy

Askwig, William J. (1962-1994) BSBA, MBA, Ph.D., Professor Emeritus of Economics

Bailey, Wade H. (1993-2013) BS, MS, Professor Emeritus of Civil Engineering Technology

Banks, Jessie (1966-1996) BS, MA, Professor Emerita of Human Performance and Leisure Studies

Barber, Margaret (1995-2009) BA, MA, Ph.D., Professor Emerita of English

Barnett, Janet H. (1990-2018) BS, MA, Ph.D., Professor Emerita of Mathematics

Bartlett, Thomas J. (1967-1977) BS, MA, Professor Emeritus of Mathematics

Benton, Johnny (1968-1996) BA, MA, Ph.D., Professor Emeritus of Speech Communication

Berardi, Gayle K. (1994-2018) BA, University of Colorado at Colorado Springs, MA, University of Colorado at Colorado Springs, Ph.D., University of Colorado, Professor of Political Science

Billington, Peter J. (1989-2014) BS, MBA, Ph.D., Professor Emeritus of Management

Borton, John M. (1983-2009) BA, MS, Ph.D., Professor Emeritus of Computer Information Systems

Bory, Rosanne (1984-2008) BA, MA, MA, Professor Emerita of Library Services

Bottini, Patrick W. (1968-1999) BS, MA, Professor Emeritus of Industrial Science and Technology

Bradley, Lawrence B. (1966-1988) BA, MA, Professor Emeritus of Speech Communication/Theater

Brassill, Joann A. (1967-1987) BA, MA, MFA, Professor Emerita of Art

Bright, Leon A. (1963-1995) BS, MA, Ph.D., Professor Emeritus of Foreign Language

C

Cameron, James (1970-2003) BA, MA, Ph.D., Professor Emeritus of Psychology

Chen, Frank (1982-2005) BSME, MSME, Ph.D., Professor Emeritus of Mechanical Engineering Technology

Cheng, Joseph K. (1973-2005) BS, MS, Ph.D., Professor Emeritus of Civil Engineering Technology

Cobiñ-Klein, Dora Luz (1995-2017) BA, MA, Ph.D., Professor Emeritus of Spanish

Connelly, Jerald (1979-1990) BS, Ph.D., Professor Emeritus of Chemistry

Cook, Robert N. (1981-1999) BEE, MSE, M.SC., Ph.D., Professor Emeritus of Computer Information Systems

Cotner, Jane (1960-1976) AB, BSLS, Professor Emerita of Library Sciences

Covi, Silvio (1986-2008) B.Th., MA, Ph.D., Professor Emeritus, of English/Foreign Languages

Croxton, Carol (1978-1994) BA, MA, Ph.D., Professor Emerita of English

D

Davison, Earl (1950-1975) BS, Professor Emeritus of Industrial Technology

Derr, James B. (1984-2007) BA, Ph.D., Professor Emeritus of Mathematics

Dille, Ralph (1976-1996) BA, BS, MA, Ph.D., Professor Emeritus of English

Dorsch, John A. (1965-2003) BA, MS, Ph.D., Professor Emeritus of Biology

Driscoll, Donald J. (1965-2001) BA, MA, Ph.D., Professor Emeritus of Philosophy

E

F

Farley, Mary (1991-1996) BSN, MS, Ph.D., Professor Emerita of Nursing

Forsyth, Dan W. (1983-2014) BA, MA, Ph.D., Professor Emeritus of Anthropology

G
Gill, John (1971-1999) BS, MA, Ph.D., Professor Emeritus of Mathematics

Green, Pearl (Penny) (1982-2014) BA, MA, Ph.D., Professor Emerita of Sociology

H
Hammer, Charles R. (1964-1995) BS, Ph.D., Professor Emeritus of Chemistry

Hench, Robert W. (1965-1993) BFA, MA, Professor Emeritus of Art

Herrmann, Scott J. (1968-2014) BS, Ph.D., Professor Emeritus of Biology

Hobbs, Harold (1966-1984) BA, MA, Ph.D., Professor Emeritus of Psychology

I
Ihrig, Paul R. (1946-1971) BS, MA, Professor Emeritus of Fine Arts

J
Janes, Donald W. (1963-1993) BA, MA, Ph.D., Professor Emeritus of Biology

Joyce, Richard (1994-2016) BS, MA, Associate Professor Emeritus of Mass Communications and New Media

K
Keller, Robert L. (1974-2005) BA, MS, Ph.D., Professor Emeritus of Sociology

Kleszynski, Margaret (2000-2014) BA, MLS, MS, Professor Emerita of Library Services

Knight, Shirley (1972-2000) AA, BSCE, MSCE, Professor Emerita of Civil Engineering Technology

