

ENGINEERING TECHNOLOGY & CONSTRUCTION MANAGEMENT DEPARTMENT

The unit of Engineering Technology and Construction Management consists of two BS programs: the Civil Engineering Technology program and the Construction Management program. The unit also offers construction management certificate programs and is a joint participant in offering an integrated 3+2 Baccalaureate (BS) in Construction Management and Master in Business Administration (MBA) program.

Civil Engineering Technology Program

This undergraduate engineering technology program leads to a Bachelor of Science in Civil Engineering Technology (BSCET) degree. The BSCET degree program prepares graduates for entry level positions to support civil engineering activities associated with the design, construction, operation and maintenance of structures, highways, water supply and disposal systems, and surface water drainage.

Construction Management Program

The Construction Management BS Degree is designed to prepare students for entry level positions in the heavy/civil or Commercial/Residential construction management industry.

Construction Management Certificate Options

Non-Construction Management Majors who wish to build their construction management knowledge in various discipline specific areas can obtain additional certificates
