

# COMMUNITIES TO BUILD ACTIVE STEM ENGAGEMENT

---

Communities To Build Active Stem Engagement (CBASE) courses are designed to work in conjunction with and provide support to students within the CBASE program and to meet the goals of CBASE, specifically to provide:

- Students with a support network within their research community, and
- An opportunity to learn, develop, and receive feedback on their scientific growth throughout the CBASE program.

These courses are intended to familiarize students with the scientific process (including research development, scientific inquiry, written and oral dissemination of research, experimental design and implementation), and provide students with academic support and mentoring throughout their undergraduate career in the STEM community.