Krinsky, Richard (1968-2005) BA, MA, Ph.D., Professor Emeritus of Psychology

Krinsky, Suzanne G. (1968-2005) BA, MA, Ph.D., Professor Emerita of Psychology

Kulkosky, Paul J. (1984-2010) BA, MA, Ph.D., Professor Emeritus of Psychology

Kuntzman, Ann (1993-2002) BA, MLS, Professor Emerita of Library Services

L
Li, Hung C. (1965-1990) BA, MS, Ph.D., Professor Emeritus of Mathematics

Linam, Jay (1965-1991) BS, MS, Ph.D., Professor Emeritus of Biology

Loats, Carol (1993-2014) BA, MA, Ph.D., Professor Emerita of History

M
Madrid, Leasher Dennis (1976-2013) BA, MS, Ph.D., Professor Emeritus of Psychology

Mahan, Kent (1969-1997) BS, Professor Emeritus of Chemistry

Marino, Charles J. (1966-1999) BA, BFA, MA, Professor Emeritus of Art

Marquesen, Victoria (1999-2014) BA, MA, Ph.D., Professor Emerita of Teacher Education

Massey, Frank A. (1963-2003) BIE, BBA, MS, MFA, Ph.D., Professor Emeritus of Engineering

Meyer, Russell J. (2000-2011) BA, MA, Ph.D., Professor Emeritus of English

Miller, Margaret (1976-1990) BA, MS, Ph.D., Professor Emerita of Teacher Education

Miller, Robert E. (1952-1983) BS, MS, Professor Emeritus of Chemistry

Milne, Donald C. (1965-1993) BA, MA, Ph.D., Professor Emeritus of English/Foreign Languages

Mo, Suchoon S. (1973-2002) BS, Ph.D., Professor Emeritus of Psychology

Moffeit, Tony (1976-2003) BS, MLS, Professor Emeritus of Library Science

Montgomery-Ratcliff, Barbara M. (2001-2012) BS, MA, Ph.D., Professor Emerita of Speech

Moore, Beverly (1970-2001) AA, BA, MA, Dean Emerita, University Library and Professor Emerita of Library Services

Mullen, Jennifer (1990-2013) BA, MA, Professor Emerita of Mass Communications and New Media

Muller, Doyle K. (1963-1999) BM, BA, Professor Emeritus of Music

Murray, Hallard (1969-1997) Professor Emeritus of Biology

N
Leary, Emmett (1972-2005) BA, MA, Ph.D., Professor Emeritus of Speech Communication

Orman, Patricia (1978-2010) BA, MA, Ph.D., Professor Emerita of Mass Communications and New Media

Osborn, Neal L. (1965-2004) BA, BA, MS, Ph.D., Professor Emeritus of Biology

Padgett, John J. (1967-1999) BS, MBA, Professor Emeritus of Computer Information Systems

Plonkey, Kenneth (1968-1998) BA, MA, Ph.D., Professor Emeritus of Theatre

Post-Gorden, Joan C. (1970-1999) BS, MS, Ph.D., Professor Emerita of Psychology

Reiff, Glenn A. (1978-1989) BS, MS, Professor Emeritus of Electronics Engineering Technology

Rodriguez-Arenas, Flor-Maria (1955-2014) MA, Ph.D., Professor Emerita of English/Foreign Languages (Spanish)

Ryan, John E. (1980-2012) BA, MA, Ph.D., Professor Emeritus of Education

Sabo, Barbara J. (1974-2004) RN, AA, BS, MS, Ph.D., Professor Emerita of Nursing

Sadler, George (1965-1987) BS, MS, Ph.D., Professor Emeritus of Economics

Sajbel, Edward (1955-1989) AA, BA, MA, Professor Emeritus of Art

Sandoval, David A. (1980-2011) BS, MA, Ph.D., Professor Emeritus of History

Sublette, James E. (1984-1995) BS, MS, Ph.D., Professor Emeritus of Biology

Tedrow, Charles E. (1968-1993) AB, MA, Professor Emeritus of Industrial Science Technology

Valerio, Luis G. (1975-2005) BA, MA, Ph.D., Professor Emeritus of Teacher Education

Vorndam, Paul E. (1994-2005) BA, MS, Ph.D., Professor Emeritus of Chemistry

Vunovich, Bogdan (Bob) (1967-1988) AB, MA, Professor Emeritus of Mathematics

Wallen, Marta J. (1987-2014) MS, Ph.D., Professor Emerita of Physics

Wands, Robert (1963-1996) BFA, MA, Professor Emeritus of Art

Watkins, Sallie A. (1966-1988) BS, MS, Ph.D., Professor Emerita of Physics

Whitmer, Jean J. (1970-1987) BA, MA, Ph.D., Professor Emerita of Education

Wilkes, Linda M. (1983-2011) BA, Ph.D., Professor Emerita of Chemistry

Wilkin, Ted (1999) Professor Emeritus of History

Williams, Euphemia G. (1995-2002) BS, MS, Ph.D., Professor Emerita of Nursing

Withnell, Melvin C. (1967-1994) BS, MS, MA, Ph.D., Professor Emeritus of Mathematics

Wright, Will (1986-2008) BA, MA, Ph.D., Professor Emeritus of Sociology

Zeis, Charles (1987-2010) BA, MS, Ph.D., Professor Emeritus of Business Administration
